ALPHA CAPITAL HOLDCO COMPANY

NOTICE OF EXTRAORDINARY GENERAL MEETING OF SHAREHOLDERS OF
ALPHA CAPITAL ACQUISITION COMPANY
TO BE HELD ON AUGUST 2, 2022

To the Shareholders of Alpha Capital Acquisition Company:

NOTICE IS HEREBY GIVEN that an extraordinary general meeting of shareholders (the “extraordinary general meeting”) of Alpha Capital Acquisition Company, a Cayman Island exempted company (“Alpha”), to be held physically at the offices of Davis Polk & Wardwell LLP located at 1600 El Camino Real, Menlo Park, California 94025, and online via live webcast, at 10:00 a.m., Eastern Time, on August 2, 2022, or at such other time, on such other date and at such other place to which the meeting may be adjourned. Due to public health concerns regarding the COVID-19 pandemic, and the importance of ensuring the health and safety of Alpha directors, officers, employees and shareholders, Alpha shareholders are encouraged to attend the extraordinary general meeting virtually via live webcast. To attend and participate in the extraordinary general meeting virtually, you must register at www.virtualshareholdermeeting.com/ASPC2022SM, which is referred to in the accompanying proxy statement/prospectus as the Alpha meeting website. Upon completing your registration, you will receive further instructions via email, including a unique link that will allow you access to the extraordinary general meeting and to vote and submit questions during the extraordinary general meeting. You are cordially invited to attend the extraordinary general meeting for the following purposes:

- (1) **Proposal No. 1 – The Business Combination Proposal:** to consider and vote upon a proposal to approve and adopt the Business Combination Agreement, dated as of November 16, 2021 (as may be amended, supplemented, or otherwise modified from time to time, the “Business Combination Agreement”, and, the transactions contemplated thereby, collectively, the “Business Combination”), by and among Alpha, Alpha Capital Holdco Company, a Cayman Islands exempted company (“New Semantix”) (whose name is expected to change to Semantix, Inc. upon closing of the Business Combination), Alpha Merger Sub I Company, a Cayman Islands exempted company and a direct, wholly owned subsidiary of New Semantix (“First Merger Sub”), Alpha Merger Sub II Company, a Cayman Islands exempted company and a direct, wholly owned subsidiary of New Semantix (“Second Merger Sub” and, together with First Merger Sub, the “SPAC Merger Subs”), Alpha Merger Sub III Company, a Cayman Islands exempted company and a direct, wholly owned subsidiary of New Semantix (“Third Merger Sub” and, together with SPAC Merger Subs, the “Merger Subs”) and Semantix Tecnologia em Sistema de Informação S.A., a *sociedade anônima* organized under the laws of Brazil (“Semantix”), a copy of which is attached to the accompanying proxy statement/prospectus as Annex A, pursuant to which, among other things, Semantix and Alpha will become wholly owned subsidiaries of New Semantix (the “Business Combination Proposal”);
- (2) **Proposal No. 2 – The Merger Proposal:** to authorize, by special resolution, the plan of merger (the “Plan of Merger”), a copy of which is attached to the accompanying proxy statement/prospectus as Annex B, pursuant to which First Merger Sub will be merged with and into Alpha, with Alpha surviving as a direct wholly owned subsidiary of New Semantix (the “Merger Proposal”);
- (3) **Proposal No. 3 – The Governing Documents Proposals:** to consider and vote upon three separate proposals (collectively, the “Governing Documents Proposals”) to approve, by special resolution, material differences between the amended and restated memorandum and articles of association of New Semantix to be in effect following the Business Combination, a copy of which is attached to the accompanying proxy statement/prospectus as Annex C (together, the “Proposed Governing Documents”), and the existing amended and restated memorandum and articles of association of Alpha (together, the “Existing Governing Documents”); and

- (4) **Proposal No. 4 – The Adjournment Proposal:** to consider and vote upon a proposal to adjourn the extraordinary general meeting to a later date or dates (i) to the extent necessary to ensure that any required supplement or amendment to the accompanying proxy statement/prospectus is provided to Alpha shareholders, (ii) in order to solicit additional proxies from Alpha shareholders in favor of one or more of the proposals at the extraordinary general meeting, or (iii) if Alpha shareholders redeem an amount of the public shares such that the condition to consummation of the Business Combination that the aggregate cash in the trust account, together with the net amount of proceeds actually paid to Alpha from the issuance and sale of an aggregate of 9,364,500 Alpha Class A Ordinary Shares at a price of \$10.00 per share pursuant to the subscription agreements with certain investors, equal no less than \$85,000,000 after deducting any amounts to be paid to Alpha shareholders that exercise their redemption rights in connection with the Business Combination would not be satisfied (the “[Adjournment Proposal](#)”).

Each of the Business Combination Proposal, the Merger Proposal, the Governing Documents Proposals and the Adjournment Proposal (collectively, the “[Transaction Proposals](#)”) is more fully described in the accompanying proxy statement/prospectus, which we urge each Alpha shareholder to review carefully.

Only holders of record of Alpha’s Class A ordinary shares, par value \$0.0001 per share (“[Alpha Class A Ordinary Shares](#)”) and Class B ordinary shares, par value \$0.0001 per share (“[Alpha Class B Ordinary Shares](#)”) at the close of business on June 14, 2022 are entitled to notice of and to vote and have their votes counted at the extraordinary general meeting and any adjournment of the extraordinary general meeting.

The accompanying proxy statement/prospectus and accompanying proxy card is being provided to Alpha shareholders in connection with the solicitation of proxies to be voted at the extraordinary general meeting and at any adjournment of the extraordinary general meeting. Whether or not you plan to attend the extraordinary general meeting, all Alpha shareholders are urged to read the accompanying proxy statement/prospectus, including the Annexes thereto and the documents referred to herein carefully and in their entirety. You should also carefully consider the risk factors described in “[Risk Factors](#)” beginning on page 74 of the accompanying proxy statement/prospectus.

After careful consideration, the board of directors of Alpha has unanimously approved the Business Combination Agreement and the transactions contemplated thereby, including the Mergers, and unanimously recommends that shareholders vote “FOR” the Business Combination Proposal, the Merger Proposal, the Governing Documents Proposals and the Adjournment Proposal. When you consider the recommendation of these proposals by the board of directors of Alpha, you should keep in mind that Alpha’s directors and officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor, certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/prospectus.*” in the accompanying proxy statement/prospectus for a further discussion of these considerations.

Pursuant to Alpha’s Existing Governing Documents, holders of Alpha’s Class A ordinary shares may request that Alpha redeem all or a portion of its Class A ordinary shares (such shares, the “[public shares](#)” and such holders the “[public shareholders](#)”) for cash if the Business Combination is consummated. As a public shareholder, you will be entitled to receive cash for any public shares to be redeemed only if you:

(i) (a) hold public shares, or (b) if you hold public shares through units, you elect to separate your units into the underlying public shares and warrants prior to exercising your redemption rights with respect to the public shares;

(ii) submit a written request to Continental Stock Transfer & Trust Company (“[Continental](#)”), Alpha’s transfer agent, in which you (a) request that Alpha redeem all or a portion of your public shares for cash, and

- (b) identify yourself as the beneficial holder of the public shares and provide your legal name, phone number and address; and
- (iii) deliver your share certificates (if any) and other redemption forms (as applicable) to Continental physically or electronically through The Depository Trust Company.

Holders must complete the procedures for electing to redeem their public shares in the manner described above prior to 5:00 p.m., Eastern Time, on July 29, 2022 (two business days before the extraordinary general meeting) in order for their shares to be redeemed.

Holders of units must elect to separate the units into the underlying public shares and warrants prior to exercising redemption rights with respect to the public shares. If holders hold their units in an account at a brokerage firm or bank, holders must notify their broker or bank that they elect to separate the units into the underlying public shares and warrants, or if a holder holds units registered in its own name, the holder must contact Continental directly and instruct them to do so. The redemption rights include the requirement that a holder must identify itself in writing as a beneficial holder and provide its legal name, phone number, and address to Continental in order to validly redeem its shares. Public shareholders may elect to redeem public shares regardless of whether or how they vote in respect of the Business Combination Proposal. If the Business Combination is not consummated, the public shares will be returned to the respective holder, broker, or bank. If the Business Combination is consummated, and if a public shareholder properly exercises its right to redeem all or a portion of the public shares that it holds and timely delivers its shares to Continental, Alpha will redeem such public shares for a per-share price, payable in cash, equal to the pro rata portion of the trust account established at the consummation of Alpha's initial public offering, calculated as of two business days prior to the consummation of the Business Combination. For illustrative purposes, as of June 10, 2022, this would have amounted to approximately \$10.01 per issued and outstanding public share. If a public shareholder exercises its redemption rights in full, then it will be electing to exchange its public shares for cash and will no longer own public shares. See "*Extraordinary General Meeting of Alpha—Redemption Rights*" in this proxy statement/prospectus for a detailed description of the procedures to be followed if you wish to redeem your public shares for cash.

Notwithstanding the foregoing redemption rights, Alpha's Existing Governing Documents provide that a public shareholder, together with any affiliate of such public shareholder or any other person with whom such public shareholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended ("Exchange Act")), will be restricted from redeeming its public shares with respect to more than an aggregate of 15% of the public shares. Accordingly, if a public shareholder, alone or acting in concert or as a group, seeks to redeem more than 15% of the public shares, then any such shares in excess of that 15% limit would not be redeemed for cash and such excess public shares would be converted into the merger consideration in connection with the Business Combination. There will be no redemption rights with respect to Alpha's warrants. In addition, Alpha Capital Sponsor LLC (the "Sponsor") has entered into a letter agreement (the "Sponsor IPO letter agreement") with Alpha pursuant to which Sponsor has agreed, in partial consideration of receiving its Alpha Class B Ordinary Shares issued to Sponsor ("Founder Shares") and for the covenants and commitments of Alpha therein, to waive its redemption rights with respect to its Founder Shares and any public shares Sponsor may have acquired after Alpha's IPO in connection with the completion of the Business Combination.

The Business Combination Agreement is subject to the satisfaction or waiver of certain other closing conditions as described in the accompanying proxy statement/prospectus, including, among other things, the approval of the Transaction Proposals. There can be no assurance that the closing conditions will be satisfied or that the parties to the Business Combination Agreement would waive any such provision of the Business Combination Agreement. In addition, in no event will Alpha redeem public shares in an amount that would cause Alpha's net tangible assets (as determined in accordance with Rule 3a51-1(g)(1) of the Exchange Act) to be less than \$5,000,001 after giving effect to the transactions contemplated by the Business Combination Agreement, including the Mergers and the PIPE Financing.

Alpha's shareholders should be aware that each of BofA Securities, Inc. ("**BofA Securities**"), Citigroup Global Markets Inc. ("**Citi**") and Banco de Investimentos Credit Suisse (Brasil) S.A. ("**Credit Suisse**") (collectively, the "**Advisors**") has resigned from all of their roles as capital markets advisors, financial advisors and underwriters, as the case may be, in connection with the Business Combination. In addition, Citi has resigned as underwriter pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, and has disclaimed any responsibility for any portion of this proxy statement/prospectus. BofA Securities has resigned as underwriter for all purposes, waived its deferred underwriting fees and requested that BofA Securities be removed from further correspondence in connection with the Business Combination. Further, Credit Suisse has resigned from, or ceased or refused to act in, every capacity and relationship in which it was described in this proxy statement/prospectus or agreeing to act with respect to the Business Combination and, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, has disclaimed responsibility for any part of this proxy statement/prospectus. Shareholders should be aware that the resignation of the Advisors indicates that the Advisors do not want to be associated with the disclosure in this proxy statement/prospectus or the transactions contemplated hereby, and shareholders should not place any reliance on the participation of the Advisors prior to such resignation in the transactions contemplated by this proxy statement/prospectus.

Your vote is very important. Whether or not you plan to attend the extraordinary general meeting, please vote as soon as possible by following the instructions in the accompanying proxy statement/prospectus to make sure that your shares are represented at the extraordinary general meeting. If you hold your shares in "street name" through a bank, broker, or other nominee, you will need to follow the instructions provided to you by your bank, broker, or other nominee to ensure that your shares are represented and voted at the extraordinary general meeting.

If you sign, date, and return your proxy card without indicating how you wish to vote, your proxy will be voted "FOR" each of the proposals presented at the extraordinary general meeting. If you fail to return your proxy card or fail to instruct your bank, broker, or other nominee how to vote, and do not attend the extraordinary general meeting in person, the effect will be, among other things, that your shares will not be counted for purposes of determining whether a quorum is present at the extraordinary general meeting. If you are a shareholder of record and you attend the extraordinary general meeting and wish to vote in person, you may withdraw your proxy and vote in person.

Your attention is directed to the remainder of the accompanying proxy statement/prospectus following this notice (including the Annexes and other documents referred to herein) for a more complete description of the proposed Business Combination and related transactions and each of the proposals. You are encouraged to read the accompanying proxy statement/prospectus carefully and in its entirety, including the Annexes hereto and other documents referred to herein. King & Co., Inc., Alpha's proxy solicitor, by calling (866) 620-2535, or banks and brokers can call collect at (212) 269-5550, or by emailing ASPC@dfking.com.

By Order of the Board of Directors of Alpha Capital Acquisition Company,

Alec Oxenford
Chairman and Chief Executive Officer

This proxy statement/prospectus is dated July 11, 2022 and is first being mailed to shareholders of Alpha on or about that date.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES REGULATORY AGENCY HAS APPROVED OR DISAPPROVED THE TRANSACTIONS DESCRIBED IN THIS PROXY STATEMENT/PROSPECTUS OR ANY OF THE SECURITIES TO BE ISSUED IN THE BUSINESS COMBINATION, PASSED UPON THE MERITS OR FAIRNESS OF THE BUSINESS COMBINATION OR RELATED TRANSACTIONS OR PASSED UPON THE ADEQUACY OR ACCURACY OF THE DISCLOSURE IN THIS PROXY STATEMENT/PROSPECTUS. ALPHA CAPITAL ACQUISITION COMPANY
1230 Avenue of the Americas, 16th Floor
New York, NY 10020

Dear Alpha Capital Acquisition Company Shareholders:

You are cordially invited to attend the extraordinary general meeting of shareholders of Alpha Capital Acquisition Company (the “extraordinary general meeting”), which we refer to as “we,” “us,” “our” or “Alpha”, to be held physically at the offices of Davis Polk & Wardwell LLP located at 1600 El Camino Real, Menlo Park, California 94025, and online via live webcast, at 10:00 a.m., Eastern Time, on August 2, 2022, or at such other time, on such other date and at such other place to which the meeting may be adjourned. Due to public health concerns regarding the COVID-19 pandemic, and the importance of ensuring the health and safety of Alpha directors, officers, employees and shareholders, Alpha shareholders are encouraged to attend the extraordinary general meeting virtually via live webcast. To attend and participate in the extraordinary general meeting virtually, you must register at www.virtualshareholdermeeting.com/ASPC2022SM, which is referred to in the accompanying proxy statement/prospectus as the Alpha meeting website. Upon completing your registration, you will receive further instructions via email, including a unique link that will allow you access to the extraordinary general meeting and to vote and submit questions during the extraordinary general meeting.

At the extraordinary general meeting, our shareholders will be asked to consider and vote upon a proposal, which we refer to as the “Business Combination Proposal,” to approve a business combination (the “Business Combination”) by the approval and adoption of that certain Business Combination Agreement, dated as of November 16, 2021 (as may be amended, supplemented, or otherwise modified from time to time, the “Business Combination Agreement”) that Alpha has entered into with Alpha Capital Holdco Company, a Cayman Islands exempted company (“New Semantix”), Alpha Merger Sub I Company, a Cayman Islands exempted company and a direct, wholly owned subsidiary of New Semantix (“First Merger Sub”), Alpha Merger Sub II Company, a Cayman Islands exempted company and a direct, wholly owned subsidiary of New Semantix (“Second Merger Sub”) and, together with First Merger Sub, the “SPAC Merger Subs”), Alpha Merger Sub III Company, a Cayman Islands exempted company and a direct, wholly owned subsidiary of New Semantix (“Third Merger Sub” and, together with SPAC Merger Subs, the “Merger Subs”) and Semantix Tecnologia em Sistema de Informação S.A., a *sociedade anônima* organized under the laws of Brazil (“Semantix”), including the transactions contemplated thereby. A copy of the Business Combination Agreement is attached to the accompanying proxy statement/prospectus as Annex A.

As further described in the accompanying proxy statement/prospectus, subject to the terms and conditions of the Business Combination Agreement, the following transactions will occur:

(a) Prior to the closing of the Business Combination (the “Closing”), the Semantix shareholders will contribute their shares of Semantix into a newly incorporated entity in the Cayman Islands (“Newco”) in exchange for ordinary shares of Newco (“Newco Ordinary Shares”) (the “Pre-Closing Exchange”).

(b) On the day of the Closing (the “Closing Date”), (i) First Merger Sub shall be merged with and into Alpha (the “First Merger” and the effective time of the First Merger, the “First Effective Time”), with Alpha surviving as a direct wholly owned subsidiary of New Semantix, (ii) immediately following the First Merger, Alpha, shall be merged with and into Second Merger Sub (the “Second Merger” and, together with the First Merger, the “SPAC Mergers”), with Second Merger Sub surviving as a direct wholly owned subsidiary of New Semantix, and (iii) as promptly as practicable following the Second Merger, Third Merger Sub shall be merged with and into Newco (the “Third Merger” and the effective time, “Third Effective Time”, and, the Newco Merger together with the SPAC Merger, the “Mergers”) with Newco surviving as a direct wholly owned subsidiary of New Semantix.

(c) At the First Effective Time, (i) each issued and outstanding Alpha Class A Ordinary Share and Alpha Class B Ordinary Share will be canceled and converted into the right to receive one ordinary share, par value \$0.001 per share, of New Semantix (“New Semantix Ordinary Shares”) and (ii) each issued and outstanding whole warrant to purchase Alpha Class A Ordinary Shares will be converted into the right to purchase one New Semantix Ordinary Share at an exercise price of \$11.50 per share (“New Semantix”).

Warrants”), subject to the same terms and conditions existing prior to such conversion. At the Third Effective Time, based on (i) an implied equity value of \$620 million and (ii) a \$10.00 per share price for New Semantix Ordinary Shares, (A) each issued and outstanding Newco Ordinary Share will be cancelled and converted into the right to receive the applicable portion of the merger consideration comprised of New Semantix Ordinary Shares, as determined in accordance with the exchange ratio set forth in the Business Combination Agreement (the “Exchange Ratio”), (B) each outstanding vested option to purchase Semantix Class A preferred shares (the “Vested Semantix Options”) will be “net exercised” in full immediately prior to the Third Effective Time and, at the Third Effective Time, such net number of Semantix Class A preferred shares will be converted into a number of New Semantix Ordinary Shares determined in accordance with the Exchange Ratio and (C) each outstanding unvested option to purchase Semantix Class A preferred shares (the “Unvested Semantix Options”) will be converted into an option to acquire New Semantix Ordinary Shares, with an amount and value determined in accordance with the Exchange Ratio.

In addition, certain Semantix shareholders will receive additional consideration in the form of earn-out of New Semantix Ordinary Shares (the “Semantix Earn-Out Shares”). The Semantix Earn-Out Shares consists of up to an additional 2,500,000 newly issued New Semantix Ordinary Shares. The Semantix Earn-Out Shares will be issued in two equal 1,250,000 tranches based on the achievement of post-Closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date. A given share price target described above will also be achieved if there is a transaction during the relevant period that results in the New Semantix Ordinary Shares being converted into the right to receive cash or other consideration having a per share value in excess of the applicable post-Closing share price target set forth above. Such Semantix shareholders’ right and entitlement to receive the Semantix Earn-Out Shares will be forfeited to the extent that the relevant share price targets have not been achieved by the fifth anniversary of the Closing Date.

As a result of the Business Combination, Semantix and Second Merger Sub (which Alpha will be merged with and into) will each become a wholly owned indirect and direct subsidiary, respectively, of New Semantix. Upon the Closing, the name of New Semantix is expected to be changed to Semantix, Inc.

In connection with the foregoing and concurrently with the execution of the Business Combination Agreement, Alpha entered into Subscription Agreements (the “Subscription Agreements”) with certain investors (the “PIPE Investors”), pursuant to which the PIPE Investors agreed to subscribe for and purchase, and Alpha agreed to issue and sell to the PIPE Investors an aggregate of 9,364,500 Alpha Class A Ordinary Shares at a price of \$10.00 per share, for aggregate gross proceeds of \$93,645,000 (the “PIPE Financing”). Two of the PIPE Investors are affiliates of our sponsor Alpha Capital Sponsor, LLC (the “Sponsor”) and are officers and directors of Alpha and have agreed to subscribe for 100,000 Alpha Class A Ordinary Shares in the aggregate and two of the PIPE Investors are affiliates of Semantix that have agreed to subscribe for 6,146,500 Alpha Class A Ordinary Shares in the aggregate, all pursuant to the Subscription Agreements on the same terms and conditions as all other PIPE Investors. The Alpha Class A Ordinary Shares to be issued pursuant to the Subscription Agreements have not been registered under the Securities Act of 1933, as amended (the “Securities Act”), in reliance upon the exemption provided in Section 4(a)(2) of the Securities Act. New Semantix has also agreed to grant to the PIPE Investors certain customary registration rights in connection with the PIPE Financing. The PIPE Financing is contingent upon, among other things, the substantially concurrent closing of the Business Combination.

Further, Innova Capital SPAC, LP (“Innova”), a shareholder of Alpha and affiliate of Sponsor, which owns 2,300,000 Alpha Class A Ordinary Shares, has agreed pursuant to that certain Shareholder Non-Redemption Agreement, dated as of November 16, 2021 (the “Shareholder Non-Redemption Agreement”) to, among other things, vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of Alpha shareholders is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that Innova holds of record or beneficially. As of the date of the accompanying proxy statement/prospectus, the Sponsor and its affiliates subject to the voting obligations under the Sponsor Letter Agreement or Shareholder Non-Redemption Agreement, respectively, collectively own approximately 28.0% of the issued and outstanding ordinary shares.

[Table of Contents](#)

It is anticipated that, upon completion of the Business Combination, our Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) will own approximately 8.1% (including earn-out shares subject to vesting) and our public shareholders (other than Innova) will own approximately 20.7%, respectively, of the issued and outstanding New Semantix Ordinary Shares, the PIPE Investors (other than Semantix's existing shareholders and the Sponsor's affiliates (consisting of certain entities affiliated with Alec Oxenford and Rafael Steinhauser)) will own approximately 3.2% of the issued and outstanding New Semantix Ordinary Shares and Semantix's existing shareholders (when taken together with the New Semantix Ordinary Shares to be issued to the holders of the Vested Semantix Options immediately prior to the Closing) will own approximately 68.1% of the issued and outstanding New Semantix Ordinary Shares. These percentages are calculated based on a number of assumptions and are subject to adjustment in accordance with the terms of the Business Combination Agreement. These relative percentages assume that none of Alpha's existing shareholders exercise their redemption rights. These percentages do not include any transactions that may be entered into after the date hereof or any exercise or conversion of the New Semantix Warrants, Unvested Semantix Options or the issuance of any Semantix Earn-Out Shares. If any of Alpha's public shareholders exercise redemption rights, or any of the other assumptions are not true, these percentages will be different. You should read "*Summary of the Proxy Statement/Prospectus—Ownership of New Semantix Upon Completion of the Business Combination*" and "*Unaudited Pro Forma Condensed Combined Financial Information*" for further information.

In addition to the Business Combination Proposal, you will also be asked to consider and vote upon: (a) a proposal to approve, by special resolution, the plan of merger, a copy of which is attached to the accompanying proxy statement/prospectus as Annex B, in relation to the First Merger (the "Merger Proposal"); (b) three separate proposals (collectively, the "Governing Documents Proposals") to approve, by special resolution, certain material differences between the amended and restated memorandum and articles of association of New Semantix to be in effect following the Business Combination, a copy of which is attached to the accompanying proxy statement/prospectus as Annex C (together, the "Proposed Governing Documents"), and the existing amended and restated memorandum and articles of association of Alpha (together, the "Existing Governing Documents"); and (c) a proposal to adjourn the extraordinary general meeting to a later date or dates, if necessary, for one or more of the Adjournment Purposes (as defined below), which is referred to herein as the "Adjournment Proposal." Each of these proposals is more fully described in the accompanying proxy statement/prospectus, which each shareholder is encouraged to read carefully and in its entirety.

The Adjournment Proposal provides for a vote to adjourn the extraordinary general meeting to a later date or dates (i) to the extent necessary to ensure that any required supplement or amendment to the accompanying proxy statement/prospectus is provided to Alpha shareholders, (ii) in order to solicit additional proxies from Alpha shareholders in favor of one or more of the proposals at the extraordinary general meeting, or (iii) if Alpha shareholders redeem an amount of the public shares such that the condition to consummation of the Business Combination that the aggregate cash in the trust account, together with the net amount of proceeds actually paid to Alpha from the issuance and sale of an aggregate of 9,364,500 Alpha Class A Ordinary Shares at a price of \$10.00 per share pursuant to the subscription agreements with certain investors, equal no less than \$85,000,000 after deducting any amounts to be paid to Alpha shareholders that exercise their redemption rights in connection with the Business Combination would not be satisfied (such condition, the "Minimum Available Cash Condition") (clause (i), (ii), and (iii), collectively the "Adjournment Purposes"). In no event, however, will we redeem Alpha Class A Ordinary Shares in an amount that would cause our net tangible assets to be less than \$5,000,001.

In connection with the Business Combination, certain related agreements have been, or will be entered into on or prior to the closing of the Business Combination, including the Voting and Support Agreement, the Lock-up Agreement, the Subscription Agreements, the Shareholder Non-Redemption Agreement, the Sponsor Letter Agreement, the Shareholders Agreement, the Exchange Agreement and the A&R Registration Rights Agreement (each as defined in the accompanying proxy statement/prospectus). See "*Business Combination Proposal—Certain Agreements Related to the Business Combination*" in the accompanying proxy statement/prospectus for more information.

[Table of Contents](#)

Under the Business Combination Agreement, the closing of the Business Combination is subject to a number of customary closing conditions, including (i) Alpha having at least \$5,000,001 of net tangible assets following the exercise by the holders of the Alpha Class A Ordinary Shares issued in Alpha's initial public offering of securities and outstanding immediately before the First Effective Time of their right to redeem their Alpha Class A Ordinary Shares in accordance with the Existing Governing Documents, (ii) the absence of any material adverse effect, (iii) Alpha shareholders having approved the Business Combination Proposal and each of the other proposals presented to Alpha shareholders in this proxy statement/prospectus and (vi) the Minimum Available Cash Condition. If any of the conditions to Semantix's obligation to consummate the Business Combination are not satisfied, then Semantix will not be required to consummate the Business Combination.

The Alpha Class A Ordinary Shares and Alpha's warrants and units are currently listed on Nasdaq under the symbols "ASPC," "ASPCW" and "ASPCU," respectively. New Semantix has applied to list its New Semantix Ordinary Shares and warrants on the Nasdaq under the symbols "STIX" and "STIXW," respectively, in connection with the closing of the Business Combination. We cannot assure you that the New Semantix Ordinary Shares or its warrants will be approved for listing on the Nasdaq. Each of Alpha and Semantix is an "emerging growth company" as defined in the Jumpstart Our Business Startups Act of 2012 is, and consequently, following the Business Combination, New Semantix will be, an "emerging growth company". As such, New Semantix has elected to comply with certain reduced public company reporting requirements.

Pursuant to the Existing Governing Documents, an Alpha shareholder may request that Alpha redeem all or a portion of such public shares for cash if the Business Combination is consummated. Holders of units must elect to separate the units into the underlying public shares and warrants prior to exercising redemption rights with respect to the public shares. If holders hold their units in an account at a brokerage firm or bank, holders must notify their broker or bank that they elect to separate the units into the underlying public shares and warrants, or if a holder holds units registered in its own name, the holder must contact Continental Stock Transfer & Trust Company ("Continental"), Alpha's transfer agent, directly and instruct it to do so. The redemption rights include the requirement that a holder must identify itself in writing as a beneficial holder and provide its legal name, phone number, and address to Continental in order to validly redeem its shares. **Alpha shareholders may elect to redeem their public shares even if they vote "FOR" the Business Combination Proposal.** If the Business Combination is not consummated, the public shares will be returned to the respective holder, broker, or bank. If the Business Combination is consummated, and if an Alpha shareholder properly exercises its right to redeem all or a portion of the public shares that it holds and timely delivers its share certificates (if any) and other redemption forms to Continental, Alpha will redeem such public shares (or portion thereof, as applicable) for a per-share price, payable in cash, equal to the pro rata portion of the trust account established at the consummation of Alpha's initial public offering, calculated as of two business days prior to the consummation of the Business Combination. For illustrative purposes, as of June 10, 2022, based on funds contained in the trust account of approximately \$230.3 million, this would have amounted to approximately \$10.01 per issued and outstanding public share. If an Alpha shareholder exercises its redemption rights in full, then it will be electing to exchange its public shares for cash and will no longer own public shares. See "*Extraordinary General Meeting of Alpha—Redemption Rights*" in the accompanying proxy statement/prospectus for a detailed description of the procedures to be followed if you wish to redeem your public shares for cash. Notwithstanding the foregoing, an Alpha shareholder, together with any affiliate of such public shareholder or any other person with whom such Alpha shareholder is acting in concert or as a "group" (as defined in Section 13(d)(3) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), will be restricted from redeeming its public shares with respect to more than an aggregate of 15% of the public shares. Accordingly, if an Alpha shareholder, alone or acting in concert or as a group, seeks to redeem more than 15% of the public shares, then any such shares in excess of that 15% limit would not be redeemed for cash and such excess public shares would be converted into the merger consideration in connection with the Business Combination.

Subsequent to the execution of the Business Combination Agreement, the Semantix shareholders approved the Business Combination and agreed to perform the Pre-Closing Exchange, including the exchange of their shares of Semantix for the Newco Ordinary Shares, and ultimately the exchange of their Newco Ordinary Shares for New Semantix Ordinary Shares.

The Sponsor, which owns 5,750,000 Class B ordinary shares of Alpha, has agreed pursuant to that certain Sponsor Letter Agreement, dated as of November 16, 2021 (the “[Sponsor Letter Agreement](#)”) to, among other things, (i) vote in favor of the Business Combination Agreement and the transactions contemplated thereby (including any amendments to the Existing Governing Documents) and (ii) waive certain anti-dilution protections to which they would otherwise be entitled in connection with the Business Combination, in each case, on the terms and subject to the conditions set forth in the Sponsor Letter Agreement. In addition, the Sponsor has agreed, pursuant to the Sponsor Letter Agreement, that 862,500 of New Semantix Ordinary Shares to be issued to Sponsor in respect of the Class B ordinary shares of Alpha held by the Sponsor as of the date of the Sponsor Letter Agreement (such 862,500 shares of New Semantix Ordinary Shares, the “[Alpha Earn-Out Shares](#)”) will be subject to vesting requirements. The Alpha Earn-Out Shares will vest in two equal 431,250 tranches based on the achievement of post-Closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing at any time after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date. A given share price target described above is also achieved if there is a transaction during the relevant period that results in the New Semantix Ordinary Shares being converted into the right to receive cash or other consideration having a per share value in excess of the applicable post-Closing share price target set forth above. The Alpha Earn-Out Shares that have not vested by the fifth anniversary of the Closing shall, automatically and without further action on the part of New Semantix or any holder thereof, be forfeited and cancelled for no consideration. Prior to vesting or forfeiture, the Alpha Earn-Out Shares will, with the exception of the right to receive dividends and other limited exceptions, be entitled to all rights of other shares of New Semantix Ordinary Shares. See “*Business Combination Proposal—Certain Agreements Related to the Business Combination—Sponsor Letter Agreement*” in the accompanying proxy statement/prospectus for more information related to the Sponsor Letter Agreement.

In addition, if the Business Combination is consummated, New Semantix, the Sponsor and certain other shareholders of Semantix will enter into an Amended and Restated Registration Rights Agreement (the “[A&R Registration Rights Agreement](#)”), which will amend and restate in its entirety Alpha’s existing Registration Rights Agreement, dated as of February 18, 2021, by and among Alpha and Sponsor as of the Closing. As a result, the Sponsor and certain other shareholders of Semantix party thereto will be able to make a written demand for registration under the Securities Act of all or a portion of their registrable securities, subject to certain limitations, so long as such demand includes a number of registrable securities (as defined below) with a total offering price in excess of \$30 million. Any such demand may be in the form of an underwritten offering, it being understood that, subject to certain exceptions, New Semantix shall not be required to conduct more than an aggregate total of six underwritten offerings in any 12-month period. In addition, the holders of registrable securities will have “piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing. New Semantix has also agreed to file with the SEC a resale shelf registration statement covering the resale of all registrable securities within 30 days of the Closing, to be declared effective within 90 days of the Closing. See “*Business Combination Proposal—Certain Agreements Related to the Business Combination—Amended and Restated Registration Rights Agreement*” in the accompanying proxy statement/prospectus for more information related to the Amended and Restated Registration Rights Agreement.

We are providing the accompanying proxy statement/prospectus and accompanying proxy card to our shareholders in connection with the solicitation of proxies to be voted at the extraordinary general meeting and at any adjournments or postponements of the extraordinary general meeting. **Whether or not you plan to attend the extraordinary general meeting, all Alpha shareholders are urged to read the accompanying proxy statement/prospectus, including the Annexes thereto and other documents referred to therein, carefully and in their entirety. You should also carefully consider the risk factors described in “[Risk Factors](#)” beginning on page 74 of the accompanying proxy statement/prospectus.**

After careful consideration, the board of directors of Alpha has unanimously approved the Business Combination Agreement and the transactions contemplated thereby, including the Mergers, and unanimously recommends that shareholders vote “FOR” the Business Combination Proposal, the Merger Proposal, the Governing Documents Proposals and the Adjournment Proposal. When you consider the recommendation of these proposals by the board of directors of Alpha, you should keep in mind that

[Table of Contents](#)

Alpha's directors and officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled *"Business Combination Proposal—Interests of Alpha's Directors and Executive Officers in the Business Combination"* and *"Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor, certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/prospectus"* in the accompanying proxy statement/prospectus for a further discussion of these considerations.

The approval of each of the Merger Proposal and the Governing Documents Proposals requires a special resolution under Cayman Islands law, being the affirmative vote of holders of a majority of at least two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting. The approval of each of the Business Combination Proposal and the Adjournment Proposal requires an ordinary resolution under Cayman Islands law, being the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting.

Alpha's shareholders should be aware that each of BofA Securities, Inc. ("**BofA Securities**"), Citigroup Global Markets Inc. ("**Citi**") and Banco de Investimentos Credit Suisse (Brasil) S.A. ("**Credit Suisse**") (collectively, the "**Advisors**") has resigned from all of their roles as capital markets advisors, financial advisors and underwriters, as the case may be, in connection with the Business Combination. In addition, Citi has resigned as underwriter pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, and has disclaimed any responsibility for any portion of this proxy statement/prospectus. BofA Securities has resigned as underwriter for all purposes, waived its deferred underwriting fees and requested that BofA Securities be removed from further correspondence in connection with the Business Combination. Further, Credit Suisse has resigned from, or ceased or refused to act in, every capacity and relationship in which it was described in this proxy statement/prospectus or agreeing to act with respect to the Business Combination and, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, has disclaimed responsibility for any part of this proxy statement/prospectus. Shareholders should be aware that the resignation of the Advisors indicates that the Advisors do not want to be associated with the disclosure in this proxy statement/prospectus or the transactions contemplated hereby, and shareholders should not place any reliance on the participation of the Advisors prior to such resignation in the transactions contemplated by this proxy statement/prospectus. See *"Summary—Recent Developments"*.

Your vote is very important. Whether or not you plan to attend the extraordinary general meeting, please vote as soon as possible by following the instructions in the accompanying proxy statement/prospectus to make sure that your shares are represented at the extraordinary general meeting. If you hold your shares in "street name" through a bank, broker, or other nominee, you will need to follow the instructions provided to you by your bank, broker, or other nominee to ensure that your shares are represented and voted at the extraordinary general meeting.

If you sign, date, and return your proxy card without indicating how you wish to vote, your proxy will be voted "FOR" each of the proposals presented at the extraordinary general meeting. If you fail to return your proxy card or fail to instruct your bank, broker, or other nominee how to vote, and do not attend the extraordinary general meeting in person, the effect will be, among other things, that your shares will not be counted for purposes of determining whether a quorum is present at the extraordinary general meeting. Accordingly, your failure to vote by proxy or to vote in person at the extraordinary general meeting, an abstention from voting or a broker non-vote will have the same effect as a vote "AGAINST" the Business Combination Proposal, the Merger Proposal and the Governing Documents Proposals. If you are a shareholder of record and you attend the extraordinary general meeting and wish to vote in person, you may withdraw your proxy and vote in person.

TO EXERCISE YOUR REDEMPTION RIGHTS, YOU MUST DEMAND IN WRITING THAT YOUR PUBLIC SHARES (OR A SPECIFIED PORTION OF THEM) ARE REDEEMED FOR A PRO RATA PORTION OF THE FUNDS HELD IN THE TRUST ACCOUNT AND TENDER YOUR SHARES TO

[Table of Contents](#)

CONTINENTAL, ALPHA'S TRANSFER AGENT, AT LEAST TWO BUSINESS DAYS PRIOR TO THE VOTE AT THE EXTRAORDINARY GENERAL MEETING. IN ORDER TO EXERCISE YOUR REDEMPTION RIGHT, YOU NEED TO IDENTIFY YOURSELF AS A BENEFICIAL HOLDER AND PROVIDE YOUR LEGAL NAME, PHONE NUMBER, AND ADDRESS IN YOUR WRITTEN DEMAND. YOU MAY TENDER YOUR SHARES BY EITHER DELIVERING YOUR SHARE CERTIFICATE TO CONTINENTAL OR BY DELIVERING YOUR SHARES ELECTRONICALLY USING THE DEPOSITORY TRUST COMPANY'S DWAC (DEPOSIT WITHDRAWAL AT CUSTODIAN) SYSTEM. IF THE BUSINESS COMBINATION IS NOT COMPLETED, THEN THESE SHARES WILL BE RETURNED TO YOU OR YOUR ACCOUNT. IF YOU HOLD THE SHARES IN STREET NAME, YOU WILL NEED TO INSTRUCT THE ACCOUNT EXECUTIVE AT YOUR BANK OR BROKER TO WITHDRAW THE SHARES FROM YOUR ACCOUNT IN ORDER TO EXERCISE YOUR REDEMPTION RIGHTS.

On behalf of Alpha's board of directors, I would like to thank you for your support and look forward to the successful completion of the Business Combination.

Sincerely,

/s/ Alec Oxenford

Q: What matters will shareholders consider at the extraordinary general meeting?

A: At the Alpha extraordinary general meeting of shareholders, Alpha will ask its shareholders to vote in favor of the following proposals (the “Transaction Proposals”):

- The Business Combination Proposal—a proposal to approve and adopt the Business Combination Agreement and approve the transactions contemplated thereby, including the Business Combination;
- The Merger Proposal—a proposal by special resolution to approve the Plan of Merger;
- The Governing Documents Proposals—three separate proposals by special resolution to approve, material differences between the Proposed Governing Documents and the Existing Governing Documents; and
- The Adjournment Proposal—a proposal to approve by ordinary resolution the adjournment of the extraordinary general meeting to a later date or dates, if necessary, to, among other things, permit further solicitation and vote of proxies in the event that there are insufficient votes for the approval of one or more proposals at the extraordinary general meeting or if Alpha shareholders have elected to redeem an amount of public shares such that the minimum available cash condition to the obligation to closing of the Business Combination would not be satisfied.

For more information, please see “*Business Combination Proposal*,” “*Merger Proposal*,” “*Governing Documents Proposals*” and “*Adjournment Proposal*.”

Alpha will hold the extraordinary general meeting to consider and vote upon these proposals. This proxy statement/prospectus contains important information about the Business Combination and the other matters to be acted upon at the extraordinary general meeting. Shareholders of Alpha should read it carefully and in its entirety.

Q: What differences will there be between the Proposed Governing Documents and the Existing Organizational Documents that shareholders will consider at the extraordinary general meeting?

A: Alpha’s Existing Governing Documents will effectively be replaced by the Proposed Governing Documents of New Semantix given that Alpha shareholders will, effective as of the consummation of the Business Combination (and assuming such shareholders do not redeem their Alpha Class A Ordinary Shares) hold New Semantix Ordinary Shares subject to the Proposed Governing Documents. Alpha’s shareholders are asked to consider and vote upon and to approve by special resolution three separate proposals in connection with the replacement of the Existing Governing Documents with the Proposed Governing Documents, which Proposed Governing Documents differ materially from the Existing Governing Documents:

Existing Governing Documents of Alpha

Alpha authorized share capital is \$22,100 divided into (i) 200,000,000 Class A Ordinary Shares of a par value of \$0.0001 each, (ii) 20,000,000 Class B Ordinary Shares of a par value of \$0.0001 each and (iii) 1,000,000 preference shares of a par value of \$0.0001 each.

Proposed Governing Documents of New Semantix

Authorized Share Capital
(*Governing Documents Proposal 3A*)

New Semantix will be authorized to issue 287,500,000 New Semantix Ordinary Shares, par value \$0.001 per New Semantix Ordinary Share. Every holder of New Semantix Ordinary Shares, present in person or by proxy and entitled to vote thereon, shall be entitled to one vote in respect of each Ordinary Share held by them.

Existing Governing Documents of Alpha

Prior to the closing of an initial business combination, Alpha may appoint or remove any director by ordinary resolution of the holders of Class B Ordinary Shares. Prior to the closing of an initial business Combination, holders of the Alpha Class A Ordinary Shares have no right to vote on the appointment or removal of any director.

Proposed Governing Documents of New Semantix

Method to Appoint and Elect Directors

(Governing Documents Proposal 3B)

Per the Articles and Shareholders Agreement, immediately following the Closing of the Business Combination, New Semantix's board of directors will consist of seven directors, of which (i) four directors will be designated by Semantix's Founders (with at least two such directors being independent if the director designated by the Sponsor is independent or, if the director designated by the Sponsor is not independent, with at least three of such directors being independent), (ii) one director will be designated by Crescera, (iii) one director will be designated by Inovabra, and (iv) one director will be designated by the Sponsor. The directors will be divided into three staggered classes designated as Class I, Class II and Class III. Director nominees must be elected by an ordinary resolution of the holders of New Semantix Ordinary Shares in accordance with the Articles and the Shareholders Agreement at each annual general meeting of New Semantix to fill the seats of those directors whose terms expire at such annual general meeting and the persons to stand for election at each annual general meeting of New Semantix shall be nominated by the directors. At the 2023 annual general meeting, the term of office of the Class I directors shall expire and Class I directors shall be elected for a full term of three (3) years. At the 2024 annual general meeting, the term of office of the Class II directors shall expire and Class II directors shall be elected for a full term of three (3) years. At the 2025 annual general meeting, the term of office of the Class III directors shall expire and Class III directors shall be elected for a full term of three (3) years. Subject to the Articles and Shareholders Agreement, at each succeeding annual general meeting, directors shall be elected for a full term of three (3) years to succeed the directors of the class whose terms expire at such annual general meeting.

Without prejudice to the power of New Semantix to appoint a person to be a director by ordinary resolution and subject to the Articles, the board of directors, so long as a quorum of directors remains in office, has the power at any time and from time to time to appoint any person to be a director so as to fill a casual vacancy or otherwise.

Existing Governing Documents of Alpha

Proposed Governing Documents of New Semantix

Other Changes in Connection with Adoption of the Proposed Governing Documents

(Governing Documents Proposal 3C)

The Existing Governing Documents include provisions related to Alpha's status as a blank check company prior to the consummation of a business combination.

The Proposed Governing Documents do not include such provisions related to Alpha's status as a blank check company, which no longer will apply upon consummation of the Business Combination, as Alpha will cease to be a blank check company at such time.

Q: Are any of the proposals conditioned on one another?

A: No. The Business Combination Proposal, the Merger Proposal, the Governing Documents Proposals and the Adjournment Proposal are not conditioned on one another. It is important for you to note that in the event that the Business Combination Proposal is not approved, then Alpha will not consummate the Business Combination. If Alpha does not consummate the Business Combination and fails to complete an initial business combination by February 23, 2023, Alpha will be required to dissolve and liquidate.

Q: Why is Alpha proposing the Business Combination Proposal?

A: Alpha is a blank check company incorporated on December 10, 2020 as a Cayman Islands exempted company and incorporated for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization, or similar business combination with one or more businesses. While we may pursue an initial business combination opportunity in any industry or sector, we intend to capitalize on the ability of our management team to identify and acquire a business or businesses that can benefit from our management team's established global relationships and operating experience. Alpha is not permitted under the Existing Governing Documents to effect a business combination with a blank check company or a similar type of company with nominal operations. Alpha has identified several general criteria and guidelines it believes are important in analyzing prospective target businesses for a business combination for evaluating acquisition opportunities. Alpha has sought a target that it believes:

- has a first-mover advantage or a sizable market share in their segment and the opportunity to achieve market leadership with access to capital at a competitive all-in cost;
- has an equity value between \$600 million and \$1.5 billion;
- will continue to be managed and operated by its the founders and management team;
- has a recurrent and scalable revenue business model;
- has a clear path to profitable growth;
- can utilize access to the public equity markets to enhance its ability to pursue -accretive transformational or tuck-in acquisitions, high-return on capital growth projects, and/or strengthen its balance sheet and recruit and retain key employees through the use of publicly-traded equity compensation;
- is mindful of environmental, social and governance factors;
- has recession-resilient business models as well as experience in absorbing the recurring volatility in Latin American countries;
- has founders and management teams who are able to execute on the target markets they pursue and serve;
- has management and stakeholders who aspire to have their business become a public company; and
- is well-positioned to provide a strong risk-adjusted return profile with substantial upside potential to balance and limit potential downside risks.

Based on its due diligence investigations of Semantix and the industry in which it operates, including the financial and other information provided by Semantix in the course of negotiations, the Alpha Board believes that Semantix meets the criteria and guidelines listed above. However, there is no assurance of this. See *“Business Combination Proposal—The Alpha Board’s Reasons for the Business Combination.”*

Although the Alpha Board believes that the Business Combination with Semantix presents an attractive business combination opportunity and is in the best interests of Alpha and Alpha shareholders, the Alpha Board did consider certain potentially material negative factors in arriving at that conclusion. These factors are discussed in greater detail in the sections entitled *“Business Combination Proposal—The Alpha Board’s Reasons for the Business Combination”*, *“Risk Factors—Risks Related to Semantix’s Business and Industry”*, *“Risk Factors—Risks Related to New Semantix”* and *“Risk Factors—Risks Related to Alpha and the Business Combination.”* You should also consider that Alpha’s directors and officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled *“Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination”* and *“Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor; certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/prospectus.”*

Q: What will Semantix’s equityholders receive in return for the Business Combination with Alpha?

A: Prior to the Closing, the Semantix shareholders will contribute their shares of Semantix into Newco in exchange for Newco Ordinary Shares. At the Third Effective Time, based on (i) an implied equity value of \$620 million and (ii) a \$10.00 per share price for New Semantix Ordinary Shares, (A) each issued and outstanding Newco Ordinary Share will be cancelled and converted into the right to receive the applicable portion of the merger consideration comprised of New Semantix Ordinary Shares, as determined in accordance with the Exchange Ratio, (B) each Vested Semantix Option will, automatically and without any action on the part of any Semantix optionholder, be “net exercised” in full immediately prior to the Third Effective Time and, at the Third Effective Time, such net number of Semantix Ordinary Shares or Semantix Preferred Shares issuable to the Semantix optionholder shall be converted into a number of New Semantix Ordinary Shares determined in accordance with the Exchange Ratio and (C) each Unvested Semantix Option will, automatically and without any action on the part of any Semantix optionholder, be assumed by New Semantix and will be converted into an option to acquire New Semantix Ordinary Shares, with an amount and value determined in accordance with the Exchange Ratio (and, with regard to options that are intended to qualify as “incentive stock options” under Section 422 of the Code, in a manner compliant with Section 424(a) of the Code).

In addition, certain Semantix shareholders will receive consideration in the form of earn-out shares of New Semantix Ordinary Shares. The Semantix Earn-Out Shares consists of up to an additional 2,500,000 newly issued New Semantix Ordinary Shares. The Semantix Earn-Out Shares will be issued in two equal 1,250,000 tranches based on the achievement of post-Closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date. A given share price target described above will also be achieved if there is a transaction during the relevant period that results in the New Semantix Ordinary Shares being converted into the right to receive cash or other consideration having a per share value (in the case of any non-cash consideration, as provided in the definitive transaction documents for such transaction, or if not so provided, as determined by New Semantix’s board of directors in good faith) in excess of the applicable post-Closing share price target set forth above. Such Semantix shareholders’ right and entitlement to receive the Semantix Earn-Out Shares will be forfeited to the extent that the relevant share price targets have not been achieved by the fifth anniversary of the Closing Date.

Q: Who is Semantix?

A: Founded in 2010, with operations across Latin America and an emerging presence in the United States, Semantix offers proprietary data solutions as a service (“SaaS”) and third-party software licenses together with highly complementary artificial intelligence (“AI”) and data analytics services designed to enable companies to manage data effectively. Semantix’s software solutions aim to extract business insights and apply AI automation for Semantix’s customers across their business processes, with Semantix serving over 300 companies across a broad range of sectors, including finance, retail, telecommunications, healthcare, industrials and agribusiness, among others, with a varied client portfolio of all sizes, from small businesses to large enterprises.

Semantix offers a robust set of software solutions to its customers that allow them to simply, nimbly and securely manage their data through (i) its proprietary SaaS software solutions, primarily its propriety data integration platform, which we refer to as the Semantix Data Platform (“SDP”), which Semantix expects to propel future revenue growth at an accelerated pace with attractive margins, (ii) third-party software licenses and (iii) AI and data analytics services, which Semantix offers to customers to further enrich their data journeys. We believe Semantix’s unique value proposition is an internally-developed, frictionless, end-to-end proprietary SDP.

SDP seeks to reduce the complexity in the implementation of big data projects via an all-in-one proprietary platform that guides customers through their entire data lifecycles, from capturing data, to structuring that data in the form of a data lake, then providing easy access to such data for exploration and interaction and, finally, creating reports, dashboards and algorithms fueled by the data to enhance business performance.

The graphic below highlights the key features and competitive advantages of SDP:

Q: What equity stake will current Alpha shareholders and Semantix shareholders have in New Semantix after the Closing?

A: As of the date of this proxy statement/prospectus, there are (i) 23,000,000 Alpha Class A Ordinary Shares outstanding underlying units issued in the IPO and (ii) 5,750,000 Alpha Class B Ordinary Shares outstanding (all of which are held by the Sponsor). As of the date of this proxy statement/prospectus, there are 7,000,000 private placement warrants outstanding (all of which are held by the Sponsor) and 11,500,000 public warrants outstanding. Each whole warrant entitles the holder thereof to purchase one Alpha Class A Ordinary Shares and will entitle the holder thereof to purchase one New Semantix Ordinary Share. Therefore, as of the date of this proxy statement/prospectus (without giving effect to the Business Combination and assuming that none of Alpha’s outstanding public shares are redeemed in connection with the Business Combination), Alpha’s fully diluted share capital, giving effect to the exercise of all of the private placement warrants and public warrants, would be 47,250,000 ordinary shares.

Alpha cannot predict how many of the public Alpha shareholders will exercise their right to have their Alpha Class A Ordinary Shares redeemed for cash. As a result, Alpha has elected to provide the unaudited

Table of Contents

pro forma condensed combined financial information under three different redemption scenarios of Alpha shares into cash, each of which produce different allocations of total Alpha equity between holders of Alpha Ordinary Shares. The following table illustrates varying estimated ownership levels in New Semantix immediately following the consummation of the Business Combination, based on the varying levels of redemptions by the public shareholders and the following additional assumptions:

	Share Ownership in New Semantix ⁽¹⁾		
	No Redemptions ⁽²⁾ Percentage of Outstanding Shares	Interim Redemptions ⁽³⁾ Percentage of Outstanding Shares	Maximum Redemptions ⁽⁴⁾ Percentage of Outstanding Shares
Alpha shareholders (other than the Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser)) ⁽⁵⁾	20.7%	11.5%	—
Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) ⁽⁵⁾⁽⁶⁾⁽⁷⁾	8.1%	9.0%	10.2%
PIPE Investors (other than the Semantix shareholders and the Sponsor's affiliates (consisting of certain entities affiliated with Alec Oxenford and Rafael Steinhauser))	3.2%	3.5%	4.0%
Semantix shareholders ⁽⁸⁾	68.1%	75.9%	85.8%

- (1) As of immediately following the consummation of the Business Combination and in each case, in consideration of PIPE Investors that are also existing shareholders of Semantix. Percentages may not add to 100% due to rounding. For a more detailed description of share ownership upon consummation of the Business Combination, see “*Security Ownership of Certain Beneficial Owners and Management*.”
- (2) Assumes that no public shares are redeemed.
- (3) Assumes that 10,350,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share (being our estimate of 50% of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement).
- (4) Assumes that 20,700,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share, after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement. Also assumes that, after giving effect to the payments to the redeeming public shareholders in this maximum redemption scenario, a minimum of \$85,000,000 of cash would be held in the Trust Account, including the net amount of proceeds actually paid to Alpha upon consummation of the PIPE Investment, in satisfaction of the Minimum Available Cash Condition.
- (5) Excludes New Semantix Warrants.
- (6) Considering the exercise of all New Semantix Warrants, the Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) would own (i) 13.7% of New Semantix's share capital under the no redemptions scenario, (ii) 15.8% of New Semantix's share capital under the interim redemptions scenario, and (iii) 18.5% of New Semantix's share capital under the maximum redemptions scenario.

Table of Contents

- (7) Includes 862,500 Alpha Earn-Out Shares subject to vesting requirements under the Sponsor Letter Agreement but which, prior to vesting or forfeiture, entitle the holder to all rights of other New Semantix Ordinary Shares (other than the right to receive dividends), including the right to vote.
- (8) Excludes (i) equity awards issued at Closing upon rollover of the Unvested Semantix Options, (ii) Semantix Earn-Out Shares, and (iii) equity awards to be issued under the 2022 Plan.

The actual results will likely be within the parameters described by the three redemption scenarios; however, there can be no assurance regarding which scenario will be closest to the actual results.

Q: Who will be the executive officers and directors of New Semantix if the Business Combination is consummated?

The Business Combination Agreement provides that, immediately following the Closing, New Semantix's board of directors will consist of seven directors. The initial composition of New Semantix's board of directors will be comprised of (i) six individuals to be designated by certain New Semantix shareholders as specified in the Shareholders Agreement (of which four directors will be designated by Semantix's Founders, one director will be designated by Crescera and one director will be designated by Inovabra) and (ii) one individual by the Sponsor, in each case, in accordance with, and subject to, the terms and conditions of the Shareholders Agreement. The directors of New Semantix will include Leonardo dos Santos Poça D'Água, Dorival Dourado Júnior, Veronica Allende Serra, Jaime Cardoso Danvila, Rafael Padilha de Lima Costa, Rafael Steinhauer and Ariel Lebowits. See "*New Semantix Management After the Business Combination—Executive Officers and Directors.*"

New Semantix's executive team following the Closing is expected to be comprised of Leonardo dos Santos Poça D'Água (Chief Executive Officer), Adriano Alcalde (Chief Financial Officer), André Guimarães Frederico (General Manager Latin America), Mathias Rech Santos (Chief Human Resources Officer) and Marcela Bretas (Chief Strategy Officer).

Q: What conditions must be satisfied to complete the Business Combination?

- A: There are a number of closing conditions in the Business Combination Agreement, including that Alpha's shareholders have approved and adopted the Business Combination Agreement. For a summary of the conditions that must be satisfied or waived prior to completion of the Business Combination, see the section entitled "*The Business Combination Proposal—The Business Combination Agreement.*"

Q: What happens if I sell my shares of Alpha Ordinary Shares before the extraordinary general meeting of shareholders?

- A: The record date for the extraordinary general meeting of shareholders will be earlier than the date that the Business Combination is expected to be completed. If you transfer your shares of Alpha Ordinary Shares after the record date, but before the extraordinary general meeting of shareholders, unless the transferee obtains from you a proxy to vote those shares, you will retain your right to vote at the extraordinary general meeting of shareholders. However, you will not be entitled to receive any New Semantix Ordinary Shares following the Closing because only Alpha's shareholders on the date of the Closing will be entitled to receive New Semantix Ordinary Shares in connection with the Closing.

Q: What vote is required to approve the proposals presented at the extraordinary general meeting of shareholders?

- A: The approval of each of the Business Combination Proposal and the Adjournment Proposal requires an ordinary resolution under Cayman Islands law, being the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting. The Merger Proposal and the Governing Documents Proposals requires a special resolution under Cayman Islands law, being the

affirmative vote of holders of a majority of at least a two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting.

Accordingly, an Alpha shareholder's failure to vote by proxy or to vote in person at the extraordinary general meeting of shareholders, an abstention from voting or a broker non-vote will have no effect on the Business Combination Proposal, the Merger Proposal and the Governing Documents Proposals. For purposes of approval, an abstention or failure to vote will have no effect on the Adjournment Proposal.

Q: Do Semantix's shareholders need to approve the Business Combination?

A: Following the execution of the Business Combination Agreement, Semantix delivered to Alpha a copy of the minutes of the shareholders' meeting of Semantix held by Semantix's ordinary shareholders, confirming an irrevocable approval by such shareholders of the Business Combination and the Pre-Closing Exchange. In addition, subsequent to the execution and delivery of the Business Combination Agreement, the Semantix shareholders agreed to perform the Pre-Closing Exchange, including voting in favor of the relevant matters and the exchange of their Semantix Shares for the Newco Ordinary Shares.

Q: Will Alpha or New Semantix issue additional equity securities in connection with the consummation of the Business Combination?

A: In connection with the Business Combination, Alpha entered into the Subscription Agreements with the PIPE Investors, pursuant to which the PIPE Investors agreed to subscribe for and purchase, and Alpha agreed to issue and sell to the PIPE Investors an aggregate of 9,364,500 Alpha Class A Ordinary Shares at a price of \$10.00 per share, for aggregate gross proceeds of \$93,645,000. Two of the PIPE Investors are affiliates of our Sponsor and are officers and directors in Alpha and have agreed to subscribe for 100,000 Alpha Class A Ordinary Shares in the aggregate and two of the PIPE Investors are affiliates of Semantix that have agreed to subscribe for 6,146,500 Alpha Class A Ordinary Shares in the aggregate, all pursuant to the Subscription Agreements on the same terms and conditions as all other PIPE Investors. The Alpha Class A Ordinary Shares to be issued pursuant to the Subscription Agreements have not been registered under the Securities Act, in reliance upon the exemption provided in Section 4(a)(2) of the Securities Act. In connection with the First Merger, each Alpha Class A Ordinary Shares to be issued to PIPE Investors pursuant to the Subscription Agreements will be cancelled and converted into the right to receive one New Semantix Ordinary Share. New Semantix will grant the PIPE Investors certain customary registration rights in connection with the PIPE Financing. The PIPE Financing is contingent upon, among other things, the substantially concurrent closing of the Business Combination.

Q: What are the material differences, if any, in the terms and price of securities issued at the time of the IPO as compared to the securities that will be issued as part of the PIPE Financing at the closing of the Business Combination?

A: The units issued at the time of the time of the IPO consisted of one Alpha Class A Ordinary Share and one-half of one public warrant, at an offering price of \$10.00 per unit. In connection with the First Merger, each Alpha Class A Ordinary Share will be canceled and will be converted into the right to received one New Semantix Ordinary Share and each issued and outstanding warrant to purchase Alpha Class A Ordinary Shares will be converted into one New Semantix Warrant. The PIPE Investors will receive Alpha Class A Ordinary Shares at a price of \$10.00 per share as part of the PIPE Financing at the closing of the Business Combination. Pursuant to the Subscription Agreements, New Semantix agreed that, within 30 days of the closing of the PIPE Financing, New Semantix will submit to the SEC (at New Semantix's sole cost and expense) a registration statement registering the resale of the New Semantix Ordinary Shares to be received by the PIPE Investors by virtue of the First Merger in respect of their Alpha Class A Ordinary Shares issued pursuant to the PIPE Financing, and New Semantix will use its commercially reasonable efforts to have

such resale registration statement declared effective upon the earlier of (i) the 60th calendar day (or 90th calendar day if the SEC notifies New Semantix that it will “review” such resale registration statement) and (ii) the 10th business day after the date the SEC notifies New Semantix that it will not “review” such resale registration statement. No New Semantix Warrants will be issued in the PIPE Financing.

Q: How many votes do I have at the extraordinary general meeting of shareholders?

A: Alpha’s shareholders are entitled to one vote at the extraordinary general meeting for each share of Alpha Ordinary Shares held of record as of the record date. As of the close of business on the record date, there were 28,750,000 outstanding shares of Alpha Ordinary Shares.

Q: How will the Sponsor vote?

A: The Sponsor, which owns 5,750,000 Alpha Class B Ordinary Shares, has agreed pursuant to the Sponsor Letter Agreement to, among other things, vote in favor of the Business Combination Agreement and the Business Combination contemplated thereby (including any amendments to the Existing Governing Documents) on the terms and subject to the conditions set forth in the Sponsor Letter Agreement. Further, Innova, a shareholder of Alpha and affiliate of the Sponsor which owns 2,300,000 Alpha Class A Ordinary Shares, has agreed pursuant to that certain Shareholder Non-Redemption Agreement, dated as of November 16, 2021 (the “[Shareholder Non-Redemption Agreement](#)”) to, among other things, vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of Alpha shareholders is required and agreed not to redeem or exercise any right to redeem any Class A Ordinary Shares of Alpha that such shareholder holds of record or beneficially. As of the date of the accompanying proxy statement/prospectus, the Sponsor and Sponsor’s affiliates subject to the voting obligations under the Sponsor Letter Agreement and the Shareholder Non-Redemption Agreement, respectively, collectively own approximately 28.0% of the issued and outstanding Alpha Ordinary Shares. Assuming only a majority of all the Alpha Ordinary Shares entitled to vote at the meeting are represented at the extraordinary general meeting or by proxy, including the Sponsor and Sponsor’s affiliates subject to the voting obligations under the Sponsor Letter Agreement and the Shareholders Non-Redemption Agreement, (i) 7,187,502 Alpha Ordinary Shares will need to be voted in favor of the Business Combination Proposal and the Adjournment Proposal (which require the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting), thus we would not need any additional of the issued and outstanding Alpha Ordinary Shares not held by the Sponsor or Sponsor’s affiliates to be voted in favor of the Business Combination Proposal and the Adjournment Proposal and (ii) 9,583,335 Alpha Ordinary Shares will need to be voted in favor of the Merger Proposal and the Governing Documents Proposals (which require the affirmative vote of holders of a majority of at least a two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting), and of these 9,583,335 Alpha Ordinary Shares, 1,533,335 of the Alpha Ordinary Shares not held by the Sponsor or Sponsor’s affiliates, which represents 5.3% of the total issued and outstanding Alpha Ordinary Shares, need to be voted in favor to approve the Merger Proposal and the Governing Documents Proposals. Assuming all the Alpha Ordinary Shares entitled to vote at the meeting are represented at the extraordinary general meeting or by proxy, including the Sponsor and Sponsor’s affiliates subject to the voting obligations under the Sponsor Letter Agreement and the Shareholders Non-Redemption Agreement, (i) 14,375,001 Alpha Ordinary Shares will need to be voted in favor of the Business Combination Proposal and the Adjournment Proposal (which require the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting), and of these 14,375,001 Alpha Ordinary Shares, 6,325,001 of the Alpha Ordinary Shares not held by the Sponsor or Sponsor’s affiliates, which represents 22.0% of the total issued and outstanding Alpha Ordinary Shares, need to be voted in favor to approve the Business Combination Proposal and the Adjournment Proposal, and (ii) 19,166,668 Alpha Ordinary Shares will need to be voted in favor of the Merger Proposal and the

Governing Documents Proposals (which require the affirmative vote of holders of a majority of at least a two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting), and of these 19,166,668 Alpha Ordinary Shares, 11,116,668 of the Alpha Ordinary Shares not held by the Sponsor or Sponsor's affiliates, which represents 38.7% of the total issued and outstanding Alpha Ordinary Shares, need to be voted in favor to approve the Merger Proposal and the Governing Documents Proposals.

Q: What interests do Alpha's current officers and directors have in the Business Combination?

A: In considering the recommendation of our board of directors to vote in favor of the Business Combination, shareholders should be aware that, aside from their interests as shareholders, our Sponsor and certain of our directors and officers have interests in the Business Combination that may conflict with those of other shareholders generally. Our directors were aware of and considered these interests, among other matters, in evaluating the Business Combination and in recommending to shareholders that they approve the Business Combination. Shareholders should take these interests into account in deciding whether to approve the Business Combination. These interests include, among other things:

- the fact that certain of our directors and officers are principals of our Sponsor;
- the fact that 5,750,000 Founder Shares held by our Sponsor, for which it paid \$25,000, will convert on a one-for-one basis, into 5,750,000 shares of New Semantix Ordinary Shares upon the Closing, and such shares will have a significantly higher value at the time of the Business Combination when such shares convert into shares in New Semantix, as described further below, and will be worthless if an initial business combination is not consummated:

	Alpha Class B Ordinary Shares ⁽¹⁾	Value of Alpha Class B Ordinary Shares implied by Business Combination ⁽³⁾	Value of Alpha Class B Ordinary Shares based on recent trading price ⁽⁴⁾
Sponsor ⁽²⁾	5,750,000	\$ 57,500,000	\$ 56,982,500

Rahim Lakhani	—	—	—
Alfredo Capote	—	—	—
David Lorie	—	—	—
Amos Genish	—	—	—
Ariel Lebowits	—	—	—

(1) Interests shown consist solely of Founder Shares. Such shares will automatically convert into New Semantix Ordinary Shares upon the closing on a one-for-one basis.

(2) Alpha Capital Sponsor LLC is the record holder of the shares reported herein.

(3) Assumes a value of \$10.00 per share, the deemed value of the New Semantix Ordinary Shares in the Business Combination. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.

(4) Assumes a value of \$9.91 per share, which was the closing price of the Alpha Class A Ordinary Shares on the Nasdaq on June 10, 2022. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.

- the fact that if an initial business combination is not consummated by February 23, 2023, our Sponsor, officers, directors and their respective affiliates will lose their entire investment in us of \$64,650,000 in the aggregate, which investment included \$57,500,000 in value of Alpha Class B Ordinary Shares, valued at an assumed price of \$10.00 per share, the value implied by the Business Combination (inclusive of the Sponsor's initial capital contribution of \$25,000), the 7,000,000 private placement

warrants acquired for a purchase price of \$7,000,000 in the aggregate, and \$197,500 currently outstanding under an unsecured promissory note issued in the amount of up to \$500,000;

- the fact that given the differential in the purchase price that our Sponsor paid for the Alpha Class B Ordinary Shares as compared to the price of the public shares sold in the IPO and the 5,750,000 New Semantix Ordinary Shares that the Sponsor will receive upon conversion of the Alpha Class B Ordinary Shares in connection with the Business Combination, the Sponsor and its affiliates may earn a positive rate of return on their investment even if the New Semantix Ordinary Shares trades below the price initially paid for the public shares in the IPO and the public shareholders experience a negative rate of return following the completion of the Business Combination;
- the fact that our Sponsor, officers and directors have agreed to waive their rights to liquidating distributions from the Trust Account with respect to any shares held by them if Alpha fails to complete an initial business combination and accordingly, our Sponsor, officers and directors will benefit from the completion of a business combination and may be incentivized to complete an acquisition of a less favorable target company or on terms less favorable to shareholders rather than liquidate;
- the fact that in connection with the Business Combination, we entered into the Subscription Agreements with the PIPE Investors, which provide for the purchase by the PIPE Investors of an aggregate of 9,364,500 Alpha Class A Ordinary Shares, for a purchase price of \$10.00 per ordinary share, in a private placement, the closing of which will occur immediately prior to the First Merger;
- the fact that affiliates of our Sponsor who are our officers and directors have entered into Subscription Agreements with us in connection with the PIPE Financing for an aggregate subscription of 100,000 Alpha Class A Ordinary Shares that will be worthless if an initial business combination is not consummated;
- the fact that if the Trust Account is liquidated, including in the event we are unable to complete an initial business combination by February 23, 2023, our Sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent registered public accounting firm) for services rendered or products sold to us, or a prospective target business with which we have entered into a transaction agreement, reduce the amounts in the Trust Account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, due to reductions in the value of the trust assets, net of the amount of taxes payable, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under our indemnity of the underwriters of our IPO against certain liabilities, including liabilities under the Securities Act;
- the fact that a certain affiliate of our Sponsor who is a shareholder of Alpha owning, in the aggregate, 2,300,000 of the outstanding Alpha Class A Ordinary Shares, has agreed to vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of the Alpha shareholders is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially;
- the fact that we have issued an unsecured promissory note in the amount of up to \$500,000 to our Sponsor, payable in full upon the earlier of July 31, 2022 or the consummation of a business combination. There is currently \$197,500 outstanding under such promissory note;
- the fact that, unless a business combination is completed, our directors are only entitled to reimbursement for any out-of-pocket expenses incurred by them on our behalf incident to identifying, investigating and consummating a business combination from funds outside of the Trust Account, which funds are limited;
- the fact that pursuant to the A&R Registration Rights Agreement (as defined below), the Sponsor can demand registration of its registrable securities and it will also have piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing, whereas it does not have such rights today;

Table of Contents

- the potential continuation of certain of our directors as directors and in other roles at New Semantix, including that David Lorié will be corporate secretary of New Semantix and receive \$93,333.32 annually in cash compensation; and
- the continued indemnification of current directors and officers of Alpha and the continuation of directors' and officers' liability insurance for a period of six years after the Business Combination.

These interests may influence our directors in making their recommendation that you vote in favor of the approval of the Business Combination Proposal. You should take these interests into account in deciding whether to approve the Business Combination. You should also read the section entitled "*The Business Combination Proposal—Certain Other Interests in the Business Combination.*"

Q: Did the Alpha Board obtain a third-party valuation or fairness opinion in determining whether or not to proceed with the Business Combination?

- A: The Alpha Board did not obtain a third-party valuation or fairness opinion in connection with its determination to approve the Business Combination. The Alpha Board believes that, based upon the financial skills and background of its directors, it was qualified to conclude that the Business Combination was fair from a financial perspective to its shareholders. The Alpha Board also determined, without seeking a valuation from a financial advisor, that Semantix's fair market value was at least 80% of Alpha's net assets (excluding deferred underwriting discounts and commissions), based on Semantix's existing shareholders receiving 62,000,000 New Semantix Ordinary Shares at \$10 per share compared to Alpha's net assets. Accordingly, investors will be relying on the judgment of the Alpha Board as described above in valuing the Semantix business and assuming the risk that the board of directors may not have properly valued such business. You should also read the section entitled "*The Business Combination Proposal—Alpha's Board of Directors' Reasons for Approval of the Business Combination.*"

We note that Citi, in its capacity as Alpha's capital markets advisor, and Credit Suisse, in its role as Semantix's financial advisor, respectively, have resigned from their engagements in connection with the Business Combination. Shareholders should not place any reliance on the fact that Alpha's and Semantix's advisors were previously involved with the transaction. Shareholders should be aware that the resignation of the Advisors indicates that the Advisors do not want to be associated with the disclosure in this proxy statement/prospectus or the transactions contemplated hereby, and shareholders should not place any reliance on the participation of the Advisors prior to such resignation in the transactions contemplated by this proxy statement/prospectus. See "*Summary—Recent Developments*".

Q: Do I have redemption rights?

- A: If you are a holder of public shares, you may redeem your public shares for cash equal to their pro rata share of the aggregate amount on deposit in the Trust Account, which holds the proceeds of Alpha's IPO, as of two business days prior to the consummation of the Business Combination, including interest earned on the funds held in the Trust Account and not previously released to Alpha to pay its franchise and income taxes, upon the consummation of the Business Combination. Holders of the outstanding public warrants do not have redemption rights with respect to such warrants in connection with the Business Combination. The Sponsor has agreed, in partial consideration of receiving the Founder Shares, to waive its redemption rights with respect to its Founder Shares and any public shares that it may have acquired during or after Alpha's IPO in connection with the completion of Alpha's initial business combination. The Founder Shares will be excluded from the pro rata calculation used to determine the per-share redemption price. For illustrative purposes, based on funds in the Trust Account of approximately \$230.3 million on June 10, 2022, the estimated per share redemption price would have been approximately \$10.01. This is greater than the \$10.00 IPO price of Alpha's units. Additionally, public shares properly tendered for redemption will only be redeemed if the Business Combination is consummated; otherwise, holders of such shares will only be entitled to a pro rata portion of the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to Alpha to pay franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), in connection with the liquidation of the Trust Account.

Holders of our outstanding warrants will not have redemption rights with respect to such warrants. Assuming maximum redemptions of 20,700,000 Class A ordinary shares (see “*Unaudited Pro Forma Condensed Combined Financial Information*” for further information), and using the closing warrant price on Nasdaq of \$0.31 as of June 10, 2022, the aggregate fair value of warrants that can be retained by the redeeming shareholders, assuming maximum redemptions of 20,700,000 Class A ordinary shares, is \$6,417,000. The actual market price of the warrants may be higher or lower on the date that a warrant holder seeks to sell such warrants. Additionally, we cannot assure the holders of warrants that they will be able to sell their warrants in the open market as there may not be sufficient liquidity in such securities when a warrant holder wishes to sell their warrants. Further, while the level of redemptions of public shares will not directly change the value of the warrants because the warrants will remain outstanding regardless of the level of redemptions, as redemptions of public shares increase, the holder of warrants who exercises such warrants will ultimately own a greater interest in New Semantix because there would be fewer shares outstanding overall. See “*Risk Factors—Risks Related to New Semantix—Future resales of New Semantix Ordinary Shares issued to Semantix shareholders and other significant shareholders may cause the market price of New Semantix Ordinary Shares to drop significantly, even if New Semantix’s business is doing well.*”

Q: Is there a limit on the number of shares I may redeem?

A: A public shareholder, together with any affiliate of his or any other person with whom he is acting in concert or as a “group” (as defined in Section 13(d)(3) of the Exchange Act) will be restricted from seeking redemption rights in an amount of shares exceeding 15% of the public shares. Accordingly, all shares owned by a holder in excess of 15% of the public shares will not be redeemed. On the other hand, a public shareholder who holds less than 15% of the public shares may redeem all of the public shares held by him or her for cash.

Q: Will how I vote affect my ability to exercise redemption rights?

A: No. You may exercise your redemption rights whether you vote your public shares for or against the Business Combination Proposal or do not vote your shares. As a result, the Business Combination Proposal can be approved by shareholders who will redeem their public shares and no longer remain shareholders, leaving shareholders who choose not to redeem their public shares holding shares in a company with a less liquid trading market, fewer shareholders, less cash and the potential inability to meet the listing standards of Nasdaq.

It is a condition to closing under the Business Combination Agreement, however, that Alpha satisfies the Minimum Available Cash Condition. If redemptions by public shareholders cause Alpha to be unable to meet the Minimum Available Cash Condition, then Semantix will not be required to consummate the Business Combination, although it may, in its sole discretion, waive this condition.

Q: How do I exercise my redemption rights?

A: In order to exercise your redemption rights, you must, prior to 5:00 p.m. Eastern time on July 29, 2022 (two business days before the extraordinary general meeting), (i) submit a written request to Alpha’s transfer agent that Alpha redeem your public shares for cash, and (ii) tender your shares to Alpha’s transfer agent physically or electronically through Depository Trust Company, or DTC. The address of Continental Stock Transfer & Trust Company, Alpha’s transfer agent, is listed under the question “Who can help answer my questions?” below. Alpha requests that any requests for redemption include the identity as to the beneficial owner making such request. Electronic tender of your shares generally will be faster than delivery of physical share certificates.

A physical share certificate will not be needed if your shares are tendered to Alpha’s transfer agent electronically. In order to obtain a physical share certificate, a shareholder’s broker and/or clearing broker, DTC and Alpha’s transfer agent will need to act to facilitate the request. It is Alpha’s understanding that

shareholders should generally allot at least one week to obtain physical certificates from the transfer agent. However, because Alpha does not have any control over this process or over the brokers or DTC, it may take significantly longer than one week to obtain a physical share certificate. If it takes longer than anticipated to obtain a physical certificate, shareholders who wish to redeem their shares may be unable to obtain physical certificates by the deadline for exercising their redemption rights and thus will be unable to redeem their shares.

Any demand for redemption, once made, may be withdrawn at any time until the deadline for exercising redemption requests and thereafter, with Alpha's consent, until the vote is taken with respect to the Business Combination. If you tendered your shares for redemption to Alpha's transfer agent and decide within the required timeframe not to exercise your redemption rights, you may request that Alpha's transfer agent return the shares (physically or electronically). You may make such request by contacting Alpha's transfer agent at the phone number or address listed under the question "Who can help answer my questions?"

Q: What are the U.S. federal income tax consequences of exercising my redemption rights?

A: A U.S. Holder (as defined in "*Material U.S. Federal Income Tax Considerations*" below) of Alpha Class A Ordinary Shares that exercises its redemption rights may (subject to the application of the "PFIC" rules) be treated as selling New Semantix Ordinary Shares, resulting in the recognition of capital gain or capital loss. There may be certain circumstances in which the redemption may be treated as a distribution for U.S. federal income tax purposes depending on the amount of ordinary shares that a U.S. Holder owns or is deemed to own (including through the ownership of warrants). For a more complete discussion of the U.S. federal income tax considerations of an exercise of redemption rights by a U.S. Holder, see the section entitled "*Material U.S. Federal Income Tax Considerations—Redemption of New Semantix Ordinary Shares*."

Q: What are the U.S. federal income tax consequences of the Business Combination to U.S. Holders of Alpha Class A Ordinary Shares and Alpha Warrants?

A: As discussed in more detail below and subject to the limitations and qualifications described under "*Material U.S. Federal Income Tax Considerations—Tax Treatment of the SPAC Mergers*," the SPAC Mergers will, together, qualify as a "reorganization" within the meaning of Section 368(a)(1)(F) of the Code (an "F Reorganization"). Assuming this treatment applies, U.S. Holders (as defined in "*Material U.S. Federal Income Tax Considerations*" below) will not recognize gain or loss for U.S. federal income tax purposes on the exchange of Alpha Class A Ordinary Shares and Alpha Warrants (together, the "Alpha Securities") for New Semantix Ordinary Shares and warrants (together, the "New Semantix Securities") pursuant to the SPAC Mergers, subject to the discussion contained herein on whether Alpha or New Semantix is treated as a "passive foreign investment company" or "PFIC."

All holders of Alpha Securities are urged to consult with their own tax advisors regarding the potential tax consequences to them of the SPAC Mergers, including the applicability and effect of U.S. federal, state and local and non-U.S. tax laws.

Q: If I hold Alpha Warrants, can I exercise redemption rights with respect to my warrants?

A: No. There are no redemption rights with respect to the Alpha Warrants.

Q: Do I have appraisal rights if I object to the proposed Business Combination?

A: Under the Companies Act, shareholders of a Cayman Islands company ordinarily have dissenters' rights with respect to a merger. The Companies Act prescribes when dissenters' rights will be available and provides that shareholders are entitled to receive fair value for their shares. Dissenters' rights are not available under the Companies Act if an open market for the shares exists on a recognized stock exchange, such as Nasdaq, for a specified period after a merger is authorized. Regardless of whether dissenters' rights

are or are not available, shareholders can exercise the rights of redemption as set out herein. The Alpha Board has determined that the redemption proceeds payable to shareholders who exercise such redemption rights represents the fair value of those shares. See “*The Extraordinary General Meeting of Alpha—Redemption Rights*” in this proxy statement/prospectus for a detailed description of the procedures to be followed if you wish to redeem your public shares for cash.

Q: What happens to the funds held in the Trust Account upon consummation of the Business Combination?

A: If the Business Combination is consummated, the funds held in the Trust Account will be released (i) to pay Alpha shareholders who properly exercise their redemption rights and (ii) for general corporate purposes of New Semantix following the Business Combination.

Q: What happens if the Business Combination Proposal is not approved?

A: If the Business Combination Proposal is not approved, the Business Combination will not be consummated.

Q: What happens if the Business Combination is not consummated?

A: There are certain circumstances under which the Business Combination Agreement may be terminated. See the section entitled “*The Business Combination Proposal—The Business Combination Agreement*” for information regarding the parties’ specific termination rights.

If, as a result of the termination of the Business Combination Agreement or otherwise, Alpha is unable to complete a business combination by February 23, 2023, Alpha’s Existing Governing Documents provide that Alpha will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than 10 business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to Alpha to pay its franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of Alpha’s remaining shareholders and board of directors, dissolve and liquidate, subject in each case to Alpha’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. See the section entitled “*Risk Factors—We may not be able to complete Alpha’s initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem Alpha’s public shares and liquidate, in which case Alpha’s public shareholders may only receive \$10.01 per share, or less than such amount in certain circumstances, and Alpha’s warrants will expire worthless.*” and “*Our shareholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.*” Holders of Founder Shares have waived any right to any liquidation distribution with respect to those shares.

In the event of liquidation, there will be no distribution with respect to outstanding Alpha Warrants. Accordingly, the Alpha Warrants will expire worthless.

Q: What are the potential impacts on the Business Combination and related transactions resulting from the resignations of BofA Securities, Citi and Credit Suisse?

A: On May 13, 2022, Alpha received notice from BofA Securities, one of the underwriters in its IPO, resigning as underwriter and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha’s IPO in the amount of \$3,461,500, and on June 3, 2022, Alpha received from BofA Securities a formal letter confirming its resignation and waiver of fees. On May 18, 2022, Alpha

received notice from Citi, the other underwriter in its IPO, resigning as underwriter and capital markets advisor and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha's IPO in the amount of \$4,588,500, and on May 19, 2022, Alpha received from Citi a formal letter confirming its resignation and waiver of fees. On May 26, 2022, Semantix received notice from Credit Suisse, its financial advisor in connection with the Business Combination, resigning as advisor to Semantix and waiving all right to fees under its financial advisory agreement with Semantix, and on June 1, 2022, Semantix received from Credit Suisse a formal letter confirming its resignation and waiver of fees. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. The Advisors did not otherwise communicate to Alpha or Semantix the reasons leading to their resignation and waiver of their fees after doing substantially all of the work to earn their fees. There is no dispute among any of Semantix, the Advisors or Alpha with respect to the Advisors' capital markets advisory or financial advisory services or their resignation. See "*Summary—Recent Developments*".

As a result of these resignations and the associated waiver of fees, the transactions fees payable by Alpha and Semantix at the consummation of the Business Combination will be reduced by an aggregate of R\$82.8 million under the no redemptions scenario, R\$70.7 million under the interim redemptions scenario and R\$58.5 million under the maximum redemptions scenario. None of the Advisors has received any fees pursuant to their respective engagement letters or the Underwriting Agreement, other than \$4,600,000 in underwriting fees paid, in the aggregate, by Alpha to Citi and BofA Securities upon the consummation of Alpha's IPO. The services being provided by the Advisors prior to such resignations were substantially complete at the time of their resignations (or in the case of the underwriting services provided by BofA Securities and Citi pursuant to the Underwriting Agreement, by and between Alpha, BofA Securities and Citi, dated as of February 18, 2021 (the "Underwriting Agreement"), at the time of Alpha's initial public offering) and the Advisors were not expected to play any role at the Closing. Accordingly, Alpha and Semantix do not expect that the resignations of the Advisors will affect the timing or completion of the Business Combination, but will reduce the aggregate advisory fees payable at the Closing. Alpha and Semantix have considered engaging additional financial advisors, and on May 24, 2022, Alpha engaged D.A. Davidson & Co. ("D.A. Davidson") to provide capital markets advisory services to the extent required prior to the Closing. The Advisors' resignation did not impact the Alpha Board's analysis of or continued support of the Business Combination. The availability of the PIPE Financing, the funds in the Trust Account and any contemplated post-transaction financing arrangements are not impacted by the resignation of the Advisors. In addition, Semantix does not expect the resignation of Citi will impact its separate lending relationship with an affiliate of Citi. Other than Semantix's separate lending relationship with an affiliate of Citi, neither Alpha nor Semantix has any other current relationship with any of the Advisors.

Under D.A. Davidson's capital markets advisory agreement, D.A. Davidson agrees to familiarize itself with Alpha and its operations, facilitate meetings with potential equity investors in Alpha and provide capital markets advisory services in connection with the Business Combination. As consideration for such services, Alpha shall pay D.A. Davidson \$400,000 in cash upon the consummation of the Business Combination, and for a period of two years following the date of its engagement, D.A. Davidson shall have the opportunity to participate in the first public or private offering of securities of New Semantix following the Business Combination, at an allocation of not less than 10% of the aggregate offering. D.A. Davidson's engagement pursuant to its capital markets advisory agreement shall terminate upon the earlier of (i) the termination by either party, at any time, or (ii) the consummation of the Business Combination. Other than any fees paid to D.A. Davidson, Alpha and Semantix do not expect to incur any additional costs resulting from the resignations of the Advisors.

The resignation of the Advisors and the waiver of fees for services that have already been rendered is unusual. Shareholders should be aware that the resignation of the Advisors indicates that the Advisors do not want to be associated with the disclosure in this proxy statement/prospectus or the transactions contemplated hereby, and shareholders should not place any reliance on the participation of the Advisors prior to such resignation in the transactions contemplated by this proxy statement/prospectus. As a result, Alpha shareholders may be more likely to elect to redeem their shares, which may have the effect of

reducing the proceeds available to New Semantix to achieve its business plan. See “*Unaudited Pro Forma Condensed Combined Financial Information*”. The Advisors’ services were substantially complete at the time of their resignations, and Alpha and Semantix do not expect that the resignations of the Advisors will affect the timing or completion of the Business Combination.

Q: When is the Business Combination expected to be completed?

A: It is currently anticipated that the Business Combination will be consummated promptly following the extraordinary general meeting of shareholders, provided that all other conditions to the consummation of the Business Combination have been satisfied or waived, including approval by Alpha shareholders of the proposals being submitted to them in this proxy statement/prospectus.

For a description of the conditions to the completion of the Business Combination, see the section entitled “*The Business Combination Proposal*.”

Q: What do I need to do now?

A: You are urged to carefully read and consider the information contained in this proxy statement/prospectus, including the financial statements and annexes attached hereto, and to consider how the Business Combination will affect you as a shareholder. You should then vote as soon as possible in accordance with the instructions provided in this proxy statement/prospectus and on the enclosed proxy card or, if you hold your shares through a brokerage firm, bank or other nominee, on the voting instruction form provided by the broker, bank or nominee.

Q: How do I vote?

A: If you were a holder of record of Alpha Ordinary Shares on June 14, 2022, the record date for the extraordinary general meeting of shareholders, you may vote with respect to the applicable proposals in person at the extraordinary general meeting of shareholders or by completing, signing, dating and returning the enclosed proxy card in the postage-paid envelope provided. If you hold your shares in “street name,” which means your shares are held of record by a broker, bank or other nominee, you should contact your broker, bank or nominee to ensure that votes related to the shares you beneficially own are properly counted. In this regard, you must provide the record holder of your shares with instructions on how to vote your shares or, if you wish to attend the extraordinary general meeting of shareholders and vote in person, obtain a proxy from your broker, bank or nominee.

Q: What will happen if I abstain from voting or fail to vote at the extraordinary general meeting?

A: At the extraordinary general meeting of shareholders, Alpha will count a properly executed proxy marked “ABSTAIN” with respect to a particular proposal as present for purposes of determining whether a quorum is present. For purposes of approval, an abstention or failure to vote will have no effect on the Business Combination Proposal, the Merger Proposal, the Governing Documents Proposals and the Adjournment Proposal.

Q: What will happen if I sign and return my proxy card without indicating how I wish to vote?

A: Signed and dated proxies received by Alpha without an indication of how the shareholder intends to vote on a proposal will be voted in favor of each proposal presented to the shareholders.

Q: Do I need to attend the extraordinary general meeting of shareholders to vote my shares?

A: No. You are invited to attend the extraordinary general meeting to vote on the proposals described in this proxy statement/prospectus. However, you do not need to attend the extraordinary general meeting of shareholders to vote your shares. Instead, you may submit your proxy by signing, dating and returning the

applicable enclosed proxy card(s) in the pre-addressed postage paid envelope. Your vote is important. Alpha encourages you to vote as soon as possible after carefully reading this proxy statement/prospectus.

Q: If I am not going to attend the extraordinary general meeting of shareholders in person, should I return my proxy card instead?

A: Yes. After carefully reading and considering the information contained in this proxy statement/prospectus, please submit your proxy, as applicable, by completing, signing, dating and returning the enclosed proxy card in the postage-paid envelope provided.

Q: If my shares are held in “street name,” will my broker, bank or nominee automatically vote my shares for me?

A: No. If your broker holds your shares in its name and you do not give the broker voting instructions, under the applicable stock exchange rules, your broker may not vote your shares on any of the proposals. If you do not give your broker voting instructions and the broker does not vote your shares, this is referred to as a “broker non-vote.” Broker non-votes will be counted for purposes of determining the presence of a quorum at the extraordinary general meeting of shareholders, but will have no effect on the Business Combination Proposal, the Merger Proposal and the Governing Documents Proposals. However, in no event will a broker non-vote also have the effect of exercising your redemption rights for a *pro rata* portion of the Trust Account, and therefore no shares as to which a broker non-vote occurs will be redeemed in connection with the proposed Business Combination.

Q: May I change my vote after I have mailed my signed proxy card?

A: Yes. You may change your vote by sending a later-dated, signed proxy card to D.F. King, 48 Wall Street, New York, New York 10005 prior to the vote at the extraordinary general meeting of shareholders, or attend the extraordinary general meeting and vote in person. You also may revoke your proxy by sending a notice of revocation to the same address, provided such revocation is received prior to the vote at the extraordinary general meeting. If your shares are held in street name by a broker or other nominee, you must contact the broker or nominee to change your vote.

Q: What should I do if I receive more than one set of voting materials?

A: You may receive more than one set of voting materials, including multiple copies of this proxy statement/prospectus and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you will receive a separate voting instruction card for each brokerage account in which you hold shares. If you are a holder of record and your shares are registered in more than one name, you will receive more than one proxy card. Please complete, sign, date and return each proxy card and voting instruction card that you receive in order to cast your vote with respect to all of your shares.

Q: What is the quorum requirement for the extraordinary general meeting of shareholders?

A: Holders of a majority in voting power of Alpha Ordinary Shares issued and outstanding and entitled to vote at the extraordinary general meeting, present in person or represented by proxy, constitute a quorum. In the absence of a quorum, a majority of Alpha’s shareholders, present in person or represented by proxy, and voting thereon will have the power to adjourn the extraordinary general meeting.

As of the record date for the extraordinary general meeting, 14,375,001 shares of Alpha Ordinary Shares would be required to achieve a quorum.

Your shares will be counted towards the quorum only if you submit a valid proxy (or your broker, bank or other nominee submits one on your behalf) or if you vote in person at the extraordinary general meeting of

[Table of Contents](#)

shareholders. Abstentions and broker non-votes will be counted towards the quorum requirement. If there is no quorum, a majority of the shares represented by shareholders present at the extraordinary general meeting or by proxy, or the presiding officer of the extraordinary general meeting of shareholders, may authorize adjournment of the extraordinary general meeting to another date.

Q: What happens to Alpha Warrants I hold if I vote my Alpha Class A Ordinary Shares against approval of the Business Combination Proposal and validly exercise my redemption rights?

A: Properly exercising your redemption rights as an Alpha shareholder does not result in either a vote “FOR” or “AGAINST” the Business Combination Proposal. If the Business Combination is completed, all of your Alpha Warrants will become New Semantix Warrants as described in this proxy statement/prospectus. If the Business Combination is not completed, you will continue to hold your Alpha Warrants, and if Alpha does not otherwise consummate an initial business combination by February 23, 2023, Alpha will be required to dissolve and liquidate, and your warrants will expire worthless.

Q: Who will solicit and pay the cost of soliciting proxies?

A: Alpha will pay the cost of soliciting proxies for the extraordinary general meeting. Alpha has engaged D.F. King and Co., Inc. (“D.F. King”) to assist in the solicitation of proxies for the extraordinary general meeting. Alpha has agreed to pay D.F. King a fee of \$25,000. Alpha will reimburse D.F. King for reasonable out-of-pocket expenses and will indemnify D.F. King and its affiliates against certain claims, liabilities, losses, damages and expenses. Alpha also will reimburse banks, brokers and other custodians, nominees and fiduciaries representing beneficial owners of shares of Alpha Ordinary Shares for their expenses in forwarding soliciting materials to beneficial owners of Alpha Ordinary Shares and in obtaining voting instructions from those owners. Alpha’s directors, officers and employees may also solicit proxies by telephone, by facsimile, by mail, on the Internet or in person. They will not be paid any additional amounts for soliciting proxies.

Q: Who can help answer my questions?

See “Where You Can Find More Information” on page 377. Most items in this summary include a page reference directing you to a more complete description of those items. Unless the context otherwise requires, all references in this subsection to “Alpha,” “we,” “us” or “our” refer to the business of Alpha Capital Acquisition Company prior to the consummation of the Business Combination.

The Parties to the Business Combination

Alpha

Alpha is a blank check company incorporated as a Cayman Islands exempted company on December 10, 2020, for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, without limitation as to business, industry or sector.

The units, Alpha Class A Ordinary Shares and Alpha Warrants are currently listed on Nasdaq under the symbols “ASPCU,” “ASPC” and “ASPCW,” respectively. New Semantix has applied for listing under the name “Alpha Capital Acquisition Co.” to be effective at the time of the consummation of the Business Combination, of the New Semantix Ordinary Shares and New Semantix Warrants on Nasdaq under the proposed symbols “STIX” and “STIXW,” respectively. New Semantix will not have units traded following consummation of the Business Combination.

New Semantix and Merger Subs

New Semantix, a Cayman Islands exempted company, was incorporated on November 8, 2021. Each of First Merger Sub, Second Merger Sub and Third Merger Sub is a Cayman Islands exempted company and a direct wholly owned subsidiary of New Semantix. Neither New Semantix nor the Merger Subs will be affiliated with Semantix prior to the consummation of the Business Combination. Until the consummation of the Business Combination, New Semantix will not have commenced operations and will have only nominal assets and liabilities and no material contingent liabilities or commitments.

In connection with the consummation of the Business Combination, (i) First Merger Sub will merge with and into Alpha with Alpha surviving as a wholly-owned subsidiary of New Semantix, (ii) immediately thereafter Alpha will merge with and into Second Merger Sub with Second Merger Sub surviving as a wholly-owned subsidiary of New Semantix and (iii) as promptly as practicable thereafter, Third Merger Sub will merge with and into Newco, with Newco surviving as a direct wholly-owned subsidiary of New Semantix. It is anticipated that, upon completion of the Business Combination, Semantix and Alpha will become wholly owned subsidiaries of New Semantix and New Semantix will change its name to Semantix, Inc.

Semantix

This summary highlights selected information about Semantix appearing elsewhere in this proxy statement/prospectus. To better understand the Business Combination and proposals to be considered at the extraordinary general meeting, you should read this entire proxy statement/prospectus carefully, including the annexes and the information presented under “*Risk Factors*,” “*Management’s Discussion and Analysis of Financial Condition and Results of Operations of Semantix*,” “*Business of Semantix*” and Semantix’s financial statements and notes thereto.

Overview

Semantix's mission is to empower organizations to optimize their data journeys by providing a data-centric platform to accelerate digital transformation and enhance business performance through seamless, low-code and low-touch data analytics solutions. Semantix's proprietary data software is designed to allow customers to access data from any source and develop appropriate analytics to meet their industry and business needs. Semantix's portfolio of products enables companies to commence their data lifecycle with simple solutions that can be later scaled-up and tailored with the objective of satisfying specific analytic demands and business circumstances.

Founded in 2010, with operations across Latin America and an emerging presence in the United States, Semantix offers proprietary SaaS data solutions and third-party software licenses together with highly complementary AI and data analytics services designed to enable companies to manage data effectively. Semantix's software solutions aim to extract business insights and apply AI automation for Semantix's customers across their business processes, with Semantix serving over 300 companies across a broad range of sectors, including finance, retail, telecommunications, healthcare, industrials and agribusiness, among others, with a varied client portfolio of all sizes, from small businesses to large enterprises.

Semantix embraces a data-driven world where companies can harness the use of data to unlock insights for their businesses to improve efficiency and profitability. In furtherance of this vision, Semantix pioneered the data cloud category in Latin America and seeks to replicate this early success globally by offering build to suit data solutions that allow organizations to unify and connect to a single copy of all of their data effortlessly and securely. These data solutions eliminate silos and inefficiencies created by data storage in various cloud formats and on-premise data centers.

Semantix offers a robust set of proprietary SaaS and third-party software solutions to its customers that allow them to simply, nimbly and securely manage their data. We believe Semantix's unique value proposition is an internally-developed, frictionless, end-to-end proprietary SaaS data platform, which we refer to as the Semantix Data Platform (SDP).

SDP seeks to reduce the complexity in the implementation of big data projects via an all-in-one proprietary platform that guides customers through their entire data lifecycles, from capturing data, to structuring that data in the form of a data lake, then providing easy access to such data for exploration and interaction and, finally, creating reports, dashboards and algorithms fueled by the data to enhance business performance. SDP also provides customers with the flexibility, scalability, and performance of having access to a global cloud from any of the leading platforms such as Microsoft's Azure, Amazon's AWS and Alphabet's Google Cloud. This broad access is combined with a high degree of cost predictability that customers appreciate, particularly as SDP largely eliminates exchange rate risk in the pricing of services for Latin American customers that they would be otherwise exposed to licensing data solutions from international suppliers who primarily price their services in U.S. dollars. In addition, Semantix has a team of software developers who can support all of its customers on a global basis at competitive rates.

The graphic below highlights the key features and competitive advantages of SDP:

While Semantix’s proprietary SaaS business line has gained substantial momentum since 2020 and is expected to be a key growth driver in accordance with Semantix’s strategic plans, the majority of Semantix’s revenues continue to be derived from the resale of third-party software licenses that it purchases from third-party data platform software providers located outside of Brazil, such as Cloudera Inc. (“Cloudera”) and Elasticsearch B.V. (“Elastic”). In 2021, 62.0% of Semantix’s revenues derived from its third-party software business line, 18.8% derived from its proprietary SaaS business line and 19.2% derived from its AI & data analytics business line.

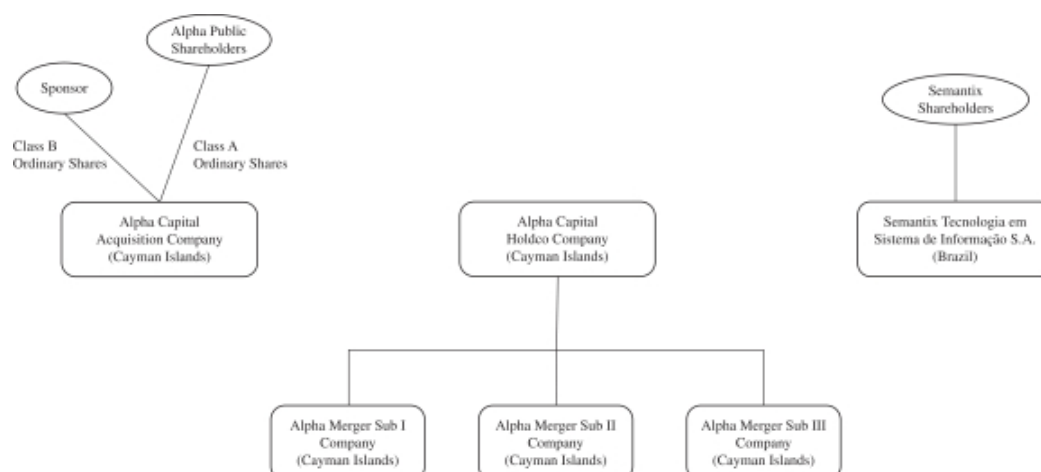

Whether through its own technology or third-party technology, Semantix resolves the challenges posed by multiple data silos and data governance by providing frictionless data access to users in a scalable and safe manner with almost no maintenance requirements. Any and all enhancements to Semantix’s data software are also provided by Semantix’s technical team, which we believe is a key differentiating factor favoring Semantix vis-à-vis global data software providers and provides a diversified revenue stream to Semantix. With an enterprise ready, stack agnostic, all-in-one software development approach, Semantix seeks to guide customers with all their data needs supported by 24x7 premium customer care for its SaaS solutions.

On June 13, 2022, Alpha granted its consent under the Lock-up Agreement to allow Leonardo dos Santos Poça D'Água to pledge a certain amount of his New Semantix Ordinary Shares as collateral in order to obtain financing from a third-party financial institution other than New Semantix, Semantix, Alpha or a related person thereof (as such item is used in Item 404 of Regulation S-K) to acquire (i) New Semantix Ordinary Shares beneficially owned by either Cumorah Group Ltd., which is the investment vehicle owned by Leandro dos Santos Poça D'Água, or ETZ Chaim Investments Ltd., which is the investment vehicle owned by Leonardo Augusto Oliveira Dias, pursuant to the call option contained in the Exchange Agreement, and (ii) New Semantix Ordinary Shares beneficially owned by Livia Ricardi de Almeida Poça D'Água, who is the ex-wife of Leandro dos Santos Poça D'Água, pursuant to the right of first refusal contractually held by Leonardo dos Santos Poça D'Água over such New Semantix Ordinary Shares. Shareholder Non-Redemption Agreement

Concurrently with the execution and delivery of the Business Combination Agreement and the Subscription Agreements, and as an inducement to Alpha's and Semantix's willingness to enter into the Business Combination Agreement, a certain shareholder of Alpha and affiliate of the Sponsor owning, in the aggregate, 2,300,000 of the outstanding Alpha Class A Ordinary Shares has entered into a non-redemption agreement with Alpha (the “Shareholder Non-Redemption Agreement”), under which, among other things, such Alpha shareholder has agreed to vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of such Alpha shareholder is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially. Semantix and Newco are named third-party beneficiaries under the Shareholder Non-Redemption Agreement.

Sponsor Letter Agreement

Concurrently with the execution of the Business Combination Agreement, the Sponsor has entered into the Sponsor Letter Agreement pursuant to which the Sponsor agreed to (i) vote all of its Founder Shares in favor of the Business Combination and related transactions and to take certain other actions in support of the Business Combination Agreement and related transactions and (ii) waive any rights to adjustment or other anti-dilution protections with respect to the Initial Conversion Ratio (as defined in the Existing Governing Documents), including those rights that would otherwise apply pursuant to Section 17.3 of the Existing Governing Documents as a result of the issuance of New Semantix Ordinary Shares in connection with the transactions contemplated by the Business Combination Agreement or any Transaction Agreement pursuant to the PIPE Investment such that the New Semantix Ordinary Shares issued pursuant to the PIPE Investment are excluded from the determination of the number of New Semantix Ordinary Shares issuable upon conversion of the Founder Shares pursuant to Section 17.3 of the Existing Governing Documents (which for the avoidance of doubt does not include the Sponsor's rights under Section 17.8 of the Existing Governing Document, which provides that in no event may

any Founder Share convert into New Semantix Ordinary Shares at a ratio that is less than one-for-one.), to which it would otherwise be entitled to in connection with the Business Combination, in each case, on the terms and subject to the conditions set forth in the Sponsor Letter Agreement.

In addition, the Sponsor has agreed that the Alpha Earn-Out Shares held by the Sponsor as of the date of the Sponsor Letter Agreement will be subject to vesting requirements. The Alpha Earn-Out Shares will vest in two equal 431,250 tranches based on the achievement of closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing at any time after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date. A given share price target described above is also achieved if there is a transaction during the relevant period that results in the New Semantix Ordinary Shares being converted into the right to receive cash or other consideration having a per share value (in the case of any non-cash consideration, as provided in the definitive transaction documents for such transaction, or if not so provided, as determined by the New Semantix board of directors in good faith) in excess of the applicable closing share price target set forth above. The Alpha Earn-Out Shares that have not vested by the fifth anniversary of the Closing shall, automatically and without further action on the part of New Semantix or any holder thereof, be forfeited and cancelled for no consideration. Prior to vesting or forfeiture the Alpha Earn-Out Shares will, with the exception of the right to receive dividends and other limited exceptions, be entitled to all rights of other shares of New Semantix Ordinary Shares.

Shareholders Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, New Semantix, Sponsor and certain shareholders of Semantix have entered into a shareholders agreement, pursuant to which, among other things, at the Third Effective Time, New Semantix's board of directors will consist of seven directors, of which (i) four directors will be designated by Semantix's Founders (with at least two of such directors being independent if the director designated by the Sponsor is independent or, if the director designated by the Sponsor is not independent, with at least three of such directors being independent), (ii) one director will be designated by Crescera, (iii) one director will be designated by Inovabra, and (iv) one director will be designated by the Sponsor. The directors will be divided into three staggered classes designated as Class I, Class II and Class III. In addition, Semantix's Founders will have the right to appoint the chairperson of the board of directors, subject to the maintenance of a number of New Semantix Ordinary Shares representing at least seven and one-half percent (7.5%) of the New Semantix Ordinary Shares then issued and outstanding.

Under the Shareholders Agreement, the right of Semantix's Founders, Crescera and Inovabra to appoint directors as described above is subject to the maintenance of a number of Ordinary Shares representing at least seven and one-half percent (7.5%) of the Ordinary Shares then issued and outstanding. The Sponsor's right to appoint a director shall terminate at the earliest of (i) the date when the Sponsor no longer holds any New Semantix Ordinary Shares, or (ii) three years after the closing of the Business Combination, at which time a new director will be appointed by Semantix's Founders. The Shareholders' Agreement will terminate upon the occurrence of certain triggering events, including, without limitation, in the event that the collective equity interests held by Crescera, Inovabra and Semantix's Founders falls below 40% of the total outstanding equity interests in New Semantix. See "*New Semantix Management After the Business Combination—Executive Officers and Directors.*"

Exchange Agreement

On November 17, 2021, New Semantix, Alpha, Semantix, the Semantix shareholders and the Semantix optionholders entered into an exchange agreement (the "Exchange Agreement"), pursuant to which, prior to the First Effective Time (and conditioned upon the Closing), the Semantix shareholders agreed to, among other

things, exchange with Newco all of the issued and outstanding equity of Semantix for newly issued Newco Ordinary Shares and, after giving effect to the Pre-Closing Exchange, the Company will become a wholly owned subsidiary of Newco.

In addition, under the Exchange Agreement, DDT Investments Ltd., which is the investment vehicle owned by Leonardo dos Santos Poça D'Água, shall have the right, but not the obligation, to purchase on one or more occasions, from the Closing of the Business Combination until the fifth anniversary of the Closing, up to 5% of the outstanding New Semantix Ordinary Shares held by each of Cumorah Group Ltd., which is the investment vehicle owned by Leandro dos Santos Poça D'Água, and ETZ Chaim Investments Ltd., which is the investment vehicle owned by Leonardo Augusto Oliveira Dias.

A&R Registration Rights Agreement

At the consummation of the Business Combination, New Semantix, the Sponsor and certain persons named therein will enter into an amended and restated registration rights agreement, pursuant to which that certain Registration Rights Agreement will be amended and restated in its entirety, as of the Closing. As a result, the holders of registrable securities will be able to make a written demand for registration under the Securities Act of all or a portion of their registrable securities, subject to certain limitations so long as such demand includes a number of registrable securities with a total offering price in excess of \$30 million. Any such demand may be in the form of an underwritten offering, it being understood that, subject to certain exceptions, New Semantix shall not be required to conduct more than an aggregate total of six underwritten offerings in any 12-month period. In addition, the holders of registrable securities will have “piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing. New Semantix has also agreed to file with the SEC a resale shelf registration statement covering the resale of all registrable securities within 30 days of the Closing, to be declared effective within 90 days of the Closing.

Ownership of New Semantix Upon Completion of the Business Combination

As of the date of this proxy statement/prospectus, there are (i) 23,000,000 Alpha Class A Ordinary Shares outstanding underlying units issued in the IPO and (ii) 5,750,000 Alpha Class B Ordinary Shares outstanding (all of which are held by the Sponsor). As of the date of this proxy statement/prospectus, there are 7,000,000 private placement warrants outstanding (all of which are held by the Sponsor) and 11,500,000 public warrants outstanding. Each whole warrant entitles the holder thereof to purchase one Alpha Class A Ordinary Shares and will entitle the holder thereof to purchase one New Semantix Ordinary Share. Therefore, as of the date of this proxy statement/prospectus (without giving effect to the Business Combination and assuming that none of Alpha's outstanding public shares are redeemed in connection with the Business Combination), Alpha's fully diluted share capital, giving effect to the exercise of all of the private placement warrants and public warrants, would be 47,250,000 ordinary shares.

Alpha cannot predict how many of the public Alpha shareholders will exercise their right to have their Alpha Class A Ordinary Shares redeemed for cash. As a result, Alpha has elected to provide the unaudited pro forma condensed combined financial information under three different redemption scenarios of Alpha shares into cash, each of which produce different allocations of total Alpha equity between holders of Alpha Ordinary Shares. The following table illustrates varying estimated ownership levels in New Semantix immediately following the consummation of the Business Combination, based on the varying levels of redemptions by the public shareholders and the following additional assumptions:

	Share Ownership in New Semantix ⁽¹⁾		
	No Redemptions ⁽²⁾ Percentage of Outstanding Shares	Interim Redemptions ⁽³⁾ Percentage of Outstanding Shares	Maximum Redemptions ⁽⁴⁾ Percentage of Outstanding Shares
Alpha shareholders (other than the Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser)) ⁽⁵⁾	20.7%	11.5%	—
Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) ⁽⁵⁾⁽⁶⁾⁽⁷⁾	8.1%	9.0%	10.2%
PIPE Investors (other than Semantix shareholders and the Sponsor's affiliates (consisting of certain entities affiliated with Alec Oxenford and Rafael Steinhauser))	3.2%	3.5%	4.0%
Semantix shareholders ⁽⁸⁾	68.1%	75.9%	85.8%

- (1) As of immediately following the consummation of the Business Combination and in each case, in consideration of PIPE Investors that are also existing shareholders of Semantix. Percentages may not add to 100% due to rounding. For a more detailed description of share ownership upon consummation of the Business Combination, see “*Security Ownership of Certain Beneficial Owners and Management*.”
- (2) Assumes that no public shares are redeemed.
- (3) Assumes that 10,350,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share (being our estimate of 50% of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement).
- (4) Assumes that 20,700,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share, after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement. Also assumes that, after giving effect to the payments to the redeeming public shareholders in this maximum redemption scenario, a minimum of \$85,000,000 of cash would be held in the Trust Account, including the net amount of proceeds actually paid to Alpha upon consummation of the PIPE Investment, in satisfaction of the Minimum Available Cash Condition.

- (5) Excludes New Semantix Warrants.
- (6) Considering the exercise of all New Semantix Warrants, the Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) would own (i) 13.7% of New Semantix's share capital under the no redemptions scenario, (ii) 15.8% of New Semantix's share capital under the interim redemptions scenario, and (iii) 18.5% of New Semantix's share capital under the maximum redemptions scenario.
- (7) Includes 862,500 Alpha Earn-Out Shares subject to vesting requirements under the Sponsor Letter Agreement but which, prior to vesting or forfeiture, entitle the holder to all rights of other New Semantix Ordinary Shares (other than the right to receive dividends), including the right to vote.
- (8) Excludes (i) equity awards issued at Closing upon rollover of the Unvested Semantix Options, (ii) Semantix Earn-Out Shares, and (iii) equity awards to be issued under the 2022 Plan.

To the extent that any of the outstanding Alpha Class A Ordinary Shares are redeemed in connection with the Business Combination, the percentage of New Semantix's outstanding voting stock held by the current Alpha shareholders will decrease relative to the percentage held if none of the Alpha Class A Ordinary Shares are redeemed.

In addition to the changes in percentage ownership described above, variations in the levels of redemptions will impact the dilutive effect of certain equity issuances related to the Business Combination which would not otherwise be present in an underwritten public offering. Without limiting the generality of the assumptions described under the section entitled "*Unaudited Pro Forma Condensed Combined Financial Information*", the ownership percentages described above do not take into account the dilutive effects of (i) Semantix Earn-Out Shares to be issued upon the achievement of certain price targets described in the Business Combination Agreement, (ii) equity awards to be issued at Closing upon rollover of the Unvested Semantix Options, (iii) New Semantix Warrants exercise price of \$11.50 per share, (iv) equity awards authorized to be issued under the 2022 Plan, and (v) warrants to purchase up to 1,500,000 Alpha Class A Ordinary Shares if the Sponsor makes a working capital loan prior to the closing of the Business Combination in an amount up to \$1,500,000 (no such loans have been made to date). The exercise, issuance or vesting of any of these shares could have a substantial dilutive effect on those Alpha shareholders who do not elect to redeem their Alpha Class A Ordinary Shares. Increasing levels of redemptions will increase the dilutive effects of these issuances on non-redeeming Alpha shareholders.

The following table shows the dilutive effects on the capitalization of New Semantix after the consummation of the Business Combination as a result of exercise, issuance or vesting of these main dilutive effects under the three different redemption scenarios of Alpha Class A Ordinary Shares:

- (6) Assuming the issuance of all 2,500,000 Semantix Earn-Out Shares to be issued upon the achievement of certain price targets described in the Business Combination Agreement.
- (7) Assuming all equity awards to be issued at Closing upon rollover of the Unvested Semantix Options become vested and are exercised.
- (8) Assuming the issuance, vesting and exercise of all equity awards authorized to be issued under the 2022 Plan, which comprise a total of (i) 10,037,244 New Semantix Ordinary Shares under the no redemptions scenario, (ii) 9,002,244 New Semantix Ordinary Shares under the interim redemptions scenario and (iii) 7,967,244 New Semantix Ordinary Shares under the maximum redemptions scenario.
- (9) Assuming the issuance and exercise of warrants to purchase up to 1,500,000 Alpha Class A Ordinary Shares if the Sponsor makes a working capital loan prior to the closing of the Business Combination in an amount up to \$1,500,000 (no such loans have been made to date).
- (10) Assuming the issuance, vesting and exercise of all dilutive sources described above.

The actual results will likely be within the parameters described by the three redemption scenarios; however, there can be no assurance regarding which scenario will be closest to the actual results.

- (6) Assuming the issuance, vesting and exercise of all equity awards authorized to be issued under the 2022 Plan, which comprise a total of (i) 10,037,244 New Semantix Ordinary Shares under the no redemptions scenario, (ii) 9,002,244 New Semantix Ordinary Shares under the interim redemptions scenario and (iii) 7,967,244 New Semantix Ordinary Shares under the maximum redemptions scenario.

The following table shows the dilutive effects on the ownership percentages described above as a result of the issuance of New Semantix Ordinary Shares resulting from the exercise of warrants to purchase up to 1,500,000 Alpha Class A Ordinary Shares if the Sponsor makes a working capital loan prior to the closing of the Business Combination in an amount up to \$1,500,000 (no such loans have been made to date) under the three different redemption scenarios of Alpha Class A Ordinary Shares:

- (1) Percentages may not add to 100% due to rounding.
- (2) Assumes that no public shares are redeemed.
- (3) Assumes that 10,350,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share (being our estimate of 50% of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement).
- (4) Assumes that 20,700,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share, after considering the 2,300,000 public

shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement. Also assumes that, after giving effect to the payments to the redeeming public shareholders in this maximum redemption scenario, a minimum of \$85,000,000 of cash would be held in the Trust Account, including the net amount of proceeds actually paid to Alpha upon consummation of the PIPE Investment, in satisfaction of the Minimum Available Cash Condition.

- (5) As of immediately following the consummation of the Business Combination and in each case, in consideration of PIPE Investors that are also existing shareholders of Semantix.
- (6) Assuming the issuance and exercise of warrants to purchase up to 1,500,000 Alpha Class A Ordinary Shares if the Sponsor makes a working capital loan prior to the closing of the Business Combination in an amount up to \$1,500,000 (no such loans have been made to date).

See “Unaudited Pro Forma Condensed Combined Financial Information” for further information.

Redemption Rights (Page 158)

Pursuant to Alpha’s Existing Governing Documents, Alpha is providing the Alpha shareholders with the opportunity to have their public shares redeemed at the Closing of the Business Combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of a business combination, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding Alpha Class A Ordinary Shares included as part of the units sold in the IPO, subject to the limitations described in this proxy statement/prospectus. For illustrative purposes, based on the fair value of marketable securities held in the Trust Account as of June 10, 2022 of approximately \$230.3 million, the estimated per share redemption price would have been approximately \$10.01. Alpha shareholders may elect to redeem their public shares even if they vote for the Business Combination Proposal and the other proposals. Alpha’s Existing Governing Documents provide that a public shareholder, acting together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a partnership, limited partnership, syndicate, or other group for purposes of acquiring, holding, or disposing of any shares of Alpha, will be restricted from exercising this redemption right in an amount of shares exceeding 15% of the public shares in the aggregate without the prior consent of Alpha. There will be no redemption rights with respect to the Alpha Warrants. Sponsor, the holder of the Founder Shares issued in a private placement prior to the IPO, has entered into a letter agreement (“Sponsor IPO letter agreement”) with Alpha pursuant to which the Sponsor has agreed, in partial consideration of receiving the Founder Shares and for the covenants and commitments of Alpha therein, to waive its redemption rights with respect to its Founder Shares and any public shares the Sponsor may have acquired after our IPO in connection with the completion of the Business Combination. Permitted transferees of the Sponsor will be subject to the same obligations. In addition, concurrently with the execution and delivery of the Business Combination Agreement, Innova, a shareholder of Alpha and affiliate of the Sponsor which owns 2,300,000 Alpha Class A Ordinary Shares, has agreed pursuant to the Shareholder Non-Redemption Agreement to, among other things, not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially.

Additionally, shares properly tendered for redemption will only be redeemed if the Business Combination is consummated; otherwise holders of such shares will only be entitled to a pro rata portion of the Trust Account (including interest but net of income taxes payable) in connection with the liquidation of the Trust Account or if we subsequently complete a different initial business combination on or prior to February 23, 2023, and such shares are tendered for redemption in connection with such different initial business combination.

Alpha will pay the redemption price to any public shareholders who properly exercise their redemption rights promptly following the Closing. The Closing is subject to the satisfaction of a number of conditions. As a

result, there may be a significant delay between the deadline for exercising redemption requests prior to the general meeting and payment of the redemption price. Any demand for redemption, once made, may be withdrawn at any time until the deadline for exercising redemption requests and thereafter, with our consent, until the vote is taken with respect to the Business Combination.

Each redemption of public shares by Alpha's public shareholders will decrease the amount in our Trust Account, which held \$230,282,859.39 as of June 10, 2022. In no event will Alpha redeem public shares in an amount that would cause its net tangible assets to be less than \$5,000,001. See the section entitled "*The Extraordinary General Meeting of Alpha Shareholders—Redemption Rights*" for the procedures to be followed if you wish to redeem your shares for cash.

Holders of our outstanding warrants will not have redemption rights with respect to such warrants. Assuming maximum redemptions of 20,700,000 Class A ordinary shares (see "*Unaudited Pro Forma Condensed Combined Financial Information*" for further information), and using the closing warrant price on Nasdaq of \$0.31 as of June 10, 2022, the aggregate fair value of warrants that can be retained by the redeeming shareholders, assuming maximum redemptions of 20,700,000 Class A ordinary shares, is \$6,417,000. The actual market price of the warrants may be higher or lower on the date that a warrant holder seeks to sell such warrants. Additionally, we cannot assure the holders of warrants that they will be able to sell their warrants in the open market as there may not be sufficient liquidity in such securities when a warrant holder wishes to sell their warrants. Further, while the level of redemptions of public shares will not directly change the value of the warrants because the warrants will remain outstanding regardless of the level of redemptions, as redemptions of public shares increase, the holder of warrants who exercises such warrants will ultimately own a greater interest in New Semantix because there would be fewer shares outstanding overall. See "*Risk Factors—Risks Related to New Semantix—Future resales of New Semantix Ordinary Shares issued to Semantix shareholders and other significant shareholders may cause the market price of New Semantix Ordinary Shares to drop significantly, even if New Semantix's business is doing well.*"

Description of New Semantix Share Capital (Page 357)

New Semantix is an exempted company incorporated with limited liability in the Cayman Islands. Its affairs are governed by its Memorandum and Articles of Association and the Companies Act.

Upon the Closing of the Business Combination, the authorized share capital of New Semantix will be US\$287,500 consisting of 287,500,000 New Semantix Ordinary Shares, par value US\$0.001 per New Semantix Ordinary Share. As of the date of this proxy statement/prospectus, there was one New Semantix Ordinary Share issued and outstanding. See "*Description of New Semantix Share Capital.*"

New Semantix Management Following the Business Combination (Page 344)

The Business Combination Agreement provides that, immediately following the Closing, New Semantix's board of directors will consist of seven directors. The initial composition of New Semantix's board of directors will be comprised of (i) six individuals to be designated by certain New Semantix shareholders as specified in the Shareholders Agreement, of which four directors will be designated by Semantix's Founders (with at least two such directors being independent if the director designated by the Sponsor is independent or, if the director designated by the Sponsor is not independent, with at least three of such directors being independent), one director will be designated by Crescera, and one director will be designated by Inovabra, and (ii) one individual by the Sponsor, in each case, in accordance with, and subject to, the terms and conditions of the Shareholders Agreement. The directors of New Semantix will include Leonardo dos Santos Poça D'Água, Dorival Dourado Júnior, Veronica Allende Serra, Jaime Cardoso Danvila, Rafael Padilha de Lima Costa, Rafael Steinhäuser and Ariel Lebowitz.

In addition, Semantix's Founders will have the right to appoint the chairperson of the board of directors, subject to the maintenance of a number of New Semantix Ordinary Shares representing at least seven and one-half percent (7.5%) of the New Semantix Ordinary Shares then issued and outstanding.

Under the Shareholders Agreement, the right of Semantix's Founders, Crescera and Inovabra to appoint directors as described above is subject to the maintenance of a number of Ordinary Shares representing at least seven and one-half percent (7.5%) of the Ordinary Shares then issued and outstanding. The Sponsor's right to appoint a director shall terminate at the earliest of (i) the date when the Sponsor no longer holds any New Semantix Ordinary Shares, or (ii) three years after the closing of the Business Combination, at which time a new director will be appointed by Semantix's Founders. The Shareholders' Agreement will terminate upon the occurrence of certain triggering events, including, without limitation, in the event that the collective equity interests held by Crescera, Inovabra and Semantix's Founders falls below 40% of the total outstanding equity interests in New Semantix. See "*New Semantix Management After the Business Combination—Executive Officers and Directors.*"

New Semantix's executive team following the Closing is expected to be comprised of Leonardo dos Santos Poça D'Água (Chief Executive Officer), Adriano Alcalde (Chief Financial Officer), André Guimarães Frederico (General Manager Latin America), Mathias Rech Santos (Chief Human Resources Officer) and Marcela Bretas (Chief Strategy Officer).

Accounting Treatment (Page 244)

Pursuant to the terms of the Business Combination Agreement, upon closing of the Business Combination, the shareholders of New Semantix shall comprise the former shareholders of Semantix and certain of the former shareholders of Alpha (including the holders of the public shares of Alpha which are currently publicly traded). Upon closing of the Business Combination, assuming that none of Alpha's existing public shareholders exercise their redemption rights and upon the other assumptions set forth elsewhere in this proxy statement/prospectus, Alpha's existing shareholders are expected to own approximately 28.7% of the outstanding share capital of New Semantix, and the former shareholders of Semantix are expected to own approximately 68.1% of the outstanding share capital of New Semantix and control New Semantix, as the ongoing operations of New Semantix will be those of Semantix, managed by Semantix's senior management.

Alpha does not meet the definition of a business pursuant to IFRS; accordingly, the Business Combination will be accounted for as a capital reorganization in accordance with IFRS 2, Share-Based Payments. For additional information, see "*Unaudited Pro Forma Condensed Combined Financial Information—Note 3—Accounting for the Business Combination.*" Under this method of accounting, Alpha would be expected to be treated as the "acquired" company for financial reporting purposes, and Semantix will be the accounting "acquirer." The net assets of Alpha will be stated at historical cost, with no goodwill or other intangible assets recorded. Any excess of fair value of New Semantix Ordinary Shares issued over the fair value of Semantix's identifiable net assets acquired represents compensation for the service of a stock exchange listing for its shares and is expensed as incurred. The unaudited pro forma condensed combined financial information assumes that Alpha Warrants would be expected to be accounted for as liabilities in accordance with IAS 32 following consummation of the Business Combination and, accordingly, would be subject to ongoing mark-to-market adjustments through the statement of operations. However, Semantix's evaluation of the post-Business Combination accounting for the warrants is ongoing, including the possibility of accounting for the public warrants as equity in accordance with IFRS 2 following consummation of the Business Combination.

Appraisal or Dissenters' Rights (Page 161)

No appraisal or dissenters' rights are available to holders of Alpha Class A Ordinary Shares or Alpha Warrants in connection with the Business Combination. The Companies Act prescribes when shareholder

appraisal rights will be available and sets the limitations on such rights. Where such rights are available, shareholders are entitled to receive fair value for their shares. However, regardless of whether such rights are or are not available, shareholders are still entitled to exercise the rights of redemption as set out herein, and the Alpha Board has determined that the redemption proceeds payable to shareholders who exercise such redemption rights represents the fair value of those shares. Extracts of relevant sections of the Companies Act follow:

238. (1) A member of a constituent company incorporated under this Act shall be entitled to payment of the fair value of that person's shares upon dissenting from a merger or consolidation.

239. (1) No rights under section 238 shall be available in respect of the shares of any class for which an open market exists on a recognised stock exchange or recognised interdealer quotation system at the expiry date of the period allowed for written notice of an election to dissent under section 238(5), but this section shall not apply if the holders thereof are required by the terms of a plan of merger or consolidation pursuant to section 233 or 237 to accept for such shares anything except—(a) shares of a surviving or consolidated company, or depository receipts in respect thereof; (b) shares of any other company, or depository receipts in respect thereof, which shares or depository receipts at the effective date of the merger or consolidation, are either listed on a national securities exchange or designated as a national market system security on a recognised interdealer quotation system or held of record by more than two thousand holders; (c) cash in lieu of fractional shares or fractional depository receipts described in paragraphs (a) and (b); or (d) any combination of the shares, depository receipts and cash in lieu of fractional shares or fractional depository receipts described in paragraphs (a), (b) and (c).

Status as Emerging Growth Company

Each of Alpha and Semantix is, and consequently, following the Business Combination, New Semantix will be, an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, New Semantix will be eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies”, and may not be required to, among other things, (1) provide an auditor's attestation report on its system of internal controls over financial reporting pursuant to Section 404; (2) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act; (3) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis); and (4) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. If some investors find New Semantix's securities less attractive as a result, there may be a less active trading market for New Semantix's securities and the prices of New Semantix's securities may be more volatile.

New Semantix will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of Alpha's IPO or (b) in which it has total annual gross revenue of at least \$1.07 billion (as adjusted for inflation pursuant to SEC rules from time to time), and (2) the date on which (x) it is deemed to be a large accelerated filer, which means the market value of New Semantix Ordinary Shares that are held by non-affiliates exceeds \$700 million as of the prior June 30th, or (y) the date on which it has issued more than \$1.0 billion in nonconvertible debt during the prior three-year period.

Interests of Alpha's Directors and Executive Officers in the Business Combination (Page 201)

When considering the recommendation of our board of directors that our shareholders vote in favor of the approval of the Business Combination, Alpha's shareholders should be aware that our Sponsor and certain of its directors and officers have interests in the Business Combination that may conflict with the interests of other

shareholders generally. Our directors were aware of and considered these interests, among other matters, in evaluating the Business Combination, and in recommending to shareholders that they approve the Business Combination. Alpha's shareholders should take these interests into account in deciding whether to approve the Business Combination. These interests include:

- the fact that certain of our directors and officers are principals of our Sponsor;
- the fact that 5,750,000 Founder Shares held by our Sponsor, for which it paid \$25,000, will convert on a one-for-one basis, into 5,750,000 shares of New Semantix Ordinary Shares upon the Closing, and such shares will have a significantly higher value at the time of the Business Combination when such shares convert into shares of New Semantix as described further below, and will be worthless if an initial business combination is not consummated:

	Alpha Class B Ordinary Shares ⁽¹⁾	Value of Alpha Class B Ordinary Shares implied by Business Combination ⁽³⁾	Value of Alpha Class B Ordinary Shares based on recent trading price ⁽⁴⁾
Sponsor ⁽²⁾	5,750,000	\$ 57,500,000	\$ 56,982,500
Alec Oxenford	—	—	—
Rafael Steinhauser	—	—	—
Rahim Lakhani	—	—	—
Alfredo Capote	—	—	—
David Lorié	—	—	—
Amos Genish	—	—	—
Ariel Lebowits	—	—	—

- (1) Interests shown consist solely of Founder Shares. Such shares will automatically convert into New Semantix Ordinary Shares upon the closing on a one-for-one basis.
- (2) Alpha Capital Sponsor LLC is the record holder of the shares reported herein.
- (3) Assumes a value of \$10.00 per share, the deemed value of the New Semantix Ordinary Shares in the Business Combination. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
- (4) Assumes a value of \$9.91 per share, which was the closing price of the Alpha Class A Ordinary Shares on the Nasdaq on June 10, 2021. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
- the fact that if an initial business combination is not consummated by February 23, 2023, our Sponsor, officers, directors and their respective affiliates will lose their entire investment in us of \$64,650,000 in the aggregate, which investment included \$57,500,000 in value of Alpha Class B Ordinary Shares, valued at an assumed price of \$10.00 per share, the value implied by the Business Combination (inclusive of the Sponsor's initial capital contribution of \$25,000), the 7,000,000 private placement warrants acquired for a purchase price of \$7,000,000 in the aggregate, and \$197,500 currently outstanding under an unsecured promissory note issued in the amount of up to \$500,000;
 - the fact that given the differential in the purchase price that our Sponsor paid for the Alpha Class B Ordinary Shares as compared to the price of the public shares sold in the IPO and the 5,750,000 New Semantix Ordinary Shares that the Sponsor will receive upon conversion of the Alpha Class B Ordinary Shares in connection with the Business Combination, the Sponsor and its affiliates may earn a positive rate of return on their investment even if the New Semantix Ordinary Shares trades below the price initially paid for the public shares in the IPO and the public shareholders experience a negative rate of return following the completion of the Business Combination;

- the fact that our Sponsor, officers and directors have agreed to waive their rights to liquidating distributions from the Trust Account with respect to any shares held by them if Alpha fails to complete an initial business combination and accordingly, our Sponsor, officers and directors will benefit from the completion of a business combination and may be incentivized to complete an acquisition of a less favorable target company or on terms less favorable to shareholders rather than liquidate;
- the fact that in connection with the Business Combination, we entered into the Subscription Agreements with the PIPE Investors, including affiliates of Sponsor, which provide for the purchase by the PIPE Investors of an aggregate of 9,364,500 Alpha Class A Ordinary Shares, for a purchase price of \$10.00 per ordinary share, in a private placement, the closing of which will occur immediately prior to the First Merger;
- the fact that affiliates of our Sponsor who are our officers and directors have entered into Subscription Agreements with us in connection with the PIPE Financing for an aggregate subscription of 100,000 Alpha Class A Ordinary Shares that will be worthless if an initial business combination is not consummated;
- the fact that if the Trust Account is liquidated, including in the event we are unable to complete an initial business combination by February 23, 2023, our Sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent registered public accounting firm) for services rendered or products sold to us, or a prospective target business with which we have entered into a transaction agreement, reduce the amounts in the Trust Account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, due to reductions in the value of the trust assets, net of the amount of taxes payable, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under our indemnity of the underwriters of our IPO against certain liabilities, including liabilities under the Securities Act;
- the fact that a certain affiliate of our Sponsor who is a shareholder of Alpha owning, in the aggregate, 2,300,000 of the outstanding Alpha Class A Ordinary Shares, has agreed to vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of the Alpha shareholders is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially;
- the fact that we have issued an unsecured promissory note in the amount of up to \$500,000 to our Sponsor, payable in full upon the earlier of July 31, 2022 or the consummation of a business combination. There is currently \$197,500 outstanding under such promissory note;
- the fact that, unless a business combination is completed, our directors are only entitled to reimbursement for any out-of-pocket expenses incurred by them on our behalf incident to identifying, investigating and consummating a business combination from funds outside of the Trust Account, which funds are limited;
- the fact that pursuant to the A&R Registration Rights Agreement (as defined below), the Sponsor can demand registration of its registrable securities and it will also have piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing, whereas it does not have such rights today;
- the potential continuation of certain of our directors as directors and in other roles at New Semantix, including that David Lorié will be corporate secretary of New Semantix and receive \$93,333.32 annually in cash compensation; and
- the continued indemnification of current directors and officers of Alpha and the continuation of directors’ and officers’ liability insurance for a period of six years after the Business Combination.

These interests may influence our directors in making their recommendation that you vote in favor of the approval of the Business Combination Proposal. You should take these interests into account in deciding whether to approve the Business Combination. You should also read the section entitled “*The Business Combination Proposal—Certain Other Interests in the Business Combination.*”

Recent Developments

On May 13, 2022, Alpha received notice from BofA Securities, one of the underwriters in its IPO, resigning as underwriter and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha’s IPO in the amount of \$3,461,500, and on June 3, 2022, Alpha received from BofA Securities a formal letter confirming its resignation and waiver of fees. On May 18, 2022, Alpha received notice from Citi, the other underwriter in its IPO, resigning as underwriter and capital markets advisor and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha’s IPO in the amount of \$4,588,500, and on May 19, 2022, Alpha received from Citi a formal letter confirming its resignation and waiver of fees. Under Citi’s capital markets advisory agreement, Alpha had engaged Citi to advise on the structure, negotiation strategy, valuation analyses, financial terms, investor meetings and presentations and other matters relating to the Business Combination, and the capital markets advisory agreement did not provide for any fees to be paid by Alpha to Citi in connection with such services. On May 26, 2022, Semantix received notice from Credit Suisse, its financial advisor in connection with the Business Combination, resigning as advisor to Semantix and waiving all right to fees under its financial advisory agreement with Semantix, and on June 1, 2022, Semantix received from Credit Suisse a formal letter confirming its resignation and waiver of fees. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. The Advisors did not otherwise communicate to Alpha or Semantix the reasons leading to their resignation and waiver of their fees after doing substantially all of the work to earn their fees. There is no dispute among any of Semantix, the Advisors or Alpha with respect to the Advisors’ capital markets advisory or financial advisory services or their resignation. As a result of these resignations and the associated waiver of fees, the transactions fees payable by Alpha and Semantix at the consummation of the Business Combination will be reduced by an aggregate of R\$82.8 million under the no redemptions scenario, R\$70.7 million under the interim redemptions scenario and R\$58.5 million under the maximum redemptions scenario. None of the Advisors has received any fees pursuant to their respective engagement letters or the Underwriting Agreement, other than \$4,600,000 in underwriting fees paid, in the aggregate, by Alpha to Citi and BofA Securities upon the consummation of Alpha’s IPO. Please see “*Unaudited Pro Forma Condensed Combined Financial Information*” for further information and the estimated transaction fees and expenses required to be paid in connection with the Business Combination. Alpha and Semantix continue to have customary obligations with respect to use of information, expense reimbursement and indemnification under the capital markets advisory, financial advisory and Underwriting Agreement with BofA Securities, Citi and Credit Suisse (collectively, the “Advisors”). However, Alpha and Semantix are not party to any agreements that would require the payment of fees (other than expense reimbursement) or underwriting commissions to the Advisors with respect to the Business Combination or any other transactions described herein.

At no time prior to or after their resignation did any of the Advisors indicate that they had any specific concerns with the Business Combination and the Advisors did not advise Alpha or Semantix that they were in disagreement with the contents of this prospectus/proxy statement or the registration statement of which it forms a part. The Advisors did not prepare or provide any of the disclosure in this prospectus/proxy statement or any other materials or work product that have been provided to Alpha’s shareholders, the Alpha Board or the PIPE Investors, or any analysis underlying such materials, except that Credit Suisse assisted Semantix’s management by organizing and providing industry and market data, comparable company information and other relevant third-party market information, all compiled at the direction of Semantix’s management (collectively, the “Industry Materials”) in furtherance of Semantix’s management’s preparation of the disclosure included in this proxy statement/ prospectus, including the Projections (as defined below) that were fully prepared by Semantix’s management based on its own estimates and assumptions. In addition, Credit Suisse supported the preparation of the PIPE presentation and the

analyst presentation, at the direction of Semantix's management, to reflect the Industry Materials. In each case, Semantix's management considered Credit Suisse's input based on its expertise and experience as an investment bank with coverage in the industries and geographies that Semantix operates, but Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the Projections. None of Credit Suisse or any of its affiliates has informed Semantix or Alpha that it is in disagreement with the Industry Materials previously provided to Semantix (upon which Semantix's management conducted its own independent analysis and made its own conclusions) or, to the knowledge of Alpha or Semantix, the PIPE Investors of any such disagreement. Accordingly, Alpha and Semantix have no reason to believe that the resignation by Credit Suisse signifies that the Industry Materials provided by Credit Suisse to Semantix are no longer reliable, and Semantix's management's independent analysis and conclusions in relation to the Industry Materials have also not changed as a result of Credit Suisse's resignation. However, in Credit Suisse's termination letter, it has, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, disclaimed responsibility for any portion of this proxy statement/prospectus.

In addition, as with all other members of the transaction working group, the Advisors did receive drafts of this prospectus/proxy statement prepared by Alpha and Semantix and provided limited comments in the ordinary course. Additionally, in verbal conversations that Alpha and Semantix have engaged in with the Advisors subsequent to their resignation, Alpha and Semantix, as the case may be, have been advised by the Advisors that, given that they are no longer engaged in any capacity by Alpha or Semantix, they do not intend to review any disclosure in this proxy statement/prospectus pertaining to their roles and resignation. Alpha and Semantix provided such disclosure to their respective Advisors and requested confirmation that they agree with the disclosure. Following delivery of the disclosure to the Advisors, they have either stated that they do not intend to review the disclosure or have not responded to such request. There can be no assurances that the Advisors agree with this disclosure and no inference can be drawn to this effect. Shareholders should not put any reliance on the fact that one or more of the Advisors were previously involved with any aspect of the transactions described in this prospectus/proxy statement.

Neither Alpha nor Semantix relied on their respective financial advisors for the preparation or analysis of any materials provided to the Alpha Board for use as a component of its overall evaluation of Semantix, notwithstanding the Industry Materials provided by Credit Suisse to Semantix upon which Semantix's management conducted its own independent analysis and made its own conclusions. The Alpha Board did not receive or rely upon any financial or valuation analyses conducted or prepared by any of the Advisors in making its determination that the Business Combination Agreement, and the transactions contemplated thereby, including the Business Combination, were advisable, fair to, and in the best interests of, Alpha and its shareholders.

In its role as financial advisor to Semantix, representatives to Credit Suisse performed the following services: (i) facilitated outreach to potential business combination counterparties, including Alpha, (ii) provided financial advice to Semantix in considering its strategic alternatives, (iii) assisted Semantix's management by organizing and providing the Industry Materials in furtherance of Semantix's management's preparation of the disclosure included in this proxy statement/prospectus, including the Projections that were fully prepared by Semantix's management based on its own estimates and assumptions, (iv) supported the preparation of the PIPE presentation and the analyst presentation, at the direction of Semantix's management, to reflect the Industry Materials and (v) participated in discussions and provided advice to Semantix as to the structuring and terms of the Business Combination. In each case, Semantix's management considered Credit Suisse's input based on its expertise and experience as an investment bank with coverage in the industries and geographies that Semantix operates, but Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the

Projections. None of Credit Suisse or any of its affiliates has informed Semantix or Alpha that it is in disagreement with the Industry Materials previously provided (upon which Semantix's management conducted its own independent analysis and made its own conclusions) or, to the knowledge of Alpha or Semantix, the PIPE Investors of any such disagreement. Accordingly, Alpha and Semantix have no reason to believe that the resignation by Credit Suisse signifies that the Industry Materials provided by Credit Suisse to Semantix are no longer reliable, and Semantix's management's independent analysis and conclusions in relation to the Industry Materials have also not changed as a result of Credit Suisse's resignation. However, in Credit Suisse's termination letter, it has, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, disclaimed responsibility for any portion of this proxy statement/prospectus. Additionally, in connection with the Business Combination, representatives of Credit Suisse, with respect to Semantix, and Citi, with respect to Alpha, in their roles as financial advisor and capital markets advisor, respectively, helped to facilitate the overall transaction execution process through (i) the convening of meetings and telephone and video conferences that were attended by representatives of Alpha, Semantix and their respective advisors and (ii) organizing and processing publicly available market data with respect to sector-specific comparable companies. Please see *"Proposals to be Considered by Alpha's Shareholders Business Combination—Background of the Business Combination"*.

The services being provided by the Advisors prior to such resignations were substantially complete at the time of their resignations (or in the case of the underwriting services provided by BofA Securities and Citi pursuant to the Underwriting Agreement, at the time of Alpha's initial public offering) and the Advisors were not expected to play any role at the Closing. Accordingly, Alpha and Semantix do not expect that the resignations of the Advisors will affect the timing or completion of the Business Combination, but will reduce the aggregate advisory fees payable at the Closing. Alpha and Semantix have considered engaging additional financial advisors, and on May 24, 2022, Alpha engaged D.A. Davidson to provide capital markets advisory services to the extent required prior to the Closing. The Advisors' resignation did not impact the Alpha Board's analysis of or continued support of the Business Combination. The availability of the PIPE Financing, the funds in the Trust Account and any contemplated post-transaction financing arrangements are not impacted by the resignation of the Advisors. In addition, Semantix does not expect the resignation of Citi will impact its separate lending relationship with an affiliate of Citi. Other than Semantix's separate lending relationship with an affiliate of Citi, neither Alpha nor Semantix has any other current relationship with any of the Advisors.

The resignation of the Advisors and the waiver of fees for services that have already been rendered is unusual. Shareholders should be aware that the resignation of the Advisors indicates that the Advisors do not want to be associated with the disclosure in this proxy statement/prospectus or the transactions contemplated hereby, and shareholders should not place any reliance on the participation of the Advisors prior to such resignation in the transactions contemplated by this proxy statement/prospectus. As a result, Alpha shareholders may be more likely to elect to redeem their shares, which may have the effect of reducing the proceeds available to New Semantix to achieve its business plan. See *"Unaudited Pro Forma Condensed Combined Financial Information"*.

Alpha shareholders may believe that when financial institutions, such as the Advisors, are named in a proxy statement/prospectus, the involvement of such institutions typically presumes a level of due diligence and independent analysis on the part of such financial institution and that the naming of such financial institutions generally means that a financial institution has done a level of due diligence ordinarily associated with a professional engagement. The resignation letters of each of the Advisors with respect to their engagements with Alpha and Semantix, each stated that the Advisors are not responsible for any part of this proxy statement/prospectus. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. While the Advisors did not otherwise provide any additional detail in their resignation letters either to Alpha or Semantix or to the Securities and Exchange Commission, such resignation may be an indication by such Advisors that such firms do not want to be associated with the disclosure in this proxy

statement/prospectus or the underlying business analysis related to the transaction. However, neither Alpha nor Semantix will speculate about the reasons why the Advisors withdrew from their roles as capital markets, financial advisors and underwriters, as the case may be, in connection with the Business Combination and forfeited their fees after doing substantially all the work to earn their fees. Accordingly, shareholders should not place any reliance on the fact that the Advisors have been previously involved with this transaction.

In addition, we note that unaffiliated investors are subject to certain material risks as a result of Semantix going public through a merger rather than through a traditional underwritten offering. See *“Risk Factors—The listing of New Semantix securities on Nasdaq will not benefit from the process undertaken in connection with an underwritten initial public offering.”*

Alpha continues to have customary obligations with respect to use of information and indemnification under the capital markets advisory agreement with Citi and the Underwriting Agreement with BofA Securities and Citi, and Semantix continues to have customary obligations with respect to use of information and indemnification pursuant to its financial advisory agreement with Credit Suisse. In particular, as is customary, certain provisions of the Underwriting Agreement shall survive BofA Securities’ and Citi’s resignations. These provisions include the relevant clauses of BofA Securities’ and Citi’s standard terms and conditions, including Alpha’s obligation to (i) indemnify and hold harmless each of BofA Securities and Citi, the directors, officers, employees, affiliates and agents of each of BofA Securities and Citi, each person who controls either BofA Securities or Citi within the meaning of the Securities Act or the Exchange Act and each affiliate of each of BofA Securities and Citi against any and all losses, claims, damages or liabilities, joint or several, to which they or any of them may become subject under the Securities Act or other U.S. federal or state statutory law or regulation, at common law or otherwise, insofar as such losses, claims, damages or liabilities arise out of or are based upon any untrue statement or alleged untrue statement of a material fact contained in the registration statement filed in connection with Alpha’s initial public offering, or in any preliminary prospectus, prospectus, “road show” as defined in Section 433(h) of the Securities Act or any Written Testing-the-Waters Communication, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading and (ii) reimburse each such indemnified party, as incurred, for any legal or other expenses reasonably incurred by them in connection with investigating or defending any such loss, claim, damage, liability or action; provided, however, that Alpha will not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon any such untrue statement or alleged untrue statement or omission or alleged omission made therein in reliance upon and in conformity with written information furnished to Alpha by or on behalf of BofA Securities or Citi through BofA Securities and Citi specifically for inclusion therein.

Additionally, certain provisions of the capital markets advisory agreement entered into between Citi and Alpha shall survive Citi’s resignation as capital markets advisor to Alpha. These provisions include the relevant clauses of the Citi’s standard terms and conditions contained in the respective agreements, including (i) that Citi will not assume responsibility for and may rely, without independent verification, on the accuracy and completeness of any publicly available information and information in reports and other materials provided by others, including, without limitation, information provided by or on behalf of Alpha (the “Information Obligations”), and (ii) Alpha’s obligation to indemnify and hold harmless Citi and its affiliates and their respective directors, officers, agents and employees and each other person controlling Citi or any of its affiliates, within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act to the full extent lawful, from and against any losses, expenses, claims or proceedings (1) related to or arising out of (A) the contents of oral or written information provided by Alpha, its affiliates and their respective employees or its other agents, which information either Alpha or Citi provides to any actual or potential buyers, sellers, investors or offerees, or (B) any other action or failure to act by Alpha, its affiliates and their respective employees or its other agents or by Citi or any indemnified party in accordance with and at Alpha’s request or with Alpha’s consent, or (2) otherwise related to or arising out of the engagement or any transaction or conduct in connection

therewith, except that clause (2) shall not apply with respect to any losses of an indemnified party that are finally judicially determined to have resulted primarily from the gross negligence or willful misconduct of such indemnified party (the “Surviving Indemnity Obligations”).

In addition, certain provisions of the engagement letter entered into on December 22, 2020 with Credit Suisse (the “Credit Suisse Engagement Letter”) shall survive the resignation of Credit Suisse as Semantix’s financial advisor, including: (i) the obligation of Semantix, Leonardo dos Santos Poça D’Água, Leandro dos Santos Poça D’Água and Leonardo Augusto Oliveira Dias (together, the “Principals”) not to, without the prior written consent of Credit Suisse, disclose, summarize, extract, or otherwise refer to, in whole or in part, any guidance provided by Credit Suisse in the context of the services described in the Credit Suisse Engagement Letter, whether formally or informally, nor the terms of the Credit Suisse Engagement Letter; (ii) Semantix’s obligation to indemnify and hold Credit Suisse and its affiliates and their respective employees, officers and personnel harmless from losses, damages, obligations, or expenses resulting from the provision of services under the Credit Suisse Engagement Letter, including any cost or expense incurred for the defense of their respective rights and interests and/or that the indemnified parties may have to bear as a result of the Credit Suisse Engagement Letter, except for those directly caused by the negligence or willful misconduct of Credit Suisse evidenced in a final arbitration award or in a final court judgment; and (iii) the Principals’ obligation to reimburse Credit Suisse for expenses incurred through the date of termination of Credit Suisse’s services.

Further, each of the engagement letters and the Underwriting Agreement described above contains a contribution provision in the event the Surviving Indemnity Obligations (or such similar indemnity obligations) are unavailable or otherwise prohibited by law, however, the contribution obligations of each Advisor are limited to the amount of compensation or fees actually paid to such party in respect of the engagement. As a result, the contribution obligations of Citi and BofA Securities under the Underwriting Agreement are limited to the \$4,600,000 in underwriting fees paid, in the aggregate, by Alpha to Citi and BofA Securities upon the consummation of Alpha’s IPO, and the Advisors otherwise have no further contribution liability under the other engagements (including the Underwriting Agreement) because they waived their rights to any fees or deferred underwriting commissions in connection with their resignations. Therefore, as a result of the Advisors’ resignations, and in contrast to other transactions where the underwriters and financial advisors did not resign and waive rights to fees or deferred underwriting commissions, as the case may be, the potential financial liability of Alpha and Semantix with respect to an indemnified loss where such indemnification is otherwise unavailable to the indemnified party may be higher under the respective agreements than it would have been had such underwriters and financial advisors not resigned and waived their rights to any fees or deferred underwriting commissions.

The Alpha Board’s Reasons for Approval of the Business Combination (Page 179)

The Alpha Board, in evaluating the Business Combination, consulted with Alpha’s management and legal and other advisors, including Citi, Alpha’s capital markets advisor, in reaching its decision at its meeting on November 10, 2021 to approve and adopt the Business Combination Agreement and the Business Combination contemplated thereby. As described in “*Summary—Recent Developments*”, Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus. At this and at prior meetings, the Alpha Board considered a variety of factors weighing positively and negatively with respect to the Business Combination. In light of the number and wide variety of factors considered in connection with its evaluation of the Business Combination, the Alpha Board did not consider it practicable to, and did not attempt to, quantify or otherwise assign relative weights to the specific factors it considered in reaching its determination. The Alpha Board viewed its position as being based on all of the information available and the factors presented to and considered by it. In addition, individual directors may have given different weight to different factors. This explanation of Alpha’s reasons for the board of directors’ approval of the Business

Combination, and all other information presented in this section, is forward-looking in nature and, therefore, should be read in light of the factors discussed under the section titled “*Cautionary Statement Regarding Forward-Looking Statements.*”

Before reaching its decision, the Alpha Board reviewed the results of due diligence conducted by Alpha’s management, together with its advisors, including Citi, Alpha’s capital markets advisor, which included, among other things:

- extensive meetings with Alpha’s management team, as well as with its legal and financial advisors, regarding Semantix’s operations, business model, and projections;
- review of various industry and financial data, including Semantix’s existing business model, historical and projected financial information, and various valuation analyses;
- research on the data software, analytics and artificial intelligence industries, including historical growth trends and market share information as well as end-market size and growth projections;
- review of Semantix’s commercial strategy;
- analysis of Semantix’s historical and projected financial information to understand and validate the key assumptions underpinning the financial projections prepared by Semantix management;
- review of Semantix’s material contracts regarding financials, tax, legal, accounting, information technology, insurance, employment and intellectual property;
- financial and valuation analysis of Semantix and the Business Combination;
- Semantix’s historical financial statements prepared under the accounting practices adopted in Brazil and based on the pronouncements, orientations and interpretations as issued by the Committee of Brazilian Accounting Practices (Comitê de Políticas Contábeis (CPC)) (“Brazilian GAAP”), which are, therefore different from Semantix’s financial statements prepared in accordance with IFRS accounting standards that are included in this proxy statement/prospectus;
- tax, legal and other diligence findings of external advisors; and
- assessment of Semantix’s public company readiness.

As described in “*Summary—Recent Developments*”, Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus. The Alpha Board did not receive or rely upon any financial or valuation analysis conducted or prepared by any of the Advisors in making its decision.

As described in the prospectus for the IPO, Alpha identified general, non-exclusive criteria and guidelines that Alpha believed would be important in analyzing prospective target businesses for a business combination. Alpha indicated its intention to acquire a company that it believes possesses the following characteristics:

- ***Proprietary technology platform which enhances competitive position.*** Businesses with defensible proprietary technology and intellectual property rights, which create a competitive moat. We sought businesses with a first-mover advantage and the opportunity to achieve market leadership with access to capital at a competitive all-in cost.
- ***Size.*** Target businesses whose equity value is between \$600 million and \$1.5 billion. Our management team believed businesses of such size have an adequate mix of market positioning and potential to scale and grow, while also having profitability potential.
- ***Minority equity participation.*** Making a capital investment with the goal of acquiring a significant minority position in the target company’s equity. We fundamentally believed that the founders and the respective management teams should continue to manage and operate the business.

- **Recurrent and scalable revenue business model.** Businesses with models that deliver fast growth, highly recurring, contracted revenue, with a preference for those that have minimal or no government contracts or whose business model has limited visibility due to potential regulatory changes. In addition, we would expect the target to deliver steady results consistent with guidance provided to investors.
- **Companies with a clear path to profitable growth.** By leveraging our operational expertise, we planned to increase profitability through areas with additional operating leverage, ideally with positive and growing gross and EBITDA margins. We would also expect these companies to have momentum to reach net income profitability in the medium term with a high quality of earnings and strong internal controls to be fully compliant with PCAOB auditing standards. We sought to invest in companies that we believe possess not only established business models and sustainable competitive advantages, but also a growing platform to provide capital gains to equity investors.
- **Consolidation platform benefitting from a public currency.** Target companies that can utilize access to the public equity markets to enhance its ability to pursue -accretive transformational or tuck-in acquisitions, high-return on capital growth projects, and/or strengthen its balance sheet and recruit and retain key employees through the use of publicly-traded equity compensation.
- **Impact investing.** Being mindful of Environmental, Social and Governance (ESG) factors to ensure that any business combination complements corporate social responsibility with profitability.
- **Resilient.** Companies with recession-resilient business models as well experience in absorbing the recurring volatility in Latin American countries. We believe this resilience can be further fostered by having the companies pursue growth out of the region into global addressable markets.
- **Visionary management team.** Founders and management teams who are able to execute on the target markets they pursue and serve. We intended to seek businesses with proven and accomplished founders and management teams that are eager to march forward together with the support of a board of directors, tech industry leaders and having access to large global institutional investors who invest in equity through public markets.
- **Publicly traded company readiness.** Management and stakeholders who aspire to have their business become a public company. Companies should have a strong corporate government and internal processes with standards comparable to a publicly listed company. We believe this will enable a target company to engage in a business combination with us on an expedited basis.
- **Adequate valuation.** A strong risk-adjusted return profile with substantial upside potential to balance and limit potential downside risks.

Based on its due diligence investigations of Semantix and the industry in which it operates, including the financial and other information provided by Semantix in the course of negotiations, the Alpha Board believes that Semantix meets the criteria and guidelines listed above. However, there is no assurance of this. See “*Business Combination Proposal—The Alpha Board’s Reasons for the Business Combination.*”

In particular, the Alpha Board considered the following positive factors:

- **Commercial Rationale.** The Alpha Board noted that Semantix possesses several compelling qualities that it believes enable multiple avenues for value creation:
 - **Large and Growing Data Addressable Market:** Semantix is a growing pure play digital transformation provider with a diversified technology-enabled ecosystem. The proprietary data solutions as a service (SaaS), third-party software licenses and the highly complementary artificial and data analytics services segments are strong, with its proprietary SaaS solutions growing as a

percentage of revenue. We understand that according to industry forecasts that worldwide big data and analytics markets are expected to grow substantially between 2020 and 2024, reaching a projected total addressable market (“TAM”) of US\$88.6 billion by 2024.

- ***Proven Business Model with Underlying Growth Drivers:*** Semantix’s compelling business model is highlighted by strong retention and high operating leverage. The large and growing TAM is underpinned by perception of strong demand and adoption across attractive end markets. Semantix already has a proven go-to-market strategy known as “land and expand” through which it first introduces companies to simple, entry-level data software via third-party licenses and, over time, aims to enhance customers’ data generation and interpretation with the more robust and multifaceted capabilities of the Semantix Data Platform, thus, in the process, migrating these customers to higher margin products through this transition to the Semantix Data Platform.
- ***Robust Products and/or Solutions:*** Semantix has a strong multi-cloud data platform that allows its customers to simply, nimbly and securely manage their data.
- ***Strong Business Fundamentals Underpinned by Attractive Key Metrics:*** Significant customer base of over 300 companies across a broad range of sectors with a varied client portfolio of all sizes from small businesses to large enterprises. Fundamentally, Semantix has robust scale and recurring revenues, and a differentiated product offering.
- ***Benefit from Being a Public Company:*** Increased funding and exposure is expected to allow Semantix to bring additional products and services to market and accelerate value realization for their customers.
- ***Financial Condition.*** The Alpha Board also considered factors such as Semantix’s historical financial results, outlook, and financial plan, as well as valuations and trading of publicly traded companies and valuations of precedent merger and acquisition targets in similar and adjacent sectors.
- ***Attractive Valuation.*** The Alpha Board’s determination that if Semantix is able to meet its financial projections, then Alpha’s shareholders will have acquired their shares in New Semantix at an attractive valuation, which would increase shareholder value.
- ***Strong Management Team.*** Led by Chief Executive Officer Leonardo Santos, Semantix’s management team is experienced with a proven track record. Mr. Santos’ experience in building Semantix through consistent organic and inorganic growth is particularly relevant for Semantix’s next stage.
- ***Strong Sponsorship.*** Following the closing, New Semantix will have blue chip shareholders and a permanent capital and public platform suitable for its long-term success, providing stability to all stakeholders.
- ***Continued Ownership of Semantix Shareholders.*** The Alpha Board considered that the Semantix shareholders would continue to be significant shareholders of New Semantix after Closing, with the Semantix shareholders entering into the Lock-up Agreement.
- ***Significant Financing Support.*** Subject to the terms and conditions of the Subscription Agreements, approximately \$93 million of private capital has been committed by the PIPE Investors.
- ***Terms of the Business Combination Agreement.*** The Alpha Board reviewed the financial and other terms and conditions of the Business Combination Agreement, including with respect to the Business Combination, and determined that they were reasonable and were the product of arm’s-length negotiations among the parties.
- ***Other Alternatives.*** Our board of directors’ belief that the Business Combination represents the best potential business combination for Alpha resulting from the process utilized to evaluate and assess

other potential acquisition targets, and our board of directors' and management's belief that such process had not presented a better alternative for a business combination.

In the course of its deliberations, the Alpha Board also considered a variety of uncertainties, risks and other potentially negative reasons relevant to the transaction, including, among others, the following:

- ***Risks Associated with the Business Combination.***
 - the risk that the announcement of the Business Combination and potential diversion of Semantix's management and employee attention may adversely affect Semantix's operations;
 - the risk that the Alpha Board may not have properly valued Semantix's business;
 - the risk that the Business Combination might not be consummated in a timely manner or that the Closing might not occur despite the companies' efforts, including by reason of a failure to obtain the approval of Alpha shareholders;
 - the risk that Alpha does not obtain the proceeds of the PIPE Financing or, that some of the current Alpha public shareholders exercise their redemption rights, resulting in Alpha being unable to retain sufficient cash in the Trust Account to meet the requirements of the Business Combination Agreement;
 - the risk that New Semantix may not be able to maintain the listing of New Semantix's securities on Nasdaq following the Business Combination;
 - the fact that Alpha shareholders will not hold a majority position in New Semantix following the Business Combination, which may reduce the influence that Alpha's current shareholders can exert on New Semantix and New Semantix's board of directors and management;
 - the Business Combination Agreement provides that Alpha will not have any surviving remedies against Semantix or its equity holders after the Closing to recover for losses as a result of any inaccuracies or breaches of the representations, warranties or covenants of Semantix set forth in the Business Combination Agreement;
 - the possible negative effect of the Business Combination and public announcement of the Business Combination or Semantix's financial performance and operating results, and Alpha's stock price;
 - the fact that the Business Combination Agreement includes an exclusivity provision that prohibits Alpha from soliciting or discussing other business combination proposals, and which restricts Alpha's ability to consider other potential business combinations for so long as the Business Combination Agreement remains in effect;
 - the risk of failure to satisfy the conditions to Closing (to the extent not waived by the parties);
 - the significant fees and expenses associated with completing the Business Combination and related transactions and the substantial time and effort of management required to complete the Business Combination; and
 - the possibility of litigation challenging the Business Combination.
- ***Risks Associated with Semantix's Business.***
 - the risk of competition in the industry, including the potential for new entrants;
 - the risk associated with Semantix's ability to maintain and grow its customer base using the Semantix Data Platform;
 - the risk associated with the scalability and security and robustness of Semantix's platforms;

- the fact that Semantix’s business growth depends on its ability to attract new and retain highly skilled sales team;
 - risks associated with Semantix’s ability to continue hiring senior executives who can scale the business and manage the increasing complexity of the business;
 - risks associated with Semantix’s ability to continue hiring engineers and data experts as labor markets remain competitive;
 - risks associated with customer concentration, with a significant portion of Semantix’s revenues derived from a small number of customers;
 - risks in relation to the ability of Semantix’s customers and suppliers to terminate important contracts at will with only prior written notice;
 - risks associated with a history of losses;
 - risks associated with Semantix’s inability to comply with certain financial ratios in its loan agreements;
 - the risk associated with macroeconomic uncertainty, including as it relates to COVID-19 and the 2022 presidential elections in Brazil, and the effects it could have on Semantix’s revenues;
 - risks associated with geographic expansion; and
 - the risk that certain key employees of Semantix might not choose to remain with Semantix post-Closing.
- ***Risks Related to Limitations of Review.*** The fact that Alpha did not obtain a fairness opinion from any independent investment banking or accounting firm that the price Alpha is paying to acquire Semantix is fair to Alpha or its shareholders from a financial point of view.
 - The other risks described in the section entitled “*Risk Factors.*”

For more information about the Alpha Board’s decision-making process concerning the Business Combination, please see the section entitled “*Business Combination Proposal—the Alpha Board’s Reasons for Approval of the Business Combination.*”

Quorum and Vote Required for Shareholder Proposals (Page 157)

A quorum of Alpha’s shareholders is necessary to hold a valid meeting. A quorum will be present at the extraordinary general meeting of shareholders if a majority of the Alpha Ordinary Shares outstanding and entitled to vote at the extraordinary general meeting of shareholders is represented in person or by proxy. Abstentions will count as present for the purposes of establishing a quorum.

The approval of each of the Business Combination Proposal and the Adjournment Proposal requires an ordinary resolution under Cayman Islands law, being the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting. The approval of the Merger Approval and the Governing Documents Proposals requires a special resolution under Cayman Islands law, being the affirmative vote of holders of a majority of at least two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting.

Recommendation of the Alpha Board (Page 154)

The Alpha Board believes that the Business Combination Proposal and the other proposals be presented at the extraordinary general meeting of shareholders are in the best interests of Alpha and its shareholders and

unanimously recommends that its shareholders vote “FOR” the Business Combination Proposal, “FOR” the Merger Proposal, “FOR” the Governing Documents Proposals and “FOR” the Adjournment Proposal, in each case, if presented at the extraordinary general meeting.

The existence of financial and personal interests of one or more of Alpha’s directors may result in a conflict of interest on the part of such director(s) between what he, she, or they may believe is in the best interests of Alpha and Alpha shareholders and what he, she, or they may believe is best for himself, herself, or themselves in determining to recommend that shareholders vote for the proposals. In addition, Alpha’s officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor; certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/prospectus*” for a further discussion of these considerations.

(1) Totals might be affected by rounding.

(2) Assuming that none of Alpha’s outstanding public shares are redeemed in connection with the Business Combination.

(3) Shares issued to Semantix shareholders and PIPE Investors are at a deemed value of \$10.00 per share.

(4) Represents an estimate of transaction expenses. Actual amounts may vary and may include expenses unknown at this time.

Underwriting Fees as a Percentage of IPO Proceeds Net of Redemptions (Page 160)

	No Redemptions ⁽¹⁾	Interim Redemptions ⁽²⁾	Maximum Redemptions ⁽³⁾
IPO underwriting fees ⁽⁴⁾	\$ 4,600,000	\$ 4,600,000	\$ 4,600,000

Underwriting fees as a % of IPO proceeds net of redemptions	2.0%	3.6%	20.0%

- (1) This scenario assumes that no public shares are redeemed.
- (2) This scenario assumes that 10,350,000 outstanding public shares are redeemed in connection with the Business Combination (being our estimate of 50% of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement), resulting in an aggregate payment of \$103.5 million out of the Trust Account, which is derived from an assumed redemption price of \$10.00 per share based on the Trust Account balance as of December 31, 2021.
- (3) This scenario assumes that 20,700,000 outstanding public shares are redeemed in connection with the Business Combination (being our estimate of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement), resulting in an aggregate payment of \$207,000,000 million out of the Trust Account, which is derived from an assumed redemption price of \$10.00 per share based on the Trust Account balance as of December 31, 2021. Also assumes that after giving effect to the payments to the redeeming public shareholders in this maximum redemption scenario, a minimum of \$85,000,000 of cash would be held in the Trust Account, including the net amount of proceeds actually paid to Alpha upon consummation of the PIPE Investment, in satisfaction of the Minimum Available Cash Condition.
- (4) Pursuant to the IPO underwriting agreement, upon the consummation of the Business Combination, Citi and BofA Securities were entitled to \$8,050,000 of deferred underwriting commission, however, BofA Securities was not engaged as a financial advisor, placement agent, capital markets advisor or in any other capacity, to Alpha or any other party in connection with the Business Combination. However, Citi and BofA Securities have agreed to waive their rights to the deferred underwriting commission in the aggregate amount of \$8,050,000 in connection with their decision not to provide further services as a financial advisor, placement agent, capital markets advisor or in any other capacity in connection with closing of the Business Combination, such that we now do not expect to pay any deferred underwriting fees in connection with closing of our initial business combination. See “*Business of Alpha—Alpha History*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Citi and BofA Securities, the underwriters in Alpha’s IPO, were to be compensated in part on a deferred basis for already-rendered underwriting services in connection with Alpha’s IPO, yet Citi and BofA Securities gratuitously and without any consideration from Alpha waived such compensation and disclaimed any responsibility for this proxy statement / prospectus*” for additional information.
- (5) IPO proceeds net of redemptions reflect the deduction of \$4,600,000 in underwriting fees paid by Alpha upon consummation of Alpha’s IPO.

[Risk Factors](#) (Page 74)

Semantix’s business and an investment in New Semantix Ordinary Shares are subject to numerous risks and uncertainties. In evaluating the proposals set forth in this proxy statement/prospectus, you should carefully read this proxy statement/prospectus, including the financial statements and annexes attached hereto, and especially consider the factors discussed in the section entitled “*Risk Factors*.” Some of these risks include:

- Semantix’s growth strategy is significantly dependent on the accelerated expansion of its proprietary SaaS business, which, in turn, relies to a great extent on receptiveness to, and adoption of, its proprietary data platform that was recently developed by Semantix and, therefore, has a limited operating track record.
- Semantix’s current operations are international in scope, and Semantix plans further geographic expansion, creating a variety of operational challenges.
- A significant portion of Semantix’s revenues is derived from a small number of customers and partial or full loss of revenues from any such customer may adversely affect it.
- Semantix’s customers may terminate engagements before completion or choose not to enter into new engagements with Semantix on terms acceptable to Semantix, or at all.

- The markets in which Semantix operates are highly competitive, and if Semantix does not compete effectively, its business, financial condition, and results of operations could be harmed.
- Semantix may not be able to renew or maintain its reselling agreements with its suppliers.
- Semantix has a history of losses, and Semantix may not be profitable in the future.
- Semantix and its suppliers could suffer disruptions, outages, defects and other performance and quality problems with their solutions or with the public cloud and internet infrastructure on which their solutions rely. If the availability of Semantix's proprietary data platform does not meet our service-level commitments to its customers, Semantix's current and future revenue may be negatively impacted.
- Because Semantix recognizes its revenue from its proprietary SaaS business over the term of each contract, downturns or upturns in new sales and renewals will not be immediately reflected in Semantix's results of operations.
- Semantix has identified material weaknesses in its internal control over financial reporting and, if Semantix fails to remediate such material weaknesses (and any other ones) or establish and maintain effective internal controls over financial reporting, Semantix may be unable to accurately report its results of operations, meet its reporting obligations and/or prevent fraud.
- Semantix expects fluctuations in its results of operations, making it difficult to project future results, and if Semantix fails to meet the expectations of securities analysts or investors with respect to its results of operations, Semantix's stock price could decline.
- The length of Semantix's sales cycle varies by customer and can include high upfront costs. If Semantix is unable to effectively manage these factors, its business may be adversely affected.
- If Semantix loses key members of its management team or is unable to attract and retain the executives and employees Semantix needs to support its operations and growth (especially skilled software engineers and developers), its business and future growth prospects may be harmed.
- Semantix is exposed to fluctuations in currency exchange rates, which could negatively affect its results of operations and its ability to invest and hold its cash.
- Semantix's payment obligations under its indebtedness may limit the funds available to it and may restrict its flexibility in operating its business.
- Semantix's existing loan agreements contain restrictive covenants and events of default that impose significant operating and financial restrictions on Semantix, and Semantix is not currently in compliance with certain financial covenants included in its loan agreements.
- Semantix agrees to indemnify customers and other third parties, which exposes Semantix to substantial potential liability.
- The departure or loss of significant influence of Semantix Founders, particularly Leonardo dos Santos Poça D'Água, would be detrimental to New Semantix's business and adversely affect the ability of New Semantix to execute its business strategies and continue to grow.
- Unfavorable conditions in Semantix's industry or the global economy could limit Semantix's ability to grow its business and negatively affect its results of operations.
- The extent to which the COVID-19 pandemic and measures taken in response thereto impact Semantix's business, financial condition, results of operations and prospects will depend on future developments, which are highly uncertain and are difficult to predict.
- If Semantix, its suppliers or its third-party service providers experience an actual or perceived security breach or unauthorized parties otherwise obtain access to Semantix's customers' data or Semantix's

data, Semantix's data solutions and services may be perceived as not being secure, Semantix's reputation may be harmed, demand for Semantix's data solutions and services may be reduced and Semantix may incur significant liabilities.

- Semantix relies on third-party and open source software for its data solutions. Semantix's inability to obtain third-party licenses for such software, or obtain them on favorable terms, or any errors or failures caused by such software could adversely affect Semantix's business, results of operations and financial condition. In addition, Semantix's use of open source software could negatively affect its ability to sell its data solutions and subject Semantix to possible litigation.
- Semantix's operations may be adversely affected by a failure to renew its leases on commercially acceptable terms, or at all, and to timely obtain or renew any licenses required to operate its occupied properties.
- The projected financial and operating information in this proxy statement/prospectus relies in large part upon assumptions and analyses developed by Semantix and third-party sources and are based on Semantix's ability to achieve, among other factors, certain growth milestones in accordance with its business plans. If these assumptions or analyses prove to be incorrect, Semantix's actual operating results may be materially different from its forecasted results.
- The Brazilian federal government has exercised, and continues to exercise, significant influence over the Brazilian economy. This influence, as well as Brazil's political and economic conditions, could harm us and the price of New Semantix Ordinary Shares.

- (2) Semantix calculates EBITDA as loss for the period *plus* net interest income (expenses), *plus* income tax *plus* depreciation and amortization. EBITDA is a non-GAAP measure. Semantix’s calculation of EBITDA may be different from the calculation used by other companies, including Semantix’s competitors in the industry, and therefore, Semantix’s measures may not be comparable to those of other companies. For further information see “*—Reconciliation of Non-GAAP Financial Measures.*”
- (3) Semantix calculates Adjusted EBITDA as EBITDA excluding the impacts of certain events that Semantix believes are isolated in nature incurred as part of its recent expansion and, therefore, not reflective of its underlying performance, including (i) isolated research expenses incurred in connection with the recent redesign and relaunch of Semantix’s proprietary data platform with the purpose of enhancing its functionality arising in relation to a single contract with a single supplier over a three-year period starting in 2019 and, following the relaunch of its data platform, which Semantix does not expect to incur on an ongoing basis, (ii) non-cash expenses recorded under provisions relating to the early termination by a single client of a three-year contract to purchase third-party software in the early phases of Semantix’s U.S. operations, with such amount corresponding to Semantix’s ongoing payment obligations under an onerous contract with the third-party software supplier despite the early termination of the resale contract by Semantix’s client, (iii) in 2021, concentrated expenses of an extraordinary nature related to third-party advisory and support services incurred in

connection with the Business Combination that are not expected to be ongoing following the expected Closing, (iv) a one-time earn-out payment to the former shareholders of LinkAPI (for additional information, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations of Semantix — Growth through Acquisitions—LinkAPP*”) and (v) expenses related to stock option grants under the 2021 Plan as well as a separate stock option plan adopted by Semantix in 2020 (for more information, see “*Executive Compensation—Share Incentive Plans*”) which do not relate directly to the performance of Semantix’s underlying business. Adjusted EBITDA is a non-GAAP measure. Semantix’s calculation of Adjusted EBITDA may be different from the calculation used by other companies, including Semantix’s competitors in the industry, and therefore, Semantix’s measures may not be comparable to those of other companies. RISK FACTORS

In addition to the other information contained in this proxy statement/prospectus, including the matters addressed under the heading “Cautionary Statement Regarding Forward-Looking Statements,” you should carefully consider the following risk factors in deciding how to vote on the proposals presented in this proxy statement/prospectus. The risk factors described below disclose both material and other risks, and are not intended to be exhaustive and are not the only risks facing us. Additional risks not currently known to us or that we currently deem to be immaterial, or which are not identified because they are generally common to businesses, also may materially adversely affect our business, financial condition, results of operations and cash flows in future periods. You are encouraged to perform your own investigation with respect to our business, financial condition and prospects.

Unless otherwise noted, all references in this subsection to “we,” “us” or “our” refer to the business of Semantix and its subsidiaries prior to the consummation of the Business Combination, which will be the business of New Semantix and its subsidiaries following the consummation of the Business Combination and, therefore, such references to “we,” “us” or “our” refer to the business of New Semantix and its subsidiaries when describing events or circumstances that will or could occur following the Business Combination. The occurrence of one or more of the events or circumstances described in these risk factors, alone or in combination with other events or circumstances, may have a material adverse effect on the business, financial condition, results of operations, cash flows and future prospects of New Semantix, in which event the market price of New Semantix Ordinary Shares could decline, and you could lose part or all of your investment.

Risks Related to Semantix’s Business and Industry

A significant portion of our revenues is derived from a small number of customers and partial or full loss of revenues from any such customer may adversely affect us.

We generate a significant portion of our revenues from our ten largest customers. During the years ended December 31, 2021 and 2020, our largest customer based on revenues, accounted for 11.4% and 10.2% of our revenues, respectively, and our ten largest customers together accounted for 53.8% and 59.7% of our revenues, respectively. For additional information regarding the material terms of our contracts with our largest customers, please refer to “*Business of Semantix—Customers*.”

Our ability to maintain close relationships with these and other major customers is essential to the growth and profitability of our business, particularly in relation to our land and expand strategy pursuant to which we seek to migrate our existing customers who purchase third-party software licenses from us to our higher-margin proprietary SaaS solutions. The volume of work we perform for each customer may vary from year to year, and as a result, a major customer in one year may not provide the same level of revenues for us in any subsequent year. The data solutions and services we provide to our customers, and the revenues associated with those solutions and services, may decline or vary as the type and quantity of solutions and services that we provide change over time. In addition, our reliance on any individual customer for a significant portion of our revenues may give that customer a certain degree of pricing leverage against us when negotiating contracts.

The loss of any of our major customers or a decrease in the scope of data solutions and services provided to them could have a material adverse effect on our business, financial condition, results of operations and prospects. For further information, please refer to “*Business of Semantix—Customers*.”

Our customers may terminate engagements before completion or choose not to enter into new engagements with us on terms acceptable to us, or at all.

Our contracts with our customers to provide data solutions (including both proprietary SaaS solutions and third-party software) typically have a term of around three years. However, these contracts may, in the majority

of cases, be terminated at will by our customers without cause by only providing prior notice ranging from 30 to 90 days. Meanwhile, our contracts with our customers to provide data analytics and AI services are generally more short-term in nature, ranging from three months to two years.

Our customers may terminate or reduce their use of our data solutions and services for any number of reasons, including if they are not satisfied with the solution or service level, the value proposition for our data solutions and services, or we are unable to meet customer needs and expectations. This possibility of customer termination or reduction may be more likely to the extent of price increases that could make our solutions and services unaffordable, particularly as a result of us passing through price increases in purchasing third-party software licenses for resale due to foreign exchange effects or other factors that are in the complete discretion of our third-party software suppliers. Even if we successfully deliver on contracted data solutions and services and maintain close relationships with our customers, a number of factors outside of our control could cause the loss of or reduction in business or revenue from our existing customers. These factors include, among other things:

- the business or financial condition of that customer or the economy generally;
- a change in strategic priorities by our customers, resulting in a reduced level of spending on technology solutions and services;
- changes in our customer's personnel who are responsible for procurement of information technology ("IT") solutions and services or with whom we primarily interact;
- a demand for price reductions by our customers;
- mergers, acquisitions or significant corporate restructurings involving one of our customers; and
- a decision by that customer to move work in-house or to one or several of our competitors.

The ability of our customers to terminate their engagement with us at any time makes our future revenue flow uncertain. We may not be able to replace any customer that chooses to terminate or not renew its contract with us, which could materially adversely affect our revenue and thus our results of operations. Furthermore, terminations in engagements may make it difficult to plan our project resource requirements.

If a significant number of customers cease using or reduce their usage of our data solutions or services, we may be required to spend significantly more on sales and marketing than we currently plan to spend in order to maintain or increase revenue from customers. Such additional sales and marketing expenditures could adversely affect our business, results of operations and financial condition.

Further, as we expand our portfolio of proprietary SaaS offerings, our potential customers may become concerned about disadvantages associated with switching providers, such as a loss of accustomed functionality, increased costs and business disruption. For prospective customers, switching from one vendor of solutions similar to those provided by us (or from an internally developed system) to a new vendor may be a significant undertaking. As a result, certain potential customers may resist changing vendors. There can be no assurance that our investments to overcome potential customers' reluctance to change vendors will be successful, which may be particularly relevant in relation to our strategy to migrate certain of our customers that currently license third-party software through us, to our proprietary solutions, which may adversely affect our business, financial condition, results of operations and prospects.

In addition, while the restrictions imposed by the COVID-19 pandemic have prompted a shift to digital solutions and services that benefited our business in 2020 and 2021, there can be no assurance that once the COVID-19 pandemic is sufficiently controlled, this shift will continue and that we will continue to benefit from our customers' increased spending on digital transformation efforts in response to the COVID-19 pandemic.

The markets in which we operate are highly competitive, and if we do not compete effectively, our business, financial condition, and results of operations could be harmed.

The markets for data cloud, big data, analytics and artificial intelligence are intensely competitive and characterized by rapid changes in technology, customer requirements, industry standards and frequent new solution and service introductions and improvements. As these markets continue to mature and new technologies and competitors enter such markets, we expect competition to intensify. Our current competitors include:

- public cloud providers who offer proprietary data management, machine learning and analytics services, such as Amazon Web Services (“[AWS](#)”), Microsoft Azure (“[Azure](#)”) and Google Cloud Platform (“[GCP](#)”);
- large, well-established, public and private data platform providers, including the suppliers from which we purchase software licenses for resale, such as Cloudera and Elastic, Confluent, Inc. (“[Confluent](#)”);
- private and public companies who also act as resellers of third-party software licenses, such as Logically Group Ltd. (“[Logically](#)”);
- less-established public and private cloud companies with solutions and services that compete in some of our markets;
- other established vendors of legacy database solutions and big data offerings, such as Hewlett-Packard Development Company, L.P. (“[HP](#)”), International Business Machines Corporation (“[IBM](#)”), Oracle Corporation (“[Oracle](#)”) and Teradata Corporation (“[Teradata](#)”);
- other vendors who offer data and business intelligence solutions that can be incorporated into our proprietary data platform, including Databricks Inc. (“[Databricks](#)”), Alteryx, Inc. (“[Alteryx](#)”), Fivetran Inc. (“[Fivetran](#)”), Tableau Software, LLC (“[Tableau](#)”), Microsoft Corporation’s Power BI, and QlikTech International AB (“[Qlikview](#)”); and
- technology companies and systems management vendors who offer on-premise infrastructure monitoring, including IBM, Microsoft Corporation (“[Microsoft](#)”), Micro Focus International plc (“[Micro Focus](#)”), BMC Software, Inc. (“[BMC](#)”) and Computer Associates International, Inc. (“[Computer Associates](#)”).

We compete based on various factors, including price, performance, range of use cases, multi-cloud availability, brand recognition and reputation, customer support, and differentiated capabilities, including ease of implementation and data migration, ease of administration and use, scalability and reliability, data governance, security, and compatibility with existing standards and third-party data solutions. Some of our competitors have substantially greater brand recognition, customer relationships, and financial, technical, and other resources than we do, and may be able to respond more effectively than we can to new or changing opportunities, technologies, standards, customer requirements and buying practices.

Our proprietary data platform requires third-party public cloud infrastructure to operate. We currently only offer our proprietary data platform on the public clouds provided by AWS, Azure and GCP, which are also some of our primary competitors. There is a risk that one or more of these public cloud providers could use its control of its public clouds to embed innovations or privileged interoperating capabilities in competing data solutions, bundle competing data solutions, provide us unfavorable pricing, leverage its public cloud customer relationships to exclude us from opportunities, and treat us and our customers differently with respect to terms and conditions or regulatory requirements than it would treat its similarly situated customers. Further, they have the resources to acquire, invest in, or partner with existing and emerging providers of competing technology and thereby accelerate adoption of those competing technologies. All of the foregoing could make it difficult or impossible for us to provide solutions that compete favorably with those of the public cloud providers.

Moreover, we resell software licenses of well-established data platform providers, such as Cloudera, Elastic, Confluent, among others. In addition to being our suppliers, these data platform providers are currently, and will

increasingly become, our direct competitors as we develop and increase the range of our proprietary solutions. Nonetheless, our current operations require that we maintain a good relationship with these suppliers, who may, faced with increasing competition from us, alter pricing in a manner unfavorable to us or exclude us from opportunities as we expand our operations and increase our market share (for additional information, see “*We may not be able to renew or maintain our reselling agreements with our supplier*” below). Furthermore, we face competition from other resellers of third-party software licenses given that our agreements with such suppliers for resale of their software licenses are non-exclusive.

New and innovative start-up companies, including emerging cloud-native data management companies, and larger companies that are making significant investments in research and development, may introduce data solutions or services that have greater performance or functionality, are easier or cheaper to implement or use, or incorporate technological advances that we have not yet developed or implemented or may invent similar or superior data solutions or services, including a better, more powerful and user-friendly data platform, that compete with our own.

We may also face competition from in-house development by our clients, academic and government institutions, and the open-source community who may offer similar solutions or an adequate substitute for our services and solutions. These factors may force us to compete on other fronts in addition to the quality of our services and to expend significant resources in order to remain competitive, which we may be unable to do.

Further, the markets in which we compete are subject to evolving industry standards and regulations, resulting in increasing data governance and compliance requirements for us and our customers (for additional information, see “*Risks Related to Semantix’s Compliance, Tax, Legal, and Regulatory Environment*” below). Moreover, to the extent we expand our operations further into highly regulated industries (such as the health and finance industries), our solutions may need to address additional requirements specific to those customer segments.

For these reasons, competition may negatively impact our ability to maintain and grow consumption of our proprietary data platform or put downward pressure on our prices and gross margins, any of which could materially harm our reputation, business, results of operations and financial condition.

If we are unable to adapt to rapidly changing technologies, methodologies and evolving industry standards, we may lose clients and our business could be materially adversely affected.

Rapidly changing technologies, methodologies and evolving industry standards are inherent in the market for our data solutions and services. Our ability to anticipate developments in our industry, enhance our existing data solutions and services, develop and introduce new data solutions, services or tools, provide enhancements and new features for our data solutions and tools, and keep pace with changes and developments are critical to meeting changing client needs. Developing solutions for our clients is extremely complex and could become increasingly complex and expensive in the future due to the introduction of new platforms, operating systems, technologies and methodologies. Our ability to keep pace with, anticipate or respond to changes and developments is subject to a number of risks, including that:

- we may not be able to develop new, or update existing, services, applications, tools and software quickly or inexpensively enough to meet our clients’ needs;
- we may find it difficult or costly to make existing software and tools work effectively and securely over the internet or with new or changed operating systems;
- we may find it challenging to develop new, or update existing, software, services and tools to keep pace with evolving industry standards, methodologies and regulatory developments in the industries where our clients operate at a pace and cost that is acceptable to our clients; and
- we may find it difficult to maintain high quality levels of performance with new technologies and methodologies.

We may not be successful in anticipating or responding to these developments in a timely manner, or if we do respond, the data solutions, services, tools, technologies or methodologies we develop or implement may not be successful in the marketplace. Our failure to enhance our existing data solutions and services and to develop and introduce new data solutions and services to promptly address the needs of our clients could have a material adverse effect on our business.

We may not be able to renew or maintain our reselling agreements with our suppliers.

As part of our business, we resell software licenses of well-established data platform providers, such as Cloudera, Elastic, Confluent, ECE Software, among others. Of our gross revenues for the years ended December 31, 2021 and 2020, (i) 37.6% and 31.5%, respectively, were attributable to the resale of software licenses of Cloudera (via numerous supply contracts with such supplier and resale contracts with various clients) and (ii) 16.9% and 30.1%, respectively, were attributable to the resale of software licenses of Elastic (via numerous supply contracts with such supplier and resale contracts with various clients).

These software companies license us software on a non-exclusive basis, and they may terminate their relationship with us at any time without cause with only 30 to 90 days' prior notice. Any such termination would be disruptive to our business, notwithstanding the acceleration of our proprietary SaaS solutions that do not depend on third-party software providers, and it may not be possible to secure alternative software providers on similar terms or with the same quality of solutions and services as our current suppliers offer. Accordingly, if we lose our current relationship with our main suppliers, our third-party software customers may elect to work with another data solutions company to fulfill their data needs, including the possibility of working with other companies that resell software licenses with the same third-party software providers that we currently work (considering that our relationships are non-exclusive) in order to maintain continuity and, in such case, terminate their relationship with us. Likewise, we cannot guarantee that our current customers that license third-party software through us will find our proprietary SaaS solutions to be adequate replacement. In any of these cases, we may experience a material adverse effect on our cash position, revenue and, by extension, our results of operations and financial position.

We have a history of losses, and we may not be profitable in the future.

We adopted IFRS for the first time in connection with the Business Combination in order to prepare our financial statements included in this proxy statement/prospectus. With the application of IFRS standards, we recorded net losses for all periods since 2019. For the years ended December 31, 2021 and 2020, we incurred net losses of R\$68.2 million and R\$19.4 million, respectively. As a result, we had an accumulated deficit of R\$140.5 million as of December 31, 2021. These losses and accumulated deficit reflect the substantial investments we made to acquire new customers, market and sell our new proprietary solutions and develop our proprietary data platform.

We expect our costs and expenses to increase in the foreseeable future, particularly as a result of becoming a public company (for additional information, see “—*Risks Related to Semantix’s Growth Strategy—We will incur increased costs as a result of operating as a public company*” below) and in connection with the ongoing development of our proprietary SaaS solutions. As a result of these increased costs and expenses, we will have to generate and sustain increased revenue to be profitable in future periods. Further, in future periods, our revenue growth rate could decline, and we may not be able to generate sufficient revenue to offset higher costs and achieve or sustain profitability. If we fail to achieve, sustain or increase profitability, our business and results of operations could be adversely affected.

We and our suppliers could suffer disruptions, outages, defects and other performance and quality problems with our solutions or with the public cloud and internet infrastructure on which our solutions rely. If the availability of our proprietary data platform does not meet our service-level commitments to our customers, our current and future revenue may be negatively impacted.

Our business depends on the data solutions that we offer (including our proprietary data platform and the third-party platforms from which we purchase software licenses for resale) to be available without disruption.

We and our suppliers have experienced, and may in the future experience, disruptions, outages, defects and other performance and quality problems with these data solutions. We have also experienced, and may in the future experience, disruptions, outages, defects and other performance and quality problems with the public cloud and internet infrastructure on which our proprietary data platform relies. These problems can be caused by a variety of factors, including introductions of new functionality, vulnerabilities and defects in proprietary and open source software, human error or misconduct, natural disasters (such as tornadoes, earthquakes or fires), capacity constraints, design limitations, denial-of-service attacks or other security-related incidents.

Moreover, we typically commit to maintaining a minimum service-level of availability for our customers that use our proprietary data platform. If we are unable to meet these commitments, we may be obligated to provide customers with additional capacity, which could significantly affect our revenue. We rely on public cloud providers, such as AWS, Azure and GCP, and any availability interruption in the public cloud could result in us not meeting our service-level commitments to our customers.

In some cases, we may not have any contractual rights with our public cloud providers that would compensate us for any losses due to availability interruptions in the public cloud. Further, if our contractual and other business relationships with our public cloud providers are terminated, suspended or suffer a material change to which we are unable to adapt, such as the elimination of services or features on which we depend, we could be unable to provide our proprietary data platform and could experience significant delays and incur additional expense in transitioning customers to a different public cloud provider.

Any disruptions, outages, defects, and other performance and quality problems with our data solutions and services (including any failure to meet our service-level commitments) or with the public cloud and internet infrastructure on which they rely, or any material change in our contractual and other business relationships with our public cloud providers, could result in reduced use of our data solutions and services, increased expenses, including service credit obligations and harm to our brand and reputation, any of which could have a material adverse effect on our business, financial condition and results of operations.

Because we recognize our revenue from our proprietary SaaS business over the term of each contract, downturns or upturns in new sales and renewals will not be immediately reflected in our results of operations.

Since 2019, we have derived an increasing portion of our revenues from our proprietary SaaS business, and we expect this business line to become increasingly significant in the future. Our proprietary SaaS represented 18.8% of our revenues for the year ended December 31, 2021, compared to 4.7% of our revenues for the year ended December 31, 2020. Our customer contracts typically have a term of around three years and we recognize revenue from our proprietary SaaS business ratably over the term of each contract. As a result, part of the revenue we report in each quarter is derived from the recognition of deferred revenue relating to contracts entered into during previous quarters. Consequently, a future decline in new or renewed contracts, or a reduction in expansion rates, in any single quarter could have only a small impact on our revenue results during that quarter or subsequent period. Such a decline or deceleration, however, will negatively affect our revenue or revenue growth rates in future quarters and, in the aggregate, may cause a material adverse effect on our business, financial condition and results of operations.

We have identified material weaknesses in our internal control over financial reporting and, if we fail to remediate such material weaknesses (and any other ones) or establish and maintain effective internal controls over financial reporting, we may be unable to accurately report our results of operations, meet our reporting obligations and/or prevent fraud.

Prior to the Business Combination, we have been a private company with limited accounting resources and processes necessary to address our internal control over financial reporting and procedures. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with the IFRS and interpretations issued by the IFRS Interpretations Committee. Our management has not completed a formal assessment of the effectiveness of our internal control over financial reporting and our independent registered public accounting firm has not conducted an audit of our internal control over financial reporting. We have identified material weaknesses in our internal control over financial reporting as of December 31, 2021. A material weakness is a deficiency, or combination of control deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weaknesses identified relate to:

- inability to implement a system of internal control over financial reporting considering the following components: (i) a control environment with standards, processes and structure to provide basis for carrying out internal control activities across the organization; (ii) a risk assessment process for identifying and assessing risks for the achievement of financial reporting objectives; (iii) governance and structure to manage and control access to in-scope application systems and changes to programs; and (iv) formal structure and controls related to “segregation of duties” around the critical elements of our financial reporting processes, including revenue recognition and significant or unusual transactions (among others); and
- insufficient accounting resources and processes necessary to comply with the IFRS and SEC reporting requirements, specifically: (i) ineffective design, implementation and operation of controls within the financial reporting process relating to preparation and review of the financial statements, including the technical application of IFRS and SEC applicability of required disclosures; (ii) ineffective design, implementation and operation of controls within the financial process covering the maintenance of proper accounting records and supported by formal accounting policies, especially related to the accounting for complex transactions; (iii) lack of sufficient level of knowledge, experience and training of the finance team in respect to financial reporting requirements for a US public company; (iv) design and maintain formal accounting policies and procedures, as well as analyze, record and disclose complex accounting matters timely and accurately, and (v) lack of comprehensive governance structure, including the lack of an audit committee in relation to financial reporting oversight.

Each of the material weaknesses described above may result in a misstatement of one or more account balances or disclosures that would result in a material misstatement of our annual or interim consolidated financial statements that would not be prevented or detected, and accordingly, we determined that these control deficiencies constitute material weaknesses.

We intend to take necessary actions to design and implement formal accounting policies, procedures and controls required to remediate these material weaknesses. This includes hiring additional finance and accounting personnel with the requisite experience and knowledge. It also includes designing our financial control environment, including the establishment of controls to account for and disclose complex transactions. However, we cannot assure you that our efforts will be effective or prevent any future material weakness in our internal control over financial reporting.

As of the date of this proxy statement/prospectus, we have not yet incurred material expenses to address those matters giving rise to the material weaknesses we identified and intend to focus efforts following the closing of the Business Combination starting in the second half of 2022. We are currently unable to predict how

Table of Contents

long it will take and how much it will ultimately cost for us to implement the remediation measures required to address those matters giving rise to the material weaknesses we identified. However, these remediation measures may be time consuming, costly, and might place significant demands on our financial and operational resources.

Due to these material weaknesses in our controls over financial reporting, in the process of preparing our financial statements as of and for the year ended December 31, 2021 included in this proxy statement / prospectus, we identified certain errors relating to the accounting of two transactions reflected in our financial statements as of and for the six-months ended June 30, 2021 (the “June 2021 Financials”). The June 2021 Financials were previously included in this proxy statement/prospectus as part of our February 4, 2022 filing (the “Original Filing”) but are no longer required to be included pursuant to the applicable guidance set forth in Form 20-F and in Regulation S-X for foreign private issuers. These transactions that were erroneously accounted for relate to certain commitments we made in December 2020 as part of our acquisition of LinkAPI that involved subsequent payments to the former shareholders of LinkAPI in 2022, as follows:

- In January 2022, we paid the former shareholders of LinkAPI R\$3.0 million as payment for its data integration platform, which was delivered to us in June 2021 and, therefore, should have been recorded upon delivery within intangible assets, net and other liabilities as of June 30, 2021 in the Original Filing; and
- Also in January 2022, we paid the former shareholders of LinkAPI R\$4.8 million as a full-year retention bonus in recognition of their continued employment with us following our acquisition of LinkAPI and the achievement of certain pre-determined operating and financial milestones, which should have been partly reflected as part of our general and administrative expenses and other liabilities as of and for the six months ended June 30, 2021 in the Original Filing in the amount of R\$2.4 million.

In addition, we also identified R\$1.2 million recorded as accumulated loss as of and for the six months ended June 30, 2021 in the Original Filing relating to our results from Tradimus, our subsidiary providing data solutions to serve the healthcare sector (in which Excella, a third-party health service management company, also holds a 50.0% non-controlling stake) that should have instead been recorded as non-controlling interest to reflect Excella’s ownership stake.

We corrected these accounting errors in our financial statements as of and for the year ended December 31, 2021 included in this proxy statement/prospectus. The aggregate impacts of the aforementioned errors on our financial statements as of June 30, 2021 and for the six-month period ended June 30, 2021 were (i) an increase in current liabilities of R\$3.0 million, with a corresponding increase to intangible assets, net, (ii) an increase in general and administrative expenses in the amount of R\$2.4 million, and (iii) an increase in net loss attributable to non-controlling interests of R\$1.2 million, with a corresponding increase in accumulated loss in the same amount. We intend to restate our June 30, 2021 balances if and when June 30, 2022 financial statements are needed, to reflect these corrections and, accordingly, our previously filed June 2021 Financials should be disregarded and should not be considered in making any investment decision.

Our management may be unable to conclude in future periods that our disclosure controls and procedures are effective due to the effects of various factors, which may, in part, include unremediated material weaknesses in internal controls over financial reporting. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in those reports is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Following the Business Combination, New Semantix will be a public company in the United States subject to the Sarbanes-Oxley Act. If we are unable to successfully remediate our existing or any future material weaknesses or other deficiencies in our internal control over financial reporting, the accuracy and timing of our financial reporting may be adversely affected, we may lose our status as an emerging growth company, investors

may lose confidence in our financial reporting, and we could become subject to litigation or investigations by the Nasdaq, the SEC and other regulatory authorities.

Under Section 404 of the Sarbanes-Oxley Act, the management of New Semantix will not be required to assess or report on the effectiveness of our internal controls over financial reporting until our second annual report on Form 20-F following consummation of the Business Combination, which we currently expect to be only in 2023 for the fiscal year ending December 31, 2022. In addition, until we cease to be an “emerging growth company” (see “*Risk Factors—Risks Related to New Semantix—As a foreign private issuer and an “emerging growth company” (as defined in the JOBS Act), New Semantix will have different disclosure and other requirements than U.S. domestic registrants and non-emerging growth companies*”) as such term is defined in the JOBS Act, our independent registered public accounting firm is not required to attest to and report on the effectiveness of our internal control over financial reporting. Even if our management concludes that our internal control over financial reporting is effective, our independent registered public accounting firm, after conducting its own independent testing, may disagree with our assessment, identify additional material weaknesses or issue a report that is qualified.

During the course of remediating these material weaknesses and satisfying the requirements of Section 404 of the Sarbanes-Oxley Act, we may identify additional material weaknesses and other deficiencies in our internal control over financial reporting. In addition, if we fail to maintain the adequacy of our internal control over financial reporting, as these standards are modified, supplemented or amended from time to time, we may not be able to conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act. If we fail to maintain an effective internal control environment, we could suffer material misstatements in our financial statements, fail to meet our reporting obligations or fail to prevent fraud, which would likely cause investors to lose confidence in our reported financial information. This could, in turn, limit our access to capital markets, harm our results of operations, and lead to a decline in the trading price of our shares. Additionally, ineffective internal control over financial reporting could expose us to increased risk of fraud or misuse of corporate assets and subject us to potential delisting from Nasdaq, regulatory investigations and civil or criminal sanctions. We may be unable to timely complete our evaluation testing and any required remediation.

In addition, these new obligations will also require substantial attention from our senior management and could divert their attention away from the day-to-day management of our business. These cost increases and the diversion of management’s attention could materially and adversely affect our business, financial condition and operating results.

We expect fluctuations in our results of operations, making it difficult to project future results, and if we fail to meet the expectations of securities analysts or investors with respect to our results of operations, our stock price could decline.

Our results of operations have fluctuated in the past and are expected to fluctuate in the future due to a variety of factors, many of which are outside of our control. As a result, our past results may not be indicative of our future performance. In addition to the other risks described herein, factors that may affect our results of operations include the following:

- fluctuations in demand for or pricing of our solutions;
- fluctuations in the price of the third-party software licenses that we purchase for resale;
- our ability to attract new customers;
- our ability to retain existing customers;
- customer expansion rates;

Table of Contents

- seasonality;
- investments in new features and functionality;
- fluctuations in customer consumption resulting from our introduction of new features or capabilities to our systems that may impact customer consumption;
- the timing of our customers' purchases;
- the speed with which customers are able to migrate data onto our proprietary data platform after purchasing capacity;
- fluctuations or delays in purchasing decisions in anticipation of new solutions or enhancements by us or our competitors;
- changes in customers' budgets, the timing of their budget cycles and purchasing decisions;
- our ability to control costs, including our operating expenses;
- the amount and timing of payment for operating expenses, particularly research and development and sales and marketing expenses;
- the amount and timing of non-cash expenses, including stock-based compensation, goodwill impairments and other non-cash charges;
- the amount and timing of costs associated with recruiting, training and integrating new employees and retaining and motivating existing employees;
- the effects and timing of acquisitions and their integration;
- general economic conditions, both domestically and internationally, as well as economic conditions specifically affecting industries in which our customers and partners participate;
- fluctuations in currency exchange rates and changes in the proportion of our revenue and expenses denominated in foreign currencies;
- health epidemics or pandemics, such as the COVID-19 outbreak;
- the impact, or timing of our adoption, of new accounting pronouncements;
- changes in regulatory or legal environments that may cause us to incur, among other things, expenses associated with compliance;
- the overall tax rate for our business, which may be affected by the mix of income we earn in Brazil and in jurisdictions with different tax rates, the effects of stock-based compensation and the effects of changes in our business;
- the impact of changes in tax laws or judicial or regulatory interpretations of tax laws, which are recorded in the period such laws are enacted or interpretations are issued and may significantly affect the effective tax rate of that period;
- fluctuations in the market values of our portfolio or strategic investments and in interest rates;
- changes in the competitive dynamics of our market, including consolidation among competitors or customers; and
- significant security breaches of, technical difficulties with, or interruptions to, the delivery and use of our solutions.

Any of these and other factors, or the cumulative effect of some of these factors, may cause our results of operations to vary significantly. If our quarterly results of operations fall below the expectations of investors and securities analysts who follow our stock, the price of New Semantix Ordinary Shares could decline substantially, and we could face costly lawsuits, including securities class actions.

The length of our sales cycle varies by customer and can include high upfront costs. If we are unable to effectively manage these factors, our business may be adversely affected.

Part of our business strategy involves the development of data solutions to better serve large enterprises. Sales to large customers involve risks that may not be present or that are present to a lesser extent with sales to smaller organizations, such as longer sales cycles, more complex customer requirements, including our ability to partner with third parties that advise such customers or help them integrate their IT solutions, substantial upfront sales costs and less predictability in completing some of our sales. For example, large customers, which make up a considerable portion of our business, may require considerable time to evaluate and test the data solutions that we offer prior to making a purchase decision and placing an order. In addition, large customers may be switching from legacy on-premises solutions when purchasing our solutions, and may rely on third parties with whom we do not have relationships when making purchasing decisions. A number of factors also influence the length and variability of our sales cycle, including the need to educate potential customers about the uses and benefits of our solutions, the discretionary nature of purchasing and budget cycles, and the competitive nature of evaluation and purchasing approval processes. As a result, the length of our sales cycle, from identification of the opportunity to deal closure, may vary significantly from customer to customer, with sales to large enterprises typically taking longer to complete. Moreover, large customers often begin to deploy our solutions on a limited basis but nevertheless demand implementation services and negotiate pricing discounts, which increase our upfront investment in the sales effort with no guarantee that sales to these customers will justify our substantial upfront investment. If we fail to effectively manage these risks associated with sales cycles and sales to large customers, our business, financial condition and results of operations may be affected.

If we lose key members of our management team or are unable to attract and retain the executives and employees we need to support our operations and growth (especially skilled software engineers and developers), our business and future growth prospects may be harmed.

Our success depends in part on the continued services of our co-founder Leonardo dos Santos Poça D'Água, as well as our other executive officers and key employees in the areas of research and development (particularly, skilled developers), and sales and marketing.

From time to time, there may be changes in our executive management and technical teams or other key employees resulting from the hiring or departure of these personnel. Our executive officers and other key employees are employed on an at-will basis, which means that these personnel could terminate their employment with us at any time. The loss of one or more of our executive officers, or the failure by our executive team to effectively work with our employees and lead our company, including as a result of remote working conditions, could harm our business.

In addition, to execute our growth plan, we must attract and retain highly qualified personnel. Competition for these personnel is intense, especially for engineers experienced in designing and developing cloud-based data solutions, experienced sales professionals and expert customer support personnel. We also are dependent on the continued service of our existing software engineers because of the sophistication of our proprietary data platform.

In the past, we have experienced, and we expect to continue to experience, difficulty in hiring and retaining employees with appropriate qualifications, particularly developers. Increased hiring by technology companies, particularly in Latin America, the United States, Asia and Europe, and increasing worldwide competition for skilled technology professionals may lead to a shortage in the availability of skilled professionals in the locations where we operate and hire. Many of the companies with which we compete for experienced personnel have greater resources than we have. If we hire employees from competitors or other companies, their former employers may attempt to assert that these employees or we have breached their legal obligations, resulting in a diversion of our time and resources. In addition, prospective and existing employees often consider the value of the equity awards they receive in connection with their employment. If the perceived value of our equity awards

declines, experiences significant volatility or increases such that prospective employees believe there is limited upside to the value of our equity awards, or if our existing employees receive significant proceeds from liquidating their previously vested equity awards, it may adversely affect our ability to recruit and retain key employees.

We also believe our culture has been a key contributor to our success to date and that the critical nature of the solutions that we provide promotes a sense of greater purpose and fulfillment in our employees. As our workforce becomes more distributed around the world, we may not be able to maintain important aspects of our culture. Any failure to preserve our culture could negatively affect our ability to retain and recruit personnel. If we fail to attract new personnel or fail to retain and motivate our current personnel, our business and future growth prospects would be harmed.

Increases in wages, equity compensation and other compensation expenses could prevent us from sustaining our competitive advantage and increase our costs.

Wages for technology professionals in emerging countries where we have significant operations are lower than comparable wages in more developed countries. However, wages in the technology industry in these countries may increase at a faster rate than in the past, which may make us less competitive unless we are able to increase the efficiency and productivity of our employees. If we increase operations and hiring in more developed economies, our compensation expenses will increase because of the higher wages demanded by technology professionals in those markets. In all countries in which we operate, wage inflation, whether driven by competition for talent or ordinary course pay increases, may also increase our cost of providing services and reduce our profitability if we are not able to pass those costs on to our clients or charge premium prices when justified by market demand.

We are exposed to fluctuations in currency exchange rates, which could negatively affect our results of operations and our ability to invest and hold our cash.

While our functional currency is the Brazilian *real*, most of our costs and a relevant portion of our sales related to our third-party software business area are denominated in, or linked to, U.S. dollars. As part of our core business, we purchase third-party software licenses from suppliers located outside of Brazil, which are denominated and payable in U.S. dollars, for resale to customers located in Brazil and elsewhere. Although the prices we charge our customers for these software licenses in Brazil are denominated in *reais*, such prices are necessarily linked to the U.S. dollar in an effort to pass through foreign exchange impacts and, therefore, pricing for these contracts with our customers requires certain assumptions, judgments and estimates from us regarding future foreign exchange behavior, which may not be accurate. Various events and circumstances, including political and macroeconomic events beyond our control or impossible or difficult to foresee, could have a significant impact on the foreign exchange environment, as evidenced by the dramatic volatility of the Brazilian *real* against the U.S. dollar in recent years (for additional information, see “*Management’s Discussion and Analysis of Financial Condition and Operating Results of Semantix—Significant Factors Affecting our Results of Operations—Brazilian Macroeconomic Environment—Currency Fluctuations*”). Accordingly, while we aim to purchase third-party software licenses only when we have a firm commitment from a customer, we are nevertheless exposed to foreign exchange volatility to the extent we are unable to fully pass through U.S. dollar amounts to our customers in the form of their *reais*-denominated contracts. In addition, we typically have up to 90 days to pay our suppliers from the time we sign a contract to purchase a software license until the due date for payment to our suppliers, which we consider in our cash flow planning. Accordingly, if there is significant unanticipated foreign exchange movement during the period from when we execute our contracts with suppliers (and set pricing with our customers) to the time we pay our suppliers, we could be forced to pay more for such software licenses in *reais*-terms without the ability to pass through such amounts to our customers. In addition, while we typically have contractual flexibility to anticipate payment to our suppliers prior to the contractual due date, we may not have the necessary cash on hand to respond quickly to material foreign exchange movements even if it is advantageous from a foreign exchange perspective to do

so. We do not currently enter into derivative transactions of any type to hedge our exposure originated by the resale of third-party software licenses. The software licenses we purchase and resell for our customers in Colombia and Mexico are purchased and resold in U.S. dollars, not in local currency.

Moreover, we have operations internationally that are denominated in foreign currencies, thus exposing us to foreign exchange risk primarily related to fluctuations between our functional currency, the Brazilian *real*, on the one hand, and the U.S. dollar, the Colombian *peso* and the Mexican *peso*, on the other hand. As our international operations expand, our exposure to the effects of fluctuations in currency exchange rates may grow.

Furthermore, the depreciation of the Brazilian *real* (or, in the case of our Mexican and Colombian operations, the *peso* of each country) against relevant foreign currencies may lead to a decrease in our revenues from our third-party software business given that our customers may decide to reduce their spending indexed or linked to foreign currencies in this scenario. On the other hand, the depreciation of the Brazilian *real* (or, in the case of our Mexican and Colombian operations, the *peso* of each country) against relevant foreign currencies may lead to an increase in domestic revenues from our proprietary SaaS business, since these proprietary solutions offer an alternative that is not directly impacted by the foreign exchange environment.

Currently, we do not hedge our foreign exchange exposure relating to our operations in Colombia, Mexico and the United States. As a result, our financial statements may present gains or losses due to translation effects relating to the financial statements of our subsidiaries, particularly as these operations become more relevant.

In addition, we have U.S. dollar-denominated and Euro-denominated loans. To mitigate our exchange rate exposure in relation to these loans, we have entered into derivative financial transactions with financial institutions to hedge against the fluctuation of the Euro/*real* and U.S. dollar/*real* exchange rates and link our principal and interest to a fixed rate or the Brazilian interbank deposit certificate (*Certificado de Depósito Interbancário*, or “CDI rate”). However, the use of such hedging activities may not offset any or more than a portion of the adverse financial effects of unfavorable movements in foreign exchange rates over the limited time the hedges are in place. Moreover, the use of hedging instruments may introduce additional risks if we are unable to structure effective hedges with such instruments.

Our payment obligations under our indebtedness may limit the funds available to us and may restrict our flexibility in operating our business.

We have increasing fixed financial costs in connection with our indebtedness and have incurred an increasing amount of debt in recent years to support our operations and development. As of December 31, 2021, we had total outstanding loans and borrowings in an aggregate principal amount of R\$146.6 million and R\$52.1 million in cash and cash equivalents. In addition, after December 31, 2021, we incurred new material indebtedness: (i) on January 14, 2022, we entered into a loan agreement with Banco Santander (Brasil) S.A., as lender, in the amount of R\$30.0 million, accruing interest at a rate per annum equal to CDI plus 5.98% and maturing on December 30, 2024; (ii) on January 31, 2022, we entered into a loan agreement with Citibank, N.A., as lender, in the amount of US\$2.1 million, with interest accruing at a rate per annum equal to 3.62% and maturing on December 30, 2025. We contracted a swap to hedge against foreign exchange rate, converting the financial charges of the loan (3.62% per annum) into an effective annual rate of CDI plus 5.16%; (iii) on March 4, 2022, we entered into a loan agreement with Banco Bradesco S.A. in the amount of R\$30.0 million with interest accruing at a rate per annum equal to 14.77% and maturing on March 4, 2026; (iv) on March 7, 2022, we entered into a loan agreement with Itaú Unibanco S.A. – Nassau Branch, in the amount of US\$2.0 million, with interest accruing at a rate per annum equal to 3.05% and maturing on February 18, 2026. We contracted a swap to hedge against foreign exchange rate, converting the financial charges of the loan (3.05% per annum) into an effective annual rate of 16.35%; and (v) on May 19, 2022, we entered into a loan agreement with Itaú Unibanco S.A. – Nassau Branch, in the amount of US\$8.1 million, with interest accruing at a rate per annum equal to 3.66% and maturing on November 21, 2022.

We may be required to use a portion of our cash flows from operations to pay interest and principal on our indebtedness. Such payments will reduce the funds available to us for working capital, capital

expenditures, and other corporate purposes and limit our ability to obtain additional financing (or to obtain such financing on acceptable terms) for working capital, capital expenditures, expansion plans, and other investments, which may in turn limit our ability to implement our business strategy, heighten our vulnerability to downturns in our business, the industry, or in the general economy, limit our flexibility in planning for, or reacting to, changes in our business and the industry, and prevent us from taking advantage of business opportunities as they arise. A high level of leverage may also have significant negative effects on our future operations by increasing the possibility of an event of default under the financial and operating covenants contained in our debt instruments.

In addition, we are exposed to interest rate risk related to some of our indebtedness. For additional information on our indebtedness, see “*Management’s Discussion and Analysis of Financial Condition and Operating Results of Semantix—Indebtedness.*”

If we are unable to generate sufficient cash flow from operations to service our debt, we may be required to refinance all or a portion of our existing debt or obtain additional financing. We cannot assure you that any such refinancing would be possible or that any additional financing could be obtained. Our inability to obtain such refinancing or financing may have a material adverse effect on our business, financial condition, ratings and results of operations.

Our existing loan agreements contain restrictive covenants and events of default that impose significant operating and financial restrictions on us, and we are currently not in compliance with certain financial covenants included in our loan agreements.

Under certain of our loan agreements, we are subject to restrictive and affirmative covenants, including restrictions on our change of control, the change of our ownership structure and corporate reorganization, limitations on certain consolidations, mergers, and sales of assets, and restrictions on the payment of dividends. In addition, certain of our loan agreements include financial covenants. These financial covenants comprise (i) a current assets/current liabilities ratio (current ratio), as calculated on an annual basis which may not be less than 1.2, (ii) a net debt/EBITDA ratio, as calculated on an annual basis, which may not exceed 3.5 on December 31, 2021 and 3.0 thereafter, and (iii) a debt/EBITDA ratio, as calculated on an annual basis, which may not exceed 3.5 on December 31, 2021.

Based on our financial statements as of and for the year ended December 31, 2021, our net debt/EBITDA ratio and our debt/EBITDA ratio were above 3.5 as of December 31, 2021, as calculated in the manner prescribed in the following loan agreements, which we refer to collectively as the “2021 Loan Agreements”:

- loan agreement entered into with Citibank, N.A. on May 25, 2021, in the amount of US\$3.8 million, with interest accruing at a rate per annum equal to 3.63% and maturing on June 27, 2025;
- loan agreement entered into with Itaú Unibanco S.A. – Nassau Branch on June 18, 2021, in the amount of EUR3.3 million, with interest accruing at a rate per annum equal to 1.42% and maturing on May 28, 2025;
- loan agreement entered into with Itaú Unibanco S.A. on June 23, 2021, in the amount of R\$0.6 million, with interest accruing at a rate per annum equal to 12.32% and maturing on May 20, 2025; and
- loan agreement entered into with Banco BTG Pactual S.A. on June 28, 2021, in the amount of R\$30.0 million, with interest accruing at a rate per annum equal to CDI plus 5.15% and maturing on June 28, 2024.

As of December 31, 2021, the aggregate outstanding amount under the 2021 Loan Agreements was R\$70.1 million. As of the date of this proxy statements/prospectus, we have received waivers from the relevant lenders under the 2021 Loan Agreements pursuant to which they waived and agreed not to enforce any of their rights with respect to our compliance with the applicable financial covenants. If we fail to comply with the covenants under any

of our indebtedness in the future or otherwise receive waivers, we may be in default under the documents governing such indebtedness, which may entitle the lenders thereunder to accelerate their debt obligations. A default under any of our indebtedness could result in cross-defaults under our other indebtedness, which in turn could result in the acceleration of our other indebtedness that would have an adverse effect on our cash flows and liquidity. For a description of certain terms of our material financings, including our financial covenants, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations of Semantix—Indebtedness—Loans and Borrowings*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations of Semantix—Indebtedness—Restrictive and Financial Covenants*.”

In the future, in order to avoid defaulting on our indebtedness, we may be required to take actions such as reducing or delaying capital expenditures, reducing or eliminating dividends or share repurchases, selling assets, restructuring or refinancing all or part of our existing debt, or seeking additional equity capital, any of which may not be available on terms that are favorable to us or to our shareholders, if at all. Complying with the covenants in our many financing agreements may cause us to take actions that make it more difficult to execute our business strategy successfully and we may face competition from companies not subject to such restrictions. For more information, see “*Our payment obligations under our indebtedness may limit the funds available to us and may restrict our flexibility in operating our business*.”

The consummation of the Business Combination may trigger the acceleration or termination of certain of our loan and operating agreements if we do not obtain our counterparties’ consent or waiver, which could adversely affect us.

We are party to several loan and operating agreements, the terms of which provide for the acceleration of the underlying indebtedness or termination in the event of our change of control, a change in our share ownership structure or our corporate reorganization.

As a result of and in connection with the Business Combination, we will go through a corporate reorganization and our direct control and share ownership structure will change. Although we do not anticipate there being a change of control resulting from the Business Combination and that our current controlling shareholders will remain the controlling shareholders of New Semantix (for additional information regarding post-Business Combination ownership scenarios, see “*Security Ownership of Certain Beneficial Owners and Management*”), the type of share transfers being contemplated in connection with the Business Combination could require waivers under Brazilian law contracts.

Accordingly, we have obtained relevant waivers from certain of our counterparties to address and anticipate our change in our share ownership structure as a result of the Business Combination. As of the date of this proxy statement/prospectus, we have received all of the relevant waivers from our lenders pursuant to which they have agreed not to enforce their rights under the applicable loan agreements in relation to the share ownership changes that will occur as a result of the Business Combination.

If we fail to comply with any covenants under any of our loan agreements, we may be in default under the documents governing such indebtedness, which may entitle the lenders thereunder to accelerate the debt obligations. A default under any of our indebtedness could result in cross-defaults under our other indebtedness, which in turn could result in the acceleration of our other indebtedness, which in turn may have an adverse effect on our cash flows and liquidity.

In addition, we have not obtained relevant waivers or consents from certain of our customers under contracts that are governed by Brazilian law. Although we have concluded that the Business Combination would not result in a change of control under our main U.S.-law governed supply contracts (or have obtained waivers for certain other of our Brazilian law supply contracts), we still have not received waivers for some of our Brazilian law-governed customer contracts, which, absent receipt of a waiver, could, in certain cases, allow for early

termination of these contracts. The majority of these agreements with our customers may be terminated without cause with only 30, 60 or 90-day prior notice, thus making early termination of our customer contracts an inherent and constant core business risk that exists irrespective of any share transfers. Nevertheless, a potential event of default under certain of these agreements, including as a result of changes of share ownership, may result in their immediate termination and the payment of fines. We estimate that the total fines that could be payable by us arising from the termination of customer contracts triggered as a result of the Business Combination and for which we do not have waivers is approximately R\$1.6 million. We cannot guarantee that we will be able to replace any lost revenues with new customers or services in the event we lose any contracts as a result of the Business Combination, which could have an adverse effect on us and negatively influence our results of operations.

There are risks for which our insurance policies may not adequately cover or for which we have no insurance coverage. Insufficient insurance coverage or the materialization of such uninsured risks could adversely affect us.

Our insurance policies may not adequately cover all risks to which we are exposed, and we are subject to risks for which we are uninsured, such as war and acts of God, including hurricanes and other force majeure events. In addition, we cannot guarantee that we will be able to maintain our insurance policies in the future or that we will be able to renew them at reasonable prices or on acceptable terms, which may adversely affect our business. The occurrence of a significant loss that is not insured or compensable, or that is only partially insured or compensable, may require us to commit significant cash resources to cover such losses, which may adversely affect us.

We agree to indemnify customers and other third parties, which exposes us to substantial potential liability.

Our contracts with customers, investors, and other third parties may include indemnification provisions under which we agree to defend and indemnify them against claims and losses arising from alleged infringement, misappropriation, or other violation of intellectual property rights, data protection violations, breaches of representations and warranties, damage to property or persons, or other liabilities arising from our data solutions or services or such contracts. Although we attempt to limit our indemnity obligations, we may not be successful in doing so, and an event triggering our indemnity obligations could give rise to multiple claims involving multiple customers or other third parties. There is no assurance that our applicable insurance coverage, if any, would cover, in whole or in part, any such indemnity obligations. We may be liable for up to the full amount of the indemnified claims, which could result in substantial liability or material disruption to our business or could negatively impact our relationships with customers or other third parties, reduce demand for our data solutions and services, and adversely affect our business, financial condition and results of operations.

Seasonality may cause fluctuations in our results of operations.

Historically, we have received a higher volume of orders from new and existing customers during the second half of the year and, in particular, in the fourth fiscal quarter of each year. We believe that this results from the procurement, budgeting, and deployment cycles of many of our customers, particularly our large enterprise customers. We expect this seasonality to become more pronounced as we continue to target large enterprise customers.

Unfavorable conditions in our industry or the global economy could limit our ability to grow our business and negatively affect our results of operations.

Our results of operations may vary based on the impact of changes in our industry or the global economy on us or our customers and potential customers. Negative conditions in the general economy both in Brazil and

abroad, including conditions resulting from changes in gross domestic product growth, financial and credit market fluctuations, international trade relations, pandemic (such as the COVID-19 pandemic), political turmoil, natural catastrophes, warfare, and terrorist attacks, could cause a decrease in business investments, including spending on data solutions, and negatively affect the growth of our business. Competitors, many of whom are larger and have greater financial resources than we do, may respond to challenging market conditions by lowering prices in an attempt to attract our customers. We cannot predict the timing, strength or duration of any economic slowdown, instability or recovery, generally or within any particular industry.

The risks arising with respect to the historic business and operations of LinkAPI and Tradimus may be different than we anticipate and our strategic partnerships could be challenged, which could significantly increase the costs and decrease the benefits of the acquisition and materially and adversely affect our operations going forward.

Although we performed significant financial, legal, technological and business due diligence with respect to LinkAPI Tecnologia S.A. (“LinkAPI”) and Tradimus Consultoria e Serviços em T.I. Ltda. (later changed to Tradimus S.A.) (“Tradimus”), we may not have appreciated, understood or fully anticipated the extent of the risks associated with their business and the acquisitions and integrations. We may discover previously unidentified contingencies of LinkAPI or Tradimus for which we may be liable, in our capacity as successor. These contingencies may be of a labor, social security, regulatory, civil and tax nature, among others, or refer to consumer and environmental rights. Pursuant to the share purchase agreements entered into in connection with these acquisitions, we have agreed that we will be indemnified for certain matters in order to mitigate the consequences of any breaches of certain surviving covenants and the risks associated with past operations of LinkAPI and Tradimus and a portion of the purchase prices shall be withheld from the sellers to cover such indemnity claims for a period of time. Although we have the benefit of the indemnification provisions of these share purchase agreements, subject to a cap under certain circumstances as described therein, our exercise of due diligence and risk mitigation strategies may not anticipate or mitigate the full risks of the acquisitions and the associated costs, including costs and expenses associated with previously unidentified contingencies. We may not be able to contain or control the costs associated with unanticipated risks or liabilities, which could materially and adversely affect our business, liquidity, capital resources or results of operations.

In addition, we have entered into a shareholders’ agreement with Excella Gestão de Saúde Populacional Ltda. (“Excella”) to govern our relationship as shareholders of Tradimus following Excella’s December 2020 investment in the company. Pursuant to this shareholders’ agreement, we are deemed to control Tradimus as of the date of this proxy statement/prospectus by virtue of the following rights and powers vested in us pursuant to this agreement despite holding an equity interest equal to Excella’s stake:

- Tradimus is managed by a board of directors and an executive board. The board of directors consists of two directors appointed by us and two directors appointed by Excella, with the chairman of the board of directors being appointed by us. Each member of the executive board is responsible for exercising the functions required of them within their area of activity;
- a Semantix-appointed member has the casting vote in any deadlock on the approval of any resolution by the board of directors until Tradimus is not considered a joint operation by the auditors of both Semantix and Excella; and
- the directors appointed by us have the right to appoint the chief executive officer.

Based on the above, since our investment in 2020 and through the date of this proxy statement/prospectus, we concluded that we have power over Tradimus and have the ability to direct the relevant activities and operations of Tradimus through the individuals that we appoint to the board of directors and the chief executive officer of Tradimus appointed by us. From May 26, 2023, any deadlocks at the shareholders’ meeting or board of directors’ meeting will be subject to a mandatory mediation procedure, as opposed to being resolved by the casting vote of a Semantix-appointed member. Accordingly, we will be required to

update our analysis at that time (in accordance with IFRS 10—*Consolidated financial statements*) to determine whether continued consolidation is appropriate and, if not, whether our interest in Tradimus meets the definition of a joint operation or a joint venture (determination made in accordance with IFRS 11—*Joint arrangements*). As a result of being considered a joint operation or a joint venture, we would no longer be deemed to control Tradimus and, accordingly, Tradimus would no longer be fully consolidated in our financial statements. Moreover, if Excella challenges our control rights pursuant to the shareholders' agreement, or such provisions vesting us with control are otherwise considered illegal or invalid, we may be unable to fully consolidate Tradimus' results of operations even prior to May 26, 2023. Our inability to fully consolidate Tradimus in our financial statements would adversely affect our results of operations and financial position. For additional information regarding the material terms of this shareholders' agreement, please refer to "*Business of Semantix—Tradimus Healthcare Solutions*."

The extent to which the COVID-19 pandemic and measures taken in response thereto impact our business, financial condition, results of operations and prospects will depend on future developments, which are highly uncertain and are difficult to predict.

The global impact of the COVID-19 outbreak and measures taken to reduce the spread of the virus have had an adverse effect on the global macroeconomic environment, and have significantly increased economic uncertainty and reduced economic activity. Governmental authorities around the world, including in Brazil, have taken measures to try to contain the spread of COVID-19, including by implementing travel bans and restrictions, quarantines, shelter-in-place or total lock-down orders and business limitations and shutdowns, but there can be no assurance that such steps will be effective or achieve their desired results in a timely fashion or at all. While countries continue to advance on the immunization of their populations, it is still too early to assess when this pandemic and its effects will end and particularly when the impacts of the pandemic will fully subside in Brazil, particularly as new strains and variants emerge worldwide.

We experienced, and may continue to experience, a modest adverse impact on certain parts of our business as a result of the COVID-19 pandemic, including (i) delayed progress in the development of proprietary solutions due to stalled research and development efforts and (ii) the slower than anticipated international expansion of our business, particularly in the United States, where we commenced operations in early 2020.

We have taken numerous actions to protect our employees and our business following the spread of COVID-19 (such as implementing a "work from home" model and adopting other measures to manage the risks posed by COVID-19, including restricting employee travel, developing social distancing plans for our employees and canceling physical participation in, and sponsorship of, events, conferences and seminars). We may take further actions if and when required by government authorities or as we determine are in the best interests of our employees, customers and business partners. There is no certainty that such measures will be sufficient to mitigate the risks posed by COVID-19. In addition, our management team has spent, and will likely continue to spend, significant time, attention, and resources monitoring the COVID-19 pandemic and associated global economic uncertainty and seeking to manage its effects on our business and workforce.

As of this time, the COVID-19 outbreak has not severely impacted the industry verticals to which we sell a significant portion of our data solutions and services in the past two fiscal years (financial services, telecom, healthcare, industrials, agribusiness and retail). In fact, our most significant customers, which are large enterprises that have been resilient in light of the effects of the COVID-19 pandemic, have in certain circumstances accelerated their demand for the implementation of digital transformation solutions over the next few years. As a result, the extent to which the COVID-19 outbreak impacts our business, financial condition, results of operations and prospects in the longer term will depend on future developments, which are highly uncertain and are difficult to predict, including, but not limited to, the duration, spread and severity of the outbreak, the actions taken to contain COVID-19 or treat its impact, how quickly and to what extent normal economic and operating conditions broadly resume, and the extent of the impact of these and other factors on our

employees, suppliers, partners and customers. In addition, while the restrictions imposed by the COVID-19 pandemic have prompted a shift to digital solutions and services that benefited our business in 2020 and 2021, there can be no assurance that once the COVID-19 pandemic is sufficiently controlled, this shift will continue and that we will continue to benefit from our customer's increased spending on digital transformation efforts in response to the COVID-19 pandemic. Accordingly, once the COVID-19 pandemic is sufficiently controlled, we may experience decreases or decreased growth rates in sales of our data solutions and services to customers, as our prospective and existing customers may be less dependent on digital solutions, which would negatively affect our business, financial condition and operating results.

In addition, while our main customers have not been materially impacted by the COVID-19 pandemic, as the effects of the COVID-19 pandemic persist, certain of our customers or partners may experience future downturns or uncertainty in their own business operations or results resulting from the spread of COVID-19, which may decrease or delay their spending, or lead to requests for pricing discounts or renegotiations of their contracts, any of which may result in decreased revenue and cash receipts for us. In addition, we may experience customer losses, including due to bankruptcy or our customers ceasing operations, which may result in an inability to collect accounts receivable from these customers. Competitors may also respond to market conditions by lowering prices and attempting to lure away our customers. We cannot predict the timing, strength, or duration of any economic slowdown, instability, or recovery, generally or within any particular industry.

The COVID-19 pandemic and related restrictions could disrupt or delay the ability of employees to work because they become sick or are required to care for those who become sick, or for dependents for whom external care is not available. It could cause delays or disruptions in services provided by key suppliers and vendors, make us and our service providers more vulnerable to security breaches, denial of service attacks or other hacking or phishing attacks, or have other unpredictable effects.

Our operations may be adversely affected by a failure to renew our leases on commercially acceptable terms, or at all, and to timely obtain or renew any licenses required to operate our occupied properties.

All of our offices and our data laboratory are located in leased properties. The leases are subject to renewal, and we may not be able to renew them on terms that we deem acceptable, or at all. If we do not renew our leases, we may not be able to locate suitable replacement properties for our offices, or may be delayed in finding a new location, which could lead to an interruption in our operations and potentially adversely affect us. In addition, any inability to renew our leases at terms that we deem acceptable, or at all, may have an adverse impact on us, including the interruption of our operations.

The operation of the properties we occupy or may come to occupy are subject to certain license and certification requirements under applicable law, including operation and use licenses (*alvará de licença de uso e funcionamento*) from the municipalities in which we operate and certificates of inspection from applicable local fire departments. Our operations may be adversely affected by a failure to timely obtain or renew any licenses required to operate our occupied properties. We have not yet obtained licenses for all of our occupied properties, and we cannot assure that we will be able to obtain the licenses for which we have applied in a timely manner, as applicable. In addition, we cannot assure you that we will obtain such licenses in a timely manner for the opening of new properties.

If we are unable to renew or obtain such licenses, we may be subject to certain penalties, which include the imposition of fines and/or the suspension or termination of our operations at the respective property. The imposition of such penalties, or, in extreme scenarios, the sealing off of the premises by relevant public authorities pending compliance with all the requirements demanded by the municipalities and fire departments, may adversely affect our operations and our ability to generate revenues at the relevant location.

Risks Related to Semantix's Growth Strategy

Our growth strategy is significantly dependent on the accelerated expansion of our proprietary SaaS business, which, in turn, relies to a great extent on receptiveness to, and adoption of, our proprietary data platform that was recently developed by us and, therefore, has a limited operating track record.

Our historical operations consisted primarily of the resale of third-party software licenses. However, since 2019, we have derived an increasing portion of our revenues from our proprietary SaaS business, which consists of revenue from fees charged to our customers for our proprietary data platform software, and we expect the expansion of our proprietary SaaS business to be the main driver of growth going forward. For the years ended December 31, 2021 and 2020, our proprietary SaaS business accounted for 18.8% and 4.7% of our revenues, respectively.

While we have been offering data solutions in Brazil since 2010, the development of our proprietary data platform in its current form is relatively recent and still evolving. The recent growth of this business area may not be reflective of future growth and could slow, decline or never reach its full potential for a number of reasons, including less than expected demand for our proprietary data platform, an unwillingness of our current third-party customers to migrate to our propriety platform, increased competition, changes to technology, a decrease in the growth of our overall market, or our failure to identify and capitalize on opportunities to grow or otherwise. We have confronted, and will continue to confront, risks and uncertainties frequently experienced by growing companies in rapidly changing industries, such as the risks and uncertainties described herein. If our assumptions regarding these risks and uncertainties and the future revenue growth potential of our proprietary SaaS business are incorrect or change, or if we do not address these risks successfully, we may fail to realize our growth strategy, resulting in future operating and financial results materially different from our expectations.

We believe our future success, growth and profitability depend significantly on the expansion of our proprietary SaaS business, and our growth estimates rely to a significant degree on our achievement of exponential growth of our proprietary SaaS business. Accordingly, if we are unable to achieve this objective, whether due to competitive difficulties, cost factors, an inability to attract clients or any other reason, our capacity to fully execute our business strategy may be limited, and our operating and financial results could differ materially from our expectations and projections, causing our business to suffer.

Our current operations are international in scope, and we plan further geographic expansion, creating a variety of operational challenges.

A component of our growth strategy involves the expansion of our operations and customer base internationally. We currently have customers with operations in approximately 15 countries. Revenues generated from our operations outside Brazil represented 12.0% and 21.5% of our revenues for the years ended December 31, 2021 and 2020, respectively. We are continuing to adapt to and develop strategies to address international markets, but there is no guarantee that such efforts will have the desired effect. For example, we anticipate that we will need to establish relationships with new partners in order to expand into certain countries, and if we fail to identify, establish and maintain such relationships, we may be unable to execute on our expansion plans. We expect that our international activities will continue to grow for the foreseeable future as we continue to pursue opportunities in existing and new international markets, which will require significant dedication of management attention and financial resources.

Our current and future international business and operations involve a variety of risks, including:

- slower than anticipated public cloud adoption by international businesses;
- changes in a specific country's or region's political, economic, or legal and regulatory environment, including the effects of pandemics, tariffs, trade wars or long-term environmental risks;
- the need to adapt and localize our solutions for specific countries;

Table of Contents

- greater difficulty collecting accounts receivable and longer payment cycles;
- unexpected changes in trade relations, regulations or laws;
- new, evolving, and more stringent regulations relating to privacy and data security and the unauthorized use of, or access to, commercial and personal information, particularly in Europe;
- challenges inherent in efficiently managing, and the increased costs associated with, an increased number of employees over large geographic distances, including the need to implement appropriate systems, policies, benefits and compliance programs that are specific to each jurisdiction;
- difficulties in managing a business in new markets with diverse cultures, languages, customs, legal systems, alternative dispute systems and regulatory systems;
- increased travel, real estate, infrastructure, and legal compliance costs associated with international operations;
- currency exchange rate fluctuations and the resulting effect on our revenue and expenses, and the cost and risk of entering into hedging transactions if we choose to do so in the future;
- limitations on, or charges or taxes associated with, our ability to reinvest earnings from operations in one country to fund the capital needs of our operations in other countries;
- laws and business practices favoring local competitors or general market preferences for local vendors;
- limited or insufficient intellectual property protection or difficulties obtaining, maintaining, protecting or enforcing our intellectual property rights, including our trademarks and patents;
- political instability or terrorist activities;
- COVID-19 or any other pandemics or epidemics that could result in decreased economic activity in certain markets, additional costs associated with travel, return to work or other restrictions that are specific to certain markets, decreased use of our data solutions and services, or in our decreased ability to import, export or sell our data solutions and services to existing or new customers in international markets;
- exposure to liabilities under anti-corruption and anti-money laundering laws, including the U.S. Foreign Corrupt Practices Act of 1977, as amended, U.S. bribery laws, the U.K. Bribery Act, and similar laws and regulations in other jurisdictions;
- burdens of complying with laws and regulations related to labor and taxation; and
- regulations, adverse tax burdens, and foreign exchange controls that could make it difficult or costly to repatriate earnings and cash.

We expect to invest substantial time and resources to further expand our international operations and, if we are unable to do so successfully and in a timely manner, our business and results of operations will be adversely affected.

If we fail to maintain or grow our brand recognition, our ability to expand our customer base will be impaired and our financial condition may suffer.

We believe that maintaining and growing the Semantix brand is important to supporting continued acceptance of our existing and future data solutions and services, attracting new customers to our proprietary data platform, and retaining existing customers, particularly as our growth strategy depends on our self-developed proprietary data platform, as we aim to reduce our dependence on third-party software.

We also believe that the importance of brand recognition will increase as competition in our market increases. Successfully maintaining our brand will depend largely on the effectiveness of our marketing efforts,

[Table of Contents](#)

our ability to provide a reliable and useful platform to meet the needs of our customers at competitive prices, our ability to maintain our customers' trust, our ability to continue to develop new functionalities and solutions, and our ability to successfully differentiate our proprietary data platform from competitive data solutions and services.

Additionally, our business partners' performance may affect our brand and reputation if customers do not have a positive experience. Our efforts to build and maintain our brand have involved and will continue to involve significant expense. Brand promotion activities may not generate customer awareness or yield increased revenue. Even if they do, any increased revenue may not offset the expenses we incurred in building our brand. We strive to establish and maintain our brand in part by obtaining trademark rights. However, if our trademarks are not adequately protected, we may not be able to build name recognition in our markets of interest and our competitive position may be harmed. If we fail to successfully promote, protect and maintain our brand, we may fail to attract enough new customers or retain our existing customers to realize a sufficient return on our brand-building efforts, and our business could suffer.

Acquisitions, strategic investments, partnerships or alliances could be difficult to identify, pose integration challenges, divert the attention of management, disrupt our business, dilute shareholder value and adversely affect our business, financial condition and results of operations.

We have in the past and may in the future seek to acquire or invest in businesses, joint ventures, and platform technologies that we believe could complement or expand our data solutions and services, enhance our technology, or otherwise offer growth opportunities. Any such acquisitions or investments may divert the attention of management and cause us to incur various expenses in identifying, investigating, and pursuing suitable opportunities, whether or not the transactions are completed, and may result in unforeseen operating difficulties and expenditures. In particular, we may encounter difficulties assimilating or integrating the businesses, technologies, products, personnel or operations of any acquired companies, particularly if the key personnel of an acquired company choose not to work for us, their software is not easily adapted to work with our proprietary data platform or we have difficulty retaining the customers of any acquired business due to changes in ownership, management or otherwise. Any such transactions that we are able to complete may not result in the synergies or other benefits we expect to achieve, which could result in substantial impairment charges. These transactions could also result in dilutive issuances of equity securities or the incurrence of debt, which could adversely affect our results of operations.

If we are unable to maintain our corporate culture as we grow, we could lose the innovation, teamwork, passion and focus on execution that we believe contribute to our success, and our business may be harmed.

We believe a critical component to our success has been our corporate culture. We have invested substantial time and resources in building our team. As we grow and develop our infrastructure as a public company, our operations may become increasingly complex. We may find it difficult to maintain these important aspects of our corporate culture. In addition, we believe that any potential transition to a fully or predominantly remote work environment in the aftermath of the COVID-19 pandemic may also present significant challenges to maintaining our corporate culture, including employee engagement and productivity. Any failure to preserve our culture could negatively affect our future success, including our ability to retain and recruit personnel, and to effectively focus on and pursue our corporate objectives.

The estimates of market opportunity and forecasts of market growth included in this proxy statement/prospectus may prove to be inaccurate. Even if the market in which we compete achieves the forecasted growth, our business could fail to grow at similar rates, if at all.

This proxy statement/prospectus contains market and industry data, estimates and statistics obtained from third-party sources. While we believe such information to be reliable in general, we have not independently verified the accuracy or completeness of any such third-party information. Such information may not have been

prepared on a comparable basis or may not be consistent with other sources. Similarly, this proxy statement/prospectus contains information based on or derived from internal company surveys, studies and research that have not been independently verified by third-party sources. Industry data, projections and estimates are subject to inherent uncertainty as they necessarily require certain assumptions and judgments.

In addition, the market for data solutions is relatively new and will experience changes over time. Data market estimates and growth forecasts, including for our proprietary SaaS business, are uncertain and based on assumptions and estimates that may be inaccurate. Our addressable market depends on a number of factors, including changes in the competitive landscape, technological changes, data security or privacy concerns, customer budgetary constraints, changes in business practices, changes in the regulatory environment, and changes in economic conditions. Moreover, geographic markets and the industries we operate in are not rigidly defined or subject to standard definitions. Accordingly, our use of the terms referring to our geographic markets and industries may be subject to interpretation, and the resulting industry data, projections and estimates may not be reliable. Our estimates and forecasts relating to the size and expected growth of our market may prove to be inaccurate and our ability to produce accurate estimates and forecasts may in the future be impacted by the economic uncertainty associated with the COVID-19 pandemic, as well as with other macroeconomic factors to which we are subject (see “—*Risks Related to Semantix’s Operations in Latin America*” below). Even if the market in which we compete meets the size estimates and growth rates we forecast, our business could fail to grow at similar rates, if at all. For these reasons, you should not place undue reliance on such information.

The projected financial and operating information in this proxy statement/prospectus relies in large part upon assumptions and analyses developed by us and third-party sources and are based on our ability to achieve, among other factors, certain growth milestones in accordance with our business plans. Certain of the estimates and assumptions on which our projected financial and operating information are based have proven, and may again in the future prove, to be inaccurate in light of subsequent events and circumstances, which may cause our actual results to materially differ from such projections, and which may adversely affect our future profitability, cash flows and the market price of New Semantix Ordinary Shares.

The original projected financial and operating information appearing elsewhere in this proxy statement/prospectus was prepared in September 2021 (which we refer in this proxy statement/prospectus as the Original Projections) and reflected certain estimates and beliefs regarding our future performance and ability to grow that we believed were accurate as of the time the Original Projections were made but that, with the passage of time, we have updated to reflect certain unexpected developments and challenges in relation to meeting our performance targets. In particular, among other factors, the Original Projections assumed a pace of growth in relation to our proprietary SaaS business area that we no longer believe we can obtain by 2023 due to the delayed expansion of this business area in the first part of 2022, as our management continues to focus on the completion of the Business Combination and due to stalled investments necessary for this business area to grow at the pace originally expected (for additional information and uncertainties related to the growth of our proprietary SaaS business area, see “—*Risks Related to Semantix’s Growth Strategy—Our growth strategy is significantly dependent on the accelerated expansion of our proprietary SaaS business, which, in turn, relies to a great extent on receptiveness to, and adoption of, our proprietary data platform that was recently developed by us and, therefore, has a limited operating track record*”). In addition, we have also updated certain other assumptions incorporated into the Original Projections regarding expectations of future profitability and selling, general and administrative expenses that we believe are no longer reliable. For additional information regarding the financial and operational assumptions incorporated into the Original Assumptions which have been since updated see “*Proposals to be Considered by Alpha’s Shareholders Business Combination—Certain Unaudited Projected Financial Information.*”

Since the Original Projections were prepared in September 2021, certain factors arose with the passage of time that affected our actual results in 2021 and 2022 to date, including, among other unanticipated circumstances, (i) the delayed closing of the Business Combination (and, in particular, the corresponding delay in capital contributions expected therefrom for investment purposes), (ii) the stalled sales growth of our proprietary

SaaS business area and international operations, due in part to our management's focused attention on the Business Combination, (iii) differences in accounting treatment arising from the adoption of IFRS and in connection with the completion of the audit of our historical financial statements for the year ended December 31, 2021 by our independent registered public accounting firm and (iv) a less favorable macroeconomic environment. Accordingly, our management updated the Original Projections and prepared new projections for 2022 and 2023, as set forth under "*Certain Unaudited Projected Financial Information—Semantix Updated Projections*" (such updated projected financial information being referred to as the Updated Projections and, together with the Original Projections, the Projections). Accordingly, the Original Projections no longer reflect our management's view on future performance, and you are cautioned not to place reliance on the Original Projections in making a decision regarding the Business Combination.

Among other updates, our management made the following main changes in preparing the Updated Projections as compared to the Original Projections:

- *Updated Revenue Projections.* Our management decreased total net revenues projections (i) for 2022, by R\$105.6 million, from R\$395.8 million in the Original Projections to R\$290.2 million in the Updated Projections and (ii) for 2023, by R\$131.6 million, from R\$538.3 million in the Original Projections to R\$406.7 million for the Updated Projections, mainly attributable to:
 - (a) a decrease in projected proprietary SaaS revenue (a R\$98.7 million decrease in 2022 as compared to the Original Projections and a R\$135.0 million decrease in 2023 as compared to the Original Projections), reflecting primarily a delay in previously expected strategic investments for the further development of Semantix's proprietary SaaS business area, including delays in hiring additional developers, investments in Semantix's proprietary platform to enhance functionality and conclusion of other strategic initiatives intended to attract new customers and increase average ticket, including international expansion, due to, among other factors, a longer than anticipated period for the consummation of the Business Combination, which occupied management's attention to date and caused a corresponding delay in capital contributions expected from the Business Combination to be used for investment purposes; and
 - (b) a decrease in projected AI & data analytics services revenue (a R\$13.5 million decrease in 2022 as compared to the Original Projections and a R\$17.0 million decrease in 2023 as compared to the Original Projections), in line with the decrease in projected proprietary SaaS revenue for the same reasons.These decreases were partially offset by an increase in third-party software revenue (a R\$6.6 million increase in 2022 as compared to the Original Projections and a R\$20.5 million increase in 2023 as compared to the Original Projections), mainly due to a review in market opportunity.
- *Updated SG&A Projections.* Our management increased our selling, general and administrative ("SG&A") expenses projections (i) for 2022, by R\$16.2 million, from R\$169.8 million in the Original Projections to R\$186.0 million in the Updated Projections and (ii) for 2023, by R\$13.1 million, from R\$217.8 million in the Original Projections to R\$230.9 million in the Updated Projections, mainly in anticipation of higher than originally expected expenses related to the Business Combination as a result of the longer than anticipated transaction timeline and additional expenses arising as a result of being a U.S. public company, including expenses related to D&O insurance and an increase in expenses recorded reflecting accounting treatment for share-based compensation.
- *Updated EBITDA Projections.* Our management decreased our EBITDA projections (i) for 2022, by R\$107.1 million, from a positive R\$53.0 million EBITDA estimate in the Original Projections to a negative EBITDA estimate of R\$54.1 million in the Updated Projections and (ii) for 2023, by R\$123.6 million, from a positive R\$123.0 million EBITDA estimate in the Original Projections to a negative R\$0.6 million EBITDA estimate in the Updated Projections. Notwithstanding these downward adjustments, considering that many of the factors driving the negative results in 2022 and 2023 were isolated in nature, particularly the extraordinary expenses estimated related to the Business Combination on an extended time horizon as well as related additional estimated expenses emanating

from our transition to being a public company (such as increased share-based compensation expenses and insurance costs for coverage of directors and officers) and, therefore, not reflective of our anticipated future performance, our management made additional adjustments in calculating Adjusted EBITDA for purposes of the Updated Projections, as reflected under “*Certain Unaudited Projected Financial Information—Semantix Updated Projections—Semantix Updated Projected Non-GAAP Reconciliations.*”

The above variations between the Original Projections and Updated Projections reflect certain unanticipated circumstances and events that our management was unable to forecast at the time that the Original Projections were made. When the Business Combination Agreement was executed, we had recently completed the relaunch of our proprietary SaaS platform and had at around the same time executed a number of strategic acquisitions and investments (mainly, LinkAPI and Tradimus) intended to accelerate the growth of this business area. We therefore believed that we were well-positioned for further expansion of our proprietary SaaS business area at a rapid pace. However, with the passage of time and, mainly, a longer than anticipated Business Combination transaction timeline that occupied our management’s attention and involved higher than expected expenses, we did not have the resources that we anticipated to fund growth initiatives for our proprietary SaaS business in the manner originally contemplated, particularly considering the delayed capital contributions from the Business Combination.

In addition, we lost certain clients at the end of 2021 and beginning of 2022 that we were not anticipating due to these clients reconsidering their data approach (corresponding to loss provisions and allowances for doubtful accounts totaling approximately R\$25.0 million recorded in 2021 and with estimated future lost revenue going forward). As one of the clients that terminated its relationship with us was in the United States, this caused unanticipated delays in relation to our international expansion (for additional information regarding the risks in relation to early termination by some of our clients, see “— *Risks Related to Semantix’s Business and Industry—Our customers may terminate engagements before completion or choose not to enter into new engagements with us on terms acceptable to us, or at all*”).

Furthermore, the worsening of the global macroeconomic environment from the time that the Original Projections were prepared to the time that the Updated Projections were prepared, particularly the less favorable interest rate environment, also contributed to certain adjustments by our management to our original growth assumptions. For an explanation of the primary ways in which macroeconomic factors impact our results, see “— *Risks Related to Semantix’s Operations in Latin America*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations of Semantix—Significant Factors Affecting our Results of Operations— Brazilian Macroeconomic Environment.*”

Our management also adjusted certain of the significant assumptions and beliefs on which it based the Updated Projections as compared to the Original Projections, as follows:

- a decrease in revenue growth expectations for the period from 2019 to 2023, assuming for purposes of the Updated Projections a CAGR of 47% in net revenue, while previously it was assumed for purposes of the Original Projections that net revenue could grow at a CAGR of 58% over the same period, reflecting the ongoing expectation that companies will accelerate digitalization to maintain their competitiveness, but adjusting expectations regarding our ability to fully capture this growth trend by 2023, considering delays in the implementation of certain strategic initiatives due in part to management’s diverted attention as a result of focus on the Business Combination to date and corresponding delay in capital contributions expected from the Business Combination to be used for investment purposes;
- updated assumptions regarding product mix, which our management considered to be a main change in preparing the Updated Projections, assuming for purposes of the Updated Projections that:
 - (i) revenue from our proprietary SaaS data platform can increase to 55% of our software revenue by 2023, while previously it was assumed for purposes of the Original Projections that it could comprise 71% of our software revenues by 2023, reflecting the continued expectation that our proprietary

solutions will propel growth and comprise a greater portion of total revenue over time, while adjusting expectations in relation to the speed that transformation may occur considering delays in implementing important investments and expansion initiatives geared towards growth of our proprietary SaaS business area, including further product development as well as sales force and marketing investments oriented towards (a) improving retention performance, (b) adding new proprietary SaaS clients and (c) ticket expansion for proprietary SaaS clients with new features to be added to our proprietary SaaS platform (for additional information and uncertainties related to the expansion of our proprietary SaaS business area, see “—Our growth strategy is significantly dependent on the accelerated expansion of our proprietary SaaS business, which, in turn, relies to a great extent on receptiveness to, and adoption of, our proprietary data platform that was recently developed by us and, therefore, has a limited operating track record”); and

(ii) revenue contributions from our third-party software solutions will remain material through 2023 and beyond, assuming for purposes of the Updated Projections that 45% of our software revenue in 2023 will still derive from third-party solutions, while previously it was assumed for purposes of the Original Projections that third-party software would only comprise 29% of our software revenue in 2023, reflecting a review of market opportunity and assuming less conversion of existing clients from third-party software solutions to proprietary SaaS solutions than originally assumed;

- updated assumptions regarding profitability, assuming for purposes of the Updated Projections that costs can decrease as a percentage of revenues over time, though increasing in absolute value as the business grows, assuming a 1,500 increase in gross margin basis points from 2019 to 2023, while, for purposes of the Original Projections, a 2,127 increase in gross margin basis points was previously assumed over the same period, reflecting lower assumed revenue growth, as described above, and higher than originally assumed costs in relation to being a public company and to support expansion of our proprietary SaaS business area;
- updated assumptions regarding SG&A expenses, assuming for purposes of the Updated Projections that they will comprise 57% of our total revenue by 2023 despite expected increases in scale, while previously it was assumed for purposes of the Original Projections that SG&A would comprise only 40% of total revenue by 2023, reflecting mainly (i) lower assumed revenue forecasts, as described above, (ii) adjusted expectations regarding certain expenses correlated with being a public company (including D&O insurance), (iii) assumed increases in personnel expenses to reflect the recent hiring of new executives and the anticipated hiring of additional developers through 2023 to support growth and (iv) accounting for share-based compensation; and
- updated assumptions that sales and marketing expenses will comprise 12% of our total revenue in 2023 for purposes of the Updated Projections, while previously it was assumed that sales and marketing expenses would comprise 18% of total revenue in 2023 for purposes of the Original Projections, reflecting mainly the emergence of other expenses that were not previously considered in preparing the Original Projections that would effectively reduce funds allocable to sales and marketing expenses and updated assumptions in relation to revenue growth.

Important factors that may affect actual results and cause expected results not to be achieved including, among other matters, risks and uncertainties relating to our business, industry performance, and general business and economic conditions as described in this “Risk Factors” section, such as the ongoing impacts of the COVID-19 pandemic, the conflict between Russia and Ukraine (which arose only after the Original Projections were prepared) and other political and macroeconomic factors, especially considering the 2022 presidential elections in Brazil. In addition, actual consumer demand for the data solutions and services we sell, particularly demand for our proprietary data platform, will strongly impact actual results in a way that could be materially different from our Projections, particularly as the revenue projections substantially rely on a significant shift in our product mix, from third-party software solutions to higher-margin proprietary data solutions, and there is no guarantee that such migration will actually occur (for additional information and uncertainties related thereto, see “—Risks Related to Semantix’s Growth Strategy—Our growth strategy is significantly dependent on the

Table of Contents

accelerated expansion of our proprietary SaaS business, which, in turn, relies to a great extent on receptiveness to, and adoption of, our proprietary data platform that was recently developed by us and, therefore, has a limited operating track record”). The Projections also reflect assumptions as to certain business decisions and strategy that are subject to change.

We believe that our preparation of the Updated Projections and our management’s inability to rely on the Original Projections as an accurate reflection of our future performance highlights the inherent limitations of our ability to accurately forecast our future performance due to the significant uncertainties, contingencies and numerous variables that are incorporated into the Projections, many of which are outside of our control. Our actual results for 2022 and 2023 may differ in material ways from the Updated Projections for those same reasons underlying our decision to update the Original Projections or otherwise. We may not be able to successfully implement our growth strategies which may cause actual results to differ materially from the Updated Projections.

There can be no assurance that the Projections appearing elsewhere in this proxy statement/prospectus will be realized, and actual results may differ, and may differ materially, from those shown. The inclusion of the Projections in this proxy statement/prospectus should not be regarded as an indication that we, Alpha, or any of our or their respective affiliates, officers, directors, advisors or other representatives considered or consider the Projections necessarily predictive of actual future events, and the Projections should not be relied upon as such. None of Semantix, Alpha, or any of their respective affiliates, officers, directors, advisors or other representatives can give any assurance that actual results will not differ from such Projections. None of Semantix, Alpha or any of their respective affiliates, officers, directors, advisors or other representatives has made or makes any representation to any shareholder or other person regarding the ultimate performance of New Semantix compared to the information contained in the Projections or that forecasted results will be achieved. Accordingly, there can be no assurance that our financial condition or results of operations will be consistent with those set forth in the Projections, which could have an adverse impact on the market price of New Semantix Ordinary Shares or our financial position following the closing of the Business Combination.

For additional information regarding the limitations and shortcomings of our Projections, see *“Proposals to be Considered by Alpha’s Shareholders Business Combination—Certain Unaudited Projected Financial Information.”*

In addition, the Projections have not been independently verified or confirmed by any third party. In particular, none of PricewaterhouseCoopers Auditores Independientes Ltda. or WithumSmith+Brown, PC have audited, reviewed, examined, compiled or applied agreed-upon procedures with respect to the Projections, and none of them have expressed an opinion or any other form of assurance with respect to such data.

Failure to effectively develop and expand our sales and marketing capabilities could harm our ability to increase our customer base and achieve broader market acceptance of our data solutions and proprietary data platform.

We must expand our sales and marketing organization to increase our sales to new and existing customers. We plan to continue expanding our direct and indirect sales force, both domestically and internationally. It may require significant time and resources to effectively onboard new sales and marketing personnel. Once a new customer begins using our data solutions and services, our sales team will need to continue to focus on expanding consumption with that customer. All of these efforts will require us to invest significant financial and other resources, including in industries and sales channels in which we have limited experience to date. Our business and results of operations will be harmed if our sales and marketing efforts generate increases in revenue that are smaller than anticipated. We may not achieve anticipated revenue growth from expanding our sales force if we are unable to hire, develop, integrate and retain talented and effective sales personnel, if our new and existing sales personnel are unable to achieve desired productivity levels in a reasonable period of time, or if our sales and marketing programs are not effective.

We may require additional capital to support the growth of our business, and this capital might not be available on acceptable terms, if at all.

We have funded our operations since inception primarily through equity financings, loans and borrowings from financial institutions and our operations. We cannot be certain when or if our operations will generate sufficient cash to fully fund our ongoing operations or the growth of our business. We intend to continue to make investments to support our business, which may require us to engage in equity or debt financings to secure additional funds. Additional financing may not be available on terms favorable to us, if at all. If adequate funds are not available on acceptable terms, we may be unable to invest in future growth opportunities, which could harm our business, operating results and financial conditions. If we incur new debt, the debt holders would have rights senior to holders of common stock to make claims on our assets, and the terms of any debt could restrict our operations, including our ability to pay dividends on our common stock. Furthermore, after the completion of the Business Combination, if New Semantix issues additional equity securities, shareholders will experience dilution, and the new equity securities could have rights senior to those of New Semantix Ordinary Shares. Because the decision to issue securities in the future will depend on numerous considerations, including factors beyond our control, we cannot predict or estimate the amount, timing or nature of any future issuances of debt or equity securities. As a result, New Semantix shareholders bear the risk of future issuances of debt or equity securities reducing the value of New Semantix Ordinary Shares and diluting their interests.

If we are unable to obtain sufficient funding on a timely basis and on acceptable terms and continue as a going concern, we may be required to significantly curtail, delay, or discontinue our operations.

If we are unable to obtain sufficient funding on a timely basis and on acceptable terms and continue as a going concern, we may be required to significantly curtail, delay, or discontinue our operations. In general, we may be unable to expand our operations or otherwise capitalize on business opportunities, and defend against and prosecute litigation necessary to conduct our business as desired, which could materially affect our business, financial condition and results of operations. If we are ultimately unable to continue as a going concern, we may have to seek the protection of bankruptcy laws or liquidate our assets and may receive less than the value at which those assets are carried on our financial statements, and it is likely that our securityholders will lose all or a part of their investment. Our ability to continue our operations in full as planned and continue as a going concern may be further limited if we waive the Minimum Available Cash Condition prior to consummating the Business Combination.

Our total net revenue declined in the first quarter of 2022, driven mostly by decreases in revenue from our proprietary SaaS and AI & data analytics business areas, and, if such trend persists, this will impact our ability to meet our projected financial targets.

In the first quarter of 2022, we experienced a decline in our total net revenue causing us to not reach our performance goals for the period, mainly driven by (i) a decrease in proprietary SaaS revenue reflecting the early termination of certain contracts to offer proprietary retail solutions to certain retail clients, which we elected to terminate as a result of low margins and higher than anticipated investments required to service these contracts and (ii) a decrease in AI & data analytics revenue, mainly due to a lower volume of orders received during the period reflecting the natural seasonality of our business, as we historically experience higher volumes in the second half of the year and, in particular, in the fourth fiscal quarter of each year, which we believe results from the procurement, budgeting, and deployment cycles of many of our customers. If this negative trend persists and we are unable to attract new customers to replace those customers lost or otherwise efficiently serve our existing customers, we may be unable to meet our projected financial targets according to our timing expectations, or at all. In addition, we have incurred higher than expected operating expenses over the past two quarters, including as a result of increased expenses related to the Business Combination and in preparation of being a U.S. public company. Any general economic, business or industry conditions that cause customers or potential customers to reduce or delay their purchases of data solutions or services, or any inability by us to deliver products or service in accordance with customer expectations, could have a material adverse effect on us and our prospects and

projected financial performance. Worldwide economic conditions could have an effect on the demand for our data solutions and services and could result in declining revenue and earnings.

Risks Related to Semantix's Cybersecurity and Intellectual Property

If we, our suppliers or our third-party service providers experience an actual or perceived security breach or unauthorized parties otherwise obtain access to our customers' data or our data, our data solutions and services may be perceived as not being secure, our reputation may be harmed, demand for our data solutions and services may be reduced and we may incur significant liabilities.

We are heavily dependent upon information technology systems, infrastructure and data to operate our business and solutions. The data solutions that we offer (including our proprietary data platform and the third-party platforms from which we purchase software licenses for resale) process, store, and transmit our customers' and partners' proprietary, confidential and sensitive data, such as personal, health and financial information. We also rely on third-party information technology systems in connection with our operations. For example, our proprietary data platform is built to be available on the infrastructure of third-party public cloud providers, such as AWS, Azure and GCP. We also use third-party service providers and sub-processors to help us deliver services to our customers and their end-users. These vendors may store or process proprietary, confidential, and sensitive data such as personal information, protected health information, or other information of our employees, our partners, our customers, or our customers' end-users. We collect such information from individuals located both in Brazil and abroad and may store or process such information outside the country in which it was collected. While we, our suppliers, our third-party service providers and our sub-processors have implemented or are contractually obligated to implement security measures designed to protect against security breaches, these measures could fail or may be insufficient, resulting in the unauthorized disclosure, access, acquisition, modification, misuse, destruction, or loss of our, our customers', or our partners' data. Any security breach of our proprietary data platform or that of our suppliers from which we purchase software licenses for resale, our operational systems, physical facilities, or the systems of our third-party service providers or sub-processors, or the perception that one has occurred, could result in litigation, indemnity obligations, regulatory enforcement actions, investigations, fines, penalties, mitigation and remediation costs, disputes, reputational harm, diversion of management's attention, and other liabilities and damage to our business. Even though we may not control the security measures of our suppliers, third-party service providers or sub-processors, we may be responsible for any breach of such measures.

Cyber-attacks, denial-of-service attacks, ransomware attacks, business email compromises, computer malware viruses, and social engineering (including phishing) are prevalent in our industry and our customers' industries and have generally increased as the number, intensity and sophistication of attempted attacks and intrusions from around the world have increased. In addition to such attacks, we and our third-party vendors may experience unavailable systems, unauthorized accidental or unlawful access, acquisition or disclosure of information due to employee error, theft or misuse, sophisticated nation-state and nation-state supported actors, and advanced persistent threat intrusions. The techniques used to sabotage or to obtain unauthorized access to our proprietary data platform, systems, networks, or physical facilities in which data is stored or through which data is transmitted change frequently, and we may be unable to implement adequate preventative measures or stop security breaches prior to or while they are occurring. The recovery systems, security protocols, network protection mechanisms, and other security measures that we have integrated into our proprietary data platform, systems, networks and physical facilities, which are designed to protect against, detect, and minimize security breaches, may not be adequate to prevent or detect service interruption, system failure or data loss. We may in the future become, the target of cyber-attacks by third parties seeking unauthorized access to our or our customers' or partners' data or to disrupt our operations or ability to provide our services. Third parties may also exploit vulnerabilities in, or obtain unauthorized access to, platforms, systems, networks or physical facilities utilized by our suppliers or third-party processors. We may not be able to anticipate all types of security threats, and we may not be able to implement preventive measures effective against all such security threats. The techniques used by cyber criminals change frequently, may not be recognized until launched, and can originate from a wide variety of sources, including outside groups, such as external service providers and hostile foreign governments.

or agencies. In addition, our or our third party vendors' systems may be vulnerable to breakdown or other interruptions from system malfunctions, natural disasters, terrorism, war and telecommunication and electrical failures.

We have contractual and other legal obligations to notify relevant stakeholders of security breaches. Most jurisdictions have enacted laws requiring companies to notify individuals, regulatory authorities and others of security breaches involving certain types of data. In addition, our agreements with certain customers and partners may require us to notify them in the event of a security breach. Such mandatory disclosures are costly, could lead to negative publicity, may cause our customers or partners to lose confidence in the effectiveness of our security measures, divert management's attention, lead to governmental investigations, and require us to expend significant capital and other resources to respond to or alleviate problems caused by the actual or perceived security breach. Any security breach or effort to mitigate security vulnerabilities could result in unexpected interruptions, delays, cessation of service and other harm to our business and our competitive position.

A security breach of our or our third-party vendor's systems may cause us to breach customer contracts. Our agreements with certain customers may require us to use industry-standard or reasonable measures to safeguard proprietary, personal or confidential information. A security breach of our or our third-party vendor's systems could lead to claims by our customers, their end-users, or other relevant stakeholders that we have failed to comply with such contractual or other legal obligations. As a result, we could be subject to legal action (including the imposition of fines or penalties) and our customers could end their relationships with us. There can be no assurance that any limitations of liability in our contracts would be enforceable or adequate or would otherwise protect us from liabilities or damages.

Litigation resulting from security breaches may adversely affect our business. Unauthorized access to our proprietary data platform, systems, networks, or physical facilities could result in litigation with our customers, our customers' end-users or other relevant stakeholders. These proceedings could force us to spend money in defense or settlement, divert management's time and attention, increase our costs of doing business, or adversely affect our reputation. We could be required to fundamentally change our business activities and practices or modify our proprietary data platform capabilities in response to such litigation, which could be costly and have an adverse effect on our business. If a security breach were to occur and the confidentiality, integrity or availability of our data or the data of our partners, our customers or our customers' end-users was disrupted, we could incur significant liability, or our proprietary data platform, systems or networks may be perceived as less desirable, which could negatively affect our business and damage our reputation.

If we fail to detect or remediate a security breach in a timely manner, or a breach otherwise affects a large amount of data of one or more customers or partners, or if we suffer a cyber-attack that impacts our ability to operate our proprietary data platform, we may suffer material damage to our reputation, business, financial condition and results of operations. Further, the policy coverage of our current or any future cybersecurity insurance may be insufficient. Accordingly, the successful assertion of one or more large claims against us could have an adverse effect on our business. Our risks are likely to increase as we continue to expand our proprietary data platform and geographic footprint, grow our customer and partner base, and process, store and transmit increasingly large amounts of data.

In addition, our workforce is generally working remotely and may continue to do so following the COVID-19 pandemic, which could increase our cyber security risk, create data accessibility concerns and make us more susceptible to security breaches or business disruptions. In addition, we, our customers and the third party suppliers upon which we rely may be vulnerable to a heightened risk of cyber-attacks as a result of the recent invasion of Ukraine by Russia, the impact of sanctions against Russia and the potential for retaliatory acts from Russia, given that nation-state actors may engage in cyber-attacks for geopolitical reasons and in conjunction with military conflicts and defense activities. For example, there have been publicized threats to increase cyber-attack activity against the critical infrastructure of any nation or organization that retaliates against Russia for its invasion of Ukraine. While we maintain and continue to improve our security measures and reinforce our internal control in anticipation of being a public company, we may be unable to adequately

anticipate security threats or to implement adequate preventative measures, in part, because the techniques used to obtain unauthorized access or sabotage systems change frequently and generally are not identified until they are launched against a target. Other than reinforcement of our cybersecurity policies in anticipation of being a public company, we have not taken any other specific actions to mitigate the increased risk of cyberattacks resulting from the ongoing conflict between Russia and Ukraine and do not immediately intend to implement any such actions given our current assessment of risk and the current geographic scope of our operations. Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations or prospects.

We rely on third-party and open source software for our data solutions. Our inability to obtain third-party licenses for such software, or obtain them on favorable terms, or any errors or failures caused by such software could adversely affect our business, results of operations and financial condition. In addition, our use of open source software could negatively affect our ability to sell our data solutions and subject us to possible litigation.

Some of our offerings include software or other intellectual property licensed from third parties. It may be necessary in the future to renew our license agreements relating to various aspects of our offerings or to seek new licenses for existing or new offerings. Necessary licenses may not be available on acceptable terms that allow our data solutions offerings to remain competitive, or at all. In addition, a third party may assert that we or our customers are in breach of the terms of a license, which could, among other things, give such third party the right to terminate a license or seek damages from us, or both. Termination by the licensor would cause us to lose valuable rights and could prevent us from selling our products and services. Our inability to obtain certain licenses or other rights, or to obtain such licenses or rights on favorable terms, could result in delays in data solution releases until equivalent technology can be identified, licensed or developed, if at all, and integrated into our proprietary data platform, which may have a material adverse effect on our business, results of operations and financial condition. In addition, we may be subject to liability if third-party software that we license is found to infringe, misappropriate or otherwise violate intellectual property rights of others. Third parties may also allege that we are infringing, violating or otherwise misappropriating their intellectual property rights and that additional licenses are required for our use of their software or intellectual property, and we may be unable to obtain such licenses on commercially reasonable terms or at all. The inclusion in our offerings of software or other intellectual property licensed from third parties on a non-exclusive basis could also limit our ability to differentiate our offerings from those of our competitors. To the extent that our data solutions depend upon the successful operation of third-party software, any undetected errors or defects in, or failures of, such third-party software could also impair the functionality of data solutions, delay new feature introductions, result in a failure of our data solutions, and injure our reputation. Many third-party software providers attempt to impose limitations on their liability for such errors, defects or failures, and if enforceable, we may have additional liability to our customers that could harm our reputation and increase our operating costs.

In addition, some of our data solutions (including our proprietary data platform) incorporate open source software, and we expect to continue to incorporate open source software in our data solutions in the future. Open source software is generally freely accessible, usable and modifiable. Few of the licenses applicable to open source software have been interpreted by courts, and there is a risk that these licenses could be construed in a manner that could impose unanticipated conditions or restrictions on our ability to commercialize our data solutions. Moreover, although we have implemented policies to regulate the use and incorporation of open source software into our data solutions, we cannot be certain that we have not incorporated open source software in our data solutions in a manner that is inconsistent with such policies. If we fail to comply with open source licenses, we may be subject to certain requirements, including requirements that we offer our data solutions that incorporate the open source software for no cost, that we discontinue our data solutions that incorporate the open source software, that we make available source code for modifications or derivative works we create based upon, incorporating or using the open source software and that we license such modifications or derivative works under the terms of applicable open source licenses. If an author or other third party that distributes such open source software were to allege that we had not complied with the conditions of one or more of these licenses, we could be required to incur significant legal expenses defending against such allegations and could be subject to

significant damages, enjoined from generating revenue from customers using data solutions that contained the open source software and required to comply with onerous conditions or restrictions on these data solutions. In any of these events, we and our customers could be required to seek licenses from third parties in order to continue offering our data solutions and to re-engineer our data solutions or discontinue offering our data solutions to customers in the event we cannot re-engineer them on a timely basis. Any of the foregoing could require us to devote additional research and development resources to re-engineer our data solutions, could result in customer dissatisfaction and may adversely affect our business, results of operations and financial condition. Additionally, the use of certain open source software can lead to greater risks that the use of third-party commercial software, as open source licensors generally make their open source software available “as-is” and do not provide updates, warranties, support, indemnities or other contractual protections regarding infringement or other intellectual property-related claims or quality of the code.

Our intellectual property rights may not protect our business or provide us with a competitive advantage.

To be successful, we must protect our technology and brand in Brazil and other jurisdictions through trademarks, trade secrets, patents, copyrights, service marks, invention assignments, contractual restrictions, and other intellectual property rights and confidentiality procedures.

We have taken measures to protect our trade secrets and proprietary information, but these measures may not be effective. Despite our efforts to implement these protections, they may not protect our business or provide us with a competitive advantage for a variety of reasons, including:

- the failure by us to obtain, maintain and defend patents and other intellectual property rights for important innovations or maintain appropriate confidentiality and other protective measures to establish and maintain our trade secrets;
- uncertainty in, and evolution of, legal standards relating to the validity, enforceability and scope of protection of intellectual property rights;
- potential invalidation or narrowing of our intellectual property rights through administrative processes or litigation;
- any inability by us to detect infringement, misappropriation or other violations of our intellectual property rights by third parties; and
- other practical, resource, or business limitations on our ability to enforce our rights.

Further, the laws of certain countries, including countries where we have not applied for patent protection or trademark or other intellectual property registration, may not be as protective of intellectual property and proprietary rights to the same extent as the laws of the United States, and mechanisms for enforcement of intellectual property and proprietary rights may be inadequate. Therefore, in certain jurisdictions, we may be unable to protect our proprietary technology adequately against unauthorized third party copying, infringement or use, which could adversely affect our competitive position. Filing, prosecuting, maintaining, and defending our intellectual property in all or many countries throughout the world may be prohibitively expensive, and we may choose to forgo such activities in some applicable jurisdictions. The lack of adequate legal protections of intellectual property or failure of legal remedies or related actions in jurisdictions outside of the United States or failure to obtain sufficient intellectual property protection could impede our ability to market our products, negatively affect our competitive position and could have a material adverse effect on our business, financial condition, results of operations, and prospects. As a result, we may encounter significant problems in protecting and defending our intellectual property or proprietary rights abroad.

We enter into confidentiality and invention assignment agreements with our employees and consultants. These agreements generally require that all confidential information or intellectual property developed by the individual or made known to the individual by us during the course of the individual’s relationship with us be kept confidential and not disclosed to third parties. We cannot assure you that these agreements will be effective

in controlling access to, use of, and distribution of our proprietary information or in effectively securing exclusive ownership of intellectual property developed by our employees and consultants, and that all intellectual property developed by the individual during the course of employment be assigned to us. For example, we may be unsuccessful in executing such an agreement with each party who, in fact, conceives or develops intellectual property that we regard as our own. The assignment of intellectual property rights may not be self-executing, or the assignment agreements may be breached, and we may be forced to bring claims against third parties, or defend claims that they may bring against us, to determine the ownership of what we regard as our intellectual property. Further, these agreements may not prevent our competitors from independently developing technologies that are substantially equivalent or superior to data solutions and services.

Additionally, we may also be exposed to material risks of theft or unauthorized reverse engineering of our proprietary information and other intellectual property, including technical data, data sets, or other sensitive information. Our efforts to enforce our intellectual property rights may be inadequate to obtain a significant commercial advantage from the intellectual property that we develop, which could have a material adverse effect on our business, financial condition, and results of operations. Moreover, if we are unable to prevent the disclosure of our trade secrets to third parties, or if our competitors independently develop any of our trade secrets, we may not be able to establish or maintain a competitive advantage in our market, which could seriously harm our business.

Litigation may be necessary to enforce our intellectual property or proprietary rights, protect our trade secrets, or determine the validity and scope of proprietary rights claimed by others. Any enforcement of our intellectual property may provoke third parties to assert counterclaims against us, which could result in the loss of our intellectual property rights. If we are unable to prevent third parties from infringing, misappropriating or otherwise violating our intellectual property or are required to incur substantial expenses defending our intellectual property rights, our business, financial condition, and results of operations may be materially adversely affected.

Our success depends, in part, on our ability to develop our business without infringing, misappropriating or otherwise violating the intellectual property or proprietary rights of others. Claims by third parties that we infringe, misappropriate or otherwise violate their intellectual property rights could harm our business. Our competitors and other third parties may hold or obtain intellectual property rights that could prevent, limit or interfere with our ability to make, use, develop, sell or market our data solutions and services. From time to time, we may be subject to claims of infringement, misappropriation, or other violation of patents or other intellectual property rights and related litigation. If we are found to infringe, misappropriate or otherwise violate any third-party intellectual property, we may be required to obtain a license to such third-party intellectual property, make ongoing royalty or license payments, cease offering our products or using certain technologies, require us to redesign affected products, enter into costly settlement or license agreements or pay substantial damage awards, or face a temporary or permanent injunction prohibiting us from marketing or selling certain of our products or comply with other unfavorable terms. Furthermore, we could be found liable for treble damages and attorneys' fees, if we are found to have willfully infringed a patent or other intellectual property right. If we are required to obtain a license from any third party, such license may not be available at all or on commercially reasonable terms.

Any litigation, whether or not resolved in our favor and regardless of merit, could result in significant expense to us, be time consuming and divert the efforts of our technical and management personnel. Additionally, because of the substantial amount of discovery required in connection with intellectual property litigation, there is a risk that some of our confidential information could be compromised by disclosure during any intellectual property-related litigation. In addition, there could be public announcements of the results of hearings, motions, or other interim proceedings or developments, and if securities analysts or investors perceive these results to be negative, it could have a substantial adverse effect on the price of our common stock. Any of the foregoing could cause potential customers to refrain from purchasing our data solutions or services or otherwise cause us reputational harm and result in substantial costs, negative publicity and diversion of resources

and management attention, any of which could have a material adverse effect on our business, financial condition, results of operations and prospects.

If we are unable to protect the confidentiality of our trade secrets and know-how, our business and competitive position would be harmed.

We rely on trade secrets and proprietary know-how protection for our confidential and proprietary information, including our software code, and we have taken security measures to protect this information, including by entering into confidentiality agreements with parties who have access to them, such as our employees, collaborators, contract manufacturers, consultants, advisors, and other third parties. These measures, however, may not provide adequate protection for our trade secrets, know-how or other confidential information. We cannot guarantee that we have entered into such agreements with each party that may have or have had access to our trade secrets or proprietary technology and processes. Moreover, there can be no assurance that any confidentiality agreements that we have with our employees, consultants or other third parties will provide meaningful protection for our trade secrets, know-how and confidential information or will provide adequate remedies in the event of unauthorized use or disclosure of such information. Despite these efforts, any of these parties may breach the agreements and disclose our proprietary information, including our trade secrets, and we may not be able to obtain adequate remedies for such breaches. Monitoring unauthorized uses and disclosures is difficult. Accordingly, there also can be no assurance that our trade secrets or know-how will not otherwise become known or be independently developed by competitors or other third parties, which could have a material adverse effect on our business, financial condition, results of operations and prospects.

Enforcing a claim that a party illegally disclosed or misappropriated a trade secret can be difficult, expensive and time-consuming, and the outcome is unpredictable. In addition, trade secrets may be independently developed by others in a manner that could prevent legal recourse by us. If any of our confidential or proprietary information, such as our trade secrets, were to be disclosed or misappropriated, or if any such information was independently developed by a competitor, our competitive position could be materially and adversely harmed.

If our trademarks, service marks and trade names are not adequately protected, we may not be able to build or maintain name recognition in our markets of interest, and our competitive position may be harmed.

The registered or unregistered trademarks, service marks or trade names (collectively, “trademarks”) that we own may be challenged, infringed, circumvented, declared generic or descriptive, lapsed or determined to be infringing on or dilutive of other marks. During trademark registration proceedings, we may receive rejections of our applications by the U.S. Patent and Trademark Office (“USPTO”), or in other foreign jurisdictions. Although we are given an opportunity to respond to such rejections, we may be unable to overcome them. In addition, in the USPTO and in comparable agencies in many foreign jurisdictions, third parties are given an opportunity to oppose pending trademark applications and to seek to cancel registered trademarks. Opposition or cancellation proceedings may be filed against our trademarks, which may not survive such proceedings. Furthermore, owning and maintaining a trademark registration may not provide an adequate defense against a subsequent infringement claim asserted by the owner of a senior trademark. We may not be able to protect our rights in these trademarks, which we need in order to build name recognition with potential customers. In addition, third parties may file for registration of trademarks similar or identical to our trademarks, thereby impeding our ability to build brand identity and possibly leading to market confusion and loss of goodwill. If they succeed in registering or developing common-law rights in such trademarks, and if we are not successful in challenging such third-party rights, we may not be able to use these trademarks to develop brand recognition of our technologies, products or services. In addition, there could be potential trademark infringement or unfair competition claims brought by owners of other registered trademarks or trademarks that incorporate variations of our registered or unregistered trademarks. Over the long term, if we are unable to establish name recognition based on our trademarks, we may not be able to compete effectively, which could have a material adverse effect on our business, financial condition, results of operations and prospects.

Risks Related to Semantix's Compliance, Tax, Legal, and Regulatory Environment

Internet regulation in Brazil is recent and still limited and several legal issues related to the internet are uncertain.

In 2014, Brazil enacted a law, which we refer to as the Brazilian Civil Rights Framework for the Internet (*Marco Civil da Internet*), setting forth principles, guarantees, rights and duties for the use of the Internet in Brazil, including provisions about internet service provider liability, internet user privacy and internet neutrality. In May 2016, further regulations were passed in connection with the referred law. The administrative penalties imposed by the Brazilian Civil Rights Framework for the Internet include notification, fines (up to 10% of the revenues of the relevant entity's economic group in Brazil in the preceding fiscal year) and suspension or prohibition from engaging in data processing activities. The Brazilian Civil Rights Framework for the Internet also determines joint and several liability between foreign parent companies and the local Brazilian subsidiary for the payment of fines that may be imposed for breach of its provisions. Administrative penalties may be applied cumulatively. Daily fines may be imposed in judicial proceedings, as a way to compel compliance with a Brazilian court order. If for any reason a company fails to comply with the court order, the fine can reach significant amounts. We may be subject to liability under these laws and regulations should we fail to adequately comply with the Brazilian Civil Rights Framework for the Internet.

However, unlike in the United States, little case law exists around the Brazilian Civil Rights Framework for the Internet and existing jurisprudence has not been consistent. Legal uncertainty arising from the limited guidance provided by current laws in force allows for different judges or courts to decide very similar claims in different ways and establish contradictory jurisprudence. This legal uncertainty allows for rulings against us and could set adverse precedents, which individually or in the aggregate could seriously harm our business, results of operations and financial condition. In addition, legal uncertainty may harm our customers' perception and use of our data solutions and services.

We and our customers may be subject to new and evolving privacy and data protection-related laws and regulations that impose obligations in connection with the collection, storage, use, processing, disclosure, protection, transmission, retention and disposal of personal, sensitive, regulated or confidential data.

The privacy and security of personal, sensitive, regulated or confidential data is a major focus in our industry and we and our customers that use our data solutions and services are subject to federal, state, local and foreign privacy and data protection-related laws and regulations that impose obligations in connection with the collection, storage, use, processing, disclosure, protection, transmission, retention and disposal of personal, sensitive, regulated or confidential data. Laws and regulations governing data privacy, data protection and information security are constantly evolving and there has been an increasing focus on privacy and data protection issues with the potential to affect our business. The nature of our business exposes us to risks related to possible shortcomings in data protection and information security laws and regulations. Any perceived or actual unauthorized disclosure of personally identifiable information, whether through breach of our network by an unauthorized party, employee theft, misuse or error or otherwise, including the data protection of our customers, the end-consumers of our customers and employees or third parties, could harm our reputation, impair our ability to attract and retain our customers, or subject us to claims or litigation arising from damages suffered by individuals.

Law No. 13,709/2018 (*Lei Geral de Proteção de Dados Pessoais*, or "LGPD"), came into force on September 18, 2020 to regulate the processing of personal data in Brazil. The LGPD applies to individuals or legal entities, either private or governmental entities, that process or collect personal data in Brazil and which processing activities aim at offering or supplying goods or services to data subjects located in Brazil. The LGPD establishes detailed rules for, but not limited to, the collection, use, processing and storage of personal data and affect all economic sectors, including the relationship between customers and suppliers of goods and services, employees and employers and other relationships in which personal data is collected and processed, whether in a digital or physical environment.

Since the entry into force of the LGPD, all processing agents/legal entities are required to adapt their data processing activities to comply with this new set of rules. We have implemented changes to our policies and procedures designed to ensure our compliance with the relevant requirements under the LGPD. Even so, as it is a recent law, the National Data Protection Authority (*Autoridade Nacional de Proteção de Dados*, or the “ANPD”) as regulatory agency may raise other relevant issues or provide new guidance that will require further action from the company to remain fully compliant.

The penalties for violations of the LGPD include: (i) warnings imposing a deadline for the adoption of corrective measures; (ii) a fine of up to 2% of the company’s or group’s revenue, subject to the limit of R\$50 million per violation; (iii) daily fines; (iv) mandatory disclosure of the violation after it has been investigated and confirmed; (v) the restriction of access to the personal data to which the violation relates up to a six-month period, that can be extended for the same period, until the processing activities are compliant with the regulation, and in case of repeated violation, temporary block and/or deletion of the related personal data, and partial or complete prohibition of processing activities; and (vi) temporary or permanent prohibition against conducting activities related to data processing. Any additional privacy laws or regulations enacted or approved in Brazil or in other jurisdictions in which we operate could seriously harm our business, financial condition or results of operations. Under the LGPD, security breaches that may result in significant risk or damage to personal data must be reported to the ANPD, the data protection regulatory body, within a reasonable time period. The notice to the ANPD must include: (i) a description of the nature of the personal data affected by the breach; (ii) the affected data subjects; (iii) the technical and security measures adopted; (iv) the risks related to the breach; (v) the reasons for any delays in reporting the breach, if applicable; and (vi) the measures adopted to revert or mitigate the effects of the damage caused by the breach. Moreover, the ANPD could establish other obligations related to data protection that are not described above. In addition to the administrative sanctions, due to the noncompliance with the obligations established by the LGPD, we can be held liable for individual or collective material damages, and non-material damages caused to data subjects, including when caused by third parties that serve as processors of personal data on our behalf.

In addition to the civil liability, the imposition of the administrative sanctions of the LGPD does not prevent the imposition of administrative sanctions set forth by other laws that address issues related to data privacy and protection, such as Law No. 8,078/1990, or the Brazilian Code of Consumer Defense, and Law No. 12,965/2014, or the Brazilian Civil Rights Framework for the Internet. These administrative sanctions can be applied by other public authorities, such as the Attorney General’s Office and consumer protection agencies. We can also be held liable civilly for violation of these laws.

Similarly, many foreign countries and governmental bodies, including in countries in which we currently operate, have laws and regulations concerning the collection, storage, use, processing, disclosure, protection, transmission, retention and disposal of personal, sensitive, regulated or confidential data. For example, the European Union’s (“EU”) General Data Protection Regulation (EU) 2016/679 (“GDPR”), went into effect in May 2018, and has and will continue to result in significantly greater compliance burdens and costs for companies with users and operations in the EEA by imposing stringent administrative requirements for controllers and processors of personal data of EEA data subjects, including, for example, data breach notification requirements, limitations on retention of information, and rights for data subjects over their personal data. The GDPR also provides that EU member states may make their own further laws and regulations limiting the processing of personal data. Ensuring compliance with the GDPR is an ongoing commitment that involves substantial costs, and despite our efforts, data protection authorities or others (including individual data subjects) may assert that our business practices fail to comply with the GDPR’s requirements. If our operations are found to violate GDPR requirements, we may incur substantial fines and other penalties, including bans on processing and transferring personal data, have to change our business practices, and face reputational harm, any of which could have an adverse effect on our business. In particular, serious breaches of the GDPR can result in administrative fines ranging from €10 million to €20 million or 2.0% or 4.0% of total worldwide annual revenue, whichever is higher. Such penalties are in addition to any civil litigation claims by data controllers, customers and data subjects, which includes the possibility of data subject-led class action claims and injunctions.

In addition, recent legal developments in Europe have created compliance uncertainty regarding transfers of personal data from the EEA to the United States. In July 2020, the Court of Justice of the European Union, or CJEU, invalidated the EU-U.S. Privacy Shield Framework, a mechanism for the transfer of personal data from the EEA to the United States, and made clear that reliance on standard contractual clauses for the transfer of personal data outside of the EEA alone may not be sufficient in all circumstances, in which organizations may be required to take supplementary measures. Authorities in Switzerland have also issued guidance calling the Swiss-U.S. Privacy Shield Framework inadequate and raising similar questions about the standard contractual clauses. At present, there are few, if any, viable alternatives to the standard contractual clauses. If we are unable to implement sufficient safeguards to ensure that our transfers of personal data from the EEA are lawful, we may face increased exposure to regulatory actions, substantial fines and injunctions against processing personal data from the EEA. Loss of our ability to lawfully transfer personal data out of the EEA to these or any other jurisdictions may cause reluctance or refusal by current or prospective European customers to use our data solutions or services, and we may be required to increase our data processing capabilities in the EEA at significant expense. Additionally, other countries outside of the EEA have passed or are considering passing laws requiring local data residency, which could increase the cost and complexity of delivering our services.

Further, the UK's withdrawal from the EU and ongoing developments in the UK have created uncertainty regarding data protection regulation in the UK. As of January 1, 2021 we are required to comply with the GDPR as well as the UK General Data Protection Regulation ("**UK GDPR**"), the implementation of which exposes us to two parallel data protection regimes in Europe, whereby additional and separate fines under the UK GDPR range from £8.7 million to £17.5 million or 2.0% to 4.0% of total worldwide annual revenue, whichever is higher. However, going forward, there may be increasing scope for divergence in application, interpretation and enforcement of data protection laws as between the UK and the EEA, and the relationship between the UK and the EEA in relation to certain aspects of data protection law remains uncertain. In addition, while the UK data protection regime currently permits data transfers from the UK to the EEA and other third countries covered by a European Commission adequacy decision, and currently includes a framework to permit the continued use of standard contractual clauses and binding corporate rules for personal data transfers from the UK to third countries, this is subject to change in the future, and any such changes could have implications for our transfer of personal data from the UK to the EEA and other third countries.

In the United States, California enacted the California Consumer Privacy Act ("**CCPA**"), which took effect in January 2020 and limits how we may collect, use and process personal data of California residents. The CCPA establishes a privacy framework for covered companies such as ours by, among other things, creating an expanded definition of personal information, establishing data privacy rights for California residents and creating a potentially severe statutory damages framework and private rights of action for certain data breaches. Further, in November 2020, California voters approved the California Privacy Rights Act (the "**CPRA**"), which will amend and expand the CCPA. Effective beginning January 1, 2023, the CPRA imposes additional obligations on companies covered by the legislation and will significantly modify the CCPA, including by expanding California residents' rights with respect to their personal data, and by establishing a regulatory agency dedicated to implementing and enforcing the CCPA and CPRA. The effects of the CCPA and CPRA are potentially far-reaching, and may require us to modify our data processing practices and policies and incur substantial compliance-related costs and expenses, and it remains unclear how various provisions will be interpreted and enforced. Certain other state laws in the United States, including the recently enacted Virginia Consumer Data Protection Act, impose similar privacy obligations and all 50 states have laws including obligations to provide notification of certain security breaches to affected individuals, state officials and others. We also may be bound by contractual obligations relating to our collection, use and disclosure of personal, financial and other data.

While we strive to comply with all applicable privacy, data protection and information security laws and regulations, as well as our contractual obligations, posted privacy policies and applicable industry standards, such laws, regulations, obligations and standards continue to evolve and are becoming increasingly complex, and sometimes conflict among the various jurisdictions and countries in which we operate, which makes compliance challenging and expensive. For example, we continue to see jurisdictions imposing data localization laws, which

require personal information, or certain subcategories of personal information to be stored in the jurisdiction of origin. These regulations may inhibit our ability to expand into those markets or prohibit us from continuing to offer services in those markets without significant additional costs. In addition, any failure or perceived failure by us, or any third parties with whom we do business, to comply with laws, regulations, policies, industry standards or contractual or other legal obligations relating to privacy, data protection or information security may result in governmental investigations, inquiries, enforcement actions and prosecutions, private litigation, fines and penalties, adverse publicity or potential loss of business.

We expect that there will continue to be new proposed laws, rules of self-regulatory bodies, regulations and industry standards concerning privacy, data protection and information security in Brazil and other jurisdictions, and we cannot yet determine the impact such future laws, rules, regulations and standards may have on our business. Moreover, existing Brazilian and foreign privacy and data protection-related laws and regulations are evolving and subject to potentially differing interpretations, and various legislative and regulatory bodies may expand current or enact new laws and regulations regarding privacy and data protection-related matters. Additionally, our customers may be subject to differing privacy laws, rules and legislation, which may mean that they require us to be bound by varying contractual requirements application to certain other jurisdictions. Because global laws, regulations and industry standards concerning privacy and data security have continued to develop and evolve rapidly, compliance with such new laws or to changes to existing laws may impact our business and practices, require us to expend significant resources to adapt to these changes, or to stop offering our data solutions or services in certain countries. These developments could adversely affect our business, results of operations and financial condition.

Changes in tax laws or differing interpretations of tax laws may adversely affect our results of operations.

We conduct business across several jurisdictions and file income tax returns in multiple jurisdictions as a result of our international operations. Our consolidated effective income tax rate could be materially adversely affected by several factors, including: changing tax laws, regulations and treaties, or the interpretation thereof; tax policy initiatives and reforms; the practices of tax authorities in jurisdictions in which we operate; the resolution of issues arising from tax audits or examinations and any related interest or penalties. Such changes may include (but are not limited to) the taxation of operating income, investment income, dividends received or (in the specific context of withholding tax) dividends paid.

Furthermore, Brazilian governmental authorities at the federal, state and local levels are considering changes in tax laws in order to cover budgetary shortfalls resulting from the recent economic downturn in Brazil and also in order to simplify the tax system. If these proposals are enacted they may harm our profitability by increasing our tax liabilities, increasing our tax compliance costs, or otherwise affecting our financial condition, results of operations and cash flows. Tax rules in Brazil, particularly at the local level, can change sometimes at short notice given the dynamics allowed by the tax legislation system based on a combination of voting, sanction and veto powers from the many legislators. Additionally, the Brazilian tax system is quite complex and requires substantial compliance costs, time and effort from companies operating in Brazil. Despite the fact that we apply all the proper efforts to manage our tax obligations, we may not always be timely aware of all such changes that affect our business and we may therefore fail to pay the applicable taxes or otherwise comply with tax regulations, which may result in additional tax assessments and penalties for our company.

A recent example involves the uncertainty as to the applicable taxes on the licensing and assignment of software rights in Brazil. Certain Brazilian state laws, including laws and decrees enacted by the State of São Paulo, required the payment of taxes on sales (*Imposto Sobre Operações Relativas à Circulação de Mercadorias e Serviços de Transporte Interestadual de Intermunicipal e de Comunicações*, or “**ICMS**”) in connection with these transactions, while municipalities also demanded the payment of taxes levied on the provision of services (*Imposto sobre Serviço*, or “**ISS**”). In February 2021, the Brazilian Supreme Court decided that only ISS taxes are due on the licensing and assignment of software rights and that the legislation enacted by the State of São Paulo is unconstitutional. Despite our consistent allegation of double taxation and existing case law in our favor, we may be party to tax claims filed by Brazilian municipalities due to our non-collection of ISS prior to the Brazilian Supreme Court judgment.

At the municipal level, the Brazilian government enacted Supplementary Law No. 157/16, which imposed changes regarding the collection of ISS applied to the rendering of part of our services. These changes created new obligations, as ISS will now be due in the municipality in which the acquirer of our services is located rather than in the municipality in which the service provider's facilities are located. This obligation took force in January 2018, but has been delayed by Direct Unconstitutionality Action No. 5835 ("ADI"), filed by taxpayers. The ADI challenges the constitutionality of Supplementary Law No. 157/16 before the Brazilian Supreme Court, arguing that the new legislation would adversely affect companies' activities due to the increase of costs and bureaucracy related to the ISS payment to several municipalities and the compliance with tax reporting obligations connected therewith. As a result, the Brazilian Supreme Court granted an injunction to suspend the enforcement of Supplementary Law No. 157/16. In June 2020, the ADI was included in the judgment agenda of the Brazilian Supreme Court but, as of the date of this proxy statement/prospectus, a final decision on this matter is currently pending.

Another example is the benefit provided by Brazilian Law No. 11,196/05 ("Lei do Bem"), which currently grants tax benefits to companies that invest in research and development by reducing annual corporate income tax expenses, provided that some requirements are met. We currently do not meet all the legal minimum requirements under *Lei do Bem* to take advantage of such tax benefit, but we expect to be able to rely on this benefit in the future. If the taxes applicable to our business increase or any tax benefits are revoked and we cannot alter our cost structure to pass our tax increases on to customers, our financial condition, results of operations and cash flows could be adversely affected.

Moreover, we are subject to tax laws and regulations that may be interpreted differently by tax authorities and us. The application of indirect taxes, such as sales and use tax, value-added tax ("VAT"), provincial taxes, goods and services tax, business tax and gross receipt tax, to businesses such as ours is complex and continues to evolve. We are required to use significant judgment in order to evaluate applicable tax obligations. In many cases, the ultimate tax determination is uncertain because it is not clear how existing statutes apply to our business. One or more states or municipalities, the federal government or other countries may seek to challenge the taxation or procedures applied to our transactions, which could impose the charge of taxes or additional reporting, record-keeping or indirect tax collection obligations on businesses like ours. New taxes could also require us to incur substantial costs to capture data and collect and remit taxes. If such obligations were imposed, the additional costs associated with tax collection, remittance and audit requirements could have a material adverse effect on our business and financial results.

The Brazilian federal government also recently announced and presented to Congress (i) the Bill of Law No. 3,887/2020, focused on several changes on the taxes currently levied on revenues; and (ii) the Bill of Law No. 2,337/2021, the so called "second phase" of the envisaged Brazilian Tax Reform Plan, focused on income taxation, which includes several topics such as the taxation of dividends, adjustments in corporate taxation basis and rates of Brazilian entities, changes in the taxation of income and gains in connection with investments in the Brazilian capital markets, such as financial assets and investment funds, among others. While such legislation has not been enacted, and it is not possible to determine at this time, what changes to tax laws and regulations will come into effect (if any), any such change may have an adverse effect on our results and operations.

Our business, financial condition and results of operations may be adversely affected by the various conflicting and/or onerous legal and regulatory requirements imposed on us by the countries where we operate. In addition, we may be subject to various legal proceedings which could adversely affect our business, financial condition or results of operations.

Since we maintain operations and provide services to customers in several jurisdictions, we are subject to numerous, and sometimes conflicting, legal requirements on matters as diverse as import/export controls, content requirements, trade restrictions, tariffs, taxation, sanctions, government affairs, anti-bribery, whistle blowing, internal and disclosure control obligations, data protection and privacy and labor relations and work visa policies. Our failure to comply with these regulations in the conduct of our business could result in fines, penalties,

criminal sanctions against us or our officers, disgorgement of profits, prohibitions on doing business and adverse impact on our reputation. Our failure to comply with these regulations in connection with the performance of our obligations to our customers could also result in liability for monetary damages, fines and/or criminal prosecution, unfavorable publicity, restrictions on our ability to process information and allegations by our customers that we have not performed our contractual obligations. Due to the varying degree of development of the legal systems of the countries in which we operate, local laws might be insufficient to defend us and preserve our rights.

In particular, we are also subject to risks relating to compliance with a variety of Brazilian national and local laws including multiple tax regimes, labor laws, employee health safety and wages and benefits laws. For example, we currently do not comply with the legal minimum hiring quota for persons with disabilities in Brazil. The Law 8,213 of 1991 provides that companies with more than 100 employees are required to fill 2% to 5% of their job positions with disabled employees; and/or employees who have passed through a medical rehabilitation. Therefore, we may be subject to administrative penalties from the relevant labor authorities, as well as to further remedies that may be imposed by the Brazilian Labor prosecution officer. The administrative penalties issued by the Ministry of Economy may vary from R\$2,656.61 to R\$265,659.51 per person with disability that was not hired to fill out the quota. In the event of any investigation, the labor authority may (a) propose to us the execution of a Commitment Agreement (*Termo de Ajustamento de Conduta*), which could provide for additional obligations and penalties (normally, fixed per person not hired to fill out the quota, which, in general, may vary from R\$500 to R\$2,000); and/or (b) file a public civil action seeking the payment of damages and enforcement of our compliance with the legal quota requirements, subject to additional penalties.

In addition, we are and may, from time to time, become subject to legal proceedings and claims, such as claims brought by our customers in connection with commercial disputes, employment claims made by our current or former employees, intellectual property claims, tax claims, or securities class actions or other claims related to any volatility in the trading price of New Semantix Ordinary Shares. We may also, from time to time, be subject to litigation resulting from claims against us by third parties, including claims of breach of non-compete and confidentiality provisions of our employees' former employment agreements with such third parties. Litigation might result in substantial costs and may divert management's attention and resources, which might seriously harm our business, financial condition, and results of operations. Insurance might not cover such claims, might not provide sufficient payments to cover all the costs to resolve one or more such claims, and might not continue to be available on terms acceptable to us (including premium increases or the imposition of large deductible or co-insurance requirements). A claim brought against us that is uninsured or underinsured could result in unanticipated costs, potentially harming our business, financial position, and results of operations. If we are unsuccessful in our defense in these legal proceedings, we may be forced to pay damages or fines, enter into consent decrees or change our business practices, any of which could adversely affect our business, financial condition or results of operations.

As we expand into new industries and regions, we will likely need to comply with new requirements to compete effectively. The uncertainty and changes in the requirements of multiple jurisdictions may increase the cost of compliance, delay or reduce demand for our data solutions and services, restrict our ability to offer data solutions and services in certain locations, impact our customers' ability to deploy our data solutions or services in certain jurisdictions, or subject us to sanctions by regulators, including national data protection regulators, all of which could harm our business, financial condition and results of operations. Additionally, although we endeavor to have our data solutions and services comply with applicable laws and regulations, these and other obligations may be modified, they may be interpreted and applied in an inconsistent manner from one jurisdiction to another, and they may conflict with one another, other regulatory requirements, contractual commitments or our internal practices. Our failure to comply with applicable regulatory requirements could have a material adverse effect on our business, financial condition, results of operations and prospects.

We may face restrictions and penalties under the Brazilian Consumer Protection Code in the future.

Brazil has a series of strict consumer protection statutes, collectively known as the Consumer Protection Code (*Código de Defesa do Consumidor*), that are intended to safeguard consumer interests and that apply to all companies in Brazil that supply products or services to Brazilian consumers (either individuals or legal entities). These consumer protection provisions include protection against misleading and deceptive advertising, protection against coercive or unfair business practices and protection in the formation and interpretation of contracts, usually in the form of civil liabilities and administrative penalties for violations. These penalties are often levied by the Brazilian Consumer Protection Agencies (*Fundação de Proteção e Defesa do Consumidor*, or “PROCONs”), which oversee consumer issues on a district-by-district basis. Companies that operate across Brazil may face penalties from multiple PROCONs, as well as the National Secretariat for Consumers (*Secretaria Nacional do Consumidor*, or “SENACON”). Companies may settle claims made by consumers via PROCONs by paying compensation for violations directly to consumers and through a mechanism that allows them to adjust their conduct, called a conduct adjustment agreement (*Termo de Ajustamento de Conduta*, or “TAC”). Brazilian Public Prosecutor Offices may also commence investigations related to consumer rights violations and this TAC mechanism is also available for them. Companies that violate TACs face potential automatic fines. Brazilian Public Prosecutor Offices may also file public civil actions against companies in violation of consumer rights, seeking strict observation to the consumer protection law provisions and compensation for the damages consumers may have suffered. To the extent consumers file such claims against us in the future, we may face reduced revenue due to refunds and fines for non-compliance that could negatively impact our results of operations.

We are subject to anti-corruption, anti-bribery, anti-money laundering, and similar laws and non-compliance with such laws can subject us to criminal or civil liability and harm our business, financial condition and results of operations.

We operate in jurisdictions that have a high risk of corruption and we are subject to anti-corruption, anti-bribery anti-money laundering and sanctions laws and regulations, including the Brazilian Federal Law No. 12,846/2013 (the “Clean Company Act”), and the United States Foreign Corrupt Practices Act of 1977, as amended (the “FCPA”). Each of the Clean Company Act and the FCPA prohibit us and our employees and intermediaries from authorizing, promising, offering, or providing, directly or indirectly, improper or prohibited payments, or anything else of value, to government officials or other persons to obtain or retain business or gain some other business advantage, and impose liability against companies who engage in bribery of government officials, either directly or through intermediaries.

While we have policies and procedures to address compliance with such laws, there is a risk that our employees, agents, and other third parties with which we do business will take actions in violation of our policies and applicable law, for which we may be ultimately held responsible. As we expand internationally, our risks under these laws may increase.

Detecting, investigating and resolving actual or alleged violations of anti-corruption laws can require a significant diversion of time, resources and attention from senior management. In addition, noncompliance with anti-corruption, anti-bribery or anti-money laundering laws could subject us to whistleblower complaints, investigations, sanctions, settlements, prosecution, enforcement actions, fines, damages, other civil or criminal penalties or injunctions, suspension or debarment from contracting with certain persons, forfeiture of significant assets, reputational harm, adverse media coverage and other collateral consequences. If any subpoenas or investigations are launched, or governmental or other sanctions are imposed, or if we do not prevail in any possible civil or criminal proceeding, our business, financial condition, and results of operations could be harmed.

Moreover, regulators may increase enforcement of these obligations, which may require us to adjust our compliance and anti-money laundering programs, including the procedures we use to verify the identity of our customers and to monitor our transactions and transactions made through our proprietary data platform.

Regulators regularly reexamine the transaction volume thresholds at which we must obtain and keep applicable records, verify identities of customers, and report any change in such thresholds to the applicable regulatory authorities, which could result in increased costs in order to comply with these legal and regulatory requirements. Costs associated with fines or enforcement actions, changes in compliance requirements, or limitations on our ability to grow could harm our business, and any new requirements or changes to existing requirements could impose significant costs, result in delays to planned data solutions and services improvements, make it more difficult for new customers to join our network and reduce the attractiveness of our data solutions and services.

We may be held liable for the labor, tax social security and other obligations of third parties.

We outsource certain ancillary activities that support our business, including recruiters to attract talent and maintenance personnel. We do not provide benefits to these outsourced workers. According to Brazilian legislation, if our outsourced service providers fail to comply with their obligations under labor, social security, tax and/or environmental laws, we may be held jointly and severally or secondarily liable for any non-compliance, resulting in fines or other penalties, which may adversely affect us. In addition, if it is judicially determined that these outsourced workers effectively served in the capacity of employees despite being considered outsourced workers by us, we can be liable for payment of unpaid benefits and social security. We may also be liable for bodily injury or death at our offices and our data laboratory of the employees of third parties who provide services to us, which may adversely affect our reputation as well as our business. Further, any environmental damage and/or damage to third parties caused by service providers when undergoing work engaged by us expose us to joint and several liability for redress and/or damages for harm caused.

We are subject to governmental export and import controls that could impair our ability to compete in international markets or subject us to liability if we violate the controls.

Our proprietary data platform is subject to U.S. export controls, including the U.S. Export Administration Regulations, and we incorporate encryption technology into our proprietary data platform. This encryption technology may be exported outside of Brazil only with the required export authorizations, including by license, a license exception, or other appropriate government authorizations, including the filing of an encryption classification request or self-classification report.

Obtaining the necessary export license or other authorization for a particular sale may be time-consuming and may result in the delay or loss of sales opportunities. Furthermore, our activities are subject to U.S. economic sanctions laws and regulations administered by various U.S. agencies, including the U.S. Treasury Department's Office of Foreign Assets Control, that prohibit the sale or supply of most products and services to embargoed jurisdictions or sanctioned parties. Violations of U.S. sanctions or export control regulations can result in significant fines or penalties and possible incarceration for responsible employees and managers.

If our channel partners fail to obtain appropriate import, export or re-export licenses or permits, we may also be adversely affected through reputational harm, as well as other negative consequences, including government investigations and penalties.

Also, various countries, in addition to the United States, regulate the import and export of certain encryption and other technology, including import and export licensing requirements and have enacted laws that could limit our ability to distribute our proprietary data platform in those countries. Changes in our proprietary data platform or future changes in export and import regulations may create delays in the introduction of our proprietary data platform in international markets, prevent our customers with international operations from using our proprietary data platform globally or, in some cases, prevent the export or import of our proprietary data platform to certain countries, governments, or persons altogether. From time to time, various governmental agencies have proposed additional regulation of encryption technology. Any change in export or import regulations, economic sanctions or related legislation, increased export and import controls, or change in the countries, governments, persons, or technologies targeted by such regulations, could result in decreased use of our proprietary data platform by, or in

our decreased ability to export or sell our proprietary data platform to, existing or potential customers with international operations. Any decreased use of our proprietary data platform or limitation on our ability to export or sell our proprietary data platform would adversely affect our business, financial condition, and results of operations.

Risks Related to Semantix's Operations in Latin America

Brazil has experienced, and may continue to experience, adverse economic or political conditions that may impact our business, financial condition and results of operations.

Our business is dependent to a certain extent upon the economic conditions prevalent in Brazil. Brazil has historically experienced uneven periods of economic growth, recessions, periods of high inflation and economic instability. Recently, the economic growth rates of the economies of Brazil has slowed and the country has entered mild recessions. Additionally, economic and political developments in Brazil, including future economic changes or crises (such as inflation, currency devaluation or recession), government deadlock, political instability, terrorism, civil strife, changes in laws and regulations, restrictions on the repatriation of dividends or profits, expropriation or nationalization of property, restrictions on currency convertibility, volatility of the foreign exchange market and exchange controls could impact our operations and/or the market value of New Semantix Ordinary Shares and have a material adverse effect on our business, financial condition and results of operations.

The Brazilian federal government has exercised, and continues to exercise, significant influence over the Brazilian economy. This influence, as well as Brazil's political and economic conditions, could harm us and the price of New Semantix Ordinary Shares.

The Brazilian federal government frequently exercises significant influence over the Brazilian economy and occasionally makes significant changes in policy and regulations. The Brazilian government's actions to control inflation and other policies and regulations have often involved, among other measures, increases or decreases in interest rates, changes in fiscal policies, wage and price controls, foreign exchange rate controls, blocking access to bank accounts, currency devaluations, capital controls and import and export restrictions. We have no control over and cannot predict what measures or policies the Brazilian government may take in the future. Our business and the market price of New Semantix Ordinary Shares may be harmed by changes in Brazilian government policies, as well as general economic factors, including, without limitation:

- growth or downturn of the economy;
- interest rates and monetary policies;
- exchange rates and currency fluctuations;
- inflation;
- liquidity of the capital and lending markets;
- import and export controls;
- exchange controls and restrictions on remittances abroad and payments of dividends;
- modifications to laws and regulations according to political, social and economic interests;
- fiscal policy and changes in tax laws and related interpretations by tax authorities;
- economic, political and social instability, including general strikes and mass demonstrations;
- labor and social security regulations;
- energy and water shortages and rationing;
- commodity prices;
- public health, including as a result of epidemics and pandemics, such as the COVID-19 pandemic;

[Table of Contents](#)

- changes in demographics; and
- other political, diplomatic, social and economic developments in or affecting Brazil.

Uncertainty over whether the Brazilian federal government will implement reforms or changes in policy or regulation affecting these or other factors in the future may affect economic performance and contribute to economic uncertainty in Brazil, which may have an adverse effect on our activities and consequently our results of operations, and may also adversely affect the trading price of New Semantix Ordinary Shares.

Further, Brazil's political environment has historically influenced, and continues to influence, the performance of the country's economy. The recent economic instability in Brazil has contributed to a decline in market confidence in the Brazilian economy as well as to a deteriorating political environment. See “—*The ongoing economic uncertainty and political instability in Brazil, including as a result of ongoing corruption investigations, may harm us and the price of New Semantix Ordinary Shares.*”

As has been true in the past, the current political and economic environment in Brazil has and is continuing to affect the confidence of investors and the general public, which has historically resulted in economic deceleration and heightened volatility in the securities offered by companies with significant operations in Brazil, which may adversely affect us and New Semantix Ordinary Shares.

The ongoing economic uncertainty and political instability in Brazil, including as a result of ongoing corruption investigations, may harm us and the price of New Semantix Ordinary Shares.

Brazil's political environment has historically influenced, and continues to influence, the performance of the country's economy. Political crises have affected and continue to affect the confidence of investors and the general public, which have historically resulted in economic deceleration and heightened volatility in the securities offered by companies with significant operations in Brazil.

The recent economic instability in Brazil has contributed to a decline in market confidence in the Brazilian economy as well as to a deteriorating political environment. The negative macroeconomic environment in Brazil in recent years was in part due to economic and political uncertainties resulting from a global decrease in commodities prices as well as due to corruption investigations of Brazilian state-owned and private sector companies, politicians and business executives, which, in turn, led to the ouster and arrest of several prominent politicians. Launched by the Office of the Brazilian Federal Prosecutor at the end of 2014, the so-called *Lava Jato* investigation investigated members of the Brazilian government and other members of the legislative branch, as well as senior officers and directors of large state-owned companies as well as other companies in connection with allegations of political corruption. The resulting fallout from the *Lava Jato* operation contributed to the impeachment of Brazil's former president, Dilma Rousseff, in August 2016, the arrest and conviction of former Brazilian President Luiz Inacio Lula da Silva, in April 2018, and the destabilization of the Brazilian economy. In November 2019, former President Luiz Inacio Lula da Silva was released from prison after a Brazilian Supreme Court ruling that allows defendants to remain free while their appeals are pending. In March 2021, a Brazilian Supreme Court ruling issued by Justice Edson Fachin annulled the decisions that had convicted former President Luiz Inacio Lula da Silva. As a result of this ruling, former President Luiz Inacio Lula da Silva recovered his political rights and is now able to run for office in the upcoming 2022 presidential elections in Brazil, which may result in further political uncertainty and consequent macroeconomic instability.

In April 2020, the Brazilian Supreme Court began investigating Brazil's current president, Jair Messias Bolsonaro, in connection with allegations made by the former Minister of Justice. In addition, in February 2021, the Brazilian federal government moved to replace the then-chief executive officer of a state-controlled company. These events and further political instability had, and may continue to have, an adverse effect on the Brazilian economy.

On April 14, 2021, a Parliamentary Committee Inquiry (*Comissão Parlamentar de Inquérito*, or “CPI”) was established to investigate the Brazilian federal government's potential mishandling of the COVID-19 pandemic

and collapse of the healthcare system in the Brazilian state of Amazonas in particular at the beginning of 2021, including the potential misuse of government funds. Based on the final report of the CPI, the Attorney General's Office began new six preliminary investigations involving Brazil's current president, members of the Brazilian government and members of the legislative branch, which are under review by the Brazilian Supreme Court.

The potential outcome of these and other inquiries, as well as the effects of the 2022 presidential elections, are uncertain, but they have already had a negative impact on the general perception of the Brazilian economy and the securities of Brazilian companies and have affected and may continue to adversely affect our business, our financial condition and our operating results. We cannot predict whether the ongoing investigations will result in further political and economic instability, or if new allegations against government officials and/or executives of private companies will arise in the future or will result in additional investigations.

A failure by the Brazilian government to implement necessary reforms may result in diminished confidence in the Brazilian government's budgetary condition and fiscal stance, which could result in downgrades of Brazil's sovereign foreign credit rating by credit rating agencies, negatively impact Brazil's economy, lead to further depreciation of the *real* and an increase in inflation and interest rates, adversely affecting our business, financial condition and results of operations.

Any of the above factors may create additional political uncertainty, which could harm the Brazilian economy and, consequently, our business and the value of our investments in Brazil, and could adversely affect our financial condition, results of operations and the price of New Semantix Ordinary Shares.

Developments and the perceptions of risks in other countries, including other emerging markets, the United States and Europe, may harm the Brazilian economy and the price of New Semantix Ordinary Shares.

The market for securities offered by companies such as ours is influenced by economic and market conditions in Brazil and emerging markets, as well as the United States, Europe and other countries. To the extent the conditions of the global markets or economy deteriorate, our business may be adversely affected. The weakness in the global economy has been marked by, among other adverse factors, lower levels of consumer and corporate confidence, decreased business investment and consumer spending, increased unemployment, reduced income and asset values in many areas, reduction of China's growth rate, currency volatility and limited availability of credit and access to capital. Developments or economic conditions in other emerging countries have at times significantly affected the availability of credit to companies with significant operations in Brazil and resulted in considerable outflows of funds from Brazil, decreasing the amount of foreign investments in Brazil, impacting overall growth expectations for the Brazilian economy.

Crises and political instability in other emerging market countries, the United States, Europe or other countries, including increased international trade tensions and protectionist policies, could decrease investor demand for securities offered by companies with significant operations in Brazil, such as New Semantix Ordinary Shares. These developments, as well as potential crises and forms of political instability arising therefrom or any other as of yet unforeseen development, may harm our business and the price of New Semantix Ordinary Shares.

These developments, as well as potential crises and forms of political instability arising therefrom or any other as of yet unforeseen development, may adversely affect the United States and global economies and capital markets, which may, in turn, materially adversely affect the trading price of New Semantix Ordinary Shares.

Inflation and certain government measures to curb inflation may adversely affect the Brazilian economy and capital markets, and as a result, harm our business and the price of New Semantix Ordinary Shares.

In the past, high rates of inflation have adversely affected the economy and capital markets of Brazil and the ability of the Brazilian government to create conditions that stimulate or maintain economic growth. Moreover,

governmental measures to curb inflation and speculation about possible governmental measures have contributed to the negative economic impact of inflation and have created general economic uncertainty and heightened volatility in the capital markets. As part of these measures, governments have at times maintained a restrictive monetary policy and high interest rates that has limited the availability of credit and economic growth.

Inflation as measured by the Broad National Consumer Price Index (*Índice Nacional de Preços ao Consumidor Amplo*, or “**IPCA**”), which is published by the Brazilian Institute of Geography and Statistics (*Instituto Brasileiro de Geografia e Estatística*, or “**IBGE**”), was 10.1%, 4.5% and 4.3% as of December 31, 2021, 2020 and 2019, respectively. Inflation measured by the General Market Prices Index (*Índice Geral de Preços-Mercado*, or “**IGP-M**”) was 17.8%, 23.1% and 7.3% as of December 31, 2021, 2020 and 2019, respectively. As of May 31, 2022, the accumulated IPCA was 4.8% and the accumulated IGP-M was 7.5%. Brazil may experience high levels of inflation in the future and inflationary pressures may lead to the Brazilian government intervening in the economy and introducing policies that could harm our business and the trading price of New Semantix Ordinary Shares. In the past, the Brazilian government’s interventions included the maintenance of a restrictive monetary policy with high interest rates that restricted credit availability and reduced economic growth, causing volatility in interest rates. For example, as of December 31, 2019, the SELIC rate was 4.50%. On August 8, 2020, the SELIC rate was set at 2.0%, increasing to 4.25% in June 2021 and further increasing to 6.25% in September 2021, and in October 2021, it was set at 7.75% due to concerns with inflationary pressure. On December 8, 2021, the SELIC rate was further increased to 9.25%. On February 2, 2022, the SELIC rate was further increased to 10.75%. On March 16, 2022, the SELIC rate was further increased to 11.75%, and on May 4, 2022, the SELIC rate was further increased to 12.75%. On June 15, 2022, the SELIC rate was further increased to 13.25%. Conversely, more lenient government and Central Bank policies and interest rate decreases have triggered and may continue to trigger increases in inflation, and, consequently, growth volatility and the need for sudden and significant interest rate increases, which could negatively affect us and increase our indebtedness.

The measures taken by the Brazilian government to control inflation have often included maintaining a tight monetary policy with high interest rates, thereby restricting the availability of credit and retarding economic growth. Inflation, measures to combat inflation and public speculation about possible additional actions have also contributed materially to economic uncertainty in Brazil and to heightened volatility in its securities markets. Periods of higher inflation may slow the growth rate of the Brazilian economy and lead to reduced demand for our data solutions and services. Inflation is also likely to increase some of our costs and expenses, which we may not be able to fully pass on to customers and could adversely affect our operating margins and operating income. In addition, inflation affects our financial liquidity and financial capital resources primarily by exposing us to the variations in our floating-rate loans. As of December 31, 2021, approximately 68.7% of our loans and borrowings were subject to floating interest rates, particularly the CDI rate. Rising interest rates may also impact the costs of our fundraising and indebtedness, increasing our financial expenses. Such an increase could adversely affect our ability to pay our obligations to the extent it reduces cash on hand. Mismatches between rates contracted in assets versus liabilities and/or high volatility in interest rates may result in financial losses for us.

Exchange rate instability may have adverse effects on the Brazilian economy, our business and the trading price of New Semantix Ordinary Shares.

The Brazilian *real* has been historically volatile and has been devalued frequently, and the Brazilian government has in the past implemented various economic plans and used various exchange rate policies, including sudden devaluations, periodic mini-devaluations (during which the frequency of adjustments has ranged from daily to monthly), exchange controls, dual exchange rate markets and a floating exchange rate system.

There has been persistently high volatility in the foreign exchange market for the Brazilian *real* in recent years, especially over the period covered by this proxy statement/prospectus, and the *real* weakened significantly over this period.

As of December 31, 2019, the *real*/U.S. dollar exchange rate reported by the Central Bank was R\$4.031 per US\$1.00. As of December 31, 2020, the *real*/U.S. dollar exchange rate reported by the Central Bank was R\$5.197 per US\$1.00. As of December 31, 2021, the *real*/U.S. dollar exchange rate reported by the Central Bank was R\$5.581 per US\$1.00. As of March 31, 2022, the *real*/U.S. dollar exchange rate reported by the Central Bank was R\$4.738 per US\$1.00. As of May 31, 2022, the *real*/U.S. dollar exchange rate reported by the Central Bank was R\$4.7289 per US\$1.00. There can be no assurance that the *real* will not appreciate or further depreciate against the U.S. dollar or other currencies in the future.

A devaluation of the *real* relative to the U.S. dollar could create inflationary pressures and cause governments to, among other measures, increase interest rates. Any depreciation of the *real* may generally restrict access to the international capital markets. It would also reduce the U.S. dollar value of our results of operations. Restrictive macroeconomic policies could reduce the stability of the Brazilian economy and harm our results of operations and profitability. In addition, domestic and international reactions to restrictive economic policies could have a negative impact on the Brazilian economy. These policies and any reactions to them may harm us by curtailing access to foreign financial markets and prompting further government intervention. A devaluation of the *real* relative to the U.S. dollar may also, as in the context of the current economic slowdown, decrease consumer spending, increase deflationary pressures and reduce economic growth. On the other hand, an appreciation of the *real* relative to the U.S. dollar and other foreign currencies may deteriorate foreign exchange current accounts. Depending on the circumstances, either devaluation or appreciation of the *real* relative to the U.S. dollar and other foreign currencies could restrict the growth of the Brazilian economy and affect our business, results of operations and profitability.

For additional information on the impact of fluctuations in currency exchange rates on our business, see “—Risks Related to Semantix’s Business and Industry—We are exposed to fluctuations in currency exchange rates, which could negatively affect our results of operations and our ability to invest and hold our cash.”

Changes in the political and economic environments in Latin American countries could adversely affect us.

In addition to Brazil, we have operations in Colombia and Mexico, corresponding to 0.4% and 7.2%, respectively, of our revenues for the year ended December 31, 2021 (2.0% and 9.0%, respectively, for the year ended December 31, 2020). In conducting our businesses in emerging markets, we are subject to political, economic, legal, operational and other risks that are inherent to operating in these countries.

We may encounter the following difficulties, among others, related to the foreign markets in which we currently operate or will operate in the future:

- unforeseen regulatory changes;
- inability to attract personnel and generate business outside of Brazil;
- changes in tax law;
- changes in trade and investment policies and regulations;
- difficulties in registering and protecting trademarks and software;
- nationalization, expropriation, price controls and other restrictive governmental actions;
- adoption of governmental measures that protect, subsidize or otherwise favor competitors native to such foreign markets; and
- cultural and linguistic barriers.

In addition, the Mexican and Colombian currencies have been subject to significant fluctuations with respect to the U.S. dollar in the past and may be subject to significant fluctuations in the future. As of December 31, 2019, the Mexican *peso*/U.S. dollar exchange rate was 18.92 Mexican *pesos* per US\$1.00. As of December 31, 2020, the

Mexican *peso*/U.S. dollar exchange rate was 19.88 Mexican *pesos* per US\$1.00. As of December 31, 2021, the Mexican *peso*/U.S. dollar exchange rate was 20.50 Mexican *pesos* per US\$1.00. As of December 31, 2019, the Colombian *peso*/U.S. dollar exchange rate was 3,289.47 Colombian *pesos* per US\$1.00. As of December 31, 2020, the Colombian *peso*/U.S. dollar exchange rate was 3,439.20 Colombian *pesos* per US\$1.00. As of December 31, 2021, the Colombian *peso*/U.S. dollar exchange rate was 4,051.27 Colombian *pesos* per US\$1.00.

If one or more of these risks materialize, and we are not able to overcome these difficulties, our business, results of operations and financial condition may be adversely affected.

Infrastructure and workforce deficiency in Brazil may impact economic growth and have a material adverse effect on us.

Our performance is impacted by the overall health and growth of the global economy, specifically in Brazil. In Brazil, gross domestic product (“GDP”) growth has fluctuated over the past few years, with contractions of 3.5% and 3.3% in 2015 and 2016, respectively, followed by growth of 1.1% in both 2017 and 2018. In 2019, Brazilian GDP grew by 1.4%, and in 2020, it contracted 4.1%. In 2021, Brazilian GDP grew by 4.6%. In the first quarter of 2022, Brazilian GDP grew by 1.7% compared to the first quarter of 2021. Growth is limited by inadequate infrastructure, including potential energy shortages and deficient transportation, logistics and telecommunication sectors, general strikes, the lack of a qualified labor force (particularly in information technology sectors), and the lack of private and public investments in these areas, which limit productivity and efficiency. Any of these factors could lead to labor market volatility and generally impact income, purchasing power and consumption levels, which could limit growth and ultimately have a material adverse effect on us.

Any further downgrading of Brazil’s credit rating could reduce the trading price of New Semantix Ordinary Shares.

Given the current significance of our Brazil operations to our results of operations as a whole, we may be harmed by investors’ perceptions of risks related to Brazil’s sovereign debt credit rating. Rating agencies regularly evaluate Brazil and its sovereign credit ratings, which are based on a number of factors including macroeconomic trends, fiscal and budgetary conditions, indebtedness metrics and the perspective of changes in any of these factors.

The rating agencies began to review Brazil’s sovereign credit rating in September 2015. Subsequently, the three major rating agencies downgraded Brazil’s investment-grade status:

- Standard & Poor’s initially downgraded Brazil’s credit rating from BBB-negative to BB-positive and subsequently downgraded it again from BB-positive to BB, maintaining its negative outlook, citing a worse credit situation since the first downgrade. On January 11, 2018, Standard & Poor’s further downgraded Brazil’s credit rating from BB to BB-stable, which was reaffirmed on June 2, 2021.
- In December 2015, Moody’s placed Brazil’s Baa3’s issue and bond ratings under review for downgrade and subsequently downgraded the issue and bond ratings to below investment grade, at Ba2 with a negative outlook, citing the prospect of a further deterioration in Brazil’s debt indicators, taking into account the low growth environment and the challenging political scenario. On May 25, 2021, Moody’s maintained Brazil’s credit rating at Ba2-stable.
- Fitch downgraded Brazil’s sovereign credit rating to BB-positive with a negative outlook, citing the rapid expansion of the country’s budget deficit and the worse-than-expected recession. In February 2018, Fitch downgraded Brazil’s sovereign credit rating again to BB-negative, citing, among other reasons, fiscal deficits, the increasing burden of public debt and an inability to implement reforms that would structurally improve Brazil’s public finances. On May 27, 2021, Fitch reaffirmed Brazil’s credit rating at BB-negative.

Brazil’s sovereign credit rating is currently rated below investment grade by the three main credit rating agencies. Consequently, the prices of securities offered by companies with significant operations in Brazil have

been negatively affected. A prolongation or worsening of the current Brazilian recession and continued political uncertainty, among other factors, could lead to further ratings downgrades. Any further downgrade of Brazil's sovereign credit ratings could heighten investors' perception of risk and, as a result, cause the trading price of New Semantix Ordinary Shares to decline.

Additionally, a downgrade of the sovereign credit rating of Brazil may affect our own credit rating, hindering our ability to secure loans at competitive rates compared to our competitors, which may impact our ability to grow our business and, consequently, affect the price of New Semantix Ordinary Shares.

Public health threats or outbreaks of communicable diseases could have an adverse effect on our operations and financial results.

We may face risks related to public health threats or outbreaks of communicable diseases. The outbreak of communicable diseases could result in a widespread health crisis that could adversely affect the global economy and our ability and our business partners' ability to conduct business in Brazil for an indefinite period of time. For example, the outbreak of COVID-19 spread across the globe, resulting in global and regional economic slowdown, a shutdown of production and supply chains and a disruption of international trade, all of which negatively impacted, and could further negatively impact, the Brazilian economy. Disruptions in public and private infrastructure, including communications and financial, could materially and adversely disrupt our normal business operations.

The current COVID-19 pandemic may continue to have a negative impact on global, regional and national economies and to disrupt supply chains and otherwise reduce international trade and business activity. Reflecting this, the COVID-19 pandemic has already caused, since early 2020, equity and other financial markets to decline sharply and to become volatile, and such effects may continue or worsen in the future. This may in turn further impact the stock market in Brazil. The current COVID-19 pandemic and its potential impact on the global economy may affect our ability to meet our financial targets. While we cannot predict the future impacts on our business or if we will be able to achieve our financial targets, we would be materially adversely affected by a protracted downturn in local, regional or global economic conditions.

Risks Related to New Semantix

New Semantix will incur increased costs as a result of operating as a public company.

Following the Business Combination, New Semantix will become a public company and will incur significant legal, accounting and other expenses that Semantix did not incur as a private company. As a public company, New Semantix will be subject to the reporting requirements of the Exchange Act, the Sarbanes-Oxley Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act, as well as rules adopted, and to be adopted, by the SEC and the Nasdaq. New Semantix's management and other personnel will need to devote a substantial amount of time to these compliance initiatives and may not effectively or efficiently manage the transition into a public company. Moreover, New Semantix expects these rules and regulations to substantially increase its legal and financial compliance costs and to make some activities more time-consuming and costly. For example, New Semantix expects these rules and regulations to make it more difficult and more expensive for New Semantix to obtain director and officer liability insurance and New Semantix may be forced to accept reduced policy limits or incur substantially higher costs to maintain the same or similar coverage. New Semantix cannot predict or estimate the amount or timing of additional costs it may incur to respond to these requirements. The impact of these requirements could also make it more difficult for New Semantix to attract and retain qualified persons to serve on New Semantix's board of directors, its board committees or as executive officers.

Most members of New Semantix's management team have limited experience managing a publicly traded company, interacting with public company investors and complying with the increasingly complex laws pertaining to public companies in the United States. The additional demands associated with being a public

company may disrupt regular operations of New Semantix's business by diverting the attention of some of its senior management team away from revenue producing activities to management and administrative oversight, adversely affecting New Semantix's ability to attract and complete business opportunities and increasing the difficulty in both retaining professionals and managing and growing its businesses. New Semantix's management team may not successfully or efficiently manage its transition to being a public company subject to significant regulatory oversight and reporting obligations under the U.S. federal securities laws and the continuous scrutiny of securities analysts and investors.

In addition, the public reporting obligations associated with being a public company in the United States may subject New Semantix to litigation as a result of increased scrutiny of its financial reporting. If New Semantix is involved in litigation regarding its public reporting obligations, this could subject New Semantix to substantial costs, divert resources and management attention from New Semantix's business and seriously undermine New Semantix's business.

Any of these effects could harm New Semantix's business, financial condition and results of operations.

The departure or loss of significant influence of Semantix Founders, particularly Leonardo dos Santos Poça D'Água, would be detrimental to New Semantix's business and adversely affect the ability of New Semantix to execute its business strategies and continue to grow.

Leonardo dos Santos Poça D'Água is the co-founder, Chairman of the Board and Chief Executive Officer of Semantix and is responsible for Semantix's strategic vision and disruptive innovation, as well as the management and growth of Semantix's operations. Under the control of Mr. Leonardo Santos, Semantix has been able to take advantage of his technology expertise for the development and the execution of its business strategies, including the management and operation of its businesses.

Following the Business Combination, Mr. Leonardo Santos, together with the other two co-founders of Semantix, will beneficially own 31.6% of the New Semantix Ordinary Shares issued and outstanding immediately after the Closing of the Business Combination, assuming no Alpha shares are redeemed. For a more detailed description of share ownership upon consummation of the Business Combination, see "*Security Ownership of Certain Beneficial Owners and Management*." However, subsequent to the Closing of the Business Combination, it is expected that 50% of the New Semantix Ordinary Shares indirectly held by Leandro dos Santos Poça D'Água, a co-founder of Semantix and the brother of our chief executive officer, corresponding to approximately 5.0% of the New Semantix Ordinary Shares issued and outstanding immediately after the consummation of the Business Combination assuming no redemptions, will be transferred to an investment vehicle owned by Livia Ricardi de Almeida Poça D'Água, who is the ex-wife of Leandro dos Santos Poça D'Água, pursuant to their recently-agreed divorce proceedings. As a result of the transfer of such New Semantix Ordinary Shares, our chief executive officer will no longer be deemed to exercise voting power over the New Semantix Ordinary Shares indirectly owned by Livia Ricardi de Almeida Poça D'Água, nor will he have a call option over such New Semantix Ordinary Shares. However, the New Semantix Ordinary Shares to be indirectly held by Livia Ricardi de Almeida Poça D'Água will remain subject to the provisions of the Lock-up Agreement and our CEO will have a right of first refusal over such New Semantix Ordinary Shares.

Although the Shareholders Agreement contemplates that Semantix's Founders will be able to appoint a minimum of four directors (at least two of which must be independent if the director designated by the Sponsor is independent or, if the director designated by the Sponsor is not independent, with at least three of such directors being independent) to the board of directors of New Semantix following the closing of the Business Combination, and Mr. Leonardo Santos will continue to be part of the management of New Semantix, which may give them some level of control over, and the ability to significantly influence, management decisions at New Semantix, Semantix's Founders may not be able to exert the same level of control that they had exerted over Semantix prior to the Business Combination. Absent the control of Semantix's Founders, the remaining significant shareholders of New Semantix will consist of professional investors and investment funds that may not have specific technology experience.

In addition, there is no guarantee that the Shareholders Agreement will continue to be in effect into the future. For example, pursuant to the terms of the Shareholders Agreement, the Shareholders Agreement would terminate upon a divestment of equity interests in New Semantix by Crescera or Inovabra, such that the collective equity interests held by Crescera, Inovabra and Semantix's Founders falls below 40% of the total outstanding equity interests in New Semantix. If the Shareholders Agreement terminates, Semantix's Founders' ability to elect four directors to the board of directors of New Semantix would no longer be contractually guaranteed and the level of control they would be able to exert over New Semantix would be significantly diminished.

Such a decrease in the level of control previously exerted by Semantix's Founders, particularly Mr. Leonardo Santos, could have a detrimental effect on New Semantix's business and operations. Moreover, the absence of a controlling shareholder may also make New Semantix more susceptible to the formation of new shareholder alliances, disputes among our shareholders, and other events resulting from the absence of a controlling shareholder or a control group, including New Semantix's inability to obtain the minimum quorums required to pass on a decision. If a new control group emerges and takes over decision-making power, New Semantix could suffer sudden and unexpected changes in its strategies and corporate policies, including through the replacement of New Semantix's management, which could adversely affect New Semantix. Additionally, New Semantix cannot assure you that any such new control group would project the same level of influence or support that Semantix has experienced under its current controlling shareholder prior to the Business Combination, which could also adversely affect New Semantix.

New Semantix may not be able to timely and effectively implement controls and procedures required by Section 404(a) of the Sarbanes-Oxley Act that will be applicable to it after the Business Combination is consummated.

Semantix is not currently subject to Section 404 of the Sarbanes-Oxley Act. However, following the consummation of the Business Combination and the transactions related thereto, New Semantix will be required to provide management's attestation on internal controls in connection with New Semantix's second annual report on Form 20-F following consummation of the Business Combination. The standards required for a public company under Section 404(a) of the Sarbanes-Oxley Act are significantly more stringent than those required of Semantix as a privately-held company. Management may not be able to effectively and timely implement controls and procedures that adequately respond to the increased regulatory compliance and reporting requirements that will be applicable after the Business Combination. If New Semantix is not able to implement the additional requirements of Section 404(a) in a timely manner or with adequate compliance, it may not be able to assess whether its internal controls over financial reporting are effective, which may subject it to adverse regulatory consequences and could harm investor confidence and the market price of New Semantix Ordinary Shares.

As a foreign private issuer and an "emerging growth company" (as defined in the JOBS Act), New Semantix will have different disclosure and other requirements than U.S. domestic registrants and non-emerging growth companies that, to some extent, are more lenient and less frequent than those of U.S. domestic registrants and non-emerging growth companies.

As a foreign private issuer and emerging growth company, New Semantix will be subject to different disclosure and other requirements than domestic U.S. registrants and non-emerging growth companies. For example, as a foreign private issuer, in the United States, New Semantix is not subject to the same disclosure requirements as a domestic U.S. registrant under the Exchange Act, including the requirements to prepare and issue quarterly reports on Form 10-Q or to file current reports on Form 8-K upon the occurrence of specified significant events, the proxy rules applicable to domestic U.S. registrants under Section 14 of the Exchange Act or the insider reporting and short swing profit rules applicable to domestic U.S. registrants under Section 16 of the Exchange Act. In addition, New Semantix intends to rely on exemptions from certain U.S. corporate

governance related rules which will permit us to follow Cayman Islands legal requirements rather than certain of the requirements that are applicable to U.S. domestic registrants. See “*New Semantix Management Following the Business Combination—Foreign Private Issuer Exemptions*” for more information.

New Semantix will follow certain Cayman Islands laws and regulations that are applicable to Cayman Islands companies. However, such laws and regulations may not contain any provisions comparable to the U.S. rules relating to the filing of reports on Form 10-Q or 8-K, the U.S. proxy rules, or the U.S. rules relating to liability for insiders who profit from trades made in a short period of time, as referred to above.

Furthermore, foreign private issuers are required to file their annual report on Form 20-F within 120 days after the end of each fiscal year, while U.S. domestic issuers that are accelerated filers are required to file their annual report on Form 10-K within 75 days after the end of each fiscal year. Foreign private issuers are also exempt from Regulation Fair Disclosure, aimed at preventing issuers from making selective disclosures of material information, although New Semantix will be subject to Cayman Islands laws and regulations having, in some respects, a similar effect as Regulation Fair Disclosure. As a result of the above, even though New Semantix is required to file reports on Form 6-K disclosing the limited information which New Semantix has made or is required to make public pursuant to Cayman Islands law, or is required to distribute to shareholders generally, and that is material to New Semantix, you may not receive information of the same type or amount that is required to be disclosed to shareholders of a U.S. company.

The JOBS Act contains provisions that, among other things, relax certain reporting requirements for emerging growth companies. Under this act, as an emerging growth company, New Semantix will not be subject to the same disclosure and financial reporting requirements as non-emerging growth companies. For example, as an emerging growth company New Semantix is permitted to, and intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies. Also, New Semantix will not have to comply with future audit rules promulgated by the U.S. Public Company Accounting Oversight Board, or “PCAOB,” (unless the SEC determines otherwise) and New Semantix’s auditors will not need to attest to its internal controls under Section 404(b) of the Sarbanes Oxley Act for up to five years or such earlier time that New Semantix is no longer an emerging growth company. New Semantix may follow these reporting exemptions until New Semantix is no longer an emerging growth company. As a result, New Semantix’s shareholders may not have access to certain information that they deem important. New Semantix will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which New Semantix has total annual revenues of at least US\$1.07 billion, or (c) in which New Semantix is deemed to be a large accelerated filer, which means the market value of New Semantix Ordinary Shares that is held by non-affiliates exceeds US\$700.0 million as of the prior June 30th, and (2) the date on which New Semantix has issued more than US\$1.0 billion in non-convertible debt during the prior three year period. Accordingly, the information about New Semantix available to you will not be the same as, and may be more limited than, the information available to shareholders of a non-emerging growth company. New Semantix could be an “emerging growth company” for up to five years, although circumstances could cause New Semantix to lose that status earlier, including if the market value of New Semantix Ordinary Shares held by non-affiliates exceeds \$700 million as of any June 30 (the end of New Semantix’s second fiscal quarter) before that time, in which case New Semantix would no longer be an “emerging growth company” as of the following December 31 (New Semantix’s fiscal year end). New Semantix cannot predict if investors will find New Semantix Ordinary Shares less attractive because New Semantix may rely on these exemptions. If some investors find New Semantix Ordinary Shares less attractive as a result, there may be a less active trading market for New Semantix Ordinary Shares and the price of New Semantix Ordinary Shares may be more volatile.

As a foreign private issuer, New Semantix is permitted to, and New Semantix will, rely on exemptions from certain Nasdaq corporate governance standards applicable to U.S. issuers, including the requirement that a majority of an issuer's directors consist of independent directors. This may afford less protection to holders of New Semantix Ordinary Shares.

As a foreign private issuer, New Semantix is permitted to, and New Semantix will, follow certain home country corporate governance practices instead of those otherwise required under Nasdaq's rules for domestic U.S. issuers, provided that New Semantix discloses any significant ways in which its corporate governance practices differ from those followed by domestic companies under Nasdaq listing standards. For example, Section 5605 of the Nasdaq equity rules requires listed companies to have, among other things, a majority of their board members be independent, and to have independent director oversight of executive compensation, nomination of directors and corporate governance matters. As a foreign private issuer, however, New Semantix is permitted to, and New Semantix will, follow home country practice in lieu of the above requirements. See "*New Semantix Management Following the Business Combination—Foreign Private Issuer Exemptions.*"

As a result of New Semantix's reliance on the corporate governance exemptions available to foreign private issuers under Nasdaq rules, you will not have the same protection afforded to shareholders of companies that are subject to all of Nasdaq's corporate governance requirements.

Availing of any of these exemptions, as opposed to complying with the requirements that are applicable to a U.S. domestic registrant, may provide less protection to you than is accorded to investors under Nasdaq's corporate governance rules. Therefore, any foreign private issuer exemptions New Semantix avails itself of in the future may reduce the scope of information and protection to which you are otherwise entitled as an investor.

New Semantix may lose its foreign private issuer status which would then require New Semantix to comply with the Exchange Act's domestic reporting regime and cause New Semantix to incur significant legal, accounting and other expenses.

In order to maintain New Semantix's current status as a foreign private issuer, either (a) more than 50% of the voting power of all New Semantix's outstanding classes of voting securities (on a combined basis) must be either directly or indirectly owned of record by non-residents of the United States or (b)(1) a majority of New Semantix's executive officers or directors must not be U.S. citizens or residents; (2) more than 50% of New Semantix's assets cannot be located in the United States; and (3) New Semantix's business must be administered principally outside the United States. New Semantix intends to monitor the composition of its shareholder base to determine whether New Semantix meets these criteria. If New Semantix loses this status, New Semantix would be required to comply with the Exchange Act reporting and other requirements applicable to U.S. domestic issuers, which are more detailed and extensive than the requirements for foreign private issuers. New Semantix may also be required to make changes in its corporate governance practices in accordance with various SEC and Nasdaq rules, and report its financial statements under US GAAP, which may differ materially from IFRS, all of which may involve time, effort and additional costs to implement. The regulatory and compliance costs to New Semantix under U.S. securities laws if New Semantix is required to comply with the reporting requirements applicable to a U.S. domestic issuer may be significantly higher than the costs New Semantix will incur as a foreign private issuer.

There will be differences between your current rights as a holder of Alpha Ordinary Shares and the rights you will have as a holder of New Semantix Ordinary Shares, some of which may adversely affect you.

Upon completion of the Business Combination, Alpha shareholders will no longer be shareholders of Alpha, but will be shareholders of New Semantix. There will be differences between the current rights of Alpha shareholders and the rights you will have as a holder of the New Semantix Ordinary Shares and New Semantix Warrants, some of which may adversely affect you. For a more detailed discussion of the differences in the rights of Alpha shareholders and the New Semantix shareholders, see the section entitled "*Proposals to be Considered by Alpha's Shareholders—The Governing Documents Proposals.*"

Upon completion of the Business Combination, Alpha shareholders will become New Semantix shareholders, Alpha warrant holders will become holders of New Semantix Warrants and the market price for the New Semantix Ordinary Shares may be affected by factors different from those that historically have affected Alpha.

Upon completion of the Business Combination, Alpha shareholders will become New Semantix shareholders and Alpha's warrant holders will become holders of New Semantix Warrants, which may be exercised to acquire New Semantix Ordinary Shares. New Semantix's business differs from that of Alpha, and, accordingly, the results of operations of New Semantix will be affected by some factors that are different from those currently affecting the results of operations of Alpha. Alpha is a special purpose acquisition company incorporated in the Cayman Islands that is not engaged in any operating activity, directly or indirectly. New Semantix is a holding company incorporated in the Cayman Islands and, after the consummation of the Business Combination, its subsidiaries will be engaged in offering proprietary SaaS and third-party software solutions together with AI and data analytics services designed to enable companies to manage data effectively. New Semantix's business and results of operations will be affected by operating, industry and regional risks to which Alpha was not exposed. For a discussion of the future business of New Semantix currently conducted and proposed to be conducted by Semantix, see "Semantix's Business."

New Semantix Warrants will become exercisable for New Semantix Ordinary Shares, which would increase the number of shares eligible for future resale in the public market and result in dilution to its shareholders.

New Semantix Warrants to purchase an aggregate of 18,500,000 New Semantix Ordinary Shares will become exercisable in accordance with the terms of the agreement governing those securities. Assuming the Business Combination closes, these warrants will become exercisable 30 days after the completion of the Business Combination. The exercise price of these warrants will be \$11.50 per share. To the extent such warrants are exercised, additional New Semantix Ordinary Shares will be issued, which will result in dilution to the holders of New Semantix Ordinary Shares and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market or the fact that such warrants may be exercised could adversely affect the market price of New Semantix Ordinary Shares. However, there is no guarantee that the New Semantix Warrants will ever be in the money prior to their expiration, and as such, the warrants may expire worthless.

If securities or industry analysts do not publish research, publish inaccurate or unfavorable research or cease publishing research about New Semantix, its share price and trading volume could decline significantly.

The trading market for New Semantix Ordinary Shares will depend, in part, on the research and reports that securities or industry analysts publish about New Semantix or its business. New Semantix may be unable to sustain coverage by well-regarded securities and industry analysts. If either none or only a limited number of securities or industry analysts maintain coverage of New Semantix, or if these securities or industry analysts are not widely respected within the general investment community, the demand for New Semantix Ordinary Shares could decrease, which might cause its share price and trading volume to decline significantly. In the event that New Semantix obtains securities or industry analyst coverage, if one or more of the analysts who cover New Semantix downgrade their assessment of New Semantix or publish inaccurate or unfavorable research about New Semantix's business, the market price and liquidity for New Semantix Ordinary Shares could be negatively impacted.

Future resales of New Semantix Ordinary Shares issued to Semantix shareholders and other significant shareholders may cause the market price of the New Semantix Ordinary Shares to drop significantly, even if New Semantix's business is doing well.

Under the Business Combination Agreement, Semantix shareholders will receive, among other things, 62,000,000 New Semantix Ordinary Shares (none of which will be eligible for sale immediately after the consummation of the Business Combination). Pursuant to the Lock-Up Agreement, Semantix shareholders will be restricted from selling New Semantix Ordinary Shares for a period of six months following the Closing.

Upon expiration or waiver of the lock-up period, and upon effectiveness of the registration statement New Semantix files pursuant to the Registration Rights Agreement or upon satisfaction of the requirements of Rule 144 under the Securities Act, Semantix shareholders and certain other significant shareholders of New Semantix may sell large amounts of New Semantix Ordinary Shares in the open market or in privately negotiated transactions, which could have the effect of increasing the volatility in New Semantix's share price or putting significant downward pressure on the price of the New Semantix Ordinary Shares. See *"Shares Eligible for Future Sale."*

New Semantix shareholders may experience dilution due to the issuance of Semantix Earn-Out Shares following the consummation of the Business Combination.

Certain Semantix shareholders are entitled to Semantix Earn-Out Shares, consisting of up to an additional 2,500,000 newly issued New Semantix Ordinary Shares to be issued in two equal 1,250,000 tranches based on the achievement of closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date.

To the extent the conditions to the issuance of the Semantix Earn-Out Shares are satisfied, additional New Semantix Ordinary Shares will be issued, which will result in dilution to the holders of New Semantix Ordinary Shares and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market or the fact that the Semantix Earn-Out Shares may be issued could adversely affect the market price of New Semantix Ordinary Shares. In addition, such dilution could, among other things, limit the ability of Alpha shareholders to influence the management of New Semantix through the election of directors following the Business Combination. However, there can be no assurance the conditions to the issuance of the Semantix Earn-Out Shares will be satisfied by the fifth anniversary of the Closing Date, and as such, the right to receive the Semantix Earn-Out Shares may be forfeited. For additional information on dilution scenarios, see *"Summary of the Proxy Statement/Prospectus—Ownership of New Semantix Upon Completion of the Business Combination."*

Future issuances of any equity securities may dilute the interests of Alpha shareholders and decrease the trading price of New Semantix Ordinary Shares.

Any future issuance of equity securities could dilute the interests of Alpha shareholders and could substantially decrease the trading price of New Semantix Ordinary Shares. New Semantix may issue equity or equity-linked securities in connection with the Business Combination or in the future, including pursuant to the PIPE Financing, or other offering of equity securities, for a number of reasons, including to finance New Semantix's operations and business strategy (including in connection with acquisitions and other transactions), to adjust New Semantix's ratio of debt to equity, to satisfy its obligations upon the exercise of then-outstanding options or other equity-linked securities, if any, or for other reasons.

Alpha shareholders will have a reduced ownership and voting interest after consummation of the Business Combination and will exercise less influence over management.

After the completion of the Business Combination, Alpha shareholders will own a smaller percentage of New Semantix than they currently own of Alpha. Upon completion of the Business Combination, it is anticipated that Alpha shareholders will own approximately 28.7% of the New Semantix Ordinary Shares issued and outstanding immediately after the consummation of the Business Combination, assuming no redemption of the Alpha Shares. Consequently, Alpha shareholders, as a group, will have reduced ownership and voting power in New Semantix compared to their ownership and voting power in Alpha. For additional information on dilution scenarios, see *"Summary of the Proxy Statement/Prospectus—Ownership of New Semantix Upon Completion of the Business Combination."*

A market for New Semantix Ordinary Shares may not develop, which would adversely affect the liquidity and price of New Semantix Ordinary Shares.

An active trading market for New Semantix Ordinary Shares may never develop or, if developed, it may not be sustained. You may be unable to sell your New Semantix Ordinary Shares unless a market can be established

and sustained. This risk will be exacerbated if there is a high level of redemptions of Alpha public shares in connection with the Closing of the Business Combination.

You may face difficulties in protecting your interests, and your ability to protect your rights through U.S. courts may be limited, because New Semantix is incorporated under the laws of the Cayman Islands, New Semantix conducts substantially all of its operations, and a majority of its directors and executive officers reside, outside of the United States.

New Semantix is an exempted company limited by shares incorporated under the laws of the Cayman Islands, and following the Business Combination, will conduct a majority of its operations through its subsidiary, Semantix, outside the United States. Substantially all of New Semantix's assets are located outside the United States, primarily in Brazil. A majority of New Semantix's officers and directors reside outside the United States and a substantial portion of the assets of those persons are located outside of the United States. As a result, it could be difficult or impossible for you to bring an action against New Semantix or against these individuals outside of the United States in the event that you believe that your rights have been infringed upon under the applicable securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands and of the jurisdictions that comprise the Latin American region could render you unable to enforce a judgment against New Semantix's assets or the assets of New Semantix's directors and officers.

New Semantix's corporate affairs are governed by its Articles, the Companies Act (As Revised) of the Cayman Islands and the common law of the Cayman Islands. The rights of shareholders to take action against New Semantix's directors, actions by minority shareholders and the fiduciary responsibilities of New Semantix's directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as that from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands. The rights of New Semantix's shareholders and the fiduciary responsibilities of New Semantix's directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less exhaustive body of securities laws than the United States. In addition, some U.S. states, such as Delaware, have more fulsome and judicially interpreted bodies of corporate law than the Cayman Islands.

As a result of all of the above, shareholders of New Semantix may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as shareholders of a corporation incorporated in a jurisdiction in the United States.

While Cayman Islands law allows a dissenting shareholder to express the shareholder's view that a court sanctioned reorganization of a Cayman Islands company would not provide fair value for the shareholder's shares, Cayman Islands statutory law does not specifically provide for shareholder appraisal rights in connection with a court sanctioned reorganization (by way of a scheme of arrangement). This may make it more difficult for you to assess the value of any consideration you may receive in a merger or consolidation (by way of a scheme of arrangement) or to require that the acquirer gives you additional consideration if you believe the consideration offered is insufficient. However, Cayman Islands statutory law provides a mechanism for a dissenting shareholder in a merger or consolidation that does not take place by way of a scheme of arrangement to apply to the Grand Court of the Cayman Islands for a determination of the fair value of the dissenter's shares if it is not possible for the company and the dissenter to agree on a fair price within the time limits prescribed.

Shareholders of Cayman Islands exempted companies (such as New Semantix) have no general rights under Cayman Islands law to inspect corporate records and accounts or to obtain copies of lists of shareholders. New Semantix's directors have discretion under its Articles to determine whether or not, and under what conditions, New Semantix's corporate records may be inspected by New Semantix's shareholders, but are not obliged to make them available to New Semantix's shareholders. This may make it more difficult for you to obtain information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.

Subject to limited exceptions, under Cayman Islands law, a minority shareholder may not bring a derivative action against the board of directors. Class actions are not recognized in the Cayman Islands, but groups of shareholders with identical interests may bring representative proceedings, which are similar.

It is not expected that New Semantix will pay dividends in the foreseeable future after the Business Combination.

It is expected that New Semantix will retain most, if not all, of its available funds and any future earnings after the Business Combination to fund the development and growth of its business. As a result, it is not expected that New Semantix will pay any cash dividends in the foreseeable future.

Following completion of the Business Combination, New Semantix's board of directors will have complete discretion as to whether to distribute dividends. Even if the board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on the future results of operations and cash flow, capital requirements and surplus, the amount of distributions, if any, received by New Semantix from subsidiaries, New Semantix's financial condition, contractual restrictions and other factors deemed relevant by the board of directors. There is no guarantee that the New Semantix Ordinary Shares will appreciate in value after the Business Combination or that the trading price of the New Semantix Ordinary Shares will not decline.

Semantix has granted in the past, and New Semantix will also grant in the future, share incentives, which may result in increased share-based compensation expenses.

Prior to the consummation of the Business Combination, the board of directors of New Semantix will adopt, and the New Semantix shareholders will approve, the 2022 Plan, with effectiveness contingent on the consummation of the Business Combination, which will exist concurrently with the New Semantix Legacy Plan until the expiration of the New Semantix Legacy Plan. Initially, the maximum number of ordinary shares of New Semantix that may be issued under the 2022 Plan after it becomes effective will have an initial share reserve equal to approximately ten percent (10%) of the total number of New Semantix Ordinary Shares that are outstanding (on a fully diluted basis) upon consummation of the Business Combination. Moreover, in connection with the Business Combination, all outstanding Unvested Semantix Options at the time of consummation of the Business Combination will be converted into unvested options for New Semantix Ordinary Shares under the New Semantix Legacy Plan, which is expected to total 6,880 options exercisable for New Semantix Ordinary Shares, with an amount and value determined in accordance with the Exchange Ratio. New Semantix will account for compensation costs for all share options using a fair-value based method and recognize expenses in its consolidated statements of profit or loss in accordance with IFRS. As a result of these grants, Semantix incurred share-based compensation of R\$1.8 million in 2020 and R\$7.8 million in 2021. For more information on the share incentive plans, see "Executive Compensation."

Semantix believes the granting of share-based compensation is of significant importance to its ability to attract and retain key personnel and employees, and as such, after the consummation of the Business Combination, New Semantix will also grant share-based compensation and incur share-based compensation expenses. As a result, expenses associated with share-based compensation may increase, which may have an adverse effect on Semantix and New Semantix's business and results of operations.

If the New Semantix Ordinary Shares or the New Semantix Warrants are not eligible for deposit and clearing within the facilities of the Depository Trust Company, then transactions in the New Semantix Ordinary Shares or the New Semantix Warrants may be disrupted.

The facilities of the Depository Trust Company ("DTC") are a widely used mechanism that allow for rapid electronic transfers of securities between the participants in the DTC system, which include many large banks and brokerage firms. New Semantix expects that New Semantix Ordinary Shares or the New Semantix Warrants will be eligible for deposit and clearing within the DTC system. New Semantix expects to enter into

arrangements with DTC whereby it will agree to indemnify DTC for stamp duty that may be assessed upon it as a result of its service as a depository and clearing agency for the New Semantix Ordinary Shares or the New Semantix Warrants. New Semantix expects these actions, among others, will result in DTC agreeing to accept the New Semantix Ordinary Shares or the New Semantix Warrants for deposit and clearing within its facilities.

DTC is not obligated to accept New Semantix Ordinary Shares or the New Semantix Warrants for deposit and clearing within its facilities in connection with the listing and, even if DTC does initially accept New Semantix Ordinary Shares or the New Semantix Warrants, it will generally have discretion to cease to act as a depository and clearing agency for New Semantix Ordinary Shares or the New Semantix Warrants.

If DTC determines at any time after the completion of the transactions and the listing that the New Semantix Ordinary Shares or the New Semantix Warrants were not eligible for continued deposit and clearance within its facilities, then New Semantix believes the New Semantix Ordinary Shares or the New Semantix Warrants would not be eligible for continued listing on a U.S. securities exchange and trading in the shares would be disrupted. While New Semantix would pursue alternative arrangements to preserve its listing and maintain trading, any such disruption could have a material adverse effect on the market price of the New Semantix Ordinary Shares or the New Semantix Warrants.

The listing of New Semantix securities on Nasdaq will not benefit from the process undertaken in connection with an underwritten initial public offering.

Upon the Closing, we intend to apply to continue the listing of the New Semantix Ordinary Shares and warrants on the Nasdaq under the symbols “STIX” and “STIXW,” respectively. Unlike an underwritten initial public offering of the Alpha securities, the initial listing of New Semantix’s securities as a result of the Business Combination will not benefit from the following:

- the book-building process undertaken by underwriters that helps to inform efficient price discovery with respect to opening trades of newly listed securities;
- underwriter support to help stabilize, maintain or affect the public price of the new issue immediately after listing; and
- underwriter due diligence review of the offering and potential liability for material misstatements or omissions of fact in a prospectus used in connection with the securities being offered or for statements made by its securities analysts or other personnel.

The lack of such a process in connection with the listing of Alpha’s securities could result in diminished investor demand, inefficiencies in pricing and a more volatile public price for New Semantix’s securities during the period immediately following the listing than in connection with an underwritten initial public offering.

Risks Related to Alpha and the Business Combination

For purposes of this subsection only, “we,” “us” or “our” refer to Alpha, unless the context otherwise requires.

Our Sponsor, officers and directors, and one of our Sponsor’s affiliates, have agreed to vote in favor the Business Combination, regardless of how our public shareholders vote.

Unlike other blank check companies in which the initial shareholders agree to vote their Founder Shares in accordance with the majority of the votes cast by the public shareholders in connection with an initial business combination, our Sponsor, officers and directors and one of our Sponsor’s affiliates have agreed (and their permitted transferees will agree), pursuant to the terms of a letter agreement entered into with us, to vote any Founder Shares, placement shares or public shares held by them, in favor of the Business Combination. Our Sponsor owns approximately 20% of Alpha’s issued and outstanding ordinary shares as of the record date for the extraordinary general meeting. As a result, in addition to our initial shareholders’ ordinary shares, we would need

only 8,625,001, or 37.5%, of the 23,000,000 public shares outstanding as of the record date to be voted in favor of the Business Combination Proposal (assuming all outstanding shares are voted) in order to have the Business Combination approved. Further, Innova, a shareholder of Alpha and affiliate of our Sponsor which owns 2,300,000 Alpha Class A Ordinary Shares, has agreed pursuant to the Shareholder Non-Redemption Agreement to, among other things, vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of our shareholders is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such shareholder holds of record or beneficially. As of the date of the accompanying proxy statement/prospectus, our Sponsor and Sponsor's affiliates subject to the voting obligations under the Sponsor Letter Agreement and the Shareholder Non-Redemption Agreement, respectively, collectively own approximately 28.0% of the issued and outstanding Alpha Ordinary Shares. Assuming only a majority of all the Alpha Ordinary Shares entitled to vote at the meeting are represented at the extraordinary general meeting or by proxy, including the Sponsor and Sponsor's affiliates subject to the voting obligations under the Sponsor Letter Agreement and the Shareholders Non-Redemption Agreement, (i) 7,187,502 Alpha Ordinary Shares will need to be voted in favor of the Business Combination Proposal and the Adjournment Proposal (which require the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting), thus we would not need any additional of the issued and outstanding Alpha Ordinary Shares not held by the Sponsor or Sponsor's affiliates to be voted in favor of the Business Combination Proposal and the Adjournment Proposal and (ii) 9,583,335 Alpha Ordinary Shares will need to be voted in favor of the Merger Proposal and the Governing Documents Proposals (which require the affirmative vote of holders of a majority of at least a two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting), and of these 9,583,335 Alpha Ordinary Shares, 1,533,335 of the Alpha Ordinary Shares not held by the Sponsor or Sponsor's affiliates, which represents 5.3% of the total issued and outstanding Alpha Ordinary Shares, need to be voted in favor to approve the Merger Proposal and the Governing Documents Proposals. Assuming all the Alpha Ordinary Shares entitled to vote at the meeting are represented at the extraordinary general meeting or by proxy, including the Sponsor and Sponsor's affiliates subject to the voting obligations under the Sponsor Letter Agreement and the Shareholders Non-Redemption Agreement, (i) 14,375,001 Alpha Ordinary Shares will need to be voted in favor of the Business Combination Proposal and the Adjournment Proposal (which require the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting), and of these 14,375,001 Alpha Ordinary Shares, 6,325,001 of the Alpha Ordinary Shares not held by the Sponsor or Sponsor's affiliates, which represents 22.0% of the total issued and outstanding Alpha Ordinary Shares, need to be voted in favor to approve the Business Combination Proposal and the Adjournment Proposal, and (ii) 19,166,668 Alpha Ordinary Shares will need to be voted in favor of the Merger Proposal and the Governing Documents Proposals (which require the affirmative vote of holders of a majority of at least a two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting), and of these 19,166,668 Alpha Ordinary Shares, 11,116,668 of the Alpha Ordinary Shares not held by the Sponsor or Sponsor's affiliates, which represents 38.7% of the total issued and outstanding Alpha Ordinary Shares, need to be voted in favor to approve the Merger Proposal and the Governing Documents Proposals. Accordingly, it is more likely that the necessary shareholder approval will be received than would be the case if such persons agreed to vote their ordinary shares in accordance with the majority of the votes cast by Alpha's public shareholders.

Subsequent to the completion of the Business Combination, New Semantix may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on New Semantix's financial condition, results of operations and stock price, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on Semantix, we cannot assure you that this diligence will surface all material issues that may be present inside Semantix, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of Semantix's business and outside of

our control will not later arise. As a result of these factors, New Semantix may be forced to later write-down or write-off assets, restructure its operations, or incur impairment or other charges that could result in New Semantix reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on New Semantix's liquidity, the fact that charges of this nature are reported, could contribute to negative market perceptions about New Semantix or New Semantix's securities. In addition, charges of this nature may cause New Semantix to violate net worth or other covenants to which it may be subject as a result of assuming pre-existing debt held by a Semantix or by virtue of post-combination debt financing. Accordingly, any shareholders who choose to remain shareholders following the Business Combination could suffer a reduction in the value of their shares. Such shareholders are unlikely to have a remedy for such reduction in value.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to complete our initial business combination and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, following the conclusion of the Business Combination, we will be required to comply with certain SEC and other legal requirements as a public company. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to complete our initial business combination and results of operations.

On March 30, 2022, the SEC issued proposed rules relating to, among other items, enhancing disclosure in business combination transactions involving SPACs and private operating companies; amending the financial statement requirements applicable to transactions involving shell companies; limiting the use of projections in SEC filings in connection with proposed business combination transactions; increasing the potential liability of certain participants in proposed business combination transactions; and the extent to which SPACs could become subject to regulation under the Investment Company Act of 1940. These rules, if adopted, whether in the form proposed or in revised form, may materially adversely affect our ability to complete our initial business combination and may increase the costs and time related thereto.

Our ability to consummate the Business Combination, may be materially adversely affected by the recent coronavirus (COVID-19) outbreak and the status of debt and equity markets.

In late 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which has and is continuing to spread throughout the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of COVID-19 a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic". The COVID-19 outbreak has and a significant outbreak of other infectious diseases could result in a widespread health crisis that could adversely affect the economies and financial markets worldwide, and our ability to consummate the Business Combination could be materially and adversely affected. Furthermore, we may be unable to complete the Business Combination if continued concerns relating to COVID-19 continue to restrict travel, limit the ability to have meetings with potential investors, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner. The extent to which COVID-19 impacts Alpha's ability to consummate the Business Combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning new strains of COVID-19 and the severity of the actions to contain COVID-19 or treat its impact, particularly the effectiveness and distribution of one or more vaccines, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extensive period of time, Alpha's ability to consummate

the Business Combination, or the operations of the Semantix business with which we ultimately consummate the Business Combination, may be materially adversely affected.

Citi and BofA Securities were to be compensated in part on a deferred basis for already-rendered services in connection with Alpha's IPO, and Credit Suisse, Semantix's financial advisor was to be compensated for advisory services provided to Semantix in connection with the Business Combination. However, Citi, BofA Securities and Credit Suisse gratuitously and without any consideration from Alpha or Semantix waived such compensation and disclaimed any responsibility for this proxy statement / prospectus.

On May 13, 2022, Alpha received notice from BofA Securities, one of the underwriters in its IPO, resigning as underwriter and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha's IPO in the amount of \$3,461,500, and on June 3, 2022, Alpha received from BofA Securities a formal letter confirming its resignation and waiver of fees. On May 18, 2022, Alpha received notice from Citi, the other underwriter in its IPO, resigning as underwriter and capital markets advisor and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha's IPO in the amount of \$4,588,500, and on May 19, 2022, Alpha received from Citi a formal letter confirming its resignation and waiver of fees. Under Citi's capital markets advisory agreement, Alpha had engaged Citi to advise on the structure, negotiation strategy, valuation analyses, financial terms, investor meetings and presentations and other matters relating to the Business Combination, and the capital markets advisory agreement did not provide for any fees to be paid by Alpha to Citi in connection with such services. On May 26, 2022, Semantix received notice from Credit Suisse, its financial advisor in connection with the Business Combination, resigning as advisor to Semantix and waiving all right to fees under its financial advisory agreement with Semantix, and on June 1, 2022, Semantix received from Credit Suisse a formal letter confirming its resignation and waiver of fees. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. The Advisors did not otherwise communicate to Alpha or Semantix the reasons leading to their resignation and waiver of their fees after doing substantially all of the work to earn their fees. There is no dispute among any of Semantix, the Advisors or Alpha with respect to the Advisors' capital markets advisory or financial advisory services or their resignation.

The underwriting fees were agreed between Alpha and the underwriters in the IPO underwriting agreement signed by the parties on February 18, 2021, and were earned in full upon completion of the IPO but payment was conditioned upon closing of Alpha's business combination. The financial advisory fees due to Credit Suisse were agreed between Semantix and Credit Suisse in an engagement letter dated December 22, 2020 and corresponded to 1.75% of the amount to be received by New Semantix in connection with the Business Combination upon Closing. BofA Securities, Citi and Credit Suisse provided a waiver to receive such fees on a gratuitous basis without any consideration to BofA Securities, Citi or Credit Suisse from Alpha or Semantix. BofA Securities informed Alpha that, since they were not mandated in any capacity in connection with the proposed Business Combination with Semantix and had not done any diligence in respect of Semantix, they were waiving their fee. BofA Securities did not give Alpha any further reasons for the waiver of its fee. Citi informed Alpha that, since they were not mandated in any other capacity in connection with the proposed Business Combination with Semantix beyond their unremunerated capital markets engagement, they were waiving their entitlement to the payment of any fees, including its portion of the deferred underwriting fee from its participation in Alpha's IPO, and cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fee. Credit Suisse did not provide Semantix any specific reasons for the waiver of its fee and suspended all advisory work in connection with the Business Combination upon resignation. Prior to its withdrawal, Credit Suisse performed the following services: (i) facilitated outreach to potential business combination counterparties, including Alpha, (ii) provided financial advice to Semantix in considering its strategic alternatives, (iii) assisted Semantix's management by organizing and providing the Industry Materials in furtherance of Semantix's management's preparation of the disclosure included in this proxy statement/prospectus, including the Projections that were fully prepared by Semantix's management based on its own estimates and assumptions, (iv) supported the preparation of the PIPE presentation and the analyst presentation, at the direction of Semantix's

management to reflect the Industry Materials and (v) participated in discussions and provided advice to Semantix as to the structuring and terms of the Business Combination. In each case, Semantix's management considered Credit Suisse's input based on its expertise and experience as an investment bank with coverage in the industries and geographies that Semantix operates, but Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the Projections. Additionally, in connection with the Business Combination, representatives of Credit Suisse, with respect to Semantix, and Citi, with respect to Alpha, in their respective roles as financial advisor and capital markets advisor, helped to facilitate the overall transaction execution process through (i) the convening of meetings and telephone and video conferences that were attended by representatives of Alpha, Semantix and their respective advisors and (ii) organizing and processing publicly available market data with respect to sector-specific comparable companies. None of the Advisors has received any fees pursuant to their respective engagement letters or the Underwriting Agreement, other than \$4,600,000 in underwriting fees paid, in the aggregate, by Alpha to Citi and BofA Securities upon the consummation of Alpha's IPO. While BofA Securities did not participate in any aspect of the Business Combination, and Alpha has no other contractual relationship with BofA Securities or Citi and Semantix has no other contractual relationship with Credit Suisse, investors should be aware that the waiver of a deferred underwriting fee or a financial advisor fee is unusual and some investors may find the Business Combination less attractive as a result. This may make it more difficult for Alpha to complete the Business Combination. For additional information, see *"Proposals to be Considered by Alpha's Shareholders Business Combination—Resignation of Underwriters and Capital Markets and Financial Advisors."*

The resignation of Alpha's and Semantix's capital markets and financial advisors may indicate that they may be unwilling to be associated with the disclosure in this proxy statement/prospectus or the underlying business analysis related to the transaction.

The Advisors did not prepare or provide any of the disclosure in the prospectus/proxy statement or any other materials that have been provided to Alpha's shareholders, the Alpha Board or the PIPE Investors, or any analysis underlying such materials, except that Credit Suisse assisted Semantix's management by organizing and providing the Industry Materials in furtherance of Semantix's management's preparation of the disclosure included in this proxy statement/prospectus, including the Projections that were fully prepared by Semantix's management based on its own estimates and assumptions, and supported the preparation of the PIPE presentation and the analyst presentation, at the direction of Semantix's management, to reflect the Industry Materials. In each case, Semantix's management considered Credit Suisse's input based on its expertise and experience as an investment bank with coverage in the industries and geographies that Semantix operates, but Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the Projections. None of Credit Suisse or any of its affiliates has informed Semantix or Alpha that it is in disagreement with the Industry Materials previously provided (upon which Semantix's management conducted its own independent analysis and made its own conclusions) or, to the knowledge of Alpha or Semantix, the PIPE Investors of any such disagreement. Accordingly, Alpha and Semantix have no reason to believe that the resignation by Credit Suisse signifies that the Industry Materials provided by Credit Suisse to Semantix are no longer reliable, and Semantix's management's independent analysis and conclusions in relation to the Industry Materials have also not changed as a result of Credit Suisse's resignation. However, in Credit Suisse's termination letter, it has, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, disclaimed responsibility for any portion of this proxy statement/prospectus.

In addition, as with all other members of the transaction working group, the Advisors did receive drafts of this prospectus/proxy statement prepared by Alpha and Semantix and provided limited comments in the ordinary course. Additionally, in verbal conversations that Alpha and Semantix have engaged in with the Advisors subsequent to their resignation, Alpha and Semantix, as the case may be, have been advised by the Advisors that,

given that they are no longer engaged in any capacity by Alpha or Semantix, they do not intend to review any disclosure in this proxy statement/prospectus pertaining to their roles and resignation. Alpha and Semantix provided such disclosure to their respective Advisors and requested confirmation that they agree with the disclosure. Following delivery of the disclosure to the Advisors, they have either stated that they do not intend to review the disclosure or have not responded to such request. There can be no assurances that Advisors agree with this disclosure and no inference can be drawn to this effect. Shareholders should not put any reliance on the fact that one or more of the Advisors were previously involved with any aspect of the transactions described in this prospectus/proxy statement.

Neither Alpha nor Semantix relied on their respective capital markets or financial advisors for the preparation or analysis of any materials, provided to the Alpha Board, including the Projections, for use as a component of its overall evaluation of Semantix notwithstanding the Industry Materials provided by Credit Suisse to Semantix upon which Semantix's management conducted its own independent analysis and made its own conclusions. The Advisors have resigned from their engagements, as the case may be, as underwriters, capital markets advisors and financial advisors to Alpha and Semantix and have disclaimed any responsibility for the contents of this proxy statement/prospectus.

In connection with such resignations, the Advisors waived their rights to any fees owed to them, all of which fees related to services that had already been rendered. Such a resignation and fee waiver for services already rendered is unusual. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. While the Advisors did not otherwise provide any additional detail in their resignation letters either to Alpha and Semantix or to the Securities and Exchange Commission, such resignation may be an indication by such Advisors that such firms do not want to be associated with the disclosure in this proxy statement/prospectus or the underlying business analysis related to the transaction. However, neither Semantix nor Alpha will speculate about the reasons why the Advisors withdrew from their roles as capital markets advisors, financial advisors and underwriters, as the case may be, in connection with the Business Combination and forfeited their fees after doing substantially all the work to earn their fees. Accordingly, shareholders should not place any reliance on the fact that the Advisors have been previously involved with this transaction. For additional information, see “*Proposals to be Considered by Alpha's Shareholders Business Combination—Resignation of Underwriters and Capital Markets and Financial Advisors.*”

Litigation or legal proceedings could expose any of Alpha, Semantix and, following the consummation of the Business Combination, New Semantix, to significant liabilities and have a negative impact on Alpha's, Semantix's or New Semantix's respective reputations or business, as applicable.

Each of Alpha, Semantix and, following the consummation of the Business Combination, New Semantix, may become subject to claims, litigation, disputes and other legal proceedings from time to time. Alpha, Semantix and New Semantix, as the case may be, shall evaluate these claims, litigation, disputes and other legal proceedings to assess the likelihood of unfavorable outcomes and to estimate, if possible, the amount of potential losses. Based on these assessments and estimates, Alpha, Semantix and, following the consummation of the Business Combination, New Semantix may establish reserves, as appropriate. These assessments and estimates are based on the information available to each management team at the time of its respective assessment and involve a significant amount of management judgment. Actual outcomes or losses may differ materially from our assessments and estimates.

Under the terms of Alpha's capital markets advisory agreement with Citi and its Underwriting Agreement with Citi and BofA Securities, Alpha agreed to indemnify and hold harmless each of the respective Advisors, their affiliates and each of their respective directors, officers, agents and employees from and against any losses and claims arising in any manner out of or in connection with the services provided to Alpha thereunder. Under the terms of Semantix's financial advisory agreement with Credit Suisse, Semantix agreed to indemnify and hold harmless Credit Suisse, its affiliates and their respective employees, officers and personnel from and against any

losses and claims arising in any manner out of or in connection with the services provided to Semantix thereunder. Accordingly, if any claims, litigation, disputes or other legal proceedings are brought by third parties against any of the Advisors in relation to the services it provided to Alpha or Semantix under any of these agreements, then Alpha or Semantix, respectively, may be liable to pay for or reimburse such Advisor or Advisors for the losses and costs it incurs unless the losses and costs are finally judicially determined to have resulted from the gross negligence, bad faith or willful misconduct of such Advisor or Advisors or their respective directors, officers, employees, personnel and agents. Further, each of the agreements described above contains a contribution provision in the event that such indemnification is unavailable or otherwise prohibited by law, however, the contribution obligations of each Advisor are limited to the amount of compensation or fees actually paid to such party in respect of the engagement. As a result, the contribution obligations of Citi and BofA Securities under the Underwriting Agreement are limited to the \$4,600,000 in underwriting fees paid, in the aggregate, by Alpha to Citi and BofA Securities upon the consummation of Alpha's IPO, and the Advisors otherwise have no further contribution liability under the other engagements (including the Underwriting Agreement) because they waived their rights to any fees or deferred underwriting commissions in connection with their resignations. Therefore, as a result of the Advisors' resignations, and in contrast to other transactions where the underwriters and financial advisors did not resign and waive rights to fees or deferred underwriting commissions, as the case may be, the potential financial liability of Alpha and Semantix with respect to an indemnified loss where such indemnification is otherwise unavailable to the indemnified party may be higher under the respective agreements than it would have been had such underwriters and financial advisors not resigned and waived their rights to any fees or deferred underwriting commissions.

If such losses and claims are brought following the consummation of the Business Combination, then New Semantix may be exposed to similar liabilities and negative impact. Even when not merited or whether or not Alpha, Semantix or New Semantix, as applicable, ultimately prevails, the defense of these lawsuits may divert management's attention, and Alpha, Semantix or New Semantix, as applicable, may incur significant expenses in defending these lawsuits. The results of litigation and other legal proceedings are inherently uncertain, and adverse judgments or settlements in some of these legal disputes may result in adverse monetary damages, penalties or injunctive relief against any of Alpha, Semantix, and, following the consummation of the Business Combination, New Semantix, which could negatively impact any their respective financial positions, cash flows or results of operations. An unfavorable outcome of any legal dispute following the consummation of the Business Combination could imply that New Semantix becomes liable for damages or may have to modify its business model. Further, any liability or negligence claim against New Semantix in US courts may, if successful, result in damages being awarded that contain punitive elements and therefore may significantly exceed the loss or damage suffered by the successful claimant. Any claims or litigation, even if fully indemnified or insured, could damage the reputation of Alpha, Semantix or New Semantix, as applicable, and make it more difficult to compete effectively or to obtain adequate insurance in the future. A settlement or an unfavorable outcome in a legal dispute could have an adverse effect on New Semantix's business, financial condition, results of operations, cash flows and/or prospects.

Furthermore, while Alpha and Semantix maintain and, following the consummation of the Business Combination, New Semantix will maintain, insurance for certain potential liabilities, such insurance does not cover all types and amounts of potential liabilities and is subject to various exclusions as well as caps on amounts recoverable. Even if Alpha, Semantix or New Semantix, as applicable, believes a claim is covered by insurance, insurers may dispute its entitlement to recovery for a variety of potential reasons, which may affect the timing and, if the insurers prevail, the amount of recovery.

We have not obtained an opinion from an independent investment banking firm or any other independent third party, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our shareholders from a financial point of view.

Since the Business Combination is not with an affiliated entity, we are not required to obtain an opinion from an independent investment banking firm or another independent firm that commonly renders valuation opinions for the type of company we are seeking to acquire or from any other independent third party that the price we are paying for a target is fair to our shareholders from a financial point of view, unless the Alpha Board cannot independently determine the fair market value of the target business or businesses. Since no opinion has been obtained, our shareholders are relying on the judgment of the Alpha Board, who determined fair market value based on standards generally accepted by the financial community.

We note that Citi, in its capacity as Alpha's capital markets advisor, and Credit Suisse, in its role as Semantix's financial advisor, respectively, have resigned from their engagements in connection with the Business Combination. Prior to their resignation, no Advisor provided any valuation analysis of Semantix or an opinion in connection with the Business Combination. Shareholders should not place any reliance on the fact that Alpha's and Semantix's advisors were previously involved with the transaction. Shareholders should be aware that the resignation of the Advisors indicates that the Advisors do not want to be associated with the disclosure in this proxy statement/prospectus or the transactions contemplated hereby, and shareholders should not place any reliance on the participation of the Advisors prior to such resignation in the transactions contemplated by this proxy statement/prospectus. See "Summary—Recent Developments".

In evaluating the target business for our Business Combination, our management has relied on the availability of all of the funds from the sale of the shares to the PIPE Investors in connection with the Business Combination. If the sale of some or all of the shares to PIPE Investors fails to close, we may lack sufficient funds to consummate the business combination.

In connection with the entry into the Business Combination, we entered into the Subscription Agreements pursuant to which the PIPE Investors agreed to purchase an aggregate of 9,364,500 Alpha Class A Ordinary Shares (which such shares will convert to New Semantix Ordinary Shares in connection with the Business Combination) for a purchase price of \$10.00 per share, or \$93,645,000 in the aggregate, in a private placement to close immediately prior to our Business Combination. The funds from the PIPE Investment may be used as part of the expenses in connection with the Business Combination or for working capital in New Semantix post-closing. The obligations under the Subscription Agreements do not depend on whether any public shareholders elect to redeem their shares and provide us with a minimum funding level for the business combination. However, if the sales of the shares to the PIPE Investors do not close for any reason, including by reason of the failure by some or all of the PIPE Investors, as applicable, to fund the purchase price for their respective subscription shares, for example, we may lack sufficient funds to consummate the Business Combination. The PIPE Investors' obligations to purchase the subscription shares are subject to fulfillment of customary closing conditions. The PIPE Investors' obligations to purchase the shares pursuant to the Subscription Agreements are subject to termination prior to the closing of the sale of such subscription shares automatically upon termination of the Business Combination Agreement. In the event of any such failure to fund by a PIPE Investor, any obligation is so terminated or any such condition is not satisfied and not waived by such PIPE Investor, we may not be able to obtain additional funds to account for such shortfall on terms favorable to us or at all. Any such shortfall may also reduce the amount of funds that we have available for working capital of New Semantix post-Business Combination.

Our shareholders will experience immediate dilution due to the issuance of ordinary shares to the Semantix shareholders as consideration in the Business Combination. Having a minority share position likely reduces the influence that our current shareholders have on the management of New Semantix.

Based on Semantix's current capitalization, we anticipate New Semantix issuing (or reserving for issuance) an aggregate of 62,000,000 ordinary shares, subject to adjustment, to the Semantix shareholders as consideration in the Business Combination. It is anticipated that, upon completion of the Business Combination, assuming no

redemptions: (1) Alpha's public shareholders (other than Innova) will own approximately 20.7% of New Semantix's outstanding ordinary shares; (2) the PIPE Investors (other than Semantix shareholders and the Sponsor's affiliates (consisting of certain entities affiliated with Alec Oxenford and Rafael Steinhauser)) will own approximately 3.2% of New Semantix's outstanding ordinary shares; (3) the Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) will own approximately 8.1% of New Semantix's outstanding ordinary shares; and (4) the current shareholders of Semantix will own approximately 68.1% of New Semantix's outstanding ordinary shares. In addition, the ownership percentage with respect to the post-Business Combination company does not take into account:

- warrants to purchase ordinary shares that will remain outstanding immediately following the Business Combination;
- the issuance of any shares upon completion of the Business Combination upon rollover of the Unvested Semantix Options; or
- the issuance of any shares upon completion of the Business Combination under the 2022 Plan (see the section entitled "*Executive Compensation—Share Incentive Plans*" for more information).

However, these ownership percentages include Founder Shares, which will automatically convert into New Semantix Ordinary Shares on a one-for-one basis upon the consummation of the Business Combination (a portion of such ordinary shares will be subject to vesting conditions).

If any of the Alpha Ordinary Shares are redeemed in connection with the Business Combination, the percentage of our outstanding ordinary shares held by our public shareholders will decrease and the percentages of our outstanding ordinary shares held immediately following the Closing of the Business Combination by each of our initial shareholders and the Semantix shareholders will increase. See the section entitled "*Unaudited Pro Forma Condensed Combined Financial Information*" for further information. To the extent that any of the outstanding warrants or options are exercised for New Semantix Ordinary Shares, or awards are issued under the 2022 Plan, our existing shareholders may experience substantial dilution. Such dilution could, among other things, limit the ability of our current shareholders to influence the management of New Semantix through the election of directors following the Business Combination.

Alpha may be deemed a "foreign person" under the regulations relating to the Committee on Foreign Investment in the United States ("CFIUS") and its failure to obtain any required approvals within the requisite time period may require Alpha to liquidate.

Sponsor and Innova are, are controlled by, and have substantial ties with non-U.S. persons, but Alpha does not believe that any of the facts or relationships with respect to the Business Combination would subject the proposed Business Combination to regulatory review by a U.S. government entity or authority, including review by CFIUS. Nor does Alpha believe that if such a review were conceivable that the Business Combination ultimately would be prohibited.

However, if the Business Combination were to become subject to CFIUS review, CFIUS could decide to block or delay the Business Combination, impose conditions with respect to the Business Combination or request the President of the United States to order Alpha to divest all or a portion of any U.S. target business of the Business Combination that Alpha acquired without first obtaining CFIUS approval. The time required for CFIUS to conduct its review and any remedy imposed by CFIUS could prevent Alpha from completing its initial business combination and require Alpha to liquidate. In that case, Alpha would as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any), subject to applicable law. Moreover, investors would lose the investment opportunity in a target company, any price appreciation in the combined companies, and the warrants would expire worthless.

For so long as Sponsor retains a material ownership interest in Alpha, we may be deemed a “foreign person” under the regulations relating to CFIUS. As such, an initial business combination with a U.S. business or foreign business with U.S. subsidiaries that Alpha may wish to pursue may be subject to CFIUS review. If a particular proposed initial business combination with a U.S. business falls within CFIUS’s jurisdiction, Alpha may determine that it is required to make a mandatory filing or that it will submit to CFIUS review on a voluntary basis, or to proceed with the transaction without submitting to CFIUS and risk CFIUS intervention, before or after closing the transaction. CFIUS may decide to block or delay Alpha’s proposed initial business combination, impose conditions with respect to such initial business combination or request the President of the United States to order Alpha to divest all or a portion of the U.S. target business of its initial business combination that Alpha acquired without first obtaining CFIUS approval, which may limit the attractiveness of, delay or prevent Alpha from pursuing certain target companies that Alpha believes would otherwise be beneficial to us and our shareholders. In addition, certain federally licensed businesses may be subject to rules or regulations that limit foreign ownership.

The process of government review, whether by CFIUS or otherwise, could be lengthy. Because Alpha has only a limited time to complete its initial business combination, its failure to obtain any required approvals within the requisite time period may require Alpha to liquidate. If Alpha is unable to consummate its initial business combination by February 23, 2023, including as a result of extended regulatory review of a potential initial business combination, Alpha will, as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding public shares, which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidation distributions, if any), subject to applicable law. In such event, Alpha’s shareholders will miss the opportunity to benefit from an investment in a target company and the appreciation in value of such investment. Additionally, the warrants will be worthless.

The SPAC Mergers may be a taxable event for U.S. Holders of Alpha Class A Ordinary Shares or Alpha Warrants.

As discussed in more detail and subject to the limitations and qualifications described under “*Material Tax Considerations—Material U.S. Federal Income Tax Considerations—Tax Treatment of the SPAC Mergers*,” the SPAC Mergers will, together, qualify as a “reorganization” within the meaning of Section 368(a)(1)(F) (i.e., an F Reorganization). Assuming this treatment applies, a U.S. Holder will not recognize gain or loss on the exchange of Alpha Securities for New Semantix Securities pursuant to the SPAC Mergers. However, neither Alpha nor Semantix has requested, and neither intends to request, a ruling from the IRS and there can be no assurance that the IRS will not assert that the SPAC Mergers (or either of the First Merger or the Second Merger) do not qualify as a reorganization within the meaning of Section 368 of the Code, or otherwise as a tax-free transaction.

If the SPAC Mergers did not qualify as a tax-free transaction, then a U.S. Holder that exchanges its Alpha Securities for New Semantix Securities pursuant to the SPAC Mergers will be required to recognize gain or loss equal to the difference between (i) the sum of the fair market value of the New Semantix Securities received and (ii) the U.S. Holder’s adjusted tax basis in the Alpha Securities exchanged. In addition, unless the SPAC Mergers qualify as an “F reorganization” it is possible that the PFIC rules, further described below, could apply to the transfer of the Alpha Securities pursuant to the SPAC Mergers, depending on Alpha and New Semantix’s PFIC status.

U.S. Holders of Alpha Securities should consult their tax advisers regarding the U.S. federal income tax consequences of the SPAC Mergers, including in the event that the SPAC Mergers do not qualify for tax-free treatment.

New Semantix may be or become a PFIC, which could result in adverse U.S. federal income tax consequences to U.S. Holders of Alpha Class A Ordinary Shares or Alpha Warrants.

In general, a non-U.S. corporation is a PFIC for U.S. federal income tax purposes for any taxable year in which (i) 50% or more of the average value of its assets (generally determined on the basis of a weighted quarterly average)

consists of assets that produce, or are held for the production of, passive income, or (ii) 75% or more of its gross income consists of passive income. Passive income generally includes dividends, interest, royalties, rents, investment gains, net gains from the sales of property that does not give rise to any income and net gains from the sale of commodities (subject to certain exceptions, such as an exception for certain income derived in the active conduct of a trade or business). Cash and cash equivalents are passive assets. The value of goodwill will generally be treated as an active or passive asset based on the nature of the income produced in the activity to which the goodwill is attributable. For purposes of the PFIC rules, a non-U.S. corporation that owns, directly or indirectly, at least 25% by value of the stock of another corporation is treated as if it held its proportionate share of the assets of the other corporation, and received directly its proportionate share of the income of the other corporation.

Based on the expected composition of New Semantix's income and assets and the estimated value of New Semantix's assets, including goodwill, New Semantix currently does not expect to be a PFIC for its taxable year ending December 31, 2022 or any future year. However, because New Semantix's PFIC status for any taxable year is an annual determination that can be made only after the end of that year and will depend on the composition of New Semantix's income and assets and the value of its assets from time to time (including the value of its goodwill, which may be determined in large part by reference to the market price of New Semantix Ordinary Shares from time to time, which could be volatile), there can be no assurances New Semantix will not be a PFIC for its current or any future taxable year.

Assuming the SPAC Mergers qualify as an F Reorganization, New Semantix should be treated as the same corporation as Alpha for purposes of the PFIC rules. In that case, Alpha should not be treated as a PFIC for its taxable year ending December 31, 2021 if it qualifies for the start-up exception (as further discussed under "*Material Taxation Considerations—Material U.S. Federal Income Tax Considerations—Passive Foreign Investment Company Rules*") for its taxable year ending December 31, 2021, which requires that New Semantix will not be a PFIC for its taxable years ending December 31, 2022, and December 31, 2023. However, if Alpha is determined to be a PFIC with respect to a U.S. Holder who exchanges Alpha Class A Ordinary Shares for New Semantix Ordinary Shares in connection with the SPAC Mergers and such U.S. Holder did not make any of the PFIC Elections (defined under "*Material Taxation Considerations—Material U.S. Federal Income Tax Considerations—Passive Foreign Investment Company Rules*") with respect to the Alpha Class A Ordinary Shares, then, although not free from doubt, New Semantix would also be treated as a PFIC as to such U.S. Holder with respect to such New Semantix Ordinary Shares, even if New Semantix is not a PFIC, unless such U.S. Holder makes a purging election with respect to its shares.

If New Semantix is a PFIC for any taxable year during which a U.S. person owns New Semantix Ordinary Shares, the U.S. person generally will be subject to adverse U.S. federal income tax consequences, including increased tax liability on disposition gains and certain "excess distributions" and additional reporting requirements. Prospective holders of New Semantix Securities should consult their tax advisers regarding the application of the PFIC rules to New Semantix and the risks of owning equity securities in a company that may be a PFIC. See "*Material Taxation Considerations—Material U.S. Federal Income Tax Considerations—Passive Foreign Investment Company Rules*."

Since holders of our Founder Shares and placement units will lose their entire investment in us if our initial business combination is not completed, a conflict of interest may arise in determining whether Semantix is an appropriate target for the Business Combination.

Our Sponsor currently owns 5,750,000 Founder Shares. The Founder Shares will be worthless if we do not consummate our initial business combination. Our Sponsor has also purchased 7,000,000 private placement warrants for an aggregate purchase price of \$7,000,000 million. There will be no redemption rights or liquidating distributions from the Trust Account with respect to the private placement warrants, which will expire worthless if we do not consummate a business combination prior to February 23, 2023. In addition, our Sponsor has agreed, pursuant to the Sponsor IPO letter agreement, in partial consideration of receiving the Founder Shares issued to our Sponsor and for our covenants and commitments therein, to waive its redemption rights with respect to its

Founder Shares and any public shares our Sponsor may have acquired after our IPO in connection with the completion of the Business Combination.

If we do not consummate the Business Combination or another initial business combination, Sponsor will realize a loss on the private placement warrants it purchased. As a result, the personal and financial interests of certain of our officers and directors, directly or as members of Sponsor, in consummating the Business Combination or another initial business combination, may have influenced their motivation in identifying and selecting Semantix as the target for the Business Combination and, if the Business Combination is not consummated, may in the future influence their motivation in identifying and selecting a target business for an alternative initial business combination and completing an initial business combination that is not in the best interests of our shareholders. Consequently, the discretion of our officers and directors, in identifying and selecting Semantix or another suitable target business combination may result in a conflict of interest when determining whether the terms, conditions and timing of the Business Combination or another initial business combination are appropriate and in the best interest of our public shareholders.

Our Sponsor, certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/prospectus.

When considering our board of directors' recommendation that our shareholders vote in favor of the approval of the Business Combination, our shareholders should be aware that our Sponsor and certain of our directors and officers have interests in the Business Combination that may conflict with the interests of other shareholders generally. Accordingly, our Sponsor may be incentivized to complete the Business Combination, or an alternative initial business combination with a less favorable company or on terms less favorable to shareholders, rather than to liquidate, in which case our Sponsor would lose its entire investment. As a result, our Sponsor may have a conflict of interest in determining whether Semantix is an appropriate business with which to effectuate a business combination and/or in evaluating the terms of the Business Combination. See the section entitled "*Business Combination Proposal—Interests of Alpha's Directors and Executive Officers in the Business Combination*" for more information. Our directors were aware of and considered these interests, among other matters, in evaluating the Business Combination, and in recommending to shareholders that they approve the Business Combination. Our shareholders should take these interests into account in deciding whether to approve the Business Combination. These interests include:

- the fact that certain of our directors and officers are principals of our Sponsor;
- the fact that 5,750,000 Founder Shares held by our Sponsor, for which it paid \$25,000, will convert on a one-for-one basis, into 5,750,000 shares of New Semantix Ordinary Shares upon the Closing, and such shares will have a significantly higher value at the time of the Business Combination when such shares convert into shares in New Semantix, as described further below, and will be worthless if an initial business combination is not consummated:

	Alpha Class B Ordinary Shares ⁽¹⁾	Value of Alpha Class B Ordinary Shares implied by Business Combination ⁽³⁾	Value of Alpha Class B Ordinary Shares based on recent trading price ⁽⁴⁾
Sponsor ⁽²⁾	5,750,000	\$ 57,500,000	\$ 56,982,500

-
- (1) Interests shown consist solely of Founder Shares. Such shares will automatically convert into New Semantix Ordinary Shares upon the closing on a one-for-one basis.
 - (2) Alpha Capital Sponsor LLC is the record holder of the shares reported herein.
 - (3) Assumes a value of \$10.00 per share, the deemed value of the New Semantix Ordinary Shares in the Business Combination. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
 - (4) Assumes a value of \$9.91 per share, which was the closing price of the Alpha Class A Ordinary Shares on the Nasdaq on June 10, 2022. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
 - the fact that if an initial business combination is not consummated by February 23, 2023, our Sponsor, officers, directors and their respective affiliates will lose their entire investment in us of \$64,650,000 in the aggregate, which investment included \$57,500,000 in value of Alpha Class B Ordinary Shares, valued at an assumed price of \$10.00 per share, the value implied by the Business Combination (inclusive of the Sponsor's initial capital contribution of \$25,000), the 7,000,000 private placement warrants acquired for a purchase price of \$7,000,000 in the aggregate, and \$197,500 currently outstanding under an unsecured promissory note issued in the amount of up to \$500,000;
 - the fact that given the differential in the purchase price that our Sponsor paid for the Alpha Class B Ordinary Shares as compared to the price of the public shares sold in the IPO and the 5,750,000 New Semantix Ordinary Shares that the Sponsor will receive upon conversion of the Alpha Class B Ordinary Shares in connection with the Business Combination, the Sponsor and its affiliates may earn a positive rate of return on their investment even if the New Semantix Ordinary Shares trades below the price initially paid for the public shares in the IPO and the public shareholders experience a negative rate of return following the completion of the Business Combination;
 - the fact that our Sponsor, officers and directors have agreed to waive their rights to liquidating distributions from the Trust Account with respect to any shares held by them if Alpha fails to complete an initial business combination and accordingly, our Sponsor, officers and directors will benefit from the completion of a business combination and may be incentivized to complete an acquisition of a less favorable target company or on terms less favorable to shareholders rather than liquidate;
 - the fact that in connection with the Business Combination, we entered into the Subscription Agreements with the PIPE Investors, including affiliates of Sponsor, which provide for the purchase by the PIPE Investors of an aggregate of 9,364,500 Alpha Class A Ordinary Shares, for a purchase price of \$10.00 per ordinary share, in a private placement, the closing of which will occur immediately prior to the Closing;
 - the fact that affiliates of our Sponsor who are our officers and directors have entered into Subscription Agreements with us in connection with the PIPE Financing for an aggregate subscription of 100,000 Alpha Class A Ordinary Shares that will be worthless if an initial business combination is not consummated;
 - the fact that if the Trust Account is liquidated, including in the event we are unable to complete an initial business combination by February 23, 2023, our Sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent registered public accounting firm) for services rendered or products sold to us, or a prospective target business with which we have entered into a transaction agreement, reduce the amounts in the Trust Account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, due to reductions in the value of the trust assets, net of the amount of taxes payable, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under our indemnity of the underwriters of our IPO against certain liabilities, including liabilities under the Securities Act;
 - the fact that we have issued an unsecured promissory note in the amount of up to \$500,000 to our Sponsor, payable in full upon the earlier of July 31, 2022 or the consummation of a business combination. There is currently \$197,500 outstanding under such promissory note;

- the fact that a certain affiliate of our Sponsor who is a shareholder of Alpha owning, in the aggregate, 2,300,000 of the outstanding Alpha Class A Ordinary Shares, has agreed to vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of the Alpha shareholders is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially;
- the fact that, unless a business combination is completed, our directors are only entitled to reimbursement for any out-of-pocket expenses incurred by them on our behalf incident to identifying, investigating and consummating a business combination from funds outside of the Trust Account, which funds are limited;
- the fact that pursuant to the A&R Registration Rights Agreement (as defined below), the Sponsor can demand registration of its registrable securities and it will also have piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing, whereas it does not have such rights today;
- the potential continuation of certain of our directors as directors and in other roles at New Semantix, including that David Lorié will be corporate secretary of New Semantix and receive \$93,333.32 annually in cash compensation; and
- the continued indemnification of current directors and officers of Alpha and the continuation of directors’ and officers’ liability insurance for a period of six years after the Business Combination.

These interests may influence our directors in making their recommendation that you vote in favor of the approval of the Business Combination Proposal. You should take these interests into account in deciding whether to approve the Business Combination. You should also read the section entitled “*The Business Combination Proposal—Certain Other Interests in the Business Combination.*”

Since our Sponsor and our officers and directors will not be eligible to be reimbursed for their out-of-pocket expenses if our initial business combination is not completed, a conflict of interest may arise in determining whether the Business Combination or an alternative initial business combination target is appropriate for our initial business combination.

At the Closing of the Business Combination or, if the Business Combination is not consummated, at the closing of an alternative initial business combination, our Sponsor and our officers and directors, or any entities with which they are affiliated, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying Semantix or any alternative target businesses and performing due diligence on suitable business combinations. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred in connection with activities on our behalf. These financial interests of our Sponsor and our officers and directors may influence their motivation in identifying and selecting Semantix or an alternative target business combination and completing the Business Combination or an alternative initial business combination.

We are attempting to complete the Business Combination with a private company about which little information is available, which may result in a business combination that is not as profitable as we suspected, if at all.

We are seeking to effectuate the Business Combination with a privately held company. Very little public information generally exists about private companies, including Semantix. The Alpha Board was required, and our shareholders will be required to evaluate the Business Combination on the basis of limited information and certain information relating to projections and forecasts, which are inherently based on various estimates and assumptions that are subject to the judgment of those preparing them, which may result in the Business Combination being less profitable than we suspected, if at all.

We have a minimum cash condition, which may make it more difficult for us to complete the Business Combination as currently contemplated.

The Business Combination Agreement provides that Semantix's obligation to consummate the Business Combination is conditioned on, among other things, that as of the First Effective Time, the Available Cash in the Trust Account into which substantially all of the proceeds of our IPO and private placements of our warrants have been deposited, together with the aggregate gross proceeds from the PIPE Financing, after deducting the amount required to be paid to our shareholders who elect to exercise their redemption rights, be equal to at least \$85,000,000.

There can be no assurance that Semantix would waive the Minimum Available Cash Condition. If such condition neither met nor waived pursuant to the terms of the Business Combination Agreement, then the proposed Business Combination Agreement would not be consummated.

A market for our securities may not continue, which would adversely affect the liquidity and price of our securities.

Following the Business Combination, the price of our securities may fluctuate significantly due to the market's reaction to the Business Combination and general market and economic conditions. An active trading market for our securities following the Business Combination may never develop or, if it develops, it may not be sustained.

The Nasdaq may not list our securities on its exchange, and if they are listed we may be unable to satisfy listing requirements in the future, which could limit investors' ability to effect transactions in our securities and subject us to additional trading restrictions.

As a result of the Business Combination, Nasdaq rules require that we apply for the listing of New Semantix's ordinary shares and warrants. While we will apply to have New Semantix's ordinary shares and warrants listed on the Nasdaq upon consummation of the Business Combination, we will be required to meet Nasdaq's initial listing requirements. We may be unable to meet those requirements. Even if New Semantix's securities are listed on the Nasdaq immediately following the Business Combination, we may be unable to maintain the listing of our securities in the future.

If we fail to meet the initial listing requirements and the Nasdaq does not list New Semantix's securities on its exchange, or if we are delisted, there could be significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- a limited amount of news and analyst coverage for New Semantix; and
- a decreased ability to obtain capital or pursue acquisitions by issuing additional equity or convertible securities.

If New Semantix's performance following the Business Combination, or the valuation of the New Semantix Shares in the Business Combination do not meet market expectations, the price of our securities may decline.

If New Semantix's performance following the Business Combination does not meet market expectations, the price of New Semantix's ordinary shares may decline from the price of our ordinary shares prior to the Closing of the Business Combination. The market value of the Alpha Ordinary Shares at the time of the Business Combination may vary significantly from the price on the date the Business Combination Agreement was executed, the date of this proxy statement/prospectus, or the date on which our shareholders vote on the Business Combination. Because the number of ordinary shares of New Semantix issued as consideration to the Semantix equityholders in the Business Combination will not be adjusted to reflect any changes in the market price of the Alpha Ordinary Shares, the value of New Semantix's ordinary shares issued in the Business Combination may be higher or lower than the value of the same number of shares of the Alpha Ordinary Shares on earlier dates.

Following the Business Combination, fluctuations in the price of New Semantix's ordinary shares could contribute to the loss of all or part of your investment. Prior to the Business Combination, there has not been a public market for New Semantix's ordinary shares. In addition, the valuation of the New Semantix Shares in the Business Combination was established in November 2021 in connection with the execution of the Business Combination Agreement. The valuation of the stock market and certain companies that may be deemed comparable to Semantix has declined significantly since then. Because the number of ordinary shares of New Semantix issued as consideration to the Semantix equityholders in the Business Combination will not be adjusted to reflect any changes in the valuation of the stock market or comparable companies, the valuation ascribed to New Semantix in the Business Combination may not be indicative of the price that will prevail in the trading market following the Business Combination. Factors affecting the trading price of New Semantix's ordinary shares following the Business Combination may include:

- actual or anticipated fluctuations in New Semantix's quarterly financial results or the quarterly financial results of companies perceived to be similar to it;
- changes in the market's expectations about operating results;
- New Semantix's operating results failing to meet market expectations in a particular period;
- changes in financial estimates and recommendations by securities analysts concerning New Semantix or the digital payment industry and market in general;
- operating and stock price performance of other companies that investors deem comparable to New Semantix;
- changes in laws and regulations affecting New Semantix's business;
- commencement of, or involvement in, litigation involving us or New Semantix;
- changes in New Semantix's capital structure, such as future issuances of securities or the incurrence of debt;
- the volume of shares of New Semantix's ordinary shares available for public sale;
- any significant change in the board or management;
- sales of substantial amounts of ordinary shares by New Semantix's directors, executive officers or significant shareholders or the perception that such sales could occur; and
- general economic and political conditions such as recessions, interest rates, fuel prices, international currency fluctuations and acts of war or terrorism (including the recent conflict in Ukraine).

Broad market and industry factors may depress the market price of New Semantix's ordinary shares irrespective of its operating performance. The stock market in general has experienced price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of the particular companies affected. The trading prices and valuations of these stocks, and of New Semantix's securities, may not be predictable. A loss of investor confidence in the market for companies engaging in digital payments or the stocks of other companies which investors perceive to be similar to us could depress our stock price regardless of our business, prospects, financial conditions or results of operations. A decline in the market price of our ordinary shares also could adversely affect our ability to issue additional securities and our ability to obtain additional financing in the future.

Shareholder litigation could prevent or delay the closing of the Business Combination or otherwise negatively impact our business, operating results and financial condition.

We may incur additional costs in connection with the defense or settlement of any shareholder litigation in connection with the proposed Business Combination. Litigation may adversely affect our ability to complete the proposed Business Combination. We could incur significant costs in connection with any such litigation lawsuits,

including costs associated with the indemnification of obligations to our directors. Consequently, if a plaintiff were to secure injunctive or other relief prohibiting, delaying or otherwise adversely affecting our ability to complete the proposed Business Combination, then such injunctive or other relief may prevent the proposed Business Combination from becoming effective within the expected time frame or at all.

During the pendency of the Business Combination, we will not be able to solicit, initiate or take any action to facilitate or encourage any inquiries relating to or the making, submission or announcement of, or enter into, a business combination with another party because of restrictions in the Business Combination Agreement. Furthermore, certain provisions of the Business Combination Agreement will discourage third parties from submitting alternative takeover proposals, including proposals that may be superior to the arrangements contemplated by the Business Combination Agreement.

During the pendency of the Business Combination, we will not be able to enter into a business combination with another party because of restrictions in the Business Combination. Furthermore, certain provisions of the Business Combination will discourage third parties from submitting alternative takeover proposals, including proposals that may be superior to the arrangements contemplated by the Business Combination Agreement, in part because of the inability of our board of directors to change its recommendation in connection with the Business Combination other than in the circumstances described in the Business Combination Agreement. The Business Combination Agreement does not permit our board of directors to change, withdraw, withhold, qualify or modify, or publicly propose to change, withdraw, withhold, qualify or modify its recommendation in favor of adoption of the Transaction Proposals, unless our board of directors determines in good faith, and after consultation with its outside counsel, that the failure to make such a change in recommendation would breach its fiduciary duties under applicable law. In the event that our board changes its recommendation, we will continue to submit the Business Combination Agreement to our shareholders for approval and thus our board would not be allowed to terminate the Business Combination Agreement.

Certain covenants in the Business Combination Agreement impede our ability to make acquisitions or complete certain other transactions pending completion of the Business Combination. As a result, we may be at a disadvantage to its competitors during that period. In addition, if the Business Combination is not completed, these provisions will make it more difficult to complete an alternative business combination following the termination of the Business Combination Agreement due to the passage of time during which these provisions have remained in effect.

The Business Combination is subject to conditions, including certain conditions that may not be satisfied on a timely basis, if at all.

The completion of the Business Combination is subject to a number of conditions. The completion of the Business Combination is not assured and is subject to risks, including the risk that approval of the Business Combination by our shareholders is not obtained or that there are not sufficient funds in the Trust Account, in each case subject to certain terms specified in the Business Combination Agreement (as described under “*The Business Combination Agreement—Conditions to Complete the Business Combination*”), or that other Closing conditions are not satisfied. If we do not complete the Business Combination, we could be subject to several risks, including:

- the parties may be liable for damages to one another under the terms and conditions of the Business Combination Agreement;
- negative reactions from the financial markets, including declines in the price of our Class A common stock due to the fact that current prices may reflect a market assumption that the Business Combination will be completed;
- efforts will have been diverted to the Business Combination rather than the pursuit of other opportunities in respect of an initial business combination; and

- we will have a limited period of time, if any, to complete an alternative initial business combination and we may not be as attractive to potential alternative partners to an initial business combination if we are unable to complete the Business Combination.

We expect to incur significant, non-recurring costs in connection with consummating the Business Combination and related transactions.

We have incurred and expect that we will incur significant, non-recurring costs in connection with consummating the Business Combination. We will also incur significant legal, financial advisor, accounting, banking and consulting fees, SEC filing fees, printing and mailing fees and other costs associated with the Business Combination. We estimate that we will incur approximately \$5.9 million in aggregate transaction costs. Some of these costs are payable regardless of whether the Business Combination is completed.

New Semantix may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

Following the Business Combination, New Semantix will have the ability to redeem outstanding New Semantix public warrants, as they will be subject to the same terms and conditions as the current Alpha public warrants (subject to adjustment as set forth in the Business Combination Agreement), which currently provide for redemptions at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the last reported sales price of New Semantix's ordinary shares is equal to or exceed \$18.00 per share (as adjusted for share subdivisions, share capitalizations, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date they send the notice of redemption to the warrant holders (the price for such period, the "Reference Value"). If and when the warrants become redeemable by New Semantix, they may not exercise their redemption right if the issuance of shares upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or New Semantix is unable to effect such registration or qualification. New Semantix will use its best efforts to register or qualify such shares under the blue sky laws of the state of residence in those states in which the warrants were offered by us in this offering. Redemption of the outstanding warrants could force you (i) to exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) to sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants.

In addition, following the Business Combination, New Semantix may redeem your warrants at any time after they become exercisable and prior to their expiration at a price of \$0.10 per warrant if, among other things, the Reference Value equals or exceeds \$10.00 per share (as adjusted for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like). The value received upon exercise of the warrants (1) may be less than the value the holders would have received if they had exercised their warrants at a later time where the underlying share price is higher and (2) may not compensate the holders for the value of the warrants, including because the number of shares received is capped at 0.361 of our Class A ordinary shares per warrant (subject to adjustment) irrespective of the remaining life of the warrants.

In the event that New Semantix elects to redeem all of the outstanding warrants, New Semantix would only be required to have the notice of redemption mailed by first class mail, postage prepaid by New Semantix not less than 30 days prior to the redemption date to registered holders of the outstanding warrants to be redeemed at their last address as they shall appear on the registration books.

Prior to the Business Combination, the public warrants will have substantially the same risk described above. The private placement warrants, which are not redeemable by New Semantix so long as they are held by the Sponsor or its permitted transferees, will, in connection with the Business Combination, be converted into and become warrants to purchase New Semantix Ordinary Shares.

Following the Business Combination, New Semantix's management will have the ability to require holders of New Semantix Warrants to exercise such warrants on a cashless basis will cause holders to receive fewer ordinary shares upon their exercise of the warrants than they would have received had they been able to exercise their warrants for cash.

If New Semantix calls the New Semantix Warrants for redemption after the redemption criteria described elsewhere in this proxy statement/prospectus have been satisfied, New Semantix's management will have the option to require any holder that wishes to exercise their warrant (including any warrants held by our Sponsor, our former officers or directors or their permitted transferees) to do so on a "cashless basis." If New Semantix's management chooses to require holders to exercise their warrants on a cashless basis, the number of ordinary shares received by a holder upon exercise will be fewer than it would have been had such holder exercised his warrant for cash. This will have the effect of reducing the potential "upside" of the holder's investment in New Semantix's company.

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares may not allow us to optimize our capital structure.

We have entered into the Business Combination Agreement and do not know how many shareholders may exercise their redemption rights, and therefore has structured the transaction based on our expectations as to the number of shares that will be submitted for redemption. The Business Combination Agreement requires us to have a minimum amount of cash at the First Effective Time and we may need to reserve a portion of the cash in the Trust Account to meet such requirements. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the Trust Account.

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares could increase the probability that Business Combination will be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

The Business Combination Agreement requires us to have a minimum amount of cash at Closing. As a result, the probability that the Business Combination would be unsuccessful is increased by the ability of the public shareholders to exercise redemption rights. If the Business Combination is unsuccessful, you would not receive your pro rata portion of the Trust Account until we liquidate the Trust Account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in the Trust Account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your shares in the open market.

If you or a "group" of shareholders are deemed to hold in excess of 15% of Alpha's Class A ordinary shares, you will lose the ability to redeem all such shares in excess of 15% of Alpha's Class A ordinary shares.

Our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of our public shares outstanding, which we refer to as the "Excess Shares." However, we are not restricting our shareholders' ability to vote all of their shares (including Excess Shares) for or against the Business Combination. Nevertheless, your inability to redeem the Excess Shares will reduce your influence over our ability to complete the Business Combination and you could suffer a material loss on your investment if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete the Business Combination, and as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your shares in open market transactions, potentially at a loss.

Our shareholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

If we are forced to enter into an insolvent liquidation, any distributions received by shareholders could be viewed as an unlawful payment if it was proved that immediately following the date on which the distribution was made, we were unable to pay our debts as they fall due in the ordinary course of business. As a result, a liquidator could seek to recover all amounts received by our shareholders. Furthermore, our directors may be viewed as having breached their fiduciary duties to us or our creditors and/or may have acted in bad faith, and thereby exposing themselves and our company to claims, by paying public shareholders from the Trust Account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons. We and our directors and officers who knowingly and willfully authorized or permitted any distribution to be paid out of our share premium account while we were unable to pay our debts as they fall due in the ordinary course of business would be guilty of an offence and may be liable to a fine of \$18,292.68 and to imprisonment for five years in the Cayman Islands.

If a shareholder fails to receive notice of our offer to redeem our public shares in connection with the Business Combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the proxy rules, when conducting redemptions in connection with the Business Combination. Despite our compliance with these rules, if a shareholder fails to receive our proxy materials, such shareholder may not become aware of the opportunity to redeem its shares. In addition, this proxy statement/prospectus describes the various procedures that must be complied with in order to validly redeem public shares. In the event that a shareholder fails to comply with these procedures, its shares may not be redeemed.

We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem Alpha's public shares and liquidate, in which case Alpha's public shareholders may only receive \$10.01 per share, or less than such amount in certain circumstances, and Alpha's warrants will expire worthless.

Our Sponsor, officers and directors have agreed that we must complete our initial business combination by February 23, 2023. If the Business Combination does not occur, we may not be able to find a suitable target business and complete our initial business combination within such time period. If we have not completed its initial business combination within such time period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and the Alpha Board, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. In such case, our public shareholders may only receive \$10.01 per share, and our warrants will expire worthless. In certain circumstances, our public shareholders may receive less than \$10.01 per share on the redemption of their shares. See “—Alpha's directors may decide not to enforce the indemnification obligations of Alpha Capital Sponsor LLC, resulting in a reduction in the amount of funds in the Trust Account available for distribution to Alpha's public shareholders” and other risk factors herein.

The exercise price for the public warrants is higher than in many similar blank check companies in the past, and, accordingly, the warrants are more likely to expire worthless.

The exercise price of the public warrants is higher than is typical in many similar blank check companies in the past. Historically, the exercise price of a warrant was generally a fraction of the purchase price of the units in the IPO. The exercise price for our public warrants is \$11.50 per share, subject to adjustment as provided herein. As a result, the warrants are less likely to ever be in the money and more likely to expire worthless.

Our directors may decide not to enforce the indemnification obligations of our Sponsor resulting in a reduction in the amount of funds in the Trust Account available for distribution to our public shareholders.

In the event that the proceeds in the Trust Account are reduced below the lesser of (i) \$10.00 per public share or (ii) such lesser amount per share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, and our Sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our Sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our Sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the Trust Account available for distribution to our public shareholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, a bankruptcy or insolvency court may seek to recover such proceeds, and the members of the Alpha Board may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of the Alpha Board and us to claims of punitive damages.

If, after we distribute the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy or insolvency court could seek to recover all amounts received by our shareholders. In addition, the Alpha Board may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public shareholders from the Trust Account prior to addressing the claims of creditors.

If, before distributing the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our shareholders and the per-share amount that would otherwise be received by Alpha’s shareholders in connection with Alpha’s liquidation may be reduced.

If, before distributing the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, the proceeds held in the Trust Account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy claims deplete the Trust Account, the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.

If we are unable to consummate our initial business combination prior to February 23, 2023, our public shareholders may be forced to wait beyond such date before redemption from our Trust Account.

If we are unable to consummate the Business Combination or another initial business combination prior to February 23, 2023, we will distribute the aggregate amount then on deposit in the Trust Account (less up to \$100,000 of the net interest earned thereon to pay dissolution expenses), pro rata to our public shareholders by way of redemption and cease all operations except for the purposes of winding up of our affairs, as further described herein. Any redemption of public shareholders from the Trust Account shall be effected automatically by function of our amended and restated memorandum and articles of association prior to any voluntary winding up. If we are required to windup, liquidate the Trust Account and distribute such amount therein, pro rata, to our

public shareholders, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the Companies Act. In that case, investors may be forced to wait beyond February 23, 2023 before the redemption proceeds of our Trust Account become available to them and they receive the return of their pro rata portion of the proceeds from our Trust Account. We have no obligation to return funds to investors prior to the date of our redemption or liquidation unless we consummate our initial business combination prior thereto and only then in cases where investors have sought to redeem their ordinary shares. Only upon our redemption or any liquidation will public shareholders be entitled to distributions if we are unable to complete our initial business combination.

We identified a material weakness in our internal control over financial reporting relating to our complex financial instruments. This material weakness could continue to adversely affect our ability to report our results of operations and financial condition accurately and in a timely manner.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Our management also evaluates the effectiveness of our internal controls and we will disclose any changes and material weaknesses identified through such evaluation in those internal controls. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

In addition, in connection with the preparation of our financial statements as of September 30, 2021, management identified errors made in our historical financial statements where we improperly classified a portion of our public shares as permanent equity to maintain shareholders' equity greater than \$5,000,000 on the basis that we will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001. As part of such process, management determined that the public shares include certain provisions that require classification of the public shares as temporary equity regardless of the minimum net tangible assets required by us to complete our initial business combination. Therefore, management concluded that our previously issued financial statements impacted should be restated to report all public shares as temporary equity. Management concluded that the foregoing constituted a material weakness as of September 30, 2021.

As a result, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this proxy statement/prospectus present fairly in all material respects our financial position, results of operations and cash flows for the period presented. However, we cannot assure you that the foregoing will not result in any future material weaknesses or deficiencies in internal control over financial reporting. Even though we have strengthened our controls and procedures, in the future those controls and procedures may not be adequate to prevent or identify irregularities or errors or to facilitate the fair presentation of our financial statements.

Past performance by our management team and their affiliates may not be indicative of future performance of an investment in us.

Information regarding performance by, or businesses associated with, our management team and their affiliates is presented for informational purposes only. Past performance by our management, including their affiliates' past performance, is not a guarantee success with respect to the Business Combination. You should not rely on the historical record of our management team or their affiliates as indicative of our future performance. Additionally, in the course of their respective careers, members of our management team have been involved in businesses and deals that were unsuccessful.

We are dependent upon our officers and directors and their departure could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals. We believe that our success depends on the continued service of our officers and directors, at least until we have completed the Business Combination or another initial business combination. In addition, our officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating management time among various business activities, including completion of the Business Combination or identifying an alternative business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or officers. The unexpected loss of the services of one or more of our directors or officers could have a detrimental effect on us.

Because the market price of Alpha Ordinary Shares will fluctuate, Semantix shareholders and holders of Semantix equity awards cannot be sure of the value of the New Semantix Ordinary Shares they will receive in connection with the Business Combination.

The market price of Alpha Ordinary Shares has fluctuated since the date of the announcement of the parties' entry into the Business Combination Agreement and will continue to fluctuate from the date of this proxy statement/prospectus to the date of the Semantix special meeting and the Alpha special meeting, the date the Business Combination is completed and thereafter. The market price of New Semantix Ordinary Shares, when received by Semantix shareholders after the Business Combination is completed, could be greater than, less than or the same as the market price of Alpha Ordinary Shares on the date of this proxy statement/prospectus or at the time of the Semantix special meeting. Accordingly, you should obtain current stock price quotations for Alpha Ordinary Shares before deciding how to vote or abstain from voting on any of the proposals described in this proxy statement/prospectus.

Since our announcement of the Business Combination, there has been a meaningful drop in the market values of growth-oriented companies. Accordingly, securities of growth companies may be more volatile than other securities and may involve special risks.

Since our announcement of the Business Combination, there has been a meaningful drop in the market values of growth-oriented companies like ours. In recent months, inflationary pressures, increases in interest rates and other adverse economic and market forces have contributed to these drops. As a result, our securities are subject to potential downward pressures which may result in high redemptions of the cash available from the Trust Account. If there are substantial redemptions, there will be a lower float of Alpha Class A Ordinary Shares outstanding, which may cause further volatility in the price of our securities.

THE EXTRAORDINARY GENERAL MEETING OF ALPHA SHAREHOLDERS

For purposes of this section, “we,” “us” or “our” refer to Alpha, unless the context otherwise requires.

The Alpha Extraordinary General Meeting

We are furnishing this proxy statement/prospectus to you as part of the solicitation of proxies by the Alpha Board for use at the extraordinary general meeting of shareholders to be held on August 2, 2022, and at any adjournment or postponement thereof. This proxy statement/prospectus is first being furnished to our shareholders on or about July 11, 2022. This proxy statement provides you with information you need to know to be able to vote or instruct your vote to be cast at the extraordinary general meeting of shareholders.

Date, Time and Place of Extraordinary General Meeting

The extraordinary general meeting will be held physically at the offices of Davis Polk & Wardwell LLP located at 1600 El Camino Real, Menlo Park, California 94025, and online via live webcast, at 10.00 a.m., Eastern Time, on August 2, 2022, or at such other time, on such other date and at such other place to which the meeting may be adjourned. Due to public health concerns regarding the COVID-19 pandemic, and the importance of ensuring the health and safety of our directors, officers, employees and shareholders, our shareholders are encouraged to attend the extraordinary general meeting virtually via live webcast. The Alpha extraordinary general meeting can be accessed virtually by visiting our meeting website (www.virtualshareholdermeeting.com/ASPC2022SM), where our shareholders will be able to listen to the meeting, submit questions and vote online.

Purpose of the Extraordinary General Meeting

At the Alpha extraordinary general meeting, we will ask our shareholders to vote in favor of the following proposals:

- The Business Combination Proposal—a proposal to approve and adopt the Business Combination Agreement and approve the transactions contemplated thereby, including the Business Combination;
- The Merger Proposal—a proposal by special resolution to approve the Plan of Merger;
- The Governing Documents Proposals—three separate proposals by special resolution to approve, material differences between the Proposed Governing Documents and the Existing Governing Documents; and
- The Adjournment Proposal—a proposal to approve by ordinary resolution the adjournment of the extraordinary general meeting to a later date or dates, if necessary, to, among other things, permit further solicitation and vote of proxies in the event that there are insufficient votes for the approval of one or more proposals at the extraordinary general meeting or if our shareholders have elected to redeem an amount of public shares such that the minimum available cash condition to the obligation to closing of the Business Combination would not be satisfied.

Recommendation of the Alpha Board

The Alpha Board believes that the Business Combination Proposal and the other proposals be presented at the extraordinary general meeting of shareholders are in the best interests of Alpha and its shareholders and unanimously recommends that its shareholders vote “FOR” the Business Combination Proposal, “FOR” the Merger Proposal, “FOR” the Governing Documents Proposals and “FOR” the Adjournment Proposal, in each case, if presented at the extraordinary general meeting.

The existence of financial and personal interests of one or more of our directors may result in a conflict of interest on the part of such director(s) between what he, she, or they may believe is in the best interests of Alpha and our shareholders and what he, she, or they may believe is best for himself, herself, or themselves in determining to recommend that shareholders vote for the proposals. When you consider the recommendation of the Alpha Board in favor of the Business Combination Proposal, you should keep in mind that certain of our

[Table of Contents](#)

directors and officers have interests in the Business Combination that may conflict with your interests as a shareholder. These interests include, among other things:

- the fact that certain of our directors and officers are principals of our Sponsor;
- the fact that 5,750,000 Founder Shares held by our Sponsor, for which it paid \$25,000, will convert on a one-for-one basis, into 5,750,000 shares of New Semantix Ordinary Shares upon the Closing, and such shares will have a significantly higher value at the time of the Business Combination when such shares convert into shares in New Semantix, as described further below, and will be worthless if an initial business combination is not consummated:

	Alpha Class B Ordinary Shares ⁽¹⁾	Value of Alpha Class B Ordinary Shares implied by Business Combination ⁽³⁾	Value of Alpha Class B Ordinary Shares based on recent trading price ⁽⁴⁾
Sponsor ⁽²⁾	5,750,000	\$ 57,500,000	\$ 56,982,500
Alec Oxenford	—	—	—
Rafael Steinhauser	—	—	—
Rahim Lakhani	—	—	—
Alfredo Capote	—	—	—
David Lorié	—	—	—
Amos Genish	—	—	—
Ariel Lebowits	—	—	—

- Interests shown consist solely of Founder Shares. Such shares will automatically convert into New Semantix Ordinary Shares upon the closing on a one-for-one basis.
- Alpha Capital Sponsor LLC is the record holder of the shares reported herein.
- Assumes a value of \$10.00 per share, the deemed value of the New Semantix Ordinary Shares in the Business Combination. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
- Assumes a value of \$9.91 per share, which was the closing price of the Alpha Class A Ordinary Shares on the Nasdaq on June 10, 2022. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
 - the fact that if an initial business combination is not consummated by February 23, 2023, our Sponsor, officers, directors and their respective affiliates will lose their entire investment in us of \$64,650,000 in the aggregate, which investment included \$57,500,000 in value of Alpha Class B Ordinary Shares, valued at an assumed price of \$10.00 per share, the value implied by the Business Combination (inclusive of the Sponsor's initial capital contribution of \$25,000), the 7,000,000 private placement warrants acquired for a purchase price of \$7,000,000 in the aggregate, and \$197,500 currently outstanding under an unsecured promissory note issued in the amount of up to \$500,000;
 - the fact that given the differential in the purchase price that our Sponsor paid for the Alpha Class B Ordinary Shares as compared to the price of the public shares sold in the IPO and the 5,750,000 New Semantix Ordinary Shares that the Sponsor will receive upon conversion of the Alpha Class B Ordinary Shares in connection with the Business Combination, the Sponsor and its affiliates may earn a positive rate of return on their investment even if the New Semantix Ordinary Shares trades below the price initially paid for the public shares in the IPO and the public shareholders experience a negative rate of return following the completion of the Business Combination;
 - the fact that our Sponsor, officers and directors have agreed to waive their rights to liquidating distributions from the Trust Account with respect to any shares held by them if we fail to complete an initial business combination and accordingly, our Sponsor, officers and directors will benefit from the completion of a business combination and may be incentivized to complete an acquisition of a less favorable target company or on terms less favorable to shareholders rather than liquidate;

- the fact that in connection with the Business Combination, we entered into the Subscription Agreements with the PIPE Investors, including affiliates of Sponsor, which provide for the purchase by the PIPE Investors of an aggregate of 9,364,500 Alpha Class A Ordinary Shares, for a purchase price of \$10.00 per ordinary share, in a private placement, the closing of which will occur immediately prior to the First Merger;
- the fact that affiliates of our Sponsor who are our officers and directors have entered into Subscription Agreements with us in connection with the PIPE Financing for an aggregate subscription of 100,000 Alpha Class A Ordinary Shares that will be worthless if an initial business combination is not consummated;
- the fact that if the Trust Account is liquidated, including in the event we are unable to complete an initial business combination by February 23, 2023, our Sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent registered public accounting firm) for services rendered or products sold to us, or a prospective target business with which we have entered into a transaction agreement, reduce the amounts in the Trust Account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, due to reductions in the value of the trust assets, net of the amount of taxes payable, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under our indemnity of the underwriters of our IPO against certain liabilities, including liabilities under the Securities Act;
- the fact that we have issued an unsecured promissory note in the amount of up to \$500,000 to our Sponsor, payable in full upon the earlier of July 31, 2022 or the consummation of a business combination. There is currently \$197,500 outstanding under such promissory note;
- the fact that a certain affiliate of our Sponsor who is a shareholder of Alpha owning, in the aggregate, 2,300,000 of the outstanding Alpha Class A Ordinary Shares, has agreed to vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of our shareholders is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially;
- the fact that, unless a business combination is completed, our directors are only entitled to reimbursement for any out-of-pocket expenses incurred by them on our behalf incident to identifying, investigating and consummating a business combination from funds outside of the Trust Account, which funds are limited;
- the fact that pursuant to the A&R Registration Rights Agreement (as defined below), our Sponsor can demand registration of its registrable securities and it will also have “piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing, whereas it does not have such rights today;
- the potential continuation of certain of our directors as directors and in other roles at New Semantix, including that David Lorié will be corporate secretary of New Semantix and receive \$93,333.32 annually in cash compensation; and
- the continued indemnification of current directors and officers of Alpha and the continuation of directors’ and officers’ liability insurance for a period of six years after the Business Combination.

See the section entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” for a further discussion of these considerations.

Record Date and Voting

You will be entitled to vote or direct votes to be cast at the extraordinary general meeting if you owned shares of Alpha Ordinary Shares at the close of business on June 14, 2022, which is the record date for the extraordinary general meeting of shareholders. You are entitled to one vote for each share of Alpha Ordinary Shares that you owned as of the close of business on the record date. If your shares are held in “street name” or are in a margin or similar account, you should contact your broker, bank or other nominee to ensure that votes

related to the shares you beneficially own are properly counted. On the record date, there were 28,750,000 shares of Alpha Ordinary Shares outstanding, of which 23,000,000 are Alpha Class A Ordinary Shares and 5,750,000 are Alpha Class B Ordinary Shares held by Alpha's Sponsor.

Our Sponsor has agreed to vote all of their Founder Shares and any public shares acquired by them in favor of the Business Combination Proposal. Our issued and outstanding warrants do not have voting rights at the extraordinary general meeting of shareholders. Further, Innova, a shareholder of Alpha and affiliate of our Sponsor which owns 2,300,000 Alpha Class A Ordinary Shares, has agreed pursuant to the Shareholder Non-Redemption Agreement to, among other things, vote in favor of the Business Combination Proposal.

Voting Your Shares

Each Alpha Ordinary Share that you own in your name entitles you to one vote on each of the proposals for the extraordinary general meeting of shareholders. Your one or more proxy cards show the number of shares of Alpha Ordinary Shares that you own.

If you are a holder of record, there are two ways to vote your shares of Alpha Ordinary Shares at the extraordinary general meeting of shareholders:

- You can vote by completing, signing and returning the enclosed proxy card in the postage-paid envelope provided. If you hold your shares in "street name" through a bank, broker or other nominee, you will need to follow the instructions provided to you by your bank, broker or other nominee to ensure that your shares are represented and voted at the applicable extraordinary general meeting(s). If you vote by proxy card, your "proxy," whose name is listed on the proxy card, will vote your shares as you instruct on the proxy card. If you sign and return the proxy card but do not give instructions on how to vote your shares, your shares of Alpha Ordinary Shares will be voted, as recommended by the Alpha Board. With respect to each proposal for the extraordinary general meeting of shareholders, that means voting "FOR" for each.
- You can attend the extraordinary general meeting and vote in person. You will be given a ballot when you arrive. However, if your shares of Alpha Ordinary Shares are held in the name of your broker, bank or other nominee, you must get a proxy from the broker, bank or other nominee. That is the only way we can be sure that the broker, bank or nominee has not already voted your shares of Alpha Ordinary Shares.

Quorum and Vote Required for Shareholder Proposals

A quorum of our shareholders is necessary to hold a valid meeting. A quorum will be present at the extraordinary general meeting of shareholders if a majority of the Alpha Ordinary Shares outstanding and entitled to vote at the extraordinary general meeting of shareholders is represented in person or by proxy. Abstentions will count as present for the purposes of establishing a quorum.

The approval of each of the Business Combination Proposal and the Adjournment Proposal requires an ordinary resolution under Cayman Islands law, being the affirmative vote of holders of a majority of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting. The approval of the Merger Proposal and the Governing Documents Proposals require a special resolution under Cayman Islands law, being the affirmative

vote of holders of a majority of at least two-thirds (2/3) of the issued ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting.

Abstentions and Broker Non-Votes

Brokers who hold shares in “street name” for a beneficial owner of those shares typically have the authority to vote in their discretion on “routine” proposals when they have not received instructions from beneficial owners. However, brokers are not permitted to exercise their voting discretion with respect to the approval of matters that are “non-routine” without specific instructions from the beneficial owner. It is expected that all proposals to be voted on at the extraordinary general meeting are “non-routine” matters.

Proxies that are marked “abstain” and proxies relating to “street name” shares that are returned to us but marked by brokers as “not voted” will be treated as shares present for purposes of determining the presence of a quorum on all matters. Abstentions and broker non-votes, while considered present for the purposes of establishing a quorum, will not count as votes cast at the extraordinary general meeting, and otherwise will have no effect on a particular proposal.

Revocability of Proxies

If you have submitted a proxy to vote your shares and wish to change your vote, you may do so by delivering a later-dated, signed proxy card to D.F. King, our proxy solicitor, prior to the date of the extraordinary general meeting or by voting in person at the extraordinary general meeting. Attendance at the extraordinary general meeting alone will not change your vote. You also may revoke your proxy by sending a notice of revocation to D.F. King.

Redemption Rights

Pursuant to our Existing Governing Documents, we are providing our shareholders with the opportunity to have their public shares redeemed at the closing of the Business Combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Business Combination, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding Alpha Class A Ordinary Shares included as part of the units sold in the IPO, subject to the limitations described in this proxy statement/prospectus. For illustrative purposes, based on the fair value of marketable securities held in the Trust Account as of June 10, 2022 of approximately \$230.3 million, the estimated per share redemption price would have been approximately \$10.01. **Our shareholders may elect to redeem their public shares even if they vote for the Business Combination Proposal and the other proposals.** Our Existing Governing Documents provide that an Alpha shareholder, acting together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a partnership, limited partnership, syndicate, or other group for purposes of acquiring, holding, or disposing of any shares of Alpha, will be restricted from exercising this redemption right in an amount of shares exceeding 15% of the public shares in the aggregate without our prior consent. There will be no redemption rights with respect to the Alpha Warrants.

Our Sponsor, the holder of our Alpha Class B Ordinary Shares issued in a private placement prior to the IPO, has entered into the Sponsor IPO letter agreement with us pursuant to which our Sponsor has agreed to waive, in partial consideration of receiving the Founder Shares and for our covenants and commitments therein, its redemption rights with respect to its Founder Shares and any public shares our Sponsor may have acquired after our IPO in connection with the completion of the Business Combination. Permitted transferees of our Sponsor will be subject to the same obligations. In addition, concurrently with the execution and delivery of the Business Combination Agreement, Innova, a shareholder of Alpha and affiliate of the Sponsor which owns

2,300,000 Alpha Class A Ordinary Shares, has agreed pursuant to the Shareholder Non-Redemption Agreement to, among other things, not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially.

Holders of our outstanding warrants will not have redemption rights with respect to such warrants. Assuming maximum redemptions of 20,700,000 Class A ordinary shares (see “*Unaudited Pro Forma Condensed Combined Financial Information*” for further information), and using the closing warrant price on Nasdaq of \$0.31 as of June 10, 2022, the aggregate fair value of warrants that can be retained by the redeeming shareholders, assuming maximum redemptions of 20,700,000 Class A ordinary shares, is \$6,417,000. The actual market price of the warrants may be higher or lower on the date that a warrant holder seeks to sell such warrants. Additionally, we cannot assure the holders of warrants that they will be able to sell their warrants in the open market as there may not be sufficient liquidity in such securities when a warrant holder wishes to sell their warrants. Further, while the level of redemptions of public shares will not directly change the value of the warrants because the warrants will remain outstanding regardless of the level of redemptions, as redemptions of public shares increase, the holder of warrants who exercises such warrants will ultimately own a greater interest in New Semantix because there would be fewer shares outstanding overall. See “*Risk Factors—Risks Related to New Semantix—Future resales of New Semantix Ordinary Shares issued to Semantix shareholders and other significant shareholders may cause the market price of New Semantix Ordinary Shares to drop significantly, even if New Semantix’s business is doing well.*”

In order to exercise your redemption rights, you must:

- if you hold your public shares through units, elect to separate your units into the underlying public shares and public warrants prior to exercising your redemption rights with respect to the public shares;
- prior to 5:00 p.m., local time, on July 29, 2022 (two (2) business days before the extraordinary general meeting), tender your shares electronically and submit a request in writing that we redeem your public shares for cash to Continental Stock Transfer & Trust Company, our transfer agent, to the attention of Mark Zimkind or by email at mzimkind@continentalstock.com; and
- deliver your public shares electronically through DTCC to the transfer agent at least two (2) business days before the general meeting. Shareholders who hold their shares in street name will have to coordinate with their bank, broker or other nominee to have the shares delivered electronically. If you do not submit a written request and deliver your public shares as described above, your shares will not be redeemed.

We will pay the redemption price to our shareholders who properly exercise their redemption rights promptly following the Closing. The Closing is subject to the satisfaction of a number of conditions. As a result, there may be a significant delay between the deadline for exercising redemption requests prior to the extraordinary general meeting and payment of the redemption price. Any demand for redemption, once made, may be withdrawn at any time until the deadline for exercising redemption requests and thereafter, with our consent, until the vote is taken with respect to the Business Combination. If you delivered your shares for redemption to the transfer agent and decide within the required timeframe not to exercise your redemption rights, you may request that the transfer agent return the shares. You may make such request by contacting the transfer agent at the email or address listed above.

Holders of our outstanding units must separate the underlying public shares and public warrants prior to exercising redemption rights with respect to the public shares.

If a broker, dealer, commercial bank, trust company or other nominee holds your units, you must instruct such nominee to separate your units. Your nominee must send written instructions by facsimile to Continental Stock Transfer & Trust Company. Such written instructions must include the number of units to be split and the nominee holding such units. Your nominee must also initiate electronically, using DTCC’s DWAC (deposit

[Table of Contents](#)

withdrawal at custodian) system, a withdrawal of the relevant units and a deposit of an equal number of public shares and public warrants. This must be completed far enough in advance to permit your nominee to exercise your redemption rights upon the separation of the public shares from the units. While this is typically done electronically on the same business day, you should allow at least one full business day to accomplish the separation. If you fail to cause your public shares to be separated in a timely manner, you will likely not be able to exercise your redemption rights.

Prior to exercising redemption rights, shareholders should review the market price of our Alpha Class A Ordinary Shares as they may receive higher proceeds from the sale of their Alpha Class A Ordinary Shares in the public market than from exercising their redemption rights if the market price per share is higher than the redemption price. We cannot assure you that you will be able to sell your Alpha Class A Ordinary Shares in the open market, even if the market price per share is higher than the redemption price stated above, as there may not be sufficient liquidity in the Alpha Class A Ordinary Shares when you wish to sell your shares.

If you exercise your redemption rights, your public shares will cease to be outstanding immediately prior to the Business Combination and will only represent the right to receive a pro rata share of the aggregate amount on deposit in the Trust Account. You will no longer own those shares and will have no right to participate in, or have any interest in, the future growth of Alpha or Semantix following the Business Combination, if any. You will be entitled to receive cash for these shares only if you properly and timely demand redemption.

If the Business Combination is not approved and we do not consummate an initial business combination by February 23, 2023, we will be required to liquidate and dissolve our Trust Account by returning the then-remaining funds in such account to the public shareholders and our warrants will expire worthless.

Underwriting Fees as a Percentage of IPO Proceeds Net of Redemptions

	No Redemptions⁽¹⁾	Interim Redemptions⁽²⁾	Maximum Redemptions⁽³⁾
IPO underwriting fees ⁽⁴⁾	\$ 4,600,000	\$ 4,600,000	\$ 4,600,000
IPO proceeds net of redemptions ⁽⁵⁾	\$230,000,000	\$126,500,000	\$ 23,000,000
Underwriting fees as a % of IPO proceeds net of redemptions	2.0%	3.6%	20.0%

(1) This scenario assumes that no public shares are redeemed.

(2) This scenario assumes that 10,350,000 outstanding public shares are redeemed in connection with the Business Combination (being our estimate of 50% of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement), resulting in an aggregate payment of \$103.5 million out of the Trust Account, which is derived from an assumed redemption price of \$10.00 per share based on the Trust Account balance as of December 31, 2021.

(3) This scenario assumes that 20,700,000 outstanding public shares are redeemed in connection with the Business Combination (being our estimate of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement), resulting in an aggregate payment of \$207,000,000 million out of the Trust Account, which is derived from an assumed redemption price of \$10.00 per share based on the Trust Account balance as of December 31, 2021. Also assumes that after giving effect to the payments to the redeeming public shareholders in this maximum redemption scenario, a minimum of \$85,000,000 of cash would be held in the Trust Account, including the net amount of the proceeds actually paid to Alpha upon consummation of PIPE Investment, in satisfaction of the Minimum Available Cash Condition.

(4) Pursuant to the IPO underwriting agreement, upon the consummation of the Business Combination, Citi and BofA Securities were entitled to \$8,050,000 of deferred underwriting commission, however, BofA Securities was not engaged as a financial advisor, placement agent, capital markets advisor or in any other capacity, to Alpha or any other party in connection with the Business Combination. However, Citi and BofA

Securities agreed to waive their rights to the deferred underwriting commission in the aggregate amount of \$8,050,000 in connection with their decision not to provide further services as a financial advisor, placement agent, capital markets advisor or in any other capacity in connection with closing of the Business Combination, such that we now do not expect to pay any deferred underwriting fees in connection with closing of our initial business combination. See “*Business of Alpha—Alpha History*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Citi and BofA Securities, the underwriters in Alpha’s IPO, were to be compensated in part on a deferred basis for already-rendered underwriting services in connection with Alpha’s IPO, yet Citi and BofA Securities gratuitously and without any consideration from Alpha waived such compensation and disclaimed any responsibility for this proxy statement / prospectus*” for additional information.

- (5) IPO proceeds net of redemptions reflect the deduction of \$4,600,000 in underwriting fees paid by Alpha upon consummation of Alpha’s IPO.

Appraisal or Dissenters’ Rights

No appraisal or dissenters’ rights are available to holders of Alpha Class A Ordinary Shares or Alpha Warrants in connection with the Business Combination.

The Companies Act prescribes when shareholder appraisal rights will be available and sets the limitations on such rights. Where such rights are available, shareholders are entitled to receive fair value for their shares. However, regardless of whether such rights are or are not available, shareholders are still entitled to exercise the rights of redemption as set out herein, and the Alpha Board has determined that the redemption proceeds payable to shareholders who exercise such redemption rights represents the fair value of those shares. Extracts of relevant sections of the Companies Act follow:

238. (1) A member of a constituent company incorporated under this Act shall be entitled to payment of the fair value of that person’s shares upon dissenting from a merger or consolidation.

239. (1) No rights under section 238 shall be available in respect of the shares of any class for which an open market exists on a recognized stock exchange or recognized interdealer quotation system at the expiry date of the period allowed for written notice of an election to dissent under section 238(5), but this section shall not apply if the holders thereof are required by the terms of a plan of merger or consolidation pursuant to section 233 or 237 to accept for such shares anything except—(a) shares of a surviving or consolidated company, or depository receipts in respect thereof; (b) shares of any other company, or depository receipts in respect thereof, which shares or depository receipts at the effective date of the merger or consolidation, are either listed on a national securities exchange or designated as a national market system security on a recognized interdealer quotation system or held of record by more than two thousand holders; (c) cash in lieu of fractional shares or fractional depository receipts described in paragraphs (a) and (b); or (d) any combination of the shares, depository receipts and cash in lieu of fractional shares or fractional depository receipts described in paragraphs (a), (b) and (c).

Solicitation of Proxies

We will pay the cost of soliciting proxies for the extraordinary general meeting. We have engaged D.F. King to assist in the solicitation of proxies for the extraordinary general meeting. We have agreed to pay D.F. King a fee of \$25,000. We will reimburse D.F. King for reasonable out-of-pocket expenses and will indemnify D.F. King and its affiliates against certain claims, liabilities, losses, damages and expenses. We also will reimburse banks, brokers and other custodians, nominees and fiduciaries representing beneficial owners of Alpha Class A Ordinary Shares for their expenses in forwarding soliciting materials to beneficial owners of Alpha Class A Ordinary Shares and in obtaining voting instructions from those owners. Our directors, officers and employees may also solicit proxies by telephone, by facsimile, by mail, on the Internet or in person. They will not be paid any additional amounts for soliciting proxies.

Share Ownership

As of the record date, our Sponsor beneficially owns an aggregate of 20% of the outstanding shares of Alpha Ordinary Shares. Our Sponsor has agreed to vote all of their Founder Shares and any Alpha Class A Ordinary Shares acquired by them in favor of the Business Combination Proposal. Our Sponsor and Sponsor's affiliate subject to the voting obligations under the Sponsor Letter Agreement or Shareholder Non-Redemption Agreement, respectively, collectively own approximately 28.0% of the issued and outstanding ordinary shares.

PROPOSALS TO BE CONSIDERED BY ALPHA'S SHAREHOLDERS

BUSINESS COMBINATION PROPOSAL

Background of the Business Combination

Alpha is a blank check company incorporated in the Cayman Islands for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization, or similar business combination with one or more businesses. The transactions contemplated by the Business Combination Agreement and related agreements, including the Business Combination and the PIPE Financing, are a result of an extensive search for a potential transaction utilizing the network and investing, operating and transaction experience of Alpha's management team and the Alpha Board.

On February 23, 2021, Alpha consummated the IPO of 23,000,000 units, including the issuance of 3,000,000 units as a result of the underwriters' full exercise of the over-allotment option. Each unit consists of one Class A ordinary share and one-half of one public warrant. Each whole public warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share. The units were sold at an offering price of \$10.00 per unit, generating gross proceeds of \$230,000,000. Substantially concurrent with the closing of the IPO and the sale of the units, Alpha completed a private placement of 7,000,000 warrants at a price of \$1.00 per warrant, issued to the Sponsor, generating gross proceeds of \$7,000,000. A total of \$230,000,000 was placed in the Trust Account.

Prior to the completion of the IPO, neither Alpha, nor anyone on its behalf, had any substantive discussions, formal or otherwise, with any business combination target with respect to a potential business combination with Alpha.

As described in the prospectus for the IPO, Alpha's business strategy is to focus on effecting a business combination with a Latin American technology company where Alpha's management team can apply its unique combination of experience and skills to create value for Alpha's shareholders over time. However, Alpha was not required to complete its initial business combination with a business in this sector or geographic region.

As described in the prospectus for the IPO, Alpha's Sponsor, management and their respective affiliates may from time to time be engaged in other business endeavors, including other blank check companies. However, prior to the entry into the Business Combination Agreement and the related agreements, neither Alpha's Sponsor, management or their respective affiliates has participated in the management or operation of any other blank check company and neither Alpha's Sponsor, management or their respective affiliates is participating in the management or operation of any other blank check company that is in the process of searching for a target company.

Alpha identified certain general, non-exclusive criteria and guidelines that it believed were important in analyzing prospective target businesses for a business combination. Alpha intended to use these criteria and guidelines in evaluating business combination opportunities:

- ***Proprietary technology platform which enhances competitive position.*** Businesses with defensible proprietary technology and intellectual property rights, which create a competitive moat. We sought businesses with a first-mover advantage and the opportunity to achieve market leadership with access to capital at a competitive all-in cost.
- ***Size.*** Target businesses whose equity value is between \$600 million and \$1.5 billion. Our management team believed businesses of such size have an adequate mix of market positioning and potential to scale and grow, while also having profitability potential.
- ***Minority equity participation.*** Making a capital investment with the goal of acquiring a significant minority position in the target company's equity. We fundamentally believed that the founders and the respective management teams should continue to manage and operate the business.

- **Recurrent and scalable revenue business model.** Businesses with models that deliver fast growth, highly recurring, contracted revenue, with a preference for those that have minimal or no government contracts or whose business model has limited visibility due to potential regulatory changes. In addition, we would expect the target to deliver steady results consistent with guidance provided to investors.
- **Companies with a clear path to profitable growth.** By leveraging our operational expertise, we planned to increase profitability through areas with additional operating leverage, ideally with positive and growing gross and EBITDA margins. We would also expect these companies to have momentum to reach net income profitability in the medium term with a high quality of earnings and strong internal controls to be fully compliant with PCAOB auditing standards. We sought to invest in companies that we believe possess not only established business models and sustainable competitive advantages, but also a growing platform to provide capital gains to equity investors.
- **Consolidation platform benefitting from a public currency.** Target companies that can utilize access to the public equity markets to enhance its ability to pursue -accretive transformational or tuck-in acquisitions, high-return on capital growth projects, and/or strengthen its balance sheet and recruit and retain key employees through the use of publicly-traded equity compensation.
- **Impact investing.** Being mindful of Environmental, Social and Governance (ESG) factors to ensure that any business combination complements corporate social responsibility with profitability.
- **Resilient.** Companies with recession-resilient business models as well experience in absorbing the recurring volatility in Latin American countries. We believe this resilience can be further fostered by having the companies pursue growth out of the region into global addressable markets.
- **Visionary management team.** Founders and management teams who are able to execute on the target markets they pursue and serve. We intended to seek businesses with proven and accomplished founders and management teams that are eager to march forward together with the support of a board of directors, tech industry leaders and having access to large global institutional investors who invest in equity through public markets.
- **Publicly traded company readiness.** Management and stakeholders who aspire to have their business become a public company. Companies should have a strong corporate government and internal processes with standards comparable to a publicly listed company. We believe this will enable a target company to engage in a business combination with us on an expedited basis.
- **Adequate valuation.** A strong risk-adjusted return profile with substantial upside potential to balance and limit potential downside risks

After the IPO, Alpha commenced an active search for prospective business combination candidates, leveraging its professional network by discussing potential candidates with representatives of the IPO underwriters, other investment banking professionals and other professionals with whom members of Alpha's management have relationships. Alpha contacted, and was contacted by, a number of individuals and entities with respect to business combination opportunities. During this search process, Alpha reviewed, and entered into preliminary discussions with respect to a number of acquisition opportunities other than Semantix.

During that process, Alpha's management:

- developed an initial list of potential business combination candidates, which were primarily identified through Alpha's knowledge and network and the knowledge and network of Alpha's financial advisors;
- considered and conducted analyses of approximately 160 potential business combination candidates; and
- engaged in preliminary, high-level discussions with approximately 50 potential business combination candidates or their representatives.

Of these approximately 50 potential candidates, Alpha engaged in meaningful and detailed discussions, due diligence, and negotiations with three potential business combination candidates or their representatives, one of which was Semantix. The potential pre-money valuations discussed for these potential targets ranged from \$600 million to

over \$800 million and these target businesses operated in a variety of industries, including the technology & internet, data & artificial intelligence, logistics, fintech and financial services, cryptocurrencies, e-commerce and online education. During the process described in this “*Background of the Business Combination*”, the Alpha Board was updated at various points regarding the process and provided direction to Alpha management.

Alpha did not pursue further a potential transaction with the other potential business combination targets with which it engaged in discussions for a variety of factors, including insufficient track record to validate projected financial performance, Alpha’s assessment of the target company’s public market readiness or its ability to execute its business plan, scale its business, achieve its targeted financial projections or monetize its business model, the long-term viability of the target business or its industry, an inability to reach an agreement on valuation, the fact that fundraising was recently completed and capital requirements were below the amount desired to be invested by Alpha and Alpha’s assessment of limited Wall Street interest in the target business or industry.

While Alpha’s management continued its evaluation, analysis and due diligence review of other potential business combination targets, on April 11, 2021, a representative (“Credit Suisse Representative”) of Banco de Investimentos Credit Suisse (Brasil) S.A. (“Credit Suisse”), financial advisor to Semantix, contacted Mr. Steinhauser on LinkedIn and followed up with an email on April 12, 2021 to discuss potential business combinations. As described in “*Summary—Recent Developments*”, Credit Suisse has subsequently resigned and withdrawn from its role with respect to the Business Combination and shareholders should not place any reliance on the participation of Credit Suisse in the transactions contemplated by this proxy statement/prospectus. On April 13, 2021, Mr. Steinhauser responded to the Credit Suisse Representative to organize an introductory telephone call. On April 19, 2021 Messrs. Steinhauser, Oxenford and the Credit Suisse Representative held an initial telephonic meeting to discuss a range of potential business combination targets with Alpha, which included Semantix. Based on Alpha’s initial assessment of Semantix’s financial valuation, projections and product, Mr. Steinhauser noted to Credit Suisse that Alpha would be interested in engaging in further discussions regarding a potential business combination between Alpha and Semantix. At this time, Alpha was still engaged in meaningful and detailed discussions with two other potential business combination candidates: a for-profit education company (“Company A”) and a fintech company (“Company B”).

On April 21, 2021, Mr. Steinhauser sent an email to the Credit Suisse Representative to request written information about Semantix in the form of a company overview. The Credit Suisse Representative responded on the same day, providing an overview presentation of Semantix. On April 27, 2021, Alpha organized an introductory call with Semantix for May 3, 2021. As described in “*Summary—Recent Developments*”, Credit Suisse has subsequently resigned and withdrawn from its role with respect to the Business Combination and shareholders should not place any reliance on the participation of Credit Suisse in the transactions contemplated by this proxy statement/prospectus.

On May 3, 2021, Messrs. Alfredo Capote Chief Strategy Officer, Rahim Lakhani, Chief Financial Officer, Kirill Matalov, Vice-President of Strategy, Messrs. Oxenford and Steinhauser, all of Alpha and Leonardo Santos, Chief Executive Officer and Adriano Alcalde, Chief Financial Officer, of Semantix held an introductory telephonic meeting, which was also attended by Credit Suisse, and during which representatives of Semantix provided a high-level overview of the business and operations of Semantix. As described in “*Summary—Recent Developments*”, Credit Suisse has subsequently resigned and withdrawn from its role with respect to the Business Combination and shareholders should not place any reliance on the participation of Credit Suisse in the transactions contemplated by this proxy statement/prospectus. The parties discussed their respective reasons for considering entering into a business combination, including Semantix’s use of capital and strategic initiatives. The parties agreed to continue discussing the potential business combination in further detail and determined to enter into a mutual nondisclosure agreement in order to permit the sharing of confidential information.

On May 5, 2021, Alpha and Semantix executed a mutual nondisclosure agreement in connection with Alpha’s consideration of a possible business combination involving Semantix.

Between May 5, 2021 and August 13, 2021, Alpha, Innova, an affiliate of the Sponsor, and its advisors held numerous telephonic meetings and exchanged emails with representatives of Semantix to discuss Semantix's potential valuation, corporate structure, key performance indicators as compared to industry benchmarks, current financials and its financial model in detail, including revenue trends, details of each business segment and management's growth strategy for the business. In addition, Alpha conducted general market diligence of the data software and analytics industry as part of its due diligence review of Semantix.

On May 11, 2021, Alpha submitted a non-binding letter of intent to Company A. After further discussions and Alpha's evaluation of the financial valuations and projections, trading history, institutional investor interest in publicly traded comparable companies and management performance, Alpha determined that Company A would find it difficult to perform in the public markets at the valuation levels being discussed. Accordingly, Alpha terminated discussions with Company A regarding a potential business combination on May 16, 2021.

On May 24, 2021, David Loric (Director of the Company) and Messrs. Matalov, Oxenford and Steinhauser of Alpha and Messrs. Santos and Alcalde of Semantix held a telephonic meeting, which was also attended by Credit Suisse and Innova, to explore a potential business combination and to discuss the Semantix business model and operations in further detail. As described in "*Summary—Recent Developments*", Credit Suisse has subsequently resigned and withdrawn from its role with respect to the Business Combination and shareholders should not place any reliance on the participation of Credit Suisse in the transactions contemplated by this proxy statement/prospectus.

On June 5, 2021, Alpha submitted a non-binding letter of intent to Company B. Subsequently, discussions between Alpha and Company B did not progress in any material respect as Company B was engaged in separate discussions regarding another transaction. Accordingly, by August 13, 2021, Alpha considered the discussions with Company B regarding a potential business combination terminated.

On June 29, 2021, Messrs. Capote and Matalov of Alpha held a telephonic meeting with Citigroup Global Markets Inc. (together with its affiliates, "Citi"), Alpha's advisor in connection with the IPO and ongoing capital markets advisor, regarding a possible business combination involving Semantix. The parties discussed the potential challenges of marketing a business combination with Semantix, current market valuations of publicly traded companies in the industry, Alpha's potential valuations of Semantix, the Semantix business and an update on the PIPE market. As described in "*Summary—Recent Developments*", Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus.

On July 15, 2021, Messrs. Capote, Lakhani, Loric, Matalov, Oxenford and Steinhauser of Alpha had another meeting with Citi regarding a possible business combination involving Semantix. The parties discussed the Semantix business, comparables, Alpha's view of the valuation and how investors would view Semantix.

On July 21, 2021, Messrs. Capote, Lakhani, Loric, Matalov, Oxenford and Steinhauser of Alpha and Messrs. Santos and Alcalde and Thiago Lima (Semantix's former CTO) held a telephonic meeting during which Semantix management presented a detailed company overview, including in-depth business, operational and strategic matters, a review of Semantix's strategic initiatives, plans for future growth and potential future capital requirements. The parties further discussed the amount of capital Semantix was looking to raise in connection with such a business combination, the uses of such capital and the desired attributes of a potential partner. In addition, the parties discussed the structure of a potential business combination and the impact on Semantix of being a publicly traded company.

On July 30, 2021, Messrs. Capote, Lakhani, Loric, Matalov, Oxenford and Steinhauser of Alpha had a meeting with Citi to discuss Alpha's view of the potential valuations of Semantix, the market for companies in the industry and potential investor perspectives. As described in "*Summary—Recent Developments*", Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus.

On August 5, 2021, Messrs. Oxenford and Steinhauser of Alpha had an introductory call with Crescera, an investor in Semantix, to introduce Alpha and learn about Crescera and discuss its views on Semantix, its business and its leadership team.

On August 9, 2021, Messrs. Oxenford and Steinhauser of Alpha had an introductory call with Inovabra, an investor in Semantix, to introduce Alpha and learn about Inovabra and discuss its views on Semantix and its investment strategy.

On August 12, 2021, Alpha's management sent Alpha's co-sponsors, members of its board of directors and board of advisors a description of Semantix, its business and key investment highlights and informed them that management intended to send a preliminary, non-binding letter of intent to Semantix along with its valuation. Following discussions between Alpha's management, the members of its board of directors and Davis Polk & Wardwell LLP ("Davis Polk"), Alpha's legal advisors, on August 13, 2021, Alpha sent Semantix the draft non-binding letter of intent, including the following core terms:

- a pre-money enterprise value of Semantix equal to \$630,000,000;
- a minimum cash condition of \$55,000,000;
- an amount of \$324,000,000 in cash to be available on the combined company's balance sheet as a result of the proposed business combination;
- Semantix existing management team's right to an earn-out with respect to 2,500,000 shares of the surviving company to be issued based on the achievement of pre-determined share price milestones, which number of shares and share milestones were proposed by Alpha, with the advice of its financial advisors, based on the valuation of Semantix in the transaction and comparable de-SPAC precedent transactions involving a target equityholder earnout reviewed by Alpha and its financial advisors;
- a post-Business Combination board of directors consisting of seven directors, six directors designated by Semantix and one director designated by Alpha, and two observers to be designated by Alpha;
- a PIPE financing expectation of \$50,000,000; and
- a lock-up of all shares issued as consideration in the proposed business combination for six-months. In addition, with respect to 15% of Alpha shares held by the Sponsor, a one-year lock-up and corresponding earn-out.

On August 18, 2021, Semantix sent Alpha a revised proposal regarding the non-binding letter of intent that agreed with the \$630,000,000 pre-money enterprise value valuation, but proposing, among other things, that (i) the minimum cash condition be increased to \$100,000,000, (ii) that if total cash consideration to Semantix falls below \$150,000,000, then an additional twenty percent of the Alpha shares and private placement warrants held by the Sponsor would be forfeited and (iii) capping the obligation to pay Alpha's transaction expenses if Semantix determines not to proceed with definitive agreements at \$1,000,000. Later that day, Alpha reviewed and discussed the proposals received from Semantix with its legal advisors in detail.

After further internal deliberations between Alpha's management team and its board of directors and advisors, Innova and Inovabra regarding its participation in a potential PIPE financing, on August 25, 2021, Alpha delivered an updated non-binding letter of intent to Semantix, accepting most of the terms of Semantix's August 18, 2021 proposal. As described in "*Summary—Recent Developments*", Alpha's Advisors have subsequently resigned and withdrawn from their roles with respect to the Business Combination and shareholders should not place any reliance on the participation of its Advisors in the transactions contemplated by this proxy statement/prospectus. The updated non-binding letter of intent proposed, among things, (i) to increase the size of the PIPE financing to \$130,000,000, of which at least \$50,000,000 would be committed by existing Semantix shareholders, (ii) that the Sponsor earn-out would have the same price targets as the earn-out in respect of the Semantix equityholders,

(iii) that no amount of the Alpha shares or private placement warrants held by the Sponsor would be subject to forfeiture and (iv) that Alpha's right to reimbursement of expenses would be uncapped.

Following the receipt of the non-binding letter of intent and updated proposal from Alpha, Semantix requested a discussion with Alpha to review and discuss the details of the non-binding letter of intent and to engage in additional negotiations. On August 25, 2021, Messrs. Oxenford and Steinhauser of Alpha had a telephone conversation with Messrs. Alcalde and Santos of Semantix to discuss the non-binding letter of intent and terms, including the addition of a cap on reimbursement of expenses. In addition, Alpha and its advisors held several calls with key stakeholders of Alpha, including Innova, Inovabra and Crescera to further discuss the potential business combination with Semantix and the terms of a potential PIPE financing in connection with the transaction. As described in "*Summary—Recent Developments*", Alpha's Advisors have subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of its Advisors in the transactions contemplated by this proxy statement/prospectus.

On August 27, 2021, Semantix indicated to Alpha's management team that it was prepared to proceed with the non-binding letter of intent solely to the extent that Alpha agreed to the following modifications to the non-binding letter of intent: (i) revising the exclusivity provisions to be mutual on Alpha and Semantix and (ii) limiting the obligation of Semantix to reimburse Alpha's expenses to the extent Semantix unilaterally determined not to proceed with entering into definitive agreements with Alpha. Later in the day on August 27, 2021, Semantix sent Alpha a revised proposal regarding the non-binding letter of intent that proposed, among other things, (i) to limit Alpha's right to expense reimbursement to the extent Semantix determined not to proceed with entering into definitive agreements with Alpha, (ii) that the Sponsor will enter into a customary support agreement in connection with the Business Combination, and (iii) to cap Alpha's transaction expenses at \$17,000,000, with any amount in excess of that cap to reduce the equity consideration to Alpha's shareholders.

Following the receipt of Semantix's revisions to the non-binding letter of intent, Alpha reviewed and discussed the proposals from Semantix with its advisors and its board of directors. As described in "*Summary—Recent Developments*", Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus. After internal deliberations between Alpha's management team and its board of directors and advisors, on August 28, 2021, Alpha delivered an updated non-binding letter of intent to Semantix, accepting most of the terms of Semantix's August 27, 2021 revised non-binding letter of intent. The updated non-binding letter of intent proposed, among things, (i) limiting Semantix's ability to engage in debt financing transactions in the 30 day exclusivity period to no more than \$10,000,000 in aggregate proceeds, (ii) to provide for Alpha's right to expense reimbursement would be limited to the extent Semantix determined not to proceed with entering into definitive agreements with Alpha and Alpha confirmed its readiness to enter into definitive agreements on the terms set out in the non-binding letter of intent and (iii) to remove the \$17,000,000 cap on Alpha's transaction expenses as provided for in Semantix's August 27, 2021 revised non-binding letter of intent.

Following the receipt of the revised non-binding letter of intent on August 28, 2021, Semantix reviewed and discussed the proposals with its advisors. As described in "*Summary—Recent Developments*", Credit Suisse has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Credit Suisse in the transactions contemplated by this proxy

statement/prospectus. On August 29, 2021, Semantix sent Alpha a revised non-binding letter of intent that proposed, among other things, (i) to limit Alpha's right to expense reimbursement to the extent Semantix determined not to proceed in good faith with entering into definitive agreements with Alpha and (ii) to cap Alpha's transaction expenses at \$17,000,000, with any amount in excess of that cap to reduce the equity consideration to Alpha's shareholders. Later that day, Alpha reviewed and discussed the proposals received from Semantix with its advisors in detail. As described in "*Summary—Recent Developments*", Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus.

After internal deliberations between Alpha's management team and its board of directors and advisors, on August 30, 2021, Alpha delivered an updated non-binding letter of intent to Semantix that proposed, among things, (i) that Alpha's right to reimbursement of expenses would be capped at \$20,400,000 and (ii) that Alpha's right to expense reimbursement would be limited to the extent Semantix determined not to proceed with entering into definitive agreements with Alpha and Alpha confirmed its readiness to enter into definitive agreements on the terms set out in the non-binding letter of intent. As described in "*Summary—Recent Developments*", Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus.

On August 31, 2021, the Alpha Board held a telephonic meeting to discuss the potential business combination with Semantix with Alpha's management team. - a pre-money enterprise value of Semantix equal to \$630,000,000;
- Semantix existing management team's right to an earn-out with respect to 2,500,000 shares of the surviving company to be issued based on the achievement of pre-determined share price milestones, which number of shares and price milestones were determined by the parties, with the advice of their respective financial advisors, based on the valuation of Semantix in the transaction and comparable de-SPAC precedent transactions involving a target equityholder earnout reviewed by the parties;
- a PIPE financing expectation of \$130,000,000, with at least \$50,000,000 funded by existing Semantix shareholders;

including among other things, the post-Business Combination structure of Alpha and Semantix and the proposed resolutions approving the forms of the Business Combination Agreement, the Subscription Agreements, the Shareholder Non-Redemption Agreement, the Exchange Agreement, the Voting and Support Agreement, the A&R Registration Rights Agreement and the transactions contemplated thereby (the “Resolutions”). The Alpha Board then engaged in extensive discussions and deliberations with Alpha’s management and advisors, including Citi. As described in “*Summary—Recent Developments*”, Citi has subsequently resigned and withdrawn from its roles with respect to the Business Combination and shareholders should not place any reliance on the participation of Citi in the transactions contemplated by this proxy statement/prospectus. Following these discussions and deliberations, Alpha’s independent directors held an executive session to further discuss the merits of the proposed transaction. Upon rejoining the broader board of directors meeting, the independent directors engaged in an additional questions and answers session. On the morning of November 17, 2021, in accordance with the Business Combination Agreement, (i) Semantix and each of the Semantix shareholders and Semantix optionholders entered into and delivered to Alpha the Exchange Agreement and (ii) Semantix delivered to Alpha a copy of the minutes of the shareholders’ meeting of Semantix held by Semantix’s ordinary shareholders, confirming an irrevocable approval by such shareholders of the adoption of the Business Combination Agreement, the other ancillary agreements contemplated thereto and the consummation of the Business Combination and ratification of all acts or performed or required to be performed by the officers of the Company for the signing and execution of the Business Combination Agreement and the other ancillary agreements contemplated thereby.

Other than discussions regarding the director to the post-Closing board of directors to be designated by Alpha, and the two board observers to be designated by Alpha, prior to the entry into the Business Combination Agreement and the related agreements, neither Alpha’s management nor any persons affiliated with Alpha engaged in any discussions involving continuing employment or involvement for any persons affiliated with Alpha in the management of Semantix following the Closing.

Since November 17, 2021, Alpha and Semantix, along with their respective legal advisors, have worked jointly on the preparation of this proxy statement/prospectus.

Since November 17, 2021, Alpha and Semantix, along with their respective advisors, including Citi and Credit Suisse, were in regular contact regarding the status of the capital markets in the United States and the market for de-SPAC transactions, in particular. As part of those discussions, Alpha and Semantix, regularly reviewed the financial performance of Semantix's business and how the performance of Semantix's business compared to the Original Projections (as defined below) that were prepared in September 2021. See "*Business Combination Proposal— Certain Unaudited Projected Financial Information*" for further information regarding the Original Projections. From November 17, 2021 to May 2022, certain factors arose with the passage of time that affected Semantix's actual results in 2021 and 2022 to date, including, among other unanticipated circumstances, (i) the delayed closing of the Business Combination (and, in particular, the corresponding delay in capital contributions expected therefrom for investment purposes), (ii) the stalled sales growth of Semantix's proprietary SaaS business area and international operations, due in part to management's focused attention on the Business Combination, (iii) differences in accounting treatment arising from the adoption of IFRS and in connection with the completion of the audit of Semantix's historical financial statements for the year ended December 31, 2021 by its independent registered public accounting firm and (iv) a less favorable macroeconomic environment. Accordingly, Semantix's management determined the Original Projections do not reflect their view on future performance. As a result, Alpha and Semantix's management decided to update the Original Projections for 2022 and 2023. See "*Business Combination Proposal— Certain Unaudited Projected Financial Information*" for further information regarding the Updated Projections (as defined below). As described in "*Summary—Recent Developments*", the Advisors have subsequently resigned and withdrawn from their roles with respect to the Business Combination and shareholders should not place any reliance on the participation of the Advisors in the transactions contemplated by this proxy statement/prospectus.

On May 17, 2022, the Alpha Board held a telephonic meeting at which all senior management and members of the Alpha Board were in attendance. Representatives of Citi, Maples, and Davis Polk were also in attendance. During the meeting, a representative of Citi provided an update on general market conditions for special purpose acquisition companies. Following such discussion, Alpha's management provided an update on BofA Securities' withdrawal from the transaction as described in this proxy statement/prospectus, and following such discussion, Alpha's management provided an update on Semantix's recent business performance as a means of explaining the need for preparing the Updated Projections and the impact of the Updated Projections on the valuation framework for the transaction, including an update of the comparable companies analysis that focused on certain companies that may be deemed comparable to Semantix with respect to certain similar attributes, such as analytics, high-growth services and Brazilian software companies listed on different stock exchange. Only one company meeting the criteria was excluded, on the basis that it does not have an established presence outside of the U.S. Following this discussion, Alpha management and representatives of Davis Polk discussed with the Alpha Board the material terms and conditions of the Business Combination Agreement in relation to the Updated Projections, including the fact that the Business Combination Agreement does not permit the Alpha Board to change, withdraw, withhold, qualify or modify, or publicly propose to change, withdraw, withhold, qualify or modify its recommendation in favor of adoption of the Transaction Proposals, unless the Alpha Board determines in good faith, and after consultation with its outside counsel, that the failure to make such a change in recommendation would reasonably be expected to breach its fiduciary duties under applicable law. A representative of Maples provided the Alpha Board with an overview of the applicable laws relating to the fiduciary duties of directors of companies organized under the laws of the Cayman Islands in relation to the Alpha Board's consideration of the Updated Projections. The Alpha Board then engaged in extensive discussions and deliberations with Alpha's management and advisors, including Citi. Following the discussions, a motion was duly made that the Alpha Board reaffirm its prior determination that the Business Combination and the transactions contemplated thereby were in the best interest of Alpha and its shareholders, which motion was approved unanimously.

Following the May 17, 2022 meeting of the Alpha Board, on May 18, 2022 Alpha received notice from Citi resigning as capital markets advisor and underwriter in Alpha's IPO and terminating its engagements in respect of the Business Combination as described in "*Summary—Recent Developments*". In addition, on May 26, 2022, Semantix received notice from Credit Suisse, its financial advisor in connection with the Business Combination,

resigning as advisor to Semantix and waiving all right to fees under its financial advisory agreement with Semantix, and on June 1, 2022, Semantix received from Credit Suisse a formal letter confirming its resignation and waiver of fees. Following such resignations, the Alpha Board has considered its assessment of the Business Combination and the involvement of the Advisors, including the fact that in verbal conversations it has engaged with the Advisors subsequent to their resignation, Alpha's management has been advised by the Advisors that, given they are no longer engaged in any capacity by Alpha or Semantix, they do not intend to review any disclosures in this proxy statement/prospectus pertaining to their roles and resignation and that following delivery of the disclosure—see “*Summary—Recent Developments*”—to the Advisors, they have either stated that they do not intend to review the disclosure or have not responded to such request. The Alpha Board considered that (i) at no time prior to or after their resignation did any of the Advisors indicate that they had any specific concerns with the Business Combination and the Advisors did not advise Alpha or Semantix that they were in disagreement with the contents of this prospectus/proxy statement or the registration statement of which it forms a part, (ii) the Advisors did not prepare or provide any of the disclosure in this prospectus/proxy statement or any other materials or work product that have been provided to Alpha's shareholders, the Alpha Board or the PIPE Investors, or any analysis underlying such materials (other than limited comments in the ordinary course of review by the entire working group), except that Credit Suisse assisted Semantix's management by organizing and providing the Industry Materials in furtherance of Semantix's management's preparation of the disclosure included in this proxy statement/prospectus, including the Projections that were fully prepared by Semantix's management based on its own estimates and assumptions, and supported the preparation of the PIPE presentation and the analyst presentation, at the direction of Semantix's management, to reflect the Industry Materials (noting that Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the Projections), (iii) neither Alpha nor Semantix relied on their respective capital markets or financial advisors for the preparation or analysis of any materials provided to the Alpha Board for use as a component of its overall evaluation of Semantix, notwithstanding the Industry Materials provided by Credit Suisse to Semantix upon which Semantix's management conducted its own independent analysis and made its own conclusions and (iv) the Alpha Board did not receive or rely upon any financial or valuation analyses conducted or prepared by any of the Advisors in making its determination that the Business Combination Agreement, and the transactions contemplated thereby, including the Business Combination, were advisable, fair to, and in the best interests of, Alpha and its shareholders. In addition, none of Credit Suisse or any of its affiliates had informed Semantix or Alpha that it is in disagreement with the Industry Materials previously provided (upon which Semantix's management conducted its own independent analysis and made its own conclusions) or, to the knowledge of Alpha or Semantix, the PIPE Investors of such disagreement, and, as a result, Alpha and Semantix have no reason to believe that the resignation by Credit Suisse signifies that the Industry Materials provided by Credit Suisse to Semantix are no longer reliable. Accordingly, Semantix's management's independent analysis and conclusions in relation to the Industry Materials have also not changed as a result of Credit Suisse's resignation. Based on the foregoing, the Alpha Board reaffirmed its prior determination that the Business Combination and the transactions contemplated thereby were in the best interests of Alpha and its shareholders. As described in “*Summary—Recent Developments*”, the Advisors have subsequently resigned and withdrawn from their roles with respect to the Business Combination and shareholders should not place any reliance on the participation of the Advisors in the transactions contemplated by this proxy statement/prospectus. See “*Citi, BofA Securities and Credit Suisse were to be compensated in part on a deferred basis for already-rendered services in connection with Alpha's IPO and the business combination, yet Citi, BofA Securities and Credit Suisse gratuitously and without any consideration from Alpha waived such compensation and disclaimed any responsibility for this proxy statement / prospectus*” for further information regarding the risks associated with the resignation of the financial institutions.

Resignation of Underwriters and Capital Markets and Financial Advisors

On May 13, 2022, Alpha received notice from BofA Securities, one of the underwriters in its IPO, resigning as underwriter and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its

participation in Alpha's IPO in the amount of \$3,461,500, and on June 3, 2022, Alpha received from BofA Securities a formal letter confirming its resignation and waiver of fees. On May 18, 2022, Alpha received notice from Citi, the other underwriter in its IPO, resigning as underwriter and capital markets advisor and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha's IPO in the amount of \$4,588,500, and on May 19, 2022, Alpha received from Citi a formal letter confirming its resignation and waiver of fees. Under Citi's capital markets advisory agreement, Alpha had engaged Citi to advise on the structure, negotiation strategy, valuation analyses, financial terms, investor meetings and presentations and other matters relating to the Business Combination, and the capital markets advisory agreement did not provide for any fees to be paid by Alpha to Citi in connection with such services. On May 26, 2022, Semantix received notice from Credit Suisse, its financial advisor in connection with the Business Combination, resigning as advisor to Semantix and waiving all right to fees under its financial advisory agreement with Semantix, and on June 1, 2022, Semantix received from Credit Suisse a formal letter confirming its resignation and waiver of fees. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. The Advisors did not otherwise communicate to Alpha or Semantix the reasons leading to their resignation and waiver of their fees after doing substantially all of the work to earn their fees. There is no dispute among any of Semantix, the Advisors or Alpha with respect to the Advisors' capital markets advisory or financial advisory services or their resignation. As a result of these resignations and the associated waiver of fees, the transactions fees payable by Alpha and Semantix at the consummation of the Business Combination will be reduced by an aggregate of R\$82.8 million under the no redemptions scenario, R\$70.7 million under the interim redemptions scenario and R\$58.5 million under the maximum redemptions scenario. None of the Advisors has received any fees pursuant to their respective engagement letters or the Underwriting Agreement, other than \$4,600,000 in underwriting fees paid, in the aggregate, by Alpha to Citi and BofA Securities upon the consummation of Alpha's IPO. Please see "*Unaudited Pro Forma Condensed Combined Financial Information*" for further information and the estimated transaction fees and expenses required to be paid in connection with the Business Combination. Alpha and Semantix continue to have customary obligations with respect to use of information, expense reimbursement and indemnification under the capital markets advisory, financial advisory and Underwriting Agreement with BofA Securities, Citi and Credit Suisse (the "Advisors"). However, Alpha and Semantix are not party to any agreements that would require the payment of fees (other than expense reimbursement) or underwriting commissions to the Advisors with respect to the Business Combination or any other transactions described herein.

At no time prior to or after their resignation did any of the Advisors indicate that they had any specific concerns with the Business Combination and the Advisors did not advise Alpha or Semantix that they were in disagreement with the contents of this prospectus/proxy statement or the registration statement of which it forms a part. The Advisors did not prepare or provide any of the disclosure in this prospectus/proxy statement or any other materials or work product that have been provided to Alpha's shareholders, the Alpha Board or the PIPE Investors, or any analysis underlying such materials, except that Credit Suisse assisted Semantix's management by organizing and providing the Industry Materials in furtherance of Semantix's management's preparation of the disclosure included in this proxy statement/prospectus, including the Projections that were fully prepared by Semantix's management based on its own estimates and assumptions, and Credit Suisse supported the preparation of the PIPE presentation and the analyst presentation, at the direction of Semantix's management, to reflect the Industry Materials. In each case, Semantix's management considered Credit Suisse's input based on its expertise and experience as an investment bank with coverage in the industries and geographies that Semantix operates, but Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the Projections. None of Credit Suisse or any of its affiliates has informed Semantix or Alpha that it is in disagreement with the Industry Materials previously provided (upon which Semantix's management conducted its own independent analysis and made its own conclusions) or, to the knowledge of Alpha or Semantix, the PIPE Investors of any such disagreement. However, in Credit Suisse's termination letter, it has, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, disclaimed responsibility for any portion of this proxy statement/prospectus. In addition, as with all other members of the transaction working

group, the Advisors did receive drafts of this prospectus/proxy statement prepared by Alpha and Semantix and provided limited comments in the ordinary course. Additionally, in verbal conversations that Alpha and Semantix have engaged in with the Advisors subsequent to their resignation, Alpha and Semantix, as the case may be, have been advised by the Advisors that, given that they are no longer engaged in any capacity by Alpha or Semantix, they do not intend to review any disclosure in this proxy statement/prospectus pertaining to their roles and resignation. Alpha and Semantix provided such disclosure to their respective Advisors and requested confirmation that they agree with the disclosure. Following delivery of the disclosure to the Advisors, they have either stated that they do not intend to review the disclosure or have not responded to such request. There can be no assurances that the Advisors agree with this disclosure and no inference can be drawn to this effect. Shareholders should not put any reliance on the fact that one or more of the Advisors were previously involved with any aspect of the transactions described in this prospectus/proxy statement.

Neither Alpha nor Semantix relied on their respective financial advisors for the preparation or analysis of any materials provided to the Alpha Board for use as a component of its overall evaluation of Semantix, notwithstanding the Industry Materials provided by Credit Suisse to Semantix upon which Semantix's management conducted its own independent analysis and made its own conclusions. The Alpha Board did not receive or rely upon any financial or valuation analyses conducted or prepared by any of the Advisors in making its determination that the Business Combination Agreement, and the transactions contemplated thereby, including the Business Combination, were advisable, fair to, and in the best interests of, Alpha and its shareholders.

In its role as financial advisor to Semantix, representatives to Credit Suisse performed the following services: (i) facilitated outreach to potential business combination counterparties, including Alpha, (ii) provided financial advice to Semantix in considering its strategic alternatives, (iii) assisted Semantix's management by organizing and providing the Industry Materials in furtherance of Semantix's management's preparation of the disclosure included in this proxy statement/prospectus, including the Projections that were fully prepared by Semantix's management based on its own estimates and assumptions, (iv) supported the preparation of the PIPE presentation and the analyst presentation, at the direction of Semantix's management, to reflect the Industry Materials and (v) participated in discussions and provided advice to Semantix as to the structuring and terms of the Business Combination. In each case, Semantix's management considered Credit Suisse's input based on its expertise and experience as an investment bank with coverage in the industries and geographies that Semantix operates, but Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the Projections. None of Credit Suisse or any of its affiliates has informed Semantix or Alpha that it is in disagreement with the Industry Materials previously provided (upon which Semantix's management conducted its own independent analysis and made its own conclusions) or, to the knowledge of Alpha or Semantix, the PIPE Investors of any such disagreement. Accordingly, Alpha and Semantix have no reason to believe that the resignation by Credit Suisse signifies that the Industry Materials provided by Credit Suisse to Semantix are no longer reliable, and Semantix's management's independent analysis and conclusions in relation to the Industry Materials have also not changed as a result of Credit Suisse's resignation. However, in Credit Suisse's termination letter, it has, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, disclaimed responsibility for any portion of this proxy statement/prospectus. Additionally, in connection with the Business Combination, representatives of Credit Suisse, with respect to Semantix, and Citi, with respect to Alpha, in their roles as financial advisor and capital markets advisor, respectively, helped to facilitate the overall transaction execution process through (i) the convening of meetings and telephone and video conferences that were attended by representatives of Alpha, Semantix and their respective advisors and (ii) organizing and processing publicly available market data with respect to sector-specific comparable companies. Please see *"Proposals to be Considered by Alpha's Shareholders Business Combination—Background of the Business Combination"*.

The services being provided by the Advisors prior to such resignations were substantially complete at the time of their resignations (or in the case of the underwriting services provided by BofA Securities and Citi pursuant to the Underwriting Agreement, at the time of Alpha's initial public offering) and the Advisors were not

expected to play any role at the Closing. Accordingly, Alpha and Semantix do not expect that the resignations of the Advisors will affect the timing or completion of the Business Combination, but will reduce the aggregate advisory fees payable at the Closing. Alpha and Semantix have considered engaging additional financial advisors, and on May 24, 2022, Alpha engaged D.A. Davidson to provide capital markets advisory services to the extent required prior to the Closing. The Advisors' resignation did not impact the Alpha Board's analysis of or continued support of the Business Combination. The availability of the PIPE Financing, the funds in the Trust Account and any contemplated post-transaction financing arrangements are not impacted by the resignation of the Advisors. In addition, Semantix does not expect the resignation of Citi will impact its separate lending relationship with an affiliate of Citi. Other than Semantix's separate lending relationship with an affiliate of Citi, neither Alpha nor Semantix has any other current relationship with any of the Advisors.

The resignation of the Advisors and the waiver of fees for services that have already been rendered is unusual. Shareholders should be aware that the resignation of the Advisors indicates that the Advisors do not want to be associated with the disclosure in this proxy statement/prospectus or the transactions contemplated hereby, and shareholders should not place any reliance on the participation of the Advisors prior to such resignation in the transactions contemplated by this proxy statement/prospectus. As a result, Alpha shareholders may be more likely to elect to redeem their shares, which may have the effect of reducing the proceeds available to New Semantix to achieve its business plan. See "*Unaudited Pro Forma Condensed Combined Financial Information*".

Alpha shareholders may believe that when financial institutions, such as the Advisors, are named in a proxy statement/prospectus, the involvement of such institutions typically presumes a level of due diligence and independent analysis on the part of such financial institution and that the naming of such financial institutions generally means that a financial institution has done a level of due diligence ordinarily associated with a professional engagement. The resignation letters of each of the Advisors with respect to their engagements with Alpha and Semantix, each stated that the Advisors are not responsible for any part of this proxy statement/prospectus. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. While the Advisors did not otherwise provide any additional detail in their resignation letters either to Alpha or Semantix or to the Securities and Exchange Commission, such resignation may be an indication by such Advisors that such firms do not want to be associated with the disclosure in this proxy statement/prospectus or the underlying business analysis related to the transaction. However, neither Alpha nor Semantix will speculate about the reasons why the Advisors withdrew from their roles as capital markets, financial advisors and underwriters, as the case may be, in connection with the Business Combination and forfeited their fees after doing substantially all the work to earn their fees. Accordingly, shareholders should not place any reliance on the fact that the Advisors have been previously involved with this transaction.

In addition, we note that unaffiliated investors are subject to certain material risks as a result of Semantix going public through a merger rather than through a traditional underwritten offering. See "*Risk Factors—The listing of New Semantix securities on Nasdaq will not benefit from the process undertaken in connection with an underwritten initial public offering.*"

Alpha continues to have customary obligations with respect to use of information and indemnification under the capital markets advisory agreement with Citi and the Underwriting Agreement with BofA Securities and Citi, and Semantix continues to have customary obligations with respect to use of information and indemnification pursuant to its financial advisory agreement with Credit Suisse. In particular, as is customary, certain provisions of the Underwriting Agreement shall survive BofA Securities' and Citi's resignations. These provisions include the relevant clauses of BofA Securities' and Citi's standard terms and conditions, including Alpha's obligation to (i) indemnify and hold harmless each of BofA Securities and Citi, the directors, officers, employees, affiliates and agents of each of BofA Securities and Citi, each person who controls either BofA Securities or Citi within the meaning of the Securities Act or the Exchange Act and each affiliate of each of BofA Securities and Citi against any and all losses, claims, damages or liabilities, joint or several, to which they or any of them may become subject under the Securities Act or other U.S. federal or state statutory law or regulation, at common law

or otherwise, insofar as such losses, claims, damages or liabilities arise out of or are based upon any untrue statement or alleged untrue statement of a material fact contained in the registration statement filed in connection with Alpha's initial public offering, or in any preliminary prospectus, prospectus, "road show" as defined in Section 433(h) of the Securities Act or any Written Testing-the-Waters Communication, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading and (ii) reimburse each such indemnified party, as incurred, for any legal or other expenses reasonably incurred by them in connection with investigating or defending any such loss, claim, damage, liability or action; provided, however, that Alpha will not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon any such untrue statement or alleged untrue statement or omission or alleged omission made therein in reliance upon and in conformity with written information furnished to Alpha by or on behalf of BofA Securities or Citi through BofA Securities and Citi specifically for inclusion therein.

Additionally, certain provisions of the capital markets advisory agreement entered into between Citi and Alpha shall survive Citi's resignation as capital markets advisor to Alpha. These provisions include the relevant clauses of the Citi's standard terms and conditions contained in the respective agreements, including (i) that Citi will not assume responsibility for and may rely, without independent verification, on the accuracy and completeness of any publicly available information and information in reports and other materials provided by others, including, without limitation, information provided by or on behalf of Alpha (the "**Information Obligations**"), and (ii) Alpha's obligation to indemnify and hold harmless Citi and its affiliates and their respective directors, officers, agents and employees and each other person controlling Citi or any of its affiliates, within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act to the full extent lawful, from and against any losses, expenses, claims or proceedings (1) related to or arising out of (A) the contents of oral or written information provided by Alpha, its affiliates and their respective employees or its other agents, which information either Alpha or Citi provides to any actual or potential buyers, sellers, investors or offerees, or (B) any other action or failure to act by Alpha, its affiliates and their respective employees or its other agents or by Citi or any indemnified party in accordance with and at Alpha's request or with Alpha's consent, or (2) otherwise related to or arising out of the engagement or any transaction or conduct in connection therewith, except that clause (2) shall not apply with respect to any losses of an indemnified party that are finally judicially determined to have resulted primarily from the gross negligence or willful misconduct of such indemnified party (the "Surviving Indemnity Obligations").

In addition, certain provisions of the Engagement Letter entered into on December 22, 2020 with Credit Suisse (the "Credit Suisse Engagement Letter") shall survive the resignation of Credit Suisse as Semantix's financial advisor, including: (i) the obligation of Semantix, Leonardo dos Santos Poça D'Água, Leandro dos Santos Poça D'Água and Leonardo Augusto Oliveira Dias (together, the "Principals") not to, without the prior written consent of Credit Suisse, disclose, summarize, extract, or otherwise refer to, in whole or in part, any guidance provided by Credit Suisse in the context of the services described in the Credit Suisse Engagement Letter, whether formally or informally, nor the terms of the Credit Suisse Engagement Letter; (ii) Semantix's obligation to indemnify and hold Credit Suisse and its affiliates and their respective employees, officers and personnel harmless from losses, damages, obligations, or expenses resulting from the provision of services under the Credit Suisse Engagement Letter, including any cost or expense incurred for the defense of their respective rights and interests and/or that the indemnified parties may have to bear as a result of the Credit Suisse Engagement Letter, except for those directly caused by the negligence or willful misconduct of Credit Suisse evidenced in a final arbitration award or in a final court judgment; and (iii) the Principals' obligation to reimburse Credit Suisse for expenses incurred through the date of termination of Credit Suisse's services.

Further, each of the engagement letters and the Underwriting Agreement described above contains a contribution provision in the event the Surviving Indemnity Obligations (or such similar indemnity obligations) are unavailable or otherwise prohibited by law, however, the contribution obligations of each Advisor are limited to the amount of compensation or fees actually paid to such party in respect of the engagement. As a result, the contribution obligations of Citi and BofA Securities under the Underwriting Agreement are limited to the

\$4,600,000 in underwriting fees paid, in the aggregate, by Alpha to Citi and BofA Securities upon the consummation of Alpha's IPO, and the Advisors otherwise have no further contribution liability under the other engagements (including the Underwriting Agreement) because they waived their rights to any fees or deferred underwriting commissions in connection with their resignations. Therefore, as a result of the Advisors' resignations, and in contrast to other transactions where the underwriters and financial advisors did not resign and waive rights to fees or deferred underwriting commissions, as the case may be, the potential financial liability of Alpha and Semantix with respect to an indemnified loss where such indemnification is otherwise unavailable to the indemnified party may be higher under the respective agreements than it would have been had such underwriters and financial advisors not resigned and waived their rights to any fees or deferred underwriting commissions.

The Alpha Board's Reasons for Approval of the Business Combination

In reaching its resolution by a unanimous vote of the directors then present as described above, and in its resolution to reaffirm by a unanimous vote of the directors then present as described above on May 17, 2022, (a) that it was fair to and in the best interests of Alpha and its shareholders, and that it was advisable, to enter into the Business Combination Agreement and the ancillary documents to which Alpha is or will be a party and to consummate the transactions contemplated thereby, (b) to adopt and approve the Business Combination Agreement, the ancillary documents to which Alpha is or will be a party and the transactions contemplated thereby, (c) to recommend that the Alpha shareholders vote in favor of the Business Combination Proposal and the other proposals contemplated thereby or in connection with the Business Combination Agreement and the other ancillary documents to which Alpha is or will be a party and the transactions contemplated thereby, and (d) to direct that such proposals be submitted to the Alpha shareholders for approval, the Alpha Board considered a wide variety of factors in connection with its evaluation of the business combination, including the fact that the Business Combination does not permit the Alpha Board to change, withdraw, withhold, qualify or modify, or publicly propose to change, withdraw, withhold, qualify or modify its recommendation in favor of adoption of the Transaction Proposals, unless the Alpha Board determines in good faith, and after consultation with its outside counsel, that the failure to make such a change in recommendation would reasonably be expected to breach its fiduciary duties under applicable law. In light of the complexity of those factors, the Alpha Board, as a whole, did not consider it practicable to, nor did it attempt to, quantify or otherwise assign relative weights to the specific factors it took into account in reaching its decision. Individual members of the Alpha Board may have given different weight to different factors. Alpha's reasons for the board of directors' approval of the Business Combination, and all other information presented in this section, is forward-looking in nature and, therefore, should be read in light of the factors discussed under "*Cautionary Statement Regarding Forward-Looking Statements.*"

Before reaching its decision, the Alpha Board reviewed the results of due diligence conducted by Alpha's management, together with its advisors, which included, among other things:

- extensive meetings with Alpha's management team, as well as with its legal and financial advisors, regarding Semantix's operations, business model, and projections;
- review of various industry and financial data, including Semantix's existing business model, historical and projected financial information, and various valuation analyses;
- research on the data software, analytics and artificial intelligence industries, including historical growth trends and market share information as well as end-market size and growth projections;
- review of Semantix's commercial strategy;
- analysis of Semantix's historical and projected financial information to understand and validate the key assumptions underpinning the financial projections prepared by Semantix management;
- review of Semantix's material contracts regarding financials, tax, legal, accounting, information technology, insurance, employment and intellectual property;
- financial and valuation analysis of Semantix and the Business Combination;

[Table of Contents](#)

- Semantix’s historical financial statements prepared under Brazilian GAAP, which present different financial information than Semantix’s financial statements prepared in accordance with IFRS accounting standards that are included in this proxy statement/prospectus;
- tax, legal and other diligence findings of external advisors; and
- assessment of Semantix’s public company readiness.

As described in “*Summary—Recent Developments*”, the Advisors have subsequently resigned and withdrawn from their roles with respect to the Business Combination and shareholders should not place any reliance on the participation of the Advisors in the transactions contemplated by this proxy statement/prospectus.

As described in the prospectus for its IPO, Alpha identified general, non-exclusive criteria and guidelines that Alpha believed would be important in analyzing prospective target businesses for a business combination. Alpha indicated its intention to acquire a company that it believes possesses the following characteristics:

- ***Proprietary technology platform which enhances competitive position.*** Businesses with defensible proprietary technology and intellectual property rights, which create a competitive moat. We sought businesses with a first-mover advantage and the opportunity to achieve market leadership with access to capital at a competitive all-in cost.
- ***Size.*** Target businesses whose equity value is between \$600 million and \$1.5 billion. Our management team believed businesses of such size have an adequate mix of market positioning and potential to scale and grow, while also having profitability potential.
- ***Minority equity participation.*** Making a capital investment with the goal of acquiring a significant minority position in the target company’s equity. We fundamentally believed that the founders and the respective management teams should continue to manage and operate the business.
- ***Recurrent and scalable revenue business model.*** Businesses with models that deliver fast growth, highly recurring, contracted revenue, with a preference for those that have minimal or no government contracts or whose business model has limited visibility due to potential regulatory changes. In addition, we would expect the target to deliver steady results consistent with guidance provided to investors.
- ***Companies with a clear path to profitable growth.*** By leveraging our operational expertise, we planned to increase profitability through areas with additional operating leverage, ideally with positive and growing gross and EBITDA margins. We would also expect these companies to have momentum to reach net income profitability in the medium term with a high quality of earnings and strong internal controls to be fully compliant with PCAOB auditing standards. We sought to invest in companies that we believe possess not only established business models and sustainable competitive advantages, but also a growing platform to provide capital gains to equity investors.
- ***Consolidation platform benefitting from a public currency.*** Target companies that can utilize access to the public equity markets to enhance its ability to pursue -accretive transformational or tuck-in acquisitions, high-return on capital growth projects, and/or strengthen its balance sheet and recruit and retain key employees through the use of publicly-traded equity compensation.
- ***Impact investing.*** Being mindful of Environmental, Social and Governance (ESG) factors to ensure that any business combination complements corporate social responsibility with profitability.
- ***Resilient.*** Companies with recession-resilient business models as well experience in absorbing the recurring volatility in Latin American countries. We believe this resilience can be further fostered by having the companies pursue growth out of the region into global addressable markets.
- ***Visionary management team.*** Founders and management teams who are able to execute on the target markets they pursue and serve. We intended to seek businesses with proven and accomplished founders

and management teams that are eager to march forward together with the support of a board of directors, tech industry leaders and having access to large global institutional investors who invest in equity through public markets.

- **Publicly traded company readiness.** Management and stakeholders who aspire to have their business become a public company. Companies should have a strong corporate government and internal processes with standards comparable to a publicly listed company. We believe this will enable a target company to engage in a business combination with us on an expedited basis.
- **Adequate valuation.** A strong risk-adjusted return profile with substantial upside potential to balance and limit potential downside risks.

Based on its due diligence investigations of Semantix and the industry in which it operates, including the financial and other information provided by Semantix in the course of negotiations, the Alpha Board believes that Semantix meets the criteria and guidelines listed above. However, there is no assurance of this. See “*Business Combination Proposal—The Alpha Board’s Reasons for the Business Combination.*”

In particular, the Alpha Board considered the following positive factors:

- **Commercial Rationale.** The Alpha Board noted that Semantix possesses several compelling qualities that it believes enable multiple avenues for value creation:
 - **Large and Growing Data Addressable Market:** Semantix is a growing pure play digital transformation provider with a diversified technology-enabled ecosystem. The proprietary data solutions as a service (SaaS), third-party software licenses and the highly complementary artificial and data analytics services segments are strong, with its proprietary SaaS solutions growing as a percentage of revenue. We understand that according to industry forecasts that worldwide big data and analytics markets are expected to grow substantially between 2020 and 2024, reaching a projected TAM of US\$88.6 billion by 2024.
 - **Proven Business Model with Underlying Growth Drivers:** Semantix’s compelling business model is highlighted by strong retention and high operating leverage. The large and growing TAM is underpinned by perception of strong demand and adoption across attractive end markets. Semantix already has a proven go-to-market strategy known as “land and expand” through which it first introduces companies to simple, entry-level data software via third-party licenses and, over time, aims to enhance customers’ data generation and interpretation with the more robust and multifaceted capabilities of the Semantix Data Platform, thus, in the process, migrating these customers to higher margin products through this transition to the Semantix Data Platform.
 - **Robust Products and/or Solutions:** Semantix has a strong multi-cloud data platform that allows its customers to simply, nimbly and securely manage their data.
 - **Strong Business Fundamentals Underpinned by Attractive Key Metrics:** Significant customer base of over 300 companies across a broad range of sectors with a varied client portfolio of all sizes from small businesses to large enterprises. Fundamentally, Semantix has robust scale and recurring revenues, and a differentiated product offering.
 - **Benefit from Being a Public Company:** Increased funding and exposure is expected to allow Semantix to bring additional products and services to market and accelerate value realization for their customers.
- **Financial Condition.** The Alpha Board also considered factors such as Semantix’s historical financial results, outlook, and financial plan, as well as valuations and trading of publicly traded companies and valuations of precedent merger and acquisition targets in similar and adjacent sectors, as described further below.

- **Attractive Valuation.** The Alpha Board's determination that if Semantix is able to meet its financial projections, then Alpha's shareholders will have acquired their shares in New Semantix at an attractive valuation, which would increase shareholder value.
- **Strong Management Team.** Led by Chief Executive Officer Leonardo Santos, Semantix's management team is experienced with a proven track record. Mr. Santos' experience in building Semantix through consistent organic and inorganic growth is particularly relevant for Semantix's next stage.
- **Strong Sponsorship.** Following the closing, New Semantix will have blue chip shareholders and a permanent capital and public platform suitable for its long-term success, providing stability to all stakeholders.
- **Continued Ownership of Semantix Shareholders.** The Alpha Board considered that the Semantix shareholders would continue to be significant shareholders of New Semantix after Closing, with the Semantix shareholders entering into the Lock-up Agreement.
- **Significant Financing Support.** Subject to the terms and conditions of the Subscription Agreements, approximately \$93 million of private capital has been committed by the PIPE Investors.
- **Terms of the Business Combination Agreement.** The Alpha Board reviewed the financial and other terms and conditions of the Business Combination Agreement, including with respect to the Business Combination, and determined that they were reasonable and were the product of arm's-length negotiations among the parties.
- **Other Alternatives.** Our board of directors' belief that the Business Combination represents the best potential business combination for Alpha resulting from the process utilized to evaluate and assess other potential acquisition targets, and our board of directors' and management's belief that such process had not presented a better alternative for a business combination.

The Alpha Board also reviewed a comparable companies analysis prepared by Alpha's management team. The analysis focused on certain companies, which were deemed comparable to Semantix with respect to certain similar attributes, including analytics, high-growth services and Brazilian software companies listed on different stock exchanges. Alpha's management team further narrowed the peer group by selecting companies with growth trajectories similar to Semantix and with similar proprietary software development and implementation capabilities. Only one company meeting the criteria was excluded, on the basis that it does not have an established presence outside of the U.S. As presented to the Alpha Board on November 8, 2021, the analysis provided for the following peers, insights and metrics:

- Analytics peers (Snowflake, Datadog, Couchbase, mongoDB, Dynatrace, Confluent, Elastic, alteryx, splunk)
 - Expected revenue growth 2020A-2021E ranging from 6% to 94%
 - Firm value to 2022E revenue to revenue growth rate ranging from 0.3x to 1.0x
 - 2022E gross margin range from 68% to 91%
 - 2022E EBITDA margin range from 2% to 26%
 - Firm value to 2022E revenue range from 8.3x to 50.5x
 - Firm value to 2023E revenue range from 6.7x to 32.0x
- High-growth services peers (epam, Globant and endava)
 - Expected revenue growth 2020A-2021E ranging from 38% to 53%
 - Firm value to 2022E revenue to revenue growth rate ranging from 0.2x to 0.3x
 - 2022E gross margin range from 35% to 39%

Table of Contents

- 2022E EBITDA margin range from 19% to 25%
- Firm value to 2022E revenue range from 7.6x to 9.0x
- Firm value to 2023E revenue range from 6.0x to 7.4x
- Brazil software peers (locaweb, TOTVS, VTEX)
 - Expected revenue growth 2020A-2021E ranging from 14% to 51%
 - Firm value to 2022E revenue to revenue growth rate ranging from 0.2x to 0.6x
 - 2022E gross margin range from 53% to 88%
 - 2022E EBITDA margin range from 25% to 27%
 - Firm value to 2022E revenue range from 5.8x to 23.6x
 - Firm value to 2023E revenue range from 5.1x to 18.3x

Based on the comparable companies analysis and other due diligence, the Alpha Board determined that Semantix presented an investment case in line with companies that may be deemed comparable to Semantix in certain respects, including analytics, high-growth services and Brazilian software companies, based on the following metrics:

- Semantix's 2020AE-2021E estimated revenue growth was expected to be 38% (actual revenue growth from 2020 to 2021 was 71.4%);
- Semantix's firm value to 2022E revenue to revenue growth rate of 0.1x
- Semantix's 2022E gross margin of 56.3%
- Semantix's 2022E EBITDA margin of 13.4%
- Semantix's firm value to 2022E revenue of 8.7x
- Semantix's firm value to 2023E revenue of 6.4x

Additionally, the Alpha Board determined that the agreed implied firm value of Semantix of approximately US\$696 million for purposes of the transaction was at an appropriate level when compared with public peers' metrics. For certain risk associated with these projections and estimates, see *"Risk Factors—Risk Related to Semantix's Growth Strategy—The projected financial and operating information in this proxy statement/prospectus relies in large part upon assumptions and analyses developed by us and third-party sources and are based on our ability to achieve, among other factors, certain growth milestones in accordance with our business plans. Certain of the estimates and assumptions on which our projected financial and operating information are based have proven, and may again in the future prove, to be inaccurate in light of subsequent events and circumstances, which may cause our actual results to materially differ from such projections, and which may adversely affect our future profitability, cash flows and the market price of New Semantix Ordinary Shares."*

In connection with reaffirming its prior determination that the Business Combination and the transactions contemplated thereby were in the best interest of Alpha and its shareholders on May 17, 2022, the Alpha Board also reviewed an updated comparable companies analysis prepared by Alpha's management team that reflects the Updated Projections (as discussed below). The analysis focused on the same companies deemed comparable to Semantix with respect to certain similar attributes, including analytics, high-growth services and Brazilian software companies listed on different stock exchanges. Alpha's management team further narrowed the peer group by selecting companies with growth trajectories similar to Semantix and with similar proprietary software development and implementation capabilities. Only one company meeting the criteria was excluded, on the basis that it does not have an established presence outside of the U.S. As presented to the Alpha Board on May 17, 2022, the analysis provided for the following peers, insights and metrics:

Based on the updated comparable companies analysis and discussions regarding the financial performance of Semantix's business, the Alpha Board determined that Semantix continued to present an investment case in line with companies that may be deemed comparable to Semantix in certain respects, including analytics, high-growth services and Brazilian software companies, based on the following metrics that incorporate the Updated Projections (as defined below):

- Semantix's 2020AE-2021E estimated revenue growth was expected to be 38% (actual revenue growth from 2020 to 2021 was 71.4%);
- Semantix's firm value to 2022E revenue to revenue growth rate of 0.3x
- Semantix's 2022E gross margin of 45.5%
- Semantix's 2022E EBITDA margin of 0.4%
- Semantix's firm value to 2022E revenue of 11.1x
- Semantix's firm value to 2023E revenue of 7.9x

Additionally, the Alpha Board determined that the agreed implied firm value of Semantix of approximately US\$696 million for purposes of the transaction was still an attractive level when compared with public peers' metrics. For certain risk associated with these projections and estimates, see *"Risk Factors—Risk Related to Semantix's Growth Strategy—The projected financial and operating information in this proxy statement/ prospectus relies in large part upon assumptions and analyses developed by us and third-party sources and are*

based on our ability to achieve, among other factors, certain growth milestones in accordance with our business plans. Certain of the estimates and assumptions on which our projected financial and operating information are based have proven, and may again in the future prove, to be inaccurate in light of subsequent events and circumstances, which may cause our actual results to materially differ from such projections, and which may adversely affect our future profitability, cash flows and the market price of New Semantix Ordinary Shares.”

In the course of its deliberations, the Alpha Board also considered a variety of uncertainties, risks and other potentially negative reasons relevant to the transaction, including, among others, the following:

- ***Risks Associated with the Business Combination.***
 - the risk that the announcement of the Business Combination and potential diversion of Semantix’s management and employee attention may adversely affect Semantix’s operations;
 - the risk that the Alpha Board may not have properly valued Semantix’s business;
 - the risk that the Business Combination might not be consummated in a timely manner or that the Closing might not occur despite the companies’ efforts, including by reason of a failure to obtain the approval of Alpha shareholders;
 - the risk that Alpha does not obtain the proceeds of the PIPE Financing or, that some of the current Alpha public shareholders exercise their redemption rights, resulting in Alpha being unable to retain sufficient cash in the Trust Account to meet the requirements of the Business Combination Agreement;
 - the risk that New Semantix may not be able to maintain the listing of New Semantix’s securities on Nasdaq following the Business Combination;
 - the fact that Alpha shareholders will not hold a majority position in New Semantix following the Business Combination, which may reduce the influence that Alpha’s current shareholders can exert on New Semantix and New Semantix’s board of directors and management;
 - the Business Combination Agreement provides that Alpha will not have any surviving remedies against Semantix or its equity holders after the Closing to recover for losses as a result of any inaccuracies or breaches of the representations, warranties or covenants of Semantix set forth in the Business Combination Agreement;
 - the possible negative effect of the Business Combination and public announcement of the Business Combination on Semantix’s financial performance and operating results, and Alpha’s stock price;
 - the fact that the Business Combination Agreement includes an exclusivity provision that prohibits Alpha from soliciting or discussing other business combination proposals, and which restricts Alpha’s ability to consider other potential business combinations for so long as the Business Combination Agreement remains in effect;
 - the risk of failure to satisfy the conditions to Closing (to the extent not waived by the parties);
 - the significant fees and expenses associated with completing the Business Combination and related transactions and the substantial time and effort of management required to complete the Business Combination; and
 - the possibility of litigation challenging the Business Combination.
- ***Risks Associated with Semantix’s Business.***
 - the risk of competition in the industry, including the potential for new entrants;
 - the risk associated with Semantix’s ability to maintain and grow its customer base using the Semantix Data Platform;
 - the risk associated with the scalability and security and robustness of Semantix’s platforms;

- the fact that Semantix’s business growth depends on its ability to attract new and retain highly skilled sales team;
 - risks associated with Semantix’s ability to continue hiring senior executives who can scale the business and manage the increasing complexity of the business;
 - risks associated with Semantix’s ability to continue hiring engineers and data experts as labor markets remain competitive;
 - risks associated with customer concentration, with a significant portion of Semantix’s revenues derived from a small number of customers;
 - risks in relation to the ability of Semantix’s customers and suppliers to terminate important contracts at will with only prior written notice;
 - risks associated with a history of losses;
 - risks associated with Semantix’s inability to comply with certain financial ratios in its loan agreements;
 - the risk associated with macroeconomic uncertainty, including as it relates to COVID-19 and the 2022 presidential elections in Brazil, and the effects it could have on Semantix’s revenues;
 - risks associated with geographic expansion; and
 - the risk that certain key employees of Semantix might not choose to remain with Semantix post-Closing.
- ***Risks Related to Limitations of Review.*** The fact that Alpha did not obtain a fairness opinion from any independent investment banking or accounting firm that the price Alpha is paying to acquire Semantix is fair to Alpha or its shareholders from a financial point of view.
 - The other risks described in the section entitled “*Risk Factors.*”

In addition to considering the factors described above, the Alpha Board also considered that certain of the officers and directors of Alpha may have interests in the Business Combination as individuals that may conflict with the interests of Alpha’s shareholders. Alpha’s independent directors reviewed and considered these interests during the negotiation of the Business Combination and in evaluating and approving, as members of the Alpha Board, the Business Combination Agreement and the transactions contemplated therein, including the Business Combination. See the section entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” for a further discussion of these considerations.

After considering the foregoing potentially negative and potentially positive reasons, the Alpha Board concluded, in its business judgment, that the potentially positive reasons relating to the Business Combination outweighed the potentially negative reasons. In connection with its deliberations, the Alpha Board did not consider the fairness of the consideration to be paid by Alpha in the Business Combination to any person other than Alpha. The Alpha Board did not receive or rely upon any financial or valuation analyses conducted or prepared by any of the Advisors in making this determination.

Certain Unaudited Projected Financial Information

The Original Projections

In connection with its consideration of the potential business combination, the Alpha Board was provided in September 2021 with unaudited projected financial information internally prepared by management of Semantix (the “Original Projections”). The Alpha Board reviewed and discussed the Original Projections, and a summary of the Original Projections is provided in this proxy statement/prospectus because they were made available to Alpha and its board of directors in connection with their review of the proposed business combination.

However, since the Original Projections were prepared in September 2021, certain factors arose with the passage of time that affected Semantix's actual results in 2021 and 2022 to date, including, among other unanticipated circumstances, (i) the delayed closing of the Business Combination (and, in particular, the corresponding delay in capital contributions expected therefrom for investment purposes), (ii) the stalled sales growth of Semantix's proprietary SaaS business area and international operations, due in part to management's focused attention on the Business Combination, (iii) differences in accounting treatment arising from the adoption of IFRS and in connection with the completion of the audit of Semantix's historical financial statements for the year ended December 31, 2021 by its independent registered public accounting firm and (iv) a less favorable macroeconomic environment. Accordingly, Semantix's management updated the Original Projections and prepared new projections for 2022 and 2023, as set forth under "*Semantix Updated Projections*" below (such updated projected financial information being referred to as the "Updated Projections" and, together with the Original Projections, the "Projections"). Accordingly, the Original Projections no longer reflect Semantix's management's view on future performance. **You are cautioned not to place reliance on the Original Projections in making a decision regarding the Business Combination.**

Some of the significant assumptions and beliefs on which Semantix's management based its forecasts in preparing the Original Projections include the below factors, certain of which Semantix's management has reconsidered and adjusted in connection with the preparation of the Updated Projections. For additional information regarding Semantix's updated assumptions and projections and the ways in which such assumptions vary from the assumptions used to prepare the Original Projections set forth below as well as a description of the material reasons for these changes, see "*Semantix Updated Projections*":

- a) the earlier expectation of a compounded annual growth rate ("CAGR") of 58% in net revenue from 2019 through 2023 (which assumption Semantix's management subsequently adjusted in preparing the Updated Projections), based on the expected accelerated digitalization of companies to maintain their competitiveness and Semantix's belief that it is able to capture this growth trend with its data solutions;
- b) significant acceleration in usage and demand for Semantix's proprietary SaaS data platform as main growth lever despite such business area comprising a relatively minor portion of Semantix's product mix historically, reflecting Semantix's earlier belief that its proprietary SaaS data platform could increase from 1% of its software revenue in 2019 to 71% in 2023 (which assumption Semantix's management subsequently adjusted in preparing the Updated Projections), while Semantix previously believed that its lower-margin third-party software could decrease from 99% of its software revenue in 2019 to 29% in 2023 (which assumption Semantix's management subsequently adjusted in preparing the Updated Projections), relying in part on the migration of customers from third-party platforms to Semantix's proprietary data platform (for additional information and uncertainties related thereto, see "*Risk Factors—Risks Related to Semantix's Growth Strategy—Our growth strategy is significantly dependent on the accelerated expansion of our proprietary SaaS business, which, in turn, relies to a great extent on receptiveness to, and adoption of, our proprietary data platform that was recently developed by us and, therefore, has a limited operating track record*");
- c) strong growth in AI & data analytics services, especially due to the offering of training related to Semantix's proprietary SaaS data platform;
- d) improving profitability due to the earlier expectation of costs to decrease as a percentage of revenues over time, though increasing in absolute value as the business grows, resulting in an earlier expectation of a 2,127 increase in gross margin basis points from 2019 to 2023 (which assumption Semantix's management subsequently adjusted in preparing the Updated Projections);
- e) selling, general and administrative ("SG&A") expenses previously expected to remain consistent with historical operating trends, from 46% of total revenue in 2019 to an originally projected 40% of total revenue in 2023 despite expected increases in scale (which assumption Semantix's management subsequently adjusted in preparing the Updated Projections);
- f) increase in cross and up-selling with existing clients, based on Semantix's ability to continue to develop and foster strong relationships with existing customers;

[Table of Contents](#)

- g) investments in well-defined sales and marketing strategies that we believe should generate leads and drive demand, with sales and marketing expenses originally projected to increase from a 14% of total revenue in 2019 to 18% of total revenue in 2023 (which assumption Semantix's management subsequently adjusted in preparing the Updated Projections);
- h) roll-up of proprietary products and solutions, with a product roadmap aimed to offer new complementary products and solutions to stay ahead of competition by pioneering customers' demands that enable digital transformation; and
- i) expansion of Semantix's geographic reach, including increase of penetration and growth of Semantix's current markets and also in other countries.

- (1) The Original Projections are being included in this proxy statement/prospectus because they were made available to Alpha and its board of directors in connection with their review of the proposed business combination. However, since the Original Projections were prepared in September 2021, certain factors arose with the passage of time that affected Semantix's actual results in 2021 and 2022 to date, including, among other unanticipated circumstances, (i) the delayed closing of the Business Combination (and, in particular, the corresponding delay in capital contributions expected therefrom for investment purposes), (ii) the stalled sales growth of Semantix's proprietary SaaS business area and international operations, due in part to management's focused attention on the Business Combination, (iii) differences in accounting treatment arising from the adoption of IFRS and in connection with the completion of the audit of Semantix's historical financial statements for the year ended December 31, 2021 by its independent registered public accounting firm and (iv) a less favorable macroeconomic environment. Accordingly, Semantix's management updated these Original Projections for 2022 and 2023 and, therefore, the Original Projections no longer reflect Semantix's management's view on future performance. **You are cautioned**

not to place reliance on the Original Projections in making a decision regarding the Business Combination (for additional information regarding Semantix's updated assumptions and projections, see "*Semantix Updated Projections*" below).

- (2) The Original Projections were initially prepared by Semantix's management in September 2021 considering the historical results of Semantix and LinkAPI, a company acquired by Semantix in December 2020 (for additional information regarding LinkAPI, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Semantix—Growth through Acquisitions—LinkAPI*"). At that point in time, the only historical financial statements available for Semantix were prepared in accordance with Brazilian GAAP and were different in significant ways from Semantix's financial statements prepared in accordance with IFRS accounting standards that are included in this proxy statement/ prospectus, and no IFRS financial statements for LinkAPI were then available. Starting in October 2021, Semantix's management began the process to update its historical financial statements, including the adoption of IFRS accounting standards. At the same time, management of LinkAPI began the process to prepare financial statements in conformity with IFRS accounting standards. However, these processes were not yet complete at the time the Original Projections were prepared and made available to the Alpha Board and, therefore, some of the historical financial information incorporated into the Original Projections differs from the historical financial information included elsewhere in this proxy statement/ prospectus.
- (3) These estimates for the year ended December 31, 2021 were prepared by Semantix's management in September 2021 and, therefore, did not fully consider actual events and the actual performance of Semantix occurring in 2021 subsequent to the date that the Original Projections were prepared. Accordingly, actual results for the year ended December 31, 2021 are different from the previously projected estimates for 2021 set forth above. See "*Risk Factors—Risks Related to Semantix's Growth Strategy—The projected financial and operating information in this proxy statement/prospectus relies in large part upon assumptions and analyses developed by us and third-party sources and are based on our ability to achieve, among other factors, certain growth milestones in accordance with our business plans. - (4) Semantix calculated projected EBITDA as projected income (loss) for the period *plus* projected net interest income (expenses), *plus* projected income tax *plus* projected depreciation and amortization. EBITDA is a non-GAAP measure. Semantix's calculation of projected EBITDA may be different from the calculation used by other companies, including Semantix's competitors in the industry, and therefore, these EBITDA measures may not be comparable to those of other companies. For a reconciliation of Semantix's originally projected EBITDA to its originally projected net income (loss), see "*Semantix Original Projected Non-GAAP Reconciliations*" below.
- (5) Semantix calculated projected Adjusted EBITDA for 2021 as projected EBITDA excluding the projected impacts in 2021 of isolated research expenses incurred in connection with the recent redesign and relaunch of Semantix's proprietary data platform with the purpose of enhancing its functionality arising in relation to a single contract with a single supplier over a three-year period starting in 2019 and, following the relaunch of its data platform, which Semantix does not expect to incur on an ongoing basis. For a reconciliation of Semantix's projected EBITDA to its projected net income (loss), see "*Semantix Original Projected Non-GAAP Reconciliations*" below.
- (6) Amounts in *reais* for the years presented have been translated to U.S. dollars using an exchange rate of R\$5.4394 to US\$1.00, the commercial selling rate for U.S. dollars as reported by the Central Bank as of September 30, 2021, the month during which the Original Projections were prepared by Semantix's management. These translations should not be considered representations that any such amounts have been, could have been or could be converted at that or any other exchange rate.

Semantix Updated Projections

Semantix believed the forecasts and assumptions described above incorporated into the Original Projections were reasonable at the time the Original Projections were prepared, given the information Semantix had at that time and its business strategy and performance trends at such time. However, since the Original Projections were prepared in September 2021, certain factors arose with the passage of time that affected Semantix’s actual results in 2021 and 2022 to date, including, among other unanticipated circumstances, (i) the delayed closing of the Business Combination (and, in particular, the corresponding delay in capital contributions expected therefrom for investment purposes), (ii) the stalled sales growth of Semantix’s proprietary SaaS business area and international operations, due in part to management’s focused attention on the Business Combination, (iii) differences in accounting treatment arising from the adoption of IFRS and in connection with the completion of the audit of Semantix’s historical financial statements for the year ended December 31, 2021 by its independent registered public accounting firm and (iv) a less favorable macroeconomic environment. Accordingly, Semantix’s management prepared the Updated Projections to reflect the adjusted assumptions and expectations of Semantix’s management regarding Semantix for 2022 and 2023. Accordingly, **the Original Projections do not reflect Semantix’s management’s view on future performance, and you are cautioned not to place reliance on the Original Projections in making a decision regarding the Business Combination.**

Comparison of Original Projections and Updated Projections

Among other updates, Semantix’s management made the following main changes in preparing the Updated Projections as compared to the Original Projections:

- **Updated Revenue Projections.** Semantix’s management decreased total net revenues projections (i) for 2022, by R\$105.6 million, from R\$395.8 million in the Original Projections to R\$290.2 million in the Updated Projections and (ii) for 2023, by R\$131.6 million, from R\$538.3 million in the Original Projections to R\$406.7 million for the Updated Projections, mainly attributable to:
 - (a) a decrease in projected proprietary SaaS revenue (a R\$98.7 million decrease in 2022 as compared to the Original Projections and a R\$135.0 million decrease in 2023 as compared to the Original Projections), reflecting primarily a delay in previously expected strategic investments for the further development of Semantix’s proprietary SaaS business area, including delays in hiring additional developers, investments

in Semantix's proprietary platform to enhance functionality and conclusion of other strategic initiatives intended to attract new customers and increase average ticket, including international expansion, due to, among other factors, a longer than anticipated period for the consummation of the Business Combination, which occupied management's attention to date and caused a corresponding delay in capital contributions expected from the Business Combination to be used for investment purposes; and

(b) a decrease in projected AI & data analytics services revenue (a R\$13.5 million decrease in 2022 as compared to the Original Projections and a R\$17.0 million decrease in 2023 as compared to the Original Projections), in line with the decrease in projected proprietary SaaS revenue for the same reasons.

These decreases were partially offset by an increase in third-party software revenue (a R\$6.6 million increase in 2022 as compared to the Original Projections and a R\$20.5 million increase in 2023 as compared to the Original Projections), mainly due to a review in market opportunity.

- *Updated SG&A Projections.* Semantix's management increased its selling, general and administrative ("SG&A") expenses projections (i) for 2022, by R\$16.2 million, from R\$169.8 million in the Original Projections to R\$186.0 million in the Updated Projections and (ii) for 2023, by R\$13.1 million, from R\$217.8 million in the Original Projections to R\$230.9 million in the Updated Projections, mainly in anticipation of higher than originally expected expenses related to the Business Combination as a result of the longer than anticipated transaction timeline and additional expenses arising as a result of being a U.S. public company, including expenses related to D&O insurance and an increase in expenses recorded reflecting accounting treatment for share-based compensation.
- *Updated EBITDA Projections.* Semantix's management decreased its EBITDA projections (i) for 2022, by R\$107.1 million, from a positive R\$53.0 million EBITDA estimate in the Original Projections to a negative EBITDA estimate of R\$54.1 million in the Updated Projections and (ii) for 2023, by R\$123.6 million, from a positive R\$123.0 million EBITDA estimate in the Original Projections to a negative R\$0.6 million EBITDA estimate in the Updated Projections. Notwithstanding these downward adjustments, considering that many of the factors driving the negative results in 2022 and 2023 were isolated in nature, particularly the extraordinary expenses estimated related to the Business Combination on an extended time horizon as well as related additional estimated expenses emanating from Semantix's transition to being a public company (such as increased share-based compensation expenses and insurance costs for coverage of directors and officers) and, therefore, not reflective of Semantix's anticipated future performance, Semantix's management made additional adjustments in calculating Adjusted EBITDA for purposes of the Updated Projections, as reflected below under "*Semantix Updated Projected Non-GAAP Reconciliations.*"

The above variations between the Original Projections and Updated Projections reflect certain unanticipated circumstances and events that Semantix's management was unable to forecast at the time that the Original Projections were made. When the Business Combination Agreement was executed, Semantix had recently completed the relaunch of its proprietary SaaS platform and had at around the same time executed a number of strategic acquisitions and investments (mainly, LinkAPI and Tradimus) intended to accelerate the growth of this business area. Semantix therefore believed that it was well-positioned for further expansion of its proprietary SaaS business area at a rapid pace. However, with the passage of time and, mainly, a longer than anticipated Business Combination transaction timeline that occupied management's attention and involved higher than expected expenses, Semantix did not have the resources that it anticipated to fund growth initiatives for its proprietary SaaS business in the manner originally contemplated, particularly considering the delayed capital contributions from the Business Combination. At the conclusion of the Business Combination, Semantix intends to use a relevant portion of the proceeds from the Business Combination to continue the expansion of its proprietary SaaS business area through organic initiatives as well as acquisition opportunities and, accordingly, with the appropriate resources accelerate growth of its proprietary SaaS business area in furtherance of its business strategy.

In addition, Semantix lost certain clients at the end of 2021 and beginning of 2022 that it was not anticipating due to these clients reconsidering their data approach (corresponding to loss provisions and

Table of Contents

allowances for doubtful accounts totaling approximately R\$25.0 million recorded in 2021 and with estimated future lost revenue going forward). As one of the clients that terminated its relationship with Semantix was in the United States, this caused unanticipated delays in relation to Semantix's international expansion (for additional information regarding the risks in relation to early termination by Semantix's clients, see *"Risk Factors—Risks Related to Semantix's Business and Industry—Our customers may terminate engagements before completion or choose not to enter into new engagements with us on terms acceptable to us, or at all"*).

Furthermore, the worsening of the global macroeconomic environment from the time that the Original Projections were prepared to the time that the Updated Projections were prepared, particularly the less favorable interest rate environment, also contributed to certain adjustments by Semantix's management to its original growth assumptions. For an explanation of the primary ways in which macroeconomic factors impact Semantix's results, see *"Risk Factors—Risks Related to Semantix's Operations in Latin America"* and *"Management's Discussion and Analysis of Financial Condition and Results of Operations of Semantix—Significant Factors Affecting our Results of Operations—Brazilian Macroeconomic Environment."*

Key Elements of the Updated Projections

- (1) Semantix calculated projected EBITDA as projected income (loss) for the period plus projected net interest income (expenses), plus projected income tax plus projected depreciation and amortization. EBITDA is a non-GAAP measure. Semantix's calculation of projected EBITDA may be different from the calculation used by other companies, including Semantix's competitors in the industry, and therefore, these EBITDA measures may not be comparable to those of other companies. For a reconciliation of Semantix's projected EBITDA to its projected net income (loss), see "*Semantix Updated Projected Non-GAAP Reconciliations*" below.
- (2) Semantix calculated projected Adjusted EBITDA for as projected EBITDA excluding the projected impacts of certain extraordinary expenses estimated related to execution of the Business Combination on a delayed timeframe as well as related additional estimated expenses emanating from Semantix's transition to being a public company (such as increased share-based compensation expenses and insurance costs for coverage of directors and officers), which Semantix's management believes are isolated in nature and, therefore, not reflective of Semantix's anticipated future performance. For a reconciliation of Semantix's projected Adjusted EBITDA to its projected net income (loss), see "*Semantix Updated Projected Non-GAAP Reconciliations*" below.
- (3) Amounts in *reais* for the years presented have been translated to U.S. dollars using an exchange rate of R\$5.00 to US\$1.00, the commercial selling rate for U.S. dollars as reported by the Central Bank as of May 5, 2022, the date on which the Updated Projections were prepared by Semantix's management, which is different from the exchange rate used for the translations of the Original Projections. These translations

are not comparable. In addition, these translations should not be considered representations that any such amounts have been, could have been or could be converted at that or any other exchange rate.

The Updated Projections now incorporate 2021 actual results prepared in accordance with IFRS, whereas the Original Projections considered only 2021 estimates based on Brazilian GAAP. The Original Projections were initially prepared by Semantix's management in September 2021 considering the historical results of Semantix and LinkAPI, a company acquired by Semantix in December 2020 (for additional information regarding LinkAPI, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Semantix—Growth through Acquisitions—LinkAPI*"). At that point in time, the only historical financial statements available for Semantix were prepared in accordance with Brazilian GAAP and were different in significant ways from Semantix's financial statements prepared in accordance with IFRS accounting standards that are included in this proxy statement/prospectus, and no IFRS financial statements for LinkAPI were then available. Starting in October 2021, Semantix's management began the process to update its historical financial statements, including the adoption of IFRS accounting standards. At the same time, management of LinkAPI began the process to prepare financial statements in conformity with IFRS accounting standards. However, these processes were not yet complete at the time the Original Projections were prepared and made available to the Alpha Board and, therefore, some of the historical financial information incorporated into the Original Projections differs from the historical financial information included elsewhere in this proxy statement/prospectus and now incorporated into the Updated Projections.

In connection with the preparation of Semantix's IFRS financial statements, the management of Semantix identified certain differences in the adoption of Brazilian GAAP and IFRS accounting standards, mainly related to the accounting for research and development expenses and share-based compensation which totaled R\$11.3 million in incremental expenses in the year ended December 31, 2020 after adoption of IFRS accounting standards.

Furthermore, as part of the process of preparing Semantix's audited IFRS financial statements as of and for the year ended December 31, 2021 for inclusion in this proxy statement/prospectus, different accounting treatment for certain items contributed to a relevant variation as compared to the previously projected 2021 results incorporated into the Original Projections. The main impacts arising from these differences in accounting treatment relate mostly to SG&A as follows: (i) the recording of an additional R\$2.5 million in research and development expenses reflecting accounting for payments made on a three-year contract that Semantix entered into in 2019 in connection with the relaunch of its proprietary SaaS platform that were not previously considered when preparing the Original Projections, (ii) additional amortization expenses recorded in the amount of R\$2.8 million corresponding to certain expenses related to Semantix's internal software development, (iii) the recording of R\$13.4 million in share-based compensation expenses related to stock-option grants that was not considered when preparing the Original Projections and (iv) expenses recorded related to earn-out payments in the amount of R\$4.9 million (primarily related to Semantix's acquisition of LinkAPI) that were not considered when preparing the Original Projections. These differences in accounting treatment for 2021 also impacted projections for subsequent periods when preparing the Updated Projections, particularly the accounting for share-based compensation, which contributed to a projected increase of SG&A in the amount of R\$24.9 million in 2022 and R\$33.6 million in 2023 when preparing the Updated Projections as compared to the Original Projections.

Semantix Updated Projected Non-GAAP Reconciliations

The following table below sets forth a reconciliation of Semantix's updated projected profit (loss) for each of the years indicated to updated projected EBITDA and updated projected Adjusted EBITDA for each of the same years.

- (1) Semantix calculated projected Adjusted EBITDA as projected EBITDA excluding the projected impacts of certain extraordinary expenses estimated related to execution of the Business Combination on a delayed timeframe as well as related additional estimated expenses emanating from Semantix's transition to being a public company (such as increased share-based compensation expenses and insurance costs for coverage of directors and officers), which Semantix's management believes are isolated in nature and, therefore, not reflective of Semantix's anticipated future performance. For a reconciliation of Semantix's projected Adjusted EBITDA to its projected net income (loss), see "—Semantix Updated Projected Non-GAAP Reconciliations" below.

Updated Assumptions

Semantix's management also adjusted certain of the significant assumptions and beliefs on which it based the Updated Projections as compared to the Original Projections, as follows:

- a) a decrease in revenue growth expectations for the period from 2019 to 2023, assuming for purposes of the Updated Projections a CAGR of 47% in net revenue, while previously it was assumed for purposes of the Original Projections that net revenue could grow at a CAGR of 58% over the same period, reflecting the ongoing expectation that companies will accelerate digitalization to maintain their competitiveness but adjusting expectations regarding Semantix's ability to fully capture this growth trend by 2023 considering delays in the implementation of certain strategic initiatives due in part to management's diverted attention as a result of focus on the Business Combination to date and corresponding delay in capital contributions expected from the Business Combination to be used for investment purposes;
- b) updated assumptions regarding product mix, which Semantix's management considered to be a main change in preparing the Updated Projections, assuming for purposes of the Updated Projections that:
 - (i) revenue from Semantix's proprietary SaaS data platform can increase to 55% of its software revenue by 2023, while previously it was assumed for purposes of the Original Projections that it could comprise 71% of its software revenues by 2023, reflecting the continued expectation that Semantix's proprietary solutions will propel growth and comprise a greater portion of total revenue over time, while adjusting expectations in relation to the speed that transformation may occur considering delays in implementing important investments and expansion initiatives geared towards growth of its proprietary SaaS business area, further product development as well as sales force and marketing investments oriented towards (a) improving retention performance, (b) adding new proprietary SaaS clients and (c) ticket expansion for proprietary SaaS clients with new features to be added to Semantix's proprietary SaaS platform (for additional information

and uncertainties related to Semantix's expansion of its proprietary SaaS business area, see *"Risk Factors—Risks Related to Semantix's Growth Strategy—Our growth strategy is significantly dependent on the accelerated expansion of our proprietary SaaS business, which, in turn, relies to a great extent on receptiveness to, and adoption of, our proprietary data platform that was recently developed by us and, therefore, has a limited operating track record"*); and

(ii) revenue contributions from Semantix's third-party software solutions will remain material through 2023 and beyond, assuming for purposes of the Updated Projections that 45% of Semantix's software revenue in 2023 will still derive from third-party solutions, while previously it was assumed for purposes of the Original Projections that third-party software would only comprise 29% of Semantix's software revenue in 2023, reflecting a review of market opportunity and assuming less conversion of existing clients from third-party software solutions to proprietary SaaS solutions than originally assumed;

c) updated assumptions regarding profitability, assuming for purposes of the Updated Projections that cost can decrease as a percentage of revenues over time, though increasing in absolute value as the business grows, assuming a 1,500 increase in gross margin basis points from 2019 to 2023, while, for purposes of the Original Projections, a 2,127 increase in gross margin basis points was previously assumed over the same period, reflecting lower assumed revenue growth, as described above, and higher than originally assumed costs in relation to being a public company and to support expansion of Semantix's proprietary SaaS business area;

d) updated assumptions regarding SG&A expenses, assuming for purposes of the Updated Projections that they will comprise 57% of total revenue by 2023 despite expected increases in scale, while previously it was assumed for purposes of the Original Projections that SG&A would comprise only 40% of total revenue by 2023, reflecting mainly (i) lower assumed revenue forecasts, as described above, (ii) adjusted expectations regarding certain expenses correlated with being a public company (including D&O insurance), (iii) assumed increases in personnel expenses to reflect the recent hiring of new executives and the anticipated hiring of additional developers through 2023 to support growth and (iv) accounting for share-based compensation; and

e) updated assumptions that sales and marketing expenses will comprise 12% of total revenue in 2023 for purposes of the Updated Projections, while previously it was assumed that sales and marketing expenses would comprise 18% of total revenue in 2023 for purposes of the Original Projections, reflecting mainly the emergence of other expenses that were not previously considered in preparing the Original Projections that would effectively reduce funds allocable to sales and marketing expenses and updated assumptions in relation to revenue growth.

Notwithstanding the updates and adjustments described above in preparing the Updated Projections, the Semantix forecasts continue to be solely for internal use and not with a view toward public disclosure, the published guidelines of the SEC regarding projections or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information. The Projections were prepared in good faith by Semantix's management, based on their reasonable estimates, beliefs and assumptions with respect to the expected future financial performance of Semantix based on available information and Semantix's growth strategy at the time each of the Original Projections and Updated Projections were prepared and speak only as of that time.

The inclusion of Projections in this proxy statement/prospectus should not be regarded as an indication that Semantix, New Semantix, Alpha, their board of directors, or their respective affiliates, advisors or other representatives considered, or now consider, such Projections necessarily to be predictive of actual future results. The Projections are not included in this proxy statement/prospectus in order to induce any Alpha shareholders to vote in favor of or against the Business Combination.

The Projections are not fact and should not be relied upon as being indicative of future results, and readers of this proxy statement/prospectus, including investors or holders, are cautioned not to place reliance on this

information. You are cautioned not to place reliance on the Projections in making a decision regarding the Business Combination, as the Projections may be materially different than actual results. New Semantix will not refer back to the Projections in its future periodic reports filed under the Exchange Act. The Projections are forward looking and reflect numerous estimates, beliefs and assumptions, including, but not limited to, general business, economic, regulatory, market and financial conditions, as well as assumptions about competition, future performance, the acceleration of data analytics adoption and matters specific to Semantix's business, all of which are difficult to predict and many of which are beyond Semantix's and Alpha's control. In particular, the Updated Projections reflect Semantix's beliefs and expectations regarding customer demand for, and future performance of, its proprietary data platform, which Semantix assumes will drive future revenue growth, as well as Semantix's ability to expand its business geographically and otherwise, and such beliefs may not correspond with actual future results.

The Projections included in this document were prepared by, and are the responsibility of, Semantix's management. Neither Semantix's independent registered public accounting firm, nor any other independent accountants, have audited, reviewed, compiled, examined, or performed any procedures with respect to the Projections contained herein, and, accordingly, neither Semantix's independent registered public accounting firm, nor any other independent accountants have expressed an opinion or any other form of assurance with respect thereto. The report of Semantix's independent registered public accounting firm included in this document relates to Semantix's previously issued financial statements. It does not extend to the Projections and should not be read to do so.

The Updated Projections were prepared in response to unanticipated circumstances that arose since the time the Original Projections were prepared, and additional factors may arise that could further affect actual results and cause the results reflected in the Updated Projections to not be accurate. There are important factors that may affect actual results and cause the results reflected in the Projections not to be achieved including, among other matters, risks and uncertainties relating to Semantix's business, industry performance, and general business and economic conditions, such as the ongoing impacts of the COVID-19 pandemic, the conflict between Russia and the Ukraine (which arose only after the Original Projections were prepared) and other political and macroeconomic factors, especially considering the 2022 presidential elections in Brazil. In addition, actual customer demand for the data solutions and services that Semantix sells, particularly demand for Semantix's proprietary data platform, will strongly impact actual results in a way that could be materially different from the Projections, particularly as the revenue projections substantially rely on a significant shift in Semantix's product mix, from third-party software solutions to higher-margin proprietary data solutions, and there is no guarantee that such migration will actually occur. The Projections also reflect assumptions as to certain business decisions and strategy that are subject to change.

In addition, the Projections treat Semantix on a standalone basis, without giving effect to the Business Combination. The Updated Projections do reflect certain cost estimates regarding the Business Combination, however, the actual expenses that may be incurred in connection with consummating the transactions may be significantly higher. The Updated Projections do not illustrate the effect of any business or strategic decision or action that has been or will be taken as a result of the Business Combination Agreement being executed, or the effect of any business or strategic decisions or actions that would likely have been taken if the merger agreement had not been executed but which were instead altered, accelerated, postponed or not taken in anticipation of the transactions.

EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE FEDERAL SECURITIES LAWS, NONE OF SEMANTIX, NEW SEMANTIX NOR ALPHA INTEND TO MAKE PUBLICLY AVAILABLE ANY UPDATE OR OTHER REVISION TO THE PROJECTIONS. BY INCLUDING IN THIS PROXY STATEMENT/PROSPECTUS A SUMMARY OF THE PROJECTIONS FOR SEMANTIX, NEITHER ALPHA, SEMANTIX NOR NEW SEMANTIX UNDERTAKES ANY OBLIGATION AND EXPRESSLY DISCLAIMS ANY RESPONSIBILITY TO UPDATE OR REVISE, OR PUBLICLY DISCLOSE ANY UPDATE OR REVISION TO, THESE PROJECTIONS TO REFLECT CIRCUMSTANCES OR EVENTS, INCLUDING

UNANTICIPATED EVENTS, THAT MAY HAVE OCCURRED OR THAT MAY OCCUR AFTER THE PREPARATION OF THESE PROJECTIONS, EVEN IN THE EVENT THAT ANY OR ALL OF THE ASSUMPTIONS UNDERLYING THE PROJECTIONS ARE SHOWN TO BE IN ERROR OR CHANGE.

THE PROJECTIONS DO NOT NECESSARILY REPRESENT THE CURRENT VIEW OF THE BUSINESS BY SEMANTIX'S MANAGEMENT AND SHOULD NOT BE VIEWED AS AN INDICATOR OF NEW SEMANTIX'S FUTURE PERFORMANCE. THE PROJECTIONS DO NOT TAKE INTO ACCOUNT ANY CIRCUMSTANCES OR EVENTS OCCURRING AFTER THE DATE THAT INFORMATION WAS PREPARED. READERS OF THIS PROXY STATEMENT/PROSPECTUS ARE CAUTIONED NOT TO PLACE RELIANCE ON THE PROJECTIONS SET FORTH ABOVE. NONE OF SEMANTIX, NEW SEMANTIX, ALPHA, NOR ANY OF THEIR RESPECTIVE AFFILIATES, OFFICERS, DIRECTORS, ADVISORS OR OTHER REPRESENTATIVES HAS MADE OR MAKES ANY REPRESENTATION TO ANY SEMANTIX SHAREHOLDER, ALPHA SHAREHOLDER OR ANY OTHER PERSON REGARDING ULTIMATE PERFORMANCE COMPARED TO THE INFORMATION CONTAINED IN THE PROJECTIONS OR THAT FINANCIAL AND OPERATING RESULTS WILL BE ACHIEVED.

While presented in this proxy statement/prospectus with numeric specificity, the Projections are forward looking statements that are inherently subject to significant uncertainties and contingencies and numerous variables, many of which are beyond Semantix's control. The various risks and uncertainties include those set forth in the sections entitled "[Risk Factors](#)" beginning on page 74 of this proxy statement/ prospectus and "*Cautionary Statement Regarding Forward-Looking Statements*" beginning on page 7 of this proxy statement/prospectus. As a result, there can be no assurance that the Projections will be realized or that actual results will not be significantly higher or lower than projected. Since the Projections cover multiple years, such information by its nature becomes less reliable with each successive year. These Projections are subjective in many respects and thus are susceptible to multiple interpretations and periodic revisions based on actual experience and business developments.

We encourage you to review the financial statements of Semantix included elsewhere in this proxy statement/prospectus, as well as the financial information in the section entitled "*Unaudited Pro Forma Condensed Combined Financial Information*" in this proxy statement/prospectus and to not rely on any single financial measure.

In addition, neither BofA Securities nor Citi played any role in preparing the Projections shared with Alpha, but Credit Suisse assisted Semantix's management by organizing and providing the Industry Materials in furtherance of the preparation of the Projections fully prepared by Semantix's management based on its own estimates and assumptions. Semantix's management considered the Industry Materials provided by Credit Suisse based on its expertise and experience as an investment bank with coverage in the industries and geographies that Semantix operates. However, Semantix's management conducted its own independent analysis and made its own conclusions in connection with the Industry Materials and otherwise, and, on this basis, Semantix's management prepared the disclosure about Semantix in this proxy statement/prospectus and is fully responsible for this disclosure and any other related work product, including the Projections. None of Credit Suisse or any of its affiliates has informed Semantix or Alpha that it is in disagreement with the Industry Materials previously provided (upon which Semantix's management conducted its own independent analysis and made its own conclusions) or, to the knowledge of Alpha or Semantix, the PIPE Investors of any such disagreement. Accordingly, Alpha and Semantix have no reason to believe that the resignation by Credit Suisse signifies that the Industry Materials provided by Credit Suisse to Semantix (which were considered by Semantix's management in furtherance of preparing the Projections) are no longer reliable, and Semantix's management's independent analysis and conclusions in relation to the Industry Materials have also not changed as a result of Credit Suisse's resignation. However, in Credit Suisse's termination letter, it has, pursuant to Section 11(b)(1) of the Securities Act of 1933, as amended, disclaimed responsibility for any portion of this proxy statement/prospectus, which includes the Projections. The Advisors have resigned in their roles as advisors to Alpha and Semantix in connection with the Business Combination. Citi cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fees. While the Advisors did not otherwise provide any additional detail in their resignation letters either to Alpha and Semantix or to the Securities and

[Table of Contents](#)

Exchange Commission, such resignation may be an indication by such Advisors that such firms do not want to be associated with the disclosure in this proxy statement/prospectus or the underlying business analysis related to the transaction, including the projected financial information shared with Alpha. However, neither Semantix nor Alpha will speculate about the reasons why the Advisors withdrew from their roles as capital markets advisor, financial advisor and underwriters, as the case may be, in connection with the Business Combination and forfeited their fees after doing substantially all the work to earn their fees. Accordingly, shareholders should not place any reliance on the fact that the Advisors have been previously involved with this transaction.

Semantix does not, and New Semantix will not, as a matter of general practice, publicly disclose long-term forecasts or internal projections of its future performance, revenue, financial condition or other results. The Projections should not be viewed as public guidance.

Satisfaction of 80% Test

It is a requirement under our Existing Governing Documents and Nasdaq listing requirements that the Business Combination be with one or more operating businesses or assets with a fair market value equal to at least 80% of the assets held in the Trust Account (excluding taxes payable on the interest earned on the Trust Account) at the time of our execution of a definitive agreement for our initial business combination in connection with our initial business combination.

As of the date of the execution of the Business Combination, the balance of the funds in the Trust Account was approximately \$230 million and 80% thereof represents approximately \$184 million. In reaching its conclusion that the Business Combination meets the 80% asset test, the board of directors looked at the pre-money enterprise value of Semantix of approximately \$630 million (calculated on a cash free basis). In determining whether the enterprise value described above represents the fair market value of Semantix, our board of directors considered all of the factors described above in this section and the fact that the purchase price for Semantix was the result of an arm's-length negotiation. As a result, our board of directors concluded that the fair market value of the business acquired was significantly in excess of 80% of the assets held in the Trust Account (excluding taxes payable on the income earned on the Trust Account). In light of the financial background and experience of the members of our management team and the board of directors, our board of directors believes that the members of our management team and the board of directors are qualified to determine whether the business combination meets the 80% asset test. Our board of directors did not seek or obtain an opinion of an outside financial advisor as to whether the 80% asset test has been met.

Interests of Alpha's Directors and Executive Officers in the Business Combination

When considering the Alpha Board's recommendation that our shareholders vote in favor of the approval of the Business Combination, Alpha's shareholders should be aware that its Sponsor and certain of its directors and officers have interests in the Business Combination that may conflict with the interests of other shareholders generally. Alpha's directors were aware of and considered these interests, among other matters, in evaluating the Business Combination, and in recommending to shareholders that they approve the Business Combination. Alpha's shareholders should take these interests into account in deciding whether to approve the Business Combination. These interests include:

- the fact that certain of Alpha's directors and officers are principals of its Sponsor;

- the fact that 5,750,000 Founder Shares held by its Sponsor, for which it paid \$25,000, will convert on a one-for-one basis, into 5,750,000 shares of New Semantix Ordinary Shares upon the Closing, and such shares will have a significantly higher value at the time of the Business Combination when such shares convert into shares in New Semantix, as described further below:

- (3) Assumes a value of \$10.00 per share, the deemed value of the New Semantix Ordinary Shares in the Business Combination. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
- (4) Assumes a value of \$9.91 per share, which was the closing price of the Alpha Class A Ordinary Shares on the Nasdaq on June 10, 2022. Also assumes the completion of the Business Combination and that the New Semantix Ordinary Shares are unrestricted and freely tradable.
- the fact that if an initial business combination is not consummated by February 23, 2023, our Sponsor, officers, directors and their respective affiliates will lose their entire investment in us of \$64,650,000 in the aggregate, which investment included \$57,500,000 in value of Alpha Class B Ordinary Shares, valued at an assumed price of \$10.00 per share, the value implied by the Business Combination (inclusive of the Sponsor's initial capital contribution of \$25,000), the 7,000,000 private placement warrants acquired for a purchase price of \$7,000,000 in the aggregate, and \$197,500 currently outstanding under an unsecured promissory note issued in the amount of up to \$500,000;
 - the fact that given the differential in the purchase price that its Sponsor paid for the Alpha Class B Ordinary Shares as compared to the price of the public shares sold in the IPO and the 5,750,000 New Semantix Ordinary Shares that the Sponsor will receive upon conversion of the Alpha Class B Ordinary Shares in connection with the Business Combination, the Sponsor and its affiliates may earn a positive rate of return on their investment even if the New Semantix Ordinary Shares trades below the price initially paid for the public shares in the IPO and the public shareholders experience a negative rate of return following the completion of the Business Combination;
 - the fact that its Sponsor, officers and directors have agreed to waive their rights to liquidating distributions from the Trust Account with respect to any shares held by them if Alpha fails to complete an initial business combination and accordingly, its Sponsor, officers and directors will benefit from the completion of a business combination and may be incentivized to complete an acquisition of a less favorable target company or on terms less favorable to shareholders rather than liquidate;
 - the fact that in connection with the Business Combination, we entered into the Subscription Agreements with the PIPE Investors, including affiliates of Sponsor, which provide for the purchase by the PIPE Investors of an aggregate of 9,364,500 Alpha Class A Ordinary Shares, for a purchase price of \$10.00 per ordinary share, in a private placement, the closing of which will occur immediately prior to the First Merger;

- the fact that if the Trust Account is liquidated, including in the event we are unable to complete an initial business combination by February 23, 2023, its Sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than Alpha's independent registered public accounting firm) for services rendered or products sold to us, or a prospective target business with which we have entered into a transaction agreement, reduce the amounts in the Trust Account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, due to reductions in the value of the trust assets, net of the amount of taxes payable, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under Alpha's indemnity of the underwriters of our IPO against certain liabilities, including liabilities under the Securities Act;
- the fact that a certain affiliate of its Sponsor who is a shareholder of Alpha owning, in the aggregate, 2,300,000 of the outstanding Alpha Class A Ordinary Shares, has agreed to vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of the Alpha shareholders is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially;
- the fact that, unless a business combination is completed, Alpha's directors are only entitled to reimbursement for any out-of-pocket expenses incurred by them on Alpha's behalf incident to identifying, investigating and consummating a business combination from funds outside of the Trust Account, which funds are limited;
- the fact that pursuant to the A&R Registration Rights Agreement (as defined below), its Sponsor can demand registration of its registrable securities and it will also have piggy-back" registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing, whereas it does not have such rights today;
- the potential continuation of certain of our directors as directors and in other roles at New Semantix, including that David Lorié will be corporate secretary of New Semantix and receive \$93,333.32 annually in cash compensation; and
- the continued indemnification of current directors and officers of Alpha and the continuation of directors' and officers' liability insurance for a period of six years after the Business Combination.

These interests may influence Alpha's directors in making their recommendation that you vote in favor of the approval of the Business Combination Proposal. You should take these interests into account in deciding whether to approve the Business Combination.

Certain Other Interests in the Business Combination

In addition to the interests of Alpha's directors and officers in the Business Combination, you should be aware that Citi has financial interests that may conflict with the interests of Alpha shareholders and Alpha warrant holders generally.

Alpha consummated its IPO on February 23, 2023. Citi and BofA Securities, Inc. ("BofA Securities") acted as global coordinators and representatives of the underwriters of the IPO and Alpha paid to Citi and BofA Securities underwriting discounts and commissions equal to approximately \$4,600,000 upon consummation of the offering. Pursuant to the IPO underwriting agreement, upon consummation of the Business Combination, Citi and BofA Securities are entitled to \$8,050,000 of deferred underwriting commission, however, BofA Securities has not been engaged as a financial advisor, placement agent, capital markets advisor or in any other capacity, to Alpha or any other party, and has not acted and will not act as a financial advisor, placement agent, capital markets advisor or in any other capacity, in connection with the Business Combination. Moreover, Citi and BofA Securities have resigned as underwriters and agreed to waive their rights to the deferred underwriting commission. See "*Business of Alpha—Alpha History*" and "*Risk Factors—Risks Related to Alpha and the*

Business Combination—Citi and BofA Securities, the underwriters in Alpha’s IPO, were to be compensated in part on a deferred basis for already-rendered underwriting services in connection with Alpha’s IPO, yet Citi and BofA Securities gratuitously and without any consideration from Alpha waived such compensation and disclaimed any responsibility for this proxy statement / prospectus” for additional information.

Citi was also engaged by Alpha as a capital markets advisor to assist with the Business Combination. Alpha had decided to retain Citi as Alpha’s capital markets advisor based primarily on (i) Citi’s extensive knowledge, strong market position and positive reputation in equity capital markets (and particularly with respect to special purpose acquisition company vehicles) and (ii) Citi’s long-standing relationship with Alpha, including Citi’s previous role acting as a global coordinator and representative of the underwriters of the IPO. Citi was not entitled to receive any additional fees for serving as Alpha’s capital markets advisor to assist with the Business Combination. On May 18, 2022, Alpha received notice from Citi terminating its engagement as a capital markets advisor and waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation as underwriter in Alpha’s IPO.

Under the terms of the IPO underwriting agreement, Alpha agreed to indemnify Citi and BofA Securities and related parties against liabilities, including liabilities under federal securities laws, relating to, or arising out of, its engagement.

Neither Alpha nor Semantix relied on their respective financial advisors for the preparation or analysis of any materials provided to the Alpha Board for use as a component of its overall evaluation of Semantix, notwithstanding the Industry Materials provided by Credit Suisse to Semantix upon which Semantix’s management conducted its own independent analysis and made its own conclusions. Alpha and Semantix have no reason to believe that the resignation by Credit Suisse signifies that the Industry Materials provided by Credit Suisse to Semantix are no longer reliable, and Semantix’s management’s independent analysis and conclusions in relation to the Industry Materials have also not changed as a result of Credit Suisse’s resignation.

The Alpha Board did not receive or rely upon any financial or valuation analyses conducted or prepared by any of the Advisors in making its determination that the Business Combination Agreement, and the transactions contemplated thereby, including the Business Combination, were advisable, fair to, and in the best interests of Alpha and its shareholders.

In addition, certain affiliates of Citi are also lenders of Semantix. For additional information, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations of Semantix—Indebtedness*”.

Neither Citi, Credit Suisse, BofA Securities nor any other advisor is entitled, formally or informally, to be retained or engaged in any future matter after the consummation of the Business Combination.

Appraisal or Dissenters’ Rights

No appraisal or dissenters’ rights are available to holders of Alpha Class A Ordinary Shares or Alpha Warrants in connection with the Business Combination.

The Companies Act prescribes when shareholder appraisal rights will be available and sets the limitations on such rights. Where such rights are available, shareholders are entitled to receive fair value for their shares. However, regardless of whether such rights are or are not available, shareholders are still entitled to exercise the rights of redemption as set out herein, and the Alpha Board has determined that the redemption proceeds payable to shareholders who exercise such redemption rights represents the fair value of those shares. Extracts of relevant sections of the Companies Act follow:

238. (1) A member of a constituent company incorporated under this Act shall be entitled to payment of the fair value of that person’s shares upon dissenting from a merger or consolidation.

239. (1) No rights under section 238 shall be available in respect of the shares of any class for which an open market exists on a recognized stock exchange or recognized interdealer quotation system at the expiry date of the period allowed for written notice of an election to dissent under section 238(5), but this section shall not apply if the holders thereof are required by the terms of a plan of merger or consolidation pursuant to section 233 or 237 to accept for such shares anything except —(a) shares of a surviving or consolidated company, or depository receipts in respect thereof; (b) shares of any other company, or depository receipts in respect thereof, which shares or depository receipts at the effective date of the merger or consolidation, are either listed on a national securities exchange or designated as a national market system security on a recognized interdealer quotation system or held of record by more than two thousand holders; (c) cash in lieu of fractional shares or fractional depository receipts described in paragraphs (a) and (b); or (d) any combination of the shares, depository receipts and cash in lieu of fractional shares or fractional depository receipts described in paragraphs (a), (b) and (c).

Regulatory Approvals Required for the Business Combination

Alpha and Semantix are not aware of any regulatory approvals in either the United States or Brazil required for the consummation of the Business Combination.

Listing of New Semantix's Ordinary Shares

Approval of the listing on Nasdaq of New Semantix's Ordinary Shares to be issued in the Business Combination, subject to official notice of issuance, is a condition to each party's obligation to complete the Business Combination.

Required Vote

The approval of the Business Combination Proposal requires an ordinary resolution under Cayman Islands law, being the affirmative vote of the holders of a majority of the ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting.

Resolution to be Voted Upon

The full text of the resolution to be proposed is as follows:

“RESOLVED, as a special resolution, that the transactions contemplated by the Business Combination Agreement, dated as of November 16, 2021 (as may be amended, supplemented, or otherwise modified from time to time), by and among Alpha Capital Acquisition Company, Alpha Capital Holdco Company, Alpha Merger Sub I Company, Alpha Merger Sub II Company, Alpha Merger Sub III Company and Semantix Tecnologia em Sistema de Informação S.A., pursuant to which, among other things, Semantix Tecnologia em Sistema de Informação S.A. and Alpha Capital Acquisition Company will become wholly owned subsidiaries of Alpha Capital Holdco Company, on the terms and conditions set forth therein, be authorised, approved and confirmed in all respects.”

Recommendation with Respect to the Business Combination

The Alpha Board has determined that the Business Combination Agreement is advisable, fair to and in the best interests of Alpha and its shareholders and recommends that the shareholders vote or instruct that their vote be cast “FOR” the approval of the Business Combination Proposal.

THE ALPHA BOARD RECOMMENDS THAT ALPHA'S SHAREHOLDERS VOTE “FOR” THE BUSINESS COMBINATION PROPOSAL. WHEN YOU CONSIDER THE RECOMMENDATION OF THE ALPHA BOARD, YOU SHOULD KEEP IN MIND THAT ALPHA'S DIRECTORS AND EXECUTIVE OFFICERS HAVE INTERESTS IN THE TRANSACTION THAT MAY CONFLICT WITH YOUR INTERESTS AS A SHAREHOLDER, WHICH ARE DESCRIBED ELSEWHERE IN THIS PROXY STATEMENT/PROSPECTUS.

THE BUSINESS COMBINATION AGREEMENT

The following summary describes certain material provisions of the Business Combination Agreement. This summary is qualified in its entirety by reference to the full text of the Business Combination Agreement, which is attached to this proxy statement/prospectus as Annex A. You are encouraged to carefully read the Business Combination Agreement in its entirety for a more complete understanding of the Business Combination. The Business Combination Agreement is included to provide investors and security holders with information regarding the terms of the Business Combination Agreement. In particular, the assertions embodied in representations and warranties by the parties contained in the Business Combination Agreement are subject to important qualifications and limitations agreed to by the parties in connection with negotiating the Business Combination Agreement. The representations, warranties and covenants in the Business Combination Agreement are also qualified, modified in important part by the underlying disclosure schedules which are not filed publicly and which are subject to a contractual standard of materiality different from that generally applicable to shareholders and were used for the purpose of allocating risk among the parties rather than establishing matters as facts. These disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the Business Combination Agreement. Alpha and New Semantix do not believe that these schedules contain information that is material to an investment decision.

The Pre-Closing Exchange

The Business Combination Agreement provides that, in connection with, and prior to the Closing of, the Business Combination, the Semantix shareholders will contribute their shares of Semantix to Newco in exchange for Newco Ordinary Shares, and Semantix will, as a result, become a wholly owned indirect subsidiary of Newco. Subsequent to the execution of the Business Combination Agreement, the Semantix shareholders approved the Business Combination and agreed to perform such Pre-Closing Exchange, including voting in favor of the relevant matters at the shareholders' meetings of Semantix and the exchange of their Semantix shares for the Newco Ordinary Shares.

The Mergers

In accordance with the terms and subject to the conditions of the Business Combination Agreement, the parties have agreed that, on the terms and subject to the conditions set forth therein, at the Closing, (i) First Merger Sub will merge with and into Alpha, with Alpha surviving as a direct wholly owned subsidiary of New Semantix, (ii) immediately thereafter, Alpha will merge with and into Second Merger Sub with Second Merger Sub surviving as a direct wholly owned subsidiary of New Semantix and (iii) as promptly as practicable thereafter, Third Merger Sub will merge with and into Newco with Newco surviving as a direct wholly owned subsidiary of New Semantix.

Effective Times of the Mergers and Closing of the Business Combination

The Mergers are to become effective by the registration of plans of merger by the Cayman Islands Registrar of Companies and each will be effective immediately upon such registration.

Subject to the terms and conditions of the merger agreement, the closing will take place at a time and place to be specified by Alpha and Semantix, on the date which is no later than five (5) business days after the date on

which all of the conditions described below under the subsection entitled “*The Business Combination — The Business Combination Agreement— Conditions to Complete the Business Combination*,” have been satisfied or waived (other than those conditions that by their terms are to be satisfied at the closing, but subject to the satisfaction or waiver of such conditions) or such other time and place as Alpha and Semantix may mutually and reasonably agree.

Alpha, Semantix and New Semantix currently expect to complete the Business Combination in the first half of 2022. However, any delay in satisfying any conditions to the Business Combination could delay completion of the Business Combination. If the Closing has not occurred by August 16, 2022, subject to certain conditions, either Alpha or Semantix may terminate the Business Combination Agreement.

Consideration to be Received in the Business Combination

Alpha Shareholders Merger Consideration

Pursuant to the First Merger, each share of Alpha Class A Ordinary Shares and Alpha Class B Ordinary Share issued and outstanding immediately prior to the First Effective Time (other than shares owned by Alpha, First Merger Sub or any wholly owned subsidiary of Alpha immediately prior to the First Effective Time), will be cancelled and automatically converted into the right to receive one New Semantix Ordinary Share. Each Alpha Class A Ordinary Share validly submitted for redemption in the manner set forth in this prospectus/proxy statement will, in accordance with the Existing Governing Documents, be cancelled and redeemed prior to the First Effective Time and for the avoidance of doubt will not be entitled to any merger consideration.

At the First Effective Time, each of Alpha’s outstanding and unexercised warrants immediately prior to the First Effective Time will cease to represent a right to acquire Alpha Class A Ordinary Shares and will instead represent the right to acquire the same number of New Semantix Ordinary Shares, at the same exercise price and on the same other terms as in effect immediately prior to the Closing of the Business Combination, such warrants as of the Closing of the Business Combination, being referred to herein as New Semantix Warrants.

Semantix Shareholders Merger Consideration

Subsequent to the Pre-Closing Exchange and at the Third Effective Time, New Semantix, Third Merger Sub or any holder of Newco Ordinary Shares:

- (a) The total consideration payable to Semantix shareholders will be an amount of New Semantix Ordinary Shares equal to (a) \$620 million in enterprise value, divided by (b) \$10.00;
- (b) Each Vested Semantix Option will be automatically “net exercised” in full immediately prior to the Third Effective Time for New Semantix Ordinary Shares as determined by multiplying such net number of Semantix Shares by the Exchange Ratio, rounded to the nearest whole share; and
- (c) Each Unvested Semantix Option will automatically be assumed by New Semantix and will be converted into an option to acquire an amount of New Semantix Ordinary Shares with an amount and value determined in accordance with the Exchange Ratio on substantially the same terms and conditions applicable to such Unvested Semantix Option prior to the closing of the Third Merger.

Earn-out Consideration

In addition, certain Semantix shareholders will receive additional consideration in the form of earn-out of New Semantix Ordinary Shares. The Semantix Earn-Out Shares consists of up to an additional 2,500,000 newly issued New Semantix Ordinary Shares. The Semantix Earn-Out Shares will be issued in two equal 1,250,000 tranches based on the achievement of closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date. A given

share price target described above will also be achieved if there is a transaction during the relevant period that results in the New Semantix Ordinary Shares being converted into the right to receive cash or other consideration having a per share value in excess of the applicable closing share price target set forth above. Such Semantix shareholders' right and entitlement to receive the Semantix Earn-Out Shares will be forfeited to the extent that the relevant share price targets have not been achieved by the fifth anniversary of the Closing Date.

Ownership of New Semantix Following the Business Combination

The following table illustrates varying estimated ownership levels in New Semantix immediately following the consummation of the Business Combination, based on the varying levels of redemptions by the public shareholders and the following additional assumptions:

	Share Ownership in New Semantix ⁽¹⁾		
	No Redemptions ⁽²⁾ Percentage of Outstanding Shares	Interim Redemptions ⁽³⁾ Percentage of Outstanding Shares	Maximum Redemptions ⁽⁴⁾ Percentage of Outstanding Shares
Alpha shareholders (other than the Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser)) ⁽⁵⁾	20.7%	11.5%	—%
Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) ⁽⁵⁾⁽⁶⁾⁽⁷⁾	8.1%	9.0%	10.2%
PIPE Investors (other than Semantix shareholders and the Sponsor's affiliates (consisting of certain entities affiliated with Alec Oxenford and Rafael Steinhauser))	3.2%	3.5%	4.0%
Semantix shareholders ⁽⁸⁾	68.1%	75.9%	85.8%

- (1) As of immediately following the consummation of the Business Combination and in each case, in consideration of PIPE Investors that are also existing shareholders of Semantix. Percentages may not add to 100% due to rounding. For a more detailed description of share ownership upon consummation of the Business Combination, see "*Security Ownership of Certain Beneficial Owners and Management*."
- (2) Assumes that no public shares are redeemed.
- (3) Assumes that 10,350,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share (being our estimate of 50% of the maximum number of public shares that could be redeemed after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement).
- (4) Assumes that 20,700,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share, after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement. Also assumes that, after giving effect to the payments to the redeeming public shareholders in this maximum redemption scenario, a minimum of \$85,000,000 of cash would be held in the Trust Account, including the net amount of proceeds actually paid to Alpha upon the consummation of the PIPE Investment, in satisfaction of the Minimum Available Cash Condition.
- (5) Excludes New Semantix Warrants.
- (6) Considering the exercise of all New Semantix Warrants, the Sponsor and its affiliates (consisting of Innova and certain entities affiliated with Alec Oxenford and Rafael Steinhauser) would own (i) 13.7% of New Semantix's share capital under the no redemptions scenario, (ii) 15.8% of New Semantix's share capital under the interim redemptions scenario, and (iii) 18.5% of New Semantix's share capital under the maximum redemptions scenario.

Table of Contents

- (7) Includes 862,500 Alpha Earn-Out Shares subject to vesting requirements under the Sponsor Letter Agreement but which, prior to vesting or forfeiture, entitle the holder to all rights of other New Semantix Ordinary Shares (other than the right to receive dividends), including the right to vote.
- (8) Excludes (i) equity awards issued at Closing upon rollover of the Unvested Semantix Options, (ii) Semantix Earn-Out Shares, and (iii) equity awards to be issued under the 2022 Plan.

Alpha cannot predict how many of the public Alpha shareholders will exercise their right to have their Alpha Class A Ordinary Shares redeemed for cash. As a result, Alpha has elected to provide the unaudited pro forma condensed combined financial information under the above three different redemption scenarios of Alpha shares into cash, each of which produce different allocations of total Alpha equity between holders of Alpha ordinary shares. The actual results will likely be within the parameters described by the three redemption scenarios; however, there can be no assurance regarding which scenario will be closest to the actual results.

Representations and Warranties

In the Business Combination Agreement, Alpha made certain customary representations and warranties to Semantix, including, among others, representations and warranties related to the following: corporate matters, including organization, existence and standing; capitalization; subsidiaries; authority and binding effect relative to execution and delivery of the Business Combination Agreement and other ancillary agreements; no conflict; governmental approvals; SEC filings and financial statements; absence of certain changes; litigation and proceedings; certain business activities; material contracts; Nasdaq stock market quotation; PIPE Investment; financial ability and Trust Account; taxes; information supplied; employees and employee benefit plans; board approval and required shareholder vote; affiliate transactions; brokers' and similar fees; not being required to register as an "investment company" under (and within the meaning of) the Investment Company Act; status as an "emerging growth company" under applicable securities laws; and disclaimer of other warranties.

In the Business Combination Agreement, Semantix made certain customary representations and warranties to Alpha, New Semantix, First Merger Sub, Second Merger Sub and Third Merger Sub, including among others, representations and warranties related to the following: corporate matters, including organization, existence and standing; capitalization; subsidiaries; authority and binding effect relative to execution and delivery of the Business Combination Agreement and other ancillary agreements; no conflict; governmental approvals; capitalization; compliance with laws; financial statements; no undisclosed liabilities; absence of certain changes; litigation and proceedings; employee benefit plans; employees and labor; real and tangible property; taxes; environmental matters; brokers' and similar fees; intellectual property; privacy; material contracts; insurance; affiliate agreements; information supplied; anti-bribery and anti-corruption; international trade and sanctions; board approval and required shareholder vote; and disclaimer of other warranties.

Alpha, Semantix, New Semantix and the Merger Subs have qualified certain of the representations and warranties by a materiality or a material adverse effect standard. The Business Combination Agreement defines "material adverse effect" as:

- With respect to Alpha, any state of facts, development, change, circumstance, occurrence, event or effect, that, individually or in the aggregate, has had, or would reasonably be expected to have, a material adverse effect on (a) the business, assets, financial condition or results of operations of Alpha, taken as a whole; or (b) the ability of Alpha to consummate the Business Combination by the Outside Date (as defined below); provided, however, that in no event will any of the following (or the effect of

any of the following), alone or in combination, be taken into account in determining whether a material adverse effect pursuant to clause (a) has occurred or would reasonably be expected to occur: (i) acts of war, sabotage, hostilities, civil unrest, protests, demonstrations, insurrections, riots, cyberattacks or terrorism, or any escalation or worsening of any such acts of war, sabotage, hostilities, civil unrest, protests, demonstrations, insurrections, riots, cyberattacks or terrorism, or changes in global, national, regional, state or local political or social conditions; (ii) earthquakes, hurricanes, tornados, flooding, wild fires, epidemics, pandemics or other public health emergencies (including COVID-19 or any COVID-19 Measures (each as defined in the Business Combination Agreement)) or other natural or man-made disasters; (iii) changes attributable to the public announcement, performance or pendency of the Business Combination (including the impact thereof on relationships with customers, licensors, licensees, suppliers, employees or other third parties related thereto), provided that this clause (iii) will not apply to the representations and warranties (or related conditions) that, by their terms, specifically address the consequences arising out of the public announcement, performance or pendency of the Business Combination; (iv) changes or proposed changes in applicable legal requirement or enforcement or interpretations thereof or decisions by courts or any governmental entity after the date of this Agreement; (v) changes in U.S. GAAP, Brazilian GAAP, IFRS or applicable accounting or auditing standards (or any interpretation thereof) after the date of the Business Combination Agreement; (vi) changes in general economic, regulatory or tax conditions, including changes in the credit, debt, capital, currency, securities or financial markets (including changes in interest or exchange rates); (vii) events or conditions generally affecting the industries and markets in which Alpha operates; (viii) any failure to meet any projections, forecasts, guidance, estimates or financial or operating predictions of revenue, earnings, cash flow or cash position, provided that clause (viii) will not prevent a determination that the underlying facts and circumstances resulting in such failure has resulted in a material adverse effect; or (ix) any actions (A) required to be taken, or required not to be taken, pursuant to the terms of the Reorganization Agreement or (B) taken with the prior written consent of or at the prior written request of Semantix; (x) any change, event, effect or occurrence to the extent relating to any of the Group Companies or the Semantix shareholders; (xi) any SPAC Shareholder Redemption (as defined in the Business Combination Agreement), in and of itself; or (xii) any breach of any covenants, agreements or obligations of a PIPE Investor under a Subscription Agreement (including any breach of a PIPE Investor's obligations to fund its commitment thereunder when required); provided, however, that if any state of facts, developments, changes, circumstances, occurrences, events or effects related to clauses (i), (ii), (iv), (v), (vi) or (vii) above disproportionately and adversely affect the business, assets, financial condition or results of operations of Alpha, taken as a whole, relative to similarly situated companies in the industries in which Alpha conduct their respective operations, then such impact may be taken into account (unless otherwise excluded) in determining whether a material adverse effect has occurred, but solely to the extent of such disproportionate effect.

- With respect to Semantix and all of its direct and indirect subsidiaries (collectively, the “Group Companies”), any state of facts, development, change, circumstance, occurrence, event or effect, that, individually or in the aggregate, has had, or would reasonably be expected to have, a material adverse effect on (a) the business, assets, financial condition or results of operations of the Group Companies, taken as a whole; or (b) the ability of the Group Companies to consummate the Business Combination by the Outside Date (as defined below); provided, however, that in no event will any of the following (or the effect of any of the following), alone or in combination, be taken into account in determining whether a material adverse effect pursuant to clause (a) has occurred or would reasonably be expected to occur: (i) acts of war, sabotage, hostilities, civil unrest, protests, demonstrations, insurrections, riots, cyberattacks or terrorism, or any escalation or worsening of any such acts of war, sabotage, hostilities, civil unrest, protests, demonstrations, insurrections, riots, cyberattacks or terrorism, or changes in global, national, regional, state or local political or social conditions; (ii) earthquakes, hurricanes, tornados, flooding, wild fires, epidemics, pandemics or other public health emergencies (including COVID-19 or any COVID-19 Measures (each as defined in the Business Combination Agreement)) or

other natural or man-made disasters; (iii) changes attributable to the public announcement, performance or pendency of the Business Combination (including the impact thereof on relationships with customers, licensors, licensees, suppliers, employees or other third parties related thereto), provided that this clause (iii) will not apply to the representations and warranties (or related conditions) that, by their terms, specifically address the consequences arising out of the public announcement, performance or pendency of the Business Combination; (iv) changes or proposed changes in applicable legal requirement or enforcement or interpretations thereof or decisions by courts or any governmental entity after the date of this Agreement; (v) changes in U.S. GAAP, Brazilian GAAP, IFRS or applicable accounting or auditing standards (or any interpretation thereof) after the date of the Business Combination Agreement; (vi) changes in general economic, regulatory or tax conditions, including changes in the credit, debt, capital, currency, securities or financial markets (including changes in interest or exchange rates); (vii) events or conditions generally affecting the industries and markets in which any Group Company operates; (viii) any failure to meet any projections, forecasts, guidance, estimates or financial or operating predictions of revenue, earnings, cash flow or cash position, provided that clause (viii) will not prevent a determination that the underlying facts and circumstances resulting in such failure has resulted in a material adverse effect; or (ix) any actions (A) required to be taken, or required not to be taken, pursuant to the terms of the Reorganization Agreement or (B) taken with the prior written consent of or at the prior written request of New Semantix, First Merger Sub, Second Merger Sub, Third Merger Sub or Alpha; (x) matters set forth on the disclosure schedules including (A) accounting effects on Semantix's statement of profit and loss expected to result from Semantix's adoption of a revenue recognition accounting standard in line with PCAOB requirements and other accounting effects resulting from the adoption of PCAOB standards and (B) prepayment and/or termination penalties under certain of the Group Companies' contractual arrangements as set forth in the disclosure schedules, in the event that the Group Companies are unable to obtain the necessary waivers and consents to consummate the Business Combination; or (xi) any change, event, effect or occurrence to the extent relating to Alpha, New Semantix, First Merger Sub, Second Merger Sub, Third Merger Sub and each of their respective subsidiaries or a holder of Alpha shares; provided, however, that if any state of facts, developments, changes, circumstances, occurrences, events or effects related to clauses (i), (ii), (iv), (v), (vi) or (vii) above disproportionately and adversely affect the business, assets, financial condition or results of operations of the Group Companies, taken as a whole, relative to similarly situated companies in the industries in which the Group Companies conduct their respective operations, then such impact may be taken into account (unless otherwise excluded) in determining whether a material adverse effect has occurred, but solely to the extent of such disproportionate effect.

In addition, the representations and warranties made by Alpha, Semantix, New Semantix and Merger Subs:

- have been qualified by information that Alpha and Semantix each set forth in disclosure schedules that the parties exchanged in connection with signing the Business Combination Agreement; the information contained in such disclosure schedules modifies, qualifies and creates exceptions to the representations and warranties in the Business Combination Agreement;
- in the case of Alpha, have been qualified by information that Alpha set forth in the reports that it has filed or furnished with the SEC since the date of the Business Combination Agreement (subject to certain exceptions); and
- are subject to the materiality and material adverse effect standards described in the Business Combination Agreement, which may differ from what may be viewed as material by you.

The Voting and Support Agreement, the Lock-up Agreement, the form of Subscription Agreement, the Shareholder Non-Redemption Agreement, the Sponsor Letter Agreement, the Shareholders Agreement, the Exchange Agreement and the form of Amended and Restated Registration Rights Agreement are attached hereto as Annex D, Annex E, Annex F, Annex G, Annex H, Annex I, Annex J and Annex K respectively.

Voting and Support Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, New Semantix, Alpha, Semantix and certain of the Semantix shareholders have entered into the Voting and Support Agreement, pursuant to which, prior to the First Effective Time (and conditioned upon the occurrence of the First Effective Time), such Semantix shareholders will, among other things, vote to approve the Third Merger and such other actions as contemplated in the Business Combination Agreement for which the approval of the Semantix shareholders and the Newco shareholders is required.

Lock-up Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, New Semantix, Alpha and the Semantix shareholders have entered into the Lock-up Agreement, pursuant to which, the Semantix shareholders agreed, among other things, to certain transfer restrictions on the New Semantix Ordinary Shares to be issued to such Semantix shareholders for a period of six months following the Closing Date, subject to the following exceptions of permitted transfers (i) if such New Semantix shareholder is not an individual or a trust, to any of its officers or directors, affiliates and its employees or any family member of any of its officers or directors, any affiliate or family member of any of its officers or directors, any affiliate of its controlling shareholder or to any members of its controlling shareholder or any of their affiliates, or (ii) if such New Semantix shareholder is an individual or a trust, (A) by virtue of laws of descent and distribution upon death of the individual, (B) pursuant to a qualified domestic relations order, (C) to any member of such New Semantix shareholder's immediate family or any trust for the direct or indirect benefit of such New Semantix Shareholder or the immediate family of such New Semantix shareholder, an affiliate of such individual or to a charitable organization or (D) by private sales or Transfers (as defined in the Lock-up Agreement) made in connection with any forward purchase agreement or similar arrangement; provided, however, that (x) such New Semantix shareholder shall, and shall cause any such transferee of his, her or its Lock-up Shares (as defined in the Lock-up Agreement), to enter into a written agreement, in form and substance reasonably satisfactory to Alpha, agreeing to be bound by the Lock-up Agreement prior and as a condition to the occurrence of such Transfer, and that such transferee shall receive and hold the Lock-Up Shares subject to the provisions of the Lock-up Agreement applicable to the transferring New Semantix shareholder, and there shall be no further Transfer of such Lock-Up Shares except in accordance with the terms of the Lock-up Agreement.

On June 13, 2022, Alpha granted its consent under the Lock-up Agreement to allow Leonardo dos Santos Poça D'Água to pledge a certain amount of his New Semantix Ordinary Shares as collateral in order to obtain financing from a third-party financial institution other than New Semantix, Semantix, Alpha or a related person thereof (as such item is used in Item 404 of Regulation S-K) to acquire (i) New Semantix Ordinary Shares beneficially owned by either Cumorah Group Ltd., which is the investment vehicle owned by Leandro dos Santos Poça D'Água, or ETZ Chaim Investments Ltd., which is the investment vehicle owned by Leonardo Augusto Oliveira Dias, pursuant to the call option contained in the Exchange Agreement, and (ii) New Semantix Ordinary Shares beneficially owned by Livia Ricardi de Almeida Poça D'Água, who is the ex-wife of Leandro dos Santos Poça D'Água, pursuant to the right of first refusal contractually held by Leonardo dos Santos Poça D'Água over

such New Semantix Ordinary Shares. For additional information, see “*Security Ownership of Certain Beneficial Owners and Management—Semantix Founders Post-Closing Share Transfer.*”

PIPE Subscription Agreements

Concurrently with the execution and delivery of the Business Combination Agreement, the PIPE Investors entered into the Subscription Agreements, pursuant to which the PIPE Investors have committed to subscribe for and purchase for an aggregate purchase price of \$93,645,000, 9,364,500 Alpha Class A Ordinary Shares (at \$10.00 per share), which includes subscriptions by two affiliates of the Sponsor that have agreed to subscribe for 100,000 Alpha Class A Ordinary Shares in the aggregate and two affiliates of Semantix that have agreed to subscribe for 6,146,500 Alpha Class A Ordinary Shares in the aggregate. Such subscribed shares will convert to New Semantix Ordinary Shares in connection with the Business Combination. New Semantix has also agreed to grant certain customary registration rights to the PIPE Investors in connection with the PIPE Financing.

Shareholder Non-Redemption Agreement

Concurrently with the execution and delivery of the Business Combination Agreement and the Subscription Agreements, and as an inducement to Alpha’s and Semantix’s willingness to enter into the Business Combination Agreement, a certain shareholder of Alpha and affiliate of the Sponsor owning, in the aggregate, 2,300,000 of the outstanding Alpha Class A Ordinary Shares has entered into the Shareholder Non-Redemption Agreement with Alpha, under which, among other things, such Alpha shareholder has agreed to vote in favor of transactions contemplated in the Business Combination Agreement for which the approval of such Alpha shareholder is required and agreed not to redeem or exercise any right to redeem any Alpha Class A Ordinary Shares that such Alpha shareholder holds of record or beneficially. Semantix and Newco are named third-party beneficiaries under the Shareholder Non-Redemption Agreement.

Sponsor Letter Agreement

Concurrently with the execution of the Business Combination Agreement, the Sponsor has entered into the Sponsor Letter Agreement pursuant to which the Sponsor agreed to (i) vote all of its Founder Shares in favor of the Business Combination and related transactions and to take certain other actions in support of the Business Combination Agreement and related transactions and (ii) waive any rights to adjustment or other anti-dilution protections with respect to the Initial Conversion Ratio (as defined in the Existing Governing Documents), including those rights that would otherwise apply pursuant to Section 17.3 of the Existing Governing Documents as a result of the issuance of New Semantix Ordinary Shares in connection with the transactions contemplated by the Business Combination Agreement or any Transaction Agreement pursuant to the PIPE Investment such that the New Semantix Ordinary Shares issued pursuant to the PIPE Investment are excluded from the determination of the number of New Semantix Ordinary Shares issuable upon conversion of the Founder Shares pursuant to Section 17.3 of the Existing Governing Documents (which for the avoidance of doubt does not include the Sponsor’s rights under Section 17.8 of the Existing Governing Document, which provides that in no event may any Founder Share convert into New Semantix Ordinary Shares at a ratio that is less than one-for-one), to which it would otherwise be entitled to in connection with the Business Combination, in each case, on the terms and subject to the conditions set forth in the Sponsor Letter Agreement.

In addition, the Sponsor has agreed that the Alpha Earn-Out Shares held by the Sponsor as of the date of the Sponsor Letter Agreement will be subject to vesting requirements. The Alpha Earn-Out Shares will vest in two equal 431,250 tranches based on the achievement of closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing at any time after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date. A given share price target described above is also achieved if there is a transaction during the relevant period that results in the New Semantix Ordinary Shares being converted into the right to receive cash or other consideration having a per share value (in the case of any non-cash consideration, as provided in the

definitive transaction documents for such transaction, or if not so provided, as determined by the New Semantix board of directors in good faith) in excess of the applicable closing share price target set forth above. The Alpha Earn-Out Shares that have not vested by the fifth anniversary of the Closing shall, automatically and without further action on the part of New Semantix or any holder thereof, be forfeited and cancelled for no consideration. Prior to vesting or forfeiture the Alpha Earn-Out Shares will, with the exception of the right to receive dividends and other limited exceptions, be entitled to all rights of other shares of New Semantix Ordinary Shares.

Shareholders Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, New Semantix, Sponsor and certain shareholders of Semantix have entered into a shareholders agreement (the “Shareholders Agreement”), pursuant to which, among other things, at the Third Effective Time, New Semantix’s board of directors will consist of seven directors, of which (i) four directors will be designated by Semantix’s Founders (with at least two such directors being independent if the director designated by the Sponsor is independent or, if the director designated by the Sponsor is not independent, with at least three of such directors being independent), (ii) one director will be designated by Crescera, (iii) one director will be designated by Inovabra, and (iv) one director will be designated by the Sponsor. The directors will be divided into three staggered classes designated as Class I, Class II and Class III. In addition, Semantix’s Founders will have the right to appoint the chairperson of the board of directors, subject to the maintenance of a number of New Semantix Ordinary Shares representing at least seven and one-half percent (7.5%) of the New Semantix Ordinary Shares then issued and outstanding.

Under the Shareholders Agreement, the right of Semantix’s Founders, Crescera and Inovabra to appoint directors as described above is subject to the maintenance of a number of Ordinary Shares representing at least seven and one-half percent (7.5%) of the Ordinary Shares then issued and outstanding. The Sponsor’s right to appoint a director shall terminate at the earliest of (i) the date when the Sponsor no longer holds any New Semantix Ordinary Shares, or (ii) three years after the closing of the Business Combination, at which time a new director will be appointed by Semantix’s Founders.

The Shareholders Agreement will terminate upon the occurrence of certain triggering events, including, without limitation, in the event that the collective equity interests held by Crescera, Inovabra and Semantix’s Founders falls below 40% of the total outstanding equity interests in New Semantix. See “*New Semantix Management After the Business Combination—Executive Officers and Directors.*”

On April 13, 2022, New Semantix, Sponsor and certain shareholders of Semantix executed an amendment and restatement to the Shareholders Agreement to correct certain scrivener’s errors contained in the Shareholders Agreement.

Exchange Agreement

On November 17, 2021, New Semantix, Alpha, Semantix, the Semantix shareholders and the Semantix optionholders entered into an exchange agreement (the “Exchange Agreement”), pursuant to which, prior to the First Effective Time (and conditioned upon the Closing), the Semantix shareholders agreed to, among other things, exchange with Newco all of the issued and outstanding equity of Semantix for newly issued Newco Ordinary Shares and, after giving effect to the Pre-Closing Exchange, the Company will become a wholly owned subsidiary of Newco.

In addition, under the Exchange Agreement, DDT Investments Ltd., which is the investment vehicle owned by Leonardo dos Santos Poça D’Água, shall have the right, but not the obligation, to purchase on one or more occasions, from the Closing of the Business Combination until the fifth anniversary of the Closing, up to 5% of the outstanding New Semantix Ordinary Shares held by each of Cumorah Group Ltd., which is the investment vehicle owned by Leandro dos Santos Poça D’Água, and ETZ Chaim Investments Ltd., which is the investment vehicle owned by Leonardo Augusto Oliveira Dias.

A&R Registration Rights Agreement

At the consummation of the Business Combination, New Semantix, the Sponsor and certain persons named therein will enter into the A&R Registration Rights Agreement, pursuant to which that certain Registration Rights Agreement will be amended and restated in its entirety, as of the Closing. As a result, the holders of registrable securities will be able to make a written demand for registration under the Securities Act of all or a portion of their registrable securities, subject to certain limitations so long as such demand includes a number of registrable securities with a total offering price in excess of \$30 million. Any such demand may be in the form of an underwritten offering, it being understood that, subject to certain exceptions, New Semantix shall not be required to conduct more than an aggregate total of six underwritten offerings in any 12-month period. In addition, the holders of registrable securities will have “piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing. New Semantix has also agreed to file with the SEC a resale shelf registration statement covering the resale of all registrable securities within 30 days of the Closing, to be declared effective within 90 days of the Closing.

MERGER PROPOSAL

Overview

The Merger Proposal, if approved, will authorize the Plan of Merger.

A copy of the Plan of Merger is attached to this proxy statement/prospectus as Annex B.

Reasons for the Merger Proposal

The Companies Act required that the entry into the Plan of Merger be authorized by special resolution of the members of Alpha.

Vote Required for Approval

The approval of the Merger Proposal requires a special resolution under Cayman Islands law, being the affirmative vote of the holders of a majority of not less than two-thirds of the ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting. Abstentions and broker non-votes, while considered present for the purpose of establishing a quorum, will not count as votes cast at the extraordinary general meeting, and other will have no effect on a particular proposal.

Resolution to be Voted Upon

The full text of the resolution to be proposed is as follows:

“RESOLVED, as a special resolution, that the Plan of Merger be authorised, approved and confirmed in all respects, that Alpha Capital Acquisition Company be and is hereby authorised to enter into the Plan of Merger, and that the merger of Alpha Merger Sub I Company with and into Alpha Capital Acquisition Company, with Alpha Capital Acquisition Company surviving the merger as a wholly owned subsidiary of Alpha Capital Holdco Company, be authorised, approved and confirmed in all respects.”

Recommendation of the Alpha Board

THE ALPHA BOARD UNANIMOUSLY RECOMMENDS THAT ALPHA SHAREHOLDERS VOTE “FOR” THE APPROVAL OF THE MERGER PROPOSAL.

The existence of financial and personal interests of one or more of Alpha’s directors may result in a conflict of interest on the part of such director(s) between what he, she, or they may believe is in the best interests of Alpha and its shareholders and what he, she, or they may believe is best for himself, himself, or themselves in determining to recommend that shareholders vote for the proposals. In addition, Alpha’s officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor, certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/ prospectus*” for a further discussion of these considerations.

GOVERNING DOCUMENTS PROPOSALS

Overview

If the Business Combination is consummated, Alpha's Existing Governing Documents will effectively be replaced by the Proposed Governing Documents of New Semantix given that Alpha shareholders will, effective as of the consummation of the Business Combination (and assuming such shareholders do not redeem their Alpha Class A Ordinary Shares) hold New Semantix Ordinary Shares subject to the Proposed Governing Documents. Alpha's shareholders are asked to consider and vote upon and to approve by special resolution three separate proposals in connection with the replacement of the Existing Governing Documents with the Proposed Governing Documents.

The Proposed Governing Documents differ materially from the Existing Governing Documents. The below table sets forth a summary of the principal changes proposed between the Existing Governing Documents and the Proposed Governing Documents. This summary is qualified by reference to the complete text of the Existing Governing Documents and the complete text of the Proposed Governing Documents, a copy of which is attached to this proxy statement/prospectus as Annex C. Alpha shareholders are urged to carefully read the relevant provisions of New Semantix's Articles that will be in effect as of consummation of the Business Combination.

Existing Governing Documents of Alpha

Proposed Governing Documents of New Semantix

Authorized Share Capital (*Governing Documents Proposal 3A*)

Alpha authorized share capital is \$22,100 divided into (i) 200,000,000 Class A Ordinary Shares of a par value of \$0.0001 each, (ii) 20,000,000 Class B Ordinary Shares of a par value of \$0.0001 each and (iii) 1,000,000 preference shares of a par value of \$0.0001 each.

New Semantix will be authorized to issue 287,500,000 New Semantix Ordinary Shares, par value \$0.001 per New Semantix Ordinary Share. Every holder of New Semantix Ordinary Shares, present in person or by proxy and entitled to vote thereon, shall be entitled to one vote in respect of each Ordinary Share held by them.

Method to Appoint and Elect Directors (*Governing Documents Proposal 3B*)

Prior to the closing of an initial business combination, Alpha may appoint or remove any director by ordinary resolution of the holders of Class B Ordinary Shares. Prior to the closing of an initial business Combination, holders of the Alpha Class A Ordinary Shares have no right to vote on the appointment or removal of any director.

Per the Articles and Shareholders Agreement, immediately following the Closing of the Business Combination, New Semantix's board of directors will consist of seven directors, of which (i) four directors will be designated by Semantix's Founders (with at least two such directors being independent if the director designated by the Sponsor is independent or, if the director designated by the Sponsor is not independent, with at least three of such directors being independent), (ii) one director will be designated by Crescera, (iii) one director will be designated by Inovabra, and (iv) one director will be designated by the Sponsor. The directors will be divided into three staggered classes designated as Class I, Class II and Class III. At the 2023 annual general meeting, the term of office of the Class I directors shall expire and Class I directors shall be elected for a full term of three (3) years. At the 2024 annual general meeting, the term of office of the Class II directors shall expire and Class II directors shall be elected for a full term of three (3) years. Subject to the Articles and Shareholders Agreement, at each succeeding annual general meeting, directors shall be elected for a full term of three (3) years to succeed the directors of the class whose terms expire at such annual general meeting. Without prejudice to the power of New Semantix to appoint a person to be a director by ordinary resolution and subject to the Articles, the board of directors, so long as a quorum of directors remains in office, has the power at any time and from time to time to appoint any person to be a director so as to fill a casual vacancy or otherwise.

Other Changes in Connection with Adoption of the Proposed Governing Documents
(Governing Documents Proposal 3C)

The Existing Governing Documents include provisions related to Alpha’s status as a blank check company prior to the consummation of a business combination.

The Proposed Governing Documents do not include such provisions related to Alpha’s status as a blank check company, which no longer will apply upon consummation of the Business Combination, as Alpha will cease to be a blank check company at such time.

**GOVERNING DOCUMENTS PROPOSAL 3A—APPROVAL OF AUTHORIZATION OF CHANGE TO AUTHORIZED SHARE CAPITAL,
AS SET FORTH IN THE PROPOSED GOVERNING DOCUMENTS**

Overview

Alpha's shareholders are being asked to approve the change in the authorized share capital of Alpha from (i) \$22,100 divided into 200,000,000 Alpha Class A Ordinary Shares of a par value of \$0.0001 each, (ii) 20,000,000 Alpha Class B Ordinary Shares of a par value of \$0.0001 each and (iii) 1,000,000 preference shares of a par value of \$0.0001 each, to 287,500,000 New Semantix Ordinary Shares, par value \$0.001 per New Semantix Ordinary Share.

In addition, as of the date of this proxy statement/prospectus, there is an aggregate of (x) 11,500,000 public warrants and 7,000,000 private placement warrants of Alpha, in each case, issued and outstanding.

Pursuant to the Business Combination, at the First Effective Time, (i) each issued and outstanding Alpha Class A Ordinary Share and Alpha Class B Ordinary Share will be canceled and converted into the right to receive one New Semantix Ordinary Share and (ii) each issued and outstanding whole warrant to purchase Alpha Class A Ordinary Shares will be converted into the right to purchase one share of New Semantix Ordinary Share at an exercise price of \$11.50 per share, subject to the same terms and conditions existing prior to such conversion. See the section titled "*Business Combination Agreement Proposal*" for a further discussion of these considerations.

This summary is qualified by reference to the complete text of the Proposed Governing Documents, a copy of which is attached to this proxy statement/prospectus as Annex C. All shareholders are encouraged to read the Proposed Governing Documents in their entirety for a more complete description of their terms.

Reasons for Governing Documents Proposal 3A

The approval of the authorized share capital of New Semantix is necessary for New Semantix to issue the New Semantix Ordinary Shares in connection with the consummation of the Business Combination. Further, our board of directors believes that it is important for New Semantix to have available for issuance a number of authorized shares of share capital sufficient to support the growth and to provide flexibility for future corporate needs of New Semantix.

Vote Required for Approval

The approval of Governing Documents Proposal 3A requires a special resolution under the Companies Act, being the affirmative vote of holders of at least two-thirds of the ordinary shares represented in person or by proxy and entitled to vote thereon and who vote at the extraordinary general meeting. Abstentions and broker non-votes, while considered present for the purposes of establishing a quorum, will not count as votes cast at the extraordinary general meeting.

Resolution to be Voted Upon

The full text of the resolution to be proposed is as follows:

"RESOLVED, as a special resolution, that the principal differences between the existing amended and restated memorandum and articles of association of Alpha Capital Acquisition Company and the amended and restated memorandum and articles of association of Alpha Capital Holdco Company as attached to the accompanying proxy statement/prospectus as Annex C and as described in the Governing Documents Proposal 3A be approved."

Recommendation of the Alpha Board

THE ALPHA BOARD UNANIMOUSLY RECOMMENDS THAT ALPHA SHAREHOLDERS VOTE “FOR” THE APPROVAL OF GOVERNING DOCUMENTS PROPOSAL 3A.

See the sections entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor; certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/prospectus*” for a further discussion of these considerations.

GOVERNING DOCUMENTS PROPOSAL 3B—APPROVAL OF METHOD TO APPOINT AND ELECT DIRECTORS

Overview

Alpha's shareholders are being asked to approve Governing Documents Proposal 3B, pursuant to which, upon the Closing of the Business Combination, our director nominees are to be elected by an ordinary resolution of the holders of New Semantix Ordinary Shares in accordance with the Articles and the Shareholders Agreement at each annual general meeting of New Semantix to fill the seats of those directors whose terms expire at such annual general meeting.

The Existing Governing Documents provide that prior to the closing of an initial business combination, Alpha may appoint or remove any director by ordinary resolutions of the holders of Alpha Class B Ordinary Shares. Prior to the closing of an initial business Combination, holders of the Alpha Class A Ordinary Shares have no right to vote on the appointment or removal of any director.

The Proposed Governing Documents provide that director nominees must be elected by an ordinary resolution of the holders of New Semantix Ordinary Shares in accordance with the Articles and the Shareholders Agreement at each annual general meeting of New Semantix to fill the seats of those directors whose terms expire at such annual general meeting and the persons to stand for election at each annual general meeting of New Semantix shall be nominated by the directors. At the 2023 annual general meeting, the term of office of the Class I directors shall expire and Class I directors shall be elected for a full term of three (3) years. At the 2024 annual general meeting, the term of office of the Class II directors shall expire and Class II directors shall be elected for a full term of three (3) years. At the 2025 annual general meeting, the term of office of the Class III directors shall expire and Class III directors shall be elected for a full term of three (3) years. Subject to the Articles and Shareholders Agreement, at each succeeding annual general meeting, directors shall be elected for a full term of three (3) years to succeed the directors of the class whose terms expire at such annual general meeting. Without prejudice to the power of New Semantix to appoint a person to be a director by ordinary resolution and subject to the Articles, the board of directors, so long as a quorum of directors remains in office, has the power at any time and from time to time to appoint any person to be a director so as to fill a casual vacancy or otherwise. See the section entitled "*New Semantix Management Following the Business Combination—Board of Directors*" for further discussion of these considerations.

This summary is qualified by reference to the complete text of the Proposed Governing Documents, a copy of which is attached to this proxy statement/prospectus as Annex C. All shareholders are encouraged to read the Proposed Governing Documents in their entirety for a more complete description of their terms.

Reasons for Governing Documents Proposal 3B

The purpose of this proposal is to effect the method of appointment and election of directors to the New Semantix Board as negotiated between the parties in connection with the Business Combination Agreement.

Vote Required for Approval

The approval of Governing Documents Proposal 3B requires a special resolution under the Companies Act, being the affirmative vote of holders of at least two-thirds of the ordinary shares represented in person or by proxy and entitled to vote thereon and who vote at the extraordinary general meeting. Abstentions and broker non-votes, while considered present for the purposes of establishing a quorum, will not count as votes cast at the extraordinary general meeting.

Resolution to be Voted Upon

The full text of the resolution to be proposed is as follows:

Recommendation of the Alpha Board

THE ALPHA BOARD UNANIMOUSLY RECOMMENDS THAT ALPHA SHAREHOLDERS VOTE “FOR” THE APPROVAL OF GOVERNING DOCUMENTS PROPOSAL 3B.

The existence of financial and personal interests of one or more of Alpha’s directors may result in a conflict of interest on the part of such director(s) between what he, she, or they may believe is in the best interests of Alpha and its shareholders and what he, she, or they may believe is best for himself, himself, or themselves in determining to recommend that shareholders vote for the proposals. In addition, Alpha’s officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor; certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/ prospectus*” for a further discussion of these considerations.

GOVERNING DOCUMENTS PROPOSAL 3C—APPROVAL OF OTHER CHANGES IN CONNECTION WITH THE ADOPTION OF THE PROPOSED GOVERNING DOCUMENTS

Overview

Alpha's shareholders are being asked to approve Governing Documents Proposal 3C, pursuant to which the Proposed Governing Documents of New Semantix will not include the various provisions of Alpha's Existing Governing Documents that are applicable only to blank check companies, which will no longer be applicable to us upon the consummation of the Business Combination.

The Proposed Governing Documents do not include provisions related to a blank check company (including those related to operation of the Trust Account, winding up our operations should we not complete an initial business combination by a specified date, and other such blank check-specific provisions as are present in the Existing Governing Documents) because following the consummation of the Business Combination, New Semantix will not be a blank check company. The Proposed Governing Documents do not contain the requirement to dissolve New Semantix allowing it to continue as a corporate entity with perpetual existence following the Business Combination. Perpetual existence is the usual period of existence for corporations, and our board of directors believes it is the most appropriate period for New Semantix following the Business Combination.

Reasons for Governing Documents Proposal 3C

Our board of directors believes that the provisions that relate to the operation of Alpha as a blank check company prior to the consummation of its initial business combination would not be applicable after the Business Combination (such as the obligation to dissolve and liquidate if a business combination is not consummated in a certain period of time).

Vote Required for Approval

The approval of Governing Documents Proposal 3C requires a special resolution under the Companies Act, being the affirmative vote of holders of at least two-thirds of the ordinary shares represented in person or by proxy and entitled to vote thereon and who vote at the extraordinary general meeting. Abstentions and broker non-votes, while considered present for the purposes of establishing a quorum, will not count as votes cast at the extraordinary general meeting.

Resolution to be Voted Upon

The full text of the resolution to be proposed is as follows:

RESOLVED, as a special resolution, that the principal differences between the existing amended and restated memorandum and articles of association of Alpha Capital Acquisition Company and the amended and restated memorandum and articles of association of Alpha Capital Holdco Company as attached to the accompanying proxy statement/prospectus as Annex C and as described in the Governing Documents Proposal 3C be approved.

Recommendation of the Alpha Board

THE ALPHA BOARD UNANIMOUSLY RECOMMENDS THAT ALPHA SHAREHOLDERS VOTE "FOR" THE APPROVAL OF GOVERNING DOCUMENTS PROPOSAL 3C.

The existence of financial and personal interests of one or more of Alpha's directors may result in a conflict of interest on the part of such director(s) between what he, she, or they may believe is in the best interests of Alpha and its shareholders and what he, she, or they may believe is best for himself, himself, or themselves in

determining to recommend that shareholders vote for the proposals. In addition, Alpha’s officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled “*Business Combination Proposal—Interests of Alpha’s Directors and Executive Officers in the Business Combination*” and “*Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor, certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/ prospectus*” for a further discussion of these considerations.

ADJOURNMENT PROPOSAL

The Adjournment Proposal allows the Alpha Board to submit a proposal to approve, by ordinary resolution, the adjournment of the extraordinary general meeting to a later date or dates (i) to the extent necessary to ensure that any required supplement or amendment to this proxy statement/prospectus is provided to Alpha shareholders, (ii) in order to solicit additional proxies from Alpha shareholders in favor of one or more of the proposals at the extraordinary general meeting, or (iii) if Alpha shareholders redeem an amount of public shares such that the minimum available cash condition to the obligation to Closing the Business Combination would not be satisfied.

Consequences if the Adjournment Proposal is Not Approved

If the Adjournment Proposal is not approved by Alpha's shareholders, the Alpha Board may not be able to adjourn the extraordinary general meeting of shareholders to a later date in the event that, based on the tabulated votes, there are not sufficient votes at the time of the extraordinary general meeting of shareholders to approve the Transaction Proposals or Alpha shareholders have elected to redeem an amount of public shares such that the minimum available cash condition to the obligation to closing of the Business Combination would not be satisfied.

Vote Required For Approval

The approval of the Adjournment Proposal requires an ordinary resolution under Cayman Islands law, being the affirmative vote of the holders of a majority of the ordinary shares who, being present in person or represented by proxy and entitled to vote at the extraordinary general meeting, vote at the extraordinary general meeting. Abstentions and broker non-votes, while considered present for the purposes of establishing a quorum, will not count as votes cast at the extraordinary general meeting, and otherwise will have no effect on the proposal.

Resolution to be Voted Upon

The full text of the resolution to be proposed is as follows:

"RESOLVED, as a special resolution, that the adjournment of the extraordinary general meeting to a later date or dates (i) to the extent necessary to ensure that any required supplement or amendment to this proxy statement/prospectus is provided to Alpha shareholders, (ii) in order to solicit additional proxies from Alpha shareholders in favor of one or more of the proposals at the extraordinary general meeting, or (iii) if Alpha shareholders redeem an amount of public shares such that the minimum available cash condition to the obligation to Closing the Business Combination would not be satisfied be authorised, approved and confirmed in all respects."

Recommendation of the Alpha Board

THE ALPHA BOARD UNANIMOUSLY RECOMMENDS THAT ALPHA SHAREHOLDERS VOTE "FOR" THE APPROVAL OF THE ADJOURNMENT PROPOSAL.

The existence of financial and personal interests of one or more of Alpha's directors may result in a conflict of interest on the part of such director(s) between what he, she, or they may believe is in the best interests of Alpha and Alpha shareholders and what he, she, or they may believe is best for himself, herself, or themselves in determining to recommend that shareholders vote for the proposals. In addition, Alpha's officers have interests in the Business Combination that may conflict with your interests as a shareholder. See the sections entitled "*Business Combination Proposal—Interests of Alpha's Directors and Executive Officers in the Business Combination*" and "*Risk Factors—Risks Related to Alpha and the Business Combination—Our Sponsor, certain members of our board of directors and our officers have interests in the Business Combination that may conflict with those of other shareholders in recommending that shareholders vote in favor of approval of the Business Combination and the other proposals described in this proxy statement/ prospectus*" for a further discussion of these considerations.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

Introduction

The following unaudited pro forma condensed combined balance sheet as of December 31, 2021 combines the historical audited consolidated balance sheet of Semantix as of December 31, 2021, with the historical audited balance sheet of Alpha as of December 31, 2021, giving pro forma effect to the Business Combination and related transactions, as if they had occurred as of December 31, 2021.

The following unaudited pro forma condensed combined statement of operations for the year ended December 31, 2021 combines the historical statements of operations of Semantix and Alpha for such period on a pro forma basis as if the Business Combination, the PIPE Financing, and the step-acquisition of LinkAPI by Semantix that occurred on June 30, 2021 (for the remaining 49% ownership) had occurred on January 1, 2021, the beginning of the earliest period presented.

Note 1 - Description of the Proposed Transactions

On November 16, 2021, Alpha, Semantix, New Semantix, and the Merger Subs entered into the Business Combination Agreement. As a result of the transactions contemplated by the Business Combination Agreement, it is expected that each of Alpha and Semantix will become wholly-owned subsidiaries of New Semantix and each of the current shareholders of Semantix and the current shareholders of Alpha will become shareholders of New Semantix. Upon the closing of the Business Combination, New Semantix's shares and warrants are expected to trade on the NASDAQ under the ticker symbol STIX and STIXW, respectively and New Semantix will become a publicly-listed entity. The Business Combination is expected to close in the first half of 2022, following the receipt of the required approval by Alpha's shareholders and the fulfillment of other customary closing conditions. The unaudited pro forma condensed combined financial information contained herein assume, among other things, that Alpha's shareholders approve the proposed Business Combination.

Certain Semantix shareholders would be expected to receive additional consideration in the form of earn-out of New Semantix Ordinary Shares totaling up to an additional 2,500,000 newly issued New Semantix Ordinary Shares, subject to meeting certain price targets. The Sponsor has agreed that 862,500 New Semantix Ordinary Shares to be issued to the Sponsor in respect of the Alpha Class B Ordinary Shares held by the Sponsor as of the date of the Sponsor Letter Agreement will be unvested and subject to the restrictions and forfeiture provisions, including vesting requirements based on those same earn-out price targets. See "*The Business Combination Agreement*".

In connection with the execution of the Business Combination Agreement, Alpha and New Semantix also entered into separate Subscription Agreements, each dated November 16, 2021, with the PIPE Investors, pursuant to which, and subject to the terms and conditions thereto, the PIPE Investors collectively subscribed for an aggregate of 9,364,500 Alpha Class A Ordinary Shares for an aggregate purchase price of R\$522,529,736 (\$93,645,000), which such shares will convert to New Semantix Ordinary Shares in connection with the Business Combination. The PIPE Financing is conditioned on, and is expected to be consummated immediately prior to, the closing of the Business Combination, and with each Alpha Class A Ordinary Share subscribed for by the PIPE Investors to be exchanged for one New Semantix Ordinary Share, substantially concurrently with the closing of the Business Combination.

Alpha does not meet the definition of a "business" pursuant to IFRS 3 as it is an empty listed shell holding only cash raised as part of its original equity issuance. As a result, the Business Combination does not qualify as a "business combination" within the meaning of IFRS 3, *Business Combinations*; rather, the Business Combination will be accounted for as a capital reorganization in accordance with IFRS 2, *Share-Based Payments*. See Note 3- Accounting for the Business Combination for more details.

For a description of the Business Combination and certain agreements executed in connection therewith, see "*Summary of the Proxy Statement/Prospectus—The Business Combination*" and "*Certain Agreements Related to the Business Combination*".

Note 2 - Basis of Presentation

The unaudited pro forma condensed combined financial information is for illustrative purposes only. The financial results may have been different had the companies always been combined. You should not rely on the unaudited pro forma condensed combined financial information as being indicative of the historical results that would have been achieved had the companies always been combined or the future results that New Semantix will experience. Semantix and Alpha have not had any historical relationship prior to the Business Combination. Accordingly, no pro forma adjustments were required to eliminate activities between the companies.

The unaudited pro forma condensed combined statement of operations reflects the step-acquisition of LinkAPI by Semantix that occurred on June 30, 2021 (for the remaining 49% ownership) as if it had occurred on January 1, 2021, the beginning of the earliest period presented.

[Table of Contents](#)

The historical financial statements of Semantix have been prepared in accordance with IFRS as issued by the IASB and in its presentation currency of the Brazilian *reais* (“BRL”). The historical financial statements of Alpha have been prepared in accordance with U.S. GAAP in its presentation currency of the U.S. dollar. The unaudited pro forma condensed combined financial information reflects IFRS, the basis of accounting used by Semantix and no material accounting policy difference is identified in converting Alpha’s historical financial statements to IFRS. The financial statements of Alpha have been translated into BRL for the purposes of presentation in the unaudited pro forma condensed combined financial information using the following exchange rates:

- at the period end exchange rate as of December 31, 2021 of \$1.00 to R\$5.5799 for the balance sheet;
- the average exchange rate for the period from January 1, 2021 through December 31, 2021 of \$1.00 to R\$5.4068 for the statement of operations for the period ending on that date.

The exchange rate adjustments presented in the unaudited pro forma condensed combined financial information have been identified and presented to provide relevant information necessary for an accurate understanding of New Semantix after giving effect to the Business Combination.

To effect the Business Combination, Alpha must have cash held either in or outside the Trust Account, including the aggregate amount of any proceeds from the PIPE Financing, equal or exceeding \$85 million. The PIPE Financing exceeds this minimum. Alpha cannot predict how many of the public shareholders will exercise their right to have their Alpha Class A Ordinary Shares redeemed for cash. Pursuant to the Sponsor IPO letter agreement, the Sponsor has agreed, in partial consideration of receiving its Founder Shares and for the covenants and commitments of Alpha therein, to waive its redemption rights with respect to its Founder Shares and any public shares Sponsor may have acquired after Alpha’s IPO in connection with the completion of the Business Combination. Additionally, on November 16, 2021, a certain shareholder of Alpha and affiliate of Sponsor agreed pursuant to the Shareholder Non-Redemption Agreement to, among other things, not redeem, transfer, or exercise 2,300,000 Alpha Class A Ordinary Shares held by it.

As a result, Alpha has elected to provide the unaudited pro forma condensed combined financial information under three different redemption scenarios of Alpha public shares into cash, each of which produce different allocations of total Alpha equity between holders of Alpha ordinary shares, as more fully described below

- **Scenario 1 - Assuming no redemptions:** This presentation assumes that no public shareholders of Alpha exercise redemption rights with respect to their public shares for a pro rata share of cash in the Trust Account upon consummation of the Business Combination.
- **Scenario 2 - Assuming interim redemptions:** This presentation assumes Alpha public shareholders holding 10.35 million Class A Ordinary Shares will exercise their redemption rights for \$103.5 million of funds in the Trust Account upon consummation of the Business Combination at a redemption price of approximately \$10 per share, after considering the 2.3 million Alpha public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement; and
- **Scenario 3 - Assuming maximum redemptions:** This presentation assumes that Alpha public shareholders holding 20.7 million Alpha Class A Ordinary Shares will exercise their redemption rights for \$207 million upon consummation of the Business Combination at a redemption price of approximately \$10 per share. The maximum redemption amount is derived, after giving effect to the payments to redeeming shareholders of Alpha and 2.3 million Alpha public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement.

Included in the shares outstanding and weighted average shares outstanding as presented in the pro forma combined financial statements are an aggregate of 100,114,500, 89,764,500, and 79,414,500 New Semantix Ordinary Shares to be issued to Alpha and Semantix shareholders under Scenario’s 1 through 3, respectively.

The actual results will likely be within the parameters described by the three redemption scenarios, however, there can be no assurance regarding which scenario will be closest to the actual results. Under each scenario, Semantix is considered to be the accounting acquirer, as further discussed in Note 3 below.

[Table of Contents](#)

After the Business Combination, Alpha's current public shareholders, the Sponsor, which owns the Founder Shares, the PIPE Investors, and current Semantix shareholders, under the different redemption scenarios would be expected to own approximately the following percentages of New Semantix Ordinary Shares:

Ownership percentage post-Business Combination¹	Scenario 1: Assuming No redemptions		Scenario 2: Assuming Interim redemptions		Scenario 3: Assuming Maximum redemptions	
New Semantix shares	62,000,000	61.93%	62,000,000	69.07%	62,000,000	78.07%
Public shares (Class A)	23,000,000	22.97%	12,650,000	14.09%	2,300,000	2.90%
PIPE Investment shares	9,364,500	9.36%	9,364,500	10.43%	9,364,500	11.79%
Founder shares (Class B) ²	5,750,000	5.74%	5,750,000	6.41%	5,750,000	7.24%
Total shares	100,114,500	100.00%	89,764,500	100.00%	79,414,500	100.00%

1. In each case, not giving effect to any shares issuable upon the exercise or conversion of warrants and consideration for PIPE Investors that are also current shareholders of Semantix.
2. Including 862,500 Alpha Earn-Out Shares that are subject to vesting.

The pro forma adjustments do not have an income tax effect as they are either (i) incurred by legal entities that are not subject to a corporate income tax, or (ii) permanently non-deductible or non-taxable based on the laws of the relevant jurisdiction.

The share amounts and ownership percentages set forth above are not indicative of voting percentages and do not take into account (i) Alpha Warrants that will remain outstanding immediately following the Business Combination and may be exercised thereafter, (ii) equity awards issued at Closing upon rollover of the Unvested Semantix Options, (iii) Semantix Earn-Out Shares, (iv) New Semantix Warrants and (v) equity awards to be issued under the 2022 Plan.

Note 3 - Accounting for the Business Combination

The Business Combination will be accounted for as a capital reorganization, in accordance with IFRS. Under this method of accounting, Alpha would be expected to be treated as the "acquired" company for financial reporting purposes, and Semantix will be the accounting "acquirer". This determination was primarily based on the assumption that:

- Semantix's current shareholders will hold a majority of the voting power of the New Semantix post Business Combination;
- Semantix's operations will substantially comprise the ongoing operations of New Semantix;
- Pursuant to the Shareholders' Agreement, Semantix's current shareholders will have the ability to nominate the majority of the members of the board of directors;
- Semantix is the larger entity in terms of substantive operations and employee base; and
- Semantix's senior management will comprise the senior management of New Semantix, including the CEO and CFO roles.

Another determining factor was that Alpha does not meet the definition of a "business" pursuant to IFRS 3, and thus, for accounting purposes, the Business Combination will be accounted for as a capital reorganization, within the scope of IFRS 2. The net assets of Alpha will be stated at historical cost, with no goodwill or other intangible assets recorded. Any excess of fair value of New Semantix Ordinary Shares issued over the fair value of Semantix's identifiable net assets acquired represents compensation for the service of a stock exchange listing for its shares and is expensed as incurred. The unaudited pro forma condensed combined financial information assumes that Alpha Warrants would be expected to be accounted for as liabilities in accordance with IAS 32 following consummation of the Business Combination and, accordingly, would be subject to ongoing mark-to-market adjustments through the statement of operations. However, Semantix's evaluation of the post-

Business Combination accounting for the warrants is ongoing, including the possibility of accounting for the public warrants as equity in accordance with IFRS 2 following consummation of the Business Combination.

Note 4 - IFRS Conversion and Presentation Alignment

The historical financial information of Alpha has been adjusted to give effect to the differences between U.S. GAAP and IFRS as issued by the IASB for the purposes of the unaudited pro forma condensed combined financial information. The only adjustment required to convert Alpha's financial statements from U.S. GAAP to IFRS for purposes of the unaudited pro forma condensed combined financial information was to reclassify Alpha Class A Ordinary Shares subject to redemption to non-current financial liabilities under IFRS 2.

Further, as part of the preparation of the unaudited pro forma condensed combined financial information, Alpha's historical financial information were converted from USD to Brazilian *reais* in accordance with the presentation of Semantix's historical financial information, as discussed in Note 2.

Note 5 - Adjustments to Unaudited Pro Forma Condensed Combined Balance Sheet as of December 31, 2021

The pro forma adjustments to the unaudited pro forma condensed combined balance sheet as of are as follows:

- A. To reflect the release of cash and investments held in the Trust Account in conjunction with the redemption of Alpha Ordinary Shares which has been reflected as a reduction of other liabilities.
- B. To reflect the proceeds from the PIPE Financing with the corresponding issuance of 9.4 million Alpha Ordinary Shares, with a nominal value of \$0.0001, at \$10.00 per share, or \$93.6 million (R\$522.5 million).
- C. To reflect the estimated payment in aggregate that consists of (i) Alpha's deferred underwriting fees of R\$44.9 million which were capitalized as of December 31, 2021. Subsequently, in May 2022, two of the underwriters of the IPO agreed to waive their right to underwriting commissions of R\$44.9 million. (ii) outstanding offering costs and expenses of R\$6.2 million (iii) transaction costs expected to be incurred by Semantix in the amount of R\$24.5 million, and Alpha in the amount of R\$29.9 million, respectively, that are direct and incremental costs related to the Business Combination. These costs are reflected as an adjustment to APIC and accumulated loss, respectively, (iv) additionally, a reclassification is made in order to correctly allocate transaction costs between the liability and equity components of the instruments in proportion to the allocation of proceeds to be received under each of the redemption scenarios (R\$17.2 million under the No Redemption scenario, R\$17.4 million under the Interim Redemption scenario, and R\$17.6 million under the Maximum Redemption scenario), and (v) Semantix transaction costs of R\$5.1 million that were incurred, and booked in Other assets as of December 31, 2021, and R\$1.5 million that were booked to Trade and other payables.
- D. To reflect the removal of Semantix Share Capital/Premium to APIC of R\$55.8 million.
- E. To reflect the capital reorganization of Semantix, as per the Business Combination Agreement, consisting of (i) the reclassification non-redeemed shares from liability to permanent equity (ii) the booking of par value shares issued (iii) the removal of historical Alpha equity balances, and (iv) in accordance with IFRS 2, the deemed costs of the shares issued by Semantix in excess of the net assets of Alpha, which primarily consists of cash and marketable securities held in the Trust Account and certain public and private warrants liabilities, is accounted for as stock-based compensation and reflected as an adjustment to accumulated deficit. A one percent change in the market price per share of Alpha Capital Class A Ordinary shares would result in the change of R\$14.9 million, R\$9.5 million,

and R\$4.2 million in the estimated expense assuming no redemptions, interim redemptions, and maximum redemptions, respectively. The stock based compensation is calculated as follows:

(2) Calculated based on exchange rate as of December 31, 2021 of \$1.00 to R\$5.5799 (see Note 2). On the basis of the foreign exchange rate of \$1.00 to R\$5.2173 as of June 28, 2022, the net assets of Alpha as of December 31, 2021 translated into Brazilian *real* is approximately \$1,075,967.

- F. To reflect adjustment made for the 2,500,000 Semantix Earn-Out Shares consideration in agreement with the Business Combination Agreement of R\$116.8 million.
G. To reflect the removal of Alpha historical accumulated deficit.

Note 6 - Adjustments and Reclassifications to Unaudited Pro Forma Condensed Combined Statement Of Operations for the Year Ended December 31, 2021

The pro forma adjustments included in the unaudited pro forma condensed combined statement of operations for the year ended December 31, 2021 are as follows:

- AA. To reflect the elimination of office and administrative support fees paid by Alpha to the Sponsor.
BB. To reflect the elimination of interest and dividend income generated from the cash held in the Trust Account.
CC. Represents the preliminary estimated expense recognized, in accordance with IFRS 2, for the excess of the fair value of New Semantix Ordinary Shares issued over the fair value of Alpha's identifiable net assets at the date of the Business Combination.
DD. Reflects the estimated transaction costs under the three scenarios to be expensed as part of the Business Combination, as described in C(iv).
EE. Adjustment to remove the Non-Controlling Interest related to LinkAPI due to the step-acquisition of LinkAPI being reflected as if it had occurred as of January 1, 2021.

Note 7 - Net Loss per Share

Represents the net loss per share calculated using the historical weighted average shares outstanding, and the issuance of additional shares in connection with the Business Combination, PIPE Financing, and step-acquisition of LinkAPI. As the Business Combination, PIPE Financing, and step-acquisition of LinkAPI, are being reflected as if they had occurred at the beginning of the period presented, the calculation of weighted average shares outstanding for basic and diluted net loss per share assumes that the shares issued in connection with the Business Combination have been outstanding for the entire period presented. As per Note 2, the following are also not included in calculation of pro forma EPS, (i) New Semantix Warrants that will remain outstanding

[Table of Contents](#)

immediately following the Business Combination and may be exercised thereafter, (ii) equity awards issued at Closing upon rollover of the Unvested Semantix Options, (iii) 2,500,000 Semantix Earn-Out Shares, and (iv) equity awards to be issued under the 2022 Plan. The 2,500,000 Semantix Earn-Out Shares will not have been issued at Closing and their subsequent issuance is subject to the fulfillment of certain conditions, such that they are not included in the calculation of pro forma EPS for the year ended December 31, 2021. The New Semantix Options and New Semantix Warrants issued in connection with the Business Combination are not included in the basic earnings per share calculation as the options are not exercised at the date of the consummation of the Business Combination Agreement.

Since Semantix reported a loss for the year ended December 31, 2021, the number of shares used to calculate diluted loss per share of common shares attributable to common shareholders is the same as the number of shares used to calculate basic loss per share of common shares attributable to common shareholders for the period presented because the potentially dilutive shares would have been antidilutive if included in the calculation. Consequently, the Option Holders and New Semantix Warrants issued in connection with the Business Combination are not included in the diluted earnings per share calculation as they are antidilutive.

The unaudited pro forma condensed combined financial information has been prepared assuming three alternative levels of redemption of Alpha's public shares:

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Davis Polk & Wardwell LLP, which is filed as Exhibit 8.1 to this registration statement, the following are the material U.S. federal income tax consequences to U.S. Holders (defined below) of (i) the SPAC Mergers, (ii) the ownership and disposition of New Semantix Securities received by holders of Alpha Securities in the SPAC Mergers and (iii) the exercise of redemption rights by U.S. Holders of Alpha Class A Ordinary Shares.

This summary is limited to U.S. federal income tax considerations relevant to U.S. Holders that hold Alpha Securities and, after the completion of the Business Combination, will hold New Semantix Securities, as “capital assets” within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be relevant to particular holders in light of their individual circumstances or status, including:

- our Sponsor or any member thereof;
- financial institutions or financial services entities;
- broker-dealers
- taxpayers that are subject to the mark-to-market tax accounting rules;
- tax-exempt entities;
- governments or agencies or instrumentalities thereof;
- insurance companies;
- regulated investment companies;
- real estate investment trusts;
- persons liable for alternative minimum tax;
- expatriates or former long-term residents of the United States;
- persons that actually or constructively own five percent or more of Alpha’s shares, by vote of value, or will hold five percent or more of the shares of New Semantix, by vote or value;
- persons that acquired Alpha Securities pursuant to an exercise of employee share options, in connection with employee share incentive plans or otherwise as compensation ;
- persons that hold Alpha Securities, or will hold New Semantix Securities, as part of a straddle, constructive sale, hedging, conversion or other integrated or similar transaction; or
- U.S. Holders (as defined below) whose functional currency is not the U.S. dollar.

If a partnership (or any entity so characterized for U.S. federal income tax purposes) holds Alpha Securities or New Semantix Securities, the tax treatment of such partnership and its partners will generally depend on the status of the partners and the activities of the partnership. Partnerships holding any Alpha Securities, or New Semantix Securities and their partners should consult their tax advisers as to the particular U.S. federal income tax consequences of the Business Combination, ownership and disposition of New Semantix Securities, or the exercise of redemption rights with respect to the Alpha Class A Ordinary Shares.

This discussion is based on the Code, proposed, temporary and final Treasury regulations promulgated under the Code, and judicial and administrative interpretations thereof, all as of the date hereof. All of the foregoing is subject to change, which change could apply retroactively and could affect the tax considerations described herein. This discussion does not address alternative minimum or Medicare contribution tax considerations, the special tax accounting rules under Section 451(b) of the Code or U.S. federal taxes other than those pertaining to U.S. federal income taxation (such as estate or gift taxes), nor does it address any aspects of U.S. state, local or non-U.S. taxation.

We have not and do not intend to seek any ruling from the U.S. Internal Revenue Service (the “IRS”) regarding any aspect of the Business Combination or the exercise of redemption rights. There can be no assurance that the IRS will not take positions that are inconsistent with those discussed below or that any such positions would not be sustained by a court.

As used herein, the term “U.S. Holder” means a beneficial owner of Alpha Securities or New Semantix Securities, as the case may be, who or that is for U.S. federal income tax purposes, (i) a citizen or individual resident of the United States, (ii) a corporation (or other entity that is treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state therein or the District of Columbia; or (iii) an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

THIS SUMMARY DOES NOT PURPORT TO BE A COMPREHENSIVE ANALYSIS OR DESCRIPTION OF ALL POTENTIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE BUSINESS COMBINATION. HOLDERS OF ALPHA SECURITIES SHOULD CONSULT THEIR TAX ADVISERS REGARDING THE PARTICULAR TAX CONSEQUENCES TO THEM OF THE BUSINESS COMBINATION AND OF THE OWNERSHIP AND DISPOSITION OF NEW PUBCO SECURITIES AFTER THE BUSINESS COMBINATION, OR THE REDEMPTION OF THEIR ALPHA CLASS A ORDINARY SHARES, INCLUDING THE APPLICABILITY AND EFFECTS OF U.S. FEDERAL, STATE, LOCAL, AND NON-U.S. TAX LAWS.

Tax Treatment of the SPAC Mergers

Under Section 368(a)(1)(F) of the Code, a reorganization is defined to include a “mere change in identity, form, or place of organization of one corporation, however effected.” In the opinion of Davis Polk & Wardwell LLP, subject to the assumptions, qualifications and limitations described herein and in the opinion included as filed as an exhibit to the registration statement of which this proxy statement/prospectus is a part, the SPAC Mergers will, together, qualify as a “reorganization” within the meaning of Section 368(a)(1)(F) (i.e., an F Reorganization). If any of the assumptions, representations or covenants on which the opinion is based is or becomes incorrect, incomplete, inaccurate or is otherwise not complied with, the validity of the opinion described above may be adversely affected and the tax consequences of the SPAC Mergers could differ from those described herein. In addition, it is not possible to predict whether the IRS or a court considering the issue would take a contrary position. U.S. Holders should be aware that the completion of the Business Combination is not conditioned on the receipt of an opinion of counsel that the SPAC Mergers (or any other aspect of the Business Combination) qualify as tax-free transactions. Neither Alpha nor Semantix has requested or will request a ruling from the IRS with respect to any aspect of the U.S. federal income tax treatment of the Business Combination.

If, as expected, the SPAC Mergers qualify as an F Reorganization:

- a U.S. Holder that exchanges its Alpha Securities pursuant to the SPAC Mergers generally will not recognize gain or loss on the exchange of such Alpha Securities for New Semantix Securities,
- the adjusted tax basis of a U.S. Holder in the New Semantix Ordinary Shares received as a result of the SPAC Mergers will equal the adjusted tax basis of the Alpha Class A Ordinary Shares surrendered in exchange therefor,
- the adjusted tax basis of a U.S. Holder in the warrants received as a result of the SPAC Mergers will equal the adjusted tax basis of the Alpha Warrants surrendered in exchange therefor, and
- a U.S. Holder’s holding period in the New Semantix Securities received in the exchange will include the holding period in the Alpha Securities surrendered in exchange therefor. However, it is unclear whether the redemption rights with respect to the Alpha Class A Ordinary Shares may prevent the holding period of the New Semantix Ordinary Shares from commencing prior to the termination of such rights.

If the SPAC Mergers do not qualify as an F Reorganization, the tax consequences of the SPAC Mergers will depend on whether the SPAC Mergers or any component thereof would qualify for tax-free treatment under other provisions of the Code, and whether Alpha and/or New Semantix are PFICs. U.S. Holders should consult their tax advisers regarding the U.S. federal income tax consequences of the SPAC Mergers if they do not qualify as an F Reorganization or otherwise as a tax-free transaction (including the requirement to recognize gain in that event). In addition, U.S. Holders should consult their tax advisers regarding whether the PFIC rules could apply to the transfer of their Alpha Securities pursuant to the SPAC Mergers if they do not qualify as an F Reorganization (regardless of whether the SPAC Mergers otherwise qualify for tax-free treatment).

Because the F Reorganization will occur prior to the redemption of U.S. Holders that exercise redemption rights, U.S. Holders exercising such redemption rights will be subject to the potential tax consequences of the F Reorganization. All U.S. Holders considering exercising redemption rights are urged to consult their tax advisers with respect to the potential tax consequences to them of the F Reorganization and an exercise of redemption rights.

Consequences of Ownership and Disposition of New Semantix Ordinary Shares and Warrants

Taxation of Distributions

Subject to the PFIC rules discussed below, a U.S. Holder generally will be required to include in gross income as dividends the amount of any cash distribution paid on the New Semantix Ordinary Shares to the extent the distribution is paid out of New Semantix's current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Such dividends will be taxable to a corporate U.S. Holder at regular corporate tax rates and will not be eligible for the dividends-received deduction generally allowed to domestic corporations in respect of dividends received from other domestic corporations. Subject to the PFIC rules discussed below, distributions in excess of such earnings and profits generally will be applied against and reduce the U.S. Holder's basis in its New Semantix Ordinary Shares (but not below zero) and, to the extent in excess of such basis, will be treated as gain from the sale or exchange of such New Semantix Ordinary Shares. Because New Semantix may not maintain calculations of earnings and profits under U.S. federal income tax principles, it is expected that the full amount of distributions (if any) paid by New Semantix will be reported as dividends for U.S. federal income tax purposes.

With respect to non-corporate U.S. Holders, under tax laws currently in effect and subject to the PFIC rules, dividends generally will be taxed at the lower applicable long-term capital gains rate (see "*Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of New Semantix Ordinary Shares and Warrants*" below) only if the New Semantix Ordinary Shares are readily tradable on an established securities market in the United States and certain other requirements are met. U.S. Holders should consult their tax advisers regarding the availability of such lower rate for any dividends paid with respect to the New Semantix Ordinary Shares.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of New Semantix Ordinary Shares and Warrants

Subject to the PFIC rules discussed below, a U.S. Holder generally will recognize capital gain or loss on the sale or other taxable disposition of the New Semantix Ordinary Shares or warrants. Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder's holding period for such New Semantix Ordinary Shares or warrants exceeds one year at the time of such disposition. It is unclear, however, whether the redemption rights with respect to the Alpha Class A Ordinary Shares may have suspended the running of the applicable holding period for this purpose.

The amount of gain or loss recognized on a sale or other taxable disposition generally will be equal to the difference between (i) the sum of the amount of cash and the fair market value of any property received in such disposition and (ii) the U.S. Holder's adjusted tax basis in its New Semantix Ordinary Shares or warrants so

[Table of Contents](#)

disposed of. Long-term capital gain realized by a non-corporate U.S. Holder is currently eligible to be taxed at reduced rates. See “*Exercise, Lapse or Redemption of a Warrant*” below for a discussion regarding a U.S. Holder’s basis in a New Semantix Ordinary Share acquired pursuant to the exercise of a warrant. The deductibility of capital losses is subject to certain limitations.

Exercise, Lapse or Redemption of a Warrant

Subject to the PFIC rules discussed below, and except as discussed below with respect to the cashless exercise of a warrant, a U.S. Holder generally will not recognize gain or loss upon the acquisition of a New Semantix Ordinary Share on the exercise of a warrant for cash. A U.S. Holder’s tax basis in a New Semantix Ordinary Share received upon exercise of the warrant generally will equal the sum of the U.S. Holder’s tax basis in the warrant and the exercise price. It is unclear whether a U.S. Holder’s holding period for the New Semantix Ordinary Share will commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding period will not include the period during which the U.S. Holder held the warrant. If a warrant is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such holder’s tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current law. A cashless exercise may not be taxable, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for United States federal income tax purposes. In either situation, a U.S. Holder’s tax basis in the New Semantix Ordinary Share received generally would equal the U.S. Holder’s tax basis in the warrants. If the cashless exercise was not treated as a recapitalization (but not a realization event), it is unclear whether a U.S. Holder’s holding period for the New Semantix Ordinary Share will commence on the date of exercise of the warrant or the day following the date of exercise of the warrant. If the cashless exercise were treated as a recapitalization, the holding period of the New Semantix Ordinary Share would include the holding period of the warrants.

It is also possible that a cashless exercise may be treated in part as a taxable exchange in which gain or loss would be recognized. In such event, a portion of the warrants to be exercised on a cashless basis could, for U.S. federal income tax purposes, be deemed to have been surrendered in consideration for the exercise price of the remaining warrants, which would be deemed to be exercised. For this purpose, a U.S. Holder may be deemed to have surrendered warrants with an aggregate value equal to the exercise price for the total number of warrants to be deemed exercised. Subject to the PFIC rules discussed below, the U.S. Holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the warrants deemed surrendered and the U.S. Holder’s tax basis in such warrants. In this case, a U.S. Holder’s tax basis in the New Semantix Ordinary Shares received would equal the sum of the U.S. Holder’s tax basis in the warrants deemed exercised and the exercise price of such warrants. It is unclear whether a U.S. Holder’s holding period for the New Semantix Ordinary Shares would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant.

Due to the absence of authority on the United States federal income tax treatment of a cashless exercise, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of New Semantix Ordinary Shares for which the warrant may be exercised or to the exercise price of the warrant in certain events. An adjustment which has the effect of preventing dilution generally is not taxable. U.S. Holders of warrants would, however, be treated as receiving a constructive distribution from New Semantix if, for example, the adjustment increases the warrant holders’ proportionate interest in New Semantix’s assets or earnings and profits (e.g., through an increase

in the number of New Semantix Ordinary Shares that would be obtained upon exercise) as a result of a distribution of cash to the holders of New Semantix Ordinary Shares which is taxable to the U.S. Holders of such New Semantix Ordinary Shares as described under “Taxation of Distributions” above. Such constructive distribution would be subject to tax as described under that section in the same manner as if the U.S. Holders of the warrants received a cash distribution from New Semantix equal to the fair market value of the increase in the interest. For certain information reporting purposes, New Semantix is required to determine the date and amount of any such constructive distributions. Proposed Treasury Regulations, which New Semantix may rely on prior to the issuance of final Treasury Regulations, specify how the date and amount of constructive distributions are determined.

Redemption of New Semantix Ordinary Shares

Subject to the PFIC Rules discussed below,” in the event that a U.S. Holder’s New Semantix Ordinary Shares are redeemed pursuant to the redemption provisions described in this proxy statement/prospectus under “*The Extraordinary General Meeting of Alpha Shareholders—Redemption Rights*,” the treatment of the redemption for U.S. federal income tax purposes will generally depend on whether the redemption qualifies as a sale of the New Semantix Ordinary Shares under Section 302 of the Code (in which case such redemption would be treated as described below under the heading “—*Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of New Semantix Ordinary Shares or Warrants*”) or rather as a distribution, in which case such redemption would be treated as described in “—*Taxation of Distributions*.”

Generally, whether a redemption qualifies for sale treatment will depend largely on the total number of New Semantix Ordinary Shares treated as held by the U.S. Holder (including any shares constructively owned by the U.S. Holder as a result of owning warrants) relative to all New Semantix Ordinary Shares outstanding both before and after such redemption. The redemption of New Semantix Ordinary Shares generally will be treated as a sale of the New Semantix Ordinary Shares (rather than as a corporate distribution) if such redemption (i) is “substantially disproportionate” with respect to the U.S. Holder, (ii) results in a “complete termination” of the U.S. Holder’s interest in us or (iii) is “not essentially equivalent to a dividend” with respect to the U.S. Holder. These tests are explained more fully below.

In determining whether any of the tests are satisfied, a U.S. Holder generally takes into account not only New Semantix Ordinary Shares actually owned by the U.S. Holder, but also any New Semantix Ordinary Shares that are constructively owned by such U.S. Holder. A U.S. Holder may constructively own, in addition to shares owned directly, shares owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any shares the U.S. Holder has a right to acquire by exercise of an option, which would generally include New Semantix Ordinary Shares which could be acquired pursuant to the exercise of warrants. In order to meet the substantially disproportionate test, the percentage of our outstanding voting shares actually and constructively owned by the U.S. Holder immediately following the redemption of New Semantix Ordinary Shares must, among other requirements, be less than 80% of the percentage of our outstanding voting shares actually and constructively owned by the U.S. Holder immediately before the redemption. Before the Business Combination, the Alpha Class A Ordinary Shares may not be treated as voting shares for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a complete termination of a U.S. Holder’s interest if either (i) all New Semantix Ordinary Shares actually and constructively owned by the U.S. Holder are redeemed or (ii) all New Semantix Ordinary Shares actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of shares owned by certain family members and the U.S. Holder does not constructively own any other shares of ours. The redemption of the New Semantix Ordinary Shares will not be essentially equivalent to a dividend with respect to a U.S. Holder if it results in a “meaningful reduction” of the U.S. Holder’s proportionate interest in New Semantix. Whether the redemption will result in a meaningful reduction in a U.S. Holder’s proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a

small minority shareholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.”

If none of the foregoing tests is satisfied, then the redemption will be treated as a corporate distribution and taxed in the manner described above under “—*Taxation of Distributions*.” After the application of those rules, any remaining tax basis of the U.S. Holder in the redeemed New Semantix Ordinary Shares will be added to the U.S. Holder’s adjusted tax basis in its remaining shares, or, if it has none, to the U.S. Holder’s adjusted tax basis in other shares constructively owned by such U.S. Holder.

U.S. HOLDERS OF ALPHA CLASS A ORDINARY SHARES CONTEMPLATING THE EXERCISE OF THEIR REDEMPTION RIGHTS SHOULD CONSULT THEIR TAX ADVISERS CONCERNING THE U.S. FEDERAL, STATE, LOCAL, AND NON-U.S. TAX CONSEQUENCES THEREOF.

Passive Foreign Investment Company Rules

The treatment of U.S. Holders of Alpha Securities and New Semantix Securities could be materially different from that described above if Alpha or New Semantix is or was treated as a PFIC for U.S. federal income tax purposes.

In general, a non-U.S. corporation is a PFIC for U.S. federal income tax purposes for any taxable year in which (i) 50% or more of the value of its assets (generally determined on the basis of a weighted quarterly average) consists of assets that produce, or are held for the production of, passive income, or (ii) 75% or more of its gross income consists of passive income. Passive income generally includes dividends, interest, royalties, rents, investment gains, net gains from the sales of property that does not give rise to any income and net gains from the sale of commodities (subject to certain exceptions, such as an exception for certain income derived in the active conduct of a trade or business). Cash and cash equivalents are passive assets. The value of goodwill will generally be treated as an active or passive asset based on the nature of the income produced in the activity to which the goodwill is attributable. For purposes of the PFIC rules, a non-U.S. corporation that owns, directly or indirectly, at least 25% by value of the stock of another corporation is treated as if it held its proportionate share of the assets of the other corporation, and received directly its proportionate share of the income of the other corporation.

Based on the expected composition of New Semantix’s income and assets and the estimated value of New Semantix’s assets, including goodwill, New Semantix currently does not expect to be a PFIC for its taxable year ending December 31, 2022. However, because New Semantix’s PFIC status for any taxable year is an annual determination that can be made only after the end of that year and will depend on the composition of New Semantix’s income and assets and the value of its assets from time to time (including the value of its goodwill, which may be determined in large part by reference to the market price of the New Semantix Ordinary Shares from time to time, which could be volatile), there can be no assurances the New Semantix will not be a PFIC for its taxable year ending December 31, 2022 or any future taxable year. Because Alpha is a blank-check company with no current active business, based upon the composition of Alpha’s income and assets, unless Alpha qualifies for the start-up exception (defined below), Alpha believes it would qualify as a PFIC for its taxable year ending December 31, 2021. Pursuant to the start-up exception, however, a corporation will not be a PFIC for the first taxable year the corporation has gross income (the “start-up year”), if (1) no predecessor of the corporation was a PFIC, (2) it is established to the satisfaction of the IRS that the corporation will not be a PFIC for either of the first two taxable years following the start-up year, and (3) the corporation is not in fact a PFIC for either of those years (the “start-up exception”).

Assuming the SPAC Mergers qualify as an F Reorganization, New Semantix should be treated as the same corporation as Alpha for purposes of the PFIC rules, including the start-up exception. In that case, Alpha should not be treated as a PFIC for its taxable year ending December 31, 2021, if it qualifies for the start-up exception for its taxable year ending December 31, 2021, which requires that New Semantix will not be a PFIC for its

taxable years ending December 31, 2022, and December 31, 2023. As discussed above, there can be no assurance with respect to New Semantix's PFIC status for any taxable year. Because PFIC status for any taxable year will not be determinable until after the end of such year, and, in the case of the application of the start-up exception for Alpha in its taxable year ending December 31, 2021, until after the end of New Semantix's taxable year ending December 31, 2023, there can be no assurance with respect to Alpha's status as a PFIC for its taxable year ending December 31, 2021.

If Alpha is determined to be a PFIC with respect to a U.S. Holder who exchanges Alpha Class A Ordinary Shares for New Semantix Ordinary Shares in connection with the SPAC Mergers and such U.S. Holder did not make any of the PFIC Elections (defined below) with respect to the Alpha Class A Ordinary Shares, then, although not free from doubt, New Semantix would also be treated as a PFIC as to such U.S. Holder with respect to such New Semantix Ordinary Shares, even if New Semantix is not a PFIC, unless such U.S. Holder makes a purging election with respect to its shares. Under one type of purging election, the U.S. Holder will be deemed to have sold such shares at their fair market value and any gain recognized on such deemed sale will be treated as an "excess distribution," as described below. As a result of this election, the U.S. Holder will have additional basis (to the extent of any gain recognized in the deemed sale) and, solely for purposes of the PFIC rules, a new holding period in such holder's New Semantix Ordinary Shares. In the absence of a purging election, such U.S. Holder would be treated for purposes of the PFIC rules as if it held such New Semantix Ordinary Shares for a period that includes its holding period for the Alpha Class A Ordinary Shares exchanged therefor. U.S. Holders are urged to consult their tax advisors regarding the application of the purging elections rules to their particular circumstances.

In addition, if Alpha is determined to be a PFIC, any income or gain recognized by a U.S. Holder electing to have its shares redeemed, as described above under the heading "*—Redemption of New Semantix Ordinary Shares*," would generally be subject to a special tax and interest charge if such U.S. Holder did not make a qualified electing fund ("QEF") election for Alpha's first taxable year as a PFIC in which such U.S. Holder held (or was deemed to hold) such shares, a QEF election along with an applicable purging election, or a mark-to-market election (collectively, the "PFIC Elections").

If New Semantix is a PFIC for any taxable year during which a U.S. person owns New Semantix Ordinary Shares and any entity in which it owns equity interests is also a PFIC (a "Lower-tier PFIC"), the U.S. Holder will be deemed to own their proportionate amount (by value) of the shares of each Lower-tier PFIC and will be subject to U.S. federal income tax according to the rules described below on (i) certain distributions by a Lower-tier PFIC and (ii) dispositions of shares of Lower-tier PFICs, in each case, as if the U.S. Holder held such shares directly, even though the U.S. Holder will not receive any proceeds of those distributions or dispositions.

If Alpha or New Semantix is a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder of New Semantix Ordinary Shares, gain recognized by the U.S. Holder on a sale or other disposition (including certain pledges) of its New Semantix Ordinary Shares will be allocated ratably over the U.S. Holder's holding period for such New Semantix Ordinary Shares. The amounts allocated to the taxable year of the sale or disposition and to any year before New Semantix became a PFIC will be taxed as ordinary income. The amount allocated to each other taxable year will be subject to tax at the highest rate in effect for individuals or corporations, as applicable, for that taxable year, and an interest charge will be imposed on the resulting tax liability for each such year. Furthermore, to the extent that distributions received by a U.S. Holder in any taxable year on its New Semantix Ordinary Shares exceed 125% of the average of the annual distributions on the New Semantix Ordinary Shares received during the preceding three taxable years or the U.S. Holder's holding period, whichever is shorter, the excess distributions will be subject to taxation in the same manner.

In general, a U.S. Holder of Alpha Class A Ordinary Shares may avoid the adverse PFIC tax consequences described above in respect of the New Semantix Ordinary Shares by making and maintaining a timely and valid QEF election to include in income its pro rata share of New Semantix's net capital gains (as long-term capital gains) and other earnings and profits (as ordinary income), on a current basis, in each case, whether or not

distributed, in the taxable year of the U.S. Holder in which or with which New Semantix's taxable year ends. In order to comply with the requirements of a QEF election, a U.S. Holder must receive a PFIC Annual Information Statement from Alpha or New Semantix, as the case may be. We do not intend to prepare or provide the information necessary for a U.S. Holder to make a qualified electing fund election with respect to New Semantix Ordinary Shares.

A U.S. Holder may not make a QEF election with respect to its warrants to acquire New Semantix Ordinary Shares. As a result, if a U.S. Holder sells or otherwise disposes of such warrants (other than upon exercise of such warrants) and Alpha or New Semantix was a PFIC at any time during the U.S. Holder's holding period of such warrants, proposed Treasury Regulations would provide that any gain generally will be treated as an excess distribution, taxed as described above. If a U.S. Holder that exercises such warrants properly makes a QEF election with respect to the newly acquired New Semantix Ordinary Shares (or has a properly maintained QEF election in effect with respect to New Semantix Ordinary Shares), the QEF election will apply to the newly acquired New Semantix Ordinary Shares. Notwithstanding the foregoing, the adverse tax consequences relating to PFIC shares, adjusted to take into account the current income inclusions resulting from the QEF election, will continue to apply with respect to such newly acquired New Semantix Ordinary Shares (which may be deemed to have a holding period for purposes of the PFIC rules that includes all or a portion of the period the U.S. Holder held the warrants), unless the U.S. Holder makes a purging election (discussed above). As a result of a purging election, the U.S. Holder will have a new basis and holding period in the New Semantix Ordinary Shares acquired upon the exercise of the warrants for purposes of the PFIC rules.

Alternatively, if New Semantix is a PFIC and if the New Semantix Ordinary Shares are "regularly traded" on a "qualified exchange," a U.S. Holder could make a mark-to-market election that would result in tax treatment different from the general tax treatment for PFICs described above. The New Semantix Ordinary Shares will be treated as regularly traded for any calendar year in which more than a *de minimis* quantity of the New Semantix Ordinary Shares are traded on a qualified exchange on at least 15 days during each calendar quarter. Nasdaq, where the New Semantix Ordinary Shares are expected to be listed, is a qualified exchange for this purpose. If a U.S. Holder of New Semantix Ordinary Shares makes the mark-to-market election, the U.S. Holder generally will recognize as ordinary income any excess of the fair market value of the New Semantix Ordinary Shares at the end of each taxable year over their adjusted tax basis, and will recognize an ordinary loss in respect of any excess of the adjusted tax basis of the New Semantix Ordinary Shares over their fair market value at the end of the taxable year, but only to the extent of the net amount of income previously included as a result of the mark-to-market election. If a U.S. Holder makes the mark-to-market election, the U.S. Holder's tax basis in the New Semantix Ordinary Shares will be adjusted to reflect the income or loss amounts recognized. Any gain recognized on the sale or other disposition of New Semantix Ordinary Shares in a year in which we are a PFIC will be treated as ordinary income and any loss will be treated as an ordinary loss (but only to the extent of the net amount of income previously included as a result of the mark-to-market election, with any excess treated as capital loss). If a U.S. Holder makes the mark-to-market election, distributions paid on New Semantix Ordinary Shares will be treated as discussed under "*Taxation of Distributions*" above. U.S. Holders should consult their tax advisers regarding the availability and advisability of making a mark-to-market election in their particular circumstances. U.S. Holders should note that there is no provision in the Code, Treasury regulations or other official IRS guidance that would give them the right to make a mark-to-market election with respect to any Lower-tier PFIC, the shares of which are not regularly traded, and, therefore, the general rules applicable to ownership of a PFIC described above could continue to apply to a U.S. Holder with respect to any Lower-tier PFIC of New Semantix, even if the U.S. Holder made a mark-to-market election with respect to the New Semantix Ordinary Shares. Currently, a mark-to-market election may not be made with respect to the warrants.

If New Semantix is a PFIC for any taxable year during which a U.S. Holder owns (or is deemed to own) any New Semantix Ordinary Shares, subject to certain limited exceptions set forth in applicable Treasury regulations, the U.S. Holder will be required to file annual reports with the IRS with respect to New Semantix and any Lower-tier PFIC. U.S. Holders should consult their tax advisers regarding the determination of whether Alpha or New Semantix is a PFIC for any taxable year and the potential application of the PFIC rules to their ownership of New Semantix Ordinary Shares.

Information Reporting and Backup Withholding

Dividend payments with respect to New Semantix Ordinary Shares and proceeds from the sale, exchange or redemption of New Semantix Ordinary Shares may be subject to information reporting to the IRS and possible United States backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes other required certifications, or who is otherwise exempt from backup withholding and establishes such exempt status. U.S. Holders who are required to establish their exempt status may be required to provide such certification on IRS Form W-9.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder's United States federal income tax liability, and a U.S. Holder generally may obtain a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing any required information. U.S. Holders are urged to consult their own tax advisors regarding the application of backup withholding and the availability of and procedure for obtaining an exemption from backup withholding in their particular circumstances.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder's particular situation. U.S. Holders are urged to consult their tax advisors with respect to the tax consequences to them of the SPAC Mergers, ownership and disposition of New Semantix Ordinary Shares and warrants and the exercise of their redemption rights, including the tax consequences under state, local, estate, non-U.S. and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws.

CAYMAN ISLANDS TAX CONSIDERATIONS

The following is a discussion on certain Cayman Islands income tax consequences of an investment in the securities of New Semantix. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under Existing Cayman Islands Laws:

Payments of dividends and capital in respect of New Semantix's securities will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of a dividend or capital to any holder of the securities nor will gains derived from the disposal of the securities be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax.

No stamp duty is payable in respect of the issue of the warrants. An instrument of transfer in respect of a warrant is stampable if executed in or brought into the Cayman Islands.

No stamp duty is payable in respect of the issue of New Semantix's Ordinary Shares or on an instrument of transfer in respect of such shares.

New Semantix has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has applied for and expects to obtain after the effectiveness of the registration statement of which this prospectus forms a part an undertaking from the Financial Secretary of the Cayman Islands substantially in the following form:

The Tax Concessions Law Undertaking as to Tax Concessions

In accordance with the Tax Concessions Law, the following undertaking is hereby given to New Semantix:

1. That no law which is hereafter enacted in the Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to New Semantix or its operations; and
2. In addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable:
 - 2.1 on or in respect of the shares, debentures or other obligations of New Semantix; or
 - 2.2 by way of the withholding in whole or in part of any relevant payment as defined in the Tax Concessions Law.

These concessions shall be for a period of twenty years from January 7, 2022.

BUSINESS OF ALPHA

Unless the context otherwise requires, all references in this subsection to “the Company,” “Alpha,” “we,” “us” or “our” refer to the business of Alpha Capital Acquisition Company prior to the consummation of the Business Combination.

Alpha is a blank check company incorporated in the Cayman Islands on December 10, 2020 formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to as our initial business combination.

Alpha was established by our founders – Alec Oxenford and Rafael Steinhauser – with the mission of providing technology-focused companies in Latin America with broader access to the capital markets. We believe that the businesses with the greatest propensity for long-term value creation seek partners who are themselves proven value builders and have demonstrated success in ushering companies from private to public operating environments.

Alpha History

In December 2020, one of our officers purchased an aggregate of 5,750,000 Founder Shares for an aggregate purchase price of \$25,000, or approximately \$0.004 per share. In January 2021, the Founder Shares were assigned to our Sponsor for the same purchase price that was initially paid by one of our officers. Our Founder Shares will automatically convert into Alpha Class A Ordinary Shares, on a one-for-one basis, upon the completion of a business combination. The number of Founder Shares issued was determined based on the expectation that the Founder Shares would represent 20% of the issued and outstanding ordinary shares upon completion of the IPO.

On February 23, 2021, we completed our IPO of 23,000,000 units at a price of \$10.00 per unit, generating gross proceeds of \$230,000,000. Each unit consists of one Alpha Class A Ordinary Share and one-half of one public warrant. Each whole warrant entitles the holder thereof to purchase one Alpha Class A Ordinary Share at a price of \$11.50 per share, subject to certain adjustments.

Substantially concurrently with the completion of the IPO, our Sponsor purchased an aggregate of 7,000,000 private placement warrants at a price of \$1.00 per warrant, or \$7,000,000 in the aggregate. A total of \$232,400,000, comprised of \$225,400,000 of the proceeds from the IPO, including \$8,050,000 of the underwriters’ deferred discount, and \$7,000,000 of the proceeds of the sale of the private placement warrants, was placed in a U.S.-based trust account at Citibank, N.A., maintained by Continental Stock Transfer & Trust, acting as trustee. Each of the underwriters in our IPO waived its deferred underwriting discount in the aggregate amount of \$8,050,000, such that we now do not expect to pay any deferred underwriting fees in connection with closing of our initial business combination. On May 13, 2022, Alpha received notice from BofA Securities formally waiving any entitlement to its portion of the deferred underwriting fee earned at the time of Alpha’s IPO, and on June 3, 2022, Alpha received from BofA Securities a formal letter confirming its resignation and waiver of fees. Aside from general dialogue between representatives of Alpha and BofA Securities (and other investment banking professionals) about sourcing targets and broader SPAC market conditions in the ordinary course, subsequent to Alpha’s IPO, BofA Securities has had no involvement in the proposed business combination with Semantix (other than periodically discussing broader market conditions with representatives of Alpha in the ordinary course), and BofA Securities was not retained in any role after Alpha’s IPO. In particular, BofA Securities did not assist in (i) procuring Semantix as a target business, (ii) developing any financial models or other target evaluation materials while Alpha was pursuing a business combination with Semantix, (iii) marketing the transaction, (iv) preparation or review of this proxy statement / prospectus or any of its underlying disclosure, or (v) any other role in the business combination. Due to the lack of any role by BofA Securities in the proposed business combination, Alpha accepted the waiver from BofA Securities.

On May 18, 2022, Alpha received notice from Citi, one of the underwriters in its IPO, waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha’s IPO in the

amount of \$4,588,500, and on May 19, 2022, Alpha received from Citi a formal letter confirming its resignation and waiver of fees. This fee was agreed between Alpha and Citi in the IPO underwriting agreement signed by the parties on February 18, 2021, and was earned in full upon completion of the IPO but payment was conditioned upon closing of Alpha's business combination such that the waiver was given by Citi on a gratuitous basis without any consideration to Citi from Alpha. Under Citi's capital markets advisory agreement, Alpha had engaged Citi to advise on the structure, negotiation strategy, valuation analyses, financial terms, investor meetings and presentations and other matters relating to the Business Combination and such capital markets advisory agreement did not provide for any fees to be paid by Alpha to Citi in connection with such services. Accordingly, Citi informed Alpha that, since they were not mandated in any other capacity in connection with the proposed Business Combination with Semantix beyond their unremunerated capital markets engagement, they were waiving their entitlement to the payment of any fees, including its portion of the deferred underwriting fee from its participation in Alpha's IPO, and cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fee.

On April 12, 2021, we announced that, commencing April 12, 2021, holders of the 23,000,000 units sold in the IPO may elect to separately trade the Alpha Class A Ordinary Shares and the public warrants included in the units. Those units not separated continued to trade on Nasdaq under the symbol "ASPCU" and the Alpha Class A Ordinary Shares and public warrants that were separated trade under the symbols "ASPC" and "ASPCW," respectively.

Initial Business Combination

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the Trust Account (excluding taxes payable on the interest earned on the Trust Account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination upon standards generally accepted by the financial community. If our board of directors is not able to independently determine the fair market value of our initial business combination (including with the assistance of financial advisors), we will obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm with respect to the satisfaction of such criteria. While we consider it likely that our board of directors will be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of the target's assets or prospects.

We may structure our initial business combination such that the post transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such business combination if the post transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post transaction company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to the business combination may collectively own a minority interest in the post transaction company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the 80% of net assets test described above. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

Corporate Information

Our executive offices are located at 1230 Avenue of the Americas, 16th Floor, New York, NY 10020, and our telephone number is (732) 838-4533. Our website is www.alpha-capital.io. Our website and the information contained on, or that can be accessed through, the website is not deemed to be incorporated by reference in, and is not considered part of, this proxy statement/prospectus or the registration statement of which this proxy statement/prospectus is a part.

We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Act. As an exempted company, we have received a tax exemption undertaking from the Cayman Islands government, in accordance with Section 6 of the Tax Concessions Act (As Revised) of the Cayman Islands to the effect that, for a period of 20 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of our IPO, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A ordinary shares that are held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period. References herein to “emerging growth company” will have the meaning associated with it in the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Rule 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of any fiscal year for so long as either (1) the market value of our ordinary shares held by non-affiliates did not exceed \$250 million as of the prior June 30, or (2) our annual revenues did not exceed \$100 million during such completed fiscal year and the market value of our ordinary shares held by non-affiliates did not exceed \$700 million as of the prior June 30.

Limitation on Liability and Indemnification of Officers and Directors

Cayman Islands law does not limit the extent to which a company’s memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by

the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against willful default, fraud or the consequences of committing a crime. Our amended and restated memorandum and articles of association provide for indemnification of our officers and directors to the maximum extent permitted by law, including for any liability incurred in their capacities as such, except through their own actual fraud, willful default or willful neglect. We have purchased a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors. We have also entered into indemnity agreements with them.

Our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the Trust Account, and have agreed to waive any right, title, interest or claim of any kind they may have in the future as a result of, or arising out of, any services provided to us and will not seek recourse against the Trust Account for any reason whatsoever. Accordingly, any indemnification provided will only be able to be satisfied by us if (i) we have sufficient funds outside of the Trust Account or (ii) we consummate an initial business combination.

Our indemnification obligations may discourage shareholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

We believe that these provisions, the insurance and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

Redemption of Public Shares and Liquidation if No Initial Business Combination

Our amended and restated memorandum and articles of association provide that we will have only until February 23, 2023 to complete our initial business combination. If we have not completed our initial business combination within such period we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (less taxes payable and up to \$100,000 of interest income to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and in all cases subject to the other requirements of applicable law. There will be no redemption rights or liquidating distributions with respect to our Alpha Warrants, which will expire worthless if we fail to complete our initial business combination by February 23, 2023.

Our Sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the Trust Account with respect to any Founder Shares held by them if we fail to complete our initial business combination by February 23, 2021. However, if our Sponsor or management team acquire public shares, they will be entitled to liquidating distributions from the Trust Account with respect to such public shares if we fail to complete our initial business combination within the allotted time period.

Our Sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination by February 23,

2021 or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, unless we provide our public shareholders with the opportunity to redeem their public shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay our taxes, divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement, we would not proceed with the amendment or the related redemption of our public shares at such time.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the approximately \$1,400,000 of proceeds held outside the Trust Account, although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the Trust Account not required to pay income taxes on interest income earned on the Trust Account balance, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of our IPO and the sale of the private placement warrants, other than the proceeds deposited in the Trust Account, and without taking into account interest, if any, earned on the Trust Account, the per-share redemption amount received by shareholders upon our dissolution would be approximately \$10.00. The funds deposited in the Trust Account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public shareholders. We cannot assure you that the actual per-share redemption amount received by shareholders will not be substantially less than \$10.00. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the Trust Account for the benefit of our public shareholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the Trust Account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the Trust Account. If any third party refuses to execute an agreement waiving such claims to the monies held in the Trust Account, our management will consider whether competitive alternatives are reasonably available to us and will only enter into an agreement with such third-party if management believes that such third party's engagement would be in the best interests of the company under the circumstances. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. WithumSmith+Brown, PC, our independent registered public accounting firm, and the underwriters of our IPO will not execute agreements with us waiving such claims to the monies held in the Trust Account. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the Trust Account for any reason. In order to protect the amounts held in the Trust Account, our Sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than WithumSmith+Brown, PC, our independent registered public accounting firm) for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under our

indemnity of the underwriters of our IPO against certain liabilities, including liabilities under the Securities Act. However, we have not asked our Sponsor to reserve for such indemnification obligations, nor have we independently verified whether our Sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our Sponsor's only assets are securities of our company. Therefore, we cannot assure you that our Sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the Trust Account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the funds in the Trust Account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, and our Sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our Sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our Sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per share.

We will seek to reduce the possibility that our Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account. Our Sponsor will also not be liable as to any claims under our indemnity of the underwriters of our IPO against certain liabilities, including liabilities under the Securities Act. We have access to up to \$1,400,000 from the proceeds of our IPO with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, shareholders who received funds from our Trust Account could be liable for claims made by creditors.

If we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the funds held in the Trust Account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy claims deplete the Trust Account, we cannot assure you we will be able to return \$10.00 per share to our public shareholders. Additionally, if we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy or insolvency laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy or insolvency court could seek to recover some or all amounts received by our shareholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public shareholders from the Trust Account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public shareholders will be entitled to receive funds from the Trust Account only (i) in the event of the redemption of our public shares if we do not complete our initial business combination by February 23, 2021 (ii) in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination by February 23, 2023, or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity or (iii) if they redeem their respective shares for cash upon the

completion of our initial business combination. In no other circumstances will a shareholder have any right or interest of any kind to or in the Trust Account. In the event we seek shareholder approval in connection with our initial business combination, a shareholder's voting in connection with the business combination alone will not result in a shareholder's redeeming its shares to us for an applicable pro rata share of the Trust Account. Such shareholder must have also exercised its redemption rights described above. These provisions of our amended and restated memorandum and articles of association, like all provisions of our amended and restated memorandum and articles of association, may be amended with a shareholder vote.

Facilities

We currently utilize office space at 1230 Avenue of the Americas, 16th Floor, New York, NY 10020. We consider our current office space adequate for our current operations.

Employees

We currently have four officers: Alec Oxenford, Rafael Steinhauser, Rahim Lakhani and Alfredo Capote. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full-time employees prior to the completion of our initial business combination.

Legal Proceedings

We may be subject to legal proceedings, investigations and claims incidental to the conduct of our business from time to time.

On February 23, 2022, in connection with the Business Combination Proposal, a purported shareholder of Alpha sent a demand letter to Alpha's counsel, alleging that the registration statement filed by the Company on February 7, 2022 with the SEC omitted material information related to the Business Combination and demanding that Alpha, its board of directors and New Semantix make supplemental corrective disclosures addressing the alleged deficiencies. On March 10, 2022, another purported shareholder of Alpha sent a similar demand letter to Alpha, making similar allegations and alleging that Alpha and its board of directors breached their fiduciary duties and/or violated federal securities laws in connection with the alleged disclosure deficiencies. Alpha believes the purported claims described in the demands are without merit.

There can be no assurances that additional demands, or complaints asserting similar allegations, will not be made or filed with respect to the merger. If additional similar demands or complaints are made or filed, absent new or different allegations that are material, neither Alpha nor New Semantix will necessarily announce them.

To the knowledge of our management, there is no additional material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

Periodic Reporting and Audited Financial Statements

Alpha has registered its securities under the Exchange Act and has reporting obligations, including the requirement to file annual and quarterly reports with the Securities and Exchange Commission.

Number and Terms of Office of Officers and Directors

Our board of directors consists of five members and is divided into three classes with only one class of directors being appointed in each year, and with each class (except for those directors appointed prior to our first general meeting) serving a three-year term. In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on Nasdaq. The term of office of the first class of directors, consisting of Messrs. Lorié and Lebowits, will expire at our first annual general meeting. The term of office of the second class of directors, consisting of Mr. Genish, will expire at the second annual general meeting. The term of office of the third class of directors, consisting of Messrs. Oxenford and Steinhauser, will expire at the third annual general meeting.

Only holders of Class B ordinary shares have the right to appoint directors in any general meeting held prior to or in connection with the completion of our initial business combination. Holders of our public shares will not be entitled to vote on the appointment of directors during such time. These provisions of our amended and restated memorandum and articles of association relating to the rights of holders of Class B ordinary shares to appoint directors may be amended by a special resolution passed by a majority of at least 90% of our ordinary shares voting in a general meeting. Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint officers as it deems appropriate pursuant to our amended and restated memorandum and articles of association.

Director Independence

Nasdaq listing standards require that a majority of our board of directors be independent within one year of our IPO. An “independent director” is defined generally as a person who, in the opinion of the company’s board of directors, has no material relationship with the listed company (either directly or as a partner, shareholder, stockholder or officer of an organization that has a relationship with the company). Our board of directors has determined that David Lorié, Amos Genish and Ariel Lebowits are “independent directors” as defined in Nasdaq listing standards and applicable SEC rules. Our independent directors conduct regularly scheduled meetings at which only independent directors are present.

Officer and Director Compensation

None of our officers or directors have received any cash compensation for services rendered to us. Commencing February 17, 2021 through the earlier of consummation of our initial business combination and our liquidation, we will pay our Sponsor or an affiliate thereof up to \$55,000 per month for office space, utilities, salaries or other cash compensation paid to consultants to our Sponsor, secretarial and administrative support services provided to members of our management team and other expenses and obligations of our Sponsor. In addition, our Sponsor, officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our Sponsor, officers or directors, or our or their affiliates. Any such payments prior to an initial business combination will be made from funds held outside the Trust Account. Other than quarterly audit committee review of such reimbursements, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and officers for their out-of-pocket expenses incurred in connection with our activities on our behalf in connection with identifying and consummating an initial business combination. Other than these payments and reimbursements, no compensation of any kind, including finder’s and consulting fees, will be paid by the company to our Sponsor, officers and directors, or any of their respective affiliates, prior to completion of our initial business combination.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from New Semantix. All of these fees will be fully disclosed to shareholders, to the extent then known, in the proxy solicitation materials or tender offer materials furnished to our shareholders in connection with a proposed initial business combination. We have not established any limit on the amount of such fees that may be paid by New Semantix to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed initial business combination, because the directors of the post-combination business will be responsible for determining officer and director compensation. Any compensation to be paid to our officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Our board of directors has three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee. Both our audit committee and our compensation committee will be composed solely of independent directors. Subject to phase-in rules, the rules of Nasdaq and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and the rules of Nasdaq require that the compensation committee and the nominating and corporate governance committee of a listed company be comprised solely of independent directors. Each committee operates under a charter that has been approved by our board and has the composition and responsibilities described below. The charter of each committee will be available on our website at www.alpha-capital.io.

Audit Committee

Amos Genish, Ariel Lebowits and David Lorie serve as members and Mr. Lebowits serves as chair of the audit committee. Messrs. Lebowits, Genish and Lorie are independent of and unaffiliated with our Sponsor and our underwriters. Under Nasdaq listing standards and applicable SEC rules, all the directors on the audit committee must be independent.

Each of Mr. Lorie and Mr. Genish is financially literate and our board of directors has determined that Mr. Lebowits qualifies as an "audit committee financial expert" as defined in applicable SEC rules and has accounting or related financial management expertise.

We have adopted an audit committee charter, which details the principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent registered public accounting firm's qualifications and independence, and (4) the performance of our internal audit function and independent registered public accounting firm; the appointment, compensation, retention, replacement, and oversight of the work of the independent registered public accounting firm and any other independent registered public accounting firm engaged by us;

- pre-approving all audit and non-audit services to be provided by the independent registered public accounting firm or any other registered public accounting firm engaged by us, and establishing pre-approval policies and procedures; reviewing and discussing with the independent registered public accounting firm all relationships the registered public accounting firm has with us in order to evaluate their continued independence;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations; obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (1) the independent registered public accounting firm's internal quality-control procedures and (2) any material issues raised by the most recent internal quality-control review, or peer review, of the independent registered public accounting firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent registered public accounting firm, including reviewing our specific disclosures under "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Alpha*"; reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent registered public accounting firm, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

David Lorié and Ariel Lebowits serve as the members and Ms. Lorié serves as the chair of the compensation committee. Under Nasdaq listing standards, all the directors on the compensation committee must be independent.

We have adopted a compensation committee charter, which details the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our chief executive officer's compensation, evaluating our chief executive officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our chief executive officer's based on such evaluation;
- reviewing and making recommendations to our board of directors with respect to the compensation, and any incentive compensation and equity based plans that are subject to board approval of all of our other officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, other than the payment to an affiliate of our Sponsor of up to \$55,000 per month, for up to 24 months, for office space, utilities, secretarial and administrative support, other expenses and obligations of our Sponsor and reimbursement of expenses, no compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our existing shareholders, officers, directors or any of their respective affiliates, prior to, or for any services they render in order to effectuate the consummation of an initial business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

The charter also provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, independent legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by Nasdaq and the SEC.

Nominating and Corporate Governance Committee

The members of our nominating and corporate governance are David Lorié and Ariel Lebowits. Mr. Lorié serves as the chair of the nominating and corporate governance committee.

We have adopted a nominating and corporate governance committee charter, which details the purpose and responsibilities of the nominating and corporate governance committee, including:

- identifying, screening and reviewing individuals qualified to serve as directors, consistent with criteria approved by the board, and recommending to the board of directors candidates for nomination for appointment at the annual general meeting or to fill vacancies on the board of directors;
- developing and recommending to the board of directors and overseeing implementation of our corporate governance guidelines;
- coordinating and overseeing the annual self-evaluation of the board of directors, its committees, individual directors and management in the governance of the company; and
- reviewing on a regular basis our overall corporate governance and recommending improvements as and when necessary.

The charter also provides that the nominating and corporate governance committee may, in its sole discretion, retain or obtain the advice of, and terminate, any search firm to be used to identify director candidates, and will be directly responsible for approving the search firm's fees and other retention terms.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our shareholders. Prior to our initial business combination, holders of our public shares will not have the right to recommend director candidates for nomination to our board of directors.

Compensation Committee Interlocks and Insider Participation

None of our officers currently serves, or in the past year has served, as a member of the compensation committee of any entity that has one or more officers serving on our board of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our officers, directors and persons who beneficially own more than ten percent of our ordinary shares to file reports of ownership and changes in ownership with the SEC. These reporting persons are also required to furnish us with copies of all Section 16(a) forms they file. Based solely upon a review of such forms, we believe that during the year ended December 31, 2020 there were no delinquent filers.

Code of Ethics

We have adopted a code of ethics applicable to our directors, officers and employees (our “Code of Ethics”). Our Code of Ethics is available on our website. Our Code of Ethics is a “code of ethics,” as defined in Item 406(b) of Regulation S-K. We will make any legally required disclosures regarding amendments to, or waivers of, provisions of our Code of Ethics on our website.

Conflicts of Interest

All of our executive officers and certain of our directors have or may have fiduciary and contractual duties to certain companies in which they have invested. These entities may compete with us for acquisition opportunities. If these entities decide to pursue any such opportunity, we may be precluded from pursuing it. However, we do not expect these duties to present a significant conflict of interest with our search for an initial business combination. Additionally, we do not believe, however, these duties have materially affected our search for an acquisition target or will materially affect our ability to complete our business combination.

Under Cayman Islands law, directors and officers owe the following fiduciary duties:

- (i) duty to act in good faith in what the director or officer believes to be in the best interests of the company as a whole;
- (ii) duty to exercise powers for the purposes for which those powers were conferred and not for a collateral purpose;
- (iii) directors should not improperly fetter the exercise of future discretion;
- (iv) duty to exercise powers fairly as between different sections of shareholders;
- (v) duty not to put themselves in a position in which there is a conflict between their duty to the company and their personal interests; and
- (vi) duty to exercise independent judgment.

In addition to the above, directors also owe a duty of care which is not fiduciary in nature. This duty has been defined as a requirement to act as a reasonably diligent person having both the general knowledge, skill and experience that may reasonably be expected of a person carrying out the same functions as are carried out by that director in relation to the company and the general knowledge skill and experience of that director.

As set out above, directors have a duty not to put themselves in a position of conflict and this includes a duty not to engage in self-dealing, or to otherwise benefit as a result of their position. However, in some instances what would otherwise be a breach of this duty can be forgiven and/or authorized in advance by the shareholders provided that there is full disclosure by the directors. This can be done by way of permission granted in the memorandum and articles of association or alternatively by shareholder approval at general meetings.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to another entity pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-

current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to their fiduciary duties under Cayman Islands law. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by applicable law: (i) no individual serving as a director or an officer shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us; and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which may be a corporate opportunity for any director or officer on the one hand, and us, on the other. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.

Below is a table summarizing the other entities to which our officers and directors currently have fiduciary duties or contractual obligations:

<u>Individual</u>	<u>Entity/Organization</u>	<u>Entity's Business</u>	<u>Affiliation</u>
Alec Oxenford	OfferUp	Online marketplace	Director
Amos Genish	BTG Pactual	Investment Bank	Senior Partner and Head of Digital Retail
Ariel Lebowits	OLX Group	Online marketplace	Head of M&A

There are also other potential conflicts of interest:

- Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our officers is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our officers are not obligated to contribute any specific number of hours per week to our affairs.
- Our initial shareholders hold Founder Shares and private placement warrants. Our Sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their Founder Shares and public shares in connection with the completion of our initial business combination. Additionally, our Sponsor, officers and directors have agreed to waive their rights to liquidating distributions from the Trust Account with respect to their Founder Shares if we fail to complete our initial business combination within the prescribed time frame. If we do not complete our initial business combination within the prescribed time frame, the private placement warrants will expire worthless. Furthermore, our Sponsor, officers and directors have agreed not to transfer, assign or sell any of their Founder Shares and any Class A ordinary shares issuable upon conversion thereof until the earlier to occur of: (i) one year after the completion of our initial business combination or (ii) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property. Notwithstanding the foregoing, if the closing price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the Founder Shares will be released from the lockup.
- The private placement warrants (including the Class A ordinary shares issuable upon exercise of the private placement warrants) will not be transferable until 30 days following the completion of our initial business combination. Because each of our officers and directors will own ordinary shares or warrants directly or indirectly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.

- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our Sponsor, officers or directors or completing the business combination through a joint venture or other form of shared ownership with our Sponsor, officers or directors. In the event we seek to complete our initial business combination with a business combination target that is affiliated with our Sponsor, officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking which is a member of FINRA or a valuation or appraisal firm, that such initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context. Furthermore, in no event will our Sponsor or any of our existing officers or directors, or any of their respective affiliates, be paid by the company any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial business combination. Further, commencing on the date our securities are first listed on Nasdaq, we will also pay our Sponsor or an affiliate thereof up to \$55,000 per month for office space, utilities, secretarial and administrative services provided to members of our management team and other expenses and obligations of our Sponsor.

We cannot assure you that any of the above mentioned conflicts will be resolved in our favor.

In the event that we submit our initial business combination to our public shareholders for a vote, our Sponsor, officers and directors have agreed to vote their Founder Shares, and they and the other members of our management team have agreed to vote their Founder Shares and any shares purchased during or after the offering in favor of our initial business combination.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF ALPHA

The following discussion and analysis should be read in conjunction with the financial statements and related notes of Alpha, included elsewhere in this proxy statement/prospectus. This discussion contains forward-looking statements reflecting our current expectations, estimates and assumptions concerning events and financial trends that may affect our future operating results or financial position. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the sections entitled "Risk Factors" and "Cautionary Statement Regarding Forward-Looking Statements."

Overview

Alpha is a blank check company incorporated on December 10, 2020 as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses.

Alpha expects to incur significant costs in the pursuit the Business Combination. Alpha cannot assure you that its plans to complete the Business Combination will be successful.

Recent Developments

Entry Into Business Combination Agreement

On November 16, 2021, the Business Combination Agreement was entered into by and among Alpha, Semantix, New Semantix, First Merger Sub, Second Merger Sub and Third Merger Sub (collectively, the "Parties"). Pursuant to the Business Combination Agreement, the Parties have agreed that, on the terms and subject to the conditions set forth therein, at the Closing, pursuant to which, among other things, First Merger Sub will be merged with and into the Alpha with Alpha continuing as the surviving company and, subsequently, Alpha will be merged with and into Second Merger Sub with Second Merger Sub continuing as the surviving company and Third Merger Sub shall be merged with and into Newco, a to-be formed Cayman Islands exempted company that will become the parent company of Semantix, with Newco continuing as the surviving company.

Results of Operations

Alpha's entire activity since inception up to December 31, 2021 relates to its formation, its IPO and, since the closing of its IPO, a search for a business combination candidate. Alpha will not generate any operating revenues until the closing and completion of the Business Combination, at the earliest.

For the year ended December 31, 2021, Alpha had net loss of \$2,103,788, which consisted of \$55,287 in interest earned on marketable securities held in the Trust Account and \$710,688 in change in fair value of warrants, offset by \$286,108 in formation and operating costs.

For the period from December 10, 2020 (inception) through December 31, 2020, Alpha had net loss of \$51,116, which consisted of \$51,116 in formation and operating costs.

Liquidity and Capital Resources

Alpha's liquidity needs up to February 23, 2021 were satisfied through payment from its Sponsor of \$25,000 to cover certain offering costs in exchange for the issuance of the Founder Shares, the loan under an unsecured promissory note from the Sponsor of \$170,000, and payment of certain costs of \$18,694 by an officer. Alpha repaid the promissory note and the amount due to the officer in full in February 2021. Subsequent to the consummation of its IPO, Alpha's liquidity needs have been satisfied through the proceeds from the consummation of the Private Placement not held in the Trust Account.

[Table of Contents](#)

On February 23, 2021, Alpha consummated its IPO of 23,000,000 units, at a price of \$10.00 per unit, generating gross proceeds of \$230,000,000. The units included 3,000,000 units of Alpha purchased pursuant to the over-allotment option exercised by the underwriters in full. Simultaneously with the closing of the IPO, Alpha consummated the sale of an aggregate 7,000,000 private placement warrants to its Sponsor at a price of \$10.00 per warrant, generating gross proceeds of \$7,000,000.

Following the IPO, the exercise of the over-allotment option and the sale of the private placement warrants, a total of \$230,000,000 was placed in the Trust Account. Alpha incurred \$13,650,000 in transaction costs including \$4,600,000 of underwriting fees and \$8,050,000 deferred underwriting fees in connection with the IPO and the sale of the private placement warrants. Each of the underwriters in our IPO waived its deferred underwriting discount in the aggregate amount of \$8,050,000, such that we now do not expect to pay any deferred underwriting fees in connection with closing of our initial business combination. On May 13, 2022, Alpha received notice from BofA Securities formally waiving any entitlement to its portion of the deferred underwriting fee earned at the time of Alpha's IPO, and on June 3, 2022, Alpha received from BofA Securities a formal letter confirming its resignation and waiver of fees. Aside from general dialogue between representatives of Alpha and BofA Securities (and other investment banking professionals) about sourcing targets and broader SPAC market conditions in the ordinary course, subsequent to Alpha's IPO, BofA has had no involvement in the proposed business combination with Semantix (other than periodically discussing broader market conditions with representatives of Alpha in the ordinary course), and BofA was not retained in any role after Alpha's IPO. In particular, BofA Securities did not assist in (i) procuring Semantix as a target business, (ii) developing any financial models or other target evaluation materials while Alpha was pursuing a business combination with Semantix, (iii) marketing the transaction, (iv) preparation or review of this proxy statement / prospectus or any of its underlying disclosure, or (v) any other role in the business combination. Due to the lack of any role by BofA Securities in the proposed business combination, Alpha accepted the waiver from BofA Securities.

On May 18, 2022, Alpha received notice from Citi, one of the underwriters in its IPO, waiving any entitlement to its portion of the deferred underwriting fee that accrued from its participation in Alpha's IPO in the amount of \$4,588,500, and on May 19, 2022, Alpha received from Citi a formal letter confirming its resignation and waiver of fees. This fee was agreed between Alpha and Citi in the IPO underwriting agreement signed by the parties on February 18, 2021, and was earned in full upon completion of the IPO but payment was conditioned upon closing of Alpha's business combination such that the waiver was given by Citi on a gratuitous basis without any consideration to Citi from Alpha. Under Citi's capital markets advisory agreement, Alpha had engaged Citi to advise on the structure, negotiation strategy, valuation analyses, financial terms, investor meetings and presentations and other matters relating to the Business Combination and such capital markets advisory agreement did not provide for any fees to be paid by Alpha to Citi in connection with such services. Accordingly, Citi informed Alpha that, since they were not mandated in any other capacity in connection with the proposed Business Combination with Semantix beyond their unremunerated capital markets engagement, they were waiving their entitlement to the payment of any fees, including its portion of the deferred underwriting fee from its participation in Alpha's IPO, and cited the inability to conduct sufficient diligence within the timeline permitted as its reason for the waiver of its fee.

As of December 31, 2021, Alpha had approximately \$0.4 million in its operating bank account, and a working capital deficit of approximately \$4 million.

For the period from January 1, 2021 through December 31, 2021, net cash used in operating activities was \$(1,480,185). Net loss of \$(2,103,788) was impacted by interest earned on investments of \$(55,287), offering costs allocated to warrants of \$568,614, and the change in fair value of derivative warrant liabilities of \$(710,688).

At June 10, 2022, Alpha had investments held in the Trust Account of \$230,282,859.39. Alpha intends to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less taxes payable (if applicable)) to complete the Business Combination. To the extent that Alpha's shares or debt are used, in whole or in part, as consideration to complete the Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the post-Business Combination entity, make other acquisitions and pursue Alpha's growth strategies.

[Table of Contents](#)

In addition, in order to finance transaction costs in connection with the Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of Alpha's officers and directors may, but are not obligated to, loan Alpha funds as may be required on a non-interest basis ("[Working Capital Loans](#)"). To date, there are \$197,500 outstanding under such loans.

Based on the foregoing, Alpha's management believes that it will have sufficient working capital and borrowing capacity to meet Alpha's needs through the completion of the Business Combination. Over this time period, Alpha will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, paying for travel expenditures, and structuring, negotiating and consummating the Business Combination.

Critical Accounting Policies and Estimates

The preparation of the unaudited condensed financial statements in conformity with US GAAP requires Alpha's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Alpha has identified the following as its critical accounting policies:

Derivative Financial Instruments

Alpha evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with Accounting Standards Codification ("[ASC](#)") Topic 815, "Derivatives and Hedging". Derivative instruments are recorded at fair value on the grant date and re-valued at each reporting date, with changes in the fair value reported in the statements of operations. Derivative assets and liabilities are classified on the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date. Alpha has determined the warrants are a derivative instrument.

Ordinary Shares Subject to Possible Redemption

Alpha accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC Topic 480-10-S99 "Classification and Measurement of Redeemable Securities." Conditionally redeemable ordinary shares (including ordinary shares that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Alpha's control) is classified as temporary equity. At all other times, ordinary shares are classified as shareholders' equity. Alpha's Class A ordinary shares feature certain redemption rights that are considered to be outside of Alpha's control and subject to occurrence of uncertain future events. Accordingly, at December 31, 2021, Class A ordinary shares subject to possible redemption is presented at redemption value as temporary equity, outside of the shareholders' deficit section of Alpha's balance sheet.

Net Income Per Ordinary Share

Alpha has two classes of shares, which are referred to as Class A ordinary shares and Class B ordinary shares. Earnings and losses are shared pro rata between the two classes of shares. The 18,500,000 potential ordinary shares for outstanding warrants to purchase Alpha's shares were excluded from diluted earnings per share for the year ended December 31, 2021 because the warrants are contingently exercisable, and the contingencies have not yet been met. As a result, diluted net income per ordinary share is the same as basic net income per ordinary share for the periods.

Off-Balance Sheet Arrangements

As of December 31, 2021, Alpha did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in Alpha's reports filed or submitted under the Exchange Act, as amended is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including Alpha's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures

As required by Rules 13a-15 and 15d-15 under the Exchange Act, Alpha's Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of Alpha's disclosure controls and procedures. Based upon their evaluation, Alpha's Chief Executive Officer and Chief Financial Officer concluded that its disclosure controls and procedures were not effective as of September 30, 2021, due to the material weakness in accounting for complex financial instruments. In light of this material weakness, Alpha performed additional analysis as deemed necessary to ensure that our audited interim financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, Alpha's management believes that the financial statements included in this proxy statement/prospectus present fairly in all material respects our financial position, results of operations and cash flows for the periods presented.

It is noted that the non-cash adjustments to the financial statements do not impact the amounts previously reported for Alpha's cash and cash equivalents or total assets. In light of this material weakness, Alpha performed additional analysis as deemed necessary to ensure that our unaudited interim financial statements were prepared in accordance with U.S. generally accepted accounting principles.

Alpha not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, not evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

See *"Risk Factors—Risks Related to Alpha and the Business Combination—We identified a material weakness in our internal control over financial reporting relating to our complex financial instruments. This material weakness could continue to adversely affect our ability to report our results of operations and financial condition accurately and in a timely manner."*

Changes in Internal Control over Financial Reporting

There was no change in Alpha's internal control over financial reporting that occurred during the fiscal year ended December 31, 2021 that has materially affected, or is reasonably likely to materially affect, Alpha's internal control over financial reporting. In light of the material weakness, Alpha has enhanced Alpha's processes to identify and appropriately apply applicable accounting requirements to better evaluate and understand the nuances of the complex accounting standards that apply to Alpha's financial statements. Alpha's plans at this time include providing enhanced access to accounting literature, research materials and documents and increased communication among Alpha's personnel and third-party professionals with whom we consult regarding complex accounting applications. The elements of Alpha's remediation plan can only be accomplished over time, and Alpha can offer no assurance that these initiatives will ultimately have the intended effects.

BUSINESS OF SEMANTIX

This section sets forth certain information on Semantix's business and certain of Semantix's financial and operating information appearing elsewhere in this proxy statement/prospectus. It may not contain all the information about Semantix that may be important to you, and we urge you to read the entire proxy statement/prospectus carefully, including the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations of Semantix," and Semantix's financial statements included elsewhere in this proxy statement/prospectus.

Overview

Semantix's mission is to empower organizations to optimize their data journeys by providing a data-centric platform to accelerate digital transformation and enhance business performance through seamless, low-code and low-touch data analytics solutions. Semantix's proprietary data software is designed to allow customers to access data from any source and develop appropriate analytics to meet their industry and business needs. Semantix's portfolio of products enables companies to commence their data lifecycle with simple solutions that can be later scaled-up and tailored with the objective of satisfying specific analytic demands and business circumstances.

Founded in 2010, with operations across Latin America and an emerging presence in the United States, Semantix offers proprietary SaaS data solutions and third-party software licenses together with highly complementary AI and data analytics services designed to enable companies to manage data effectively. Semantix's software solutions aim to extract business insights and apply AI automation for Semantix's customers across their business processes, with Semantix serving over 300 companies across a broad range of sectors, including finance, retail, telecommunications, healthcare, industrials and agribusiness, among others, with a varied client portfolio of all sizes, from small businesses to large enterprises.

Semantix embraces a data-driven world where companies can harness the use of data to unlock insights for their businesses to improve efficiency and profitability. In furtherance of this vision, Semantix pioneered the data cloud category in Latin America and seeks to replicate this early success globally by offering build to suit data solutions that allow organizations to unify and connect to a single copy of all of their data effortlessly and securely. These data solutions eliminate silos and inefficiencies created by data storage in various cloud formats and on-premise data centers.

Semantix offers a robust set of proprietary SaaS and third-party software solutions to its customers that allow them to simply, nimbly and securely manage their data. We believe Semantix's unique value proposition is an internally-developed, frictionless, end-to-end proprietary SaaS data platform, which we refer to as the Semantix Data Platform (SDP).

SDP seeks to reduce the complexity in the implementation of big data projects via an all-in-one proprietary platform that guides customers through their entire data lifecycles, from capturing data, to structuring that data in the form of a data lake, then providing easy access to such data for exploration and interaction and, finally, creating reports, dashboards and algorithms fueled by the data to enhance business performance. SDP also provides customers with the flexibility, scalability, and performance of having access to a global cloud from any of the leading platforms such as Microsoft's Azure, Amazon's AWS and Alphabet's Google Cloud. This broad access is combined with a high degree of cost predictability that customers appreciate, particularly as SDP largely eliminates exchange rate risk in the pricing of services for Latin American customers that they would be otherwise exposed to licensing data solutions from international suppliers who primarily price their services in U.S. dollars. In addition, Semantix has a team of software developers who can support all of its customers on a global basis at competitive rates.

The graphic below highlights the key features and competitive advantages of SDP:

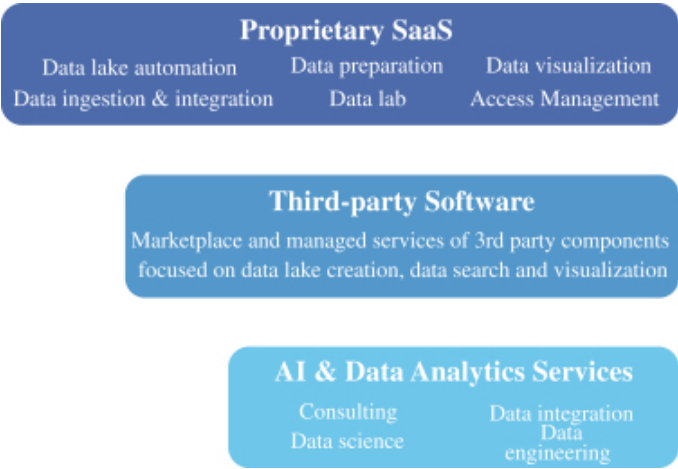

While Semantix’s proprietary SaaS business line has gained substantial momentum since 2020 and is expected to be a key growth driver in accordance with Semantix’s strategic plans, the majority of Semantix’s revenues continue to be derived from the resale of third-party software licenses that it purchases from third-party data platform software providers located outside of Brazil, such as Cloudera and Elastic. In 2021, 62.0% of Semantix’s revenues derived from its third-party software business line, 18.8% derived from its proprietary SaaS business line and 19.2% derived from its AI & data analytics business line.

Whether through its own technology or third-party technology, Semantix resolves the challenges posed by multiple data silos and data governance by providing frictionless data access to users in a scalable and safe manner with almost no maintenance requirements. Any and all enhancements to Semantix’s data software are also provided by Semantix’s technical team, which we believe is a key differentiating factor favoring Semantix vis-à-vis global data software providers and provides a diversified revenue stream to Semantix. With an enterprise ready, stack agnostic, all-in-one software development approach, Semantix seeks to guide customers with all their data needs supported by 24x7 premium customer care for its SaaS solutions.

Semantix Key Business Areas

Semantix offers data solutions through (i) its proprietary SaaS software solutions, primarily its propriety data integration platform SDP, which Semantix expects to propel future revenue growth at an accelerated pace with attractive margins, (ii) third-party software licenses and (iii) AI and data analytics services, which Semantix offers to customers to further enrich their data journeys. The graphic set forth below summarizes Semantix’s key business areas:

Semantix pursues a “land and expand” strategy through which it first introduces customers to simple, entry-level data software via third-party licenses and, over time, aims to enhance customers’ data generation and interpretation with the more robust and multifaceted capabilities of SDP, thus, in the process, migrating these customers to higher margin products through this transition to SDP software. Semantix has been able to make this transition happen. In 2019, 99.0% of Semantix’s revenues from data software products were derived from the resale of third-party software licenses. However, by 2021, approximately 19.0% of Semantix’s revenues were derived from its proprietary SaaS business line, which Semantix believes demonstrates the importance of its proprietary solutions as a growth driver.

This increasing relevance of Semantix’s proprietary SaaS platform was accelerated following Semantix’s December 2020 acquisition of LinkAPI, through which Semantix acquired the capability to build, monitor and manage integration and application programming interfaces (“APIs”), thus fortifying’s SDP’s functionality by allowing SDP to access data from any and all data lakes with over 200 pre-ready components to facilitate speedy integration (for additional information regarding the LinkAPI investment, see “*Unaudited Pro Forma Condensed Combined Financial Information*”).

Given this substantial momentum driving Semantix’s proprietary SaaS business area, Semantix seeks to further expand this business area as follows (i) migrate customers using third party platforms to SDP and (ii) in some cases, offer SDP initially to certain new customers, while for other new customers, Semantix will develop a data plan to start with third-party software and then eventually advance to SDP.

Semantix resells licenses of international software providers such as Cloudera, Elastic, Confluent, among others, to its customers, focusing on licenses for data lake creation, data search and data visualization in particular. While third-party software remains a relevant part of Semantix’s business, Semantix focus going forward will be to deploy and implement SDP as its core offering in the future. Semantix’s SDP SaaS business has become increasingly more significant to its revenue mix, particularly since 2020.

Semantix's SDP Overview

Semantix's SDP data platform is an all-in-one solution that enables companies to pursue a complete digital journey and supports a growing variety of industry verticals and data needs. The data cloud collection, storage and utilization processes of SDP are summarized below:

- *First stage – data sources*: several pre-formatted connectors capture data from different systems, files, data bases and APIs, thus enabling the building and handling of data lakes with greater ease;
- *Second stage – data loaders*: with the captured data, data loaders enable the construction of a data lake in properly organized, normalized and clean layers (consisting of the raw layer of unaltered ingested data, which users can then transform on a trusted layer and finally make it available for business intelligence reports and consumption on the service layer);
- *Third stage – data visualization*: after data is available for consumption, the Semantix platform creates reports and dashboards to facilitate greater data insight for its customers;
- *Fourth stage – machine learning development (data sandbox)*: at this point, the Semantix platform applies data science and hypothesis testing to create algorithms, machine learning models, deep learning and other applications; and
- *Fifth stage – data sharing (monetization)*: management of APIs and connections, allowing monetization of data in secure, governed, and compliant ways.

Through Semantix's SDP solution, customers are able to combine their existing data with newly generated data for a broader and more comprehensive data view, while simultaneously enhancing data insights and even facilitating the creation of new revenue streams to improve efficiency and profitability across business processes.

Moreover, Semantix provides AI & data analytics services, including cloud monitoring, data integration, data science and data engineering, in addition to providing training related to SDP's software.

Semantix's Key Performance and Operating Indicators

As Semantix's customers experience the powerful benefits of a data-centric platform and the improvements of an accelerated digital transformation, they typically expand the scope of products and services provided by Semantix significantly. This is evidenced by a stable net revenue retention rate ("NRR"), which is a key KPI that Semantix's strategy is measured by.

Semantix calculates NRR on a monthly basis by dividing: (i) revenues from its proprietary SaaS and third-party software business lines during a defined period by (ii) its revenues from its proprietary SaaS and third-party software business lines for the same period of the previous year using the same base/cohort of customers for each period. As of December 31, 2021, Semantix's NRR was 136.0%.

Moreover, 83% of Semantix's contracts with customers in the year ended December 31, 2021 had a term of at least 12 months, with its proprietary SaaS and third-party software contracts typically having a term of around three years. In addition, Semantix's customers that contributed more than US\$1.0 million to revenue in the trailing 12 months as of December 31, 2021 increased to eleven customers.

Semantix also has a track record of successfully converting investments in sales and marketing into revenue growth, as reflected in a ratio of customer lifetime value ("LTV") to customer acquisition costs ("CAC"), which Semantix refers to as its "LTV/CAC ratio" of 8.4x for the year ended December 31, 2021.

For additional information on the calculation of Semantix's NRR, LTV/CAC and customers with trailing 12-month revenue greater than US\$1 million, see "*Management's Discussion and Analysis of Financial Condition and Operating Results of Semantix—Key Business Metrics.*"

Semantix's Growth Strategies

We believe Semantix is well-positioned to expand its presence as a data leader across Latin America and globally. This expansion strategy is bolstered by structural competitive advantages provided by its own integrated platform and proprietary technologies with vast untapped potential to be further unlocked. In particular, Semantix intends to pursue the following vectors for sustainable growth:

- ***Roll-up of proprietary products and solutions:*** Semantix aims to accelerate the expansion of its proprietary SaaS data software solutions and increase this business area's relevance in terms of Semantix's revenue mix. Guided by a clear "land and expand" strategy with companies and with a product roadmap aimed to better serve large and mid-sized enterprises, Semantix believes that certain of its customers will naturally migrate away from third-party products offerings to its proprietary solutions. In this way, Semantix expects to be able to extract further value from its existing client portfolio, with its legacy business serving as a strong source of referrals for its proprietary platforms and solutions. Moreover, Semantix's increased offering of AI & data analytics services facilitates a deepening of its customer relationships, which, in turn, presents additional cross-selling and upselling opportunities for its proprietary solutions.
- ***Expand global footprint through selective geographic extension to attract diverse customers across geographies:*** Semantix believes that most organizations will eventually universally embrace a data-centric business approach, as evidenced by an increase in public cloud adoption, and, therefore, that there is a substantial opportunity to continue to grow its customer base globally. Semantix intends to pursue geographic expansion through focusing on increasing penetration in countries where it is already present, such as in Brazil, Colombia, Mexico and the United States, while landing and expanding into new locations, including other Latin American and European markets and eventually Asia. Semantix believes that this increased global penetration will be driven by the expansion of LatAm-based customers who decide to expand outside of their local markets, as well as multinationals that develop a software solution to serve its Latin American operations and then seek to implement it across its operations around the globe. Semantix believes it is well-positioned to capture this global expansion trend with a portfolio of products with global reach, internationally competitive pricing and the ability to provide 24x7 support in English. In recognition of such qualities, several of Semantix's international technology partners with operations outside of Brazil have already indicated interest in having Semantix serve regional and local customers in these other jurisdictions. To drive new customer growth, Semantix intends to continue investing in sales and marketing both in Brazil as well as in its core expansion markets. Semantix intends to expand its operations internationally both organically and via acquisitions. For the year ended December 31, 2021, 12.5% of Semantix's revenue was generated outside of Brazil.
- ***Expand relationships with existing customers and focus on cross and up-selling opportunities:*** As customers realize the manifold benefits of Semantix's SDP software platform, they typically increase their platform consumption by processing, storing and sharing more data, and gradually replacing third-party software products. In this way, Semantix's client relationships typically begin with offering a single software product or service and, over time, evolve to encompass a full range of data solutions across a broader range of platforms. To this end, Semantix intends to continue to expand the scope of the technical services provided by its software engineers as well as build to suit data software solutions to existing clients, particularly through increased investments in enhanced upselling and cross-selling efforts. Semantix intends to focus such endeavors on large customers with expansive data needs in order to promote scale and operating leverage in Semantix's software and technical services.
- ***Execute bolt-on acquisitions with strategic value:*** Semantix intends to pursue select strategic acquisitions, joint ventures, investments and alliances that can (i) accelerate the execution of Semantix's business plan, (ii) maximize cross and up-selling opportunities, and (iii) strengthen Semantix's relationships with regional, pan-LatAm and multinational players to expand awareness and usage of its product portfolio. In addition, Semantix intends to pursue acquisition opportunities that

may expand its technological and software development capabilities, add proprietary intellectual property and bring experienced, talented and dedicated professionals to the team. An example of this is the 2020 bolt-on acquisition of LinkAPI, through which Semantix was able to capture certain technological capabilities developed by LinkAPI to enhance data integration and reduce friction in relation to Semantix's big data and artificial intelligence solutions. Currently, Semantix is in preliminary discussions with potential acquisition targets that Semantix may consider acquiring following the completion of the Business Combination.

An overview of Semantix's growth strategies is set forth in the graphic below:

Market Opportunity

Semantix believes it is poised to capitalize on positive industry trends on multiple fronts across business areas. Recent technology and market trends are transforming the ways organizations use data, which we believe will favor Semantix, including:

- **Companies must digitally transform their businesses to maintain competitiveness.** Semantix has observed that the digitalization journey is a top priority for nearly all global organizations irrespective of industry with a fundamental shift in the way organizations use technology to interact with their customers and compete. Today, software applications are a critical driver of business performance. In turn, poor technology performance negatively impacts user experience and results in lost revenue, customer churn, negative brand perception and reduced employee productivity. In response to this, companies across industries are heavily investing to digitally transform their businesses and enhance customer experience.
- **Data is at the heart of business innovation.** Semantix believes data is the key input in a company's digital transformation, enabling richer insights for business optimization. Data has transformed the parameters for managing customer relationships, delivering engaging and personalized customer experiences, anticipating new market trends, predicting customer behavior and informing new business strategies. Semantix believes organizations everywhere are seeking ways to transform their businesses by capturing, analyzing, and mobilizing data.
- **Data creation and replication is growing at a rapid pace and at a faster rate than installed storage capacity.** The increase of cloud-based applications and connected devices have led to an explosion of digital data. According to the International Data Corporation ("IDC"), a global provider of market

intelligence for the information technology and consumer technology markets, 2020 marked record growth in terms of data created and replicated, due in part to the dramatic increase in the number of people working, learning, and entertaining themselves from home, reaching 64 zettabytes of data created or replicated in 2020. According to IDC forecast studies, this figure is expected to grow to up to 181 zettabytes of data by 2025, representing a potential estimated CAGR of 23% between 2020 and 2025. Also according to IDC, data creation and replication is expected to grow at a faster rate than installed storage capacity. This data contains valuable insights for organizations to improve agility, accelerate innovation and better manage costs.

- ***Increasing demand for innovation based on data.*** According to industry forecasts, worldwide big data and analytics markets are expected to grow substantially between 2020 and 2024, reaching a projected total addressable market of US\$88.6 billion by 2024, of which (i) the analytical data stores market is expected to reach US\$32.6 billion, (ii) the transactional databases market is expected to reach US\$48.2 billion and (iii) the data integration/intelligence software market is expected to reach US\$7.9 billion. Semantix believes such trends support a long runway for high growth for Semantix, as data analytics solutions coupled with cloud-based platforms offer an attractive share gain opportunity against legacy (mainly on-premise) incumbents and also creates a market expansion opportunity on the back of increasing demand for more innovation.

The Artificial Intelligence Opportunity

Big data and AI have a powerful synergistic relationship, with data essentially fueling AI, thus furthering potential opportunities for Semantix as organizations seek partners to guide their AI efforts as a natural part of their overall data journeys.

Organizations seeking to develop AI projects internally would need to assemble dedicated teams to develop complex analytical models and devote significant time and financial resources to build big data infrastructure and data governance management, resulting in high aggregated costs and related risks in the development of an AI infrastructure with limited access to high performance technologies. Consequently, 53% of organizations rated their own ability to mine and exploit data as “limited,” according to data compiled by the technology research and consulting company Gartner, Inc. in 2020, which Semantix believes reinforces the need for companies to rely on external providers to fill the gap and to support their data journey.

In addition, Gartner predicts that until 2022, 85% of AI projects will deliver erroneous outcomes due to data bias, failures in algorithms or shortcomings of the teams responsible for managing these AI projects.

In order to address these challenges, Semantix aims to streamline and reorient the data journey for companies in a frictionless way via an all-in-one platform that encompasses the entire AI lifecycle, infrastructure automation, data integration, data engineering and data visualization.

Semantix Corporate History

Semantix was founded in 2010 in São Paulo, Brazil with an early focus on the resale of third-party software licenses as well as educational initiatives to spread awareness on the powers of big data and AI through courses and consulting services.

In 2013, Semantix developed its first machine learning/AI project with algorithms focused on better serving the Brazilian financial sector and was recognized by Cloudera with their 2013 Training Award. In 2014, Semantix developed its first big data project for a client in the Brazilian financial sector.

In 2015, while other competitors were still exclusively offering software subscription for traditional on-premises data platforms, Semantix was the pioneer in the creation of the data cloud category in Latin America through the launch of its proprietary data platform combined with a public cloud infrastructure.

[Table of Contents](#)

In 2017, Semantix received an investment from a venture capital fund established through Inovabra, the technology investment and innovation arm of Bradesco, one of Brazil's largest financial institutions, which allowed Semantix to further invest in its proprietary platform.

In 2018, Semantix built a data laboratory in the city of Campinas, Brazil, in partnership with the University of Campinas, with the purpose of fostering innovation, creating and sharing knowledge with the community and training and retaining qualified personnel.

In 2019, Semantix received an investment from a venture capital fund managed by an affiliate of Crescera Capital, which enabled Semantix to pursue its inorganic growth strategy and international expansion. Accordingly, in that same year, Semantix acquired an omnichannel algorithm focused on providing solutions to the retail sector from Fast Omni Ltda.

In 2020, Semantix acquired 100.0% of the shares of Tradimus, a company that began its operations in 2012 and offers a comprehensive data software solution focused on improving the operational efficiency of hospitals, clinics and imaging and diagnostics companies. In December 2020, Tradimus and Excella, a subsidiary of Caledonia S.A., a health service management company, became a shareholder of Tradimus, holding a 50.0% non-controlling stake, thus effectively diluting Semantix's stake in Tradimus.

In December 2020, Semantix also acquired 51.0% of the shares of LinkAPI, a company that offers software to build and manage integrations and APIs with performance, scalability, control and security. The strategic rationale for the acquisition of the LinkAPI stake by Semantix was to harness the technological capabilities developed by LinkAPI to enhance data integration and reduce friction in relation to Semantix's big data and artificial intelligence solutions. In June 2021, Semantix exercised its call option to acquire the additional 49.0% of the LinkAPI outstanding capital.

As of the date of this proxy statement/prospectus, Semantix distributes its solutions and services throughout Latin America and the United States, with offices in the cities of São Paulo, Miami, Mexico City and Bogota.

Semantix's current corporate structure is presented below:

Pending Acquisitions

Semantix, through one of its subsidiaries, has signed a non-binding letter of intent and is in advanced negotiations to acquire a data analytics company based in Brazil focused on the healthcare sector (which we refer to as the "Health Analytics Asset") with the strategic objective to further expand its presence and capabilities in serving healthcare clients following its 2020 investment in Tradimus. The Health Analytics Asset net revenues in 2021 corresponded to around 5.0% of Semantix's net revenues that same year. Completion of the Share Purchase Agreement is subject to further negotiation and execution of definitive agreements. There can be no assurance that definitive agreements for the contemplated acquisition will be entered into on the anticipated timeline or at all or that the final commercial terms for the proposed Share Purchase Agreement will not differ, including materially, from the terms currently contemplated by the parties.

Products and Solutions

Semantix offers a powerful set of data solutions to guide its customers’ data journeys built on a cloud-native architecture to achieve a high level of scalability.

Software as a Service (SaaS) – Proprietary Data Platform

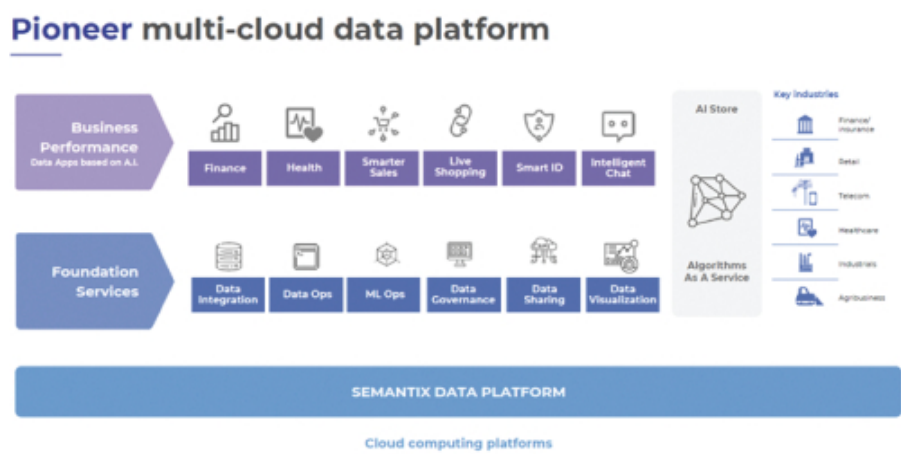

Semantix’s proprietary SDP platform has become increasingly significant to its revenue mix, particularly since 2020. Semantix expects this trend to accelerate as its customers increasingly migrate from third-party platforms to SDP. SDP offers data integration, data operations (DataOps), machine learning operations (ML Ops), data governance, data sharing and data visualization with an intuitive user-friendly interface.

Semantix’s proprietary SaaS solutions utilize a flexible pricing model adaptable to diverse customer needs with variable pricing based on size and usage capacity along three main metrics: (i) storage (cloud) space utilized, (ii) number of pipelines or flows of data and (iii) number of platform users.

SDP – The Multi-Cloud Data Platform

The SDP is a multi-cloud, native SaaS data platform aimed to facilitate quicker implementation of big data and data science projects using public clouds with access to pre-configured dashboards and algorithms available through Semantix’s AI Store. Semantix’s customers may select which public cloud they want to use at the onset of their SDP engagement, and may migrate from one cloud provider to another after implementing the data solution.

The SDP infrastructure is set forth on the graphic below:

Semantix believes its SDP creates value for its customers by enabling the following main business objectives for its customers:

- **Driving deeper insights towards becoming a data-driven business and unlocking new monetization streams.** Semantix’s platform allows customers to implement big data projects through the elimination of data silos while still maintaining a high level of data governance. SDP offers embedded tools that enable organizations to drive greater insights, improve products and services and pursue new business opportunities.
- **Increasing agility while reducing time spent managing infrastructure.** Semantix’s platform consolidates data into a single, analytics-ready source of truth, simplifying governance and minimizing errors, complexity, and costs associated with managing data silos. As a result, organizations have the power to map, extract, ingest and treat real time data.

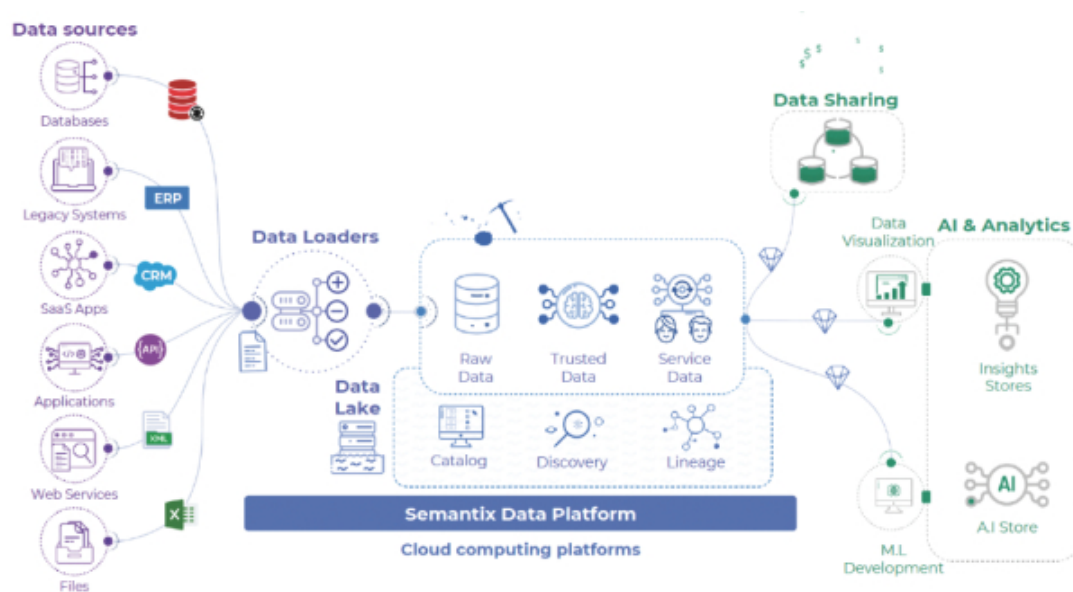

- **Implementing a cross-border multi-cloud strategy.** Semantix's platform allows customers to pursue a global multi-cloud strategy, aiming to provide the most appropriate cloud strategy that best fits each data challenge in each region. By doing so, the platform can optimize the best features and functionality that each public cloud provides, without relying specifically on a single public cloud provider.
- **Access data with security.** Semantix believes that its platform adopts best practices in terms of data security and governance, including the encryption of data stored or in transit, providing security to share data within an organization or to any other party.

Organizations use SDP to power the following use cases:

- **Data Integration:** SDP allows customers to capture data from any source using modular functionalities with a full set of integration tools available on demand for structured and unstructured data.
- **DataOps:** SDP allows customers to accelerate the process of deriving value from data, creating agile pipelines to explore and transform data from data lakes, improving the quality of insights.
- **MLOps:** SDP allows customers to standardize and streamline the continuous delivery of high-performing models instantaneously, creating pipelines, training models, auto scaling, and monitoring AI models.
- **Data Governance:** SDP allows customers to monitor data to predict and prevent failures, providing real-time visibility into the data's current state, with data catalog, data discovery and data lineage.
- **Data Sharing:** SDP allows customers to share live data within an organization and externally with governance and security, while maintaining a single source of truth.
- **Data Visualization:** SDP allows customers to create reports and dashboards using data from modules already integrated in the platform.

Semantix's AI Store plays an important complementary role along the end-to-end journey of big data projects, consisting of a store with pre-configured algorithms classified by use case or industry. The AI Store enables customers to work with machine learning, advanced analytics and AI models using the functionalities of SDP.

The graphic below shows the data journey of Semantix's customers through SDP:

Below is a description of certain key data functions applying AI to enhance customer business performance across industries using Semantix solutions:

- **Finance:** Semantix serves financial institutions using data to predict customer behavior, offer real time stock market insights, fraud detection and prevention, risk analysis and manual processes automation. Semantix also provides solutions to the credit market, to support the operational flow of credit, credit scoring, portfolio management and transaction security.
- **Health:** Semantix serves hospitals, clinics and imaging and diagnostics facilities using data to collect patients' records and monitor hospital and healthcare facility performance. Big data applications in healthcare can also help prevent epidemics, treat diseases, reduce medical costs, improve financial indicators and better manage medical accounts receivables.
- **Retail:** Semantix applies data from retail operations to deepen understanding of consumer spending habits and help attract new customers. Big data in retail also enables companies to provide targeted marketing to consumers and recommend specific products and services to customers based on insights from customers' data and purchase history, resulting in personalized shopping experiences and improved customer service. Within the retail category, Semantix, through its Live Shopping solution, offers an additional service to retailers to enhance brand awareness and marketing when launching new products via a live video streaming online shopping experience. In addition, Semantix offers its Smart ID solution to retailers with the objective of facilitating easy, safe and fast customer authentication, e-service registration and digital consent. Finally, through its Intelligent Chat solution, Semantix facilitates real-time conversations among companies, customers, partners, vendors, suppliers and other external parties to improve customer confidence and loyalty.

Third-Party Software

Semantix also sells third-party software licenses that it purchases from third-party data platform software providers located outside of Brazil. Such third-party software providers have a variety of use cases overlapping with SDP, including solutions for data ingestion and storage, and performance of data analysis and visualization, as well as other solutions that are not native to SDP, such as search (for workplace search, app search and site search) and observability (for logging, metrics and application performance management). In addition to being sold as separate features, Semantix may add certain of these third-party software functionalities into SDP on a case-by-case basis.

Semantix serves various sectors through its third-party software business line, including the finance, retail, telecommunications, healthcare, industrials and other sectors.

Semantix resells third-party software licenses to its customers through two main modalities:

- *The Marketplace Model*, consisting of the resale of third-party software licenses to Semantix's customers without any support-related service in connection with the licensed software; and
- *The Managed Service Provider Model*, which is the main sales model in Semantix's third-party software business area (constituting approximately 70.8% of its sales from third-party software licenses for the year ended December 31, 2021), consisting of the resale of third-party software licenses combined with assistance provided by Semantix's specialists to its customers in connection with the software installation.

Like Semantix, third-party software providers help companies accelerate their digital transformation and extract real-time insights from data to drive value and competitive differentiation. Accordingly, the third-party software licenses that Semantix resells are designed to enable companies to better manage their data lifecycle, including flow management, streams management, data engineering, data warehousing, streaming analytics, operational databases and machine learning.

Most of the licenses Semantix purchases for resale are denominated and payable in U.S. dollars to suppliers located outside of Brazil. Accordingly, although the price Semantix charges its customers for these licenses in Brazil is denominated in *reais*, the prices charged to Semantix's Brazilian customers are linked to the U.S. dollar to minimize foreign exchange exposure.

Pricing of contracts for the resale of software licenses is based on the price of the underlying license, consisting typically of a fixed amount set forth in the contract depending on the specific license, subject to adjustment for inflation and foreign exchange variation. Certain relevant customers may be able to set a maximum exchange rate pursuant to which the variation of the price of software licenses may be subject.

Despite being a reseller, most of the third-party software contracts executed with its customers provide that Semantix is responsible for any software-related issues given that the customers have a relationship with Semantix, not with the software providers. However, Semantix is contractually entitled to receive indemnification from its suppliers in connection with damages incurred by Semantix's customers in relation to the third-party software so long as such indemnification is sought within 12-months of the incident giving rise to such obligations. In addition, third-party software contracts under the managed service provider model establish certain service level metrics by which the effectiveness of the services provided by Semantix is monitored. Third-party software contracts may not be early terminated by Semantix's customers unless Semantix is entitled to terminate its contract with the relevant supplier without penalty.

AI & Data Analytics Services

Semantix also provides AI & data analytics services, including consulting, cloud monitoring, data integration, data science and data engineering, in addition to providing training related to its proprietary platform. In this way, Semantix seeks to leverage data gathered via third-party software and SDP to support the creation of algorithms focused on AI and data analytics, data visualization and data sharing. Revenues from Semantix's AI & data analytics service contracts are based on the hours of services provided and the rate per hour for the employees providing the services.

For addition information regarding Semantix's data science and software engineering teams, see "*—Software Engineering and Research & Development*" below.

Semantix Technology Lifecycle

SDP offers a complete system for the creation and implementation of big data projects: from the data source, to data ingestion, then data preparation and, finally, data modelling. Semantix integrates data from various data lakes (raw, trusted, services layers), allowing the creation of algorithms for consumption via API management (data sharing) as well as visualization of insights via dashboards and reports. Semantix is also able to provide 24x7 support to guide its proprietary data solutions and an array of complementary AI & data analytics services.

Semantix developed integrated and innovative technologic tools across its SDP to power its data solutions, including for data storage, data interaction, data sharing and security and authentication.

Data Ingestion

One of the biggest challenges in implementing big data projects is consolidating data from various sources, which SDP resolves through data ingestion from multiple sources, including relational databases, APIs and custom connectors in order to address diverse customer needs. This powerful data ingestion is facilitated via LinkAPI's solution incorporated into SDP, which provides an abstraction for ingestion between the source and the platform, as further described below:

- **Multiple Sources:** SDP's data ingestion system includes over 200 connectors available for tools, databases and preexisting systems. This allows the ingestion of data from the user source to SDP at a fast pace with limited configuration.

[Table of Contents](#)

- **Partitioning:** SDP automatically segments data by ingestion time, making the raw layer easily accessible, and allowing customers full control over the partitions they are managing to improve scalability and optimize performance.
- **Scheduler Groups:** Semantix offers ways to group different tables of the same database in different segments, allowing multiple scheduler configurations for each specific group.

Data Storage

From the moment of data ingestion into SDP, all data and files are maintained on a reliable object storage, with virtually no storage limit. This allows engineers to be able to focus on the transformations without having to worry about capacity limitations.

- **Cache:** SDP maintains a cache layer between the data warehouse and the object storage for performance enhancement.
- **Format Flexibility:** SDP allows the user to choose between multiple formats, including CSV, Parquet, Avro and others, to better fit its application.
- **Storage Options:** Users can opt between cloud data storage solutions provided by Google (Google Cloud Storage, or “GCS”), Amazon (Amazon Simple Storage Service, or “S3”) or Microsoft’s Azure.

Data Interaction

SDP’s data warehouse and processing environment allows customers to utilize Structured Query Language (“SQL”) to make queries, execute python scripts or spark scripts, which are then integrated with all layers of the data lake:

- **Data Warehouse:** Semantix’s data warehouse provides an ACID (Atomicity, Consistency, Isolation, Durability) compliant environment and fast processing of large datasets (petabytes).
- **Jobs:** The Jobs module provides an interface in which users can schedule SQL, python and/or spark scripts in a versioned manner (using the git programming language). Alongside with the SQL/python editors, the user can also make use of automated ready-to-go transformations that make engineers’ jobs easier.
- **Sandbox:** Semantix also provides notebooks inside SDP with access to the data lake where users can interact and enter an exploratory mode.
- **SQL Lab:** SDP offers an easy-to-use SQL assistant with auto-complete on the data lake layers, which means that engineers can quickly test queries and gather information.
- **Organized Layers:** The ingested data is written in SDP’s raw layer, so users can transform the data on the trusted layer and make it available to business intelligence reports on the service layer. These are the recommended default layers, however, the user has full power to overwrite the existing layers as well as to create new ones.

Data Sharing

SDP enables sharing via SQL Lab in small quantities and through an API account that makes the data available for other systems. Only users with permission can access this endpoint.

Data Visualization

SDP includes a visualization module where users can create different screens and dashboards. This visualization module is already integrated at all data layers of the platform, as well as access permissions layers, so only users with access to specific visualization/dashboards can view.

Security and Authentication

SDP allows profiles with different permissions. The authentication is very simple to use and is valid throughout all platform extensions.

- ***Authentication:*** SDP has its own single sign-on (“SSO”) authentication, meaning that once users are authenticated they can access every service they have permission to access.
- ***Role Access:*** SDP provides a role-based security model access control, with granular privileges on system objects and actions.
- ***Encryption:*** SDP encrypts all data at rest, as the data in motion is maintained in an isolated environment, always with a high security level.

Data scientists optimize their capabilities for building new algorithms. CEOs benefit from having a strong ally capable of increasing their revenues and enabling effective cloud management.

During the years ended December 31, 2021 and 2020, Semantix’s largest customer based on revenues, accounted for 11.4% and 10.2% of its revenue, respectively, and its ten largest customers together accounted for 53.8% and 59.7% of its revenue, respectively. For additional information regarding customer concentration, see “*Risk Factors—Risks Related to Semantix’s Business and Industry—A significant portion of our revenue is derived from a small number of customers and partial or full loss of revenues from any such customer may adversely affect us.*”

Semantix’s largest customers typically engage Semantix for more than one software product or solution together with complementary data analytics and other support services, each pursuant to separate contracts with varying scopes and durations based on the type of product or service.

Below is a summary of Semantix’s existing contracts with its largest customers:

License and Service Contracts with Leading Banking Institution

Since 2017, Semantix has licensed third-party software to one of the largest banking institutions in Brazil and Latin America and, in connection with such software, has also provided various support services. Semantix’s contracts with this customer are governed by Brazilian law and range in duration from 12 to 36 months, subject to renewal.

Pursuant to these contracts, Semantix must indemnify the banking institution and its affiliates for losses arising from (i) a failure or delay to adhere to the terms of the contracts, (ii) acts or omissions related to the provision of Semantix’s products or services, (iii) breaches of representations and warranties and (iv) any complaints from third parties arising from the breach or nonperformance of Semantix’s contractual obligations. Semantix’s indemnification liability is typically capped under these contracts, subject to exceptions, including in the event of willful misconduct, fraud or infringement of third-party rights.

Each party may terminate the contracts without cause by providing 30-days prior notice, and at will in case of insolvency type events. In addition, each party may terminate at will if the other party breaches any obligation

under the contracts, in which case a penalty shall be applied. Moreover, the banking institution may terminate at will certain of the contracts executed with Semantix in case there is a direct or indirect change in Semantix's control for which Semantix is seeking waivers in connection with the Business Combination.

In the year ended December 31, 2021, this customer accounted for 11.4% of Semantix's revenues considering all engagements and various contracts with this customer in the aggregate.

License and Service Contracts with Leading Credit Reporting Company

Third-party Software and AI & Data Analytics Services

Since 2018, Semantix has licensed third-party software to a leading credit reporting company in Brazil and, in connection with such software, has provided various support services. Semantix's contracts with this customer are governed by Brazilian law and range in duration from 18 to 36 months, subject to renewal. In addition, Semantix provides separate consulting and data analytics services to this credit reporting company pursuant to contracts typically with a term of less than one year.

Pursuant to certain of these contracts, Semantix must indemnify the credit reporting company for all losses arising from their commercial relationship.

In all of Semantix's contracts with this customer, the credit reporting company may terminate the contracts without cause by providing 30-days prior notice, and Semantix may terminate without cause by providing 120-days prior notice. In addition, each party may immediately terminate the contracts if the other party commits an unremedied breach or the other party suffers insolvency type events. Each party may also immediately terminate as a result of acts or facts that prevent the performance of the contracts, or a change in corporate structure or corporate purpose that may impact the performance of the contracts or impact any third-party rights. Semantix has obtained a waiver from this customer in connection with the Business Combination. Moreover, the credit reporting company may immediately terminate the contracts if Semantix files a legal proceeding against it to dispute any matter. If the termination is in response to any action, inaction or fault of Semantix, Semantix will be subject to penalty.

Proprietary SaaS

Furthermore, since 2020, Semantix has licensed Open Galaxy and Semantix ID proprietary SaaS software to this credit reporting company and, in connection with such software, also provides various consulting and support services. Semantix offers these proprietary solutions to this customer pursuant to a Brazilian law governed contract with an initial term of 38 months, expiring December 5, 2023, which will automatically be extended for successive terms of 38 months if neither party expressly disagrees.

Under the contract, Semantix will not be liable for any indirect or incidental damages arising from, or related to, the credit reporting company's inability to use Semantix's products.

Each party may terminate the contract without cause by providing 90-days prior notice. In addition, each party may immediately terminate the contract if (i) the other party commits an unremedied breach, (ii) the other party suffers insolvency type events, or (iii) the contract is suspended due to legal violations or acts of God and force majeure events. Semantix may also immediately terminate as a result of a change in its relationship with the partners used for the provision of Semantix's services or if compelled by law or court order.

Moreover, the financial institution may immediately terminate at will if Semantix commits any act that is harmful to public order or if it has reasonable belief that any such act was committed by Semantix.

Sales Channels and Marketing

Semantix sells its products and services to enterprises and governmental organizations through its direct sales team, consisting of 40 individuals (account executives, sales development representatives, and pre-sales personnel). Semantix's direct sales team is segmented as follows:

- *Key Accounts Team:* focused on telecom companies, major Brazilian financial institutions and governmental entities;
- *Corporate Accounts Team:* focused on companies with over 1,000 employees in other industries; and
- *Middle Market Team:* focused on companies with 500 to 1,000 employees.

To the extent of marketing to companies with under 500 employees, which comprises a very minor portion of Semantix's marketing strategy, such marketing is through indirect sales channels.

Semantix's current marketing strategies are focused on strengthening brand awareness to consolidate SDP as the platform of choice for customers. Semantix establishes well-defined marketing strategies in digital and physical channels to generate leads and drive demand. Recent marketing initiatives included a 30-day free trial of SDP to increase usage, digital marketing strategies to drive traffic to the website and participation at physical events to enhance brand awareness.

Suppliers

Semantix believes it has developed solid relationships with the well-established data platform providers from which it purchases software licenses for resale. Semantix is the largest Cloudera partner in Latin America, and was recognized as Elastic's second largest Managed Services Provider Global Partner in 2020.

Semantix has a relationship with approximately 115 suppliers, the most relevant of which are based outside of Brazil.

Of Semantix's gross revenues for the years ended December 31, 2021 and 2020, (i) 37.6% and 31.5%, respectively, were attributable to the resale of software licenses of Cloudera (via numerous supply contracts with such supplier and resale contracts with various clients) and (ii) 16.9% and 30.1%, respectively, were attributable to the resale of software licenses of Elastic (via numerous supply contracts with such supplier and resale contracts with various clients).

Reseller programs are tier-based, based on the number of certified professionals that the reseller has for the software product, sales history and payment track record of the reseller. Depending on its tier, a reseller may obtain discounts from suppliers and better business opportunities. Accordingly, Semantix focuses on building sustainable long-term relationships and a consistent payment track record with its suppliers, while also maintaining a high number of certified professionals for each type of software.

Semantix's relationship with its suppliers is initially established via one-time agreements, which, dependent on the scope and nature of the supplier relationship, may eventually lead to the establishment of a future master reseller agreement between Semantix and the supplier. The one-time agreement allows Semantix to resell the supplier's products in a specific transaction and is usually executed to test whether Semantix could be considered a reliable partner. After the testing phase through one or more one-time reseller agreements and the demonstration that Semantix has savvy personnel to provide pre-sales and post-sales support, Semantix and the supplier may enter into a master reseller agreement. Currently, Semantix has master reseller agreements in place with its main suppliers. Semantix's suppliers may terminate these agreements with or without cause, and, in the case of termination without cause, subject only to prior notice ranging from 30 to 90 days dependent on the supplier.

The agreements between Semantix and the suppliers are entered into on a non-exclusive basis. Accordingly, Semantix may resell software licenses from several different suppliers and may also compete with its own proprietary solutions. If any conflict of interest arises due to Semantix's role as reseller of third-party software licenses and as proprietary SaaS provider, Semantix discloses such conflict to the relevant supplier to resolve the conflict in the best possible way for both parties and in view of maintaining a solid commercial relationship with the supplier.

In addition, to ensure that Semantix's customers can operate Semantix's proprietary platform and/or third-party software in any environment, Semantix maintains relationships with public cloud providers (AWS, Azure and GCP) to integrate and achieve the highest interoperability across architectures.

Semantix has entered into standard form umbrella contracts with each of AWS, Azure and GCP pursuant to which these providers provide standard cloud storage capacity for use by Semantix's customers in exchange for timely payment by Semantix. These providers may generally terminate their relationship with Semantix with or without cause, as follows:

Semantix's agreement with AWS allows AWS to terminate for any reason with 30 days' advance notice or, in case of a breach of contract, if such breach is uncured for 30 days. AWS may also terminate immediately upon notice if (i) AWS determines that Semantix use of its service poses a security risk, could otherwise adversely impact AWS' systems, could subject AWS to liability or could be fraudulent, (ii) Semantix fails to pay AWS in accordance with its agreement, (iii) Semantix ceases to operate in the ordinary course, makes an assignment for the benefit of creditors or become the subject of any bankruptcy, reorganization, liquidation, dissolution or other similar proceeding or (iv) to comply with the law or the requests of governmental entities.

Semantix's agreement with Azure allows Azure to terminate for any reason with 15 days' advance notice, or in case of a breach of contract, if such breach is uncured for 15 days.

Semantix's agreement with GCP allows GCP to terminate for any reason with 30 days' advance notice, or in case of a breach of contract if such breach is uncured for 30 days. GCP may also terminate immediately upon notice that Semantix ceases to operate in the ordinary course or becomes the subject of any bankruptcy proceeding.

Software Engineering and Research & Development

Semantix's technical area is formed by engineers, scientists and programmers that work as developers to enhance Semantix's current products and develop new features for its customers.

Some of the key technical roles within Semantix's data science and software engineering teams are as follows:

- *Data analytics and software engineer manager*: responsible for (i) ensuring adherence to Semantix's technology roadmap, (ii) developing the features and improvements strategy and (iii) managing Semantix's data solutions growth and go-to-market strategy;
- *Four big data specialists*: responsible for testing new data solutions and other tools, components and features of SDP;
- *Seven system engineers*: responsible for creating the coding structure of SDP;
- *DevOps engineer*: responsible for ensuring SDP's infrastructure automation and creating performance indicators;
- *Two back-end developers*: responsible for building and maintaining all of the API layers needed to power the user-facing component of SDP; and
- *Front-end developer*: responsible for the creation and maintenance of the user interface with the SDP.

In addition, Semantix's research and development ("R&D") teams serve as the bedrock for innovation, driving product enhancement and the development of new features. Semantix believes that these teams will allow Semantix to expand and refine its portfolio of data-centric products, functioning as a hub to attract and retain new talent to power Semantix's technology evolution. For the years ended December 31, 2021 and 2020, expenses with R&D accounted for 9.4% and 6.4%, respectively, of Semantix's revenues.

Semantix has several initiatives to support R&D as follows:

- Semantix promotes an Entrepreneurs in Residence ("EiRs") program as well as events with scientists and engineers (hackathon challenges) bringing together talent both internally and externally to foster product development and enhancements;
- Semantix has established a data lab at, and in partnership with, the University of Campinas (*Universidade de Campinas*, or "UNICAMP"), one of the top universities in Brazil, with programs to attract talent coordinated by Semantix's teams devoted to visual computing and AI; and
- Semantix welcomes opportunities for co-innovation of data-centric solutions with ecosystem players focused on strategic verticals.

Competition

The markets in which Semantix operates are highly competitive and rapidly evolving with the constant introduction of new technologies and innovations. Semantix's current competition primarily includes the following:

- public cloud providers who offer proprietary data management, machine learning and analytics services, such as AWS, Azure and GCP;
- large, well-established, public and private data platform providers, including the suppliers from which Semantix purchases software licenses for resale, such as Cloudera, Elastic and Confluent;
- private and public companies who also act as resellers of third-party software licenses, such as Logically;
- less-established public and private cloud companies with products that compete in some of Semantix's markets;

Seasonality

Consistent with other data solutions and software providers, Semantix historically has received a higher volume of orders from new and existing customers in the second half of the year and, in particular, in the fourth fiscal quarter of each year. Semantix believes that this results from the procurement, budgeting, and deployment cycles of many of its customers, particularly its large enterprise customers.

Tradimus Healthcare Solutions

On May 26, 2021, Semantix Participações and Excella (together with Semantix Participações, the “Tradimus Shareholders”), and as an intervening and consenting party, Tradimus, entered into a shareholders’ agreement (the “Tradimus Shareholders’ Agreement”) to govern the relationship among the parties as partners in a company providing data solutions to serve the healthcare sector. For the years ended December 31, 2021 and 2020, Tradimus generated R\$2.2 million and R\$1.8 million in revenues, respectively.

The Tradimus Shareholders’ Agreement is governed under Brazilian law with an initial term of 20 years, subject to automatic renewal. Pursuant to the terms of the Tradimus Shareholders’ Agreement and the rights and powers of the parties described therein, Semantix Participações enjoys effective control over Tradimus.

Below is a summary of the main terms and conditions of the Tradimus Shareholders’ Agreement. The agreement described below has been filed as exhibit to the registration statement of which this proxy statement/prospectus forms a part. The summary below is qualified in its entirety by reference to the full text of the agreement.

Management

Board of Directors

The board of directors of Tradimus must be composed of four members, each serving a two-year term, of which two shall be appointed by Semantix Participações and two by Excella so long as each of them holds 50% of Tradimus’s voting and total share capital. Should at any time a Tradimus Shareholder individually hold more than 50% of Tradimus’s voting and total share capital, such Tradimus Shareholder shall have the right to appoint three directors, in which case the other Tradimus Shareholder shall have the right to appoint one director, provided that it still holds at least 45% of Tradimus’s voting and total share capital. In the event that any of the Tradimus Shareholders ceases to hold at least 45% of Tradimus’s voting and total share capital, it shall lose any rights to appoint members to the board of directors.

Notwithstanding the equal representation of the parties on the Tradimus board of directors, the Tradimus Shareholders’ Agreement stipulates that any deadlock on the approval of any resolution by the board of directors shall be decided by the casting vote of a Semantix-appointed member unless Tradimus is considered a joint operation by the auditors of both Tradimus Shareholders (which is currently not the case).

Board of Executive Officers

The board of executive officers of Tradimus shall be composed of a minimum of two and a maximum of four officers serving for a two-year term, which must include one chief executive officer, one chief financial officer, and the remaining officers with no specific designation. For as long as each of the Tradimus Shareholders holds 50% of Tradimus’s voting and total share capital, all officers shall be elected by a majority of the members of the board of directors, provided that (i) the directors appointed by Semantix Participações shall have the right to appoint the chief executive officer and up to one additional officer with no specific designation, and (ii) the

Table of Contents

directors appointed by Excella shall have the right to appoint up to two officers, without specific designation. Should at any time a Tradimus Shareholder hold an interest in Tradimus equal to or greater than 45% but lower than 50% of its voting and total share capital, the director appointed by such party shall have the right to appoint one officer with no specific designation.

Voting Rights

For as long as each of the Tradimus Shareholders holds 50% of Tradimus's voting and total share capital, all resolutions adopted at the general shareholders' meeting require their mutual consent, except if Tradimus is deemed to be in a situation of financial stress, in which case a Tradimus Shareholder may, under certain specific circumstances, unilaterally decide to grant a loan to Tradimus that, if defaulted, may be converted into new shares via capital increase. Should a Tradimus Shareholder at any point hold an interest in Tradimus lower than 50% but equal to or greater than 45% of its voting and total share capital, the approval of certain matters shall still be subject to the affirmative vote of such Tradimus Shareholder, including but not limited to (i) amendments to the bylaws, (ii) corporate reorganizations, (iii) issuance or sale of securities exchangeable for or convertible into shares, (iv) capital increases and (v) liquidation or dissolution.

Additionally, all resolutions adopted at a board of directors meeting require the approval by a simple majority of its members. However, should at any time a Tradimus Shareholder hold an interest in Tradimus that entitles it to appoint solely one member to the board of directors, the approval of certain matters shall still be subject to the affirmative vote of such director, including but not limited to (i) capital increases, (ii) certain acquisitions, sales, assignments, disposals or any other form of transfer of equity interests, (iii) the approval or amendment to annual budget and/or business plan, (iv) incurring indebtedness in excess of R\$200,000,000.00, either individually or in the aggregate, during the preceding 12 months, and (v) the granting of collateral to a third party.

Moreover, beginning on May 26, 2023 and for as long as each Tradimus Shareholder holds 50% of Tradimus's voting and total capital, any deadlocks at the shareholders' meeting or at the meeting of the board of directors should be subject to a mandatory mediation procedure. Should the mediation be fruitless, the disputed matter shall be considered not approved, in which case it may only be submitted for further deliberation after six months.

If the Tradimus Shareholders or the members of the board of directors fail to reach a consensus after three consecutive mediations held in accordance with the stipulated procedures or following five mediations held within a period of 18 months, a corporate deadlock will be declared (the "Deadlock"), in which case any Tradimus Shareholder may, within up to 60 days of the Deadlock, notify Tradimus and the other Tradimus Shareholder of its intention of initiating a procedure for the sale of all of its equity interest in Tradimus.

Transfer Rights

The Tradimus Shareholders are subject to a lock-up period in respect of both their direct and indirect interest in Tradimus until May 26, 2023, provided that they continue to hold 50% of Tradimus's voting and total share capital. As a result, any transfer of shares to third parties (other than affiliates) during the lock-up period must be pre-approved by the non-selling Tradimus Shareholder.

Right of First Refusal and Tag Along Rights

If a Tradimus Shareholder decides to sell all or part of its equity interest in Tradimus, the other Tradimus Shareholder shall have the right of first refusal for the purchase of all (and no less than all) offered shares. In the event the Tradimus Shareholder offeree does not exercise its right of first refusal and the Tradimus Shareholder offeror decides to sell its shares to a third party, the Tradimus Shareholder offeree shall have tag along rights pursuant to which it may sell a number of shares proportional to the shares offered by the Tradimus offeror relative to its equity interest in Tradimus and under the same terms and conditions agreed for such sale.

Non-Compete

Each of the Tradimus Shareholders and its respective affiliates will not, for two years from the date on which they cease to be a shareholder of Tradimus, directly or indirectly, engage in any business activity in which Tradimus and/or its subsidiaries are also engaged in, including but not limited to the development and sale of proprietary solutions aimed at enhancing business capabilities of players in the healthcare industry.

Intellectual Property

Intellectual property rights are important to the success of Semantix's business. Semantix relies on a combination of patent, copyright (including software), trademark, domain name and trade secret laws in Brazil and other jurisdictions, as well as license agreements, reseller agreements, confidentiality procedures, non-disclosure agreements with its own employees and third parties, and other contractual protections, to protect its intellectual property rights, including Semantix's proprietary technology, software, know-how, and brand. Semantix also uses open source software in its services.

As of the date of this proxy statement/prospectus, Semantix had one patent application pending in Brazil. Semantix also held one patent application in foreign jurisdictions.

LinkAPI also held one domain name registered with the Registro.br. Semantix continually reviews its development efforts to assess the existence and patentability of new intellectual property.

Although Semantix relies on intellectual property rights, including patents, copyrights (including software), trademarks, domain names and trade secrets, as well as contractual protections to establish and protect Semantix's proprietary rights, Semantix believes that factors such as the technological and creative skills of its personnel, creation of new services, features and functionality, and frequent enhancements to its platform are more essential to establishing and maintaining Semantix's competitive position.

Despite Semantix's efforts to protect its technology and proprietary rights through intellectual property rights, licenses and other contractual protections, unauthorized parties may still copy or otherwise obtain and use Semantix software, trademarks, domain names and other technology. Any significant impairment of Semantix intellectual property rights could adversely affect its business or its ability to compete.

Semantix controls access to and use of its proprietary technology and other confidential information through the use of internal and external controls, including contractual protections with employees, contractors, customers, and partners.

Semantix requires its employees, consultants, and other third parties to enter into confidentiality and proprietary rights agreements, and Semantix controls and monitors access to its software, documentation, proprietary technology, and other confidential information. Semantix's policy is to require all employees and independent contractors to sign agreements assigning to Semantix any inventions, trade secrets, works of authorship, developments, processes, and other intellectual property generated by them on Semantix's behalf and under which they agree to protect Semantix's confidential information. In addition, Semantix generally enters into confidentiality agreements with its customers and partners.

Regulatory Overview

Data Protection and Privacy

Semantix uses, collects, stores, transmits and processes customer data to run its business. As a result, Semantix's compliance with local, state, federal, and foreign laws and regulations dealing with the use, collection, storage, transmission, disclosure, disposal and other processing of personal data is core to the operation of its business. Regulators around the world have adopted or proposed requirements regarding the collection, use, transfer, security, storage, destruction, and other processing of personal data. The applicability of these laws and regulations to Semantix, and their scope and interpretation, are constantly evolving, often uncertain, and may conflict between jurisdictions, and Semantix anticipates the number of data privacy laws and the scope of individual data privacy and protection rights will increase, and as a result, Semantix's associated compliance burdens and costs could increase in the future. It may be costly to implement security or other measures designed to comply with these laws and regulations, as well as any new or updated laws or regulations. Any actual or perceived failure to safeguard data adequately, destroy data securely, or otherwise comply with the requirements of these laws and regulations, may subject Semantix to litigation, regulatory investigations or enforcement actions under federal, state or foreign data security, unfair practices or consumer protection laws and contractual penalties, and result in monetary damages, damage to Semantix's reputation or adversely affect Semantix's ability to retain customers or attract new customers.

A number of the jurisdictions in which Semantix operates have adopted or are considering adopting data protection and privacy laws and regulations, including Brazil and the United States.

Brazil

In September 2020, Brazilian Federal Law No. 13,709, of August 14, 2018, the Brazilian General Data Protection Law (*Lei Geral de Proteção de Dados Pessoais*, or "**LGPD**"), came into effect to regulate the processing of personal data in Brazil. The LGPD establishes general principles, obligations and detailed rules to be observed by individuals and public or private companies in operations involving processing of personal data in Brazil, including but not limited to the collection, use, processing and storage of personal data, in all economic sectors, including in the relationship between customers and suppliers of goods and services, employees and employers, and other relationships in which personal data is processed, whether in a digital or physical environment. The LGPD provides for, among other things, the rights of the data subjects, the legal bases applicable to the processing of personal data, the requirements to obtain consent, the obligations and requirements related to security incidents and leakages and transfers of personal data, the obligations of a data controller and a data processor, as well as the creation of the Brazilian Data Protection Authority (*Autoridade Nacional de Proteção de Dados*, or "**ANPD**"), which is the entity responsible for the inspection, promotion, disclosure, regulation, and application of the LGPD.

Federal Law No. 14,010, June 10, 2020 amended certain provisions of the LGPD. As a result, in case of noncompliance with the LGPD, Semantix is subject to administrative sanctions applicable by the ANPD as of August 1, 2021 onwards, on an isolated or cumulative basis, that can range from warnings, obligation to disclose

incidents, temporary blocking and/or elimination of personal data related to the infraction, a simple fine of up to 2.0% of Semantix's revenue, or revenue of Semantix's group of companies in Brazil for the last fiscal year, excluding taxes, up to the global amount of R\$50 million per violation, a daily fine, up to the aforesaid global limit, suspension of the operation of the database related to the infraction for a maximum period of six months, which can be extended for an equal period, up to the regularization of the processing by the controlling shareholder, suspension of activities related to processing of personal data related to the infraction for a period of six months, which can be extended for an equal period, to the partial or total prohibition to exercise activities related to data processing.

The imposition of LGPD administrative sanctions does not inhibit the imposition of administrative sanctions set forth by other laws that address issues related to data privacy and protection, such as the Brazilian Code of Consumer Defense and the Brazilian Civil Rights Framework for the Internet. These administrative sanctions can be applied by other public authorities, such as the Attorney General's Office and consumer protection agencies. Semantix can also be subject to civil liabilities for violation of any of these laws.

In addition to the administrative sanctions due to the noncompliance with the obligations established by the LGPD, Semantix can be held liable for individual or collective material damages, and non-material damages caused to data subjects, including when caused by service providers that serve as data processors on Semantix's behalf.

The United States

In the United States, various laws and regulations apply to the security, collection, storage, use, disclosure and other processing of certain types of data. For example, California adopted the California Consumer Privacy Act (the "CCPA"), which became effective in January 2020. The CCPA establishes a privacy framework for covered businesses, including an expansive definition of personal information and data privacy rights for California residents. Among other requirements, the CCPA mandates new disclosure to California consumers and allows California consumers to request a copy of the personal information collected about them, request deletion of their personal information and request to opt out of certain sales of personal information. The CCPA includes a framework with potentially severe statutory damages and private rights of action. Further, in November 2020, California voters passed the California Privacy Rights Act (the "CPRA"), which expands the CCPA with additional data privacy compliance requirements and establishes a regulatory agency dedicated to enforcing those requirements. In addition, other states, such as Virginia, have also adopted or are considering adopting similar data privacy laws and all 50 states have adopted laws requiring notice to consumers of a security breach involving their personal information.

European Union and the United Kingdom

The European Union's (EU) General Data Protection Regulation (EU) 2016/679 (the "GDPR") became effective in May 2018, and is applicable to companies processing personal data of data subjects in the European Economic Area (the "EEA"). The GDPR is wide-ranging in scope and implements stringent requirements in relation to the collection, use, retention, protection, disclosure, transfer and other processing of personal data relating to EEA data subjects, with substantial monetary penalties for violations. Personal data as defined under the GDPR includes any type of information that can identify a living individual, including name, identification number, email address, location, internet protocol addresses, and cookie identifiers. Among other requirements, the GDPR mandates more stringent administrative requirements for controllers and processors of personal data, including, for example, notice of and a lawful basis for data processing activities, data protection impact assessments, a right to "erasure" of personal data, and data breach reporting. In the case of noncompliance with the obligations under the GDPR, companies may be exposed to significant fines ranging from €10 million to €20 million or 2.0% to 4.0% of total worldwide annual revenue, whichever is higher. The GDPR also provides that EU member states may enact their own additional laws and regulations in relation to certain data processing activities. Recent legal developments in the EU have also created complexity and uncertainty regarding transfers

of personal data from the EEA to “third countries,” especially the United States. For example, on July 16, 2020, the Court of Justice of the European Union (the “CJEU”) in *Schrems II* invalidated the EU-U.S. Privacy Shield Framework, a mechanism for the transfer of personal data from the EEA to the United States, and made clear that reliance on standard contractual clauses may not be sufficient in all circumstances, whereby organizations may be required to take supplementary measures. Furthermore, on June 4, 2021, the European Commission published a new set of modular standard contractual clauses which are designed to take into account the CJEU’s judgment in *Schrems II* and must be used for all new contracts entered into – and new processing operations undertaken – as of September, 27 2021.

The United Kingdom’s (“UK”) withdrawal from the EU and ongoing developments in the UK have created uncertainty regarding data protection regulation in the UK. Following the UK’s withdrawal from the EU on January 31, 2020 (“Brexit”), pursuant to the transitional arrangements agreed to between the UK and EU, the GDPR continued to have effect in law in the UK, and continued to do so until December 31, 2020 as if the UK remained a member state of the EU for such purposes. Following December 31, 2020, and the expiry of those transitional arrangements, the data protection obligations of the GDPR continue to apply to UK-related processing of personal data in substantially unvaried form by virtue of section 3 of the European Union (Withdrawal) Act 2018, as amended, which, together with the amended UK Data Protection Act of 2018, transposes the GDPR in UK national law (“UK GDPR”). However, going forward, there may be increasing scope for divergence in application, interpretation and enforcement of data protection laws as between the UK and the EEA, and the relationship between the UK and the EEA in relation to certain aspects of data protection laws remains uncertain. For example, the new set of standard contractual clauses only apply to the transfer of personal data outside of the EEA and not the UK. Although the European Commission adopted an adequacy decision with respect to the UK on June 28, 2021, allowing the flow of personal data from the EEA to the UK to continue, this decision will be regularly reviewed and may be revoked if the UK diverges from its current adequate data protection laws following Brexit. The UK Information Commissioner’s Office has consulted on, and is developing, its own international data transfer requirements, including its own specific international data transfer agreement and a UK addendum to the standard contractual clauses. Semantix is accordingly monitoring these developments, but it may, in addition to other impacts, experience additional costs associated with increased compliance burdens and be required to engage in new contract negotiations with third parties that aid in processing personal data on Semantix’s behalf or localize certain data.

Regulators in the EEA and UK are increasingly focusing on compliance with requirements in the online behavioral advertising ecosystem. National laws in the EEA that implement the ePrivacy Directive are likely to be replaced by the ePrivacy Regulation, which will significantly increase fines for non-compliance, although it will not have effect in the UK as a result of Brexit. This again introduces the possibility that Semantix will be subject to separate and additional legal regimes with respect to ePrivacy, which may result in further costs and may necessitate changes to Semantix’s business practices. The GDPR and UK GDPR require opt-in, informed consent for the placement of cookies on a customer’s device, and imposes conditions on obtaining valid consent (e.g. a prohibition on pre-checked consents). Increased regulation of cookies may lead to broader restrictions and impairments on Semantix’s online activities and may negatively impact Semantix’s ability to understand its customers, and there has been a notable rise in enforcement activity from supervisory authorities across the EEA in relation to cookies-related violations.

Cybersecurity

Brazil

In the cases in which we provide services to financial institutions, payment institutions and other entities licensed to operate by the Brazilian Central Bank, we may be required by such institutions to comply with certain requirements set forth in the Cybersecurity Regulations (as defined below). The Brazilian National Monetary Council Resolution No. 4,893, dated as of February 26, 2021 (“Resolution 4,893/21”) and the Brazilian Central Bank Resolution No. 85, dated as of April 8, 2021 (“Resolution 85/21” and, together with Resolution 4,893/21,

“Cybersecurity Regulations”) provide general rules related to (i) the cybersecurity policy that needs to be implemented by such entities, as well as (ii) their engagement of data storage, data processing and cloud computing service providers.

Particularly in relation to data processing and cloud computing service providers, the Cybersecurity Regulations define a series of rules related to the engagement of third parties to provide “material services” of such nature in Brazil and offshore. The rules create minimum criteria and conditions for the engagement of third parties, establishing “indirect” rules for such outsourced entities.

As part of the controls required by the Cybersecurity Regulations, regulated entities are required to adopt corporate governance and management practices in proportion to the relevance of the service to be provided and the related risks. In other words, regulated entities should have their own governance mechanisms for engaging material cloud computing, data processing and data storage services, and be liable for that.

Among the abovementioned controls, regulated entities must verify if the third parties performing such material services are able to ensure the following: (i) compliance with the legislation and regulations in force; (ii) access to the regulated entity to the data and information to be processed or stored by the service provider; (iii) confidentiality, integrity, availability and retrieval of data and information processed or stored by the service provider; (iv) adherence to the certifications required by the regulated entity for the provision of the services to be contracted; (v) access to the reports prepared by an independent specialized auditing firm engaged by the service provider, regarding the procedures and controls used to provide the services to be contracted; (vi) provision of adequate information and management resources to monitor the services to be provided; (vii) identification and segregation of customer data of the institution through physical or logical controls; and (viii) the quality of access controls aimed at protecting the data and information of the regulated entity’s clients.

Semantix currently provides services related to data processing for Brazilian regulated institutions, including the largest local banks, such as Banco Bradesco S.A., Banco Santander (Brasil) S.A. and Banco Itaú Unibanco S.A. The agreements executed by Semantix with such institutions establish responsibilities for non-compliance with the Cybersecurity Regulations, which include fines and reimbursement of financial losses on behalf of the regulated entities. Therefore, in case of incidents involving the data processed under the scope of such agreements, Semantix may be liable for such events.

Anti-corruption and Sanctions

Semantix is subject to anti-corruption, anti-bribery, anti-money laundering and sanction laws and regulations, including the Brazilian Federal Law No. 12,846/2013 (“Clean Company Act”), the United States Foreign Corrupt Practices Act of 1977, as amended (“FCPA”), and the Proceeds of Crime Act, as amended. The Clean Company Act, the FCPA and the Proceeds of Crime Act prohibit corporations and individuals from engaging in improper activities to obtain or retain business or to influence a person working in an official capacity. These laws and regulations prohibit, among other things, providing, directly or indirectly, anything of value to any foreign government official, or any political party or official thereof, or candidate for political influence to improperly influence such a person. Historically, technology companies have been the target of FCPA and other anti-corruption investigations and penalties.

In addition, Semantix is subject to U.S. and foreign laws and regulations that restrict its activities in certain countries and with certain persons. These include the economic sanctions regulations administered by the U.S. Treasury Department’s Office of Foreign Assets Control and the export control laws administered by the U.S. Commerce Department’s Bureau of Industry.

Legal Proceedings

Semantix is and, from time to time, may become, subject to various legal and administrative proceedings that arise in the ordinary course of its business, including tax, labor, regulatory, environmental and civil proceedings. As of December 31, 2021, Semantix did not record any provisions for legal proceedings.

Tax Proceedings

On February 27, 2020, the São Paulo State Revenue Service issued a tax assessment against Semantix seeking the payment of state taxes on sales (ICMS) allegedly due on the resale of third-party software licenses between July 2018 and December 2018. In July 2020, a partially favorable decision was issued and Semantix appealed to the relevant administrative court in order to revert the unfavorable portion of this decision. Semantix is currently awaiting a judgement on this appeal. As of December 31, 2021, the estimated value involved in this proceeding was R\$2.5 million. Based on the advice of both in-house and external counsels, Semantix believes that the risk of loss in this lawsuit is remote.

On December 13, 2021, the Municipality of São Paulo Revenue Service issued a tax assessment against Semantix seeking the payment of municipal taxes and fines due on the provision of services (ISS) arising from (i) the alleged underpayment of ISS taxes in the city of São Paulo between January 2016 and February 2017, claiming that Semantix's reporting of its headquarters in the city of Cotia, another municipality in the state of São Paulo, was improper and unsubstantiated and (ii) the resale by Semantix of third-party software licenses between 2016 and 2018. In January 2022, Semantix is expected to file its answer before the administrative court. As of December 31, 2021, the estimated value involved in this proceeding is R\$8.1 million. Based on the advice of both in-house and external counsels, Semantix estimates that the risk of loss in this proceeding is remote in relation to R\$2.0 million and possible in relation to R\$6.1 million. Semantix does not currently intend to record any provisions or make judicial deposits in respect of such amounts. This decision may be reassessed by Semantix once the related administrative proceeding is concluded, which is currently expected to occur between 2024 and 2026. Any judicial proceedings on this matter would likely require Semantix to make judicial deposits in the amounts involved.

This discussion may contain forward-looking statements based upon current expectations that involve risks and uncertainties. Semantix's actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under "Risk Factors" or in other parts of this proxy statement/prospectus.

Unless the context otherwise requires, references in this "Management's Discussion and Analysis of Financial Condition and Operating Results of Semantix" to "we," "our" and "Semantix" refer to the business and operations of Semantix Tecnologia em Sistema de Informação S.A. and its consolidated subsidiaries.

Overview

Semantix's mission is to empower organizations to optimize their data journeys by providing a data-centric platform to accelerate digital transformation and enhance business performance through seamless, low-code and low-touch data analytics solutions. Semantix's proprietary data software is designed to allow customers to access data from any source and develop appropriate analytics to meet their industry and business needs. Semantix's portfolio of products enables companies to commence their data lifecycle with simple solutions that can be later scaled-up and tailored with the objective of satisfying specific analytic demands and business circumstances.

Founded in 2010, with operations across Latin America and an emerging presence in the United States, Semantix offers proprietary SaaS data solutions and third-party software licenses together with highly complementary AI and data analytics services designed to enable companies to manage data effectively. Semantix's software solutions aim to extract business insights and apply AI automation for Semantix's customers across their business processes, with Semantix serving over 300 companies across a broad range of sectors, including finance, retail, telecommunications, healthcare, industrials and agribusiness, among others, with a varied client portfolio of all sizes, from small businesses to large enterprises.

Semantix embraces a data-driven world where companies can harness the use of data to unlock insights for their businesses to improve efficiency and profitability. In furtherance of this vision, Semantix pioneered the data cloud category in Latin America and seeks to replicate this early success globally by offering build to suit data solutions that allow organizations to unify and connect to a single copy of all of their data effortlessly and securely. These data solutions eliminate silos and inefficiencies created by data storage in various cloud formats and on-premise data centers.

Semantix offers a robust set of proprietary SaaS and third-party software solutions to its customers that allow them to simply, nimbly and securely manage their data. We believe Semantix's unique value proposition is an internally-developed, frictionless, end-to-end proprietary SaaS data platform, which we refer to as the Semantix Data Platform (SDP).

SDP seeks to reduce the complexity in the implementation of big data projects via an all-in-one proprietary platform that guides customers through their entire data lifecycles, from capturing data, to structuring that data in

the form of a data lake, then providing easy access to such data for exploration and interaction and, finally, creating reports, dashboards and algorithms fueled by the data to enhance business performance. SDP also provides customers with the flexibility, scalability, and performance of having access to a global cloud from any of the leading platforms such as Microsoft’s Azure, Amazon’s AWS and Alphabet’s Google Cloud. This broad access is combined with a high degree of cost predictability that customers appreciate, particularly as SDP largely eliminates exchange rate risk in the pricing of services for Latin American customers that they would be otherwise exposed to licensing data solutions from international suppliers who primarily price their services in U.S. dollars. In addition, Semantix has a team of software developers who can support all of its customers on a global basis at competitive rates.

The graphic below highlights the key features and competitive advantages of SDP:

While Semantix’s proprietary SaaS business line has gained substantial momentum since 2020 and is expected to be a key growth driver in accordance with Semantix’s strategic plans, the majority of Semantix’s revenues continue to be derived from the resale of third-party software licenses that it purchases from third-party data platform software providers located outside of Brazil, such as Cloudera and Elastic. In 2021, 62.0% of Semantix’s revenues continued to be derived from its third-party software business line, while its proprietary SaaS business line accounted for 18.8% of its 2021 revenues, with the remaining 19.2% derived from its AI & data analytics business line.

Whether through its own technology or third-party technology, Semantix resolves the challenges posed by multiple data silos and data governance by providing frictionless data access to users in a scalable and safe manner with almost no maintenance requirements. Any and all enhancements to Semantix’s data software are also provided by Semantix’s technical team, which we believe is a key differentiating factor favoring Semantix vis-à-vis global data software providers and provides a diversified revenue stream to Semantix. With an enterprise ready, stack agnostic, all-in-one software development approach, Semantix seeks to guide customers with all their data needs supported by 24x7 premium customer care for its SaaS solutions.

Significant Factors Affecting our Results of Operations

Impact of the COVID-19 Pandemic

The COVID-19 pandemic caused general business disruption worldwide. To contain the spread of the virus, governments around the world, including in Brazil, enacted various policies limiting social interaction and commercial activity for the general population, including but not limited to, lockdown periods, reduced business hours, cancelation of large events and festivities and travel bans for passengers from selected countries, among others.

While countries continue to advance on the immunization of their populations, it is still too early to assess when this pandemic and its effects will end and particularly when the impacts of the pandemic will fully subside in Brazil, particularly as new strains and variants emerge worldwide. We experienced, and may continue to experience, a modest adverse impact on certain parts of our business as a result of the COVID-19 pandemic, including (i) delayed progress in the development of proprietary solutions due to stalled research and

development efforts, and (ii) the slower than anticipated international expansion of our business, particularly in the United States, where we commenced operations in early 2020.

We have also experienced, and may continue to experience, a positive impact on other aspects of our business, especially considering that the restrictions imposed by the COVID-19 pandemic prompted a shift to digital solutions and services that benefited our business in 2020 and 2021. Moreover, we have observed a reduction of certain operating expenses due to reduced business travel and the cancellation of physical participation in, and sponsorship of, events, conferences and seminars. In 2020, we also experienced a decrease in office leasing expenses as well as a related reduction in maintenance, electricity and certain other ordinary course operating expenses. While a reduction in operating expenses may have an immediate positive impact on our results of operations, we do not yet have visibility into the full impact this will have on our business. We cannot predict how long we will continue to experience these impacts as policies restricting movement and other related measures, including home office policies, may change over time. Our results of operations, cash flows, and financial condition have not been adversely impacted by the COVID-19 pandemic to date. However, as certain of our customers or partners experience downturns or uncertainty in their own business operations or results resulting from the spread of COVID-19, they may decrease or delay their spending, request pricing discounts, or seek renegotiations of their contracts, any of which may result in decreased revenue and cash receipts for us. In addition, we may experience customer losses, including due to bankruptcy or our customers ceasing operations, which may result in an inability to collect accounts receivable from these customers.

The global impact of COVID-19 continues to rapidly evolve, and we will continue to monitor the situation and the effects on our business and operations closely. We do not yet know the full extent of potential impacts on our business or operations or on the global economy as a whole, particularly if the COVID-19 pandemic continues and persists for an extended period of time, especially as COVID-19 outbreaks and variant strains continue to emerge worldwide despite the greater availability of vaccines. Given the uncertainty, we cannot reasonably estimate the ongoing impact of the COVID-19 pandemic on our future results of operations, cash flows, or financial condition. For additional details, see the section titled “*Risk Factors*.”

Brazilian Macroeconomic Environment

As the majority of our operations and services are performed in Brazil, we are generally affected by macroeconomic conditions, economic growth and political stability in Brazil and, to a lesser extent, in Latin America. Such factors affect us more broadly through the resulting impact on the demand for technology services, financing costs, the general availability of financing and exchange rate fluctuations between the Brazilian *real* and foreign currencies, mainly the U.S. dollar, the Mexican *peso* and the Colombian *peso*, as a result of our operations outside of Brazil and our relevant revenues and costs denominated or linked to the U.S. dollar despite only having limited operations in the United States.

Table of Contents

Brazil is the largest economy in Latin America, as measured by gross domestic product (“GDP”). The following table shows sets forth certain data relating to GDP, inflation and interest rates in Brazil and the U.S. dollar/*real* exchange rate as of the dates and for the periods indicated.

GDP

Trends in Brazil's GDP tend to impact our results of operations, mainly by generally affecting the overall purchasing power of our customers. Brazil's GDP is also impacted to a large degree by the political environment.

Recently, the Brazilian political and economic environment has experienced high levels of volatility and instability, including, until 2017, a contraction of Brazil's GDP followed by slight GDP growth of 1.3% in 2018 and 1.4% in 2019, which was erased as a result of the COVID-19 pandemic. This sluggish macroeconomic environment brought sharp fluctuations of the *real* against the U.S. dollar, high levels of unemployment and low levels of consumer confidence and spending.

In the first half of 2020, Brazil's GDP decreased 5.9% compared to the same period in 2019 (an 11.4% decrease in the second quarter of 2020 compared to the same period in 2019). Such decrease was mainly attributable to the ongoing effects of the COVID-19 pandemic. The quarantines imposed by governments around the world to flatten the contagion curve of the pandemic resulted in recession. Governments and central banks around the world subsequently announced a series of stimulus measures to provide support during the crisis. In Brazil, the stimulus package and the flattening of the contagion curve of the pandemic resulted in positive effects on the economy, with the Brazilian Central Bank's data demonstrating a 7.7% increase in GDP in the third quarter of 2020 compared to the second quarter of 2020. In the fourth quarter of 2020, Brazil's GDP increased by 3.2% compared to the third quarter of 2020. However, even with this recovery, the full-year 2020 GDP drop was the worst since 1990.

In the first quarter of 2021, Brazil's GDP grew by 1.2% year-over-year, mainly boosted by agricultural exports despite the worsening of the COVID-19 pandemic. In the second quarter of 2021, Brazil's GDP decreased 0.3% compared to the first quarter of 2021 driven by a retraction of agriculture, industry and investments, and by stagnation in household consumption. In the third quarter of 2021, Brazil's GDP decreased

0.1% compared to the second quarter of 2021 mainly driven by a retraction of agriculture. In the fourth quarter of 2021, Brazil's GDP increased 0.5% compared to the third quarter of 2021 mainly driven by an increase in services and industry. The full-year 2021 GDP increased 4.6% compared to 2020.

In the first quarter of 2022, Brazilian GDP grew by 1.7% compared to the first quarter of 2021, mainly driven by an increase in services.

The negative macroeconomic environment in Brazil in recent years was in part due to economic and political uncertainties resulting from a global decrease in commodities prices as well as due to corruption investigations of Brazilian state-owned and private sector companies, politicians and business executives, which, in turn, led to the ouster and arrest of several prominent politicians. Launched by the Office of the Brazilian Federal Prosecutor at the end of 2014, the so-called *Lava Jato* operation investigated members of the Brazilian government and other members of the legislative branch, as well as senior officers and directors of large state-owned companies as well as other companies in connection with allegations of political corruption. The resulting fallout from the *Lava Jato* investigation contributed to the impeachment of Brazil's former president, Dilma Rousseff, in August 2016, the arrest and conviction of former Brazilian President Luiz Inacio Lula da Silva, in April 2018, and the destabilization of the Brazilian economy. In November 2019, former President Luiz Inacio Lula da Silva was released from prison after a Brazilian Supreme Court ruling that allows defendants to remain free while their appeals are pending. In March 2021, a Brazilian Supreme Court ruling annulled the decisions that had convicted former President Luiz Inacio Lula da Silva. As a result of this ruling, former President Luiz Inacio Lula da Silva recovered his political rights and is now able to run for office in the upcoming 2022 presidential elections in Brazil, which may result in further political uncertainty and consequent macroeconomic instability.

In April 2020, the Brazilian Supreme Court began investigating Brazil's current president, Jair Messias Bolsonaro, in connection with allegations made by the former Minister of Justice. In addition, in February 2021, the Brazilian federal government moved to replace the then-chief executive officer of a state-controlled company. These events and further political instability had, and may continue to have, an adverse effect on the Brazilian economy.

On April 14, 2021, a Parliamentary Committee Inquiry (*Comissão Parlamentar de Inquérito*, or "CPI") was established to investigate the Brazilian federal government's potential mishandling of the COVID-19 pandemic and collapse of the healthcare system in the Brazilian state of Amazonas in particular at the beginning of 2021, including the potential misuse of government funds. Based on the final report of the CPI, the Attorney General's Office began new six preliminary investigations involving Brazil's current president, members of the Brazilian government and members of the legislative branch, which are under review by the Brazilian Supreme Court.

The potential outcome of these and other inquiries, as well as the effects of the 2022 presidential elections in Brazil, are uncertain, but they have already had a negative impact on the general perception of the Brazilian economy and the securities of Brazilian companies and have affected and may continue to adversely affect our business, our financial condition and our operating results. For more information, see *"Risk Factors—Risks Related to Semantix's Operations in Latin America—The ongoing economic uncertainty and political instability in Brazil, including as a result of ongoing corruption investigations, may harm us and the price of New Semantix Ordinary Shares."*

Inflation and Interest Rates

The two primary inflation indices in Brazil are the IPCA and the IGP-M.

The IPCA averaged 3.88% per annum between 2017 and 2020 against an average of 6.71% per annum between 2000 and 2016. The IPCA reached 4.52% per annum as of December 31, 2020 on an accumulated basis, and 10.06% as of December 31, 2021 on an accumulated basis. As a result, the Central Bank decreased the SELIC rate from an average of 14.17% per annum between 2000 and 2016 to an average of 6.40% per annum

[Table of Contents](#)

between 2017 and 2020. The SELIC rate reached a historic low of 2.00% in August 2020. The SELIC rate has increased throughout 2021 as a result of increases in inflation, reaching 9.25% as of December 31, 2021. On February 2, 2022, the SELIC rate was further increased to 10.75%. On March 16, 2022, the SELIC rate was further increased to 11.75%, and on May 4, 2022, the SELIC rate was further increased to 12.75%. On June 15, 2022, the SELIC rate was further increased to 13.25%. As of the date of this proxy statement/prospectus, the SELIC rate was 13.25%.

The IGP-M is calculated by attributing increased weight to certain wholesale and other prices when compared to the IPCA. As a result, the IGP-M and the IPCA have diverged significantly in recent years, with the IGP-M averaging 9.36% per year between 2017 and 2020 and reaching 23.14% per annum as of December 31, 2020 on an accumulated basis, and 17.8% as of December 31, 2021 on an accumulated basis. As of May 31, 2022, the accumulated IPCA was 4.8% per annum and the accumulated IGP-M was 7.5% per annum.

Inflation affects our results of operations and financial performance primarily by affecting our revenues from services, which are supported by contracts with annual inflation-adjustment clauses. Inflation also affects our results by increasing costs and prices pursuant to inflation-indexed supply contracts, wage expenses through our collective bargaining agreements and other miscellaneous operating expenses, primarily electricity, as well as affecting expenditures and investments in software and equipment. In addition, some of our indebtedness is generally adjusted with reference to inflation indexes. For example, a significant portion of our *real*-denominated debt bears interest based on the CDI rate, which is partially adjusted for inflation.

We are exposed to interest rate risk primarily on our loans. Inflation affects our financial liquidity and financial capital resources primarily by exposing us to the direct variations in our floating-rate loans, with respect to our indebtedness that bears interest rates that are partially adjusted by inflation, such as the CDI rate. Rising interest rates may also impact the costs of our fundraising and indebtedness, increasing our financial expenses. Such an increase could adversely affect our ability to pay our obligations to the extent it reduces cash on hand. Mismatches between rates contracted in assets versus liabilities and/or high volatility in interest rates may result in financial losses for us.

As of December 31, 2021, approximately 68.7% of our loans and borrowings were subject to floating interest rates, particularly the CDI rate, reflecting new loans and financings since the end of 2020. As of December 31, 2020, none of our loans and borrowings were subject to floating interest rates, with 100.0% of our then outstanding borrowings accruing interest at fixed interest rates.

Currency Fluctuations

Our functional currency is the Brazilian *real*. However, we have operations internationally that are denominated in foreign currencies. This exposure to foreign exchange variation is primarily related to fluctuations between the Brazilian *real*, on the one hand, and the U.S. dollar, the Colombian *peso* and the Mexican *peso*, on the other hand. Our subsidiaries outside of Brazil use their local currency as their functional currency.

The following table shows the balance of our trade receivables, net and trade and other payables denominated in foreign currency and translated into Brazilian *reais* as of the dates indicated:

	As of December 31, 2021			As of December 31, 2020		
	COP	MXN	USD	COP	MXN	USD
	(in R\$ millions)					
Trade receivables, net	2.4	3.1	—	2.5	4.2	2.0
Trade and other payables	(0.5)	(4.3)	(7.6)	(0.8)	(3.0)	(0.5)

Of our trade receivables as of December 31, 2021, R\$3.1 million, or 8.5%, was exposed to the *real*/Mexican *peso* exchange rate variation, R\$2.4 million, or 6.6%, and was exposed to the *real*/Colombian *peso* exchange rate

variation. As of December 31, 2021, we did not have trade receivables exposed to the *real*/U.S. dollar exchange rate variation. Of our trade and other payables as of December 31, 2021, R\$0.5 million, or 0.6%, was exposed to the *real*/Mexican *peso* exchange rate variation, R\$4.3 million, or 5.5%, was exposed to the *real*/Colombian *peso* exchange rate variation and R\$7.6 million, or 9.7%, was exposed to the *real*/U.S. dollar exchange rate variation.

Of our trade receivables as of December 31, 2020, R\$4.2 million, or 13.5%, was exposed to the *real*/Mexican *peso* exchange rate variation, R\$2.5 million, or 8.0%, was exposed to the *real*/Colombian *peso* exchange rate variation and R\$2.0 million, or 6.4%, was exposed to the *real*/U.S. dollar exchange rate variation. Of our trade and other payables as of December 31, 2020, R\$3.0 million, or 7.2%, was exposed to the *real*/Mexican *peso* exchange rate variation, R\$0.8 million, or 1.8%, was exposed to the *real*/Colombian *peso* exchange rate variation and R\$0.5 million, or 1.2%, was exposed to the *real*/U.S. dollar exchange rate variation.

Moreover, as part of our core business, we purchase third-party software licenses from suppliers located outside of Brazil, most of which are denominated and payable in U.S. dollars, for resale to customers located in Brazil and elsewhere outside the United States. Accordingly, although the prices we charge our customers for these licenses in Brazil are denominated in *reais*, these prices are linked to the U.S. dollar with the objective to incorporate conservative foreign exchange estimates and projections in our pricing model. In this way, we believe our business provides a built-in hedge in relation to foreign exchange exposure, as we have been historically able to largely offset our U.S.-dollar denominated costs via corresponding revenue streams linked to the U.S.-dollar. Our policy to only purchase software licenses from a third-party once we have a firm commitment from a customer reinforces this natural hedge, as we are able to price our contracts with customers for resale substantially concurrently with our purchase orders with third-party suppliers/licensors, thus limiting the window of foreign exchange exposure. The licenses we purchase for our customers in Colombia and Mexico are purchased and resold in U.S. dollars, not in local currency. For additional information, see “—Description of Principal Line Items—Revenues—Third-party software.”

We recognize foreign exchange gains and losses arising from exchange rate variation during the period between the date we sign a purchase order for a software license and the date we actually pay for such third-party software licenses that we acquire for resale. Our exposure to foreign exchange rate variation for each purchase is 90 days on average, as we typically have approximately three months to deliver payment once we finalize a purchase order. However, we have the flexibility to pay our suppliers prior to the payment due date in case we project or expect a significant currency fluctuation that is not favorable to us.

For the years ended December 31, 2021 and 2020, we recorded net foreign exchange losses in profit before income tax in the amount of R\$4.0 million and R\$1.1 million, respectively.

Notwithstanding the above, despite the built-in hedge that is inherent to operations, from time to time, we may elect to enter into derivative transactions, including currency swaps and non-deliverable forwards transactions, to hedge our exposure originated by the resale of software licenses. At this juncture, we do not hedge our foreign exchange exposure relating to either our U.S.-dollar denominated third-party software licensing costs or our international operations in Colombia, Mexico and the United States. As a result, our financial statements may present gains or losses due to translation effects relating to the financial statements of our subsidiaries, particularly as these operations become more relevant.

In addition, we entered into U.S. dollar-denominated and Euro-denominated loans in the year ended December 31, 2021 with an aggregate balance of R\$40.3 million as of December 31, 2021. To mitigate our exchange rate exposure, we have entered into derivative financial transactions with financial institutions to hedge against the fluctuation of the Euro/*real* and U.S. dollar/*real* exchange rates and link our principal and interest to a fixed rate or the CDI rate. For the year ended December 31, 2021, we recorded profit of R\$1.3 million in connection with derivative financial instruments.

Furthermore, the depreciation of the Brazilian *real* (or, in the case of our Mexican and Colombian operations, the *peso* of each country) against relevant foreign currencies may lead to a decrease in our domestic

revenues from our third-party software business given that our customers may decide to reduce their spending indexed or linked to foreign currencies. On the other hand, the depreciation of the Brazilian *real* (or, in the case of our Mexican and Colombian operations, the *peso* of each country) against relevant foreign currencies may lead to an increase in domestic revenues from our proprietary SaaS business, the pricing of which is not linked to the U.S. dollar variation.

Growth through Acquisitions

LinkAPI

On December 21, 2020, we acquired 51.0% of the shares of LinkAPI, a company that offers software to facilitate application integration and Application Programming Interfaces (APIs) with scalability, control and security, for R\$29.1 million. The strategic rationale for the acquisition of LinkAPI shares by Semantix was to harness the technological capabilities developed by LinkAPI to enhance data integration and reduce friction in relation to Semantix's big data and artificial intelligence solutions. With the acquisition of our controlling stake, we began to consolidate the results of LinkAPI as of the date of acquisition on December 21, 2020, with the 49.0% attributable to non-controlling shareholders reflected as a non-controlling interest on our balance sheet prior to June 2021.

In June 2021, we exercised our call option to acquire the additional 49.0% of the LinkAPI outstanding share capital for R\$51.5 million. Since that date, we no longer report non-controlling interest related to LinkAPI. For the period from December 21, 2020 to December 31, 2020, LinkAPI did not generate material revenues. For the year ended December 31, 2021, LinkAPI generated R\$19.4 million in revenues.

Tradimus

On February 21, 2020, we acquired 100.0% of the shares of Tradimus, a company that began its operations in 2012 and offers a comprehensive solution focused on improving the operational efficiency of hospitals, clinics and imaging and diagnostics companies, for R\$4.4 million. For the years ended December 31, 2021 and 2020, Tradimus generated R\$2.2 million and R\$1.8 million in revenues, respectively.

As part of the formation of a partnership to develop valued-based healthcare solutions, on December 30, 2020, Tradimus and Excella, a subsidiary of Caledonia S.A., a third-party health service management company, entered into a memorandum of understanding pursuant to which Excella undertook the obligation to invest at the minimum R\$10.0 million in Tradimus, subject to the fulfillment of certain conditions. On March 5, 2021, this investment was approved by the Brazilian antitrust regulator. On May 26, 2021, Excella became a shareholder of Tradimus as a result of a R\$5.0 million investment, holding a 50.0% non-controlling stake, thus effectively diluting our stake in Tradimus. We expect that the remaining R\$5.0 million investment will be made by Excella in May 2022.

Organic Growth and International Expansion

We are in the early stages of our international expansion and intend to continue expanding into new markets. As detailed below, in 2019 and 2020, we expanded internationally to the United States, Mexico and Colombia because we identified customer needs and opportunities in these markets that were similar to those in Brazil. We expect that our international activities will continue to grow for the foreseeable future as we continue to pursue opportunities in existing and new international markets, which will require significant dedication of management attention and financial resources.

Mexico and Colombia

As part of the consolidation of our international operations, Semantix Colômbia S.A.S. ("Semantix Colombia") and Semantix México, S. de R.L. de C.V. ("Semantix Mexico"), which were our sister entities under

[Table of Contents](#)

common control with us, became our indirect subsidiaries as a result of our acquisition of 100.0% of the shares of Semantix Participações S.A. (“Semantix Participações”) on June 19, 2019. For the years ended December 31, 2021 and 2020, Semantix Colombia and Semantix Mexico generated R\$17.0 million and R\$13.8 million, respectively, in aggregated revenues.

United States

On February 26, 2020, we formed Semantix Corp. (“Semantix US”), a South Dakota corporation established for the purpose of expanding our offering of solutions in the United States. For the years ended December 31, 2021 and 2020, Semantix US generated R\$8.4 million and R\$12.7 million in revenues, respectively, in each period reflecting revenue from a data project for a customer with U.S. operations that subsequently cancelled its contract with us. We believe this decelerated launch of our United States operations was mainly a result of the COVID-19 pandemic, particularly our inability to find a marketing point person to brand ourselves in the United States coupled with the effects of the cancelation of physical participation in, and sponsorship of, events, conferences and seminars.

Development of SDP—our Proprietary Data Platform

Since 2019, we have derived an increasingly relevant portion of our revenues from our proprietary SaaS business, which consists of revenue from fees charged to our customers for our proprietary data solutions, including our proprietary data platform (SDP) software, and the provision of support-related services. In particular, our December 2020 acquisition of LinkAPI served to accelerate our proprietary SaaS business due to the expanded technological capabilities of SDP resulting from the technology acquired through that acquisition (for additional information, see “—*Growth through Acquisitions—LinkAPI*”). We believe our future success depends significantly on the growth of our proprietary SaaS business, which has become the core focus of our growth strategy. As a result, our sales efforts have and will continue to deploy most of our resources to develop this business line.

Key Business Metrics

We monitor the key business metrics set forth below to help us measure the effectiveness of our sales and marketing efforts and customer satisfaction, which we believe, in turn, allows us to better evaluate our business and growth trends. The calculation of the key metrics discussed below may differ from other similarly titled metrics used by other companies, securities analysts, or investors.

	As of and for the year ended December 31,	
	2021	2020
Net revenue retention rate	136.0%	103.0%
LTV/CAC	8.4x	8.5x
Customers with trailing 12-month revenue greater than US\$1 million	11	9

Net Revenue Retention Rate

We measure the retention and growth of revenue from existing customers through our net revenue retention rate (“NRR”), which is a metric to track the effect on our revenues of customer renewals, expansion, contraction, and churn. We calculate NRR on a monthly basis by dividing our revenues from our proprietary SaaS and third-party software business lines during a defined period by our revenues from our proprietary SaaS and third-party software business lines for the same period of the previous year using the same base/cohort of customers for each period. In this way, we believe NRR is reflective of customer satisfaction and is useful in demonstrating positive as well as negative changes with respect to customer retention and the effectiveness of our upselling strategy.

For purposes of this calculation, we consider a cohort to be any group of customers that became active during the same specified period of time (usually a month or a year), as measured by the existence of a valid, unexpired contract in place with such customer. In addition, for purpose of our NRR calculation, we exclude any revenues for initial installation of our software solutions, as such revenue is only realized by its very nature during the initial period of measurement and, therefore, distorts comparability between periods and obscures revenue growth (or retraction) linked to performance. For the same reason, we also exclude certain variable fees corresponding to take rate on total payments value (TPV), as such amounts are based only on the value of our customers' transactions and, therefore, we believe not reflective of our performance.

As of December 31, 2021, our NRR was 136.0%, compared to 103.0% as of December 31, 2020. This increase was mainly due to new third-party software licenses sold to existing customers during the year ended December 31, 2021, which we believe demonstrates the success of our upselling strategy with current customers.

LTV/CAC

Increasing our customer base is important for our continued revenue growth. We believe we are positioned to grow significantly through a combination of our own sales and marketing initiatives and word-of-mouth referrals from existing customers.

We measure the efficiency of new customer acquisition by comparing customer lifetime value ("LTV") to customer acquisition costs ("CAC") for the associated time period to get an "LTV/CAC ratio." LTV is based on the present value of estimated contribution margin generated by a customer during the lifetime of a customer's relationship with our proprietary SaaS and third-party software businesses. We calculate contribution margin as revenues minus (i) in the case of our third-party software business line, costs we incur to purchase third-party software licenses to resell to our customers and (ii) in the case of our proprietary SaaS business line, personnel costs.

We calculate LTV based on the following key assumptions: (i) 11.9% per annum as the discount rate applied to the projected stream of contribution margin generated by a customer; and (ii) growth and churn estimates based on a historical analysis across our cohorts considering also estimated inflation rates. We estimate lifetime for our customers also based on analysis of historical churn across cohorts. We calculate CAC as sales and marketing expenses in any given period divided by the number of new customers acquired in the associated time period.

For the year ended December 31, 2021, we excluded certain write-off and loss allowance expenses from sales and marketing in the calculation of CAC. For additional information, see *"Results of Operations—Year Ended December 31, 2021 compared to Year Ended December 31, 2020—Sales and Marketing."*

For the year ended December 31, 2021, we estimate that our LTV/CAC was 8.4x, compared to 8.5x for the year ended December 31, 2020. This decrease was mainly due to an increase in our sales and marketing expenses, despite the increase in our proprietary SaaS revenues which correspond to the sale of higher value-added, higher margin products, reflecting the maturation of our proprietary SaaS solutions over the period in accordance with our growth strategy, as well as a reduction in churn for the period.

Customers with Trailing 12-Month Revenue Greater than US\$1 Million

Large customer relationships lead to scale and operating leverage in our business model. Compared with smaller customers, large customers present a greater opportunity for us to sell additional capacity because they have larger budgets, and a wider range of potential use cases. As a measure of our ability to scale with our customers and attract large enterprises, we count the number of customers that contributed more than US\$1 million in revenues in the trailing 12 months. Our customer count is subject to adjustments for acquisitions, consolidations, spin-offs, and other market activity.

As of December 31, 2021, we had 11 customers that contributed more than US\$1 million in revenues in the trailing 12 months, compared to nine customers as of December 31, 2020. This increase was mainly due to an increase in revenues from our third-party software business line.

Non-GAAP Financial Measures

This proxy statement/prospectus presents our EBITDA and Adjusted EBITDA for the convenience of the investors. EBITDA and Adjusted EBITDA are non-GAAP financial measures. A non-GAAP financial measure is generally defined as a numerical measure of historical or future financial performance, financial position, or cash flow that excludes or includes amounts that would not be adjusted in the most comparable GAAP measure.

We use these non-GAAP financial measures for decision-making purposes and to assess our financial and operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. We believe that the disclosure of our non-GAAP measures provides useful supplemental information to investors and financial analysts and other interested parties in their review of our operating performance. Additionally, we believe that non-GAAP financial information, when taken collectively, may be helpful to investors because it provides consistency and comparability with past financial performance and facilitates period-to-period comparisons of results of operations. The non-GAAP financial measures described in this proxy statement/prospectus are not a substitute for the IFRS measures of earnings. Additionally, our calculations of EBITDA and Adjusted EBITDA may be different from the calculation used by other companies, including our competitors in the industry, and therefore, our measures may not be comparable to those of other companies. For a reconciliation of EBITDA and Adjusted EBITDA to the most directly comparable IFRS measure, see “*Selected Consolidated Historical Financial Data of Semantix—Non-GAAP Financial Measures—Reconciliation of Non-GAAP Financial Measures.*”

- (3) We calculate Adjusted EBITDA as EBITDA excluding the impacts of certain events that we believe are isolated in nature incurred as part of our recent expansion and, therefore, not reflective of our underlying performance, including (i) isolated research expenses incurred in connection with the recent redesign and relaunch of our proprietary data platform with the purpose of enhancing its functionality arising in relation to a single contract with a single supplier over a three-year period starting in 2019 and, following the relaunch of our data platform, which we do not expect to incur on an ongoing basis, (ii) non-cash expenses

recorded under provisions relating to the early termination by a single client of a three-year contract to purchase third-party software in the early phases of our U.S. operations, with such amount corresponding to our ongoing payment obligations under an onerous contract with the third-party software supplier despite the early termination of the resale contract by our client, (iii) in 2021, concentrated expenses of an extraordinary nature related to third-party advisory and support services incurred in connection with the Business Combination that are not expected to be ongoing following the expected Closing, (iv) a one-time earn-out payment to the former shareholders of LinkAPI (see “— *Growth through Acquisitions—LinkAPI*”) and (v) expenses related to stock option grants under the 2021 Plan as well as a separate stock option plan adopted by us in 2020 (for more information, see “*Executive Compensation—Share Incentive Plans*”) which do not relate directly to the performance of our underlying business. Adjusted EBITDA is a non-GAAP measure. Our calculation of Adjusted EBITDA may be different from the calculation used by other companies, including our competitors in the industry, and therefore, our measures may not be comparable to those of other companies. For further information see “— *Reconciliation of Non-GAAP Financial Measures*.”

Critical Accounting Estimates and Judgments

Our financial statements are prepared in conformity with IFRS. In preparing our financial statements, we make assumptions, judgments and estimates that can have a significant impact on amounts reported in our financial statements. We base our assumptions, judgments and estimates on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions. We regularly reevaluate our assumptions, judgments and estimates. Our significant accounting policies are described in note 4 to our historical audited annual consolidated financial information as of and for the years ended December 31, 2021 and 2020, included elsewhere in this proxy statement/prospectus.

Recent Accounting Pronouncements

For information about recent accounting pronouncements that will apply to us in the near future, see note 5 to our historical audited annual consolidated financial information as of and for the years ended December 31, 2021 and 2020, included elsewhere in this proxy statement/prospectus.

Description of Principal Line Items

Revenues

Our revenues consist of the fees we charge our customers for the following solutions, products and services:

- **Third-party software:** the majority of our revenue is currently derived from the resale of licenses to our customers that we purchase from third-party data platform software providers, such as Cloudera, Elastic, Confluent, among others, with a particular focus on licenses for data lake creation, data search and data visualization.

Most of the licenses we purchase for resale are denominated and payable in U.S. dollars to suppliers located outside of Brazil. Accordingly, although the prices we charge our customers for these licenses in Brazil are denominated in *reais*, these prices are linked to the U.S. dollar with the objective to incorporate conservative foreign exchange estimates and projections in our pricing model. Our policy to only purchase software licenses from a third-party once we have a firm commitment from a customer enables us to price our contracts for resale substantially concurrently with our purchase orders with suppliers.

We offer third-party software licenses through two main modalities:

- i. *The Marketplace Model*, consisting of the resale of third-party software licenses to our customers without any installation or support-related service in connection with the licensed software; and
- ii. *The Managed Service Provider Model*, consisting of the resale of third-party software licenses combined with assistance provided by our specialists to our customers in connection with the software installation.

Revenue from third-party software is recognized at the point in time when we transfer possession of the license to our customer which occurs upon our receipt of the invoice from the supplier from which we purchase the underlying license. Pricing is based on the price of the underlying license, consisting typically of a fixed amount set forth in the contract depending on the specific license provided by us, subject to adjustment for inflation and foreign exchange variation, if material. Our customers are not able to purchase these third-party software licenses directly from the relevant suppliers, as these suppliers use distributors like us to increase their presence and capillarity worldwide. We typically bill our customers annually, with this annual payment due upfront at the time of contract. Our customer contracts typically have a term of around three years, and are subject to annual price adjustments to reflect potential material foreign exchange variation and inflation.

- **Proprietary software as a service (SaaS):** consists of revenue from (i) fees charged to our customers for our proprietary data platform software and (ii) the provision of support-related services. We recognize revenue from proprietary SaaS ratably over the term of each contract when the performance obligation has been fulfilled. We use a time-based output method to measure progress and recognize revenue on a straight-line basis over the contract term. Our customer contracts typically have a term of around three years. The transaction price for our proprietary data platform contracts consists of the following components: (i) a fixed fee element, (ii) a variable fee, which is a take rate on the total payments value (TPV) of transactions effected through our proprietary solutions, (iii) a usage-based fee, reflecting a fixed amount per usage metric, considering as metrics storage (cloud), number of pipelines or flows of data, and number of platform users and (iv) certain potential discounts applied if the stated service-level in the contract is not met. If the proprietary software that we sell is not delivered concurrently with related support services, or they do not have the same pattern of transfer, we establish stand-alone selling prices for each performance obligation and allocate the transaction price accordingly. Our proprietary SaaS business has become increasingly significant to our revenue mix, particularly since 2020, and we expect this trend to accelerate as our customers increasingly migrate from third-party platforms (for which we receive licensing fees) to our proprietary platform.
- **AI & data analytics services:** consists of revenue from providing technical and advisory services, including consulting, cloud monitoring, data integration, data science and data engineering, in addition to providing training related to our proprietary platform. Each AI & data analytics service is distinct and represents a single performance obligation. We recognize service revenue over time by application of the input method (i.e. hours spent on contract) pursuant to which we recognize revenue from our AI & data analytics service contracts based on the hours of services provided and the rate per hour for the employee providing the services. Our customer contracts for AI & data analytics services typically have a term ranging from three months to two years.
- **Other revenue:** consists primarily of revenue from training related to big data, data architecture and other technology-related training offered to our customers. Revenue is recognized over time. The progress of the performance obligation is measured based on the hours incurred.

Foreign currency transactions are translated into Brazilian *reais* based on the exchange rate on the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions, and from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates, are generally recognized in profit or loss.

Cost of Sales

Our cost of sales includes cost of services provided and cost of sales of goods:

- **Cost of sales of goods:** consists primarily of the costs we incur to purchase third-party software licenses to resell to our customers. Most of the software licenses we purchase for resale are denominated and payable to companies located outside of Brazil in U.S. dollars; and

- **Cost of services provided:** consists primarily of personnel costs in connection with our proprietary SaaS business line, in addition to personnel costs to provide the AI & data analytics services for a specific customer project, including fixed and variable compensation, benefits and social and payroll taxes.

Sales and Marketing Expenses

Our sales and marketing expenses consist primarily of personnel-related expenses associated with our sales and marketing operations, including fixed and variable compensation, benefits and social and payroll taxes. Sales and marketing expenses also include sales commissions paid to our sales force and commercial representatives, traveling expenses and expenses for events, conferences and seminars. For the year ended December 31, 2021, our sales and marketing expenses also include (i) a write-off in connection with receivables from a single client related to third-party software licenses sold which we do not expect to collect and (ii) expenses with a loss allowance established following the early termination by a single client of a three-year contract to purchase third-party software in the early phases of our U.S. operations. We expect that our sales and marketing expenses will increase in absolute value as we grow our business. However, we expect that our sales and marketing expenses will decrease as a percentage of our revenues over time.

General and Administrative Expenses

General and administrative expenses consist of personnel, outsourced services, depreciation and amortization, facilities and certain other expenses, as described below:

- **Personnel:** consist of compensation-related expenses for our finance, legal, human resources, administrative personnel and personnel that provide services that are not allocated into specific projects, including fixed and variable compensation, stock option, benefits and social and payroll taxes;
- **Outsourced services:** include expenses incurred with consultants, recruiters, legal advisers, audit services, information technology providers, third-party cloud infrastructure, and software dedicated for use for our general and administrative functions;
- **Depreciation and amortization:** relate mainly to software licenses for our administrative functions, furnishings, information technology and telecommunication equipment, which are used in our head office, back-office and other support-related operations. In addition, depreciation and amortization include goodwill recorded in connection with acquisitions and capitalization of internal-use software development;
- **Facilities:** relate to lease expenses for our office space, office maintenance, electricity, office supplies, among other miscellaneous expenses related to facility upkeep; and
- **Other expenses:** include expenses in connection with our data lab in the city of Campinas, in the State of São Paulo, and other administrative expenses.

We expect administrative expenses to increase as a result of becoming a publicly-traded company and adhering to the compliance framework required by the Sarbanes-Oxley Act. Public company costs include expenses associated with annual and quarterly reporting, investor relations, registrar and transfer agent fees, incremental insurance costs, accounting and legal services, and other investments to strengthen corporate governance and internal controls. For additional information, see “*Risk Factors—Risks Related to New Semantix—New Semantix will incur increased costs as a result of operating as a public company.*”

Research and Development

Our research and development expenses consist primarily of personnel-related expenses associated with our research and development team, including fixed and variable compensation, benefits and social and payroll taxes. Research and development expenses also include outsourced services fees, third-party cloud infrastructure expenses incurred in developing our proprietary platform, computer equipment, software, and research

subscription services used by our research and development teams. We expect that our research and development expenses will increase in absolute value as our business grows, particularly as we incur additional costs related to continued investments in our proprietary platform. In addition, we capitalize development expenses that qualify as internal-use software development costs in varying amounts that may fluctuate significantly from period to period. These costs consist of labor expenses associated with hiring developers, among others, including the third-party cloud infrastructure used in the internal development phases.

Other Expenses

Other expenses consist of (i) for the year ended December 31, 2021, provisions recorded relating to the early termination by a single client of a three-year contract to purchase third-party software in the early phases of our U.S. operations (see “—*Sales and Marketing Expenses*” above) reflecting our ongoing payment obligations under an onerous contract with the third-party software supplier despite our client’s cancellation, (ii) municipal property taxes (*Imposto sobre a Propriedade Predial e Territorial Urbana*, or “IPTU”) due on the property where our office is located, (iii) federal income taxes on foreign exchange transactions, in addition to other taxes applied in foreign exchange transactions (*Imposto sobre Operações Financeiras*, or “IOF”) due on payments made abroad to our international suppliers when purchasing software licenses with funds originating from Brazil, (iv) municipal taxes levied on the provision of services (*Imposto sobre Serviço*, or “ISS”) due on the purchase of software licenses from our international suppliers and on the services provided by our international suppliers which we resell in Brazil, and (v) federal contributions levied on services provided by non-Brazilian residents (*Contribuição sobre Intervenção do Domínio Econômico*, or “CIDE”) due on the services provided by our international suppliers which we resell in Brazil.

Financial Result

Financial result consists of financial income minus financial expenses. Financial income consists of interest income from financial assets (fixed income and certificates of banking deposits (*Certificados de Depósito Bancário*)), foreign exchange gains and other financial income. Financial expenses consist of foreign exchange losses, interest on loans, interest on leases and other financial expenses.

Given that most of the software licenses we purchase for resale are denominated and paid in U.S. dollars, we recognize foreign exchange gains and losses due to the exchange rate variation between the date of purchase and the date of payment of such third-party software licenses purchased for resale to our suppliers. Our exposure to foreign exchange rate variation for each purchase is 90 days on average, but we have the flexibility to pay our suppliers in advance of the expected payment date in case we project or expect a significant currency fluctuation that would make it more advantageous to pay sooner.

Income Tax

The current Brazilian corporate income tax (“CIT”) is calculated at a nominal rate of approximately 34%. CIT is composed of (i) an income tax rate of 15% with an additional rate of 10% for taxable income in excess of R\$20,000.00 per month and (ii) the social contribution rate of 9%, totaling 34% applicable to non-financial institutions in Brazil. Deferred income tax and social contribution relate to taxes payable arising from temporary and recognition differences between tax laws and accounting methods.

Revenues

Revenues for the year ended December 31, 2021 were R\$211.7 million, an increase of R\$88.2 million, or 71.4%, from R\$123.5 million for the year ended December 31, 2020, reflecting mainly (i) an increase in revenues associated with our third-party software business line due to an increase in demand for our managed service provider model, and (ii) an increase in revenues associated with our proprietary SaaS business line as a result of our acquisition of LinkAPI in December 2020, thus introducing an additional solution to our SaaS portfolio, as well as an increase in revenues from the sale of our SDP proprietary solution.

The table below shows our revenues and percentage of revenues by business line for the periods indicated:

See “*Risk Factors—Risks Related to Semantix’s Operations in Latin America—Exchange rate instability may have adverse effects on the Brazilian economy, our business and the trading price of New Semantix Ordinary Shares.*”

As mentioned above, the increase in revenues was primarily due to:

- *Third-party software*: an increase of R\$50.0 million, or 61.5%, in third-party software revenues to R\$131.3 million for the year ended December 31, 2021 from R\$81.3 million for the year ended December 31, 2020, driven primarily by an increase in solutions and services purchased by our existing customers, reflecting (i) an increase in demand for our managed service provider model which pairs installation services (for which we charge additional amounts) together with the resale of third-party software licenses, with our managed service model generating R\$92.3 million in revenues during the period, reflecting in part the migration of existing customers from our marketplace model and (ii) a general trend of existing customers increasing the scope of their orders with us, as reflected in (A) the increase of our NRR over the period, increasing to 136.0% as of December 31, 2021 from 103.0% as of December 31, 2020, with such increase driven almost entirely by our third-party software business line over the period and (B) an increase in the number of customers that contributed more than US\$1 million in revenues in the trailing 12 months, to 11 customers as of December 31, 2021 from nine customers as of December 31, 2020, with such variation driven almost entirely by our third-party software business line;
- *Proprietary software as a service (SaaS)*: an increase of R\$34.0 million in proprietary SaaS revenues to R\$39.8 million for the year ended December 31, 2021 from R\$5.8 million for the year ended December 31, 2020, mainly due to (i) an increase of R\$19.4 million in revenues from the sale of proprietary solutions, driven primarily by the sale of application integration solutions and APIs following our acquisition of LinkAPI in December 2020 and (ii) an increase of R\$9.3 million in revenues from increased sales volume related to wider adoption of our SDP proprietary data platform among our customers. For the year ended December 31, 2021, we estimate that our LTV/CAC decreased to 8.4x from 8.5x for the year ended December 31, 2020, driven primarily by the increase in

sales and marketing expenses despite the increase in proprietary SaaS revenues, which positively contributed to our revenue mix with higher-margin products; and

- *AI & data analytics services*: an increase of R\$4.8 million, or 13.4%, in AI & data analytics services revenues to R\$40.5 million for the year ended December 31, 2021 from R\$35.7 million for the year ended December 31, 2020, mainly due to increased volume of contracts for projects with existing customers.

The table below shows our revenues by geography for the periods indicated:

	For the year ended December 31,		
	2021 (in US\$ millions) ⁽¹⁾	2021 (in R\$ millions)	2020

See “*Risk Factors—Risks Related to Semantix’s Operations in Latin America—Exchange rate instability may have adverse effects on the Brazilian economy, our business and the trading price of New Semantix Ordinary Shares.*”

Of our revenues for the year ended December 31, 2021, R\$186.3 million were attributable to our operations in Brazil, R\$17.0 million were attributable to our operations in Latin America (other than Brazil) and R\$8.4 million were attributable to our operations in the United States, compared to R\$96.9 million in Brazil, R\$13.8 million in Latin America (other than Brazil) and R\$12.7 million in the United States for the year ended December 31, 2020. This variation in geographic mix reflects (i) an increase in sales in Brazil and in Latin America, driven mainly by those factors described above, and (ii) in each period, revenues in the United States from a data project for a customer with U.S. operations that subsequently cancelled its contract with us (for additional information, see “*Sales and marketing expenses*” and “*Other expenses*” below), reflecting the decelerated launch of our United States operations as a result of the COVID-19 pandemic and the corresponding effects on our marketing momentum in the region, particularly due to our inability to identify a marketing point person to brand ourselves in the United States as well as the cancelation of physical participation in, and sponsorship of, events, conferences and seminars in the country.

Cost of sales

Cost of sales for the year ended December 31, 2021 was R\$125.5 million, an increase of R\$40.0 million, or 46.8%, from R\$85.5 million for the year ended December 31, 2020. This increase was primarily due to (i) an increase in cost associated with our third-party software business line due to an increase of R\$26.8 million in costs to purchase third-party software licenses, mainly due to an increase in volume and (ii) R\$9.5 million in costs associated with our proprietary SaaS and AI & data analytics services business lines due to a R\$7.5 million increase in personnel costs mainly reflecting the integration of new employees as a result of the acquisition of LinkAPI in December 2020, coupled with an increase of R\$2.0 million in salary and other employee-related expenses due to promotions and new hires in response to the growing demand for our AI & data analytics services.

Gross profit

For the reasons described above, gross profit for the year ended December 31, 2021 was R\$86.2 million, an increase of R\$48.2 million, or 126.8% from R\$38.0 million for the year ended December 31, 2020, reflecting mainly the increased revenues in our managed service provider model in our third-party software business line and the positive effects of the increased revenues in our proprietary SaaS business line.

Sales and marketing expenses

Sales and marketing expenses for the year ended December 31, 2021 were R\$36.7 million, an increase of R\$22.4 million, from R\$14.3 million for the year ended December 31, 2020. This increase was primarily due to (i) a write-off of R\$9.4 million in connection with receivables from a single client related to third-party software licenses sold which we do not expect to collect, (ii) an increase of R\$8.6 million in expenses with a loss allowance established following the early termination by a single client of a three-year contract to purchase third-party software in the early phases of our U.S. operations, and (iii) an increase of R\$4.3 million in personnel expenses due to an increase in salary expenses, coupled with new hires.

General and administrative expenses

General and administrative expenses for the year ended December 31, 2021 were R\$81.5 million, an increase of R\$48.4 million, from R\$33.1 million for the year ended December 31, 2020. This increase was primarily due to (i) an increase of R\$20.6 million in expenses incurred in connection with outsourced services mainly due (A) to concentrated expenses of an extraordinary nature of R\$6.7 million related to advisory and support services incurred in connection with the Business Combination that are not expected to be ongoing following the expected Closing, (B) an increase of R\$ 6.0 million in expenses with information technology providers to support the growth of our business and (C) expenses of R\$4.9 million related to the one-time earn-out payment to former shareholders of LinkAPI who continued providing services to us after the acquisition, including data integration services, (ii) R\$13.4 million in expenses incurred in connection with stock option grants under the 2021 Plan and a stock option plan adopted by Semantix in 2020 (for more information, see “*Executive Compensation—Share Incentive Plans*”), including an increase of R\$4.9 million in payroll expenses related to such plans, (iii) an increase of R\$9.8 million in personnel expenses due to an increase in salary expenses, coupled with new hires and (iv) an increase of R\$6.8 million in facilities expenses mainly due to an increase of R\$4.0 million in expenses with the improvement of our telecommunications infrastructure, particularly due to the return of in-person work.

Research and development

Research and development expenses for the year ended December 31, 2021 were R\$19.9 million, an increase of R\$12.0 million, from R\$7.9 million for the year ended December 31, 2020. This increase was mainly due to (i) an increase of R\$5.1 million in personnel-related expenses, mainly due to the expansion of our research and development team as a result of the acquisition of LinkAPI in December 2020 and (ii) an increase of R\$3.7 million in third-party cloud infrastructure expenses incurred in connection with our proprietary platform.

Other expenses

Other expenses for the year ended December 31, 2021 were R\$9.2 million, an increase of R\$8.5 million, from R\$0.7 million for the year ended December 31, 2020. This increase was primarily due to expenses of R\$7.7 million related to provisions recorded relating to early termination by a single client of a three-year contract to purchase third-party software in the early phases our U.S. operations (see “*Sales and marketing expenses*” above) reflecting our ongoing payment obligations under an onerous contract with the third-party software supplier despite our client’s cancelation and (ii) an increase of R\$0.8 million in municipal taxes levied on the provision of services (ISS) due on the purchase of software licenses from our international suppliers as a

[Table of Contents](#)

result of a change in the interpretation by the Brazilian Supreme Court with respect to which taxes are applicable on the licensing and assignment of software rights in Brazil, which may result in increased ISS taxes going forward.

Operating loss

For the reasons described above, operating loss for the year ended December 31, 2021 was R\$61.1 million, an increase of R\$43.1 million, from an R\$18.0 million loss for the year ended December 31, 2020.

Financial income

Financial income for the year ended December 31, 2021 was R\$6.5 million, an increase of R\$3.9 million, from R\$2.6 million for the year ended December 31, 2020. This increase was due to (i) an increase of R\$1.4 million in interest income from financial assets mainly as a result of increased volume of investments during the period (from R\$10.7 million as of December 31, 2020 to R\$35.8 million as of December 31, 2021) due to an increase in lending activity during the year ended December 31, 2021, (ii) an increase of R\$1.3 million in income from fair value of derivative financial instrument as a result of the swap instruments we entered into during the period in connection with our U.S.-denominated and Euro-denominated loans and (iii) an increase of R\$1.1 million in foreign exchange gains resulting from the exchange rate variation between the date we purchase and the date we pay our suppliers for third-party software licenses purchased for resale.

Financial expenses

Financial expenses for the year ended December 31, 2021 were R\$21.5 million, an increase of R\$16.8 million, from R\$4.7 million for the year ended December 31, 2020. This increase was primarily due to (i) an increase of R\$10.2 million in interest on loans reflecting an increase in lending activity during the year ended December 31, 2021, with an outstanding loan balance of R\$146.6 million as of December 31, 2021, compared to R\$30.0 million as of December 31, 2020, (ii) an increase of R\$4.0 million in foreign exchange losses due to the variation of the *real*/U.S. dollar exchange rate between the purchase date and the payment date of certain third-party software licenses purchased for resale and (iii) an increase of R\$2.8 million in other financial expenses mainly due to an increase in taxes on foreign exchange transactions (IOF) arising from our foreign currency loan transactions during the period.

Loss before income tax

For the reasons described above, loss before income tax for the year ended December 31, 2021 was R\$76.1 million, an increase of R\$56.1 million, from R\$20.0 million loss for the year ended December 31, 2020.

Income tax

Income tax for the year ended December 31, 2021 resulted in gains of R\$7.7 million as compared to gains of R\$0.6 million for the year ended December 31, 2020. This R\$7.1 million increase of gains reflects the recognition of less deferred tax credits in 2020.

Loss for the year

For the reasons described above, loss for the year ended December 31, 2021 was R\$68.4 million, an increase of R\$49.0 million, from R\$19.4 million loss for the year ended December 31, 2020.

Liquidity and Capital Resources

As of December 31, 2021, we had R\$52.1 million in cash and cash equivalents (R\$25.9 million as of December 31, 2020). Semantix's management believes that our current available cash and cash equivalents and

[Table of Contents](#)

the cash flows from our operating activities will be sufficient to meet our working capital requirements and capital expenditures in the ordinary course of business for the next 12 months. Our cash and cash equivalents include cash on hand and immediate demand deposits with financial institutions. For more information, see note 15 to our historical audited annual consolidated financial statements for the years ended December 31, 2021 and 2020, included elsewhere in this proxy statement/prospectus.

Cash Flows

The following table shows the generation and use of cash for the periods indicated:

Cash Flow Data	For the year ended December 31,	
	2021	2020
Net cash (outflow) from operating activities	(16.3)	(11.1)
Net cash (outflow) from investment activities	(21.9)	(42.3)
Net cash inflow from financing activities	66.3	50.1

Operating Activities

Our net cash outflow from operating activities was R\$16.3 million for the year ended December 31, 2021. This cash outflow was primarily due to: (i) our R\$68.4 million loss for the year ended December 31, 2021, and (ii) trade receivables of R\$23.6 million reflecting an increase in sales of third-party software licenses made at the end of the fourth quarter of 2021, the payment of which was due after December 31, 2021. These effects were partially offset by (i) accounts payable and accrued expenses of R\$36.5 million primarily due to better payment terms generally negotiated with our suppliers and (ii) the impact of certain non-recurring losses during the period that affected our net income but did not have a cash effect, including (A) a write-off of R\$9.4 million in connection with receivables from a single client related to third-party software licenses sold which we do not expect to collect, (B) loss allowance of R\$9.0 million, mainly reflecting expenses of R\$8.6 million with loss allowance established in connection with the early termination by a single client of a three-year contract to purchase third-party licenses under our U.S. operations and (C) an onerous contract provision of R\$7.7 million established in connection with the early termination of the same contract described above, reflecting ongoing payment obligations we still have to our supplier despite the termination by our client.

Our net cash outflow from operating activities was R\$11.1 million for the year ended December 31, 2020. This cash outflow was primarily due to: (i) our R\$19.4 million loss for the year ended December 31, 2020, and (ii) trade receivables of R\$16.9 million primarily due to an increase in sales of third-party software licenses made at the end of the fourth quarter of 2020, the payment of which was due after December 31, 2020. These effects were partially offset by (i) accounts payable and accrued expenses of R\$14.8 million primarily due to better payment terms generally negotiated with our suppliers, in particular as a result of the COVID-19 pandemic and (ii) our recording of other liabilities of R\$7.1 million primarily due to the establishment of a provision for operating risks that impacted our income statement but had no cash effect.

Investment Activities

Our net cash outflow from investment activities was R\$21.9 million for the year ended December 31, 2021, primarily due to (i) as the primary driver, R\$21.2 million in net cash used to capitalize our development expenses for our proprietary data platform during the period and (ii) R\$0.6 million in net cash used to purchase property and equipment.

Our net cash outflow from investment activities was R\$42.3 million for the year ended December 31, 2020, primarily due to (i) as the primary driver, R\$26.6 million in net cash used to purchase our controlling equity stake in LinkAPI and Tradimus and (ii) a R\$15.1 million increase in cash used to capitalize our development expenses during the period for our proprietary data platform.

Financing Activities

Our net cash inflow from financing activities was R\$66.3 million for the year ended December 31, 2021, primarily due to (i) as the primary driver, R\$120.2 million in cash inflow from new lending over the period, reflecting our loans from Itaú Unibanco S.A., Banco Bradesco S.A., Banco do Brasil, Citibank, N.A., Banco BMG S.A. and Banco BTG Pactual S.A. that year and (ii) to a lesser extent, R\$5.0 million in cash inflow from proceeds from non-controlling interest related to the investment made by Excella to purchase a 50.0% non-controlling stake in Tradimus. This effect was partially offset by (i) payment of our acquisition of LinkAPI's shares in the amount of R\$47.8 million, (ii) payment of loans and financing of R\$9.8 million during the period and (iii) payment of lease expenses of R\$1.2 million during the period.

Our net cash inflow from financing activities was R\$50.1 million for the year ended December 31, 2020, primarily due to (i) a R\$29.5 million in cash inflow from new lending over the period, reflecting our working capital loans from Banco Daycoval S.A., Itaú Unibanco S.A. and Banco Bradesco S.A. that year and (ii) the effects of our R\$21.6 million inflow from the payment of the second tranche of our capital increase approved in 2019 reflecting Crescera's investment in us.

Indebtedness

As of December 31, 2021, we had R\$146.6 million in outstanding loans and borrowings (R\$30.0 million as of December 31, 2020) and R\$3.3 million in lease liabilities (R\$3.2 million as of December 31, 2020).

Lease Liabilities

Lease liabilities correspond to lease agreements for certain items in our operations, primarily in connection with leasing office space under agreements that are generally indexed to *reais*.

Capital Expenditures

Capital expenditures are payments related to the acquisition of subsidiaries, property and equipment/prepayment right of use and intangible assets that are reflected in our net cash outflow from investment activities.

For the year ended December 31, 2021, capital expenditures amounted to R\$21.9 million, of which (i) R\$21.2 million related to the capitalization of development expenses in connection with our proprietary data platform and (iii) R\$0.6 million related to the acquisition of property and equipment.

For the year ended December 31, 2020, capital expenditures amounted to R\$42.3 million, of which (i) R\$26.6 million related to the acquisition of our controlling equity stake in LinkAPI and Tradimus, (ii) R\$15.1 million related to the capitalization of development expenses in connection with our proprietary data platform and (iii) R\$0.6 million related to the acquisition of property and equipment.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements as of December 31, 2021 and 2020.

JOBS Act

Each of Alpha and Semantix is, and consequently, following the merger, New Semantix will be, an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, New Semantix will be eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies”, and may not be required to, among other things, (1) provide an auditor’s attestation report on its system of internal controls over financial reporting pursuant to Section 404; (2) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act; (3) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis); and (4) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. If some investors find New Semantix’s securities less attractive as a result, there may be a less active trading market for New Semantix’s securities and the prices of New Semantix’s securities may be more volatile.

These exemptions will apply for a period of five years following the completion of New Semantix’s initial public offering or until New Semantix is no longer an “emerging growth company,” whichever is earlier.

Material Weaknesses in Internal Controls and Remediation

We have identified material weaknesses in our internal control over financial reporting as of December 31, 2021. A material weakness is a deficiency, or combination of control deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. For additional information regarding the material weaknesses identified, see *“Risk Factors—Related to Semantix’s Business and Industry—We have identified material weaknesses in our internal control over financial reporting and, if we fail to remediate such material weaknesses (and any other ones) or establish and maintain effective internal controls over financial reporting, we may be unable to accurately report our results of operations, meet our reporting obligations and/or prevent fraud.”*

Quantitative and Qualitative Disclosure About Market Risk

We are exposed to market risks in the ordinary course of our business, including credit risk, liquidity risk, the effects of changes in interest rates and foreign currency fluctuations. Information relating to quantitative and qualitative disclosures about these market risks is described below and in note 23 to our historical audited annual consolidated financial statements for the years ended December 31, 2021 and 2020, included elsewhere in this proxy statement/prospectus.

Foreign Exchange Risk

Foreign exchange risk arises from the possibility that changes in exchange rates will affect the values of the financial assets and liabilities denominated in foreign currencies against the Brazilian *real*, which is our functional currency, in case we do not hedge the currency exposure by hedging instruments.

We have operations internationally that are denominated in foreign currencies. This exposure to foreign exchange variation is primarily related to fluctuations between the Brazilian *real* and the U.S. dollar, the Colombian *peso* and the Mexican *peso*. Our subsidiaries outside of Brazil use their local currency as their functional currency.

Table of Contents

The following table shows the balance of our trade receivables, net and trade and other payables denominated in foreign currency and translated into Brazilian *reais* as of the dates indicated:

	As of December 31, 2021			As of December 31, 2020		
	COP	MXN	USD	COP	MXN	USD
	(in R\$ millions)					
Trade receivables, net	2.4	3.1	—	2.5	4.2	2.0
Trade and other payables	(0.5)	(4.3)	(7.6)	(0.8)	(3.0)	(0.5)

Moreover, as part of our core business, we purchase third-party software licenses from suppliers located outside of Brazil, most of which are denominated and payable in U.S. dollars, for resale to customers located in Brazil and elsewhere outside the United States. Accordingly, although the prices we charge our customers for these licenses in Brazil are denominated in *reais*, these prices are linked to the U.S. dollar with the objective to incorporate conservative foreign exchange estimates and projections in our pricing model. In this way, we believe our business provides a built-in hedge in relation to foreign exchange exposure, as we have been historically able to largely offset our U.S.-dollar denominated costs via corresponding revenue streams linked to the U.S.-dollar. Our policy to only purchase software licenses from a third-party once we have a firm commitment from a customer reinforces this natural hedge, as we are able to price our contracts with customers for resale substantially concurrently with our purchase orders with third-party suppliers/licensors, thus limiting the window of foreign exchange exposure. The licenses we purchase for our customers in Colombia and Mexico are purchased and resold in U.S. dollars, not in local currency. For additional information, see “—Description of Principal Line Items—Revenues—Third-party software.”

We recognize foreign exchange gains and losses arising from exchange rate variation during the period between the date we sign a purchase order for a software license and the date we actually pay for such third-party software licenses that we acquire for resale. Our exposure to foreign exchange rate variation for each purchase is 90 days on average, as we typically have approximately three months to deliver payment once we finalize a purchase order. However, we have the flexibility to pay our suppliers prior to the payment due date in case we project or expect a significant currency fluctuation that is not favorable to us.

For the years ended December 31, 2021 and 2020, we recorded net foreign exchange losses in loss before income tax in the amount of R\$4.0 million and R\$1.1 million, respectively.

We performed a sensitivity analysis regarding our exposure to the foreign exchange risk as of December 31, 2021 and 2020. For this analysis, we estimated an increase or decrease in the current interest rate by 10%. As a result, the balance of trade receivables, net and trade and other payables denominated in foreign currency would be impacted as follows:

	December 31, 2021			December 31, 2020		
	COP	MXN	USD	COP	MXN	USD
Increase in exchange rate in 10%	2.0	(1.4)	(8.4)	1.9	1.3	1.7
Decrease in exchange rate in 10%	1.7	(1.1)	(6.9)	1.6	1.1	1.4

Notwithstanding the above, despite the built-in hedge that is inherent to operations, from time to time, we may elect to enter into derivative transactions, including currency swaps and non-deliverable forwards transactions, to hedge our exposure originated by the resale of software licenses. At this juncture, we do not hedge our foreign exchange exposure relating to either our U.S.-dollar denominated third-party software licensing costs or our international operations in Colombia, Mexico and the United States. As a result, our financial statements may present gains or losses due to translation effects relating to the financial statements of our subsidiaries, particularly as these operations become more relevant.

In addition, we entered into U.S. dollar-denominated and Euro-denominated loans in the year ended December 31, 2021 with an aggregate balance of R\$40.3 million as of December 31, 2021. To mitigate our

[Table of Contents](#)

exchange rate exposure, we have entered into derivative financial transactions with financial institutions to hedge against the fluctuation of the Euro/*real* and U.S. dollar/*real* exchange rates and link our principal and interest to a fixed rate or the CDI rate. For the year ended December 31, 2021, we recorded profit of R\$1.3 million in connection with derivative financial instruments.

Furthermore, the depreciation of the Brazilian *real* (or, in the case of our Mexican and Colombian operations, the *peso* of each country) against relevant foreign currencies may lead to a decrease in our domestic revenues from our third-party software business given that our customers may decide to reduce their spending indexed or linked to foreign currencies. On the other hand, the depreciation of the Brazilian *real* (or, in the case of our Mexican and Colombian operations, the *peso* of each country) against relevant foreign currencies may lead to an increase in domestic revenues from our proprietary SaaS business, the pricing of which is not linked to the U.S. dollar variation.

We do not consider our foreign exchange exposure to be material given that it is either hedged or it has a similar and offsetting impact on both our revenues and costs.

Interest Rate Risk

The interest risk arises from the possibility of us incurring losses due to fluctuations in interest rates in respect of fair value of future cash flows of a financial instrument.

Our main exposure to interest rate risk is related to loans and borrowings payable subject to variable interest rate, principally the CDI rate. Our investments are made for capital preservation purposes and we do not enter into investments for trading or speculative purposes. Our trade receivables, accounts payable and other liabilities do not bear interest.

As of December 31, 2021, we had R\$146.6 million in outstanding loans and borrowings (R\$30.0 million as of December 31, 2020). As of December 31, 2021, approximately 68.7% of our loans and borrowings were subject to floating interest rates, particularly the CDI rate, reflecting new loans and financings since the end of 2020. As of December 31, 2020, none of our loans and borrowings were subject to floating interest rates, with 100.0% of our then-outstanding borrowings accruing interest at fixed interest rates.

We performed a sensitivity analysis regarding our exposure to the interest rate risk as of December 31, 2021. For this analysis, we estimated an increase or decrease in the current interest rate by 10%. As a result, our financial expenses would be impacted as follows:

(in R\$ millions)	Interest Rate Risk	Amount as of December 31, 2021	Basic interest rate shock	
			+10%	(10)%
Loans and financing	CDI	100.7	1.1	-1.1

The analysis above includes one U.S. dollar-denominated loan and one Euro-denominated loan swapped to CDI in *reais*.

Liquidity Risk

Liquidity risk is the risk that we may not have sufficient cash or other assets to meet our obligations under our financial liabilities on their respective maturity dates. Our approach to managing liquidity risk is to ensure, to the greatest extent possible, that we maintain sufficient liquidity to meet our liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses.

Our finance department is responsible for managing our cash surplus and any cash required for working capital purposes. As of December 31, 2021, we had investments in fixed income and certificates of banking deposits (*Certificados de Depósito Bancário*) of R\$35.8 million (R\$10.7 million as of December 31, 2020) that are expected to generate cash inflows promptly to address any potential liquidity issues.

For a presentation of the contractual maturities of our financial obligations, see “—*Contractual Obligations*.”

Credit Risk

Credit risk is the risk of financial loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. We are exposed to credit risk primarily in respect of our cash and cash equivalents, deposits in banks and other financial institutions, as well as credit exposures to clients, including accounts receivable and committed transactions. If customers are classified by an independent agency, these classifications are used. If there is no independent rating, the credit analysis area evaluates the credit quality of the customer, taking into account their financial position, past experience and other factors. Individual risk limits are determined on the basis of internal or external classifications according to the limits determined by our board of directors. The use of credit limits is monitored regularly.

No credit limit was exceeded during 2021 and 2020, and we do not expect any loss arising from default stems from these counterparties higher than the amount already provisioned.

A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

CERTAIN ALPHA RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In December 2020, one of our officers paid made a capital contribution of \$25,000, or approximately \$0.004 per share, to cover certain of our expenses, for which we issued 5,750,000 Founder Shares to such officer. In January 2021, the Founder Shares were assigned to the Sponsor for the same purchase price initially paid by one of our officers. Our initial shareholders collectively own 20% of our issued and outstanding shares as of our IPO.

In connection with our IPO, our Sponsor purchased an aggregate of 7,000,000 private placement warrants at a price of \$1.00 per warrant. Each private placement warrant may be exercised for one Alpha Class A Ordinary Share at a price of \$11.50 per share, subject to adjustment as provided herein. The private placement warrants (including the Alpha Class A Ordinary Shares issuable upon exercise of the private placement warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by it until 30 days after the completion of our initial business combination.

If any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. Certain of our officers and directors presently have, and any of them in the future may have, additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity.

We entered into an Administrative Services Agreement pursuant to which we pay our Sponsor up to \$55,000 per month for office space, administrative and support services. Upon completion of our initial business combination or our liquidation, we will cease paying any of these monthly fees. Accordingly, in the event the consummation of our initial business combination takes until February 23, 2023, our Sponsor will be paid an aggregate of up to approximately \$1,320,000 (\$55,000 per month) for office space, administrative and support services, and other expenses and obligations of our Sponsor and will be entitled to be reimbursed for any out-of-pocket expenses.

Our Sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our Sponsor, officers, directors or our or any of their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Our Sponsor agreed to loan us up to \$250,000 under an unsecured promissory note to be used for a portion of the expenses of our IPO. These loans were non-interest bearing and unsecured, and were repaid upon completion of the IPO out of the \$1,000,000 of offering proceeds that had been allocated for the payment of offering expenses (other than underwriting commissions) not held in the Trust Account. The value of our Sponsor's interest in this loan transaction corresponded to the principal amount outstanding under any such loan.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our Sponsor or an affiliate of our Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. Any such loans may be repaid only from funds held outside the Trust Account or from funds released to us upon completion of our initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants issued to our Sponsor. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our Sponsor or an affiliate of our Sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our Trust Account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined Alpha with any and all amounts being fully disclosed to our shareholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our shareholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a shareholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration rights agreement with respect to the Founder Shares, private placement warrants and warrants issued upon conversion of working capital loans (if any).

Related Party Policy

The audit committee of our board of directors will adopt a policy setting forth the policies and procedures for its review and approval or ratification of “related party transactions.” A “related party transaction” is any consummated or proposed transaction or series of transactions: (i) in which the company was or is to be a participant; (ii) the amount of which exceeds (or is reasonably expected to exceed) the lesser of \$120,000 or 1% of the average of the company’s total assets at year end for the prior two completed fiscal years in the aggregate over the duration of the transaction (without regard to profit or loss); and (iii) in which a “related party” had, has or will have a direct or indirect material interest. “Related parties” under this policy will include: (i) our directors, nominees for director or officers; (ii) any record or beneficial owner of more than 5% of any class of our voting securities; (iii) any immediate family member of any of the foregoing if the foregoing person is a natural person; and (iv) any other person who may be a “related person” pursuant to Item 404 of Regulation S-K under the Exchange Act. Pursuant to the policy, the audit committee will consider (i) the relevant facts and circumstances of each related party transaction, including if the transaction is on terms comparable to those that could be obtained in arm’s-length dealings with an unrelated third party, (ii) the extent of the related party’s interest in the transaction, (iii) whether the transaction contravenes our code of ethics or other policies, (iv) whether the audit committee believes the relationship underlying the transaction to be in the best interests of the company and its shareholders and (v) the effect that the transaction may have on a director’s status as an independent member of the board and on his or her eligibility to serve on the board’s committees. Management will present to the audit committee each proposed related party transaction, including all relevant facts and circumstances relating thereto. Under the policy, we may consummate related party transactions only if our audit committee approves or ratifies the transaction in accordance with the guidelines set forth in the policy. The policy will not permit any director or officer to participate in the discussion of, or decision concerning, a related person transaction in which he or she is the related party.

Sponsor Letter Agreement

Concurrently with the execution of the Business Combination Agreement, our Sponsor entered into the Sponsor Letter Agreement with Alpha, New Semantix and Semantix pursuant to which the Sponsor agreed to vote all of its Founder Shares in favor of the Business Combination and related transactions, to take certain other actions in support of the Business Combination Agreement and related transactions and not to redeem any such shares. The Sponsor agreed that it will not transfer and, subject to the achievement of certain milestones, may be required to forfeit, any such deferred Founder Shares, subject to the terms of the Sponsor Letter Agreement. The Sponsor also waived any rights to adjustment or other anti-dilution protections with respect to the Initial Conversion Ratio (as defined in the Existing Governing Documents), including those rights that would otherwise apply pursuant to Section 17.3 of the Existing Governing Documents as a result of the issuance of New Semantix Ordinary Shares in connection with the transactions contemplated by the Business Combination Agreement or any Transaction Agreement pursuant to the PIPE Investment such that the New Semantix Ordinary Shares issued pursuant to the PIPE Investment are excluded from the determination of the number of New Semantix Ordinary Shares issuable upon conversion of the Founder Shares pursuant to Section 17.3 of the Existing Governing Documents (which for the avoidance of doubt does not include the Sponsor’s rights under Section 17.8 of the Existing Governing Document, which provides that in no event may any Founder Share convert into New Semantix Ordinary Shares at a ratio that is less than one-for-one), to which it would otherwise be entitled in connection with the Business Combination and agreed to a lock-up of its Founder Shares for one year after the Closing of the Business Combination Agreement.

In addition, the Sponsor has agreed that the Alpha Earn-Out Shares held by the Sponsor as of the date of the Sponsor Letter Agreement will be subject to vesting requirements. The Alpha Earn-Out Shares will vest in two equal 431,250 tranches based on the achievement of closing share price targets of New Semantix Ordinary Shares of \$12.50 and \$15.00, respectively, in each case, for any 20 trading days within any consecutive 30 trading day period commencing at any time after the Closing Date and ending on or prior to the fifth anniversary of the Closing Date. A given share price target described above is also achieved if there is a transaction during the relevant period that results in the New Semantix Ordinary Shares being converted into the right to receive cash or other consideration having a per share value (in the case of any non-cash consideration, as provided in the definitive transaction documents for such transaction, or if not so provided, as determined by the New Semantix board of directors in good faith) in excess of the applicable closing share price target set forth above. The Alpha Earn-Out Shares that have not vested by the fifth anniversary of the Closing shall, automatically and without further action on the part of New Semantix or any holder thereof, be forfeited and cancelled for no consideration. Prior to vesting or forfeiture the Alpha Earn-Out Shares will, with the exception of the right to receive dividends and other limited exceptions, be entitled to all rights of other shares of New Semantix Ordinary Shares.

Amended and Restated Registration Rights Agreement

Currently, our Sponsor has the benefit of registration rights with respect to our securities that it holds pursuant to a registration rights agreement entered into in connection with our IPO.

In connection with closing of the Business Combination, our Sponsor, New Semantix and certain Semantix equity holders and certain members of the Sponsor (collectively, the “other investors”) will enter into the A&R Registration Rights Agreement. As a result, our Sponsor and the other investors will be able to make a written demand for registration under the Securities Act of all or a portion of their registrable securities, subject to a maximum of four such demand registrations, in each case so long as such demand includes a number of registrable securities with a total offering price in excess of \$30.0 million. Any such demand may be in the form of an underwritten offering, it being understood that New Semantix will not be required to conduct more than six underwritten offerings in any 12-month period.

In addition, the holders of registrable securities will have “piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the consummation of the Business Combination.

Director Independence

Nasdaq listing standards require that a majority of our board of directors be independent within one year of our IPO. An “independent director” is defined generally as a person who, in the opinion of the company’s board of directors, has no material relationship with the listed company (either directly or as a partner, shareholder, stockholder or officer of an organization that has a relationship with the company). Our independent directors have regularly scheduled meetings at which only independent directors are present. Our board of directors has determined that Amos Ginesh, Ariel Lebowits and Davie Lorié are “independent directors” as defined in the Nasdaq listing standards and applicable SEC rules.

CERTAIN SEMANTIX RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

As a Brazilian corporation with the majority of its operations in Brazil, Semantix adopted corporate governance policies and practices required by applicable legislation to govern transactions with related parties, including those requirements of Brazilian Corporate Law. Brazilian Corporate Law prohibits a company's management from, among other matters (i) performing any action that may result in a personal advantage at the company's expense, (ii) receiving any personal advantage from third parties arising, directly or indirectly, as a result of the exercise of that person's responsibilities with the company and (iii) participating in any transaction, or resolution with respect thereto taken by management, in which they have a conflict of interest.

Prior to the completion of this Business Combination, New Semantix intends to adopt a new related party transaction policy. Semantix expects that this related party transaction policy will require certain related party transactions to be approved by New Semantix's board of directors or a designated committee thereof, which may include the audit committee, once implemented.

Below is a description of agreements between Semantix and related parties.

Loans and Borrowings with Bradesco

Semantix has entered into three loan agreements with Banco Bradesco S.A. ("Bradesco"), one of Brazil's largest financial institutions and an indirect investor in Semantix via its investment in the venture capital fund Inovabra that is 100% funded with Bradesco proprietary capital as part of Bradesco group's innovation program. The head of Private Equity and Venture Capital at Bradesco serves as a member on Semantix's board of directors and will continue as a board member of New Semantix. For additional information, see "*Security Ownership of Certain Beneficial Owners and Management*."

On August 25, 2020, Semantix entered into a loan agreement with Bradesco in the amount of R\$10.0 million, with interest accruing at a rate per annum of 8.44% and maturing on August 25, 2025. As of December 31, 2021, R\$10.1 million was outstanding under this loan.

License and Service Agreements

Certain of Semantix's customers are affiliated with its shareholders. Accordingly, in the ordinary course of its business, Semantix provides data solutions and complementary professional services to these customers, including AI services, data analytics services and related support, as memorialized in software and service agreements negotiated with these customers at arm's length.

In particular, Semantix provides data solutions and related professional services to Bradesco, who is also Semantix's indirect shareholder via Inovabra (see "*Loans and Borrowings with Bradesco*" above and "*Security Ownership of Certain Beneficial Owners and Management*" for additional information regarding this relationship).

Additionally, Semantix (including through its subsidiary, Tradimus) provides data solutions and related professional services to Hospital Care Caledônia S.A. ("Hospital Care"), a health services management holding company that is a portfolio company of the same investment fund managed by Crescera Capital ("Crescera Asset Management") that also invests in Semantix since 2019.

Furthermore, Semantix also provides data solutions and related professional services to Grupo Fartura de Hortifrut S.A. (“OBA”), a grocery store chain that is a portfolio company of another investment fund managed by an affiliate of Crescera Asset Management.

Semantix, OBA and Hospital Care each had the same two individuals (that are managing partners of Crescera Capital) serving as board members for each company, and following the Business Combination, one such individual is expected to remain as a board member of New Semantix. Software and Service Agreements with Bradesco

Since 2019, Semantix has licensed third-party software to Bradesco for a 36-month term and, in connection with such software, provided various support and data analytics services to Bradesco. In addition, Semantix has provided separate data analytics services as well as consulting and general IT support to Bradesco pursuant to contracts typically with a one-year term, subject to termination and renewal.

Since June 2021, Semantix also licenses third-party data solutions to Banco Bradesco S.A., a Bradesco subsidiary that issues credit cards, pursuant to a one year contract.

As a result of the above, Semantix generated revenue from Bradesco (including through Next and Banco Bradesco S.A.) corresponding to R\$11.8 million and R\$14.5 million, respectively, in 2020 and 2021.

License and Service Agreements with OBA

Since 2019, Semantix has licensed its “Open Galaxy” proprietary software to OBA and has also provided related support services to OBA in connection with its software and technology infrastructure. These agreements are typically effective for 24 months, subject to certain renewal and termination rules.

Additionally, since 2020, Semantix has licensed to OBA the use of its “Smarter Sales” proprietary retail platform, and provides installation, integration and infrastructure services related thereto, in accordance with an agreement effective for 60 months, subject to certain renewal and termination rules. In 2021, the scope of this relationship was expanded in order to include additional software and services powered by LinkAPI (*i.e.*, Enterprise Cloud Dedicada, API Management Enterprise and Squad Integration Experience), for a term of 60 months.

As a result of the above, Semantix generated revenue from OBA corresponding to R\$1.8 million and R\$3.0 million, respectively, 2020 and 2021.

License and Service Agreements with Hospital Care

Since 2019, Semantix (including through its subsidiary Tradimus) has licensed to Hospital Care Tradimus’ proprietary data solution aimed at improving operating efficiencies at hospitals and has also provided related platform installation support services and data-analytics services in relation thereto. These agreements range from 60 to 84 months, subject to certain termination and renewal rules.

In 2021, the parties expanded the scope of their relationship so that certain add-on proprietary solutions, including solutions powered by LinkAPI (*i.e.*, SDP, Integration Platform and API Management) and certain services (*i.e.*, installation, support, training) related to such data solutions are provided to Hospital Care. This agreement is valid for a period of 84 months, subject to the certain renewal and termination rules.

In accordance with the Articles and for so long as the Shareholders Agreement remains in force and effect, the board of directors will be divided into three (3) classes designated as Class I, Class II and Class III, with as nearly equal a number of directors in each group as possible. At each annual meeting of shareholders, a class of directors will be elected for a three-year term to succeed the same class whose term is then expiring, as follows:

If the director appointed by Alpha is not an independent director, one (1) of the directors appointed by Semantix's Founders shall be an independent director. In addition, Semantix's Founders will have the right to appoint the chairperson of the board of directors, subject to the maintenance of a number of New Semantix Ordinary Shares representing at least seven and one-half percent (7.5%) of the New Semantix Ordinary Shares then issued and outstanding.

Under the Shareholders Agreement, the right of Semantix's Founders, Crescera and Inovabra to appoint directors as described above is subject to the maintenance of a number of Ordinary Shares representing at least seven and one-half percent (7.5%) of the Ordinary Shares then issued and outstanding. The Sponsor's right to appoint a director shall terminate at the earliest of (i) the date when the Sponsor no longer holds any New Semantix Ordinary Shares, or (ii) three years after the closing of the Business Combination, at which time a new director will be appointed by Semantix's Founders.

New Semantix is a foreign private issuer under the rules of the SEC. Immediately following the closing of the Business Combination, the following directors will be independent under applicable Nasdaq listing standards: Dorival Dourado Júnior, Veronica Allende Serra, Ariel Lebowits, Jaime Cardoso Danvila, Rafael Padilha de Lima Costa and Rafael Steinhauser.

Committees of the Board of Directors

Upon the Closing of the Business Combination, New Semantix will have an audit committee, a compensation committee and a nominating and corporate governance committee. New Semantix has adopted a charter for each of these committees. The charter of each committee will be available on New Semantix's website.

Audit Committee

Upon the Closing of the Business Combination, New Semantix's board of directors will have established an audit committee consisting of Ariel Lebowits, Dorival Dourado Júnior and Rafael Steinhauser, with Ariel Lebowits serving as the chair of the committee. Ariel Lebowits satisfies the criteria of an audit committee financial expert as set forth under the applicable rules of the SEC. Each of Ariel Lebowits, Dorival Dourado Júnior and Rafael Steinhauser satisfies the requirements for an "independent director" within the meaning of the NASDAQ listing rules and the criteria for independence set forth in Rule 10A-3 of the Exchange Act. Members will serve on this committee until the earliest of (1) the moment they cease to be a director, (2) their resignation, (3) the majority of New Semantix's board of directors favorably votes for a change in the composition of the audit committee, and (4) as otherwise determined by New Semantix's board of directors. New Semantix's audit committee will oversee accounting and financial reporting processes and the audits of financial statements. The audit committee will be responsible for, among other things:

- selecting New Semantix's independent auditor, approving related fees and terminating New Semantix's relationship with its independent auditor at the committee's discretion;
- pre-approving audit and non-audit services permitted to be performed by the independent auditor;
- annually reviewing the independent auditor's report describing the auditing firm's internal quality control procedures, any material issues raised by the most recent internal quality control review, or peer review, of the independent auditors and all relationships between the independent auditor and New Semantix;
- reviewing with the independent auditor any audit problems or difficulties and management's response, as well as resolving any disagreements between management and the independent auditor regarding financial reporting;
- reviewing and discussing annual and quarterly financial statements with management and the independent auditor;
- reviewing management's reports;
- discussing earnings press releases with management, as well as financial information and earnings guidance provided to analysts and rating agencies;

- reviewing the effect of regulatory and accounting initiatives, as well as off-balance sheet structures, on New Semantix's financial statements;
- assessing and monitoring risk exposures, as well as the policies and guidelines to risk management process;
- reviewing all related-party transactions on an ongoing basis;
- periodically reviewing and reassessing the adequacy of the audit committee charter;
- any other matters that are specifically delegated to the audit committee by New Semantix's board of directors from time to time;
- periodically meeting with management, internal audit team and the independent auditors, separately; and
- reporting regularly to the full board of directors.

Compensation Committee

Upon the Closing of the Business Combination, New Semantix's board of directors will have established a compensation committee consisting of Leonardo dos Santos Poça D'Água, Rafael Steinhauser and Dorival Dourado Júnior, with Leonardo dos Santos Poça D'Água serving as the chair of the committee. The compensation committee assists New Semantix's board of directors in reviewing and approving the compensation structure of New Semantix's directors and executive officers, including all forms of compensation to be provided to New Semantix's directors and executive officers. In addition, the compensation committee has overall responsibility for evaluating and making recommendations to New Semantix's board of directors regarding New Semantix's compensation plans, policies and programs. Members of the compensation committee are not prohibited from direct involvement in determining their own compensation. As discussed below, as a foreign private issuer whose securities will be listed on Nasdaq, New Semantix will be permitted to follow certain home country corporate governance practices in lieu of the requirements of Nasdaq rules pursuant to Nasdaq Rule 5615(a)(3), which provides for such exemption to compliance with Nasdaq Rule 5600 Series, including an exemption to the requirement that each member of the compensation committee must be an independent director as defined under Nasdaq Rule 5605(a)(2).

The compensation committee will be responsible for, among other things:

- establishing and annually reviewing a general compensation policy for New Semantix;
- managing New Semantix's employee benefit plans and determining the directors, officers and employees eligible to participate in any of these plans;
- approving increases in directors' fees and increases in salaries paid to executive officers;
- annually reviewing and approving corporate goals and objectives relevant to the compensation of New Semantix's chief executive officer, chief financial officer and other executive officers and key employees, evaluating their performance in light of those goals and objectives, and approving their compensation level based on this evaluation; and
- determining any long-term incentive component of compensation.

Nominating and Corporate Governance Committee

Upon the Closing of the Business Combination, New Semantix's board of directors will have established a nominating and corporate governance committee consisting of Leonardo dos Santos Poça D'Água, Veronica Allende Serra and Jaime Cardoso Danvila, with Leonardo dos Santos Poça D'Água serving as the chair of the committee. The nominating and corporate governance committee assists New Semantix's board of directors in identifying individuals qualified to become members of the board of directors and in determining the composition of the board and its committees. As discussed below, as a foreign private issuer whose securities

will be listed on Nasdaq, New Semantix will be permitted to follow certain home country corporate governance practices in lieu of the requirements of Nasdaq rules pursuant to Nasdaq Rule 5615(a)(3), which provides for such exemption to compliance with Nasdaq Rule 5600 Series, including an exemption to the requirement that each member of the nominating and governance committee must be an independent director as defined under Nasdaq Rule 5605(a)(2).

The nominating and corporate governance committee will be responsible for, among other things:

- developing and annually reviewing criteria for selection of members of New Semantix's board of directors and its committees;
- actively seeking individuals qualified to become members of New Semantix's board of directors;
- reviewing and approving New Semantix's Code of Ethics on an annual basis;
- monitoring compliance with the Code of Ethics; and
- reviewing and expressing its opinion about potential conflicts of interest among members of the board of directors and New Semantix.

Code of Business Conduct

We will adopt a new code of business conduct (the "code of business conduct") that applies to all directors, executive officers and employees. It will be available on our website upon the effectiveness of the registration statement of which this proxy statement/prospectus forms a part. Our code of business conduct is a "code of ethics," as defined in Item 406(b) of Regulation S-K. Copies of the code of business conduct and charters for each of our board committees will be provided without charge upon request from us and will be posted on our website. We will make any legally required disclosures regarding amendments to, or waivers of, provisions of our code of ethics on our Internet website.

Foreign Private Issuer Exemptions

After the closing of the Business Combination, New Semantix will be considered a "foreign private issuer" under the securities laws of the United States and the rules of Nasdaq. Under the applicable securities laws of the United States, "foreign private issuers" are subject to different disclosure requirements than U.S. domiciled issuers. New Semantix intends to take all necessary measures to comply with the requirements of a foreign private issuer under the applicable corporate governance requirements of the Sarbanes-Oxley Act of 2002, the rules of which were adopted by the SEC and Nasdaq as listing standards and requirements. Under Nasdaq's rules, a "foreign private issuer" is subject to less stringent corporate governance and compliance requirements and subject to certain exceptions, Nasdaq permits a "foreign private issuer" to follow its home country's practice in lieu of the listing requirements of Nasdaq. Certain corporate governance practices in the Cayman Islands, which is New Semantix's home country, may differ significantly from Nasdaq corporate governance listing standards. Among other things, New Semantix is not required to have:

- a majority of the board of directors consisting of independent directors;
- a compensation committee consisting of independent directors;
- a nominating committee consisting of independent directors; or
- regularly scheduled executive sessions with only independent directors each year.

In addition, New Semantix will rely on the foreign private issuer exemption with respect to Nasdaq Rule 5635, which requires an issuer to obtain shareholder approval prior to an issuance of securities (in certain circumstances) in connection with certain events, including: (i) the acquisition of the stock or assets of another company; (ii) equity-based compensation of officers, directors, employees or consultants; (iii) a change of control; and (iv) private placements. Cayman Islands law does not require shareholder approval prior to an

issuance of securities to the extent the securities are authorized. Accordingly, New Semantix will follow Cayman Islands home country practice in reliance on the foreign private issuer exemption with respect to this rule.

Accordingly, New Semantix's shareholders may not receive the same protections afforded to shareholders of companies that are subject to all of Nasdaq's corporate governance requirements. In addition, New Semantix is an "emerging growth company" as defined in the Jumpstart Our Business Startups Act of 2012 and has elected to comply with certain reduced public company reporting requirements. For further details, see "*Risk Factors—Risks Related to New Semantix—As a foreign private issuer and an "emerging growth company" (as defined in the JOBS Act), New Semantix will have different disclosure and other requirements than U.S. domestic registrants and non-emerging growth companies that, to some extent, are more lenient and less frequent than those of U.S. domestic registrants and non-emerging growth companies.*"

EXECUTIVE COMPENSATION

Compensation of Directors and Executive Officers

In 2021 and 2020, Semantix paid an aggregate of R\$6.3 million and R\$3.6 million, respectively, in cash compensation to Semantix executive officers and directors as a group.

Semantix commenced awarding options to purchase Class A preferred shares of Semantix to certain of its executive officers, directors, employees and service providers in 2020. In 2021 and 2020, Semantix incurred R\$1.4 million and R\$0.9 million, respectively, of share-based compensation expense related to equity awards made by Semantix to its executive officers and directors. For information regarding options, see the section entitled “—*Share Incentive Plans.*”

Share Incentive Plans

New Semantix Legacy Plan

In February 2021, Semantix’s board of directors adopted the 2021 Plan, which was subsequently amended in November 2021. Concurrently with the adoption of the 2021 Plan, Semantix also terminated a previous stock option plan which had been adopted in 2020 and all equity awards under the previous stock option plan.

In total, the 2021 Plan provides for the issuance of up to 45,000 Class A preferred shares of Semantix. As of December 31, 2021, 20,400 Semantix Options had been granted under the 2021 Plan at a weighted average exercise price of R\$106.24 per share (of which 18,650 had been granted to Semantix’s executive officers, directors and other members of Semantix’s administrative, supervisory or management bodies at a weighted average exercise price of R\$115.20 per share). As of December 31, 2021, 21,337 Class A preferred shares of Semantix remained available to be awarded under the 2021 Plan, and 20,400 Semantix Options were outstanding (3,850 of which were vested and 16,550 remained unvested as of such date). Since December 31, 2021, no additional Semantix Options have been awarded and 1,625 Class A preferred shares of Semantix have been issued upon the exercise of Vested Semantix Options. As of the date of this proxy statement/prospectus, a total of 9,340 Semantix Options were outstanding (6,880 of which remained unvested as of such date). Semantix Options awarded under the 2021 Plan have a term of five years after the award date.

Prior to the consummation of the Business Combination, it is anticipated that the board of directors of New Semantix will adopt, and the New Semantix shareholders will approve the 2021 Plan, with effectiveness contingent on the consummation of the Business Combination (the “New Semantix Legacy Plan”). Following the consummation of the Business Combination, no further awards will be awarded under the New Semantix Legacy Plan. In connection with the Business Combination, all outstanding Vested Semantix Options under the 2021 Plan at the time of consummation of the Business Combination will be “net-exercised” in full for New Semantix Ordinary Shares, while all outstanding Unvested Semantix Options under the 2021 Plan at the time of consummation of the Business Combination will be converted into unvested options for New Semantix Ordinary Shares under the New Semantix Legacy Plan.

New Semantix 2022 Omnibus Incentive Plan

Prior to the consummation of the Business Combination, the board of directors of New Semantix will adopt, and the New Semantix shareholders will approve, the 2022 Plan, with effectiveness contingent on the consummation of the Business Combination. The following summarizes the material terms of the 2022 Plan, which is qualified in its entirety by the terms and conditions of the 2022 Plan, a copy of which is attached as Exhibit 10.9.

Eligibility and Administration. Officers, employees, consultants, partners and non-employee directors of New Semantix and its affiliates will be eligible to receive awards under the 2022 Plan.

New Semantix’s board of directors will administer the 2022 Plan unless they appoint a committee of directors to administer certain aspects of the 2022 Plan. The board of directors or committee administering the

2022 Plan is referred to herein as the “plan administrator.” Subject to applicable laws and regulations, the plan administrator is authorized to delegate its administrative authority under the 2022 Plan to an officer of New Semantix or other individual or group.

The plan administrator will have the authority to exercise all powers either specifically granted under the 2022 Plan or necessary and advisable in the administration of the 2022 Plan, including, without limitation: (i) to select those eligible recipients who will be granted awards; (ii) to determine whether and to what extent awards are to be granted hereunder to participants; (iii) to determine the number of New Semantix Ordinary Shares or cash to be covered by each award; (iv) to determine the terms and conditions, not inconsistent with the terms of the 2022 Plan, of each award granted thereunder; (v) to determine the terms and conditions, not inconsistent with the terms of the 2022 Plan, which govern all written instruments evidencing awards; (vi) to determine the fair market value in accordance with the terms of the 2022 Plan; (vii) to determine the duration and purpose of leaves of absence which may be granted to a participant without constituting termination of the participant’s employment, tenure or service for purposes of awards; (viii) to adopt, alter and repeal such administrative rules, guidelines and practices governing the 2022 Plan as it will from time to time deem advisable; (ix) to prescribe, amend and rescind rules and regulations relating to sub-plans established for the purpose of satisfying applicable foreign laws or qualifying for favorable tax treatment under applicable foreign laws, which rules and regulations may be set forth in an appendix or appendices to the 2022 Plan or the applicable award agreement; and (x) to construe and interpret the terms and provisions of the 2022 Plan and any award issued under the 2022 Plan (and any award agreement relating thereto), and to otherwise supervise the administration of the 2022 Plan and to exercise all powers and authorities either specifically granted under the 2022 Plan or necessary and advisable in the administration of the 2022 Plan.

Shares Available for Awards. The initial reserve of New Semantix Ordinary Shares for issuance under the 2022 Plan will equal approximately 10% of the Fully Diluted Shares (as such term is defined in the 2022 Plan) as of the consummation of the Business Combination (ordinary shares), as increased on the first day of each fiscal year of New Semantix beginning in the fiscal year immediately following the effective date of the 2022 Plan by a number of shares equal to the lesser of (x) a number equal to 2% of the Fully-Diluted Shares (as such term is defined in the 2022 Plan) on the final day of the immediately preceding fiscal year and (y) such smaller number of shares as is determined by New Semantix’s board of directors.

Shares issued under the 2022 Plan may consist of authorized but unissued or reacquired New Semantix Ordinary Shares. If any shares subject to an award are forfeited, cancelled, exchanged or surrendered or if an award otherwise terminates or expires without a distribution of shares to the participant, the shares with respect to such award will, to the extent of any such forfeiture, cancellation, exchange, surrender, termination or expiration, again be available for awards under the 2022 Plan. If an award under the 2022 Plan is paid or settled in cash, is exchanged or withheld as full or partial payment in connection with any option or share appreciation right (“SAR”), or is exchanged or withheld to satisfy the tax withholding obligations related to an award under the 2022 Plan, then any shares subject to such award may, to the extent of such cash settlement, exchange or withholding, be used again for new grants under the 2022 Plan. If an award under the 2022 Plan is forfeited, exchanged, surrendered, cancelled or expires, then any forfeited, exchanged, surrendered, cancelled or expired shares subject to such award may be used for new grants under the 2022 Plan. In addition, (i) to the extent an award is denominated in shares, but paid or settled in cash, the number of shares with respect to which such payment or settlement is made will again be available for grants of awards pursuant to the 2022 Plan and (ii) shares underlying awards that can only be settled in cash will not be counted against the aggregate number of ordinary shares available for awards under the 2022 Plan. For the sake of clarity, shares underlying awards outstanding under the New Semantix Legacy Plan that are forfeited, cancelled, exchanged or surrendered, or that expire or are otherwise settled in cash, will not again be available for awards under the 2022 Plan.

Awards that are assumed, converted, or substituted under the 2022 Plan as a result of New Semantix’s acquisition of another company (including by way of merger, combination or similar transactions) (each such award a “Substitute Award”) will not reduce the shares available for grant under the 2022 Plan.

The maximum amount of compensation awarded to a non-employee member of the New Semantix board of directors pursuant to an award under the 2022 Plan for service as a non-employee director for a calendar year, when aggregated with non-employee director cash fees, may not exceed \$750,000 (calculating the value of any such awards based on the grant date fair value of such awards for New Semantix's financial reporting purposes). This limitation will be increased to \$1,000,000 in total value (calculating the value of any such awards based on the grant date fair value of such awards for New Semantix's financial reporting purposes) for awards granted to non-employee directors of New Semantix in their initial calendar year of service as such on New Semantix's board of directors.

Equitable Adjustments. The 2022 Plan provides that, in the event of a merger, consolidation, reclassification, recapitalization, spin-off, spin-out, repurchase, reorganization, special or extraordinary dividend, combination or exchange of shares, change in corporate structure or a similar corporate event affecting the ordinary shares of New Semantix (in each case, a "Change in Capitalization"), the plan administrator will make, in its sole discretion, an equitable substitution or proportionate adjustment in (i) the number of ordinary shares reserved under the 2022 Plan, (ii) the kind and number of securities subject to, and the exercise price or base price of, any outstanding options and SARs granted under the 2022 Plan, (iii) the kind, number and purchase price of ordinary shares, or the amount of cash or amount or type of property, subject to outstanding restricted shares, restricted share units, share bonuses and other share-based awards granted under the 2022 Plan and (iv) the performance goals and performance periods applicable to any awards granted under the 2022 Plan. The plan administrator will make other equitable substitutions or adjustments as it determines in its sole discretion.

In addition, in the event of a Change in Capitalization (including a change in control, as described below), the plan administrator may cancel any outstanding awards for the payment of cash or in-kind consideration. However, if the exercise price or base price of any outstanding award is equal to or greater than the fair market value of New Semantix Ordinary Shares, cash or other property covered by such award, the New Semantix board of directors may cancel the award without the payment of any consideration to the participant.

Awards. The 2022 Plan provides for the grant of options (including incentive share options ("ISOs") and nonqualified share options), SARs, restricted shares, restricted share units ("RSUs"), other share-based awards, share bonuses, cash awards and substitute awards. Certain awards under the 2022 Plan may constitute or provide for payment of "nonqualified deferred compensation" under Section 409A of the Code, which may impose additional requirements on the terms and conditions of such awards. All awards under the 2022 Plan will be granted pursuant to an award agreement containing terms and conditions applicable to the award, including any applicable vesting and payment terms and post-termination exercise limitations. Awards other than ISOs can be granted to employees, consultants, and directors, but ISOs can be granted only to employees. No more than ordinary shares reserved for issuance under the 2022 Plan may be issued pursuant to the exercise of ISOs (subject to equitable adjustments).

Treatment of Outstanding Awards Upon a Change in Control. In the event that a "change in control" (as such term is defined in the 2022 Plan) occurs, each award granted under the 2022 Plan will continue to operate in accordance with its terms, subject to adjustment (including, without limitation, assumption or conversion into equivalent awards of the acquirer's equity) as described above with respect to Changes in Capitalization.

Except as provided in the applicable award agreement, if (i) a change in control occurs and (ii) either (x) an outstanding award is not assumed or substituted in connection with such change in control or (y) an outstanding award is assumed or substituted in connection with such change in control and a participant's employment or service is terminated without cause or by the participant for good reason (if applicable) within 12 months following the change in control, then (i) any unvested or unexercisable portion of an award carrying a right to exercise will become fully vested and exercisable and (ii) the restrictions, deferral limitations, payment conditions and forfeiture conditions applicable to any other award granted under the 2022 Plan will lapse, the awards will vest in full and any performance conditions will be deemed to be achieved at the greater of target or actual performance levels.

For purposes of the 2022 Plan, an outstanding award will be considered to be assumed or substituted for if, following the change in control, the award remains subject to the same terms and conditions that were applicable to the award immediately prior to the change in control except that, if the award related to ordinary shares, the award instead confers the right to receive common stock of the acquiring entity (or such other security or entity as may be determined by the plan administrator, in its sole discretion).

Amendment and Termination. The 2022 Plan provides that New Semantix's board of directors or plan administrator, if one is appointed, may amend, alter or terminate the 2022 Plan, or amend any outstanding awards, but participant consent is required if the action would adversely affect the participant's rights with respect to outstanding awards. Unless the New Semantix board of directors determines otherwise, shareholder approval of an amendment, alteration or termination will be obtained if required to comply with applicable law. The plan administrator may amend the terms of any award, prospectively or retroactively, so long as the amendment does not adversely affect the rights of any participant without the participant's consent.

Effective Date: Term. The 2022 Plan will become effective on the date of the consummation of the Business Combination, subject to (i) approval of the board of directors of New Semantix and the New Semantix shareholders and (ii) the consummation of the Business Combination. No award will be granted pursuant to the 2022 Plan on or after the tenth anniversary of the effective date of the 2022 Plan, but awards before such date will continue to remain outstanding in accordance with their terms.

DESCRIPTION OF NEW SEMANTIX SHARE CAPITAL

The following description of the material terms of the share capital of New Semantix following the Business Combination includes a summary of specified provisions of New Semantix's Articles that will be in effect upon the Closing of the Business Combination. This description is qualified by reference to New Semantix's Articles as will be in effect upon the Closing of the Business Combination, copies of which are attached to this proxy statement/prospectus and are incorporated in this proxy statement/prospectus by reference.

General

New Semantix is an exempted company incorporated with limited liability in the Cayman Islands. Its affairs are governed by its Articles and the Companies Act.

Upon the Closing of the Business Combination, the authorized share capital of New Semantix will be US\$287,500 consisting of 287,500,000 New Semantix Ordinary Shares, par value US\$0.001 per New Semantix Ordinary Share. As of the date of this proxy statement/prospectus, there was one New Semantix Ordinary Share issued and outstanding.

Shares

General

All of the issued and outstanding New Semantix Ordinary Shares are fully paid and non-assessable. Certificates (to the extent any are issued) representing the issued and outstanding New Semantix Ordinary Shares are generally not issued and legal title to the issued shares is recorded in fully registered, book-entry form in the register of members. Holders of New Semantix Ordinary Shares have no pre-emptive, subscription, redemption or conversion rights.

Register of Members

New Semantix must keep a register of members in accordance with the Companies Act, and there shall be entered therein:

- the names and addresses of the members, a statement of the shares held by each member, and of the amount paid or agreed to be considered as paid, on the shares of each member;
- the date on which the name of any person was entered on the register as a member; and
- the date on which any person ceased to be a member.

Under Cayman Islands law, the register of members is prima facie evidence of the matters set out therein (i.e. the register of members will raise a presumption of fact on the matters referred to above unless rebutted) and a member registered in the register of members is deemed as a matter of Cayman Islands law to have legal title to the shares as set against its name in the register of members. Upon the Closing of this Business Combination, the register of members will be immediately updated to record and give effect to the issue of shares by New Semantix. Once the register of members has been updated, the shareholders recorded in the register of members should be deemed to have legal title to the shares set against their name.

If the name of any person is incorrectly entered in or omitted from the register of members, or if there is any default or unnecessary delay in entering on the register the fact of any person having ceased to be a member of the company, the person or member aggrieved (or any member of the company or the company itself) may apply to the Cayman Islands Grand Court for an order that the register be rectified, and the Court may either refuse such application or it may, if satisfied of the justice of the case, make an order for the rectification of the register.

Issue of Shares

Subject to the Articles and the rules of Nasdaq, the board of directors of New Semantix may issue, allot and dispose of or grant options over all shares and issue warrants or similar instruments with respect thereto to such

persons, on such terms, and with or without preferred, deferred or other rights and restrictions, whether in regard to dividend, voting, return of capital or otherwise, and otherwise in such manner as they may think fit. Subject to the description in “—Variation of Rights of Shares” below, the issuance of any such shares is subject to and cannot adversely affect the rights of the holders of any existing shares of New Semantix.

Dividends

Subject to the Companies Act and the special rights attaching to shares of any class, the New Semantix directors may, in their absolute discretion, declare dividends on shares in issue and authorize payment of the dividends out of the funds of New Semantix lawfully available for those purposes. Dividends must be paid out of the realized or unrealized profits of New Semantix, out of New Semantix’s share premium account, or as otherwise permitted by the Companies Act. A dividend may not be paid if this would result in New Semantix being unable to pay its debts as they fall due in the ordinary course of business.

Except as otherwise provided by the rights attached to shares, or as otherwise determined by the directors, all dividends in respect of shares must be declared and paid according to the par value of the shares that a shareholder holds. If any share is issued on terms providing that it shall rank for dividend as from a particular date, then that share will rank for dividend accordingly.

For the purpose of determining the shareholders entitled to receive payment of any dividend the New Semantix, directors may either before or on the date of declaration of such dividend fix a date as the record date for such determination. If no record date is fixed for the determination of shareholders entitled to receive payment of a dividend, the date on which the resolution of the directors declaring such dividend is adopted will be the record date.

Voting Rights

Each New Semantix Ordinary Share entitles the holder to one vote on all matters upon which the holders are entitled to vote. Voting at any general meeting is by show of hands, unless voting by way of poll is demanded by the chairman of the board of directors or any shareholder present in person or by proxy.

General meetings require a quorum to be present. Quorum is met by the presence, in person or by proxy, of one or more persons holding at least twenty per cent in par value of the issued New Semantix Ordinary Shares that confer the right to attend and vote at that meeting.

A special resolution will be required for important matters such as a reduction of New Semantix’s share capital, registration by way of continuation, approval of a plan of merger or consolidation, making changes to the Articles, or the voluntary winding up of New Semantix.

An ordinary resolution of the shareholders of New Semantix requires the affirmative vote of at least a simple majority of the votes cast at a quorate general meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes cast at a quorate general meeting. Any action required or permitted to be taken at a general meeting of New Semantix may be taken by resolution in writing of all the shareholders.

Variation of Rights of Shares

All or any of the rights attached to any class of shares of New Semantix (unless otherwise provided by the terms of issue of the shares of that class) may, whether or not New Semantix is being wound up, be varied without the consent of the holders of the issued shares of that class where such variation is considered by New Semantix’s board of directors not to have a material adverse effect upon such rights; otherwise, any such variation shall be made only with the consent in writing of the holders of not less than two thirds of the issued shares of that class, or with the sanction of a resolution passed by a majority of not less than two thirds of the votes cast at a separate meeting of the holders of the shares of that class.

Transfer of Ordinary Shares

Any shareholder may transfer all or any of his or her shares by an instrument of transfer in the usual or common form or any other form prescribed by the Nasdaq or as otherwise approved by the board of directors. The transferor shall be deemed to remain the holder of such shares until the name of the transferee is entered in the register of members.

Redemption of Ordinary Shares

New Semantix may issue shares on terms that such shares are subject to redemption, at the option of New Semantix or at the option of the shareholder, on such terms and in such manner as may be determined by the board of directors of New Semantix, before the issue of such shares. New Semantix may also repurchase any of its shares provided that the manner and terms of such purchase have been approved by its board of directors and agreed with the shareholder or are otherwise authorized by its Articles. Subject to the Companies Act, the redemption or repurchase of any share may be paid out of a company's profits, its capital, or out of the proceeds of a fresh issue of shares made for the purpose of such redemption or repurchase. In addition, under the Companies Act no such share may be redeemed or repurchased (i) unless it is fully paid-up, (ii) if such redemption or repurchase would result in there being no shares in issue, or (iii) if the company has commenced liquidation. In addition, New Semantix may accept the surrender of any fully paid share for no consideration.

Changes in Capital

New Semantix may from time to time by ordinary resolution:

- increase the share capital by such sum as the resolution prescribes;
- consolidate and divide all or any of its share capital into shares of a larger amount than its existing shares;
- convert all or any of its paid-up shares into stock and reconvert that stock into paid-up shares of any denomination;
- sub-divide its existing shares into shares of a smaller amount than that fixed by its Articles or into shares without par value; and
- cancel any shares that at the date of the passing of the resolution have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.

Subject to the Companies Act and its Articles, New Semantix's shareholders may by special resolution reduce its share capital.

Liquidation

On a winding up of New Semantix, if the assets available for distribution among its shareholders shall be insufficient to repay all of the paid-up capital, the assets will be distributed so that, as nearly as may be, the losses are borne by its shareholders in proportion to the par value of the shares held by them. If the assets available for distribution among its shareholders shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the surplus will be distributed among its shareholders in proportion to the par value of the shares held by them at the commencement of the winding up, subject to a deduction from those shares in respect of which there are monies due, of all monies payable to New Semantix for unpaid calls or otherwise.

Directors

Appointment and Removal

The management of New Semantix is vested in a board of directors. The Articles provide that there shall be a board of directors consisting of no less than one (1) director, provided that the directors may increase or decrease the limits on the number of directors. We expect that upon the Closing of the Business Combination, the board of directors will consist of seven (7) directors and will have no vacancy.

For so long as the Shareholders Agreement remains in force and effect, the directors must be divided into three (3) classes designated as Class I, Class II and Class III, with as nearly equal a number of directors in each group as possible. Subject to Articles and the Shareholders Agreement, directors must be assigned to each class in accordance with a resolution or resolutions adopted by the board of directors.

Director nominees must be elected by an ordinary resolution in accordance with the Articles and the Shareholders Agreement at each annual general meeting of New Semantix to fill the seats of those directors whose terms expire at such annual general meeting and the persons to stand for election at each annual general meeting of New Semantix shall be nominated by the directors. At the 2023 annual general meeting, the term of office of the Class I directors shall expire and Class I directors shall be elected for a full term of three (3) years. At the 2024 annual general meeting, the term of office of the Class II directors shall expire and Class II directors shall be elected for a full term of three (3) years. At the 2025 annual general meeting, the term of office of the Class III directors shall expire and Class III directors shall be elected for a full term of three (3) years. Subject to the Articles and Shareholders Agreement, at each succeeding annual general meeting, directors shall be elected for a full term of three (3) years to succeed the directors of the class whose terms expire at such annual general meeting.

Without prejudice to the power of New Semantix to appoint a person to be a director by ordinary resolution and subject to the Articles, the board of directors, so long as a quorum of directors remains in office, has the power at any time and from time to time to appoint any person to be a director so as to fill a casual vacancy or otherwise.

Indemnity of Directors and Officers

In accordance with the Articles, every director and officer of New Semantix must be indemnified out of the assets of New Semantix against any liability incurred by that director or officer as a result of any act or failure to act in carrying out their functions, except for any such liability that the director or officer may incur by their own actual fraud or willful default.

In accordance with the Articles, New Semantix must purchase directors' and officers' liability insurance from time to time in an amount determined by the board of directors to be reasonable and customary and must maintain such coverage for so long as each director nominated pursuant to the Articles serves as a director of New Semantix. New Semantix must use commercially reasonable efforts to extend such coverage for a period of not less than six (6) years from any removal or resignation of such director, in respect of any act or omission occurring at or prior to such event.

Certain Anti-Takeover Provisions in New Semantix's Articles

As described in "—Directors" above, New Semantix's Articles provide that, for so long as the Shareholders Agreement remains in force and effect, New Semantix's board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of New Semantix's board only by successfully engaging in a proxy contest at two or more annual general meetings.

New Semantix's authorized but unissued New Semantix Ordinary Shares are available for future issuances without shareholder approval and could be utilized for a variety of corporate purposes, including future offerings

to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved New Semantix Ordinary Shares could render more difficult or discourage an attempt to obtain control of New Semantix by means of a proxy contest, tender offer, merger or otherwise.

Enforcement of Civil Liabilities – Cayman Islands

The Cayman Islands has a different body of securities laws as compared to the United States and provides less protection to investors. Additionally, Cayman Islands companies may not have standing to sue before the Federal courts of the United States.

New Semantix's Cayman Islands legal counsel have advised that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against the company judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against the company predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

Anti-Money Laundering – Cayman Islands

If any person in the Cayman Islands knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or money laundering or is involved with terrorism or terrorist financing and property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority of the Cayman Islands, pursuant to the Proceeds of Crime Act (as amended) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering, or (ii) a police officer of the rank of constable or higher, or the Financial Reporting Authority, pursuant to the Terrorism Act (as amended) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise.

PRICE RANGE OF SECURITIES AND DIVIDENDS

Alpha

Price Range of Alpha Securities

Alpha's units, Alpha Class A Ordinary Shares and public warrants are currently listed on the Nasdaq under the symbols "ASCPU," "ASCP," and "ASCPW," respectively. Holders of the Alpha units, Alpha Class A Ordinary Shares and public warrants should obtain current market quotations for their securities. The market price of Alpha's securities could vary at any time before the Business Combination.

Holders

As of the date of this proxy statement/prospectus, there was one holder of record of our units, one holder of record of our Alpha Class A Ordinary Shares, one holder of record of our Alpha Class B Ordinary Shares and one holder of record of our public warrants. The number of holders of record does not include a substantially greater number of "street name" holders or beneficial holders whose units, Class A ordinary shares and warrants are held of record by banks, brokers and other financial institutions.

Dividend Policy

Alpha has not paid any cash dividends on its Alpha Ordinary Shares to date and does not intend to pay any cash dividends prior to the completion of the Business Combination. The payment of cash dividends in the future will be dependent upon New Semantix revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of the Business Combination. The payment of any cash dividends subsequent to the Business Combination will be within the discretion of New Semantix's Board of Directors at such time.

Semantix

Historical market price information for Semantix's share capital is not provided because there is no public market for Semantix's share capital. See "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Semantix.*"

SHARES ELIGIBLE FOR FUTURE SALE

Upon completion of this offering, New Semantix will have 287,500,000 New Semantix Ordinary Shares authorized and, based on the assumptions set out elsewhere in this proxy statement/prospectus, up to 100,114,500 New Semantix Ordinary Shares issued and outstanding, assuming no public shares are redeemed in connection with the Business Combination. All of the New Semantix Ordinary Shares issued in connection with the Business Combination will be freely transferable by persons other than by New Semantix's "affiliates" or Alpha's "affiliates" without restriction or further registration under the Securities Act. Sales of substantial amounts of the New Semantix Ordinary Shares in the public market could adversely affect prevailing market prices of the New Semantix Ordinary Shares. Prior to the Business Combination, there has been no public market for New Semantix Ordinary Shares. New Semantix has applied for listing of the New Semantix Ordinary Shares on the Nasdaq, but New Semantix cannot assure you that a regular trading market will develop in the New Semantix Ordinary Shares.

Lock-up Agreements

Concurrently with the execution and delivery of the Business Combination Agreement, New Semantix, Alpha and the Semantix shareholders have entered into the Lock-up Agreement, pursuant to which, the Semantix shareholders agreed, among other things, to certain transfer restrictions on the New Semantix Ordinary Shares to be issued to such Semantix shareholders for a period of six months following the Closing Date, subject to the following exceptions of permitted transfers (i) if such New Semantix shareholder is not an individual or a trust, to any of its officers or directors, affiliates and its employees or any family member of any of its officers or directors, any affiliate or family member of any of its officers or directors, any affiliate of its controlling shareholder or to any members of its controlling shareholder or any of their affiliates, or (ii) if such New Semantix shareholder is an individual or a trust, (A) by virtue of laws of descent and distribution upon death of the individual, (B) pursuant to a qualified domestic relations order, (C) to any member of such New Semantix shareholder's immediate family or any trust for the direct or indirect benefit of such Semantix Shareholder or the immediate family of such New Semantix shareholder, an affiliate of such individual or to a charitable organization or (D) by private sales or Transfers (as defined in the Lock-up Agreement) made in connection with any forward purchase agreement or similar arrangement; provided, however, that (x) such New Semantix shareholder shall, and shall cause any such transferee of his, her or its Lock-up Shares (as defined in the Lock-up Agreement), to enter into a written agreement, in form and substance reasonably satisfactory to Alpha, agreeing to be bound by the Lock-up Agreement prior and as a condition to the occurrence of such Transfer, and that such transferee shall receive and hold the Lock-Up Shares subject to the provisions of the Lock-up Agreement applicable to the transferring New Semantix shareholder, and there shall be no further Transfer of such Lock-Up Shares except in accordance with the terms of the Lock-up Agreement.

On June 13, 2022, Alpha granted its consent under the Lock-up Agreement to allow Leonardo dos Santos Poça D'Água to pledge a certain amount of his New Semantix Ordinary Shares as collateral in order to obtain financing from a third-party financial institution other than New Semantix, Semantix, Alpha or a related person thereof (as such item is used in Item 404 of Regulation S-K) to acquire (i) New Semantix Ordinary Shares beneficially owned by either Cumorah Group Ltd., which is the investment vehicle owned by Leandro dos Santos Poça D'Água, or ETZ Chaim Investments Ltd., which is the investment vehicle owned by Leonardo Augusto Oliveira Dias, pursuant to the call option contained in the Exchange Agreement, and (ii) New Semantix Ordinary Shares beneficially owned by Livia Ricardi de Almeida Poça D'Água, who is the ex-wife of Leandro dos Santos Poça D'Água, pursuant to the right of first refusal contractually held by Leonardo dos Santos Poça D'Água over such New Semantix Ordinary Shares. For additional information, see "*Security Ownership of Certain Beneficial Owners and Management—Semantix Founders Post-Closing Share Transfer*."

Regulation S

Regulation S under the Securities Act provides an exemption from registration requirements in the United States for offers and sales of securities that occur outside the United States. Rule 903 of Regulation S provides

the conditions to the exemption for a sale by an issuer, a distributor, their respective affiliates or anyone acting on their behalf, while Rule 904 of Regulation S provides the conditions to the exemption for a resale by persons other than those covered by Rule 903. In each case, any sale must be completed in an offshore transaction, as that term is defined in Regulation S, and no directed selling efforts, as that term is defined in Regulation S, may be made in the United States.

New Semantix is a foreign issuer as defined in Regulation S. As a foreign issuer, securities that New Semantix sells outside the United States pursuant to Regulation S are not considered to be restricted securities under the Securities Act, and, subject to the offering restrictions imposed by Rule 903, are freely tradable without registration or restrictions under the Securities Act, unless the securities are held by New Semantix's affiliates. Generally, subject to certain limitations, holders of New Semantix's restricted shares who are not affiliates of New Semantix or who are affiliates of New Semantix by virtue of their status as an officer or director of New Semantix may, under Regulation S, resell their restricted shares in an "offshore transaction" if none of the seller, its affiliate nor any person acting on their behalf engages in directed selling efforts in the United States and, in the case of a sale of New Semantix restricted shares by an officer or director who is an affiliate of New Semantix solely by virtue of holding such position, no selling commission, fee or other remuneration is paid in connection with the offer or sale other than the usual and customary broker's commission that would be received by a person executing such transaction as agent. Additional restrictions are applicable to a holder of New Semantix restricted shares who will be an affiliate of New Semantix other than by virtue of his or her status as an officer or director of New Semantix.

New Semantix is not claiming the potential exemption offered by Regulation S in connection with the offering of newly issued shares outside the United States and will register all of the newly issued shares under the Securities Act.

Rule 144

All of New Semantix's equity shares that will be outstanding upon the completion of the Business Combination, other than those equity shares sold in connection with the Business Combination, are "restricted securities" as that term is defined in Rule 144 under the Securities Act and may be sold publicly in the United States only if they are subject to an effective registration statement under the Securities Act or pursuant to an exemption from the registration requirement such as those provided by Rule 144 and Rule 701 promulgated under the Securities Act. In general, beginning 90 days after the date of this proxy statement/prospectus, a person (or persons whose shares are aggregated) who, at the time of a sale, is not, and has not been during the three months preceding the sale, an affiliate of New Semantix and has beneficially owned New Semantix's restricted securities for at least six months will be entitled to sell the restricted securities without registration under the Securities Act, subject only to the availability of current public information about New Semantix.

Persons who are affiliates of New Semantix and have beneficially owned New Semantix's restricted securities for at least six months would be subject to additional restrictions, by which such person may sell only a number of restricted securities within any three-month period that does not exceed the greater of the following:

- 1% of the then outstanding equity shares of the same class which, immediately after the Business Combination, will equal New Semantix Ordinary Shares; or
- the average weekly trading volume of New Semantix's Ordinary Shares of the same class during the four calendar weeks preceding the date on which notice of the sale is filed with the SEC.

Sales by affiliates of New Semantix under Rule 144 are also subject to certain requirements relating to manner of sale, notice and the availability of current public information about New Semantix.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials); and
- at least one year has elapsed from the time that the issuer filed current Form 20-F type information with the SEC reflecting its status as an entity that is not a shell company.

Rule 701

In general, under Rule 701 of the Securities Act, each of Semantix's employees, consultants or advisors who purchases equity shares from New Semantix in connection with a compensatory stock plan or other written agreement executed prior to the completion of the Business Combination is eligible to resell those equity shares in reliance on Rule 144, but without compliance with some of the restrictions, including the holding period, contained in Rule 144. However, the Rule 701 shares would remain subject to lock-up arrangements and would only become eligible for sale when the lock-up period expires.

Registration Rights

At the consummation of the Business Combination, New Semantix, the Sponsor and certain persons named therein will enter into an amended and restated registration rights agreement, pursuant to which that certain Registration Rights Agreement will be amended and restated in its entirety, as of the Closing. As a result, the holders of registrable securities will be able to make a written demand for registration under the Securities Act of all or a portion of their registrable securities, subject to certain limitations so long as such demand includes a number of registrable securities with a total offering price in excess of \$30 million. Any such demand may be in the form of an underwritten offering, it being understood that, subject to certain exceptions, New Semantix shall not be required to conduct more than an aggregate total of six underwritten offerings in any 12-month period. In addition, the holders of registrable securities will have "piggy-back" registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing. New Semantix has also agreed to file with the SEC a resale shelf registration statement covering the resale of all registrable securities within 30 days of the Closing, to be declared effective within 90 days of the Closing.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table shows information known to us regarding (i) the actual beneficial ownership of Alpha Ordinary Shares as of June 13, 2022 prior to the consummation of the Business Combination and (ii) the expected beneficial ownership of New Semantix Ordinary Shares immediately following consummation of the Business Combination by:

- each person known by Alpha to beneficially own more than 5% of the outstanding shares of Alpha Ordinary Shares immediately prior to the consummation of the Business Combination and each person expected to beneficially own more than 5% of the New Semantix Ordinary Shares immediately after the consummation of the Business Combination;
- each of Alpha's current executive officers and directors; and
- all executive officers and directors of Alpha as a group pre-Business Combination and all expected directors and officers of New Semantix as a group post-Business Combination.

Beneficial ownership is determined according to the rules of the SEC, which generally provide that a person has beneficial ownership of a security if he, she or it possesses sole or shared voting or investment power over that security, including options and warrants that are currently exercisable or exercisable within 60 days.

Pursuant to the Existing Governing Documents, each Alpha Ordinary Share entitles the holder to one vote per share. Pursuant to the Articles, each New Semantix Ordinary Share will entitle the holder to one vote on all matters upon which the holders are entitled to vote. Unless otherwise indicated, Alpha believes that all persons named in the table have sole voting and investment power with respect to all shares beneficially owned by them.

The calculation of the pre-Business Combination percentage of beneficial ownership is based on 28,750,000 Alpha Ordinary Shares outstanding on June 13, 2022, of which 23,000,000 are Alpha Class A Ordinary Shares and 5,750,000 are Alpha Class B Ordinary Shares held by Alpha's Sponsor.

The expected beneficial ownership of New Semantix Ordinary Shares immediately following the consummation of the Business Combination assumes consummation of the PIPE Financing and also assumes two alternative scenarios:

- a "no redemption" scenario where no Alpha shareholders exercise redemption rights with respect to their public shares. Also assumes that a minimum of \$230.3 (which was the approximate value of the Trust Account as of June 13, 2022) of cash would be held in the Trust Account, including the aggregate amount of the PIPE Investment, in satisfaction of the Minimum Available Cash Condition; and
- a "maximum redemption" scenario where 20,700,000 outstanding public shares are redeemed in connection with the Business Combination on a per share redemption price of \$10.00 per share, after considering the 2,300,000 public shares not subject to redemption pursuant to the Shareholder Non-Redemption Agreement. Also assumes that, after giving effect to the payments to the redeeming Alpha public shareholders in this maximum redemption scenario, a minimum of \$85,000,000 of cash would be held in the Trust Account, including the net amount of proceeds actually paid to Alpha upon consummation of the PIPE Investment, in satisfaction of the Minimum Available Cash Condition.

The expected beneficial ownership of New Semantix Ordinary Shares post-Business Combination is based on (i) 100,114,500 New Semantix Ordinary Shares issued and outstanding, assuming no redemption of public shares and (ii) 79,414,500 New Semantix Ordinary Shares issued and outstanding, assuming maximum redemption.

The expected beneficial ownership percentages set forth below do not take into account (i) equity awards issued at Closing upon rollover of the Unvested Semantix Options which are not expected to become exercisable within 60 days as of June 13, 2022 and (ii) up to 2,500,000 Semantix Earn-Out Shares that may be issued in accordance with, and subject to, the terms and conditions of the Business Combination Agreement but take into

Table of Contents

account (A) New Semantix Warrants, which will become exercisable within 30 days after the Closing, (B) the Alpha Class B Ordinary Shares, which at Closing will convert on a one-for-one basis into New Semantix Ordinary Shares, including 862,500 Alpha Earn-Out Shares subject to vesting requirements under the Sponsor Letter Agreement but which, prior to vesting or forfeiture, entitle the holder to all rights of other New Semantix Ordinary Shares (other than the right to receive dividends), including the right to vote, (C) Vested Semantix Options under the 2021 Plan, and (D) equity awards issued at Closing upon rollover of the Unvested Semantix Options which are expected to become exercisable within 60 days of June 13, 2022.

- (1) Unless otherwise noted, the business address of each of the persons and entities listed above is 1230 Avenue of the Americas, 16th Floor, New York, NY 10020.
- (2) Alpha Capital Sponsor LLC is the record holder of such shares, and Alpha Capital Sponsor LLC is controlled by a board of managers consisting of Alec Oxenford, Rafael Steinhauser and Rahim Lakhani. Each manager of Alpha Capital Sponsor LLC has one vote, and the approval of two of the three members of the board of managers is required to approve an action of Alpha Capital Sponsor LLC. Under the so-called “rule of three,” if voting and dispositive decisions regarding an entity’s securities are made by two or more individuals, and a voting and dispositive decision requires the approval of a majority of those individuals, then none of the individuals is deemed a beneficial owner of the entity’s securities. This is the situation with regard to Alpha Capital Sponsor LLC. Based upon the foregoing analysis, no individual manager of Alpha Capital Sponsor LLC exercises voting or dispositive control over any of the securities held by Alpha Capital Sponsor LLC even those in which he directly holds a pecuniary interest. Accordingly, none of them will be deemed to have or share beneficial ownership of such shares and, for the avoidance of doubt, each expressly disclaims any such beneficial interest to the extent of any pecuniary interest he may have therein, directly or indirectly. Additionally, because Alpha’s co-sponsors, who are members of Alpha Capital Sponsor LLC, do not exercise voting or dispositive control over any of the securities held by Alpha Capital Sponsor LLC, they will not be deemed to have or share beneficial ownership of such shares, and for the avoidance of doubt, each expressly disclaims any such beneficial interest except to the extent of any pecuniary interest they may have therein, directly or indirectly.
- (3) Innova Capital SPAC LP, a Cayman Islands exempted limited partnership, is the record holder of such shares, and Innovatech Ltd., a Cayman Islands company, serves as the general partner of Innova Capital SPAC LP. Veronica Allende Serra serves as a director of Innovatech Ltd. and, accordingly, shares voting and investment discretion with respect to the shares held of record by Innova Capital SPAC LP and may be deemed to have shared beneficial ownership of such shares directly held by Innova Capital SPAC LP. Ms. Serra disclaims any beneficial ownership of the reported shares other than to the extent of any pecuniary interest they may have therein, directly or indirectly. The business address of each of Innova Capital SPAC LP and Innovatech Ltd. is Edificio Os Bandeirantes - Av. Brg. Faria Lima, 2179 - Jardins, São Paulo - SP, 01450-010, Brazil.

(“SCHC”), Sculptor Capital Management, Inc. (“SCU”), Sculptor Master Fund, Ltd. (“SCMF”), Sculptor Special Funding, LP (“NRMD”) and Sculptor Enhanced Master Fund, Ltd. (“SCEN”). Sculptor, a Delaware limited partnership, is the principal investment manager to a number of private funds and discretionary accounts and thus may be deemed to be the beneficial owner of the Alpha Class A Ordinary Shares in the accounts managed by Sculptor. SCHC, a Delaware corporation, serves as the sole general partner of Sculptor. As such, SCHC may be deemed to control Sculptor and, therefore, may be deemed to be the beneficial owner of the Alpha Class A Ordinary Shares. SCU, a Delaware limited liability company, is a holding company that is the sole shareholder of SCHC, and may be deemed to be the beneficial owner of the Alpha Class A Ordinary Shares. Semantix Founders Post-Closing Share Transfer

On June 7, 2022, 50% of the shares issued by Cumorah Group Ltd., the investment vehicle owned by Leandro dos Santos Poça D'Água, a co-founder of Semantix and brother of our CEO, was transferred to Livia Ricardi de Almeida Poça D'Água, who is the ex-wife of Leandro dos Santos Poça D'Água. After the Closing of the Business Combination, it is expected that 50.0% of the New Semantix Ordinary Shares to be held by Cumorah Group Ltd., corresponding to approximately 5.0% of the New Semantix Ordinary Shares issued and outstanding immediately after the consummation of the Business Combination assuming no redemptions, will be transferred to an investment vehicle owned by Livia Ricardi de Almeida Poça D'Água. As a result of the transfer of such New Semantix Ordinary Shares, Leonardo dos Santos Poça D'Água will no longer be deemed to exercise voting power over the New Semantix Ordinary Shares beneficially owned by Livia Ricardi de Almeida Poça D'Água, nor will he have a call option over such New Semantix Ordinary Shares. However, the New Semantix Ordinary Shares to be beneficially owned by Livia Ricardi de Almeida Poça D'Água will remain subject to the provisions of the Lock-up Agreement and Leonardo dos Santos Poça D'Água will have a right of first refusal over such New Semantix Ordinary Shares.

On June 13, 2022, Alpha granted its consent under the Lock-up Agreement to allow Leonardo dos Santos Poça D'Água to pledge a certain amount of his New Semantix Ordinary Shares as collateral in order to obtain financing from a third-party financial institution other than New Semantix, Semantix, Alpha or a related person thereof (as such item is used in Item 404 of Regulation S-K) to acquire (i) New Semantix Ordinary Shares beneficially owned by either Cumorah Group Ltd. or ETZ Chaim Investments Ltd., which is the investment vehicle owned by Leonardo Augusto Oliveira Dias, pursuant to the call option contained in the Exchange Agreement, and (ii) New Semantix Ordinary Shares beneficially owned by Livia Ricardi de Almeida Poça D'Água, pursuant to the right of first refusal contractually held by Leonardo dos Santos Poça D'Água over such New Semantix Ordinary Shares.

Registration Rights Agreement

At the consummation of the Business Combination, New Semantix, the Sponsor and certain persons named therein will enter into the A&R Registration Rights Agreement, pursuant to which that certain Registration Rights Agreement will be amended and restated in its entirety, as of the Closing. As a result, the holders of registrable securities will be able to make a written demand for registration under the Securities Act of all or a portion of their registrable securities, subject to certain limitations so long as such demand includes a number of registrable securities with a total offering price in excess of \$30 million. Any such demand may be in the form of an underwritten offering, it being understood that, subject to certain exceptions, New Semantix shall not be required to conduct more than an aggregate total of six underwritten offerings in any 12-month period. In addition, the holders of registrable securities will have “piggy-back” registration rights to include their securities in other registration statements filed by New Semantix subsequent to the Closing. New Semantix has also agreed to file with the SEC a resale shelf registration statement covering the resale of all registrable securities within 30 days of the Closing, to be declared effective within 90 days of the Closing.

Enforceability of Civil Liabilities Under U.S. Securities Laws

New Semantix is an exempted company incorporated under the laws of the Cayman Islands with limited liability. A majority of the directors and executive officers of New Semantix, and certain of the experts named in this proxy statement/prospectus are residents of non-United States jurisdictions and all or a substantial portion of the assets of such persons are located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon such persons with respect to matters arising under the Securities Act or to enforce against them, in original actions or in actions for enforcement of judgments of United States courts, liabilities predicated upon the United States federal securities laws.

New Semantix has been advised by its Cayman Islands legal counsel, Maples and Calder (Cayman) LLP, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against New Semantix judgments of courts of the United States predicated upon the civil liability provisions of the securities laws of the United States or any State; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against New Semantix predicated upon the civil liability provisions of the securities laws of the United States or any State, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty,

inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere. There is Privy Council authority (the decisions of which Court are binding on the Cayman Islands Court) in the context of a reorganization plan approved by the New York Bankruptcy Court which suggests that due to the universal nature of bankruptcy/insolvency proceedings, foreign money judgments obtained in foreign bankruptcy/insolvency proceedings may be capable of being enforced without applying the principles outlined above, subject to the limitations of the domestic Court's insolvency regime. However, subsequent English Supreme Court authority (which is highly persuasive but not binding on the Cayman Islands Court), has expressly rejected that approach in the context of a default judgment obtained in an adversary proceeding brought in the New York Bankruptcy Court by the receivers of the bankruptcy debtor against a third party, and which would not have been enforceable upon the application of the traditional common law principles summarized above and held that foreign money judgments obtained in bankruptcy/insolvency proceedings should, in appropriate circumstances, be enforced by applying the principles set out above, and not for instance by the simple exercise of the Courts' discretion. Those cases have been considered by the Cayman Islands Court. The Cayman Islands Court was not asked to consider the specific question of whether a judgment of a foreign bankruptcy court in an adversary proceeding would be enforceable in the Cayman Islands, but it did endorse the need for the provision of active assistance of overseas bankruptcy proceedings. New Semantix understands that the Cayman Islands Court's decision in that case has been appealed and it remains the case that the law regarding the enforcement of bankruptcy/insolvency related judgments is still in a state of uncertainty.

Legal Matters

The validity of the New Semantix Ordinary Shares to be issued in connection with the Business Combination will be passed upon by Maples and Calder (Cayman) LLP, Cayman Islands counsel to New Semantix.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of
Alpha Capital Acquisition Company

Opinion on the Financial Statements

We have audited the accompanying balance sheets of Alpha Capital Acquisition Company (the “Company”) as of December 31, 2021 and 2020, the related statements of operations, changes in shareholders’ deficit and cash flows for the year ended December 31, 2021 and the period from December 10, 2020 (inception) through December 31, 2020, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the year ended December 31, 2021 and the period from December 10, 2020 (inception) through December 31, 2020), in conformity with accounting principles generally accepted in the United States of America.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, if the Company is unable to raise additional funds to alleviate liquidity needs and complete a business combination by February 23, 2023, then the Company will cease all operations except for the purpose of liquidating. The liquidity condition and date for mandatory liquidation and subsequent dissolution raise substantial doubt about the Company’s ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Company’s auditor since 2020.

**ALPHA CAPITAL ACQUISITION COMPANY
NOTES TO FINANCIAL STATEMENTS**

Note 1 — Organization and Business Operations

Organization and General

Alpha Capital Acquisition Company (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on December 10, 2020. The Company was incorporated for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a “Business Combination”). The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of December 31, 2021, the Company had not commenced any operations. All activity for the period from December 10, 2020 (inception) through December 31, 2021 relates to the Company’s formation and the Initial Public Offering (“IPO”) described below, and since the closing of the IPO, the search for a prospective initial Business Combination. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the IPO and will recognize changes in the fair value of warrant liabilities as other income (expense).

The Company’s sponsor is Alpha Capital Sponsor LLC, a Cayman Islands limited liability company (the “Sponsor”).

Financing

The registration statement for the Company’s IPO was declared effective on February 18, 2021 (the “Effective Date”). On February 23, 2021, the Company consummated the IPO of 23,000,000 units, including the issuance of 3,000,000 units as a result of the underwriters’ full exercise of the over-allotment option (the “Units” and, with respect to the ordinary shares included in the Units being offered, the “Public Shares”), at \$10.00 per Unit, generating gross proceeds of \$230,000,000, which is discussed in Note 3.

Simultaneously with the closing of the IPO, the Company consummated the sale of 7,000,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant in a private placement to the Sponsor, generating gross proceeds of \$7,000,000, which is discussed in Note 4.

Transaction costs amounted to \$13,132,346 consisting of \$4,600,000 of underwriting discount, \$8,050,000 of deferred underwriting discount, and \$482,346 of other offering costs.

Trust Account

Following the closing of the IPO on February 23, 2021, \$230,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the IPO and the sale of the Private Placement Warrants was placed in a Trust Account, which can only be invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less in money market funds meeting certain conditions under Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earliest of: (i) the completion of a Business Combination and (ii) the redemption of any Public Shares properly submitted in connection with a shareholder vote to amend the Company’s amended and restated memorandum and articles of association or (iii) absent an initial Business Combination within 24 months from the closing of the IPO (the “Combination Period”), the Company’s return of the funds held in the Trust Account to the Company’s public shareholders as part of the redemption of the Public Shares.

Initial Business Combination

The stock exchange listing rules require that the Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the assets held in the Trust Account (excluding the amount of deferred underwriting commissions held in the Trust Account) at the time of the Company's signing a definitive agreement in connection with the initial Business Combination. The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company will provide the holders of the Public Shares (the "Public Shareholders") with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of the Business Combination, either (i) in connection with a general meeting called to approve the Business Combination or (ii) without a shareholder vote by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a proposed Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem all or a portion of their Public Shares upon the completion of the initial Business Combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account calculated as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its taxes, divided by the number of then outstanding Public Shares, subject to the limitations and on the conditions described herein. The amount in the Trust Account is initially \$10.00 per public share. There will be no redemption rights upon the completion of a Business Combination with respect to the Company's warrants. The Class A ordinary shares were recorded at redemption value and classified as temporary equity upon the completion of the IPO, in accordance with Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity."

The Company will proceed with a Business Combination only if the Company has net tangible assets of at least \$5,000,001 and, if the Company submits its initial Business Combination to its public shareholders for a vote, the Company will complete its initial Business Combination only if it receives an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the company. If a shareholder vote is not required and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association, conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission ("SEC"), and file tender offer documents with the SEC prior to completing a Business Combination. If the Company seeks shareholder approval in connection with a Business Combination, the Sponsor, officers and directors have agreed to vote their Founder Shares and any Public Shares purchased during or after the IPO in favor of approving a Business Combination. Additionally, each Public Shareholder may elect to redeem their Public Shares, irrespective of whether they vote for or against a proposed Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of the Business Combination and the Company does not conduct redemptions in connection with the initial Business Combination pursuant to the tender offer rules, the Company's amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in the IPO without the Company's prior consent.

The Sponsor, officers and directors have agreed (a) to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of a Business Combination, and (b) waive their

[Table of Contents](#)

redemption rights with respect to their Founder Shares and Public Shares in connection with a shareholder vote to approve an amendment to the Company's amended and restated memorandum and articles of association, (c) waive their rights to liquidating distributions from the Trust Account with respect to their Founder Shares if the Company fails to complete the initial Business Combination within the Combination Period, although they will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares they hold if the Company fails to complete a initial Business Combination within the Combination Period and (d) vote any Founder Shares held by them and any Public Shares purchased during or after the IPO (including in open market and privately-negotiated transactions) in favor of the initial Business Combination.

The Company will have until 24 months from the closing of the IPO to consummate a Business Combination. However, if the Company has not completed a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (less taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then issued and outstanding Public Shares, which redemption will completely extinguish the rights of the Public Shareholders as shareholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining shareholders and its Board of Directors, liquidate and dissolve, subject in each case of clauses (ii) and (iii), to the Company's obligations under Cayman Islands law to provide for claims of creditors and in all cases subject to the other requirements of applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

In order to protect the amounts held in the Trust Account, the Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party (other than the Company's independent registered public accounting firm) for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per Public Share, due to reductions in the value of trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act. However, the Company has not asked its Sponsor to reserve for such indemnification obligations, nor has the Company independently verified whether its Sponsor has sufficient funds to satisfy its indemnity obligations and the Company believes that the Sponsor's only assets are securities of the Company. Therefore, the Company cannot assure that the Sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the Trust Account, the funds available for the initial Business Combination and redemptions could be reduced to less than \$10.00 per public share. In such event, the Company may not be able to complete the initial Business Combination, and holders would receive such lesser amount per share in connection with any redemption of the Public Shares. None of the Company's officers or directors will indemnify the Company for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Liquidity and Capital Resources

As of December 31, 2021, the Company had approximately \$0.4 million in its operating bank account and working capital deficit of approximately \$0.4 million.

The Company's liquidity needs up to February 23, 2021, were satisfied through payment from the Sponsor of \$25,000 to cover certain offering costs of the Company in exchange for the issuance of the Founder Shares

[Table of Contents](#)

(see Note 5), the loan under an unsecured promissory note from the Sponsor of \$170,000, and payment of certain costs of the Company of \$18,694 by an officer of the Company. The Company repaid the promissory note and the amount due to the officer in full in February 2021. Subsequent to the consummation of the Initial Public Offering and Private Placement, the Company's liquidity needs have been satisfied through the proceeds from the consummation of the Private Placement not held in the Trust Account.

In addition, in order to finance transaction costs in connection with a Business Combination, the Company's Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, provide the Company Working Capital Loans (see Note 5). As of December 31, 2021 and 2020, there were no amounts outstanding under any Working Capital Loans.

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Going Concern

As a result of the above, in connection with the Company's assessment of going concern considerations in accordance with FASB's Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management determined that the liquidity condition and date for mandatory liquidation and dissolution raise substantial doubt about the Company's ability to continue as a going concern through February 23, 2023, the scheduled liquidation date of the Company if it does not complete a Business Combination prior to such date. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 2 — Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented in U.S. dollars and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the accounting and disclosure rules and regulations of the Securities and Exchange Commission (the "SEC").

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act

provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liabilities. Such estimates may be subject to change as more current information becomes available and accordingly the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of December 31, 2021 and 2020.

Investments Held in Trust Account

Investments held in Trust Account consist of money market funds investing in United States Treasury securities and United States Treasury securities.

The Company classifies its money market funds as trading securities. Trading securities are presented on the balance sheet at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of investments held in Trust Account are included in interest income in the accompanying statement of operations. The estimated fair values of investments held in Trust Account are determined using available market information.

The Company classifies its United States Treasury securities as held-to-maturity in accordance with FASB ASC Topic 320 "Investments — Debt and Equity Securities." Held-to-maturity securities are those securities which the Company has the ability and intent to hold until maturity. Held-to-maturity treasury securities are recorded at amortized cost and adjusted for the amortization or accretion of premiums or discounts.

A decline in the market value of held-to-maturity securities below cost that is deemed to be other than temporary, results in an impairment that reduces the carrying costs to such securities' fair value. The impairment is charged to earnings and a new cost basis for the security is established. To determine whether an impairment is other than temporary, the Company considers whether it has the ability and intent to hold the investment until a market price recovery and considers whether evidence indicating the cost of the investment is recoverable outweighs evidence to the contrary. Evidence considered in this assessment includes the reasons for the impairment, the

[Table of Contents](#)

severity and the duration of the impairment, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry the investee operates in.

Premiums and discounts are amortized or accreted over the life of the related held-to-maturity security as an adjustment to yield using the effective-interest method. Such amortization and accretion is included in the “Trust interest income” line item in the statements of operations. Trust interest income is recognized when earned.

Fair Value Measurements

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

The fair value of the Company’s assets and liabilities, which qualify as financial instruments under ASC 820, “Fair Value Measurements and Disclosures,” approximates the carrying amounts represented in the accompanying balance sheets. The fair values of prepaid expenses and other, accounts payable and accrued expenses, due to related party, and promissory note are estimated to approximate the carrying values as of December 31, 2021 and 2020 due to the short maturities of such instruments.

The fair value of Private Placement Warrants is based on a valuation model utilizing management judgment and pricing inputs from observable and unobservable markets with less volume and transaction frequency than active markets. Significant deviations from these estimates and inputs could result in a material change in fair value. The fair value of the Private Placement Warrants is classified as Level 3. See Note 6 for additional information on assets and liabilities measured at fair value.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depositary Insurance Corporation coverage limits of \$250,000. At December 31, 2021 and 2020, the Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Ordinary Shares Subject to Possible Redemption

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480-10-S99 “Classification and Measurement of

[Table of Contents](#)

Redeemable Securities.” Conditionally redeemable ordinary shares (including ordinary shares that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) are classified as temporary equity. At all other times, ordinary shares are classified as shareholders’ equity. The Company’s Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, at December 31, 2021, Class A ordinary shares subject to possible redemption are presented at redemption value as temporary equity, outside of the shareholders’ deficit section of the Company’s balance sheet.

Net Loss Per Ordinary Share

The Company has two classes of shares, which are referred to as Class A ordinary shares and Class B ordinary shares. Accretion associated with the redeemable Class A ordinary shares is excluded from earnings per share as the redemption value approximates fair value. Earnings and losses are shared pro rata between the two classes of shares. The 18,500,000 potential ordinary shares for outstanding warrants to purchase the Company’s shares were excluded from diluted earnings per share for the year ended December 31, 2021 because the warrants are contingently exercisable, and the contingencies have not yet been met. As a result, diluted net income per ordinary share is the same as basic net income per ordinary share for the periods presented. The table below presents a reconciliation of the numerator and denominator used to compute basic and diluted net income per share for each class of ordinary shares:

	Year Ended December 31, 2021		For the Period from December 10, 2020 (Inception) December 31, 2020	
	Class A	Class B	Class A	Class B
Basic and diluted net loss per share:				
Numerator:				
Allocation of net loss	\$ (1,634,585)	\$ (469,203)	\$ —	\$ (51,116)
Denominator:				
Weighted-average shares outstanding	19,651,099	5,640,797	—	5,000,000
Basic and diluted net loss per share	\$ (0.08)	\$ (0.08)	\$ —	\$ (0.01)

Offering Costs associated with the Initial Public Offering

The Company complies with the requirements of the ASC 340-10-S99-1 and SEC Staff Accounting Bulletin (“SAB”) Topic 5A — “Expenses of Offering”. Offering costs consist principally of professional and registration fees incurred through the balance sheet date. Offering costs are allocated to the separable financial instruments issued in the IPO based on a relative fair value basis compared to total proceeds received. Offering costs associated with warrant liabilities are expensed, and offering costs associated with the Class A ordinary shares are charged to temporary equity.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, “Derivatives and Hedging”. Derivative instruments are recorded at fair value on the grant date and re-valued at each reporting date, with changes in the fair value reported in the statements of operations. Derivative assets and liabilities are classified on the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date. The Company has determined the warrants are a derivative instrument.

Income Taxes

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of December 31, 2021 and 2020, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company is considered to be an exempted Cayman Islands company with no connection to any other taxable jurisdiction and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. There is currently no taxation imposed on income by the Government of the Cayman Islands. In accordance with Cayman income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's financial statements. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, cash flows and/or search for a target company, the specific impact is not readily determinable as of the date of the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Recent Accounting Pronouncements

In August 2020, the FASB issued Accounting Standards Update ("ASU") No. 2020-06, Debt —debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity ("ASU2020-06"), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. For smaller reporting companies, this update is effective for fiscal years beginning after December 15, 2023, and interim periods within those fiscal years. Early adoption is permitted. Management is currently evaluating the new guidance but does not expect the adoption of this guidance to have a material impact on the Company's financial statements.

Management does not believe that any other recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

Note 3 — Initial Public Offering

Pursuant to the IPO, the Company sold 23,000,000 Units, including 3,000,000 Units as a result of the underwriters' full exercise of the over-allotment option, at a price of \$10.00 per Unit. Each Unit consists of one Class A ordinary share and one-half of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per whole share.

An aggregate of \$10.00 per Unit sold in the IPO was held in the Trust Account and can only be invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a

[Table of Contents](#)

maturity of 185 days or less in money market funds meeting certain conditions under Rule 2a-7 of the Investment Company Act. As of February 23, 2021, \$230,000,000 of the IPO proceeds was held in the Trust Account.

Public Warrants

Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) one year from the closing of the IPO. The Public Warrants will expire five years from the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration. No warrant will be exercisable and the Company will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 15 business days, after the closing of a Business Combination, it will use its commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants. The Company will use its commercially reasonable efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration or redemption of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the sixtieth (60th) business day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Company’s Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elect, it will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In such event, each holder would pay the exercise price by surrendering each such warrant for that number of Class A ordinary shares equal to the lesser of (A) the quotient obtained by dividing (x) the product of the number of Class A ordinary shares underlying the warrants, multiplied the excess of the “fair market value” less the exercise price of the warrants by (y) the fair market value and (B) 0.361. The “fair market value” shall mean the volume weighted average price of the Class A ordinary shares for the 10 trading days ending on the trading day prior to the date on which the notice of exercise is received by the warrant agent.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00

Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon no less than 30 days’ prior written notice of redemption (the “30-day redemption period”) to each warrant holder; and

[Table of Contents](#)

- if, and only if, the last reported sale price of the Class A ordinary shares for any 20 trading days within a 30-trading day period ending three business days before the Company sends the notice of redemption to the warrant holders (the “Reference Value”) equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like).

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00

Once the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days’ prior written notice of redemption; provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined based on the redemption date and the fair market value of the Class A ordinary shares;
- if, and only if, the Reference Value (as defined above under “Redemption of Warrants When the Price per Class A Ordinary Share Equals or Exceeds \$18.00”) equals or exceeds \$10.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like); and
- if the Reference Value is less than \$18.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) the Private Placement Warrants must also be concurrently called for redemption on the same terms as the outstanding Public Warrants, as described above.

In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the Company’s board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of its Class A ordinary shares during the 20 trading day period starting on the trading day prior to the day on which the Company consummates its Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 and \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 100% and 180% of the higher of the Market Value and the Newly Issued Price, respectively.

Note 4 — Private Placement

Simultaneously with the closing of the IPO, the Sponsor purchased an aggregate of 7,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$7,000,000, in a private placement. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

The Private Placement Warrants are identical to the warrants sold in the IPO except that the Private Placement Warrants, so long as they are held by the Sponsor or its permitted transferees, (i) will not be redeemable by the

Company, (ii) may not (including the Class A ordinary shares issuable upon exercise of these warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of the initial Business Combination, (iii) may be exercised by the holders on a cashless basis and (iv) will be entitled to registration rights. The Private Placement Warrants (including the Class A ordinary shares issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

Note 5 — Related Party Transactions

Founder Shares

On December 11, 2020, the Company temporarily issued to an officer of the Company, and subsequently assigned to the Sponsor, 5,750,000 Class B ordinary shares, par value \$0.0001 (the “Founder Shares”), with a consideration of \$25,000, or approximately \$0.004 per share, to cover certain offering and formation costs of the Company. In January 2021, the founder shares were assigned to the Sponsor for the same purchase price initially paid by the officer of the Company. The Founder Shares included an aggregate of up to 750,000 shares that were intended to be forfeited depending on the extent to which the underwriters’ over-allotment option was exercised, so that the number of Founder Shares would equal, on an as-converted basis, approximately 20% of the Company’s issued and outstanding ordinary shares after the IPO. In connection with the underwriters’ full exercise of their over-allotment option on February 23, 2021, the 750,000 shares are no longer subject to forfeiture.

The Sponsor, and certain officers of the Company, have agreed, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earliest of: (A) one year after the completion of a Business Combination and (B) the date following the completion of the initial Business Combination on which the Company completes a liquidation, merger, share exchange or other similar transaction that results in all of the shareholders having the right to exchange their ordinary shares for cash, securities or other property (the “Lock-up”). Notwithstanding the foregoing, if the closing price of the Company’s Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, the Founder Shares will be released from the Lock-up.

Promissory Note — Related Party

On December 11, 2020, the Company issued an unsecured promissory note (the “Promissory Note”) to an officer of the Company, pursuant to which the Company may borrow up to an aggregate principal amount of \$250,000. On January 26, 2021 the Promissory Note was assigned to the Sponsor. The Promissory Note was non-interest bearing and payable on the earlier of (i) December 31, 2021 or (ii) the completion of the IPO. As of December 31, 2021 and 2020, there were \$0 and \$45,000, respectively, outstanding under the Promissory Note. The facility is no longer available as of December 31, 2021.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company’s officers and directors may, but are not obligated to, loan the Company funds as may be required on a non-interest basis (“Working Capital Loans”). If the Company completes a Business Combination, the Company will repay the Working Capital Loans. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Up to \$1,500,000 of such Working Capital Loans may be convertible into Private Placement Warrants of the post-Business Combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants. Except as set forth above, the terms of such

loans, if any, have not been determined and no written agreements exist with respect to such loans. As of December 31, 2021 and 2020, the Company had no Working Capital Loans.

Administrative Service Fee

Commencing on the date of the IPO, the Company began paying its Sponsor or an affiliate thereof up to \$55,000 per month for office space, utilities, salaries or other cash compensation paid to consultants to the Sponsor, secretarial and administrative support services provided to members of the Company's management team and other expenses and obligations of the Sponsor. Upon completion of the initial Business Combination or its liquidation, the Company will cease paying these monthly fees. During the year ended December 31, 2021, the Company incurred an aggregate amount of \$629,389 of administrative service fees.

Note 6 — Recurring Fair Value Measurements

Investments Held in Trust Account

As of December 31, 2021, investment in the Company's Trust Account consisted of \$613 money market funds investing in United States Treasury securities and \$230,054,674 in U.S. Treasury Securities. The Company classifies its United States Treasury securities as held-to-maturity in accordance with FASB ASC 320 "Investments — Debt and Equity Securities". Held-to-maturity treasury securities are recorded at amortized cost and adjusted for the amortization or accretion of premiums or discounts. The Company considers all investments with original maturities of more than three months but less than one year to be short-term investments. The carrying value approximates the fair value due to its short-term maturity. The carrying value, excluding gross unrealized holding loss and fair value of held to maturity securities on December 31, 2021 are as follows:

	Carrying Value/ Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value as of December 31, 2021
U.S. Treasury Securities	\$230,054,674	\$ 2,326	\$ —	\$230,057,000
	<u>\$230,054,674</u>	<u>\$ 2,326</u>	<u>\$ —</u>	<u>\$230,057,000</u>

Recurring Fair Value Measurements

The following table presents information about the Company's assets and liabilities that were measured at fair value on a recurring basis as of December 31, 2021, and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value.

	Total	Quoted Prices In Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

There were no assets or liabilities measured at fair value on a recurring basis as of December 31, 2020.

Initial Measurement

The estimated fair value of the Warrants on February 23, 2021 was determined using Level 3 inputs. Inherent in a Monte-Carlo simulation model are assumptions related to expected share-price volatility (pre-merger and post-merger), expected term, dividend yield and risk-free interest rate. The Company estimates the volatility of its ordinary shares based on management's understanding of the volatility associated with instruments of other similar entities. The risk-free interest rate is based on the U.S. Treasury Constant Maturity similar to the expected remaining life of the warrants. The expected life of the warrants is simulated based on management assumptions regarding the timing and likelihood of completing a business combination. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero. Once the warrants become exercisable, the Company may redeem the outstanding warrants when the price per ordinary share equals or exceeds \$18.00. The assumptions used in calculating the estimated fair values at the end of the reporting period represent the Company's best estimate. However, inherent uncertainties are involved. If factors or assumptions change, the estimated fair values could be materially different.

The key inputs into the Monte Carlo simulation model for the warrant liabilities were as follows at initial measurement:

Input	February 23, 2021 (Initial Measurement)
Expected term (years)	6.53
Expected volatility	14.5%
Risk-free interest rate	0.85%
Ordinary share price	\$ 9.57
Dividend yield	0.00%

Subsequent Measurement

The fair value of the Public Warrants at December 31, 2021 is classified as Level 1 due to the use of an observable market quote in an active market. As of December 31, 2021, the aggregate value of Public Warrants was \$9,200,000.

The estimated fair value of the Private Placement Warrants on December 31, 2021 is determined using Level 3 inputs. Inherent in a Monte-Carlo simulation model are assumptions related to expected share-price volatility (pre-merger and post-merger), expected term, dividend yield and risk-free interest rate. The Company estimates the volatility of its ordinary shares based on management's understanding of the volatility associated with instruments of other similar entities. The risk-free interest rate is based on the U.S. Treasury Constant Maturity similar to the expected remaining life of the warrants. The expected life of the warrants is simulated based on management assumptions regarding the timing and likelihood of completing a business combination. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero. Once the warrants become exercisable, the Company may redeem the outstanding warrants when the price per ordinary share equals or exceeds \$18.00. The assumptions used in calculating the estimated fair values at the end of the reporting period represent the Company's best estimate. However, inherent uncertainties are involved. If factors or assumptions change, the estimated fair values could be materially different.

Risk-free interest rate	1.30%
Ordinary share price	\$ 9.86

The following table sets forth a summary of the changes in the fair value of the warrant liability (Level 3) for the year ended December 31, 2021:

Accordingly, at December 31, 2021, Class A ordinary shares subject to possible redemption are presented at redemption value as temporary equity, outside of the shareholders’ deficit section of the Company’s balance sheet.

As of December 31, 2021, the Class A ordinary shares reflected on the balance sheet are reconciled in the following table:

In connection with the underwriters’ full exercise of their over-allotment option on February 23, 2021, the 750,000 shares are no longer subject to forfeiture.

COVID-19 Impact

The COVID-19 pandemic spread rapidly in 2020, with a significant number of cases. Measures taken by various governments to contain the virus have affected economic activity. The Group has taken several measures to monitor and mitigate the effects of COVID-19, such as safety and health measures for its directors and employees (such as social distancing and working from home).

During 2021, the impact on the business of the Group and results has not been significant. The impact on our business and results has been positive. As the Group is naturally a digital and online service provider, we have found increased demand for our products and services and it is expected to continue increasing.

The Group will continue to follow the various government policies in each country that the Group operates and, in parallel, we will do our utmost to continue our operations in the best and safest way possible without jeopardizing the health of our people.

Note 2. Basis of preparation and accounting

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and interpretations issued by the IFRS Interpretations Committee

Semantix Tecnologia em Sistema de Informação S.A.
Notes to Consolidated Financial Statements
For the years ended December 31, 2021 and 2020
(In thousands of Brazilian *reais*, unless otherwise stated)

("IFRS IC") applicable to companies reporting under IFRS. The financial statements comply with IFRS as issued by the International Accounting Standards Board ("IASB").

The consolidated financial statements consist of the consolidated statement of profit or loss, consolidated statement of other comprehensive income or loss, consolidated statement of financial position, consolidated statement of changes in equity and consolidated statement of cash flows and have been prepared under a historical cost basis, except for certain financial instruments that have been measured at fair value.

Due to the activities of the Group, costs and expenses presented in the consolidated statement of profit or loss and consolidated statement of other comprehensive income or loss were classified according to their function.

The consolidated statement of financial position has been prepared based on the nature of the transactions, distinguishing: (a) current assets from non-current assets, where current assets are intended as the assets that should be realized, sold or used during the normal operating cycle, or the assets owned with the aim of being sold in the short term (within 12 months); (b) current liabilities from non-current liabilities, where current liabilities are intended as the liabilities that should be paid during the normal operating cycle, or over the 12-month period subsequent to the reporting date.

The consolidated statement of cash flows has been prepared using the indirect method.

The Group prepares and publishes its consolidated financial statements in Brazilian *reais* ("BRL" or "R\$"), and the numbers are rounded to the thousands of BRL unless otherwise stated. Foreign operations are included in accordance with the policies set out in note 2.1.

The accounting policies set out in Note 3. Summary of significant accounting policies have been applied in preparing the consolidated financial statements for the year ended December 31, 2021, the comparative information presented for the year ended December 31, 2020.

The Group has applied the accounting judgments, estimates and significant accounting assumptions described in Note 4 in preparing the consolidated financial statements.

2.1. Functional and presentation currency

The consolidated financial statements are presented in BRL, which is the Group's presentation currency. Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency").

2.2. Consolidation

The Company consolidates all entities over which it has control (subsidiaries), that is, when it is exposed or has rights to variable returns of its involvement with the investee and has the ability to affect those returns through its power to direct the relevant activities of the entity.

The subsidiaries are fully consolidated from the date the control is transferred to the Group. Consolidation is ceased from the date the Group no longer has control.

The acquisition method of accounting is used to account for business combinations by the Group.

Semantix Tecnologia em Sistema de Informação S.A.
Notes to Consolidated Financial Statements
For the years ended December 31, 2021 and 2020
(In thousands of Brazilian *reais*, unless otherwise stated)

Inter-company transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, consolidated statement of other comprehensive income or loss, consolidated statement of changes in equity and consolidated statement of financial position, respectively.

Note 3. Summary of significant accounting policies

The significant accounting policies applied in the preparation of these individual and consolidated financial statements are defined below. These policies were applied consistently in the years presented, unless otherwise stated.

3.1. Segment Reporting

For reviewing the operational performance of the Group and allocating resources purposes, the Chief Operating Decision Maker (“CODM”) of the Group, which is comprised of the Board of Directors of the Group, reviews the consolidated results as a whole. The CODM considers the whole Group a single operating and reportable segment, when monitoring operations, making decisions on fund allocation, and evaluating performance. The CODM reviews relevant financial data on a consolidated basis for all subsidiaries and business lines.

The Group’s revenue, profit or loss, and assets and liabilities for this one reportable segment can be determined by reference to the consolidated financial statements.

For more information regarding the Group’s non-current assets and revenue by geographic area, refer to note 6.

3.2. Business Combination

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests issued by the Group, and
- fair values of any liability resulting from a contingent consideration arrangement (“earn out”).

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred.

The excess of the consideration transferred over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired,

Semantix Tecnologia em Sistema de Informação S.A.
Notes to Consolidated Financial Statements
For the years ended December 31, 2021 and 2020
(In thousands of Brazilian *reais*, unless otherwise stated)

the difference is recognized directly in profit or loss as bargain purchase. In a business combination where a put and/or call option is included in the arrangement for the Group to acquire from or for non-controlling interest (“NCI”) shareholders to sell to the remaining shares held by NCI shareholders (in whole or in part), the Group will evaluate the nature of such option(s) and apply either the ‘present-access’, in which the NCI is already recognized in equity, since the non-controlling shareholders are exposed to substantially risks and has access to the returns associated with its interests, or ‘anticipated acquisition’ method, in which substantially all of risks and returns associated with the underlying ownership interest are transferred to the acquirer and no NCI is recognized, in order to measure goodwill and NCI.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity’s incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Earn out is classified either as equity or financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value, with fair value changes recognized in the consolidated statement of profit or loss.

3.3. Foreign currency translation

(i) Transaction and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions, and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates, are generally recognized in profit or loss.

(ii) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position,
- income and expenses for each statement of profit or loss and statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- all resulting exchange differences are recognized in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, are recognized in consolidated statement of other comprehensive income or loss.

3.4. Financial Instruments

The Group classifies its financial assets according to the business model and evaluation of the ‘solely payments of principal and interest’ requirements per IFRS 9. The Group’s financial assets consist of ordinary trade receivables that are held to collect and do not include particular unusual terms.

Notes to Consolidated Financial Statements

(In thousands of Brazilian *reais*, unless otherwise stated)

Impairment of trade receivables

The Group recognizes a provision for expected credit losses (“ECL”) on trade receivables and contract assets measured under IFRS 15. To measure the expected credit losses, trade receivables and contract assets have been grouped as they have substantially the same risk characteristics and are related to the same types of contracts; therefore, the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets. The Group applies the ‘simplified’ approach as required by IFRS 9 since generally the Group’s trade receivables do not include a significant financing component and are not consider to be complex. The Group therefore recognizes the lifetime expected credit losses over the life of the trade and other receivables.

The Group evaluates whether ECL would be required to be recorded for other receivables periodically and on an individual basis. Details of the critical estimates and judgements used are disclosed below.

Measurement of impairment

The Group considers that the relative short-term nature of the material portion of the trade receivables (<90 days), the Group deemed the impact of considering multiple probability weighted scenarios, discounting and forward looking elements, not significant. Therefore, historical average loss rates are not further adjusted either up or down.

On an annual basis, the Group updates a provision matrix using the most recent historical loss experience (i.e. the 12 months of the previous fiscal year) and reviews the forecasts of future economic conditions index.

The Group recognizes an impairment loss or (partial) reversal in the aggregate for all trade receivables as a provision with corresponding amount recognized in *Sales and marketing expenses*.

Based on Group’s historical experience, receivables are deemed uncollectible when it remains more than 360 days past due.

Financial Liabilities

Loans and borrowings are initially recognized at fair value, net of transaction costs incurred. Loans are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in the consolidated statement of profit or loss over the period of the borrowings using the effective interest method.

Loans are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, canceled, or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in the consolidated statement of profit or loss as other income or finance costs.

Loans and financing are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

Derivative financial instruments

The Group holds derivative financial instruments to hedge its foreign currency exposure.

Semantix Tecnologia em Sistema de Informação S.A.
Notes to Consolidated Financial Statements
For the years ended December 31, 2021 and 2020
(In thousands of Brazilian *reais*, unless otherwise stated)

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in the consolidated statement of profit or loss at the end of each reporting period.

3.5. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, bank deposits and other short-term highly liquid investments, with original maturities of three months, or less that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

3.6. Trade Receivables

Trade receivables are recognized initially at the amount of consideration expected to be received. They are subsequently measured at amortized cost using the effective interest method, less loss allowance. See note 16 for further information about the Group's accounting for trade receivables and note 3.4 for a description of the Group's impairment policies.

3.7. Property and equipment, Net

(i) Recognition and measurement

Property and equipment asset items are measured at the historical cost of acquisition, less depreciation and any impairment loss. The historical cost includes expenditures that are directly attributable to the acquisition of the item.

(ii) Subsequent costs

Subsequent cost of an asset component is included in the carrying amount of an item or as a separate asset, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost can be measured reliably. The carrying amount of any component accounted as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Gains and losses on the disposal of an item of the property and equipment are determined by comparing the proceeds arising from the disposal with the book value of the asset and are recognized net within other income in the consolidated statement of profit or loss.

(iii) Depreciation

Depreciation is recognized in the consolidated statement of profit or loss based on the straight-line method in relation to the estimated useful lives, since this method is the closest that reflects the consumption pattern of future economic benefits incorporated into the asset. Depreciation is calculated based on the historical book value.

Depreciation methods, useful lives and residual values should be reviewed at each financial year's close and any adjustments recognized as a change in accounting estimates.

Notes to Consolidated Financial Statements
For the years ended December 31, 2021 and 2020
(In thousands of Brazilian reais, unless otherwise stated)

As of December 31, 2021, the average useful lives applied by the Group remain unchanged as shown below:

Category	Useful life (years)
Buildings	10
Furniture and fixtures	10
IT equipment	5
Telecommunications equipment	5
Leasehold improvement	6 - 10

The assets' net book values and useful lives are reviewed at each reporting date, and adjusted prospectively, where applicable.

During 2021, the Group reviewed the estimated useful lives of these assets and no significant change was identified.

3.8. Intangible Assets and Goodwill

(i) Goodwill

Goodwill is measured as described in note 12. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortized but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes.

(ii) Customer contracts

Customer contracts acquired in a business combination are recognized at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortization and impairment losses, if any.

(iii) Software

Costs associated with maintaining software programs are recognized as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group are recognized as intangible assets where the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use
- management intends to complete the software and use or license it there is an ability to use or sell the software
- it can be demonstrated how the software will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- the expenditure attributable to the software during its development can be reliably measured.

(In thousands of Brazilian reais, unless otherwise stated)

Directly attributable costs that are capitalized as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalized development costs are recorded as intangible assets and amortized from the point at which the asset is ready for use.

(iv) Brands

Brands acquired in a business combination are recognized at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortization and impairment losses, if any.

(v) Useful lives

Amortization is recognized in the consolidated statement of profit or loss based on the straight-line method in relation to the estimated useful lives, since this method is the closest that reflects the consumption pattern of future economic benefits incorporated into the asset. The estimated useful lives of intangible assets are as follows:

Category	December 31, 2021	December 31, 2020
Brands	30	30
Software	From 3 to 7 years	From 3 to 7 years
Customer contracts	10	10

The assets' net book values and useful lives are reviewed at each reporting date, and adjusted prospectively, where applicable.

During 2021, the Group reviewed the estimated useful lives of these assets and no significant change was identified.

3.9. Impairment of non financial assets

An impairment loss is recognized in the statement of profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

Goodwill and intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period. Therefore, impairment losses recognized for goodwill cannot be reversed in a subsequent period.

3.10. Provisions

Provisions are recognized when: (i) the Group has a present or constructive obligation as a result of past events; (ii) it is probable that an outflow of resources will be required to settle the obligation; and (iii) the value can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of expenses that must be required to settle the obligation by applying a discount rate plus the effects of taxes on profit, which reflects current market valuations for the value of money over time and for the specific risks of the obligation. The increase in provision due to the passage of time is recognized as financial expense.

3.11. Revenue Recognition

The revenue is composed of Third-party software, Artificial intelligence & analytics services and Software as a services, usually without a significant financing component in its revenue.

(i) Third-party software

The Group offers services of resale of third-party software licenses to its customers which includes: (i) Cloudera Hadoop, (ii) Confluent Enterprise Platinum, (iii) Software ECE, among others. The Group purchases licenses from these third parties and resale the licenses to its end customers. There is a single performance obligation which is transfer of possession of license to its customer. The Group acts as the principal in the resale of licenses. Revenue is recognized on a gross basis at a point in time upon transfer of possession of the license and the transaction price is typically the fixed amount in the contract depending on the specific license provided by the Group.

(ii) Artificial intelligence & data analytics services

The Group offers *artificial intelligence (“AI”) and data analytics services* to its clients which includes (i) technical support and (ii) consulting services. Each professional service is distinct and represents a single performance obligation. The revenue is recognized over time by application of input method i.e. hours spent on contract. Professional services fees typically determined by the hour of services provided and the rate per hour for the employees providing the services.

(iii) Proprietary software as a service

The Group offers proprietary software as a service (“SaaS”) in its data platform to its clients, which includes (a) SaaS (access to the platform) and (b) support services. The Group considers them as two performance obligations. The two performance obligations are delivered concurrently and have the same pattern of transfer, the Group will treat them as one performance obligation. Revenue is recognized ratably over the contract period as we satisfy the performance obligation. We use a time-based output method to measure progress and recognize revenue on a straight-line basis over the contract term. The transaction price for our proprietary data platform contracts consists of the following components:

- Fixed fee element. For example, access to the platform for a certain period is at a fixed amount, as well as the usage-based fee is a fixed amount per usage measure.
- A variable fee calculated once a certain threshold is reached, resulting in a discount provided to the client if the service level agreement (“SLA”) is not met

For variable fees that meet the practical expedient for recognizing revenue as invoiced, the Group will apply the practical expedient and recognize revenue in the amount to which the entity has a right to invoice. For variable considerations that do not meet the practical expedient, the Group will use the most likely method in estimating the variable considerations.

If in future contracts, the two performance obligations are not delivered concurrently and have the same pattern of transfer, the Group will establish the stand-alone selling price for each performance obligation and allocate the transaction price accordingly.

3.12. Taxes

(i) Current income tax

The income tax expense or credit for the period is the tax payable (or receivable) on the current period's taxable income, based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Income tax and the current and deferred social contribution are calculated based on the rates of 15%, plus the additional 10% on the excess taxable income of R\$240 for income tax and 9% on the taxable profit for social contribution on net income.

(ii) Deferred income tax

Deferred income tax is provided in full, using the liability method and is generated by temporary differences between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax assets referring to all deductible temporary differences and unused tax losses are recognized to the extent it is probable that future taxable profit will be available against which the temporary differences and unused tax losses can be utilized, except when the deferred income tax asset relating to a deductible temporary difference results from the initial recognition of an asset or liability, in a transaction that is not a business combination, and that at the time of transaction, affects neither the accounting nor the taxable profit or loss.

Unrecognized deferred income tax assets are reviewed at each statement of financial position date and recognized to the extent that it is probable that there will be future taxable profit to allow the recovery of these assets.

Deferred tax liabilities and assets are not recognized for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are measured at the rates expected to be applicable in the year in which the asset is realized or the liability is settled, based on rates (and tax laws) that are in force or substantively in force at the statement of financial position dates.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(iii) Sales taxes

Net revenue, expenses and assets are recognized net of sales tax, except:

- When the sales taxes incurred on the purchase of goods or services are not recoverable from tax authorities, in which case the sales tax is recognized as part of the cost of acquiring the asset or expense item, as applicable.
- When the amounts receivable or payable are stated with the amount of sales taxes included.

The net amount of sales taxes, recoverable or payable to the tax authority, is included as part of taxes receivables or taxes payables in the consolidated statement of financial position, and net of corresponding revenue or cost / expense, in the consolidated statement of profit or loss.

Revenues in Brazil are subject to taxes and contributions, at the following statutory rates:

PIS (“Programa de Integração Social by its acronym in Portuguese”) and COFINS (“Contribuição para o Financiamento da Seguridade Social by its acronym in Portuguese”) are contributions levied by the Brazilian Federal government on gross revenues. These amounts are invoiced to and collected from the Group’s customers and recognized as deductions to gross revenue against tax liabilities, as we are acting as tax withholding agents on behalf of the tax authorities. PIS and COFINS paid on certain purchases may be claimed back as tax credits to offset PIS and COFINS payable.

These amounts are recognized as recoverable taxes and are offset on a monthly basis against taxes payable and presented net, as the amounts are due to the same tax authority. PIS and COFINS are contributions calculated on two different regimes according to Brazilian tax legislation: cumulative method and non-cumulative method. PIS and COFINS are charged based on the cumulative method (at rates 0.65% and 3.00%, respectively) and non-cumulative method (at rates 1.65% and 7.6% respectively) according to the type of revenue.

ISS (Imposto Sobre Serviços by its acronym in Portuguese) is a tax levied by municipalities on revenues from the provision of services. ISS tax is added to amounts invoiced to the Group’s customers for the services the Group renders. These are recognized as deductions to gross revenue against tax liabilities, as the Group acts as agent collecting these taxes on behalf of municipal governments. The rates may vary from 2.90% to 5.00%.

INSS (Instituto Nacional do Seguro Social by its acronym in Portuguese) is a social security charge levied on wages paid to employees.

3.13. Leases

Leases of the Group includes office spaces. Rental contracts are typically made for fixed periods, but may have extension options by Brazilian Law. Contracts may contain both lease and non-lease components. However, the Group elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

At the inception or modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease on the basis of its individual prices.

Semantix Tecnologia em Sistema de Informação S.A.
Notes to Consolidated Financial Statements

(In thousands of Brazilian *reais*, unless otherwise stated)

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for the Group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments for the Group's leases:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date;

Lease payments to be made under reasonable extension options are also included in the measurement of the liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, then the lessee uses its incremental borrowing rate. The average incremental borrowing rate for the leases is 9.32%.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance costs. The finance cost is charged to profit or loss over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of a lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

A lease liability is remeasured upon a change in the lease term, changes in an index or rate used to determine the lease payments or reassessment of exercise of a purchase option. The corresponding adjustment is made to the related right-of-use asset. However, if the carrying amount of the right-of-use asset has already been reduced to zero and there is a further reduction in the measurement of the lease liability, then the Group recognizes any remaining amount of the remeasurement in the consolidated statement of profit or loss.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and all leases of low-value assets are recognized on a straight-line basis as an expense in the consolidated statement of profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise of assets with amount lower than R\$25 at the lease inception.

3.14. Earnings per share

(i) Basic earnings per share

Basic earnings per share are calculated by dividing:

- the profit attributable to owners of the Group, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year and excluding treasury shares if applicable.

(ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to consider the weighted average number of additional ordinary shares that would have been outstanding, assuming the conversion of all dilutive potential ordinary shares.

3.15. Employee benefits

(i) Profit sharing

The Group recognizes a liability and an expense for profit sharing based on the agreement with its employees, which considers the income for the year after certain adjustments. The Group recognizes the liability when it is contractually obligated or when there is a previous practice that has created a constructive obligation over the service period, if applicable.

(ii) Share-based compensation

The Group operates equity-settled share-based compensation plans that are designed to provide long-term incentives for selected directors and employees to deliver long-term shareholder returns.

The cost of equity-settled transactions with employees is measured using their fair value at the date they are granted. The cost is expensed together with a corresponding increase in equity over the period in which the service and, where applicable, the performance conditions are fulfilled (the vesting period). At the end of each period, the Group revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The estimated fair value of the option on the grant date is calculated based on the appraisal or relevant transaction closest to the grant date.

Note 4. Use of critical estimates and judgements

The preparation of financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Accounting estimates and judgments are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are recognized prospectively.

a) Impairment of non-financial assets

As stated in note 3.9, impairment testing involves calculating the value in use or the fair value less cost of disposal, when applicable, of the cash generating units to which the goodwill or other non-financial assets have been assigned. The value in use is determined by estimating five years of future cash flows, a terminal value and using a discount rate that comprises of three components: time value in money, the appropriate risk premium and uncertainty about the future cash flows. Hence, it relies on a number of critical judgements, estimates and assumptions. For more information on estimates and assumptions used in impairment testing, refer to note 12.

b) Revenue recognition

The Group applies certain judgment in assessing the terms of revenue from contracts with customers to determine whether the contract involves the delivery of SaaS (revenue recognized over time) or a mere sale of license (revenue recognized point in time). The Group evaluates each contract individually, its critical terms and business relationship with its customer and any associated third party.

c) Lease term

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Group has the option, under some of its leases, to lease the assets for additional terms. The Group applies judgment in evaluating whether it is reasonably certain to exercise the option to renew. It considers all relevant factors that create an economic incentive for it to exercise the renewal such as contractual terms and conditions for the optional periods compared with market rates and the length of a non-cancellable period of a lease.

After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

d) Capitalization of intangibles development cost

The Group capitalizes qualifying internal use software development costs related to internally developed software associated with Semantix Data Platform ("SDP"), Quios Invest and Smarter Sales. SDP is the platform offered by Semantix for the preparation and creation of analytical data environments in the cloud, Quios Invest is Semantix's technology platform dedicated to the capital markets clients, and Smart Sales is Semantix's e-commerce platform, enabling several e-commerce transactions, as such as, business-to-business ("B2B"), (business-to-customer ("B2")), marketplace, among others. The costs consist of labor costs related to the developers and other costs, such as the Cloud used in the internal development phase. The Group then evaluates whether the development costs are to be expensed or capitalized based on the three criteria, technical feasibility, commercial feasibility, and measurability. If the intangible asset meets these criteria, certain development expenses can be capitalized as an intangible asset.

The Group has chosen the straight-line method of amortization based on the estimated useful lives of the items, net of their estimated residual values (if any), which will be applied consistently from period to period unless there is a change in the expected pattern of consumption of the future economic benefits.

e) Useful life of intangible asset with finite useful lives

Intangible assets are amortized over their useful lives. The useful life is based on management's estimates for the period in which the assets will contribute to generate revenue and is periodically reviewed. Changes in estimates may result in significant changes in the book value. Revisions to these estimates are recognized prospectively.

f) Control over subsidiaries without majority of shares

Management of the Group has applied judgment in determining that Semantix Participações controls Tradimus and has therefore consolidated Tradimus within the Group's consolidated financial statements.

Management concluded that the potential voting rights arising from the shareholder agreement signed between Semantix and Excella (see note 22) gives the Group the power and rights to variable returns from Tradimus. In addition to the fact that Semantix has the ability to use its power to affect the amount of its returns and that the CEO appointed by Semantix into Tradimus acts in the benefit of the Group, management concluded that the Group controls the economic outcome of Tradimus.

Note 5. New standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for the year ended December 31, 2021 and have not been early adopted by the Group. These standards are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

Note 10. Income tax

a) Current tax expense

Corporate income tax and social contribution on net income were calculated in accordance with applicable law. The Group has operations in countries with different tax regimes.

The corporate income tax (“IRPJ”) was calculated at the basic rate of 15% on taxable income plus the additional 10%, according to specific legislation, and the social contribution on profit (“CSLL”) was calculated at the rate of 9% on taxable income. The tax on profit, before tax, differs from the theoretical value that would be obtained with the use of the weighted average tax rate, applicable to the profits of Brazilian companies.

b) Reconciliation of income tax expense and social contribution

	December 31, 2021	December 31, 2020
Loss before income tax	(76,115)	(20,046)
Income tax at the nominal Brazilian tax rate – 34%	25,879	6,816
Tax paid on profits of overseas subsidiaries	1,486	(492)

Income tax as reported	7,741	612
Current income tax	(327)	(1,291)
Deferred income tax	8,068	1,903

The tax expense was determined based on the Brazilian corporate income tax (CIT) rate considering that, currently, the main operation is in Brazil. This table reconciles the expected income tax expense, computed by applying the combined Brazilian tax rate of 34%, to the actual income tax expense. The combined Brazilian tax rate includes the corporate income tax at a 25% rate and the social contribution on net profits at a 9% rate.

Unrecognized deferred tax assets correspond to the tax benefit related to future utilization of net operating losses of the Group. In that case, the deferred tax asset was not recognized due to the lack of expectation of utilization of such net operating losses in the foreseeable future. The net operating loss not recognized are in the amount of R\$60,096 (December 31, 2020—R\$20,000).

Impairment tests for goodwill

The Group performs an annual impairment test for goodwill at the Cash Generating Unit ("CGU") level to evaluate if there has been an impairment loss, or more frequently if there are indicators that shows a deterioration of the fair value (a trigger event).

The Group acquired two entities during the year 2020: (i) Tradimus and (ii) LinkAPI, and goodwill was recognized in both those acquisitions. Goodwill does not generate cash inflows independently of other assets or groups of assets, and therefore is not tested for impairment separately. Instead, goodwill is tested for impairment as part of testing identified CGUs.

(In thousands of Brazilian reais, unless otherwise stated)

A CGU is the smallest group of assets that includes the asset and generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. Based on this, management has identified three CGUs:

- i. Tradimus;
- ii. LinkAPI; and
- iii. Rest of the Group (data platform).

For the purpose of impairment testing, goodwill will be allocated to the following CGUs (acquired entity level) to which it belongs, while other corporate assets will not be allocated to any CGU.

CGU	Goodwill
Tradimus	3,098
LinkAPI	21,756
Total	24,854

The Group completed its annual impairment test for goodwill for the years ended December 31, 2021 and 2020 and concluded that no impairment charge was warranted. The results of the impairment tests indicate the excess of the recoverable amounts over the carrying amounts for each CGU.

Recoverable amount is higher of fair value or value in use. But in the current year, the Group identified that the fair value is equal to carrying amount for both CGUs, hence we shall compare the same with value in use. The Group cannot predict whether an event that triggers impairment will occur, when it will occur or how it will affect the value of the asset reported. The Group believes that all of its estimates are reasonable and are consistent with the Group's internal reporting and reflect Management's best estimates.

Tradimus: The recoverable amount of this CGU was determined based on a value-in-use calculation that utilizes cash flow projections from financial budgets approved by the Group's directors over a five-year period from December 31, 2021, and an annual discount rate of 22.2%. Cash flows that exceed this five-year projection horizon have been extrapolated using a fixed annual growth rate of 3.2%. The Group use a five-year period for cash flow projection because the position expected at the end of the fifth year represents the stable long-term position. Therefore, the Group extrapolates those cash flows into the future using a steady growth rate (second stage).

Cash flow projections during the projection horizon are based on a sales growth rate, which is 7.1% for the year after 2022 and 7.4% for the rest of the period, and fixed gross margin of 100%, respectively. The growth rate is estimated by Management based on past performance and their expectations of market development. The estimated recoverable amount of the CGU exceeded its carrying amount by R\$903.

LinkAPI: The recoverable amount of this CGU was determined based on a value-in-use calculation that utilizes cash flow projections from financial budgets approved by the Group's directors over a five-year period from December 31, 2021, and an annual discount rate of 20.6%. Cash flows that exceed this five-year projection horizon have been extrapolated using a fixed annual growth rate of 3.2%. The Group use a five-year period for cash flow projection because the position expected at the end of the fifth year represents the stable long-term position. Therefore, the Group extrapolates those cash flows into the future using a steady growth rate (second stage).

Cash flow projections during the projection horizon are based on variable sales growth rates and a fixed gross margin of 66.0%. Management projected the growth rates of revenue after considering the good results since the acquisition, past performance and their expectations of market development. The estimated recoverable amount of the CGU exceeded its carrying amount by R\$199,488.

The key assumptions used in the value-in-use calculations for the cash generating units are the following:

- Growth rate: the rates used are calculated after considering GDP over the number of clients and inflation rate (IPCA) over the ticket average price. Management considers any potential reasonable change in the key assumptions on which the recoverable amount is based would not cause the total carrying amount to exceed the total recoverable amount of the CGU.
- Discount period: The inflows and outflows of a company takes place over time in the course of its business cycle. Consequently, the calculation of the present value of the cash flow generated over a given period should consider the individual discount of various expenses and inflows, and their respective dates of occurrence. Thus, the cash generated at the beginning of the year should be discounted for less time than the cash generated at the end of the year. As a result, an average flow was adopted, in the middle of the period between the beginning and the end of each projective period, to discount the cash flows.
- Projected gross margin: Projected gross margin is consistent with the historical gross margin in case of Tradimus and for LinkAPI, Management expects a slight difference in the projected cost as a percentage of revenues and due to that, the projected gross margin is different in the projected periods than the historical financials.

Financial investments have immediate convertibility characteristics in a known amount of cash and are not subject to risk of significant change in value, being recorded by the increased cost values of income earned up to the statement of financial position dates, which do not exceed their market or realization value.

Note 16. Trade receivables and other

Trade receivables are amounts due from customers for services performed in the ordinary course of business. They are generally due for settlement within 30 to 60 days and are therefore all classified as current.

Trade receivables are recognized initially at the transaction price unless they contain significant financing components when they are recognized at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method.

Trade receivables are as follows:

	December 31, 2021	December 31, 2020
Trade receivables	31,651	30,374

Note 21. Share-based compensation

During 2020, The Board of Directors approved the "Option Plan" that provides share-based compensation to selected directors and employees as an equity-settled stock-option plan. The plan includes options to 45,000 preferred shares from the Company.

During 2020 the Group granted options on April and June and determined the fair value of the options granted at each date.

During 2021 the Group granted options on May and July and determined the fair value of the options granted at each date.

The weighted average fair value of the options granted during the year ended December 31, 2021 was R\$1,804 (2020 -R\$318) per option.

The fair value of the share-based compensation plan was estimated through the use of the Black & Scholes Model with the following assumptions:

- Expected exercise: Represents the period in which the compensation related to the Option Plan should remain outstanding and was based on the average of the earliest date at which an option could be exercised which is the end of the vesting period and the date of the contractual life.
- Expected volatility: Expected volatility between 60% and 55% using historical and implied stock price volatility from guideline companies, adjusted for size and leverage.
- Risk-free interest rate: The risk free interest rate used on the model was calculated based on Brazil Sovereign Curve. The risk free used was 6.9% and 8.1%.
- Exercise price: The exercise price is defined by the Board of Directors for each grant. Value of the underlying asset: The Value of the Underlying Asset (in this case, the shares issued by the Company) is measured using the implied per share value based on a total equity value of US\$ 620 million (2020 is the most recent capital contribution).

The exercise of the options granted is subject to the minimum vesting periods of 3 years as detailed below:

- 25% of the options as from 12 months after the execution of the option contract;
- 30% of the options after 24 months since the execution of the option contract;
- 45% of the options after 36 months after the execution of the option contract, until reaching 100% (total).

The options granted under this plan are personal and non-transferable, whether or not the vesting periods have elapsed. The holder of the option has a maximum period of 5 years to exercises its options.

The expense related to the share-based payments plan for the year ended December 31, 2021 was R\$7,757 (2020—R\$1,800) with its corresponding entry to shareholders' equity. Additionally, in 2021, the Company made a payment through shares, in the amount of R\$6,442 in connection with the 49% acquisition of LinkAPI (note 22). The respective payment was made through the transfer of shares with its corresponding entry to shareholders' equity.

Set out below are summaries of options granted under the plan:

	Number of Options (thousand)	Weighted average exercise price
At December 31, 2019	—	—
Options granted	15	14.83
At December 31, 2020	15	14.83
Options granted	10	220.38
At December 31, 2021	25	93.26

As of December 31, 2021, there were 3,850 options vested (December 31, 2020—nil).

As of December 31, 2021, there was R\$14,289 (2020—R\$3,112), of remaining unrecognized compensation cost related to unvested stock options to the Group's employees. This cost will be recognized over an estimated remaining graded period of 3 years. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures.

Note 22. Non-controlling shareholders

The interest attributable to non-controlling shareholders was calculated based on the percentage of 50% on the total shareholders equity of Tradimus and 49% on the total shareholders equity of LinkAPI.

Transactions with non controlling interests

Tradimus

- On December 30, 2020, Tradimus and Excella Gestão de Saúde Population Ltda. (“Excella”), a subsidiary of Caledonia S.A., a third-party health service management company, entered into a contract pursuant to which Excella undertook the obligation to invest at the minimum R\$10.0 million in Tradimus, subject to the fulfillment of certain conditions. On March 5, 2021, this investment was approved by the Brazilian antitrust regulator. On May 26, 2021, Excella became a shareholder of Tradimus, holding a 50.0% stake, thus effectively diluting Semantix’s stake in Tradimus. As of December 31, 2021, the Group has received R\$5.0 million which correspond to the 50% of the total investment. The remaining 50% will be received in 2022 as agreed by the Group and Excella.

LinkAPI

- On December 21, 2020 the Group acquired 51% of the issued and outstanding share capital of LinkAPI. On the acquisition date, Semantix and the remaining shareholder of LinkAPI entered into a shareholder agreement in which establishes among other things, (i) put option for the non-controlling shareholder with the right but not the obligation to sell to the Group the remaining 49% of LinkAPI (see note 19), and (ii) call option for the Group with the right but not the obligation to buy from the non-controlling shareholder the remaining 49% of LinkAPI.
- On June 29, 2021 the Group exercised its call option to acquire the additional 49% of the LinkAPI outstanding share capital for R\$51.5 million, from which most portion was paid in cash and a small portion was paid with the issuance of Semantix shares. As of the notification date, the Group recognized its obligation with the non controlling interests to acquire the remaining 49% as *Other*

liabilities. As result of the notification, Management understands that the redemption liability, recognized as of December 31, 2020, has lapsed and has been reversed with its corresponding reversal in equity (accumulated losses). The net impact on equity regarding the reversal of the redemption liability and the recognition the liability with the shareholders of the 49% amounts to R\$1,549 loss.

Note 23. Financial instruments by categories

a) Classification of financial instruments

The classification of financial instruments measured at amortized cost is presented in the following table:

	December 31, 2021			December 31, 2020		
	Measured at amortized cost			Measured at amortized cost		
	Financial Assets	Receivables and other	Financial Liabilities	Financial Assets	Receivables and other	Financial Liabilities
Assets						
Financial investments	52,149			25,936		
Trade receivables and other, net		36,525			31,245	
Liabilities						
Suppliers			53,951			29,904
Other liabilities			31,115			16,386
Lease liabilities			3,344			3,205
Loans and borrowings			146,594			30,038
Total	52,149	36,525	235,004	25,936	31,245	79,533

Using the discounted cash flow method, the Company calculated a fair value of R\$126,092 for the loans. The difference between the amount presented in the financial statements at amortize cost and the fair value calculated based on discounted cash flows is due to the increase in the Brazilian basic interest rate (SELIC) which rose from 2% in January 2021 to 9.25% by December 2021 and the Company obtained a significant amount of its loans in the first half of 2021. The discount rate used was 1.20% per month for fixed-rate loans and 1.20% for floating-rate loans. The calculation of discount rates was determined from loan agreements obtained by the Company for December 2021 in order to represent a reflection of the market as of the balance sheet date. The respective measurement is based on level 3 of the fair value hierarchy.

The fair value of the Company's other financial liabilities and financial assets is close to or equal to the amortized cost.

Derivative financial instruments

During 2021, the Group entered into loans denominated in foreign currency and in order to protect against the risk of change in the foreign exchange rates entered into derivative financial instruments (swap) with Itaú and Citibank (see note 17). Therefore, they are not speculative. The fair value of the derivatives financial instruments as of December 31, 2021 is \$1,308.

The following amounts were recognized in profit or loss in relation to derivatives:

	December 31, 2021	December 31, 2020
Profit on derivative financial instruments	1,308	—

b) Financial risk management

Financial risk factors

The Group's activities expose it to various financial risks: market risk (including foreign exchange risk), credit risk and liquidity risk. The Group's global risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance.

Risk management is carried out by the financial board, according to the policies approved by the Board of Directors. The financial board identifies, evaluates and protects the Group against any financial risks. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, the use of derivative and non-derivative financial instruments, and investment of excess liquidity.

(i) Market risk

a. Foreign exchange risk

The Group operates internationally and is exposed to foreign exchange currency risk arising from exposures to some currencies other than the functional currency.

The following table shows the balance in other currency translated into Brazilian *reais*:

	December 31, 2021			December 31, 2020		
	COP	MXN	USD	COP	MXN	USD
Trade receivables and other, net	2,353	3,061	—	2,521	4,221	2,014
Trade and other payables	(492)	(4,288)	(7,635)	(769)	(3,034)	(507)

The aggregate net foreign exchange losses recognized in the consolidated statement of profit or loss were:

	December 31, 2021	December 31, 2020
	BRL	BRL
Total net foreign exchange (losses) recognized in profit before income tax for the period	(3,981)	(1,095)

Sensitivity

As of December 31, 2021 and 2020, the sensitivity analysis was carried out on the balances exposed to the effects of foreign exchange variation, based on the expectation of currency variation as disclosed by the Brazilian Central Bank.

A change in exchange rate at the reporting date would have increased (decreased) the balance by the amounts shown below:

	December 31, 2021			December 31, 2020		
	COP	MXN	USD	COP	MXN	USD
Increase in exchange rate in 10%	2,047	(1,350)	(8,398)	1,926	1,305	1,657
Decrease in exchange rate in 10%	1,675	(1,105)	(6,871)	1,576	1,068	1,356

b. Interest rate risk

The interest risk arises from the possibility of the Group incurring losses due to fluctuations in interest rates in respect of fair value of future cash flows of a financial instrument.

The main exposure of the Group to interest rate risk is related to loans and financing payable subject to variable interest rate, principally the CDI (Interbank Deposit Certificates) rate of Brazil. Our investments are made for capital preservation purposes and the Group does not go into investments for trading or speculative purposes. The Group's trade receivables, accounts payable and other liabilities do not bear interest.

The following table summarizes the Group's financial instruments exposed to an interest rate risk:

Loan and Financing	Book value	Interest rate risk
Banco Daycoval S.A.	8,188	12%
Itaú Unibanco S.A.	8,131	10%
Banco Bradesco S.A.	10,098	8%
Banco Bradesco S.A.	10,060	CDI + 4.10% per annum
Banco do Brasil S.A.	15,103	CDI + 5.20% per annum
Citibank, N.A.	21,096	CDI+4.53% per annum
Itaú Unibanco S.A. – Nassau Branch	19,167	12.28% per annum
Banco BMG S.A.	9,344	CDI + 6.32% per annum
Banco BTG Pactual S.A.	30,049	CDI + 5.15% per annum
Itaú Unibanco S.A.	353	12.49% per annum
Banco do Brasil S.A.	15,005	CDI + 5.3% per annum
Total	146,594	

The Group performed a sensitivity analysis regarding the exposure to the interest rate to which the financial instruments are exposed on December 31, 2021. As a premise, impacts of 10% upwards and downwards were adopted. As a result, interest expenses would be impacted as follows:

Type	Rate risk	Amount	Basic interest rate shock	
			+ 10%	10%
Loans and financing (i)	CDI	100,657	1,107	(1,107)

(i) This include two loans contracted fixed rate in Euro and USD and swapped to CDI in reais.

(ii) Credit risk

Credit risk is managed corporately. Credit risk stems from cash and cash equivalents, deposits in banks and other financial institutions, as well as credit exposures to clients, including open accounts receivable and committed transactions. If customers are classified by independent agency, these classifications are used. If there is no independent rating, the credit analysis area evaluates the credit quality of the customer, taking into account their financial position, past experience and other factors. Individual risk limits are determined on the basis of internal or external classifications according to the limits determined by the Board of Directors. The use of credit limits is monitored regularly.

No credit limit was exceeded during the year, and management does not expect any loss arising from default stems from these counterparties higher than the amount already provisioned.

Semantix Tecnologia em Sistema de Informação S.A.
Notes to Consolidated Financial Statements
For the years ended December 31, 2021 and 2020
(In thousands of Brazilian reais, unless otherwise stated)

A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

Expected credit losses

The average credit period on contract with customers is 30 to 60 days. No interest surcharge is made on commercial accounts receivable.

The Group assessed the provision matrix at each of 2018, 2019, 2020 and 2021 reporting periods. As the Group matures and grows over the past years, its customer base will mature and stabilize over time as well. The 2018 and 2019 datasets contained various outliers that skewed the provision matrix in such a way that the results were significantly distant from the actual historical losses incurred. Therefore the Group decided to use the most recent, normalized, dataset for 2021 as the basis.

The Group assessed the quantitative outcome of the provision matrix and added qualitative management overlays to arrive at Management's best estimate for ECL to be recognized.

(iii) Liquidity risk

The cash flow forecast is carried out by the Finance Department. This department monitors the Group's ongoing forecasts of liquidity requirements to ensure that it has sufficient cash to meet operational needs. It also maintains sufficient free space on its committed credit lines available at any time so that the Group does not break the limits or clauses of the loan (where applicable) on any of its credit lines. This forecast takes into account debt financing plans, compliance with clauses and compliance with the internal goals of the statement of financial position quotient.

					Total contractual cash flows	Carrying amount (assets)/ liabilities

The excess cash held, in addition to the balance required for the management of current capital, is transferred to investments in bank accounts with interest, term deposits, short-term deposits and securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient margin as determined by the above-mentioned forecasts.

c) Capital Management

The policy of the Group is to maintain a strong capital base to secure investor, creditor, and market confidence and also to sustain future development of the business. Management monitors the return on capital, as well as the dividend yield to ordinary shareholders.

In addition, the Group objectives to manage capital are to safeguard its ability to continue as a going concern to provide returns for shareholders and benefits for other stakeholders, to maintain an optimal capital structure to reduce the cost of capital, and to have resources available for optimistic opportunities.

In order to maintain or adjust the capital structure of the Group, management can make, or propose to the shareholders when their approval is required, adjustments to the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets.

The Group monitors capital based on the net cash / net debt.

The Group's strategy is to keep a positive net cash.

d) Recognized fair value measurements

Financial instruments are classified at fair value through profit or loss, when this classification significantly reduces a possible measurement or recognition inconsistency (sometimes referred to as "accounting mismatch") that would occur due to the measurement of assets or liabilities or the recognition of their gains and losses on different bases. Gains/losses on financial instruments that are measured at fair value through profit or loss are recognized as financial income or expense in the profit or loss for the period.

This section provides details about the judgements and estimates made in determining the fair values of the financial instruments that are recognized and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath the table.

Financial Liabilities	December 31, 2021		
	Level 1	Level 2	Level 3
Derivatives financial instruments	—	1,308	—

Financial Liabilities	December 31, 2020		
	Level 1	Level 2	Level 3
Accounts payable from acquisition of subsidiaries (earn out)	—	—	1,781
Redemption liability	—	—	52,582

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year.

The Group's policy is to recognize transfers into and out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price, these instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The fair value of the earn out classified as level 3 as of December 31, 2020 was calculated based on the judgment of the Group and the probability of meeting the goals of the acquisition made during the year. The Sale and Purchase agreement of the acquisition of Tradimus established the seller will be entitled to an earn out if some conditions are met. As at the acquisition date the fair value of the earn out was R\$1,781 and it did not have any variation until the payment date. The earn out was paid on September 30, 2021 in the amount of R\$1,781.

Fair value of the redemption liability classified as level 3 as of December 31, 2020 was calculated based on the Geometric Brownian Motion method using the following premises: (a) volatility(s) is constant over time; (b) the model do not predict major increase or decrease on ARR because of specific events and (c) it is not considered default probability. On June 29, 2021, The Group exercised its call option and de-recognized the redemption liability and recognized an accounts payable to the former shareholders. Refer to Note 22 for details.

Note 24. Related Parties

Balances and transactions between the Group and its subsidiaries, which are related parties, have been eliminated on consolidation and are not disclosed in this note.

Key management compensation

Key management personnel include all group directors. The compensation paid or to be paid to key management personnel is as follows:

	December 31, 2021	December 31, 2020
Short-term compensation (salaries and social charges)	6,343	3,638
Long-term incentive (share-based payments)	1,170	604
	7,513	4,242

Other than the above, there were no reportable transactions between the Group and members of the key management personnel and their close family members during the year ended December 31, 2021, and 2020.

Note 25. Earning (Losses) per share

Basic losses per share is calculated by dividing profit attributable to Company shareholders by the weighted average number of common shares available during the fiscal year. Diluted losses per share is calculated by

Semantix Tecnologia em Sistema de Informação S.A.
Notes to Consolidated Financial Statements
For the years ended December 31, 2021 and 2020
(In thousands of Brazilian reais, unless otherwise stated)

adjusting the weighted average number of common shares, presuming the conversion of all the potential diluted common shares.

Since the Group reported a loss for 2021 and 2020, the number of shares used to calculate diluted loss per share of common shares attributable to common shareholders is the same as the number of shares used to calculate basic loss per share of common shares attributable to common shareholders for the period presented because the potentially dilutive shares would have been antidilutive if included in the calculation.

The tables below show data of income and shares used in calculating basic and diluted earnings per share attributable to the ordinary equity holders of the Company:

	<u>December 31, 2021</u>	<u>December 31, 2020</u>
Loss for the year	(68,188)	(19,434)
Weighted average number of common outstanding shares ¹	1,643,585	1,606,280

Note 26. Subsequent Events

On January 14, 2022, we entered into a loan agreement with Banco Santander (Brasil) S.A. in the amount of R\$30.0 million, with interest accruing at a rate per annum equal to CDI plus 5.98% and maturing on December 30, 2024. This loan is secured by a standby letter of credit issued by Banco Santander (Brasil) S.A., as well as receivables from trade bills and financial investments.

On January 31, 2022, we entered into a loan agreement with Citibank, N.A. in the amount of US\$2.1 million, with interest accruing at a rate per annum equal to 3.62% and maturing on December 30, 2025. In January 2022, subject to the issuance of the consolidated audited financial statements as of and for the year ended December 31, 2021 management of the Group analyzed and concluded that net debt/EBITDA ratio and debt/EBITDA ratio may have been above 3.5, in each case as of December 31, 2021, as calculated in the manner prescribed in the applicable loan agreements. As a result, the Group would not be in compliance with the corresponding financial covenants included in certain of its loan agreements for which management has already obtained the waivers from the relevant lenders so that they waived and agreed not to enforce any of their rights with respect to such financial covenant.

On March 4, 2022, we entered into a loan agreement with Banco Bradesco (Brasil) SA in the amount of R\$30.0 million, with interest accrued at an annual rate equal to 14.77% per annum, maturing on March 31, 2022. 2026. (b) On the Closing Date and immediately following the First Effective Time, at the Second Effective Time, the Initial SPAC Surviving Sub will be merged with and into Second Merger Sub upon the terms and subject to the conditions set forth in this Agreement, the Second Plan of Merger and in accordance with the applicable provisions of the Companies Act, whereupon the separate corporate existence of the Initial SPAC Surviving Sub will cease and Second Merger Sub will continue its existence under the Companies Act as the surviving company (the “Subsequent SPAC Surviving Sub”). As a result of the Second Merger, the Subsequent SPAC Surviving Sub will become a wholly owned subsidiary of New PubCo.

As a result of the Third Merger, the Newco Surviving Sub will be a wholly owned subsidiary of New PubCo.

(b) From and after the Third Effective Time, the Newco Surviving Sub will possess all the rights, powers, privileges and franchises and be subject to all of the obligations, liabilities and duties of Newco and Second Merger Sub, all as provided under Companies Act.

2.6. Closing. (b) The First Merger will become effective at the time when the First Plan of Merger is registered by the Registrar of Companies of the Cayman Islands or such later time as First Merger Sub and SPAC may agree and specify pursuant to the Companies Act (such time as the First Merger becomes effective being the “First Effective Time”).

(c) The Second Merger will become effective at the time when the Second Plan of Merger is registered by the Registrar of Companies of the Cayman Islands or such later time as Initial SPAC Surviving Sub and Second Merger Sub may agree and specify pursuant to the Companies Act (such time as the Second Merger becomes effective being the “Second Effective Time”).

(d) The Third Merger will become effective at the time when the Third Plan of Merger is registered by the Registrar of Companies of the Cayman Islands or such later time as Third Merger Sub and Newco may agree and specify pursuant to the Companies Act (such time as the Third Merger becomes effective being the “Third Effective Time” and, together with the First Effective Time and the Second Effective Time, the “Effective Times”).

2.8. Effect of Mergers. At the Effective Times, the effect of the Mergers will be as provided in this Agreement, the First Plan of Merger, the Second Plan of Merger, the Third Plan of Merger and the applicable provisions of the Companies Act. ARTICLE III

CLOSING TRANSACTIONS

3.1. Effect on SPAC Shares and Warrants, First Merger Sub, Second Merger Sub, Third Merger Sub and New PubCo.

(a) At the First Effective Time, by virtue of the First Merger and without any action on the part of the SPAC, New PubCo, First Merger Sub or any holder of any SPAC Shares:

(i) Cancellation of Certain SPAC Shares. All SPAC Shares that are owned by SPAC, First Merger Sub or any wholly owned subsidiary of the SPAC immediately prior to the First Effective Time, shall automatically be canceled, and no New PubCo Ordinary Shares or other consideration shall be delivered or deliverable in exchange therefor.

(ii) Conversion of SPAC Shares. Each SPAC Share issued and outstanding immediately prior to the First Effective Time (except for shares being cancelled pursuant to Section 3.1(a)) shall be converted into and shall for all purposes represent only the right to receive a number of validly issued, fully paid and non-assessable shares of New PubCo Ordinary Shares equal to 1.00 (the “SPAC Exchange Ratio”) (such shares referred to collectively as the “First Merger Consideration”). As of the First Effective Time, all of the SPAC Shares shall no longer be outstanding and shall automatically be canceled by virtue of the First Merger and each former holder of SPAC Shares shall thereafter cease to have any rights with respect to such securities, except the right to receive, in accordance with this Section 3.1, the First Merger Consideration and otherwise as expressly provided herein.

(iii) Conversion of First Merger Sub Shares. At the First Effective Time, each share of First Merger Sub that is issued and outstanding immediately prior to the First Effective Time shall automatically convert into one share of Initial SPAC Surviving Sub, which shall constitute the only outstanding share of Initial SPAC Surviving Sub and be owned by New PubCo.

(iv) Cancellation of New PubCo Ordinary Shares. Each share of New PubCo that is outstanding immediately prior to the First Effective Time shall cease to be outstanding and shall be cancelled and shall cease to exist, and no consideration shall be delivered in exchange therefor.

(v) Treatment of SPAC Warrants. At the First Effective Time, each SPAC Warrant that is outstanding and unexercised immediately prior to the First Effective Time, whether or not vested, shall be converted into and become a warrant to purchase New PubCo Ordinary Shares, and New PubCo shall assume each such SPAC Warrant in accordance with its terms (as in effect as of the date of this Agreement). All rights with respect to SPAC Shares under SPAC Warrants assumed by New PubCo shall thereupon be converted into rights with respect to New PubCo Ordinary Shares. Accordingly, from and after the First Effective Time: (i) each SPAC Warrant assumed by New PubCo may be exercised solely for shares of New PubCo Ordinary Shares; (ii) the number of shares of New PubCo Ordinary Shares subject to each SPAC Warrant assumed by New PubCo shall be determined by multiplying (A) the number of SPAC Shares that were subject to such SPAC Warrant, as in effect immediately prior to the First Effective Time by (B) the SPAC Exchange Ratio and rounding the resulting number down to the nearest whole number of shares of New PubCo Ordinary Shares; (iii) the per share exercise price for the New PubCo Ordinary Shares issuable upon exercise of each SPAC Warrant assumed by New PubCo shall be determined by dividing (A) the per share exercise price of SPAC Shares subject to such SPAC Warrant, as in effect immediately prior to the

First Effective Time, by (B) the SPAC Exchange Ratio and rounding the resulting exercise price up to the nearest whole cent; and (iv) any restriction on the exercise of any SPAC Warrant assumed by New PubCo shall continue in full force and effect and the term, exercisability, vesting schedule and other provisions of such SPAC Warrant shall otherwise remain unchanged; provided, however, that to the extent provided under the terms of a SPAC Warrant, such SPAC Warrant assumed by New PubCo in accordance with this Section 3.1 shall, in accordance with its terms, be subject to further adjustment as appropriate to reflect any stock split, division or subdivision of shares, stock dividend or distribution (including any dividend or distribution of securities convertible into New PubCo Ordinary Shares), reorganization, combination, exchange of shares, reverse stock split, consolidation of shares, reclassification, recapitalization or other like change with respect to New PubCo Ordinary Shares subsequent to the First Effective Time.

(b) At the Second Effective Time, by virtue of the Second Merger and without any action on the part of Initial SPAC Surviving Sub or Second Merger Sub:

(i) Cancellation of Certain Second Merger Sub Shares. All shares of Second Merger Sub that are owned by Second Merger Sub, Initial SPAC Surviving Sub or any wholly owned subsidiary of the Second Merger Sub immediately prior to the Second Effective Time, shall automatically be canceled, and no New PubCo Ordinary Shares or other consideration shall be delivered or deliverable in exchange therefor.

(ii) Conversion of Second Merger Sub Shares. At the Second Effective Time, each share of Second Merger Sub that is issued and outstanding immediately prior to the Second Effective Time shall automatically convert into one share of Subsequent SPAC Surviving Sub, which shall constitute the only outstanding share of Subsequent SPAC Surviving Sub and be owned by New PubCo.

(iii) Cancellation of Initial SPAC Subsidiary Shares. Each share of Initial SPAC Surviving Sub that is outstanding immediately prior to the Second Effective Time shall cease to be outstanding and shall be cancelled and shall cease to exist, and no consideration shall be delivered in exchange therefor.

3.2. Effect on Newco Shares and Third Merger Sub. At the Third Effective Time, by virtue of the Third Merger and without any action on the part of Newco, New PubCo, Third Merger Sub or any holders of Newco Shares:

(a) Cancellation of Newco Shares. All Newco Shares that are owned by Newco ("Newco Treasury Shares"), Third Merger Sub or any wholly owned subsidiary of Newco immediately prior to the Third Effective Time shall automatically be canceled, and no New PubCo Ordinary Shares or other consideration shall be delivered or deliverable in exchange therefor.

(b) Conversion of Newco Shares. Each Newco Share issued and outstanding immediately prior to the Third Effective Time (except for Newco Treasury Shares and other shares being cancelled pursuant to Section 3.2(a)) shall be converted into and shall for all purposes represent only the right to receive the Per Share Consideration (the aggregate amounts of consideration allocated pursuant to this Section 3.2(b) and Section 3.3, collectively, the "Newco Shareholder Consideration"). All of the Newco Shares converted into the right to receive consideration as described in this Section 3.2(b) shall be automatically cancelled and extinguished and shall cease to exist, and each holder of Newco Shares shall thereafter cease to have any rights with respect to such securities, except the right to receive the applicable consideration described in this Section 3.2(b) into which such Newco Share shall have been converted or as otherwise provided in this Agreement and each former holder of Newco Shares shall thereafter cease to have any rights with respect to such securities, except as expressly provided herein.

(c) Conversion of Third Merger Sub Shares. At the Third Effective Time, each share of Third Merger Sub that is issued and outstanding immediately prior to the Third Effective Time shall automatically convert into one share of Newco Surviving Sub, which shall constitute the only outstanding share of Newco Surviving Sub and be owned by New PubCo.

3.3. Treatment of Company Options.

(a) Immediately prior to the Third Effective Time, the Company shall convert the exercise price and the Option Purchase Price of each then-outstanding Company Option which shall be expressed in U.S. dollars using the conversion rate published by the Central Bank of Brazil at the close of business on the day prior to the delivery of the Closing Payments Schedule. At the Third Effective Time:

(i) All Vested Company Options outstanding immediately prior to the Third Effective Time shall, automatically and without any action on the part of any Company Optionholder or beneficiary thereof, be “net exercised” in full immediately prior to the Third Effective Time, pursuant to which (A) the Company will withhold a number of Company Shares issuable upon such exercise in order to satisfy the exercise price applicable to such Vested Company Options, based on a price per Company Share equal to the Per Share Merger Consideration Value, and (B) at the Third Effective Time, such net number of Company Shares issuable to the Company Optionholder (after giving effect to clause (A) above) (the “Net Vested Option Shares”) shall be converted into a number of New PubCo Ordinary Shares determined by multiplying (1) such number of Net Vested Option Shares by (2) the Exchange Ratio, rounded to the nearest whole share. For the avoidance of doubt, (i) the rounding of any shares pursuant to this Section 3.3(a)(i) shall be determined on an award-by-award basis and (ii) the number of Net Vested Option Shares with respect to any applicable award of Vested Company Options will be determined (on an award-by-award basis) as follows: (I) first, the aggregate exercise price of the applicable award of Vested Company Options will be determined by multiplying the aggregate number of Company Shares issuable pursuant to such award of Vested Company Options by the exercise price per Company Share applicable to each such Vested Company Option thereunder (the “Aggregate Exercise Price”), (II) then the number of Company Shares required to satisfy the Aggregate Exercise Price applicable to such award of Vested Company Options will be determined by dividing the Aggregate Exercise Price of such award of Vested Company Options by the Per Share Merger Consideration Value (for these purposes, “Per Share Merger Consideration Value” will be calculated as the quotient of (a) (x) \$620,000,000, *plus* (y) the aggregate per share exercise price with respect to all Vested Company Options outstanding immediately prior to Closing, as if such Vested Company Options were exercised in full immediately prior to the Closing (without giving effect to “net exercise” under this Section 3.3(a)(i)) *divided by* (b) the sum of (x) the Newco Shares outstanding immediately prior to the Third Effective Time (after giving effect to the Pre-Closing Exchange) and (y) the Company Shares that, immediately prior to the net exercise contemplated under this Section 3.3(a)(i), are issuable upon exercise in full of all then-outstanding Vested Company Options) (“Option Shares Needed to Cover”), (III) then the Net Vested Option Shares applicable to such award of Vested Company Options will be determined by subtracting the applicable Option Shares Needed to Cover from the aggregate number of Company Shares underlying such award of Vested Company Options.

(ii) All outstanding Unvested Company Options immediately prior to the Third Effective Time shall, immediately prior to Closing, automatically and without any action on the part of any Company Optionholder or beneficiary thereof, be assumed by New PubCo, and each such Unvested Company Option shall be converted into an option to purchase New PubCo Ordinary Shares (each, a “Converted Option”). Each Converted Option shall continue to have and be subject to substantially the same terms and conditions as were applicable to such Unvested Company Option immediately before the Third Effective Time (including vesting, expiration date and exercise provisions), except that: (x) each Converted Option shall be exercisable for that number of New PubCo Ordinary Shares equal to the product (rounded down to the nearest whole share) of (A) the number of Company Shares subject to the Unvested Company Option immediately before the Third Effective Time multiplied by (B) the Exchange Ratio; and (y) the per share exercise price for New PubCo Ordinary Share issuable upon exercise of the Converted Option shall be equal to the quotient (rounded up to the nearest whole cent) obtained by dividing (A) the exercise price per Company Share of such Unvested Company Option immediately before the Third Effective Time by (B) the Exchange Ratio; provided, however, that the exercise price and the number of New PubCo Ordinary Shares purchasable under each Converted Option shall be determined in a manner consistent with the requirements of Section 409A of the Code and the applicable regulations promulgated thereunder; provided, further, that

in the case of any Unvested Company Option to which Section 422 of the Code applies, the exercise price and the number of New PubCo Ordinary Shares purchasable under such Converted Option shall be determined in accordance with the foregoing in a manner that satisfies the requirements of Section 424(a) of the Code.

(b) Prior to the Third Effective Time, the Company shall deliver to each Company Optionholder a notice setting forth the effect of the Mergers (including the Third Merger) on such Company Optionholder's Company Options and describing the treatment of such Company Options in accordance with this Section 3.3.

(c) Prior to the Third Effective Time, the Company shall take all necessary or appropriate actions to: (i) effectuate the provisions of this Article III; and (ii) ensure that after the Effective Times (including the Third Effective Time), neither any holder of Company Options, any beneficiary thereof, nor any other participant in the Company Share Plan shall have any right thereunder to acquire any securities of the Company or New PubCo or to receive any payment or benefit with respect to any award previously granted under the Company Share Plan, except as provided in this Article III. At the Third Effective Time, New PubCo shall assume the Company Share Plan, provided that all references to "Company" in the Company Share Plan and the documents governing the Converted Options after the Effective Times (including the Third Effective Time) will be deemed references to New PubCo and the number of New PubCo Ordinary Shares available for awards under the Company Share Plan shall be determined by adjusting the number of Company Shares available for awards under the Company Share Plan immediately before the Third Effective Time in accordance with the Exchange Ratio; provided, that any New PubCo Ordinary Shares available for awards under the Company Share Plan as of the Third Effective Time shall not be available for future awards under either the Company Share Plan or the New PubCo Equity Plan following the Third Effective Time.

(d) New PubCo shall (i) reserve for issuance the number of New PubCo Ordinary Shares that will become subject to the Converted Options and (ii) issue or cause to be issued the appropriate number of New PubCo Ordinary Shares, upon the exercise of the Converted Options. As soon as practicable following the Closing, New PubCo will prepare and file with the SEC a registration statement on Form S-8 (or other appropriate form) registering a number of shares of New PubCo Ordinary Shares necessary to fulfill New PubCo's obligations under this Section 3.3. The Company and its counsel shall reasonably cooperate with and assist New PubCo in the preparation of such registration statement.

3.4. Exchange Procedures. Following the date hereof and prior to the Effective Times, New PubCo shall appoint an exchange agent reasonably acceptable to the Company (the "Exchange Agent") to act as the exchange agent in connection with the Mergers and, if required by the Exchange Agent, enter into an exchange agent agreement with the Exchange Agent (the "Exchange Agent Agreement") in a form and substance that is reasonably acceptable to the Company and New PubCo; provided, however, that (i) Continental Trust is deemed to be reasonably acceptable and (ii) New PubCo shall afford the Company opportunity to review any proposed Exchange Agent Agreement prior to execution, and shall accept the Company's reasonable comments thereto.

3.5. Issuance of the Closing Number of Securities.

(a) At the Closing, New PubCo shall issue to each Newco Shareholder that has complied with the procedures to be agreed upon with the Exchange Agent, the number of shares of New PubCo Ordinary Shares to which each Newco Shareholder is entitled in respect of its Newco Shares pursuant to Section 3.2(a).

(b) At the Closing, New PubCo shall issue to each SPAC Shareholder that has complied with the procedures to be agreed upon with the Exchange Agent, the number of shares of New PubCo Ordinary Shares to which each SPAC Shareholder is entitled in respect of its Newco Shares pursuant to Section 3.1(a).

(c) Notwithstanding anything in this Agreement, no fraction of a New PubCo Ordinary Share shall be issued by virtue of the Mergers, and the Persons who would otherwise be entitled to a fraction of a New PubCo Ordinary Share (after aggregating all fractional New PubCo Ordinary Shares that otherwise would be received by such Person) shall receive from New PubCo, in lieu of such fractional share: (i) one New PubCo Ordinary Share

if the aggregate amount of fractional New PubCo Ordinary Shares such Person would otherwise be entitled to is equal to or exceeds 0.50; or (ii) no New PubCo Ordinary Shares if the aggregate amount of fractional New PubCo Ordinary Shares such Person would otherwise be entitled to is less than 0.50.

(d) The number of New PubCo Ordinary Shares that each Person is entitled to receive as a result of the Mergers and as otherwise contemplated by this Agreement shall be adjusted to reflect appropriately the effect of any stock split, division or subdivision of shares, stock dividend or distribution (including any dividend or distribution of securities convertible into New PubCo Ordinary Shares), reorganization, combination, exchange of shares, reverse stock split, consolidation of shares, reclassification, recapitalization or other like change with respect to New PubCo Ordinary Shares occurring on or after the date hereof and prior to the Closing.

3.6. SPAC Financing Certificate. Not later than two (2) Business Days prior to the Closing Date, SPAC shall deliver to Newco written notice (the “Financing Certificate”) setting forth: (a) the aggregate amount of cash proceeds that will be required to satisfy any exercise of the SPAC Shareholder Redemptions; (b) the estimated amount of SPAC Cash and Transaction Costs as of the Closing; and (c) the number of SPAC Class A Ordinary Shares to be outstanding as of the Closing after giving effect to the SPAC Shareholder Redemptions and the issuance of SPAC Class A Ordinary Shares pursuant to the Subscription Agreements and the terms of this Agreement and the Sponsor Letter Agreement. SPAC shall also deliver to Newco (x) a certificate of the Chief Financial Officer of SPAC certifying that the amounts set forth in the Financing Certificate have been prepared in accordance with this Agreement and (y) reasonable relevant supporting documentation used by SPAC in calculating such amounts, including with respect to Transaction Costs. Newco and its Representatives shall have a reasonable opportunity to review and to discuss with SPAC and its Representatives the documentation provided pursuant to this Section 3.6 and any relevant books and records of SPAC. SPAC and its Representatives shall reasonably assist Newco and its Representatives in its review of the documentation and shall consider in good faith Newco’s comments to the Financing Certificate, and if any adjustments are made to the Financing Certificate prior to the Closing (with Newco’s prior written consent), such adjusted Financing Certificate shall thereafter become the Financing Certificate for all purposes of this Agreement. The Financing Statement and the determinations contained therein shall be prepared in accordance with the applicable definitions contained in this Agreement. Newco shall be entitled to rely in all respects on the Financing Certificate.

3.7. Closing Calculations. Newco and the Company shall deliver to SPAC, no later than three (3) Business Days prior to the Closing Date written notice (the “Closing Payments Schedule”) setting forth: (a) the calculation of the Newco Shareholder Consideration and (b) the allocation of the Newco Shareholder Consideration among the Newco Shareholders. Newco and the Company shall also deliver to SPAC, (x) a certificate of the Chief Financial Officer of Newco certifying that the amounts set forth in the Closing Payments Schedule have been prepared in accordance with this Agreement and Newco’s and the Company’s Governing Documents and (y) reasonable relevant supporting documentation used by Newco and the Company in calculating such amounts. SPAC and its Representatives shall have a reasonable opportunity to review and to discuss with Newco and its Representatives the documentation provided pursuant to this Section 3.7 and any relevant books and records of Newco and its Subsidiaries. Newco and its Representatives shall reasonably assist SPAC and its Representatives in its review of the documentation and shall consider in good faith SPAC’s comments to the Closing Payments Schedule, and if any adjustments are made to the Closing Payments Schedule prior to the Closing, such adjusted Closing Payments Schedule shall thereafter become the Closing Payments Schedule for all purposes of this Agreement. The Closing Payments Schedule and the determinations contained therein shall be prepared in accordance with the applicable definitions contained in this Agreement. New PubCo, SPAC, First Merger Sub, Second Merger Sub and Third Merger Sub will be entitled to rely in all respects upon the Closing Payments Schedule.

3.8. Earn-Out Shares.

(a) If the conditions set forth in this Section 3.8 are satisfied, New PubCo shall issue to the Earn-Out Participants, in accordance with their Earn-Out Proportion, a total of up to 2,500,000 newly issued New PubCo

Table of Contents

Ordinary Shares (such New PubCo Ordinary Shares, together with any equity securities paid as dividends or distributions with respect to such shares or into which such shares are exchanged or converted, and any additional shares issued in lieu of fractional shares pursuant hereto, the “Earn-Out Shares”), as follows:

(i) if at any time during the 5 year period following the Closing Date (the end of such period, the “First Release Date”) the closing share price of the New PubCo Ordinary Shares is greater than or equal to \$12.50 over any 20 Trading Days within any consecutive 30 Trading Day period, one-half of the Earn-Out Shares shall be issued; and

(ii) if at any time during the 5 year period following the Closing Date (the end of such period, the “Second Release Date”) the closing share price of the New PubCo Ordinary Shares is greater than or equal to \$15.00 over any 20 Trading Days within any consecutive 30 Trading Day period, one-half of the Earn-Out Shares shall be issued (in addition to any Earn-Out Shares issued pursuant to Section 3.8(a)(i)).

(b) If (i) the First Release Date or the Second Release Date occurs on a day that is not a Trading Day, then the “First Release Date” or the “Second Release Date” (as applicable) shall for all purposes of this Agreement be deemed to occur on the next following Trading Day, and (ii) if New PubCo or any of its affiliates enters into a definitive agreement with respect to an Acceleration Event (as defined below) on or prior to the First Release Date or the Second Release Date, then the First Release Date or the Second Release Date (as applicable) shall be automatically extended and shall be deemed to occur on the earlier of (A) the consummation of such Acceleration Event and (B) the termination of such definitive agreement with respect to such Acceleration Event in accordance with its terms.

(c) The New PubCo Ordinary Share price targets in Sections 3.8(a)(i) and (a)(ii) shall be equitably adjusted for stock split, division or subdivision of shares, stock dividend or distribution (including any dividend or distribution of securities convertible into New PubCo Ordinary Shares), reorganization, combination, exchange of shares, reverse stock split, consolidation of shares, reclassification, recapitalization or other like change affecting the New PubCo Ordinary Shares after the Effective Times.

(d) In the event of the satisfaction of the threshold set forth in Section 3.8(a)(i) on or prior to the First Release Date or the threshold set forth in Section 3.8(a)(ii) on or prior to the Second Release Date, as soon as practicable (but in any event within five (5) Business Days) after such satisfaction, New PubCo shall issue such Earn-Out Shares to the Earn-Out Participants as a result thereof (for the avoidance of doubt, for all purposes hereunder, such Earn-Out Participants shall be deemed entitled to such Earn-Out Shares as of the date of satisfaction of the threshold set forth in Section 3.8(a)(i) or the threshold set forth in Section 3.8(a)(ii), notwithstanding the issuance of such Earn-Out Shares following such date of satisfaction).

(e) In the event of the failure of the satisfaction of the threshold set forth in Section 3.8(a)(i) on or prior to the First Release Date, or the failure of the satisfaction of the threshold set forth in Section 3.8(a)(ii) on or prior to the Second Release Date, the right and entitlement herein to the portion of the Earn-Out Shares that is the subject of the applicable threshold shall be forfeited by the Earn-Out Participants.

(f) Following the Closing, including during the 5 year period following the Closing Date, New PubCo and its Subsidiaries, including the Group Companies, will be entitled to (i) operate their respective businesses based upon their respective business requirements and in their own business judgment, and (ii) make changes in their respective sole discretion to their respective operations, organization, personnel, accounting practices and other aspects of their respective businesses, including actions that may have an impact on whether any thresholds in respect of Earn-Out Shares have been met, and none of the holders of Company Shares as of the Closing will have any right to claim the loss of all or any portion of the Earn-Out Shares or other damages as a result of such decisions.

(g) If, during the 5 year period following the Closing Date, (i) there is a transaction that results in New PubCo Ordinary Shares being converted into the right to receive cash or other consideration having a value (in

the case of any non-cash consideration, as provided in the definitive transactions documents for such transaction, or if not so provided, determined by the board of directors of New PubCo (the “New PubCo Board”) in good faith) in excess of the threshold set forth in Section 3.8(a)(i) on or prior to the First Release Date, or the threshold set forth in Section 3.8(a)(ii) on or prior to the Second Release Date (each as equitably adjusted for stock split, division or subdivision of shares, stock dividend or distribution (including any dividend or distribution of securities convertible into New PubCo Ordinary Shares), reorganization, combination, exchange of shares, reverse stock split, consolidation of shares, reclassification, recapitalization or other like change affecting the New PubCo Ordinary Shares after the date of this Agreement) (an “Acceleration Event”), then the Earn-Out Shares subject to the applicable threshold shall be issued to the Earn-Out Participants effective as of immediately prior to the consummation of such transaction, or otherwise treated as so issued in connection therewith, so as to ensure that the recipients of such Earn-Out Shares shall receive such Earn-Out Shares, and all proceeds thereof, in connection with such transaction, and (ii) there is a transaction that will result in New PubCo Ordinary Shares being converted into the right to receive cash or other consideration having a value (in the case of any non-cash consideration, as provided in the definitive transactions documents for such transaction, or if not so provided, determined by the New PubCo Board in good faith) less than the threshold set forth in Section 3.8(a)(i) on or prior to the First Release Date, or the threshold set forth in Section 3.8(a)(ii) on or prior to the Second Release Date, (each as equitably adjusted for stock split, division or subdivision of shares, stock dividend or distribution (including any dividend or distribution of securities convertible into New PubCo Ordinary Shares), reorganization, combination, exchange of shares, reverse stock split, consolidation of shares, reclassification, recapitalization or other like change affecting the New PubCo Ordinary Shares after the date of this Agreement), then the Earn-Out Shares that remain subject to the applicable threshold shall be forfeited.

(h) At the time that any Earn-Out Shares become vested pursuant to this Section 3.8, New PubCo shall remove any legends, stock transfer restrictions, stop transfer orders or similar restrictions with respect to the Earn-Out Shares related to such vesting.

(i) The Earn-Out Participants are intended third party beneficiaries of this Section 3.8, and shall be entitled to enforce the same by action of the Earn-Out Participants who together received at least 20% of the Newco Shareholder Consideration.

3.9. Withholding Taxes. Notwithstanding anything in this Agreement to the contrary, Exchange Agent, SPAC, the Company, and New PubCo, and their respective Affiliates, shall be entitled to deduct and withhold from the consideration otherwise payable pursuant to this Agreement any amount required to be deducted and withheld with respect to the making of such payment under applicable Legal Requirements. If any deduction or withholding is so required in connection with any such payments (other than compensatory payments to employees of the Group Companies), Exchange Agent, SPAC or New PubCo, as applicable, shall provide written notice to the Company of the amounts to be deducted and withheld no later than ten (10) Business Days prior to such payment. Each Party shall expend commercially reasonable efforts to (a) avail itself of any available exemptions from, or any refunds, credits or other recovery of, any such Tax deductions and withholdings and shall cooperate with the other Parties in providing any information and documentation that may be necessary to obtain such exemptions, refunds, credits or other recovery and (b) eliminate or minimize the amount of any such Tax deductions and withholdings. THE COMPANY HEREBY ACKNOWLEDGES THAT IT HAS NOT RELIED ON ANY PROMISE, REPRESENTATION OR WARRANTY THAT IS NOT EXPRESSLY SET FORTH IN THIS AGREEMENT AND THE OTHER TRANSACTION AGREEMENTS. Except as set forth in the SPAC Disclosure Letter, each of New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub represent and warrant to the Company, severally but not jointly, that each statement contained in Section 5.2 and Section 5.21 (to the extent the statements in Section 5.21 are applicable to New PubCo, First Merger Sub, Second Merger Sub or Third Merger Sub) is true and correct as of the date hereof and as of the Closing Date.

5.1. Organization and Qualification.

(a) SPAC is an exempted company duly incorporated with limited liability, validly existing and in good standing under the laws of the Cayman Islands.

(b) SPAC has the requisite corporate power and authority to own, lease and operate its assets and properties and to carry on its business as it is now being conducted.

(c) SPAC is not in violation of any of the provisions of its Governing Documents in any material respect.

(d) SPAC is duly qualified or licensed to do business as a foreign corporation and is in good standing in each jurisdiction where the character of the properties owned, leased or operated by it or the nature of its activities makes such qualification or licensing necessary other than in such jurisdictions where the failure to so qualify would not, individually or in the aggregate, reasonably be expected to have a SPAC Material Adverse Effect.

5.2. New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub.

(a) Each of New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub is an exempted company duly incorporated with limited liability, validly existing and in good standing under the laws of the Cayman Islands. Each of New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub has the requisite corporate power and authority to own, lease and operate its assets and properties and to carry on its business as it is now being conducted, except as would not be material to New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub, taken as a whole or have a SPAC Material Adverse Effect. None of New PubCo, First Merger Sub, Second Merger Sub or Third Merger Sub are in violation of any of the provisions of their respective Governing Documents in any material respect. Each of New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub is duly qualified or licensed to do business as a foreign corporation or limited liability company and is in good standing in each jurisdiction where the character of the properties owned, leased or operated by it or the nature of its activities makes such qualification or licensing necessary other than in such jurisdictions where the failure to so qualify would not, individually or in the aggregate, reasonably be expected to have a (i) material adverse effect on the ability of any SPAC Party to enter into this Agreement and the Transaction Agreements to which it is or will be a party and to consummate the Transactions or (ii) a SPAC Material Adverse Effect.

(b) New PubCo has no direct or indirect Subsidiaries or participations in joint ventures or other entities, and does not own, directly or indirectly, any equity interests or other interests or investments (whether equity or debt) in any Person other than First Merger Sub, Second Merger Sub and Third Merger Sub. Neither New PubCo, First Merger Sub, Second Merger Sub nor Third Merger Sub has, and at all times prior to each Closing Date shall not have, except as expressly contemplated by the Transaction Agreements and the Transactions, any assets, properties, liabilities or obligations of any kind other than those incident to its formation and this Agreement, and does not now conduct and has never conducted any business or operations except as expressly contemplated by the Transaction Agreements and the Transactions. New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub are entities that have been formed solely for the purpose of engaging in the Transactions.

(c) All outstanding shares of First Merger Sub, Second Merger Sub and Third Merger Sub are owned by New PubCo, free and clear of all Liens (other than Permitted Liens). Except as contemplated by this Agreement, there are no outstanding options, warrants, rights, convertible or exchangeable securities, “phantom” stock or share rights, stock or share appreciation rights, stock-based performance units, commitments or Contracts of any kind to which New PubCo is a party or by which it is bound obligating New PubCo to issue, deliver or sell, or cause to be issued, delivered or sold, additional New PubCo Ordinary Shares or any other

shares or other interest or participation in, or any security convertible or exercisable for or exchangeable into, New PubCo Ordinary Shares or any other shares or other interest or participation in New PubCo, no outstanding New PubCo Ordinary Shares are subject to vesting or forfeiture rights or repurchase by a New PubCo, and there are no outstanding or authorized stock appreciation, dividend equivalent, profit participation or other similar rights issued by New PubCo.

(d) Each of New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub has the requisite power and authority to:

(a) execute, deliver and perform this Agreement and the other Transaction Agreements to which it is a party, and each ancillary document that it has executed or delivered or is to execute or deliver pursuant to this Agreement; and (b) carry out its obligations hereunder and thereunder and to consummate the Transactions (including the Mergers). The execution and delivery by New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub of this Agreement and the other Transaction Agreements to which each of them is a party, and the consummation by New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub of the Transactions (including the Mergers) have been duly and validly authorized by all necessary corporate action on the part of each of New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub, and no other proceedings on the part of New PubCo, First Merger Sub, Second Merger Sub or Third Merger Sub are necessary to authorize this Agreement or the other Transaction Agreements to which each of them is a party or to consummate the transactions contemplated thereby. This Agreement and the other Transaction Agreements to which each of them is a party have been duly and validly executed and delivered by New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub and, assuming the due authorization, execution and delivery thereof by the Company, constitute the legal and binding obligations of New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub (as applicable), enforceable against New PubCo, First Merger Sub, Second Merger Sub and Third Merger Sub (as applicable) in accordance with their terms, except insofar as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors' rights generally or by principles governing the availability of equitable remedies.

(e) Complete and correct copies of the Governing Documents of New PubCo and the Merger Subs, as currently in effect, have been made available to the Company as of the date hereof, which Governing Documents shall not be modified until immediately prior to the First Effective Time, at which point the modifications provided for in Section 2.9 shall be carried out.

5.3. Capitalization.

All outstanding SPAC Class A Ordinary Shares and SPAC Class B Ordinary Shares have been duly authorized, validly issued, fully paid and are non-assessable and are not subject to, nor have been issued in violation of, any purchase option, call option, right of first refusal, preemptive right, subscription right or any similar right. The SPAC Warrants have been validly issued, and constitute valid and binding obligations of SPAC, enforceable against SPAC in accordance with their terms, except insofar as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors' rights generally or by principles governing the availability of equitable remedies. Upon the closing of the transactions contemplated by the Subscription Agreements, SPAC has committed to issue 9,400,000 SPAC Class A Ordinary Shares to the PIPE Investors.

(b) Except for the SPAC Warrants, SPAC Class A Ordinary Shares and the Subscription Agreements, there are no outstanding options, warrants, rights, convertible or exchangeable securities, “phantom” stock or share rights, stock or share appreciation rights, stock-based performance units, commitments or Contracts of any kind to which SPAC is a party or by which it is bound obligating SPAC to issue, deliver or sell, or cause to be issued, delivered or sold, additional SPAC Shares or any other shares or other interest or participation in, or any security convertible or exercisable for or exchangeable into, SPAC Shares or any other shares or other interest or participation in SPAC. SPAC has no direct or indirect Subsidiaries or participations in joint ventures or other entities, and does not own, directly or indirectly, any equity interests or other interests or investments (whether equity or debt) in any Person, whether incorporated or unincorporated.

(c) Except as set forth in the SPAC Governing Documents or the Current Registration Rights Agreement or in connection with the Transactions, there are no registration rights, and there is no voting trust, proxy, rights plan, anti-takeover plan or other agreements or understandings to which SPAC is a party or by which SPAC is bound with respect to any ownership interests of SPAC.

(d) As of the date of this Agreement: (i) 50,000 shares, par value \$1.00 per share, of New PubCo are authorized, and one such share is issued and outstanding; (ii) 50,000 shares, par value \$1.00 per share, of First Merger Sub are authorized, and one such share is issued and outstanding; (iii) 50,000 shares, par value \$1.00 per share, of Second Merger Sub are authorized, and one such share is issued and outstanding; and (iv) 50,000 shares, par value \$1.00 per share, of Third Merger Sub are authorized, and one such share is issued and outstanding;

5.4. Authority Relative to this Agreement. Each SPAC Party has the requisite power and authority to: (a) execute, deliver and perform this Agreement and the other Transaction Agreements to which it is a party; and (b) carry out its obligations hereunder and thereunder and to consummate the Transactions (including the Mergers). The execution and delivery by each SPAC Party of this Agreement and the other Transaction Agreements to which it is a party, and the consummation by each SPAC Party of the Transactions (including the Mergers) have been duly and validly authorized by all necessary corporate action on the part of such SPAC Party, and no other proceedings on the part of such Person are necessary to authorize this Agreement or the other Transaction Agreements to which it is a party or to consummate the transactions contemplated thereby, other than approval of the SPAC Shareholder Matters. This Agreement and the other Transaction Agreements to which each SPAC Party is a party have been duly and validly executed and delivered by such SPAC Party and, assuming the due authorization, execution and delivery hereof and thereof by the Company, constitute the legal and binding obligations of such SPAC Party enforceable against it in accordance with their terms, except insofar as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors’ rights generally or by principles governing the availability of equitable remedies.

5.5. No Conflict; Required Filings and Consents.

(a) Subject to the approval by the shareholders of the SPAC Shareholder Matters, neither the execution, delivery nor performance by any SPAC Party of this Agreement or the other Transaction Agreements to which it is a party, nor the consummation of the Transactions, shall: (i) conflict with or violate such SPAC Party’s Governing Documents; (ii) assuming that the consents, approvals, orders, authorizations, registrations, filings or permits referred to in Section 5.5(b) are duly and timely obtained or made, conflict with or violate any applicable Legal Requirements; or (iii) result in any breach of or constitute a default (or an event that with notice or lapse of time or both would become a default) under, or materially impair its rights or alter the rights or obligations of any third party under, or give to any third party any rights of consent, termination, amendment, acceleration or cancellation of, or result in the creation of a Lien (other than any Permitted Lien) on any of the properties or assets of such SPAC Party pursuant to, any Contracts, except, with respect to clauses (ii) and (iii), as would not, individually or in the aggregate, have a (i) material adverse effect on the ability of any SPAC Party to enter into this Agreement and the Transaction Agreements to which it is or will be a party and to consummate the Transactions or (ii) a SPAC Material Adverse Effect.

(b) The execution and delivery by each SPAC Party of this Agreement and the other Transaction Agreements to which it is a party does not, and the performance of its obligations hereunder and thereunder will not, require any consent, approval, authorization or permit of, or filing with or notification to, any Governmental Entity, except: (i) for the filing of the First Plan of Merger and associated documents and Second Plan of Merger and associated documents in accordance with the Companies Act; (ii) for applicable requirements, if any, of the Securities Act, the Exchange Act, blue sky laws, foreign securities laws and the rules and regulations thereunder, and appropriate documents with the relevant authorities of other jurisdictions in which such SPAC Party is qualified to do business; (iii) for the filing of any notifications required under the Antitrust Laws and the expiration of the required waiting periods thereunder; (iv) for the consents, approvals, authorizations and permits described in Schedule 5.5(b) of the SPAC Disclosure Letter; and (v) where the failure to obtain such consents, approvals, authorizations or permits, or to make such filings or notifications, would not, individually or in the aggregate, have a (i) material adverse effect on the ability of any SPAC Party to enter into this Agreement and the Transaction Agreements to which it is or will be a party and to consummate the Transactions or (ii) a SPAC Material Adverse Effect.

5.6. Compliance; Approvals. Since its incorporation or organization, as applicable, each SPAC Party has complied in all material respects with and has not been in violation of any applicable Legal Requirements with respect to the conduct of its business, or the ownership or operation of its business. Since the date of its incorporation or organization, as applicable, to the Knowledge of SPAC, no investigation or review by any Governmental Entity with respect to any SPAC Party has been pending or threatened. No written or, to the Knowledge of SPAC, oral notice of non-compliance with any applicable Legal Requirements has been received by any SPAC Party. Each SPAC Party is in possession of all Approvals necessary to own, lease and operate the properties it purports to own, operate or lease and to carry on its business as it is now being conducted, except where the failure to have such Approvals would not, individually or in the aggregate, reasonably be expected to have a SPAC Material Adverse Effect. Each Approval held by each SPAC Party is valid, binding and in full force and effect in all material respects. No SPAC Party: (a) is in default or violation (and no event has occurred that, with notice or the lapse of time or both, would constitute a default or violation) of any material term, condition or provision of any such Approval; or (b) has received any notice from a Governmental Entity that has issued any such Approval that it intends to cancel, terminate, modify or not renew any such Approval, except in the case of clauses (a) and (b) as would not individually or in the aggregate, reasonably be expected to have a (i) material adverse effect on the ability of any SPAC Party to enter into this Agreement and the Transaction Agreements to which it is or will be a party and to consummate the Transactions or (ii) a SPAC Material Adverse Effect.

5.7. SPAC SEC Reports and Financial Statements.

(a) SPAC has timely filed all forms, reports, schedules, statements and other documents required to be filed or furnished by SPAC with the SEC under the Exchange Act or the Securities Act since SPAC's incorporation to the date of this Agreement, together with any amendments, restatements or supplements thereto (all of the foregoing filed prior to the date of this Agreement, the "SPAC SEC Reports"), and will have timely filed all such forms, reports, schedules, statements and other documents required to be filed subsequent to the date of this Agreement through the Closing Date (the "Additional SPAC SEC Reports"). All SPAC SEC Reports, Additional SPAC SEC Reports, any correspondence from or to the SEC (other than such correspondence in connection with the initial public offering of New PubCo) and all certifications and statements required by: (i) Rule 13a-14 or 15d-14 under the Exchange Act; or (ii) 18 U.S.C. § 1350 (Section 906) of the Sarbanes-Oxley Act with respect to any of the foregoing (collectively, the "Certifications") are available on the SEC's Electronic Data-Gathering, Analysis and Retrieval system (EDGAR) in full without redaction. SPAC has heretofore furnished to the Company true and correct copies of all amendments and modifications that have not been filed by SPAC with the SEC to all agreements, documents and other instruments that previously had been filed by SPAC with the SEC and are currently in effect. The SPAC SEC Reports complied, and the Additional SPAC SEC Reports will comply, in all material respects with the requirements of the Securities Act, the Exchange Act and the Sarbanes-Oxley Act, as the case may be, and the rules and regulations thereunder. The SPAC SEC

Table of Contents

Reports did not at the time they were filed, and the Additional SPAC SEC Reports will not at the time they are filed, as the case may be, with the SEC contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary in order to make the statements made therein, in light of the circumstances under which they were made, not misleading. The Certifications are each true and correct in all material respects. As of the date of this Agreement, there are no outstanding or unresolved comments in comment letters received from the SEC with respect to any SPAC SEC Reports. To the Knowledge of SPAC, none of the SPAC SEC Reports filed on or prior to the date of this Agreement is subject to ongoing SEC review or investigation as of the date of this Agreement. SPAC maintains disclosure controls and procedures required by Rule 13a-15(e) or 15d-15(e) under the Exchange Act. Each director and executive officer of SPAC has filed with the SEC on a timely basis all statements required with respect to SPAC by Section 16(a) of the Exchange Act and the rules and regulations thereunder. As used in this Section 5.7, the term “file” shall be broadly construed to include any manner in which a document or information is furnished, supplied or otherwise made available to the SEC or the NASDAQ, so long as copies thereof are publicly available.

(b) The financial statements and notes of SPAC contained or incorporated by reference in the SPAC SEC Reports fairly present, and the financial statements and notes of SPAC to be contained in or to be incorporated by reference in the Additional SPAC SEC Reports will fairly present, in all material respects the financial condition and the results of operations, changes in shareholders’ equity and cash flows of SPAC as at the respective dates of, and for the periods referred to in, such financial statements, all prepared from the books and records of the SPAC and in accordance with:

(i) GAAP; and (ii) Regulation S-X and Regulation S-K, in each case, applied on a consistent basis throughout the periods involved, subject, in the case of interim financial statements, to normal recurring year-end adjustments (the effect of which will not, individually or in the aggregate, be material) and the omission of notes to the extent permitted by Regulation S-X or Regulation S-K, as applicable. SPAC has no off-balance sheet arrangements that are not disclosed in the SPAC SEC Reports.

5.8. Absence of Certain Changes or Events. Except as set forth in SPAC SEC Reports filed prior to the date of this Agreement, and except as contemplated by this Agreement, since the incorporation of the SPAC, there has not been: (a) any SPAC Material Adverse Effect; (b) any material adverse effect on the ability of any SPAC Party to enter into this Agreement and the Transaction Agreements to which it is or will be a party and to consummate the Transactions; or (c) any action taken or agreed upon by SPAC that would be prohibited by Section 6.2 if such action were taken on or after the date hereof without the consent of the Company.

5.9. Litigation. Except as would not, individually or in the aggregate, reasonably be expected to have a (i) material adverse effect on the ability of any SPAC Party to enter into this Agreement and the Transaction Agreements to which it is or will be a party and to consummate the Transactions or (ii) a SPAC Material Adverse Effect, there is: (a) no pending or, to the Knowledge of any SPAC Party, threatened Legal Proceeding against any SPAC Party or any of its properties or assets, or any of the directors, managers or officers of any SPAC Party with regard to their actions as such, and, to the Knowledge of SPAC, no facts exist that would reasonably be expected to form the basis for any such Legal Proceeding; (b) other than with respect to audits, examinations or investigations in the ordinary course of business conducted by a Governmental Entity, no pending or, to the Knowledge of SPAC, threatened audit or examination by any Governmental Entity against any SPAC Party or any of its properties or assets, or any of the directors, managers or officers of any SPAC Party with regard to their actions as such, and, to the Knowledge of SPAC, no facts exist that would reasonably be expected to form the basis for any such audit or examination; (c) no pending or threatened Legal Proceeding by any SPAC Party against any third party; (d) no settlement or similar agreement that imposes any material ongoing obligation or restriction on any SPAC Party; and (e) no Order imposed or, to the Knowledge of SPAC, threatened in writing to be imposed upon any SPAC Party or any of its respective properties or assets, or any of the directors, managers or officers of any SPAC Party with regard to their actions as such.

5.10. Business Activities.

(a) Since its incorporation, SPAC has not conducted any business activities other than activities: (i) in connection with its organization; (ii) in connection with its initial public offering; and (iii) directed toward the

Table of Contents

accomplishment of a business combination. Except as set forth in the Governing Documents SPAC, there is no Contract or Order binding upon SPAC or to which it is a party which has or could reasonably be expected to have the effect of prohibiting or materially impairing any business practice of it, any acquisition of property by it or the conduct of business by it as currently conducted or as currently contemplated to be conducted (including, in each case, as of the Closing).

(b) Except for the Transactions, the SPAC Parties do not own or have a right to acquire, directly or indirectly, any interest or investment (whether equity or debt) in any corporation, partnership, joint venture, business, trust or other entity. Except for this Agreement and the Transaction Agreements and the transactions contemplated hereby and thereby, the SPAC Parties have no material interests, rights, obligations or liabilities with respect to, and are not party to, bound by or have their assets or property subject to, in each case whether directly or indirectly, any Contract or transaction which is, or would reasonably be interpreted as constituting, a business combination.

5.11. SPAC Material Contracts.

(a) Schedule 5.11 of the SPAC Disclosure Letter sets forth a true, correct and complete list of (i) each “material contract” (as such term is defined in Regulation S-K) to which any SPAC Party is party (the “SPAC Material Contracts”), other than any such SPAC Material Contract that is listed as an exhibit to SPAC’s Registration Statement on Form S-1 (File No. 333-241831).

(b) True, correct and complete copies of the SPAC Material Contracts have been delivered to or made available to the Company or its Representatives. Except for each SPAC Material Contract that has terminated or will terminate upon the expiration of the stated term thereof prior to the Closing Date and except as would not reasonably be expected to, individually or in the aggregate, have a SPAC Material Adverse Effect, (i) such Contracts are in full force and effect and represent the legal, valid and binding obligations of the SPAC Parties and, to the Knowledge of the SPAC Parties, represent the legal, valid and binding obligations of the other parties thereto, and, to the Knowledge of the SPAC Parties, are enforceable by the SPAC Parties to the extent a party thereto in accordance with their terms, except insofar as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors’ rights generally or by principles governing the availability of equitable remedies, and (ii) none of the SPAC Parties or, to the Knowledge of the SPAC Parties, any other party thereto is in material breach of or material default (or would be in material breach, violation or default but for the existence of a cure period) under any such Contract.

5.12. SPAC Listing. The SPAC Units are registered pursuant to Section 12(b) of the Exchange Act and are listed for trading on the Nasdaq Capital Market (“NASDAQ”) under the symbol “ASPCU”. The SPAC Class A Ordinary Shares are registered pursuant to Section 12(b) of the Exchange Act and are listed for trading on the NASDAQ under the symbol “ASPC”. The SPAC Warrants are registered pursuant to Section 12(b) of the Exchange Act and are listed for trading on the NASDAQ under the symbol “ASPCW”. There is no action or proceeding pending or, to the Knowledge of SPAC, threatened in writing against SPAC by the NASDAQ or the SEC with respect to any intention by such entity to deregister the SPAC Units, the SPAC Class A Ordinary Shares or SPAC Warrants or to terminate the listing of SPAC on the NASDAQ. None of SPAC or any of its Affiliates has taken any action in an attempt to terminate the registration of the SPAC Units, the SPAC Class A Ordinary Shares or SPAC Warrants under the Exchange Act.

5.13. PIPE Investment Amount.

(a) SPAC has delivered to the Company true, correct and complete copies of each Subscription Agreement (including any amendments, side letters or other supplements thereto) entered into on or prior to the date hereof, pursuant to which the PIPE Investors have committed to provide the PIPE Investment.

(b) Pursuant to, and on the terms and subject to the conditions of the subscription agreements entered into by SPAC and New PubCo with certain PIPE Investors in relation to the PIPE Investment (each such

executed subscription agreement, including any amendments, side letters or other supplements thereto, an “[Subscription Agreement](#)”), the PIPE Investors have agreed to purchase SPAC Class A Ordinary Shares for an aggregate purchase price of \$94,000,000 (the “[PIPE Investment Amount](#)”). The PIPE Investment Amount, together with the amount in the Trust Account will be, prior to or at the Closing, in the aggregate sufficient to enable SPAC and New PubCo to pay all cash amounts required to be paid by SPAC and New PubCo pursuant to this Agreement prior to or at the Closing. As of the date hereof, the Subscription Agreements are, and as of the First Closing, the Subscription Agreements will be, in full force and effect, and none of the Subscription Agreements have been withdrawn or terminated, or otherwise amended or modified, in any respect, and no such withdrawal, termination, amendment or modification is contemplated by SPAC or New PubCo. As of the date hereof, each Subscription Agreement is, and as of the First Closing, each Subscription Agreement will be, a legal, valid and binding obligation of SPAC and New PubCo and, to SPAC’s Knowledge, each PIPE Investor, except insofar as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors’ rights generally or by principles governing the availability of equitable remedies. Other than as expressly contemplated by or referred to in the Subscription Agreements, there are no other agreements, side letters or arrangements between SPAC, New PubCo and/or any PIPE Investor relating to any Subscription Agreement that could affect the obligation of the PIPE Investors to contribute to New PubCo the applicable portion of the PIPE Investment Amount set forth in the Subscription Agreements, and, as of the date hereof, SPAC does not know of any facts or circumstances that may reasonably be expected to result in any of the conditions set forth in any Subscription Agreement not being satisfied, or the PIPE Investment Amount not being available to SPAC and New PubCo, on the Closing Date. No event has occurred that, with or without notice, lapse of time or both, would constitute a default or breach on the part of SPAC or New PubCo under any material term or condition of any Subscription Agreement and, as of the date hereof, neither SPAC nor New PubCo has any reason to believe that it will be unable to satisfy in all material respects on a timely basis any term or condition of closing to be satisfied by it contained in any Subscription Agreement. The Subscription Agreements contain all of the conditions precedent (other than the conditions contained in the other Transaction Agreements) to the obligations of the PIPE Investors to contribute to SPAC the applicable portion of the PIPE Investment Amount set forth in the Subscription Agreements on the terms therein. No fees, consideration or other discounts are payable or have been agreed by the SPAC Parties or any of their Affiliates to any PIPE Investor in respect of its investment or, except as set forth in the Subscription Agreements.

5.14. [Trust Account](#).

(a) As of the date of this Agreement, SPAC has at least \$230,000,000 in a trust account (the “[Trust Account](#)”), maintained and invested pursuant to that certain Investment Management Trust Agreement (the “[Trust Agreement](#)”) effective as of February 18, 2021, by and between SPAC and Continental Stock Transfer and Trust Company (“[Continental Trust](#)”), for the benefit of its public shareholders, with such funds invested in United States Government securities or money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act. Other than pursuant to the Trust Agreement and the Subscription Agreements, the obligations of SPAC under this Agreement are not subject to any conditions regarding SPAC’s, its Affiliates’ or any other Person’s ability to obtain financing for the consummation of the Transactions.

(b) The Trust Agreement has not been amended or modified and, to the Knowledge of SPAC with respect to Continental Trust, is valid and in full force and effect and is enforceable in accordance with its terms, except insofar as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors’ rights generally or by principles governing the availability of equitable remedies. SPAC has complied in all material respects with the terms of the Trust Agreement and is not in breach thereof or default thereunder, and there does not exist under the Trust Agreement any event that, with the giving of notice or the lapse of time, would constitute such a breach or default by SPAC or, to the Knowledge of SPAC, Continental Trust. There are no separate Contracts, side letters or other written understandings: (i) between SPAC and Continental Trust that would cause the description of the Trust Agreement in the SPAC SEC Reports to be inaccurate in any material respect; or (ii) to the Knowledge of SPAC, that would entitle any Person (other

than shareholders of SPAC holding SPAC Shares sold in SPAC's initial public offering who shall have elected to redeem their SPAC Shares pursuant to SPAC's Governing Documents or the underwriters of the initial public offering with respect to any deferred underwriting compensation) to any portion of the proceeds in the Trust Account. Prior to the Closing, none of the funds held in the Trust Account may be released except: (A) to pay income and franchise taxes from any interest income earned in the Trust Account; and (B) to redeem SPAC Shares in accordance with the provisions of SPAC Governing Documents. There are no Legal Proceedings pending or, to the Knowledge of SPAC, threatened in writing with respect to the Trust Account. As of the date of this Agreement, assuming the accuracy of the representations and warranties contained in Article III and the compliance by the Company with its obligations hereunder, SPAC has no reason to believe that any of the conditions to the use of funds in the Trust Account will not be satisfied or funds available in the Trust Account will not be available to SPAC on the Closing Date.

5.15. Taxes.

(a) All material Tax Returns required to be filed by or on behalf of any SPAC Party have been duly and timely filed (taking into account any valid extensions) with the appropriate Governmental Entity and all such Tax Returns are true, correct and complete in all material respects. All material amounts of Taxes due and payable by any SPAC Party (whether or not shown on any Tax Return) have been fully and timely paid, except with respect to matters being contested in good faith by appropriate proceeding and with respect to which adequate reserves have been made in accordance with U.S. GAAP.

(b) Each SPAC Party has complied in all material respects with all applicable Legal Requirements related to the withholding and remittance of all material amounts of Tax and withheld and paid all material amounts of Taxes required to have been withheld and paid to the appropriate Governmental Entity.

(i) To the Knowledge of SPAC, SPAC does not have, and has not had, a permanent establishment in any country other than the country of its organization, or is, or has been, subject to income Tax in a jurisdiction outside the country of its organization, in each case where it is required to file a material income Tax Return and does not file such a Tax Return.

(j) To the Knowledge of SPAC, SPAC is registered for the purposes of sales Tax, use Tax, Transfer Taxes, value added Taxes or any similar Tax in all jurisdictions where it is required by law to be so registered, in each case in all material respects, and has complied in all material respects with all Legal Requirements relating to such Taxes.

5.16. Information Supplied. The information relating to the SPAC Parties to be supplied by or on behalf of SPAC for inclusion or incorporation by reference in the Registration Statement and the Proxy Statement (or any amendment or supplement thereto) will not, on the date of filing or when the Registration Statement and the Proxy Statement is declared effective or the date that it is first mailed to SPAC Shareholders, as applicable, or at the time of the Special Meeting, contain any untrue statement of any material fact, or omit to state any material fact required to be stated therein or necessary in order to make the statements therein, in light of the circumstances under which they are made, not false or misleading. SPAC does not currently maintain or have any direct liability under any employee benefit plan, and neither the execution and delivery of this Agreement or the other Transaction Agreements nor the consummation of the Transactions will: (a) result in any payment (including severance, unemployment compensation, bonus or otherwise) becoming due to any director, officer or employee of SPAC; or (b) result in the acceleration of the time of payment or vesting of any such employee benefits.

5.18. Board Approval; Shareholder Vote. The board of directors of SPAC (including any required committee or subgroup of the board of directors of SPAC) has, as of the date of this Agreement, unanimously: (a) approved and declared the advisability of this Agreement, the other Transaction Agreements and the consummation of the Transactions; (b) determined that the consummation of the Transactions is in the best interest of the SPAC; (c) made the SPAC Recommendation; and (d) directed that this Agreement be submitted to the shareholders of SPAC for their adoption. ARTICLE VII

ADDITIONAL AGREEMENTS

7.1. Proxy Statement; Special Meeting; Newco Approval

(a) Proxy Statement

(i) As promptly as practicable following the execution and delivery of this Agreement, SPAC shall cause New PubCo to, in accordance with this [Section 7.1\(a\)](#), prepare and file or confidentially submit a registration statement with the SEC (as such filing or confidential submission is amended or supplemented, the “[Registration Statement](#)”), including a proxy statement of New PubCo, on Form F-4 (as such filing or confidential submission is amended or supplemented, the “[Proxy Statement](#)”), for the purposes of (I) registering under the Securities Act, to the extent permitted by applicable rules and regulations of the SEC, the New PubCo Ordinary Shares to be issued in connection with the transactions contemplated hereby (excluding the Earn Out Shares and any New PubCo Ordinary Shares to be issued in connection with SPAC Warrants and the Converted Options) (together, the “[Registration Shares](#)”), (II) providing SPAC’s shareholders with notice of the opportunity to redeem SPAC Class A Ordinary Shares (the “[SPAC Shareholder Redemption](#)”), and (III) soliciting proxies from holders of SPAC Class A Ordinary Shares to vote at the Special Meeting in favor of: (1) the adoption of this Agreement and approval of the Transactions; (2) the approval and authorization of the First Plan of Merger and Second Plan of Merger by way of special resolution pursuant to the Companies Act; (3) the issuance of New PubCo Ordinary Shares in connection with [Article II](#); and (4) any other proposals the Parties deem necessary or desirable to consummate the Transactions (collectively, the “[SPAC Shareholder Matters](#)”). Without the prior written consent of the Company (each such consent not to be unreasonably withheld, conditioned or delayed), the SPAC Shareholder Matters shall be the only matters (other than procedural matters) which SPAC shall propose to be acted on by the SPAC’s shareholders at the Special Meeting. The Registration Statement and the Proxy Statement will comply as to form and substance with the applicable requirements of the Securities Act and the Exchange Act and the rules and regulations thereunder.

(ii) The Parties shall deliberate in good faith between the date hereof and December 31, 2021 to decide on whether SPAC will submit the Registration Statement and the Proxy Statement confidentially with the SEC prior to filing the Registration Statement and the Proxy Statement with the SEC; provided that, in the event that the Company has failed to deliver the SEC Financial Statements referred to in [Section 7.21\(a\)](#) and the LinkAPI Historical Financial Statements by December 31, 2021, then the Parties agree to proceed with a confidential submission of the Registration Statement and Proxy Statement with the SEC.

(iii) SPAC shall file the definitive Proxy Statement with the SEC and cause the Proxy Statement to be mailed to its shareholders of record, as of the record date to be established by the board of directors of SPAC, as promptly as practicable following the effectiveness of the Registration Statement (such date, the “[Proxy Clearance Date](#)”).

(iv) Prior to each filing or confidential submission with the SEC, SPAC will cause New PubCo to make available to the Company drafts of the Registration Statement and any other documents to be filed with the SEC that relate to the Transactions, both preliminary and final, and any amendment or supplement to the Registration Statement or such other document and will provide the Company with a reasonable opportunity to comment on such drafts and shall consider such comments in good faith. New PubCo shall not file or confidentially submit any such documents with the SEC without the prior written consent of the Company (such consent not to be unreasonably withheld, conditioned or delayed). New PubCo will advise

the Company promptly after it receives notice thereof, of: (A) the time when the Registration Statement has been filed or confidentially submitted; (B) the effectiveness of the Registration Statement; (C) the filing or confidential submission of any supplement or amendment to the Registration Statement; (D) the issuance of any stop order by the SEC; (E) any request by the SEC for amendment of the Registration Statement; (F) any comments from the SEC relating to the Registration Statement and responses thereto; and (G) requests by the SEC for additional information relating to the Registration Statement. New PubCo shall promptly respond to any SEC comments on the Registration Statement and shall use commercially reasonable efforts to have the Registration Statement cleared by the SEC under the Securities Act as promptly as practicable; provided that prior to responding to any requests or comments from the SEC, New PubCo will make available to the Company drafts of any such response and provide the Company with a reasonable opportunity to comment on such drafts.

(v) If, at any time prior to the Special Meeting, there shall be discovered any information that should be set forth in an amendment or supplement to the Registration Statement so that the Registration Statement would not include any misstatement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, New PubCo shall promptly file an amendment or supplement to the Registration Statement containing such information. If, at any time prior to the Closing, the Company discovers any information, event or circumstance relating to the Company, its business or any of its Affiliates, officers, directors or employees that should be set forth in an amendment or a supplement to the Registration Statement so that the Registration Statement would not include any misstatement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, then the Company shall promptly inform New PubCo of such information, event or circumstance.

(vi) New PubCo or SPAC, as applicable, shall make all necessary filings with respect to the Transactions under the Securities Act, the Exchange Act and applicable “blue sky” laws, and any rules and regulations thereunder. The Company agrees to use commercially reasonable efforts to promptly provide New PubCo with all information in its possession concerning the business, management, operations and financial condition of the Company and the Company Subsidiaries, in each case, reasonably requested by New PubCo for inclusion in the Registration Statement. The Company shall cause the officers and employees of the Company and the Company Subsidiaries to be reasonably available to New PubCo and its counsel, auditors and other advisors in connection with the drafting of the Registration Statement and responding in a timely manner to comments on the Registration Statement from the SEC.

(b) SPAC shall, as promptly as practicable following the Proxy Clearance Date, establish a record date (which date shall be mutually agreed with the Company) for, duly call and give notice of, the Special Meeting. SPAC shall convene and hold an extraordinary general meeting of SPAC’s shareholders (the “Special Meeting”), for the purpose of obtaining the approval of the SPAC Shareholder Matters, which meeting shall be held not more than twenty-five (25) Business Days after the date on which SPAC mails the Proxy Statement to its shareholders. SPAC shall use commercially reasonable efforts to obtain the approval of the SPAC Shareholder Matters at the Special Meeting, including by soliciting proxies as promptly as practicable in accordance with applicable Legal Requirements for the purpose of seeking the approval of the SPAC Shareholder Matters. Subject to the proviso in the immediately following sentence, SPAC shall include the SPAC Recommendation in the Proxy Statement. The board of directors of SPAC shall not (and no committee or subgroup thereof shall) change, withdraw, withhold, qualify or modify, or publicly propose to change, withdraw, withhold, qualify or modify, the SPAC Recommendation (a “Change in Recommendation”); provided, however, that the board of directors may make a Change in Recommendation if it determines in good faith, after consultation with its outside legal counsel, that a failure to make a Change in Recommendation would reasonably be expected to constitute a breach by the board of directors of its fiduciary obligations to SPAC under applicable Legal Requirements. SPAC agrees that its obligation to establish a record date for, duly call, give notice of, convene and hold the Special Meeting for the purpose of seeking approval of the SPAC Shareholder Matters shall not be affected by any Change in Recommendation, and SPAC agrees to establish a record date for, duly call, give

notice of, convene and hold the Special Meeting and submit for the approval of its shareholders the matters contemplated by the Proxy Statement as contemplated by this [Section 7.1\(b\)](#), regardless of whether or not there shall have occurred any Change in Recommendation. Notwithstanding anything to the contrary contained in this Agreement, SPAC shall be entitled to postpone or adjourn the Special Meeting: (i) to ensure that any supplement or amendment to the Registration Statement that the board of directors of SPAC has determined in good faith is required by applicable Legal Requirements is disclosed to SPAC's shareholders and for such supplement or amendment to be promptly disseminated to New PubCo's shareholders prior to the Special Meeting to the extent required by applicable Legal Requirements; (ii) if, as of the time for which the Special Meeting is originally scheduled (as set forth in the Proxy Statement), there are insufficient SPAC Class A Ordinary Shares represented (either in person or by proxy) to constitute a quorum necessary to conduct the business to be conducted at the Special Meeting; (iii) to seek withdrawals of redemption requests from SPAC's shareholders if SPAC reasonably expects the SPAC Shareholder Redemption Payments would cause the condition in [Section 8.2\(h\)](#) to not be satisfied at the Closing; or (iv) in order to solicit additional proxies from shareholders for purposes of obtaining approval of the SPAC Shareholder Matters; provided, that in the event of a postponement or adjournment pursuant to clauses (i) or (ii), the Special Meeting shall be reconvened as promptly as practicable following such time as the matters described in such clauses have been resolved.

(c) Newco Approvals. Promptly following the date of this Agreement and in connection with the execution and delivery the Newco Joinder and in any event prior to the consummation of the Pre-Closing Exchange, Newco shall obtain and deliver the Newco Approvals.

7.2. Certain Regulatory Matters.

The Parties shall promptly and in good faith respond to all information requested of it by a Governmental Entity in connection with any such notifications and filings and otherwise cooperate in good faith with each other and such Governmental Entities. Each Party will promptly furnish to the other such information and assistance as the other may reasonably request in connection with its preparation of any filing or submission that is necessary and will take all other actions necessary or desirable to cause the expiration or termination of the applicable waiting periods as soon as practicable. Each Party will promptly provide the other with copies of all written communications (and memoranda setting forth the substance of all oral communications) between each of them, any of their Affiliates and their respective agents, representatives and advisors, on the one hand, and any Governmental Entity, on the other hand, with respect to this Agreement or the Transactions. Without limiting the foregoing, each Party shall: (A) promptly inform the others of any communication to or from a Governmental Entity regarding the Transactions; (B) permit each other to review in advance any proposed written communication to any such Governmental Entity and incorporate reasonable comments thereto; (C) give the other prompt written notice of the commencement of any Legal Proceeding with respect to such transactions; (D) not agree to participate in any substantive meeting or discussion with any such Governmental Entity in respect of any filing, investigation or inquiry concerning this Agreement or the Transactions unless, to the extent reasonably practicable, it consults with the other Party in advance and, to the extent permitted by such Governmental Entity, gives the other Party the opportunity to attend; (E) keep the other reasonably informed as to the status of any such Legal Proceeding; and (F) promptly furnish each other with copies of all correspondence, filings (to the extent allowed under applicable Legal Requirements) and written communications between such Party and their Affiliates and their respective agents, representatives and advisors, on one hand, and any such Governmental Entity, on the other hand, in each case, with respect to this Agreement and the Transactions.

(b) Any filing fees required by Governmental Entities, including with respect to any registrations, declarations and filings required in connection with the execution and delivery of this Agreement, the performance of the obligations hereunder and the consummation of the Transactions, including filing fees in connection with filings under applicable Antitrust Laws, shall be borne 50% by SPAC and 50% by the Company.

7.4. Confidentiality; Communications Plan; Access to Information.

(a) The Confidentiality Agreement, and the terms thereof, are hereby incorporated herein by reference to the extent not inconsistent with terms of this Agreement. Following Closing, the Confidentiality Agreement shall be superseded in its entirety by the provisions of this Agreement; provided, however, that if for any reason this Agreement is terminated prior to the Closing, the Confidentiality Agreement shall nonetheless continue in full force and effect in accordance with its terms. Beginning on the date hereof and ending on the second anniversary of this Agreement, each Party agrees to maintain in confidence any non-public information received from the other Parties, and to use such non-public information only for purposes of consummating the Transactions. Such confidentiality obligations will not apply to: (i) information which was known to one Party or its agents or representatives prior to receipt from the Company or Newco, on the one hand, or SPAC, New PubCo, First Merger Sub, Second Merger Sub or Third Merger Sub, on the other hand, as applicable; (ii) information which is or becomes generally known to the public without breach of this Agreement or an existing obligation of confidentiality; (iii) information acquired by a Party or their respective agents from a third party who was not bound to an obligation of confidentiality; (iv) information developed by such Party independently without any reliance on the non-public information received from any other Party; (v) outside legal counsel determines disclosure is required by applicable Legal Requirement or stock exchange rule; or (vi) prior to the Closing, disclosure consented to in writing by SPAC, New PubCo, First Merger Sub, Second Merger Sub or Third Merger Sub (in the case of the Company) or the Company (in the case of SPAC, New PubCo, First Merger Sub, Second Merger Sub or Third Merger Sub).

(b) SPAC and the Company shall reasonably cooperate to create and implement a communications plan regarding the Transactions promptly following the date hereof. Notwithstanding the foregoing, none of the Parties or any of their respective Affiliates will make any public announcement or issue any public communication regarding this Agreement, the other Transaction Agreements or the Transactions or any matter related to the foregoing, without the prior written consent of the Company, in the case of a public announcement by a SPAC Party, or SPAC, in the case of a public announcement by the Company (such consents, in either case, not to be unreasonably withheld, conditioned or delayed), except: (i) if such announcement or other communication is required by applicable Legal Requirements, in which case, other than, in the case of the Company, routine disclosures to Governmental Entities made by the Company in the ordinary course of business, the disclosing Party first shall allow such other Parties to review, to the extent reasonably practicable, such public

announcement or public communication and have the opportunity to comment thereon and the disclosing Party shall consider such comments in good faith; (ii) in the case of the Company, SPAC and their respective Affiliates, if such announcement or other communication is made in connection with fundraising or other investment related activities and is made to such Person's direct and indirect investors or potential investors or financing sources subject to an obligation of confidentiality; provided that such activities are permitted pursuant to the Transaction Agreements; (iii) in the case of the Group Companies, (x) internal announcements to employees of the Group Companies or (y) communications to banks, customers or suppliers of the Group Companies as the Company determines to be reasonably appropriate (such determination to be made by the Company in good faith); (iv) to the extent such announcements or other communications contain only information previously disclosed in a public statement, press release or other communication previously approved in accordance with Section 7.3 or this Section 7.4(b); and (v) announcements and communications to Governmental Entities in connection with registrations, declarations and filings relating to the Transactions required to be made under this Agreement; provided that, for the avoidance of doubt, this sentence shall not limit communications by any Group Company or any of its Affiliates that are not widely disseminated.

(c) The Company will afford SPAC and its financial advisors, accountants, counsel and other representatives reasonable access during normal business hours, upon reasonable notice, to the properties, books, records and personnel of the Group Companies during the period prior to the Closing to obtain all information concerning the business, including the status of business development efforts, properties, results of operations and personnel of the Group Companies, as SPAC may reasonably request in connection with the consummation of the Transactions; provided, however, that any such access shall be conducted in a manner not to materially interfere with the businesses or operations of such Group Companies. SPAC will afford the Company and its financial advisors, underwriters, accountants, counsel and other representatives reasonable access during normal business hours, upon reasonable notice, to the properties, books, records and personnel of SPAC during the period prior to the Closing to obtain all information concerning the business, including properties, results of operations and personnel of SPAC, as the Company may reasonably request in connection with the consummation of the Transactions; provided, however, that any such access shall be conducted in a manner not to materially interfere with the businesses or operations of SPAC. Notwithstanding anything to the contrary, the Parties shall not be required to take any action, provide any access or furnish any information that such Party in good faith reasonably believes would be reasonably likely to (i) cause or constitute a waiver of the attorney-client or other privilege or, (ii) violate any Contract to which such Party is a party or bound, provided, that the Parties agree to cooperate in good faith to make alternative arrangements to allow for such access or furnishings in a manner that does not result in the events set out in clauses (i) and (ii).

7.5. Commercially Reasonable Efforts. Upon the terms and subject to the conditions set forth in this Agreement, each of the Parties agrees to use commercially reasonable efforts to take, or cause to be taken, all actions, and to do, or cause to be done, and to assist and cooperate with the other Parties in doing, all things necessary, proper or advisable to consummate and make effective, in the most expeditious manner practicable, the Mergers and the other Transactions, including using commercially reasonable efforts to accomplish the following: (a) the taking of all commercially reasonable acts necessary to cause the conditions precedent set forth in Article VIII to be satisfied; (b) the obtaining of all necessary actions, waivers, consents, approvals, orders and authorizations from Governmental Entities and the making of all necessary registrations, declarations and filings, including registrations, declarations and filings with Governmental Entities, if any, and filings required pursuant to Antitrust Laws and the taking of all commercially reasonable steps as may be necessary to avoid any Legal Proceeding; (c) the obtaining of all consents, approvals or waivers from third parties required as a result of the Transactions, including any other consents referred to on Schedule 7.5(c) of the Company Disclosure Letter; (d) the termination of each agreement set forth on Schedule 7.5(d) of the Company Disclosure Letter; (e) the defending of any suits, claims, actions, investigations or proceedings, whether judicial or administrative, challenging this Agreement or the consummation of the Transactions, including seeking to have any stay or temporary restraining order entered by any court or other Governmental Entity vacated or reversed; and (f) the execution or delivery of any additional instruments reasonably necessary to consummate, and to fully carry out the purposes of, the Transactions. This obligation shall include, on the part of SPAC, sending a termination letter

to Continental Trust substantially in the applicable form attached to the Trust Agreement (the “Trust Termination Letter”). Notwithstanding anything herein to the contrary, nothing in this Agreement shall be deemed to require SPAC or the Company to agree to any divestiture by itself or any of its Affiliates of shares or shares of capital stock or of any business, assets or property, the imposition of any limitation on the ability of any of them to conduct their business or to own or exercise control of their respective assets, properties, shares and capital stock, or the incurrence of any liability or expense.

7.6. No SPAC Securities Transactions. Neither the Company nor any of its Subsidiaries will, directly or indirectly, engage in any transactions involving the securities of SPAC prior to the time of the making of a public announcement regarding all of the material terms of the business and operations of the Company and the Transactions. The Company shall direct each of its officers and directors to comply with the foregoing requirement.

7.7. No Claim Against Trust Account. For and in consideration of SPAC entering into this Agreement, the receipt and sufficiency of which are hereby acknowledged, the Company hereby irrevocably waives any right, title, interest or claim of any kind it has or may have in the future in or to the Trust Account and agrees not to seek recourse against the Trust Account or any funds distributed therefrom as a result of, or arising out of, this Agreement and any negotiations, contracts or agreements with SPAC; provided, that: (a) nothing herein shall serve to limit or prohibit the Company’s right to pursue a claim against SPAC pursuant to this Agreement for legal relief against monies or other assets of SPAC held outside the Trust Account or for specific performance or other equitable relief in connection with the Transactions (so long as such claim would not affect SPAC’s ability to fulfill its obligation to effectuate any SPAC Shareholder Redemption), or for Intentional Fraud in the making of the representations and warranties in Article V; and (b) nothing herein shall serve to limit or prohibit any claims that the Company may have in the future pursuant to this Agreement against SPAC’s assets or funds that are not held in the Trust Account.

7.8. Disclosure of Certain Matters. Each of SPAC, New PubCo, First Merger Sub, Second Merger Sub, Third Merger Sub and the Company will promptly provide the other Parties with prompt written notice of: (a) any event, development or condition of which it obtains Knowledge that: (i) is reasonably likely to cause any of the conditions set forth in Article VIII not to be satisfied; (ii) would require any amendment or supplement to the Registration Statement; or (b) the receipt of notice from any Person alleging that the consent of such Person may be required in connection with the Transactions.

7.9. Securities Listing. New PubCo shall, and SPAC will use commercially reasonable efforts to cause New PubCo to, cause the Registration Shares issued in connection with the Transactions to be approved for listing on the NASDAQ (or other public stock market or exchange in the United States as may be agreed by the Company and SPAC) at the Closing.

7.10. No Solicitation.

(a) During the period from the date of this Agreement and continuing until the earlier of the termination of this Agreement pursuant to its terms and the Closing, the Company shall not, and shall cause its Subsidiaries not to, and shall direct its shareholders, stockholders, employees, agents, officers, directors, managers, representatives and advisors (collectively, “Representatives”) not to, directly or indirectly, other than as contemplated by this Agreement: (i) solicit, initiate, enter into or continue discussions, negotiations or transactions with, or encourage or respond to any inquiries or proposals by, or provide any information to, any Person (other than any SPAC Party and its agents, representatives, advisors) concerning any merger, consolidation, sale of a substantial portion of the ownership interests and/or assets of the Company, recapitalization of the Company or similar transaction involving the Company (each, a “Company Business Combination”); (ii) enter into any agreement regarding, continue or otherwise participate in any discussions or negotiations regarding, or cooperate in any way that would otherwise reasonably be expected to lead to a Company Business Combination; or (iii) commence, continue or renew any due diligence investigation regarding

(b) During the period from the date of this Agreement and continuing until the earlier of the termination of this Agreement pursuant to its terms and the Closing, SPAC shall not, and shall cause the SPAC Sponsor not to, and shall direct its Representatives not to, directly or indirectly: (i) solicit, initiate, enter into or continue discussions or transactions with, or encourage or respond to any inquiries or proposals by, or provide any information to, any Person (other than the Company and their respective Representatives) concerning any merger, consolidation, purchase of ownership interests or assets of or by a SPAC Party, recapitalization or similar business combination transaction (each, a “SPAC Business Combination”); (ii) enter into any agreement regarding, continue or otherwise participate in any discussions or negotiations regarding, or cooperate in any way that would otherwise reasonably be expected to lead to a SPAC Business Combination; or (iii) commence, continue or renew any due diligence investigation regarding a SPAC Business Combination. SPAC shall, and shall cause its Representatives to, immediately cease any and all existing discussions or negotiations with any Person with respect to any SPAC Business Combination.

(c) Each Party shall promptly (and in no event later than 24 hours after becoming aware of such inquiry, proposal, offer or submission) notify the other Parties if it or, to its Knowledge, any of its or its Representatives receives any inquiry, proposal, offer or submission with respect to a Company Business Combination or SPAC Business Combination, as applicable (including the identity of the Person making such inquiry or submitting such proposal, offer or submission), after the execution and delivery of this Agreement. If either Party or its Representatives receives an inquiry, proposal, offer or submission with respect to a Company Business Combination or SPAC Business Combination, as applicable, such Party shall provide the other Parties with a copy of such inquiry, proposal, offer or submission. Notwithstanding anything to the contrary, any Party may respond to any unsolicited proposal regarding a Company Business Combination or SPAC Business Combination by stating only that such Party has entered into a binding definitive agreement with respect to a business combination and is unable to provide any information related to such Party or any of its Subsidiaries or entertain any proposals or offers or engage in any negotiations or discussions concerning a Company Business Combination or SPAC Business Combination, as applicable.

7.11. Trust Account. Upon satisfaction or waiver of the conditions set forth in Article VIII and provision of notice thereof to Continental Trust (which notice SPAC shall provide to Continental Trust in accordance with the terms of the Trust Agreement): (a) in accordance with and pursuant to the Trust Agreement, at the Closing, SPAC: (i) shall cause the documents, opinions and notices required to be delivered to Continental Trust pursuant to the Trust Agreement to be so delivered, including providing Continental Trust with the Trust Termination Letter; and (ii) shall use commercially reasonable efforts to cause Continental Trust to, and Continental Trust shall thereupon be obligated to, distribute the Trust Account as directed in the Trust Termination Letter, including all amounts payable: (A) to shareholders who properly elect to have their SPAC Class A Ordinary Shares redeemed for cash in accordance with the provisions of SPAC’s Governing Documents; (B) for income tax or franchise tax obligations of SPAC prior to Closing; (C) to the underwriters of the initial public offering with respect to any deferred underwriting compensation; (D) for any transaction costs of SPAC to the extent SPAC elects to pay these prior to Closing; and (E) as repayment of loans and reimbursement of expenses to directors, officers and shareholders of SPAC; and (b) thereafter, the Trust Account shall terminate, except as otherwise provided therein.

7.12. Director and Officer Matters.

(a) Group Companies.

(i) New PubCo agrees that all rights to exculpation, indemnification and advancement of expenses now existing in favor of the current or former directors or officers, as the case may be, of any Group

Company (each, together with such person's heirs, executors or administrators, a "Company D&O Indemnified Party"), as provided in their respective Governing Documents, shall survive the Closing and shall continue in full force and effect. For a period of six years following the Closing Date, New PubCo shall cause the Group Companies to maintain in effect the exculpation, indemnification and advancement of expenses provisions of such Group Company's Governing Documents as in effect immediately prior to the Closing Date, and New PubCo shall, and shall cause the Group Companies to, not amend, repeal or otherwise modify any such provisions in any manner that would adversely affect the rights thereunder of any Company D&O Indemnified Party; provided, however, that all rights to indemnification or advancement of expenses in respect of any Legal Proceedings pending or asserted or any claim made within such period shall continue until the disposition of such Legal Proceeding or resolution of such claim.

(ii) Prior to the Closing, the Company shall purchase a "tail" or "runoff" directors' and officers' liability insurance policy (the "Company D&O Tail") or alternatively an annual ongoing directors' and officers' liability insurance, in each case, in respect of acts or omissions occurring prior to the Effective Time covering each such Person that is a director or officer of a Group Company currently covered by the Company's and its Affiliates' directors' and officers' liability insurance policies on terms with respect to coverage, deductibles and amounts no less favorable than those of such policy in effect on the date of this Agreement or as commercially practicable under market conditions at such time. The Company D&O Tail shall be maintained for the six-year period following the Closing. New PubCo shall, and shall cause the Newco Surviving Sub to, maintain the Company D&O Tail in full force and effect for its full term and cause all obligations thereunder to be honored by the Group Companies, as applicable, and no other party shall have any further obligation to purchase or pay for such insurance pursuant to this Section 7.12(a)(ii).

(iii) The rights of each Company D&O Indemnified Party hereunder shall be in addition to, and not in limitation of, any other rights such person may have under the Governing Documents of any Group Company, any other indemnification arrangement, any Legal Requirement or otherwise. The obligations of New PubCo and the Group Companies under this Section 7.12(a) shall not be terminated or modified in such a manner as to adversely affect any Company D&O Indemnified Party without the consent of such Company D&O Indemnified Party. The provisions of this Section 7.12(a) shall survive the Closing and expressly are intended to benefit, and are enforceable by, each of the Company D&O Indemnified Parties, each of whom is an intended third-party beneficiary of this Section 7.12(a).

(iv) If New PubCo or, after the Closing, any Group Company, or any of their respective successors or assigns: (i) consolidates with or merges into any other Person and shall not be the continuing or surviving entity of such consolidation or merger; or (ii) transfers or conveys all or substantially all of its properties and assets to any Person, then, in each such case, proper provision shall be made so that the successors and assigns of New PubCo or such Group Company, as applicable, assume the obligations set forth in this Section 7.12(a).

(b) SPAC.

(i) New PubCo agrees that all rights to exculpation, indemnification and advancement of expenses now existing in favor of the current or former directors or officers, as the case may be, of SPAC (each, together with such person's heirs, executors or administrators, a "SPAC D&O Indemnified Party"), as provided in its Governing Documents, shall survive the Closing and shall continue in full force and effect. For a period of six years from the Closing Date, New PubCo shall cause SPAC to maintain in effect the exculpation, indemnification and advancement of expenses provisions of SPAC's Governing Documents as in effect immediately prior to the Closing Date, and New PubCo shall, and shall cause SPAC to, not amend, repeal or otherwise modify any such provisions in any manner that would adversely affect the rights thereunder of any SPAC D&O Indemnified Party; provided, however, that all rights to indemnification or advancement of expenses in respect of any Legal Proceedings pending or asserted or any claim made within such period shall continue until the disposition of such Legal Proceeding or resolution of such claim.

(ii) Prior to the Closing, the SPAC shall purchase a "tail" or "runoff" directors' and officers' liability insurance policy (the "SPAC D&O Tail") in respect of acts or omissions occurring prior to the

Effective Time covering each such Person that is a director or officer of SPAC currently covered by the SPAC and its Affiliates' directors' and officers' liability insurance policies on terms with respect to coverage, deductibles and amounts no less favorable than those of such policy in effect on the date of this Agreement for the six-year period following the Closing. New PubCo shall, and shall cause the Second Surviving Sub to, maintain the SPAC D&O Tail in full force and effect for its full term and cause all obligations thereunder to be honored by SPAC, as applicable, and no other party shall have any further obligation to purchase or pay for such insurance pursuant to this [Section 7.12\(b\)\(ii\)](#).

(iii) The rights of each SPAC D&O Indemnified Party hereunder shall be in addition to, and not in limitation of, any other rights such person may have under the Governing Documents of SPAC, any other indemnification arrangement, any Legal Requirement or otherwise. The obligations of New PubCo and SPAC under this [Section 7.12\(b\)](#) shall not be terminated or modified in such a manner as to adversely affect any SPAC D&O Indemnified Party without the consent of such SPAC D&O Indemnified Party. The provisions of this [Section 7.12\(b\)](#) shall survive the Closing and expressly are intended to benefit, and are enforceable by, each of the SPAC D&O Indemnified Parties, each of whom is an intended third-party beneficiary of this [Section 7.12\(b\)](#).

(iv) If New PubCo or, after the Closing, SPAC, or any of their respective successors or assigns: (i) consolidates with or merges into any other Person and shall not be the continuing or surviving entity of such consolidation or merger; or (ii) transfers or conveys all or substantially all of its properties and assets to any Person, then, in each such case, proper provision shall be made so that the successors and assigns of New PubCo or SPAC, as applicable, assume the obligations set forth in this [Section 7.12\(b\)](#).

7.13. [Tax Matters](#).

(a) The Parties intend that the SPAC Mergers, taken together, and the Third Merger will qualify for the Intended Tax Treatment. The Parties (i) shall not take any action that would reasonably be expected to prevent, impair or impede the Intended Tax Treatment, and (ii) shall not take any inconsistent position for Tax purposes unless otherwise required by a "determination" within the meaning of Section 1313 of the Code. This Agreement is intended to constitute and hereby is adopted as a "plan of reorganization" with respect to each of the SPAC Mergers and the Third Merger within the meaning of Treasury Regulations Sections 1.368-2(g) and 1.368-3(a) for purposes of Sections 354, 361 and 368 of the Code and the Treasury Regulations thereunder.

(b) New PubCo, SPAC and the Company shall reasonably cooperate with each other and their respective tax counsel to document and support the Intended Tax Treatment by taking the actions described on [Schedule 7.13](#) of the Company Disclosure Letter.

(c) Notwithstanding anything in [Section 7.13\(a\)](#) to the contrary, transfer, documentary, sales, use, stamp, registration, excise, recording, registration value added and other such similar Taxes and fees (including any penalties and interest) that become payable in connection with or by reason of the execution of this Agreement and the Transactions (collectively, "[Transfer Taxes](#)") shall be borne and paid by New PubCo. Unless otherwise required by applicable Legal Requirements, New PubCo shall timely file any Tax Return or other document with respect to such Taxes or fees (and the Company and SPAC and New PubCo shall reasonably cooperate with respect thereto as necessary). The Company and SPAC shall reasonably cooperate to reduce or eliminate the amount of any such Transfer Taxes.

(d) In the event that Closing occurs on or prior to April 15, 2022 and SPAC is treated as a "passive foreign investment company" within the meaning of Section 1297 of the Code for SPAC's most recent taxable year ending prior to Closing, New PubCo shall use commercially reasonable efforts to provide the SPAC Shareholders a PFIC Annual Information Statement (as described in Treasury Regulations Section 1.1295-1(g)) that is reasonably required in order to enable such SPAC Shareholders to make a timely and valid "Qualifying Electing Fund" election under Section 1295 of the Code (and the Treasury Regulations promulgated thereunder) with respect to SPAC for such taxable year.

7.14. Subscription Agreements. The SPAC Parties shall not permit any amendment or modification to be made to, or any waiver of any provision or remedy under, or any replacements of, the Subscription Agreements without the Company's prior written consent (such consent not to be unreasonably withheld, conditioned or delayed). SPAC shall use its commercially reasonable efforts to take, or cause to be taken, all actions and do, or cause to be done, all things necessary, proper or advisable to consummate the transactions contemplated by the Subscription Agreements on the terms and conditions described therein, including maintaining in effect the Subscription Agreements and using its commercially reasonable efforts to: (i) satisfy in all material respects on a timely basis all conditions and covenants applicable to any SPAC Party in the Subscription Agreements and otherwise comply with its obligations thereunder; (ii) in the event that all conditions in the Subscription Agreements (other than conditions that a SPAC Party or any of its Affiliates control the satisfaction of and other than those conditions that by their nature are to be satisfied at the Closing) have been satisfied, consummate transactions contemplated by the Subscription Agreements at or prior to Closing; and (iii) enforce its rights under the Subscription Agreements in the event that all conditions in the Subscription Agreements (other than conditions that a SPAC Party or any of its Affiliates control the satisfaction of and other than those conditions that by their nature are to be satisfied at the Closing) have been satisfied, to cause the applicable PIPE Investors to pay to (or as directed by) the relevant SPAC Party the applicable portion of the PIPE Investment Amount set forth in the Subscription Agreements at or prior to the Closing (if all conditions set forth in the applicable Subscription Agreement have been satisfied or waived (other than those conditions that by their nature are to be satisfied at the Closing and other than conditions that a SPAC Party or any of its Affiliates control the satisfaction of)). Without limiting the generality of the foregoing, SPAC shall give the Company, prompt (and, in any event within three (3) Business Days) written notice: (A) of any breach or default (or any event or circumstance that, with or without notice, lapse of time or both, could give rise to any breach or default) by any party to any Subscription Agreement known to a SPAC Party; (B) of the receipt of any written notice or other written communication from any party to any Subscription Agreement with respect to any actual, potential or claimed expiration, lapse, withdrawal, breach, default, termination or repudiation by any party to any Subscription Agreement or any provisions of any Subscription Agreement; and (C) if SPAC does not expect the relevant SPAC Party to receive all or any portion of the PIPE Investment Amount on the terms, in the manner or from the PIPE Investors contemplated by the Subscription Agreements.

7.15. Section 16 Matters. Prior to the Effective Times, SPAC shall take all reasonable steps as may be required or permitted to cause any acquisition or disposition of the SPAC Class A Ordinary Shares that occurs or is deemed to occur by reason of or pursuant to the Transactions by each director and officer of SPAC who is or will be subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to SPAC to be exempt under Rule 16b-3 promulgated under the Exchange Act, including by taking steps in accordance with the No-Action Letter, dated January 12, 1999, issued by the SEC regarding such matters.

7.16. Qualification as a Foreign Private Issuer. The Parties shall, at all times during the period from the date hereof until the Third Effective Time: (a) take all requisite action such that, as of the Third Effective Time, New PubCo shall qualify as a "foreign private issuer" pursuant to Rule 3b-4 of the Securities Exchange; and (b) not take any action that would cause New PubCo to not qualify as a "foreign private issuer" pursuant to Rule 3b-4 of the Securities Exchange.

7.17. Qualification as an Emerging Growth Company. The SPAC Parties shall, at all times during the period from the date hereof until the Closing: (a) take all actions necessary to continue to qualify as an "emerging growth company" within the meaning of the Jumpstart Our Business Startups Act of 2012 ("JOBS Act"); and (b) not take any action that would cause the SPAC Parties to not qualify as an "emerging growth company" within the meaning of the JOBS Act.

7.18. New PubCo Board. The Parties shall take all necessary action to cause the New PubCo Board as of immediately following the Closing to consist of seven (7) directors. The initial composition of the New PubCo Board shall be comprised of (a) six (6) individuals to be designated by the Company Shareholders specified in the Shareholders Agreement and (b) one (1) individual to be designated by SPAC Sponsor (the "SPAC Sponsor").

Designee”), in each case of (a) and (b), in accordance with, and subject to, the terms and conditions of the Shareholders Agreement. The SPAC Sponsor Designee will serve on such committees of the Board as may be specified in the Shareholders Agreement, in accordance with, and subject to, the terms and conditions set forth therein. In addition, SPAC Sponsor may designate two (2) individuals (each such individual designated from time to time by SPAC Sponsor, a “SPAC Sponsor Board Observer”) to be invited by the New PubCo Board to attend meetings of the New PubCo Board in a nonvoting observer capacity, in accordance with, and subject to, the terms and conditions of the Shareholders Agreement.

7.19. New PubCo Equity Plan.

(a) The Parties shall cooperate to establish an equity incentive plan the (“New PubCo Equity Plan”) for service providers of New PubCo and its subsidiaries, to be approved by the Company and SPAC and effective as of (and contingent on) the Closing, subject to the approval of the shareholders of SPAC. The proposed form of the New PubCo Equity Plan shall be prepared and delivered by the Company to SPAC and shall be mutually agreed (in good faith) by SPAC and the Company prior to the Closing Date. SPAC shall, (i) obtain the approval of the New PubCo Equity Plan from the shareholders of SPAC, and (ii) immediately upon the effectiveness of a registration statement on Form S-8 registering New PubCo Ordinary Shares under the New PubCo Equity Plan, make grants to eligible individuals in the amounts determined by the New PubCo Board following the Closing. As soon as practicable following the date hereof (and in all events prior to the Closing), the Company shall engage a compensation consultant mutually satisfactory to SPAC and the Company to advise the Company with respect to the terms of the New PubCo Equity Plan (including, without limitation, with respect to the initial share pool reserve and “evergreen” renewal percentage). New PubCo, SPAC and the Company each agree that upon receipt of the final report of such compensation consultant prior to the Closing, New PubCo, SPAC and the Company shall mutually determine the terms of the New PubCo Equity Plan (including the initial share pool reserve and “evergreen” renewal percentage) in good faith in accordance with, in all material respects, the determination of the compensation consultant; provided that (x) the New PubCo Equity Plan shall initially reserve a number of New PubCo Ordinary Shares not exceeding 15% of total number of New PubCo Ordinary Shares outstanding on a fully diluted basis, as determined at the Closing and (y) the New PubCo Equity Plan shall include an “evergreen” provision pursuant to which the number of New PubCo Ordinary Shares reserved for issuance under the plan shall be increased automatically each year by not more than 5% of the aggregate number of New PubCo Ordinary Shares outstanding on a fully diluted basis, as determined on December 31 of the previous year.

(b) Notwithstanding anything herein to the contrary, each party acknowledges and agrees that all provisions contained in this Section 7.19 are included for the sole benefit of SPAC and the Company, and that nothing in this Agreement, whether express or implied, (i) shall be construed to establish, amend, or modify any employee benefit plan, program, agreement or arrangement, (ii) shall limit the right of SPAC, the Company or any of their respective Affiliates to amend, terminate or otherwise modify any Employee Benefit Plan or other employee benefit plan, agreement or other arrangement following the Closing or (iii) shall confer upon any Person who is not a party (including any equityholder, any current or former director, manager, officer, employee or independent contractor of the Company, or any participant in any Employee Benefit Plan or other employee benefit plan, agreement or other arrangement (or any dependent or beneficiary thereof)), any right to continued or resumed employment or recall, any right to compensation or benefits, or any third-party beneficiary or other right of any kind or nature whatsoever.

7.20. Interim Financial Statements. From the date hereof until the Proxy Clearance Date, the Company shall furnish to SPAC unaudited consolidated balance sheets of the Company, and statements of income (loss) and cash flows of the Company, for each quarterly period completed after the date hereof no later than 45 days following the end of each such quarterly period prepared from the books and records of the Group Companies and, in all material respects, in conformity with the Company’s internal managerial accounting practices in the Company’s ordinary course of business.

7.21. Transaction Costs Cap. SPAC agrees to use commercially reasonable efforts to keep the aggregate amount of Transactions Costs below the Transaction Costs Cap. SPAC agrees to notify the Company as promptly as practicable after it obtains actual knowledge of any expenditure or commitment incurred by SPAC that would reasonably be expected to result in SPAC incurring Transaction Costs materially in excess of the Transaction Costs Cap, and shall use commercially reasonable efforts to keep the Company fully informed of such events.

7.22. SEC Financial Statements.

(a) In the event that pursuant to Section 7.1(a)(ii), it is determined that New PubCo and SPAC shall not submit the Registration Statement and the Proxy Statement confidentially with the SEC prior to filing the Registration Statement and the Proxy Statement with the SEC, the Company shall furnish to SPAC for inclusion in the Proxy Statement and the Registration Statement as soon as reasonably practicable and in any event prior to December 31, 2021, (A) audited consolidated balance sheets of the Company as of December 31, 2020 and 2019, and the related consolidated statements of income (loss), changes in shareholders' equity and cash flows of the Company for the fiscal years then ended, audited in accordance with applicable PCAOB auditing standards (collectively, the "PCAOB Audited 2020 and 2019 Financial Statements"), together with their respective auditor's reports thereon and consent to use such financial statements and reports; (B) the unaudited consolidated balance sheets of the Company as of June 30, 2021, and statements of income (loss), changes in shareholders' equity and cash flows of the Company for the six-month period then ended, reviewed in accordance with PCAOB Accounting Standard 4105 (collectively, the "PCAOB Unaudited Interim Financial Statements"), together with the auditor's limited review report thereon and consent to use such financial statements and report; and (C) unless the SEC provides a final and written waiver of the requirement for its presentation, the audited consolidated balance sheets of LinkApi Tecnologia S.A. ("LinkAPI") as of the dates required by Rule 3-05 of Regulation S-X (as interpreted by the SEC), and the related consolidated statements of income (loss), changes in shareholders' equity and cash flows of LinkAPI for the required periods then ended, audited in accordance with applicable auditing standards required by the SEC for their inclusion in the Registration Statement and the Proxy Statement (collectively, the "LinkAPI Historical Financial Statements"), together with their respective auditor's reports thereon and consent to use such financial statements and reports. Notwithstanding anything herein to the contrary, the Company's obligations contained in this Section 7.22(a) shall not be deemed to have been breached by the Company's failure to deliver such financial statements prior to December 31, 2021, and the Company shall instead be required to comply with Section 7.22(b) below.

(b) In the event that pursuant to Section 7.1(a)(ii), it is determined that New PubCo and SPAC shall submit the Registration Statement and the Proxy Statement confidentially with the SEC prior to filing the Registration Statement and the Proxy Statement with the SEC, the Company shall furnish to SPAC for inclusion in the Proxy Statement and the Registration Statement as soon as reasonably practicable and in any event prior to March 31, 2022, (A) the PCAOB Audited 2020 and 2019 Financial Statements, together with their respective auditor's reports thereon and consent to use such financial statements and reports; and (B) the audited consolidated balance sheet of the Company and the Company Subsidiaries as of December 31, 2021, and the related consolidated statements of income (loss), changes in shareholders' equity and cash flows of the Company and the Company Subsidiaries for the fiscal year then ended, audited in accordance with applicable PCAOB auditing standards (the "PCAOB Audited 2021 Financial Statements"), together with their respective auditor's reports thereon and consent to use such financial statements and reports.

(c) Upon delivery of the SEC Financial Statements, the Company shall be deemed to represent that the SEC Financial Statements (w) present fairly, in all material respects, the financial position of the Company and its Subsidiaries, as at the respective dates thereof, and the results of their operations and their cash flows for the respective periods then ended (subject, in the case of the SEC Unaudited Interim Financial Statements, to normal recurring year-end adjustments (the effect of which would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect) and the absence of footnotes); (x) were prepared in conformity with International Financial Reporting Standards applied on a consistent basis during the periods involved (except as may be indicated in the notes thereto); (y) were prepared from the books and records of the

Group Companies; and (z) comply in all material respects with the applicable auditing and accounting requirements and with the rules and regulations of the SEC, the Exchange Act and the Securities Act for inclusion in the Proxy Statement and the Registration Statement. Unless the SEC provides a final and written waiver, prior to December 31, 2021, the requirement for its presentation, upon delivery of the LinkAPI Historical Financial Statements, the Company shall be deemed to represent that the LinkAPI Historical Financial Statements (w) present fairly, in all material respects, the financial position of LinkAPI and its subsidiaries on a consolidated basis, as at the respective dates thereof, and the results of its operations and its cash flows for the respective periods then ended; (x) be prepared in conformity with Brazilian GAAP applied on a consistent basis during the periods involved (except as may be indicated in the notes thereto); (y) be prepared from the books and records of LinkAPI and its subsidiaries; and (z) comply in all material respects with the applicable auditing and accounting requirements and with the rules and regulations of the SEC, the Exchange Act and the Securities Act for inclusion in the Proxy Statement and the Registration Statement.

(d) The Company, SPAC and New PubCo shall each use its reasonable efforts to assist the other in preparing in a timely manner any other financial information or statements (including customary pro forma financial statements) that are required to be included in the Registration Statement or Proxy Statement and any other filings or confidential submissions to be made by SPAC or New PubCo with the SEC in connection with the Transactions.

7.23. Company Shareholder Meeting. The Company agrees to take and carry out any and all necessary measures to hold a shareholders meeting of the Company and employ its reasonable efforts to, on or prior to the Closing Date, obtain approval from the Company Shareholders of the Company's financial statements and management accounts in respect of the fiscal year ended on December 31, 2020 and, if approved, file the relevant minutes of such shareholders' meeting with the São Paulo's Board of Trade in order to achieve its due retroactive effects to the date of the meeting in accordance with applicable Legal Requirements.

7.24. Post-Signing Deliveries. Within eight (8) hours following the execution and delivery of this Agreement, the Company shall deliver to SPAC (i) the Exchange Agreement, duly executed by each of the Company Shareholders, the Company Optionholders and the Company, and (ii) a copy of the minutes of the shareholders' meeting of the Company held by the Company's ordinary shareholders, confirming an irrevocable approval by such shareholders of the adoption of this Agreement, the Transaction Agreements and the consummation of the Transactions contemplated hereby and thereby in form and substance reasonably acceptable to SPAC, evidencing the Requisite Approval, including approval of the execution of this Agreement, the Exchange Agreement, the other Transaction Agreements and the authorization and ratification of all acts performed or required to be performed by the officers of the Company for the signing and execution of this Agreement and the Transaction Agreements (the "Company Minutes").

(e) by SPAC, upon a breach of any representation, warranty, covenant or agreement set forth in this Agreement on the part of the Company or if any representation or warranty of the Company shall have become untrue, in either case such that the conditions set forth in Article VIII would not be satisfied as of the time of such breach or as of the time such representation or warranty shall have become untrue; provided, that if such breach is curable by the Company prior to the Closing, then SPAC must first provide written notice of such breach and may not terminate this Agreement under this Section 9.1(e) until the earlier of: (i) 30 days after delivery of written notice from SPAC to the Company of such breach; and (ii) the Outside Date; provided, further, that the Company continues to exercise commercially reasonable efforts to cure such breach (it being understood that SPAC may not terminate this Agreement pursuant to this Section 9.1(e) if: (A) it shall have materially breached this Agreement and such breach has not been cured; or (B) if such breach by the Company is cured during such 30 day period); or

None of the representations, warranties, covenants or agreements in this Agreement or in any instrument delivered pursuant to this Agreement shall survive the Closing and all rights, claims and causes of action (whether in contract or in tort or otherwise, or whether at law or in equity) with respect thereto shall terminate at the Closing. Notwithstanding the foregoing, neither this Section 10.1 nor anything else in this Agreement to the contrary (including Section 11.14) shall limit: (a) the survival of any covenant or agreement of the Parties which by its terms is required to be performed or complied with in whole or in part after the Closing, which covenants and agreements shall survive the Closing in accordance with their respective terms; or (b) the liability of any Person with respect to Intentional Fraud.

The definitions of the terms herein shall apply equally to the singular and plural forms of the terms defined. Whenever the context shall require, any pronoun shall include the corresponding masculine, feminine and neuter forms. When a reference is made in this Agreement to an Exhibit, such reference shall be to an Exhibit to this Agreement unless otherwise indicated. When a reference is made in this Agreement to Sections or subsections, such reference shall be to a Section or subsection of this Agreement. Unless otherwise indicated the words “include,” “includes” and “including” when used herein shall be deemed in each case to be followed by the words “without limitation.” The words “made available” mean that the subject documents or other materials were included in and available at the “Jockey” online virtual data room hosted by Datasite at least one (1) Business Day prior to the date of this Agreement. The table of contents and headings contained in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement. References to a particular statute or regulation including all rules and regulations thereunder and any predecessor or successor statute, rule, or regulation, in each case as amended or otherwise modified from time to time. Table of Contents

shall mean the ordinary course of business consistent with past practice (including as to amounts and terms, as applicable), but taking into account the circumstances restrictions imposed by Legal Requirements and health and safety considerations relating to COVID-19 and any relevant COVID-19 Measures.

11.3. Counterparts; Electronic Delivery. This Agreement, the Transaction Agreements and each other document executed in connection with the Transactions, and the consummation thereof, may be executed in one or more counterparts, all of which shall be considered one and the same document and shall become effective when one or more counterparts have been signed by each of the Parties and delivered to the other Parties, it being understood that all Parties need not sign the same counterpart. Delivery by electronic transmission to counsel for the other Parties of a counterpart executed by a Party shall be deemed to meet the requirements of the previous sentence. The exchange of a fully executed Agreement (in counterparts or otherwise) in pdf, DocuSign or similar format and transmitted by facsimile or email shall be sufficient to bind the Parties to the terms and conditions of this Agreement.

11.4. Entire Agreement; Third Party Beneficiaries. This Agreement, the other Transaction Agreements and any other documents and instruments and agreements among the Parties as contemplated by or referred to herein, including the Exhibits and Schedules hereto: (a) constitute the entire agreement among the Parties with respect to the subject matter hereof and supersede all prior agreements and understandings, both written and oral, among the Parties with respect to the subject matter hereof; and (b) other than the rights, at and after the Effective Time, of Persons pursuant to the provisions of Section 3.8, Section 7.12 and this Section 11.4 (which will be for the benefit of the Persons set forth therein and herein), are not intended to confer upon any other Person other than the Parties any rights or remedies. Notwithstanding anything to the contrary contained herein, the past, present and future directors, officers, employees, incorporators, members, partners, shareholders, stockholders, Affiliates, agents, attorneys, advisors and Representatives of the Parties, and any Affiliate of any of the foregoing (and their successors, heirs and Representatives), are intended third-party beneficiaries of, and may enforce this Section 11.4.

11.5. Severability. In the event that any term, provision, covenant or restriction of this Agreement, or the application thereof, is held to be illegal, invalid or unenforceable under any present or future Legal Requirement: (a) such provision will be fully severable; (b) this Agreement will be construed and enforced as if such illegal, invalid or unenforceable provision had never comprised a part hereof; (c) the remaining provisions of this Agreement will remain in full force and effect and will not be affected by the illegal, invalid or unenforceable provision or by its severance herefrom; and (d) in lieu of such illegal, invalid or unenforceable provision, there will be added automatically as a part of this Agreement a legal, valid and enforceable provision as similar in terms of such illegal, invalid or unenforceable provision as may be possible.

11.6. Other Remedies; Specific Performance. Except as otherwise provided herein, prior to the Closing, any and all remedies herein expressly conferred upon a Party will be deemed cumulative with and not exclusive of any other remedy conferred hereby, or by law or equity upon such Party, and the exercise by a Party of any one remedy will not preclude the exercise of any other remedy. The Parties agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms or were otherwise breached. It is accordingly agreed that each Party shall be entitled to enforce specifically the terms and provisions of this Agreement in any court of the United States or any state having jurisdiction and immediate injunctive relief to prevent breaches of this Agreement, without the necessity of proving the inadequacy of money damages as a remedy and without bond or other security being required, this being in addition to any other remedy to which they are entitled at law or in equity. Each of the Parties hereby acknowledges and agrees that it may be difficult to prove damages with reasonable certainty, that it may be difficult to procure suitable substitute performance, and that injunctive relief and/or specific performance will not cause an undue hardship to the Parties. Each of the Parties hereby further acknowledges that the existence of any other remedy contemplated by this Agreement does not diminish the availability of specific performance of the obligations hereunder or any other injunctive relief. Each Party hereby further agrees that in the event of any action by any other party for specific performance or injunctive relief, it will not assert that a remedy at law or

other remedy would be adequate or that specific performance or injunctive relief in respect of such breach or violation should not be available on the grounds that money damages are adequate or any other grounds.

11.7. Governing Law. This Agreement and the consummation the Transactions, and any action, suit, dispute, controversy or claim arising out of this Agreement and the consummation of the Transactions, or the validity, interpretation, breach or termination of this Agreement and the consummation of the Transactions, shall be governed by and construed in accordance with the internal law of the State of Delaware regardless of the law that might otherwise govern under applicable principles of conflicts of law thereof.

11.8. Consent to Jurisdiction; Waiver of Jury Trial.

(a) Each of the Parties irrevocably consents to the exclusive jurisdiction and venue of the Court of Chancery in the State of Delaware (or, to the extent that the such Court does not have subject matter jurisdiction, the Superior Court of the State of Delaware or, if it has or can acquire jurisdiction, in the United States District Court for the District of Delaware), in each case in connection with any matter based upon or arising out of this Agreement, the other Transaction Agreements and the consummation of the Transactions, agrees that process may be served upon them in any manner authorized by the laws of the State of Delaware for such Person and waives and covenants not to assert or plead any objection which they might otherwise have to such manner of service of process. Each Party and any Person asserting rights as a third-party beneficiary may do so only if he, she or it hereby waives, and shall not assert as a defense in any legal dispute, that: (a) such Person is not personally subject to the jurisdiction of the above named courts for any reason; (b) such Legal Proceeding may not be brought or is not maintainable in such court; (c) such Person's property is exempt or immune from execution; (d) such Legal Proceeding is brought in an inconvenient forum; or (e) the venue of such Legal Proceeding is improper. Each Party and any Person asserting rights as a third-party beneficiary hereby agrees not to commence or prosecute any such action, claim, cause of action or suit other than before one of the above-named courts, nor to make any motion or take any other action seeking or intending to cause the transfer or removal of any such action, claim, cause of action or suit to any court other than one of the above-named courts, whether on the grounds of inconvenient forum or otherwise. Each Party hereby consents to service of process in any such proceeding in any manner permitted by Delaware law, and further consents to service of process by nationally recognized overnight courier service guaranteeing overnight delivery, or by registered or certified mail, return receipt requested, at its address specified pursuant to [Section 11.1](#). Notwithstanding the foregoing in this [Section 11.8](#), any Party may commence any action, claim, cause of action or suit in a court other than the above-named courts solely for the purpose of enforcing an order or judgment issued by one of the above-named courts.

6. The Registered Office shall be at such address in the Cayman Islands as the Directors shall from time to time determine. The Company, in addition to the Registered Office, may establish and maintain such other offices and places of business and agencies in such places as the Directors may from time to time determine.

SHARES

7. Subject to these Articles and, where applicable, the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law, all Shares for the time being unissued shall be under the control of the Directors who may issue, allot and dispose of or grant options over the same and issue warrants or similar instruments with respect thereto to such persons, on such terms, and with or without preferred, deferred or other rights and restrictions, whether in regard to dividend, voting, return of capital or otherwise, and otherwise in such manner as they may think fit. For such purposes, the Directors may reserve an appropriate number of Shares for the time being unissued.
8. Subject to the Companies Act and, where applicable, the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law, and without prejudice to any rights previously conferred on the holders of existing Shares, any share or fraction of a share in the Company's share capital may be issued either at a premium or at par, and with such preferred, deferred, other special rights, or restrictions, whether in regard to dividend, voting, return of share capital or otherwise, as the Board of Directors may from time to time by resolution determine, and any share may be issued by the Directors on the terms that it is, or at the option of the Directors is liable, to be redeemed or purchased by the Company whether out of capital in whole or in part or otherwise. No Share may be issued at a discount except in accordance with the Companies Act.
9. The Company may on any issue of Shares deduct any sales charge or subscription fee from the amount subscribed for the Shares.
10. No person shall be recognised by the Company as holding any Share upon any trust, and the Company shall not be bound by or recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any Share, or (except as otherwise provided by these Articles or as required by law) any other right in respect of any Share except an absolute right thereto in the registered holder, provided that, notwithstanding the foregoing, the Company shall be entitled to recognise any such interests as shall be determined by the Directors.
11. The Directors shall keep or cause to be kept a Register of Members as required by the Companies Act at such place or places as the Directors may from time to time determine. In the absence of any such determination, the Register of Members shall be kept at the Registered Office.
12. The Directors in each year shall prepare or cause to be prepared an annual return and declaration setting forth the particulars required by the Companies Act in respect of exempted companies and deliver a copy thereof to the Registrar of Companies in the Cayman Islands.
13. The Company shall not issue Shares to bearer.
14. The Directors may issue fractions of a Share and, if so issued, a fraction of a Share shall be subject to and carry the corresponding fraction of liabilities (whether with respect to nominal or par value, premium, calls or otherwise howsoever), limitations, preferences, privileges, qualifications, restrictions, rights (including,

without prejudice to the foregoing generality, voting and participation rights) and other attributes of a Share. If more than one fraction of a Share is issued to or acquired by the same Shareholder, such fractions shall be accumulated.

15. The premium arising on all issues of Shares shall be held in the Share Premium Account established in accordance with these Articles.
16. Payment for Shares shall be made at such time and place and to such person on behalf of the Company as the Directors may from time to time determine. Payment for any Shares shall be made in such currency as the Directors may determine from time to time, provided that the Directors shall have the discretion to accept payment in any other currency or in kind or a combination of cash and in kind.

REDEMPTION, PURCHASE AND SURRENDER OF SHARES

17. Subject to the Companies Act and these Articles, the Company may:
 - (a) issue Shares on terms that they are to be redeemed or are liable to be redeemed at the option of the Company and/or the Shareholder on such terms and in such manner as the Directors may, before the issue of such Shares, determine;
 - (b) purchase its own Shares (including any redeemable Shares) on such terms and in such manner as the Directors may determine and agree with the Shareholder; and
 - (c) make a payment in respect of the redemption or purchase of Shares in any manner authorised by the Companies Act, including out of its capital, profits or the proceeds of a fresh issue of Shares.
18. Unless the Directors determine otherwise, any Share in respect of which notice of redemption has been given shall not be entitled to participate in the profits of the Company in respect of the period after the date specified as the date of redemption in the notice of redemption.
19. The redemption or purchase of any Share shall not be deemed to give rise to the redemption or purchase of any other Share.
20. The Directors may when making payments in respect of a redemption or purchase of Shares, if authorised by the terms of issue of the Shares being redeemed or purchased or with the agreement of the holder of such Shares, make such payment either in cash or in specie.
21. Subject to the Companies Act, the Company may accept the surrender for no consideration of any fully paid Share (including any redeemable Share) on such terms and in such manner as the Directors may determine.

TREASURY SHARES

22. Shares that the Company purchases, redeems or acquires (by way of surrender or otherwise) may, at the option of the Company, be cancelled immediately or held as Treasury Shares in accordance with the Companies Act. In the event that the Directors do not specify that the relevant Shares are to be held as Treasury Shares, such Shares shall be cancelled.
23. No dividend may be declared or paid, and no other distribution (whether in cash or otherwise) of the Company's assets (including any distribution of assets to Shareholders on a winding up) may be declared or paid in respect of a Treasury Share.
24. The Company shall be entered in the Register of Members as the holder of the Treasury Shares, provided that:
 - (a) the Company shall not be treated as a Shareholder for any purpose and shall not exercise any right in respect of the Treasury Shares, and any purported exercise of such a right shall be void; and

- (b) a Treasury Share shall not be voted, directly or indirectly, at any meeting of the Company and shall not be counted in determining the total number of issued shares at any given time, whether for the purposes of these Articles or the Companies Act, save that an allotment of Shares as fully paid bonus shares in respect of Treasury Shares is permitted and Shares allotted as fully paid bonus shares in respect of Treasury Shares shall be treated as Treasury Shares.
25. Treasury Shares may be disposed of by the Company on any terms and conditions determined by the Directors.

MODIFICATION OF RIGHTS

26. Subject to these Articles, if at any time the share capital of the Company is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may, whether or not the Company is being wound up, be varied or abrogated:
- (a) by, or with the approval of, the Directors without the consent of the holders of the Shares of that class if the Directors determine that the variation or abrogation is not materially adverse to the interests of those Shareholders; or
 - (b) otherwise only with the consent in writing of the holders of at least two-thirds of the issued Shares of that class or with the sanction of a resolution passed by a majority of at least two-thirds of the votes cast at a separate meeting of the holders of the Shares of that class (subject to any rights or restrictions attached to those Shares).
27. The provisions of these Articles relating to general meetings shall apply, *mutatis mutandis*, to every class meeting of the holders of one class of Shares, except that the necessary quorum shall be one or more Shareholders holding or representing by proxy at least twenty (20) per cent in par value of the issued Shares of that class and that any holder of Shares of that class present in person or by proxy may demand a poll.
28. For the purposes of Articles 26 and 27, the Directors may treat all classes of Shares, or any two classes of Shares, as forming a single class if they consider that each class would be affected in the same way by the proposal or proposals under consideration. In any other case, the Directors shall treat all classes of Shares, or any two classes of Shares, as separate classes.
29. The rights of the holders of the Shares of any class shall not, where those Shares were issued with preferred or other rights, be deemed to be materially adversely varied or abrogated by the creation or issue of further Shares ranking equally with those Shares or the redemption or purchase of Shares of any other class by the Company (subject to any rights or restrictions attached to those Shares).

SHARE CERTIFICATES

30. The Shares will be issued in fully registered, book-entry form. Certificates will not be issued unless the Directors determine otherwise.
31. If a share certificate is defaced, lost or destroyed it may be renewed on payment of such fee, if any, and on such terms if any, as to evidence and obligations to indemnify the Company as the Board of Directors may determine.

TRANSFER AND TRANSMISSION OF SHARES

32. All instruments of transfer which are registered shall be retained by the Company, but any instrument of transfer which the Directors may decline to register shall (except in any case of fraud) be returned to the person depositing the same.

33. In case of the death of a Shareholder, the survivors or survivor (where the deceased was a joint holder) and the executors or administrators of the deceased where the deceased was the sole or only surviving holder, shall be the only persons recognised by the Company as having title to the deceased's interest in the Shares, but nothing in this Article shall release the estate of the deceased holder whether sole or joint from any liability in respect of any Share solely or jointly held by the deceased.
34. Any guardian of an infant Shareholder and any curator or other legal representative of a Shareholder under legal disability and any person entitled to a share in consequence of the death or bankruptcy of a Shareholder shall, upon producing such evidence of title as the Directors may require, have the right either to be registered as the holder of the Share or to make such transfer thereof as the deceased or bankrupt Shareholder could have made, but the Directors shall in either case have the same right to refuse or suspend registration as they would have had in the case of a transfer of the Shares by the infant or by the deceased or bankrupt Shareholder before the death or bankruptcy or by the Shareholder under legal disability before such disability.
35. A person so becoming entitled to a Share in consequence of the death or bankruptcy of a Shareholder shall have the right to receive and may give a discharge for all dividends and other money payable or other advantages due on or in respect of the Share, but such person shall not be entitled to receive notice of or to attend or vote at meetings of the Company, or save as aforesaid, to any of the rights or privileges of a Shareholder unless and until such person shall be registered as a Shareholder in respect of the Share, provided always that the Directors may at any time give notice requiring any such person to elect either to be registered or to transfer the Share and if the notice is not complied with within ninety (90) days the Directors may thereafter withhold all dividends or other monies payable or other advantages due in respect of the Share until the requirements of the notice have been complied with.

LIEN

36. The Company shall have a first and paramount lien on all Shares (whether fully paid-up or not) registered in the name of a Shareholder (whether solely or jointly with others) for all debts, liabilities or engagements to or with the Company (whether presently payable or not) by such Shareholder or the Shareholder's estate, either alone or jointly with any other person, whether a Shareholder or not, but the Directors may at any time declare any Share to be wholly or in part exempt from the provisions of this Article. The registration of a transfer of any such Share shall operate as a waiver of the Company's lien thereon. The Company's lien on a Share shall also extend to any amount payable in respect of that Share.
37. The Company may sell, in such manner as the Directors think fit, any Shares on which the Company has a lien, if a sum in respect of which the lien exists is presently payable, and is not paid within fourteen (14) clear days after notice has been given to the holder of the Shares, or to the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the Shares may be sold.
38. To give effect to any such sale the Directors may authorise any person to execute an instrument of transfer of the Shares sold to, or in accordance with the directions of, the purchaser. The purchaser or the purchaser's nominee shall be registered as the holder of the Shares comprised in any such transfer, and the purchaser shall not be bound to see to the application of the purchase money, nor shall the purchaser's title to the Shares be affected by any irregularity or invalidity in the sale or the exercise of the Company's power of sale under these Articles.
39. The net proceeds of such sale, after payment of costs, shall be applied in payment of such part of the amount in respect of which the lien exists as is presently payable and any residue shall (subject to a like lien for sums not presently payable as existed upon the Shares before the sale) be paid to the person entitled to the Shares at the date of the sale.

ALTERATION OF SHARE CAPITAL

40. Subject to these Articles, the Company may from time to time by Ordinary Resolution increase its share capital by such sum to be divided into Shares of such amounts as the resolution shall prescribe.
41. All new Shares shall be subject to the provisions of these Articles with reference to transfer, transmission and otherwise.
42. Subject to the Companies Act, the Company may by Special Resolution from time to time reduce its share capital in any way, and in particular, without prejudice to the generality of the foregoing power, may:
 - (a) cancel any paid-up share capital which is lost, or which is not represented by available assets; or
 - (b) pay off any paid-up share capital which is in excess of the requirements of the Company, and may, if and so far as is necessary, alter the Memorandum by reducing the amounts of its share capital and of its Shares accordingly.
43. Subject to these Articles, the Company may from time to time by Ordinary Resolution alter (without reducing) its share capital by:
 - (a) consolidating and dividing all or any of its share capital into Shares of larger amount than its existing Shares;
 - (b) sub-dividing its Shares, or any of them, into Shares of smaller amount than that fixed by the Memorandum so, however, that in the sub-division the proportion between the amount paid and the amount, if any, unpaid on each reduced Share shall be the same as it was in the case of the Share from which the reduced Share is derived; or
 - (c) cancelling any Shares which, at the date of the passing of the Ordinary Resolution, have not been taken, or agreed to be taken by any person, and diminishing the amount of its authorised share capital by the amount of the Shares so cancelled.

GENERAL MEETINGS

44. Subject to these Articles, the Directors may proceed to convene a general meeting whenever they think fit, including, without limitation, for the purposes of considering a liquidation of the Company, and they shall convene a general meeting on the requisition of the Shareholders holding at the date of the deposit of the requisition not less than ten percent (10%) of such of the paid-up capital of the Company as at the date of the deposit carries the right of voting at general meetings.
45. The requisition:
 - (a) must be in writing and state the objects of the meeting;
 - (b) must be signed by each requisitionist and deposited at the Registered Office; and
 - (c) may consist of several documents in like form each signed by one or more requisitionists.
46. If the Directors do not within ten (10) days from the date of the deposit of the requisition duly proceed to convene a general meeting, the requisitionists, or any of them representing more than one-half of the total voting rights of all of them, may themselves convene a general meeting, but any meeting so convened shall not be held after the expiration of three months after the expiration of the said ten (10) days.
47. A general meeting convened as aforesaid by requisitionists shall be convened in the same manner as nearly as possible as that in which general meetings are convened by the Directors. A general meeting may be convened in the Cayman Islands or at such other location, as the Directors think fit.

NOTICE OF GENERAL MEETINGS

48. Five (5) calendar days' notice at least specifying the place, the day and the hour of any general meeting and the general nature of the business to be conducted at the general meeting, shall be given in the manner hereinafter mentioned to such persons as are under these Articles or the conditions of issue of the Shares held by them entitled to receive notices from the Company. If the Directors determine that prompt Shareholder action is advisable, they may shorten the notice period for any general meeting to such period as the Directors consider reasonable.
49. A general meeting shall, notwithstanding that it is called by shorter notice than that specified in the preceding Article, be deemed to have been duly called with regard to the length of notice if it is so agreed by all the Shareholders entitled to attend and vote thereat.
50. In every notice calling a general meeting, there shall appear with reasonable prominence a statement that a Shareholder entitled to attend and vote either (i) is entitled to appoint one or more proxies to attend such meeting and vote instead of such Shareholder and that a proxy need not also be a Shareholder or (ii) has appointed a proxy who, unless such appointment is revoked, will attend such meeting and vote on behalf of such Shareholder.
51. The accidental omission to give notice to, or the non-receipt of notice by, any person entitled to receive notice shall not invalidate the proceedings at any general meeting.

PROCEEDINGS AT GENERAL MEETINGS

52. No business shall be transacted at any general meeting unless a quorum is present. Save as otherwise provided in these Articles a quorum shall be the presence, in person or by proxy, of one or more persons holding at least twenty (20) per cent in par value of the issued Shares which confer the right to attend and vote thereat.
53. Save as otherwise provided for in these Articles, if within half an hour from the time appointed for the meeting a quorum is not present, the meeting, if convened on the requisition of or by Shareholders, shall be dissolved. In any other case it shall stand adjourned to the same day in the next week, at the same time and place or to such other day and at such other time and place as the Directors may determine and if at such adjourned meeting a quorum is not present within fifteen (15) minutes from the time appointed for holding the meeting, the Shareholders present shall be a quorum.
54. A person may, with the consent of the Directors, participate at a general meeting by means of telephone, video or similar communication equipment by way of which all persons participating in such meeting can hear each other and such participation shall be deemed to constitute presence in person at such meeting.
55. The Chairperson (if any) or, if absent, the Deputy Chairperson (if any) of the Board of Directors, or, failing them, some other Director nominated by the Directors shall preside as Chairperson at every general meeting, but if at any meeting neither the Chairperson nor the Deputy Chairperson nor such other Director be present within fifteen (15) minutes after the time appointed for holding the meeting, or if neither of them be willing to act as Chairperson, the Directors present shall choose some Director present to be Chairperson or if no Directors be present, or if all the Directors present decline to take the chair, the Shareholders present shall choose some Shareholder present to be Chairperson.
56. The Chairperson may with the consent of any meeting at which a quorum is present (and shall if so directed by the meeting) adjourn the meeting from time to time and from place to place but no business shall be transacted at any adjourned meeting except business which might lawfully have been transacted at the meeting from which the adjournment took place. When a meeting is adjourned for fourteen (14) days or more, five (5) calendar days' notice at the least specifying the place, the day and the hour of the adjourned meeting shall be given as in the case of the original meeting but it shall not be necessary to specify in such notice the nature of the business to be transacted at the adjourned meeting. Save as aforesaid, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

Table of Contents

57. The Directors may cancel or postpone any duly convened general meeting at any time prior to such meeting, except for general meetings requisitioned by the Shareholders in accordance with these Articles, for any reason or for no reason, upon notice in writing to Shareholders. A postponement may be for a stated period of any length or indefinitely as the Directors may determine.
58. At any general meeting, a resolution put to the vote of the meeting shall be decided on a show of hands unless a poll is, before or on the declaration of the result of the show of hands, demanded by the Chairperson or any Shareholder or Shareholders present in person or by proxy.
59. Unless a poll be so demanded, a declaration by the Chairperson that a resolution has on a show of hands been carried, or carried unanimously, or by a particular majority, or lost, and an entry to that effect made in the Company's minute book containing the minutes of the proceedings of the meeting, shall be conclusive evidence of the fact without proof of the number or the proportion of the votes recorded in favour of or against such resolution.
60. If a poll is duly demanded it shall be taken in such manner and at such place as the Chairperson may direct (including the use of a ballot or voting papers, or tickets) and the result of a poll shall be deemed to be the resolution of the meeting at which the poll was demanded. The Chairperson may, in the event of a poll, appoint scrutineers and may adjourn the meeting to some place and time fixed by the Chairperson for the purpose of declaring the result of the poll.
61. In the case of an equality of votes, whether on a show of hands or on a poll, the Chairperson of the meeting at which the show of hands or at which the poll is taken, shall not be entitled to a second or casting vote.
62. A poll demanded on the election of a Chairperson and a poll demanded on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken at such time and place as the Chairperson directs not being more than ten (10) days from the date of the meeting or adjourned meeting at which the poll was demanded.
63. The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded.
64. A demand for a poll may be withdrawn and no notice need be given of a poll not taken immediately.

VOTES OF SHAREHOLDERS

65. Every holder of Shares, present in person or by proxy and entitled to vote thereon, shall be entitled to one vote in respect of each Share held by them.
66. In the case of joint holders of a Share, the vote of the senior holder who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority shall be determined by the order in which the names stand in the Register of Members in respect of the Shares.
67. A Shareholder who has appointed special or general attorneys or a Shareholder who is subject to a disability may vote on a poll, by such Shareholder's attorney, committee, receiver, curator bonis or other person in the nature of a committee, receiver, or curator bonis appointed by a court and such attorney, committee, receiver, curator bonis or other person may on a poll vote by proxy; provided that such evidence as the Directors may require of the authority of the person claiming to vote shall, unless otherwise waived by the Directors, have been deposited at the Registered Office not less than forty-eight (48) hours before the time for holding the meeting or adjourned meeting at which such person claims to vote.
68. No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes. Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.

Table of Contents

69. On a poll votes may be given either personally or by proxy and a Shareholder entitled to more than one vote need not, if the Shareholder votes, use all their votes or cast all the votes the Shareholder uses in the same way.
70. The instrument appointing a proxy shall be in writing under the hand of the appointor or of the appointor's attorney duly authorised in writing, or if the appointor is a corporation, either under its common seal or under the hand of an officer or attorney so authorised.
71. Any person (whether a Shareholder or not) may be appointed to act as a proxy. A Shareholder may appoint more than one proxy to attend on the same occasion.
72. The instrument appointing a proxy and the power of attorney or other authority (if any) under which it is signed, or a certified copy of such power or authority, must be deposited at the Registered Office, or at such other place as is specified for that purpose in the notice of meeting or in the instrument of proxy issued by the Company, no later than the time appointed for holding the meeting or adjourned meeting; provided that the Chairperson of the meeting may in the Chairperson's discretion accept an instrument of proxy sent by fax, email or other electronic means.
73. An instrument of proxy shall:
 - (a) be in any common form or in such other form as the Directors may approve;
 - (b) be deemed to confer authority to demand or join in demanding a poll and to vote on any amendment of a resolution put to the general meeting for which it is given as the proxy thinks fit; and
 - (c) subject to its terms, be valid for any adjournment of the general meeting for which it is given.
74. The Directors may at the expense of the Company send to the Shareholders instruments of proxy (with or without prepaid postage for their return) for use at any general meeting, either in blank or nominating in the alternative any one or more of the Directors or any other persons. If for the purpose of any meeting invitations to appoint as proxy a person or one of a number of persons specified in the invitations are issued at the expense of the Company, such invitations shall be issued to all (and not to some only) of the Shareholders entitled to be sent a notice of the meeting and to vote thereat by proxy.
75. A vote given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the death or insanity of the principal or the revocation of the instrument of proxy, or of the authority under which the instrument of proxy was executed, provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the Company at the Registered Office before commencement of the meeting or adjourned meeting at which the instrument of proxy is used.
76. Anything which under these Articles a Shareholder may do by proxy that Shareholder may also do by a duly appointed attorney. The provisions of these Articles relating to proxies and instruments appointing proxies apply, *mutatis mutandis*, to any such attorney and the instrument appointing that attorney.
77. Any Shareholder which is a corporation or partnership may, by a resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at any meeting or meetings of the Company. The person so authorised shall be entitled to exercise the same powers on behalf of such corporation or partnership as the corporation or partnership could exercise if it were a Shareholder who was an individual and such corporation or partnership shall for the purposes of these Articles be deemed to be present in person at any such meeting if a person so authorised is present.

WRITTEN RESOLUTIONS OF SHAREHOLDERS

78. A resolution in writing signed by all the Shareholders for the time being entitled to receive notice of, attend and vote at a general meeting shall be as valid and effective as a resolution passed at a general meeting duly convened and held and may consist of several documents in the like form each signed by one or more of the Shareholders.

DIRECTORS

79. Unless otherwise determined by the Company by Ordinary Resolution and subject to these Articles and the Shareholders Agreement (for so long as the Shareholders Agreement remains in force and effect), the minimum number of Directors shall be one and the maximum number of Directors shall be unlimited.
80. The initial number of Directors shall be seven (7).
81. For so long as the Shareholders Agreement remains in force and effect, the Directors shall be divided into three (3) classes of Directors designated as Class I, Class II and Class III. Each class of Directors shall consist, as nearly equal as possible, of one third (1/3) of the total number of Directors constituting the entire Board of Directors.
82. The Company shall pay all reasonable and documented out-of-pocket costs and expenses (including travel and lodging) incurred by each Director nominated pursuant to these Articles in the course of, and in connection with, his or her service as a Director, including in connection with attending general and special meetings of the Board of Directors, any board of directors or board of managers of any of the Company's Subsidiaries or any of their respective committees.
83. A Director need not be a Shareholder but shall be entitled to receive notice of and attend all general meetings.
84. Subject to Articles 90 and 91, the Company may, by Ordinary Resolution, appoint any person to be a Director and may in like manner remove any Director and may appoint another person in the Director's stead. Without prejudice to the power of the Company by Ordinary Resolution to appoint a person to be a Director and subject to Articles 90 and 91, the Board of Directors, so long as a quorum of Directors remains in office, shall have the power at any time and from time to time to appoint any person to be a Director so as to fill a casual vacancy or otherwise.
85. Each Director shall be entitled to such remuneration as approved by the Board of Directors and this may be in addition to such remuneration as may be payable under any other Article. Such remuneration shall be deemed to accrue from day to day. The Directors and the Secretary may also be paid all travelling, hotel and other expenses properly incurred by them in attending and returning from meetings of the Directors or any committee of the Directors or general meetings or in connection with the business of the Company. The Directors may, in addition to such remuneration as aforesaid, grant special remuneration to any Director who, being called upon, shall perform any special or extra services to or at the request of the Company.
86. Each Director shall have the power to nominate another Director or any other person to act as alternate Director in the Director's place at any meeting of the Directors at which the Director is unable to be present and at the Director's discretion to remove such alternate Director. On such appointment being made the alternate Director shall (except as regards the power to appoint an alternate Director) be subject in all respects to the terms and conditions existing with reference to the other Directors and each alternate Director, whilst acting in the place of an absent Director, shall exercise and discharge all the functions, powers and duties of the Director being represented. Any Director who is appointed as alternate Director shall be entitled at a meeting of the Directors to cast a vote on behalf of their appointor in addition to the vote to which such Director is entitled in their own capacity as a Director, and shall also be considered as two Directors for the purpose of making a quorum of Directors. Any person appointed as an alternate Director shall automatically vacate such office as an alternate Director if and when the Director by whom the alternate Director has been appointed vacates their office of Director. The remuneration of an alternate Director shall be payable out of the remuneration of the Director appointing such alternate Director and shall be agreed between them.
87. Every instrument appointing an alternate Director shall be in such common form as the Directors may approve.
88. The appointment and removal of an alternate Director shall take effect when lodged at the Registered Office or delivered at a meeting of the Directors.

89. The office of a Director shall be vacated as set out in Articles 90 and 91 and in any of the following events namely:
- (a) if the Director resigns their office by notice in writing signed by such Director and left at the Registered Office;
 - (b) if the Director becomes bankrupt or makes any arrangement or composition with such Director's creditors generally;
 - (c) if the Director dies or is found to be or becomes of unsound mind;
 - (d) if the Director ceases to be a Director by virtue of, or becomes prohibited from being a Director by reason of, an order made under any provisions of any law or enactment;
 - (e) if the Director is removed from office by notice addressed to such Director at their last known address and signed by all of the co-Directors (not being less than two in number); or
 - (f) if the Director is removed from office by Ordinary Resolution.
90. For so long as (i) the Shareholders Agreement remains in force and effect; and (ii) the Founders Group holds a number of Shares representing at least seven and one-half percent (7.5%) of the Shares then issued and outstanding; (iii) the Crescera Group holds a number of Shares representing at least seven and one-half percent (7.5%) of the Shares then issued and outstanding; or (iv) the Inovabra Group holds a number of Shares representing at least seven and one-half percent (7.5%) of the Shares then issued and outstanding, then each such Party whose Group holds at least seven and one-half percent (7.5%) of the Shares then issued and outstanding shall have the exclusive right to (1) request the removal from the Board of Directors of the Founders Directors, Crescera Director or Inovabra Director, as the case may be, whom it had originally nominated to the Board of Directors, and (2) appoint or nominate for appointment or election to the Board of Directors a Director to fill the vacancy resulting from such removal or any other vacancies created by reason of death or resignation of any then-serving Founders Director, Crescera Director or Inovabra Director, as the case may be, whom it had originally nominated to the Board of Directors. The Parties shall take all Necessary Action to cause (1) any such removal of any such Founders Director, Crescera Director or Inovabra Director, as the case may be, from the Board of Directors, and (2) any such vacancies on the Board of Directors to be filled by replacement Directors nominated by each such nominating Party whose Group holds at least seven and one-half percent (7.5%) of the Shares then issued and outstanding, in each case, as promptly as reasonably practicable.
91. For so long as (i) the Shareholders Agreement remains in force and effect; and (ii) the Sponsor remains party to the Shareholders Agreement, then the Sponsor shall have the exclusive right to (1) request the removal from the Board of Directors of the Sponsor Director whom it had originally nominated to the Board of Directors and (2) appoint or nominate for election to the Board a Director to fill the vacancy of such removal or any other vacancies created by reason of death or resignation of any then-serving Sponsor Director whom it had originally nominated to the Board of Directors. 93. No Director or intending Director shall be disqualified by their office from contracting with the Company either as vendor, purchaser or otherwise, nor shall any such contract or any contract or arrangement entered

into by or on behalf of the Company in which any Director is in any way interested be liable to be avoided, nor shall any Director so contracting or being so interested be liable to account to the Company for any profit realised by any such contract or arrangement by reason of such Director holding that office or of the fiduciary relationship thereby established, but the nature of the Director's interest must be declared by such Director at the meeting of the Directors at which the question of entering into the contract or arrangement is first taken into consideration, or if the Director was not at the date of that meeting interested in the proposed contract or arrangement, then at the next meeting of the Directors held after such Director becomes so interested, and in a case where the Director becomes interested in a contract or arrangement after it is made, then at the first meeting of the Directors held after such Director becomes so interested.

94. In the absence of some other material interest than is indicated below, provided a Director who is in any way, whether directly or indirectly, interested in a contract or proposed contract with the Company declares (whether by specific or general notice) the nature of their interest at a meeting of the Directors that Director may vote in respect of any contract or proposed contract or arrangement notwithstanding that such Director may be interested therein and if such Director does so their vote shall be counted and such Director may be counted in the quorum at any meeting of the Directors at which any such contract or proposed contract or arrangement shall come before the meeting for consideration.
95. Where proposals are under consideration concerning the appointment (including fixing or varying the terms of appointment) of two or more Directors to offices or employments with the Company or any company in which the Company is interested, such proposals may be divided and considered in relation to each Director separately and in such cases each of the Directors concerned shall be entitled to vote (and be counted in the quorum) in respect of each resolution except that concerning the Director's own appointment.
96. Any Director may act independently or through the Director's firm in a professional capacity for the Company, and the Director or the firm shall be entitled to remuneration for professional services as if the Director were not a Director, provided that nothing herein contained shall authorise a Director or the Director's firm to act as Auditor to the Company.
97. Any Director may continue to be or become a director, managing director, manager or other officer or shareholder of any company promoted by the Company or in which the Company may be interested, and no such Director shall be accountable for any remuneration or other benefits received by the Director as a director, managing director, manager or other officer or shareholder of any such other company. The Directors may exercise the voting power conferred by the shares in any other company held or owned by the Company or exercisable by them as directors of such other company, in such manner in all respects as they think fit (including the exercise thereof in favour of any resolution appointing themselves or any of them directors, managing directors or other officers of such company, or voting or providing for the payment of remuneration to the directors, managing directors or other officers of such company).

The business of the Company shall be managed by the Directors, who may exercise all such powers of the Company as are not by the Companies Act or by these Articles required to be exercised by the Company in general meeting, subject nevertheless to any regulations of these Articles, to the Companies Act, and to such regulations being not inconsistent with the aforesaid regulations or provisions as may be prescribed by the Company in general meeting, but no regulations made by the Company in general meeting shall invalidate any prior act of the Directors which would have been valid if such regulations had not been made. The general powers given by this Article shall not be limited or restricted by any special authority or power given to the Directors by any other Article.
99. The Directors may from time to time and at any time by power of attorney appoint any company, firm or person or any fluctuating body of persons, whether nominated directly or indirectly by the Directors, to be

100. All cheques, promissory notes, drafts, bills of exchange and other negotiable or transferable instruments drawn by the Company, and all receipts for monies paid to the Company shall be signed, drawn, accepted, endorsed or otherwise executed, as the case may be, in such manner as the Directors shall from time to time by resolution determine.

106. A meeting of the Directors for the time being at which a quorum is present shall be competent to exercise all powers and discretions for the time being exercisable by the Directors.
107. Without prejudice to the powers conferred by these Articles, the Directors may delegate any of their powers to committees consisting of such member or members of their body as they think fit. Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on them by the Directors. Table of Contents

109. The Directors may appoint such officers as they consider necessary on such terms, at such remuneration and to perform such duties, and subject to such provisions as to disqualification and removal as the Directors may think fit. Unless otherwise specified in the terms of the officer's appointment an officer may be removed by resolution of the Directors or Shareholders.
110. All acts done by any meeting of Directors, or of a committee of Directors or by any person acting as a Director, shall, notwithstanding it be afterwards discovered that there was some defect in the appointment of any such Director or person acting as aforesaid, or that they or any of them were disqualified, or had vacated office, or were not entitled to vote, be as valid as if every such person had been duly appointed, and was qualified and had continued to be a Director and had been entitled to vote.
111. The Directors shall cause minutes to be made of:
 - (a) all appointments of officers made by the Directors;
 - (b) the names of the Directors present at each meeting of the Directors and of any committee of Directors; and
 - (c) all resolutions and proceedings of all meetings of the Company and of the Directors and of any committee of Directors.

112. A resolution in writing signed by all the Directors for the time being entitled to attend and vote at a meeting of the Directors (an alternate Director being entitled to sign such a resolution on behalf of their appointor) shall be as valid and effective as a resolution passed at a meeting of the Directors duly convened and held and may consist of several documents in the like form each signed by one or more of the Directors (or their alternates).

PRESUMPTION OF ASSENT

113. A Director who is present at a meeting of the Board of Directors at which action on any Company matter is taken shall be presumed to have assented to the action taken unless the Director's dissent shall be entered in the minutes of the meeting or unless the Director shall file their written dissent from such action with the person acting as the secretary of the meeting before the adjournment thereof or shall forward such dissent by registered mail to such person immediately after the adjournment of the meeting. Such right to dissent shall not apply to a Director who voted in favour of such action.

115. The Directors may appoint any person to be a Secretary who shall hold office for such term, at such remuneration and upon such conditions and with such powers as they think fit. Any Secretary so appointed by the Directors may be removed by the Directors or by the Company by Ordinary Resolution. Anything required or authorised to be done by or to the Secretary may, if the office is vacant or there is for any other reason no Secretary capable of acting, be done by or to any assistant or deputy Secretary or if there is no assistant or deputy Secretary capable of acting, by or to any officer of the Company authorised generally or specially in that behalf by the Directors, provided that any provisions of these Articles requiring or authorising a thing to be done by or to a Director and the Secretary shall not be satisfied by its being done by or to the same person acting both as Director and as, or in the place of, the Secretary.
116. No person shall be appointed or hold office as Secretary who is:
- (a) the sole Director;
 - (b) a corporation the sole director of which is the sole Director; or
 - (c) the sole director of a corporation which is the sole Director.

THE SEAL

117. The Directors shall provide for the safe custody of the Seal and the Seal shall never be used except by the authority of a resolution of the Directors or of a committee of the Directors authorised by the Directors in that behalf. The Directors may keep for use outside the Cayman Islands a duplicate Seal. The Directors may from time to time as they see fit (subject to the provisions of these Articles relating to share certificates) determine the persons and the number of such persons in whose presence the Seal or the facsimile thereof shall be used, and until otherwise so determined the Seal or the duplicate thereof shall be affixed in the presence of any one Director or the Secretary, or of some other person duly authorised by the Directors.

DIVIDENDS, DISTRIBUTIONS AND RESERVES

118. Subject to the Companies Act, these Articles, and the special rights attaching to Shares of any class, the Directors may, in their absolute discretion, declare dividends and distributions on Shares in issue and authorise payment of the dividends or distributions out of the funds of the Company lawfully available therefor. No dividend or distribution shall be paid except out of the realised or unrealised profits of the Company, or out of the Share Premium Account, or as otherwise permitted by the Companies Act.
119. Except as otherwise provided by the rights attached to Shares, or as otherwise determined by the Directors, all dividends and distributions in respect of Shares shall be declared and paid according to the par value of the Shares that a Shareholder holds. If any Share is issued on terms providing that it shall rank for dividend or distribution as from a particular date, that Share shall rank for dividend or distribution accordingly.
120. The Directors may deduct and withhold from any dividend or distribution otherwise payable to any Shareholder all sums of money (if any) then payable by the Shareholder to the Company on account of calls or otherwise or any monies which the Company is obliged by law to pay to any taxing or other authority.
121. The Directors may declare that any dividend or distribution be paid wholly or partly by the distribution of specific assets and in particular of shares, debentures or securities of any other company or in any one or more of such ways and, where any difficulty arises in regard to such distribution, the Directors may settle the same as they think expedient and in particular may issue fractional Shares and fix the value for

distribution of such specific assets or any part thereof and may determine that cash payments shall be made to any Shareholder upon the basis of the value so fixed in order to adjust the rights of all Shareholders and may vest any such specific assets in trustees as may seem expedient to the Directors.

122. Any dividend, distribution, interest or other monies payable in cash in respect of Shares may be paid by wire transfer to the holder or by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of the holder who is first named on the Register of Members or to such person and to such address as such holder or joint holders may in writing direct. Every such cheque or warrant shall (unless the Directors in their sole discretion otherwise determine) be made payable to the order of the person to whom it is sent. Any one of two or more joint holders may give effectual receipts for any dividends, bonuses, or other monies payable in respect of the Share held by them as joint holders.
123. Any dividend or distribution which cannot be paid to a Shareholder and/or which remains unclaimed after six (6) months from the date of declaration of such dividend or distribution may, in the discretion of the Directors, be paid into a separate account in the Company's name, provided that the Company shall not be constituted as a trustee in respect of that account and the dividend or distribution shall remain as a debt due to the Shareholder. Any dividend or distribution which remains unclaimed after a period of six years from the date of declaration of such dividend or distribution shall be forfeited and shall revert to the Company.
124. No dividend or distribution shall bear interest against the Company.

SHARE PREMIUM ACCOUNT

125. The Directors shall establish an account on the books and records of the Company to be called the Share Premium Account and shall carry to the credit of such account from time to time a sum equal to the amount or value of the premium paid on the issue of any Share.

ACCOUNTS

126. The Directors shall cause proper books of account to be kept with respect to all sums of money received and expended by the Company and the matters in respect of which the receipt or expenditure takes place, all sales and purchases of goods by the Company and the assets and liabilities of the Company. Proper books shall not be deemed to be kept if there are not kept such books of account as are necessary to give a true and fair view of the state of the Company's affairs and to explain its transactions.
127. The books of account shall be kept at the Registered Office or at such other place as the Directors think fit, and shall always be open to inspection by the Directors.
128. The Board of Directors shall from time to time determine whether and to what extent and at what time and places and under what conditions or articles the accounts and books of the Company or any of them shall be open to the inspection of Shareholders not being Directors, and no Shareholder (not being a Director) shall have any right of inspection of any account or book or document of the Company except as conferred by law or authorised by the Board of Directors or by resolution of the Shareholders.

AUDIT

129. The accounts relating to the Company's affairs shall be audited in such manner as may be determined from time to time by resolution of the Shareholders or failing any such determination, by the Board of Directors, or failing any determination as aforesaid, shall not be audited.

NOTICES

130. Any notice or document may be served by the Company on any Shareholder:
- (a) personally;
 - (b) by registered post or courier to that Shareholder's address as appearing in the Register of Members; or
 - (c) by cable, telex, facsimile, e-mail or any other electronic means should the Directors deem it appropriate.
131. In the case of joint holders of a Share, all notices shall be given to that one of the joint holders whose name stands first in the Register of Members in respect of the joint holding, and notice so given shall be sufficient notice to all the joint holders.
132. Any Shareholder present, either personally or by proxy, at any meeting of the Company shall for all purposes be deemed to have received due notice of such meeting and, where requisite, of the purposes for which such meeting was convened.
133. Any summons, notice, order or other document required to be sent to or served upon the Company, or upon any officer of the Company may be sent or served by leaving the same or sending it through the post in a prepaid letter envelope or wrapper, addressed to the Company or to such officer at the Registered Office.
134. Where a notice or other document is sent by registered post, service of that notice or other document shall be deemed to be effected by properly addressing, pre-paying and posting an envelope containing it, and that notice or other document shall be deemed to have been received on the third day (not including Saturdays or Sundays or public holidays) following the day on which it was posted. Where a notice or other document is sent by courier, service of that notice or other document shall be deemed to be effected by delivery of the notice or other document to a courier company, and that notice or other document shall be deemed to have been received on the fifth day (not including Saturdays or Sundays or public holidays in the Cayman Islands) following the day on which it was delivered to the courier company. Where a notice or other document is sent by cable, telex or facsimile, service of that notice or other document shall be deemed to be effected by properly addressing and sending it, and that notice or other document shall be deemed to have been received on the same day that it was transmitted. Where a notice or other document is sent by email, service of that notice or other document shall be deemed to be effected by transmitting the email to the email address provided by the intended recipient and that notice or other document shall be deemed to have been received on the same day that it was sent, and it shall not be necessary for the receipt of the email to be acknowledged by the recipient.
135. Any notice or document delivered or sent by post to or left at the registered address of any Shareholder in pursuance of these Articles shall notwithstanding that such Shareholder be then dead, insane, bankrupt or dissolved, and whether or not the Company has notice of such death, insanity, bankruptcy or dissolution, be deemed to have been duly served in respect of any Share registered in the name of such Shareholder as sole or joint holder, unless the Shareholder's name shall at the time of the service of the notice or document, have been removed from the Register of Members as the holder of the Share, and such service shall for all purposes be deemed a sufficient service of such notice or document on all persons interested (whether jointly with or as claiming through or under such Shareholder) in the Share.

WINDING UP AND FINAL DISTRIBUTION OF ASSETS

136. The Directors may present a winding up petition on behalf of the Company without the sanction of a resolution of the Shareholders passed at a general meeting.
137. If the Company shall be wound up the liquidator shall apply the assets of the Company in satisfaction of creditors' claims in such manner and order as such liquidator thinks fit.

Table of Contents

138. If the Company shall be wound up, and the assets available for distribution amongst the Shareholders shall be insufficient to repay the whole of the share capital, such assets shall be distributed so that, as nearly as may be, the losses shall be borne by the Shareholders in proportion to the par value of the Shares held by them. If in a winding up the assets available for distribution amongst the Shareholders shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the surplus shall be distributed amongst the Shareholders in proportion to the par value of the Shares held by them at the commencement of the winding up subject to a deduction from those Shares in respect of which there are monies due of all monies payable to the Company for unpaid calls or otherwise. This Article is without prejudice to the rights of the holders of Shares issued upon special terms and conditions.
139. If the Company shall be wound up (whether the liquidation is voluntary, under supervision or by the Court) the liquidator may, with the authority of a Special Resolution, divide among the Shareholders in specie the whole or any part of the assets of the Company, and whether or not the assets shall consist of property of a single kind, and may for such purposes set such value as the liquidator deems fair upon any one or more class or classes of property, and may determine how such division shall be carried out as between the Shareholders. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of Shareholders as the liquidator, with the like authority, shall think fit, and the liquidation of the Company may be closed and the Company dissolved, but so that no Shareholder shall be compelled to accept any Shares in respect of which there is liability.

INDEMNITY

140. Every Director or officer of the Company shall be indemnified out of the assets of the Company against any liability incurred by that Director or officer as a result of any act or failure to act in carrying out their functions other than such liability (if any) that the Director or officer may incur by their own actual fraud or wilful default. No such Director or officer shall be liable to the Company for any loss or damage in carrying out their functions unless that liability arises through the actual fraud or wilful default of such Director or officer. References in this Article to actual fraud or wilful default mean a finding to such effect by a competent court in relation to the conduct of the relevant party.
141. The Company shall (a) purchase directors' and officers' liability insurance from time to time in an amount determined by the Board of Directors to be reasonable and customary and (b) for so long as a Director nominated pursuant to these Articles serves as a Director of the Company, maintain such coverage with respect to such Director and shall use commercially reasonable efforts to extend such coverage for a period of not less than six (6) years from any removal or resignation of such Director, in respect of any act or omission occurring at or prior to such event.

DISCLOSURE

142. Any Director, officer or authorised agent of the Company shall, if lawfully required to do so under the laws of any jurisdiction to which the Company is subject or in compliance with the rules of any stock exchange upon which the Company's shares are listed or in accordance with any contract entered into by the Company, be entitled to release or disclose any information in their possession regarding the affairs of the Company including, without limitation, any information contained in the Register of Members.

CLOSING REGISTER OF MEMBERS OR FIXING RECORD DATE

143. The Directors may fix in advance a date as the record date for any determination of Shareholders entitled to notice of or to vote at a meeting of the Shareholders and for the purpose of determining the Shareholders entitled to receive payment of any dividend the Directors may either before or on the date of declaration of such dividend fix a date as the record date for such determination.

144. If no record date is fixed for the determination of Shareholders entitled to notice of or to vote at a meeting of Shareholders or Shareholders entitled to receive payment of a dividend, the date on which notice of the meeting is mailed or the date on which the resolution of the Directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of Shareholders. When a determination of Shareholders entitled to vote at any meeting has been made in the manner provided in the preceding Article, such determination shall apply to any adjournment thereof.

REGISTRATION BY WAY OF CONTINUATION

145. The Company may by Special Resolution resolve to be registered by way of continuation in a jurisdiction outside the Cayman Islands or such other jurisdiction in which it is for the time being incorporated, registered or existing. The Directors may cause an application to be made to the Registrar of Companies to deregister the Company in the Cayman Islands or such other jurisdiction in which it is for the time being incorporated, registered or existing and may cause all such further steps as they consider appropriate to be taken to effect the transfer by way of continuation of the Company.

FINANCIAL YEAR

146. The Directors shall determine the financial year of the Company and may change the same from time to time. Unless they determine otherwise, the financial year shall end on 31 December in each year.

AMENDMENTS TO MEMORANDUM AND ARTICLES OF ASSOCIATION

147. The Company may from time to time alter or add to these Articles or alter or add to the Memorandum with respect to any objects, powers or other matters specified therein by passing a Special Resolution in the manner prescribed by the Companies Act.

CAYMAN ISLANDS DATA PROTECTION

148. The Company is a “data controller” for the purposes of the Data Protection Act, 2017 (as amended, the **DPA**). By virtue of subscribing for and holding Shares in the Company, Shareholders provide the Company with certain information (**Personal Data**) that constitutes “personal data” under the DPA.  - (b) complying with legal or regulatory obligations (including those relating to anti-money laundering and counter-terrorist financing, preventing and detecting fraud, sanctions, automatic exchange of tax information, requests from governmental, regulatory, tax and law enforcement authorities, beneficial ownership and the maintenance of statutory registers); and
 - (c) the legitimate interests pursued by the Company or third parties to whom Personal Data may be transferred, including to manage and administer the Company, to send updates, information and notices

to Shareholders or otherwise correspond with Shareholders regarding the Company, to seek professional advice (including legal advice), to meet accounting, tax reporting and audit obligations, to manage risk and operations and to maintain internal records.

150. The Company transfers Personal Data to certain third parties who process the Personal Data on the Company's behalf, including third party service providers that it appoints or engages to assist with its management, operation, administration and legal, governance and regulatory compliance. - c) Without limiting the generality, and in furtherance, of the foregoing, during the term of this Agreement, for purposes of the Corporate Approvals, each Equity Holder, on its own behalf and on behalf of any wholly owned subsidiary, as applicable, hereby agrees to be present for any meeting and vote (in person or by proxy), or consent to any action by written consent or resolution with respect to, as applicable, the Equity Interests and ordinary shares of Newco (“Shares”) (i) in favor of, and to adopt, the Business Combination Agreement, the Transaction Agreements and the transactions contemplated thereby, (ii) in favor of the other matters set forth in the Business Combination Agreement, the Transaction Documents and the transactions contemplated thereby to the extent required for the Company and Newco to carry out their respective obligations thereunder, and (iii) in opposition to: (A) any Company Business Combination and any and all other proposals (1) that could reasonably be expected to delay or impair the ability of the Company to consummate the transactions contemplated by the Business Combination Agreement or any Transaction Agreement or (2) which are in competition with or materially inconsistent with the Business Combination Agreement, any Transaction Agreement and the transactions contemplated thereby or (B) any other action, proposal, transaction or agreement involving the Company or any of its subsidiaries that is intended, or would reasonably be expected, to prevent, impede, interfere with, delay, postpone or adversely affect in any material respect the transactions contemplated by the Business Combination Agreement or any Transaction Agreement or would reasonably be expected to result in (y) any breach of any representation, warranty, covenant, obligation or agreement of the Company in the Business Combination Agreement or any Transaction Agreement or (z) any of the conditions to the Company’s obligations under the Business Combination Agreement or any Transaction Agreement not being fulfilled.
- d) Each Equity Holder agrees not to deposit, and to cause its affiliates not to deposit, any Equity Interests or Shares in a voting trust or subject any Equity Interests or Shares to any arrangement or agreement with respect to the voting of such Equity Interests or Shares, unless specifically requested to do so by the SPAC and the Company in connection with the Business Combination Agreement, the Transaction Agreements or the transactions contemplated thereby.
- e) Each Equity Holder agrees (i) to refrain from exercising any dissenters’ rights or rights of appraisal under applicable Legal Requirements at any time with respect to the Second Merger, the Pre-Closing Exchange, the Agreement, the other Transaction Agreements and the transactions contemplated thereby and (ii) not to commence or participate in any claim, derivative or otherwise, against the Company, Newco, SPAC, New PubCo or any of their respective Affiliates relating to the negotiation, execution or delivery of this Agreement or the Business Combination Agreement or the consummation of the Mergers, the Pre-Closing Exchange or the other transactions contemplated thereby, including any claim (A) challenging the validity of, or seeking to enjoin the operation of, any provision of this Agreement

or (B) alleging a breach of any fiduciary duty of the board of directors or similar governing body of the Company or New PubCo in connection with the Second Merger, the Pre-Closing Exchange, the Agreement, the other Transaction Agreements and the transactions contemplated thereby. For the avoidance of doubt, this paragraph shall not apply, or be construed to apply, to in respect of an Equity Holder's rights or obligations under the Shareholders Agreement or the A&R Registration Rights Agreement.

1.4. Proxy.

- a) Without limiting any other rights or remedies of the Company, for all purposes of this Agreement, each Equity Holder hereby appoints the Company, and any designee of either of them, and each of them individually, as its proxies, agents and attorneys-in-fact, with full power of substitution and resubstitution, to vote or act by written consent during the term of this Agreement with respect to the matters set forth herein in the name and in the stead of such Equity Holder, including to attend on behalf of such Equity Holder any meeting of the Equity Holders or Shares with respect to the Corporate Approvals, to include the Equity Interests or Shares in any computation for purposes of establishing a quorum at any such meeting of the Equity Holders or Shares, to vote (or cause to be voted, as applicable) the Equity Interests or Shares or consent or approve (or withhold consent or approval, as applicable) with respect to any of the Corporate Approvals in connection with any meeting of the Equity Holders, any action by written consent or any other approval by the Equity Holders. This proxy and power of attorney is given to secure the performance of the duties of the Equity Holder under this Agreement. Each Equity Holder shall take such further action or execute such other instruments as may be necessary to effectuate the intent of this proxy.
- b) This proxy and power of attorney granted by Equity Holder shall be irrevocable during the term of this Agreement, shall be deemed to be coupled with an interest sufficient in law to support an irrevocable proxy, is granted in consideration for the Company entering into the Business Combination Agreement and agreeing to consummate the transactions contemplated thereby and shall revoke any and all prior proxies granted by Equity Holder with respect to the Equity Interests or Shares. The power of attorney granted by Equity Holder herein is a durable power of attorney and shall survive the dissolution, bankruptcy, death or incapacity of Equity Holder. The vote, consent or approval by the proxyholder with respect to any Corporate Approval shall control in the event of any conflict between such vote, consent or approval (or withholding of consent or approval, as applicable) by the proxyholder of the Equity Interests or Shares and a vote, consent or approval (or withholding of consent or approval, as applicable) by such Equity Holder of the Equity Interests or Shares (or any other Person with the power to vote or provide consent or approval (or withhold consent or approval, as applicable) with respect to the Equity Interests or Shares) with respect to any Corporate Approval. The proxy and power of attorney granted hereunder shall terminate upon the termination of this Agreement.
- c) The Company agrees, pursuant to the powers of attorney granted to the Company pursuant to this Agreement, in connection with and to facilitate the consummation of the Pre-Closing Exchange, to the extent necessary or advisable, to make, execute, acknowledge and deliver all such other agreements, documents and instruments necessary or advisable to consummate the Pre-Closing Exchange and, in general, to do any and all things and to take any and all actions necessary or advisable in connection with or to carry out the Pre-Closing Exchange on behalf of the Equity Holders, in each case subject to the terms and conditions of the Business Combination Agreement.

During the term of this Agreement, each Equity Holder and Optionee agrees that it shall not take any action that would reasonably be expected to prevent, impede, interfere with or adversely affect any Equity Holder's, the Company's and/or Newco's ability to perform its obligations under this Agreement and/or the Business Combination Agreement, except as expressly contemplated by this Agreement or the Business Combination Agreement. Each Equity Holder hereby agrees to promptly execute and deliver all additional agreements, documents or instruments, take, or cause to be taken, all actions and provide, or cause to be provided, all additional information or other materials as may be necessary or advisable, in each case, as reasonably determined by SPAC and the Company, in connection with, or otherwise in furtherance of, the transactions contemplated by the Business Combination Agreement or this Agreement.

1.6. Termination of Existing Shareholders Agreements. Each Equity Holder and the Company hereby agrees that, notwithstanding anything to the contrary in any such agreement, (i) each of the agreements set forth on Schedule B hereto shall be automatically terminated and of no further force and effect (including any provisions of any such agreement that, by its terms, survive such termination) effective as of, and subject to and conditioned upon the occurrence of, the Closing and (ii) upon such termination neither the Company nor any of its Affiliates shall have any further obligations or Liabilities under or with respect to each such agreement. Without limiting the above, each of the Equity Holders who are a party to the agreements set forth on Schedule B hereby expressly and irrevocably acknowledge and agree that all terms and conditions of the respective agreements to which they are a party to were duly observed or waived, as applicable. For purposes of clarification, despite the completion of the contribution set forth in this Agreement, the Shareholder's Agreement shall remain in full force, *mutatis mutandis*, until the Closing is consummated.

1.7. Business Combination Agreement. Each Equity Holder hereby agrees to be bound by and subject to (i) Sections 7.4 (Confidentiality; Communications Plan; Access to Information), 7.6 (No SPAC Securities Transactions), and 7.8 (Disclosure of Certain Matters) of the Business Combination Agreement to the same extent as such provisions apply to the parties to the Business Combination Agreement, as if such Equity Holder is directly party thereto, and (ii) Section 7.7 (No Claim Against Trust Account) and Section 7.10(a) (No Solicitation) of the Business Combination Agreement to the same extent as such provisions apply to the Company, as if the Equity Holder is directly party thereto.

1.8. Transfers of Equity Interests or Shares Prior to Closing. Except as expressly contemplated by the Business Combination Agreement or this Agreement or with the prior written consent of SPAC (such consent to be given or withheld in its sole discretion), from and after the date hereof until the earlier of the Closing or the termination of the Business Combination Agreement in accordance with its terms, each Equity Holder agrees not to (a) Transfer any of the Equity Interests or Shares, (b) enter into any option, warrant, purchase right or other Contract that could (either alone or in connection with one or more events, developments or events (including the satisfaction or waiver of any conditions precedent)) require the Equity Holder to Transfer any of the Equity Interests or Shares, or (c) take any actions in furtherance of any of the matters described in the foregoing clauses (a) or (b). Notwithstanding the foregoing or anything to the contrary herein, the foregoing restrictions shall not prohibit a Transfer (i) if such Equity Holder is not an individual or a trust, to any of its Affiliates, or (ii) if such Equity Holder is an individual or a trust, (A) by virtue of laws of descent and distribution upon death of the individual, (B) pursuant to a qualified domestic relations order or (C) to any member of such Equity Holder's immediate family or any trust for the direct or indirect benefit of such Equity Holder or the immediate family of such Equity Holder; provided, however, that (x) such Equity Holder shall, and shall cause any such transferee of his, her or its Equity Interests or Shares, to enter into a written agreement, in form and substance reasonably satisfactory to SPAC, agreeing to be bound by this Agreement (including, for the avoidance of doubt, all of the covenants, agreements and obligations of such Equity Holder hereunder and which agreement will include, for the avoidance of doubt, the making of all of the representations and warranties of such Equity Holder set forth in Article II with respect to such transferee and his, her or its Equity Interests or Shares received upon such Transfer, as applicable) prior and as a condition to the occurrence of such Transfer, and (y) no such Transfer will relieve such Equity Holder of any of its covenants, agreements or obligations hereunder with respect to the Equity Interests or Shares so transferred, unless and to the extent actually performed, or will otherwise affect any

of the provisions of this Agreement (including any of the representations and warranties of such Equity Holder hereunder). For purposes of this Agreement, (a) “Beneficially Own” has the meaning ascribed to it in the Exchange Act; (b) “Transfer” shall mean the (i) direct or indirect transfer, sale or assignment of, offer to sell, contract or any agreement to sell, hypothecate, pledge, encumber grant of any option to purchase or otherwise dispose of, either voluntarily or involuntarily, or any agreement to dispose of, directly or indirectly, or establishment or increase of a put equivalent position or liquidation with respect to or decrease of a call equivalent position within the meaning of Section 16 of the Exchange Act and the rules and regulations of the SEC promulgated thereunder with respect to, any security, (ii) entry into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of any security, whether any such transaction is to be settled by delivery of such securities, in cash or otherwise, or (iii) public announcement of any intention to effect any transaction specified in clause (b)(i) or (b)(ii); and (c) “immediate family” shall mean a spouse, domestic partner, child, grandchild or other lineal descendant (including by adoption), father, mother, brother or sister of the applicable party hereto; and “affiliate” shall have the meaning set forth in Rule 405 under the Securities Act of 1933, as amended.

Each Equity Holder (on behalf of itself, himself, and herself and the other Releasing Parties) hereby agrees not to institute any proceeding against any Released Party with respect to any of the Released Claims but excluding the Excluded Claims. Each Equity Holder represents,

warrants and acknowledges that he, she or it has consulted with counsel with respect to the execution and delivery of this release and has been fully apprised of the consequences hereof. Each Equity Holder agrees and acknowledges that the release in this Agreement constitutes a complete defense of any and all Released Claims, other than Excluded Claims.

1.10. Optionees' Undertaking.

- a) In the event that, prior to the Pre-Closing Exchange (as defined in the Business Combination Agreement), any Optionee exercises any of his or her Options under the Company Share Plan, such Optionee will automatically become an Equity Holder under the terms of this Agreement and will be treated as an Equity Holder for all purposes of this Agreement, assuming any and all rights and obligations set forth herein, and Schedule A hereto shall be deemed to be updated to include the equity interests underlying each such exercised Option in Schedule A.

ARTICLE II
REPRESENTATIONS AND WARRANTIES OF THE EQUITY HOLDER

2.1. Each Equity Holder (including for purposes of this Article II, each Optionee) hereby represents and warrants to Newco, SPAC and New PubCo that:

- a) Title. Each Equity Holder and Optionee holds good, valid and marketable title to the Equity Interests and Options set forth opposite the Equity Holder's name on Schedule A, free and clear of any mortgage, pledge, security interest, conditional sale or other title retention agreement, encumbrance, lien, easement, option, debt, charge, claim or restriction of any kind except as set forth in Schedule A.
- b) Authorization. Each Equity Holder and Optionee has full power and authority (including any spouse consent) to enter into this Agreement, and this Agreement, assuming the due authorization, execution and delivery of this Agreement by all other parties, constitutes its valid and legally binding obligation, enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy Legal Requirements, other similar Legal Requirements affecting creditors' rights and general principles of equity affecting the availability of specific performance and other equitable remedies.
- c) No Conflict. Neither the execution and delivery of this Agreement by the Equity Holder nor the performance of the Equity Holder's obligations hereunder (i) violates any provision of any Legal Requirements applicable to the Equity Holder, (ii) if the Equity Holder is not an individual, would, directly or indirectly, result in any breach of any provision of the Equity Holder's Governing Documents, (iii) conflicts with, result in a breach under or give rise to any right of termination of any document, agreement or instrument to which the Equity Holder is a party, or (iv) result in the creation or imposition of any mortgage, pledge, security interest, conditional sale or other title retention agreement, encumbrance, lien, easement, option, debt, charge, claim or restriction of any kind upon the Equity Interests except as disclosed on Schedule A.
- d) No Consents. No consent, waiver, approval, order or authorization of, or registration, qualification, designation, declaration or filing with, any court, administrative agency or commission or any other governmental authority, instrumentality, agency or commission or any third party (including a party to any agreement with the Equity Holder, the Optionee or any spouse consent), is required by or with respect to the delivery of this Agreement and the consummation of the transactions contemplated hereby.
- e) Ownership. The Equity Holder is the beneficial and record owner of the Equity Interests set forth next to the Equity Holder's name on Schedule A. The Equity Interests and Options set forth on Schedule A collectively constitute 100% of the Equity Holder's interest in the Company and the Equity Holder does not own, beneficially or of record, any other equity, equity-linked or similar securities of the Company or any of its Subsidiaries or have the right to acquire any equity, equity-linked or similar

securities of the Company or any of its Subsidiaries. The Equity Holder acknowledges that the Equity Holder's agreement to contribute all of the equity securities of the Company held by the Equity Holder is a material inducement to Newco's willingness to issue to the Equity Holder, or to the respective wholly owned subsidiary if applicable, the Shares. As such, if after the execution of this Agreement it is discovered that the Equity Holder is directly or indirectly the owner of any additional membership, equity or ownership interests not reflected next to the Equity Holder's name on Schedule A (an "Undisclosed Interest"), the Equity Holder hereby agrees to contribute, assign, transfer, convey and deliver to Newco all of the Equity Holder's right, title and interest in and to such Undisclosed Interest. By executing this Agreement, each Equity Holder further represents that it does not have any contract, undertaking, agreement or arrangement with any person to sell, transfer or grant participations to such person or to any person, with respect to any of the Equity Interests except as disclosed on Schedule A. The Equity Holder has the sole right to vote (and provide consent in respect of, as applicable) the Equity Interests set forth next to the Equity Holder's name on Schedule A and, except for this Agreement, the Business Combination Agreement and as disclosed on Schedule A, the Equity Holder is not party to or bound by (i) any option, warrant, purchase right, or other Contract that could (either alone or in connection with one or more events, developments or events (including the satisfaction or waiver of any conditions precedent)) require the Equity Holder to Transfer any of the Equity Interests or (ii) any voting trust, proxy or other Contract with respect to the voting or Transfer of any of the Equity Interests.

- f) There is no Legal Proceeding pending or, to the Equity Holder's knowledge, threatened against or involving the Equity Holder or any of his, her or its Affiliates that, if adversely decided or resolved, would reasonably be expected to adversely affect the ability of the Equity Holder to perform, or otherwise comply with, any of its covenants, agreements or obligations under this Agreement in any material respect.
- g) There is no Order or Legal Requirement issued by any court of competent jurisdiction or other Governmental Entity, or other legal restraint or prohibition relating to the Equity Holder or any of his, her or its Affiliates that could reasonably be expected to adversely affect the ability of the Equity Holder to perform, or otherwise comply with, any of its covenants, agreements or obligations under this Agreement in any material respect.
- h) The Equity Holder, on his, her or its own behalf and on behalf of his, her or its Representatives, acknowledges, represents, warrants and agrees that (i) he, she or it has conducted his, her or its own independent review and analysis of, and, based thereon, has formed an independent judgment concerning, the business, assets, condition, operations and prospects of, Newco, SPAC and New PubCo and the transactions contemplated by this Agreement, the Business Combination Agreement and the other Transaction Agreements and (ii) he, she or it has been furnished with or given access to such documents and information about Newco, SPAC and New PubCo and their respective businesses and operations as he, she or it and his, her or its Representatives have deemed necessary to enable him, her or it to make an informed decision with respect to the execution, delivery and performance of this Agreement or the other Transaction Agreements to which he, she or it is or will be a party and the transactions contemplated hereby and thereby.
- i) In entering into this Agreement and the other Transaction Agreements to which he, she or it is or will be a party, the Equity Holder has relied solely on his, her or its own investigation and analysis and the representations and warranties expressly set forth in the Transaction Agreements to which he, she or it is or will be a party and no other representations or warranties of Newco, SPAC or New PubCo (including, for the avoidance of doubt, none of the representations or warranties of SPAC or New PubCo set forth in the Business Combination Agreement or any other Transaction Agreement) or any other Person, either express or implied, and the Equity Holder, on his, her or its own behalf and on behalf of his, her or its Representatives, acknowledges, represents, warrants and agrees that, except for the representations and warranties expressly set forth in this Agreement or in the other Transaction Agreements to which he, she or it is or will be a party, none of Newco, SPAC or New PubCo or any

other Person makes or has made any representation or warranty, either express or implied, in connection with or related to this Agreement, the Business Combination Agreement or the other Transaction Agreements or the transactions contemplated hereby or thereby.

ARTICLE III
REPRESENTATIONS AND WARRANTIES OF THE COMPANY

3.1. The Company hereby represents and warrants to each Equity Holder that:

The Company is a closely held company, duly organized, validly existing and in good standing under the laws of the Federative Republic of Brazil and has all requisite corporate power and authority to carry on its business as now conducted and as proposed to be conducted. As of the Effective Date, the Company is duly qualified to transact business and is in good standing in each jurisdiction in which the failure to so qualify would have a material adverse effect on its business or properties.
- b) Authorization. The Company has full power and authority to enter into this Agreement, and this Agreement, assuming the due authorization, execution and delivery of this Agreement by all other parties, constitutes a valid and legally binding obligation, enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy Legal Requirements, other similar Legal Requirements affecting creditors' rights and general principles of equity affecting the availability of specific performance and other equitable remedies.
- c) No Conflict. Neither the execution and delivery of this Agreement by the Company nor the performance of the Company's obligations hereunder violates any provision of law applicable to the Company or conflicts with any document, agreement or instrument to which the Company is a party.

(c) If any Transfer is made or attempted in violation of or contrary to the terms of this Agreement (a “Prohibited Transfer”), such purported Prohibited Transfer shall be null and void *ab initio*, and New PubCo shall refuse to recognize any such purported transferee of the Lock-up Shares as one of New PubCo’s equity holders for any purpose.

(d) If, between the Closing and a Liquidation Event, the outstanding New PubCo Shares shall have been changed into a different number of shares or a different class, by reason of any stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or any similar transaction affecting the outstanding New PubCo Shares, then any number, value (including dollar value) or amount contained herein which is based upon the number of New PubCo Shares will be equitably adjusted for such dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or any similar transaction. Any adjustment under this Section 2(d) shall become effective at the date and time that such stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or any similar transaction became effective. For the avoidance of doubt, no change of units or shares pursuant to the transactions contemplated by the Business Combination Agreement shall constitute a stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or similar transaction requiring an equitable adjustment.

(e) The restrictions set forth in this Agreement shall not limit the rights of an Equity Holder to exercise such Equity Holder’s rights as a stockholder of New PubCo during the Lock-Up Period, including the right to vote any Lock-Up Shares.

Section 3. Termination. This Agreement shall be binding upon each Equity Holder upon such Equity Holder’s execution and delivery of this Agreement, but this Agreement shall only become effective upon the Closing. Notwithstanding anything to the contrary contained herein, in the event that the Business Combination Agreement is terminated in accordance with its terms prior to the Closing, this Agreement and all rights and obligations of the Parties hereunder shall automatically terminate and be of no further force or effect. If the Closing takes place, the provisions of this Agreement, other than this Section 3 and Section 8, shall terminate and be of no further force or effect upon the first to occur of (i) the date of a Liquidation Event and (ii) the date that all of the Lock-Up Shares are no longer subject to the lock-up restrictions set forth in Section 2(a).

Section 4. Specific Enforcement. The Parties hereto agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms or were otherwise breached. The Parties further agree that each Party shall be entitled to seek specific performance of the terms hereof and immediate injunctive relief and other equitable relief to prevent breaches, or threatened breaches, of this Agreement, without the necessity of proving the inadequacy of money damages as a remedy and without bond or other security being required, this being in addition to any other remedy to which they are entitled at law or in equity. Each Party hereby acknowledges and agrees that it may be difficult to prove damages with reasonable certainty, that it may be difficult to procure suitable substitute performance, and that injunctive relief and/or specific performance will not cause an undue hardship to the Parties. Each Party hereby further acknowledges that the existence of any other remedy contemplated by this Agreement does not diminish the availability of specific performance of the obligations hereunder or any other injunctive relief. Each Party hereby further agrees that in the event of any action by any other Party for specific performance or injunctive relief, the first Party will not assert that a remedy at law or other remedy would be adequate or that specific performance or injunctive relief in respect of such breach or violation should not be available on the grounds that money damages are adequate or any other grounds.

Section 5. Entire Agreement. This Agreement and the other Transaction Agreements together constitute the entire agreement and understanding of the parties hereto in respect of the subject matter hereof and supersede all prior understandings, agreements or representations, both written and oral, by or among the parties hereto with respect to the subject matter hereof.

Section 6. Waiver. Except as otherwise expressly provided herein, no delay, failure or waiver by any party to exercise any right or remedy under this Agreement and no partial or single exercise of any such right or remedy, will operate to limit, preclude, cancel, waive or otherwise affect such right or remedy, nor will any single or partial exercise of such right or remedy limit, preclude, impair or waive any further exercise of such right or remedy or the exercise of any other right or remedy. For purposes of this Agreement, no course of dealing among any or all of the Parties shall operate as a waiver of the rights or remedies hereof. The rights and remedies herein provided are exclusive, and not cumulative, of any rights or remedies provided by applicable Legal Requirement. No provision hereof may be waived otherwise than by a written instrument signed by the Party or Parties so waiving such provision as contemplated herein.

Section 7. Notices. Any notice, consent or request to be given in connection with any of the terms or provisions of this Agreement shall be in writing and shall be sent or given in accordance with the terms of Section 11.1 of the Business Combination Agreement to the applicable Party at its principal place of business. Any notice to any Equity Holder shall be sent to the address set forth on the signature page hereto.

Section 8. Miscellaneous.

(a) Governing Law; Consent to Jurisdiction; Waiver of Jury Trial. Section 11.7 and Section 11.8 of the Business Combination Agreement are incorporated herein by reference, *mutatis mutandis*.

(b) Severability. In the event that any term, provision, covenant or restriction of this Agreement, or the application thereof, is held to be illegal, invalid or unenforceable under any present or future Legal Requirement: (a) such provision will be fully severable; (b) this Agreement will be construed and enforced as if such illegal, invalid or unenforceable provision had never comprised a part hereof; (c) the remaining provisions of this Agreement will remain in full force and effect and will not be affected by the illegal, invalid or unenforceable provision or by its severance herefrom; and (d) in lieu of such illegal, invalid or unenforceable provision, there will be added automatically as a part of this Agreement a legal, valid and enforceable provision as similar in terms of such illegal, invalid or unenforceable provision as may be possible.

(c) Counterparts. This Agreement, the Transaction Agreements and each other document executed in connection with the Transactions, and the consummation thereof, may be executed in one or more counterparts, all of which shall be considered one and the same document and shall become effective when one or more counterparts have been signed by each of the Parties and delivered to the other Parties, it being understood that all Parties need not sign the same counterpart. Delivery by electronic transmission to counsel for the other Parties of a counterpart executed by a Party shall be deemed to meet the requirements of the previous sentence.

(d) Titles and Headings. The titles, captions and table of contents in this Agreement are for reference purposes only, and shall not affect in any way the meaning or interpretation of this Agreement.

(e) Assignment; Successors and Assigns; No Third Party Rights. No Party hereto may assign, directly or indirectly, including by operation of law, either this Agreement or any of its rights, interests, or obligations hereunder without the prior written approval of the other parties. Subject to the foregoing sentence, this Agreement shall be binding upon and shall inure to the benefit of the Parties hereto and their respective successors and permitted assigns, and nothing herein, express or implied, is intended to or shall confer upon any other Person any legal or equitable right, benefit or remedy of any nature whatsoever under or by reason of this Agreement. Any purported assignment or delegation made in violation of this provision shall be void and of no force or effect.

(f) Further Assurances. Each Party hereto shall execute and deliver such additional documents as may be necessary or desirable to effect the transactions contemplated by this Agreement.

NOW, THEREFORE, in consideration of the foregoing and the mutual representations, warranties and covenants, and subject to the conditions, herein contained, and intending to be legally bound hereby, the parties hereto hereby agree as follows:

1. Subscription. Subject to the terms and conditions hereof, at the Closing (as defined below), Subscriber hereby agrees, substantially concurrently with the consummation of the Transactions, to irrevocably subscribe for and purchase from the Issuer, and the Issuer hereby agrees to issue and sell to Subscriber, upon the payment of the Purchase Price, the Subscribed Shares (such subscription and issuance, the “**Subscription**”). Notwithstanding anything herein to the contrary, the consummation of the Subscription is contingent upon the occurrence of the closing of the Transactions as further described herein.

2. Representations, Warranties and Agreements.

2.1. Subscriber’s Representations, Warranties and Agreements. To induce the Issuer to issue the Subscribed Shares, Subscriber hereby represents and warrants to the Issuer and New Pubco and acknowledges and agrees with the Issuer and New Pubco, as of the date hereof and as of the Closing Date, as follows:

2.1.1. If Subscriber is not a natural person, Subscriber has been duly formed or incorporated and is validly existing in good standing under the laws of its jurisdiction of incorporation or formation, with power and authority to enter into, deliver and perform its obligations under this Subscription Agreement. If Subscriber is a natural person, Subscriber has the authority to enter into, deliver and perform its obligations under this Subscription Agreement.

2.1.2. If Subscriber is not a natural person, this Subscription Agreement has been duly authorized, validly executed and delivered by Subscriber. If Subscriber is a natural person, the signature on this Subscription Agreement is genuine, and Subscriber has legal competence and capacity to execute the same. Assuming that this Subscription Agreement constitutes the valid and binding agreement of the Issuer and New Pubco, this Subscription Agreement is the valid and binding obligation of Subscriber, and is enforceable against Subscriber in accordance with its terms, except as may be limited or otherwise affected by (i) bankruptcy, insolvency, fraudulent conveyance, reorganization, moratorium or other laws relating to or affecting the rights of creditors generally, and (ii) principles of equity, whether considered at law or equity.

2.1.3. The execution, delivery and performance by Subscriber of this Subscription Agreement is within the powers of the Subscriber and the consummation of the transactions contemplated herein do not and will not (i) conflict with or result in a breach or violation of any of the terms or provisions of, or constitute a default under, or result in the creation or imposition of any lien, charge or encumbrance upon any of the property or assets of Subscriber or, as applicable, any of its subsidiaries pursuant to the terms of any indenture, mortgage, charge, deed of trust, loan agreement, lease, license or other agreement or instrument to which Subscriber or, as applicable, any of its subsidiaries is a party or by which Subscriber or, as applicable, any of its subsidiaries is bound or to which any of the property or assets of Subscriber or, as applicable, any of its subsidiaries is subject, that would reasonably be expected to have a material adverse effect on the ability of the Subscriber to enter into and timely perform its obligations under this Subscription Agreement (a “**Subscriber Material Adverse Effect**”); (ii) if Subscriber is not a natural person, result in any violation of the provisions of the organizational documents of Subscriber or any of its subsidiaries or (iii) result in any violation of any statute or any judgment, order, rule or regulation of

any court or governmental agency or body, domestic or foreign, having jurisdiction over Subscriber that would reasonably be expected to have a Subscriber Material Adverse Effect.

2.1.4. Subscriber (i) is (a) a “qualified institutional buyer” (as defined in Rule 144A under the Securities Act) or an “accredited investor” within the meaning of Rule 501(a) under the Securities Act, (b) an Institutional Account as defined in FINRA Rule 4512(c) and (c) a sophisticated institutional investor, experienced in investing in transactions of the type contemplated by this Subscription Agreement and capable of evaluating investment risks independently, both in general and with regard to all transactions and investment strategies involving a security or securities, including Subscriber’s participation in the purchase of the Subscribed Shares, in each case, satisfying the applicable requirements set forth on Schedule I, (ii) is acquiring the Subscribed Shares only for its own account and not for the account of others, or if Subscriber is subscribing for the Subscribed Shares as a fiduciary or agent for one or more investor accounts, each owner of such account is a qualified institutional buyer, and Subscriber has full investment discretion with respect to each such account, and the full power and authority to make the acknowledgements, representations, warranties and agreements herein on behalf of each owner of each such account, for investment purposes only and not with a view to any distribution of the Subscribed Shares in any manner that would violate the securities laws of the United States or any other applicable jurisdiction and (iii) is not acquiring the Subscribed Shares with a view to, or for offer or sale in connection with, any distribution thereof in violation of the Securities Act (and shall provide the requested information on Schedule I following the signature page hereto). Subscriber is not an entity formed for the specific purpose of acquiring the Subscribed Shares.

2.1.5. Subscriber acknowledges that it is aware that there are substantial risks incident to the purchase and ownership of the Subscribed Shares. Subscriber has such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of an investment in the Subscribed Shares, and understands and acknowledges that the historical financial information and forecasts regarding Semantix made available to Subscriber were based on financial information that is preliminary and subject to change based on the completion of the audit of Semantix’s financial statements in accordance with International Financial Reporting Standards and the standards of the Public Company Accounting Oversight Board. Accordingly, Subscriber has sought such accounting, legal and tax advice as Subscriber has considered necessary to make an informed investment decision. Subscriber acknowledges that Subscriber shall be responsible for any of Subscriber’s tax liabilities that may arise as a result of the transactions contemplated by this Subscription Agreement, and that neither the Issuer, New Pubco nor Semantix has provided any tax advice or any other representation or guarantee regarding the tax consequences of the transactions contemplated by this Subscription Agreement.

2.1.6. Alone, or together with any professional advisor(s), Subscriber has adequately analyzed and fully considered the risks of an investment in the Subscribed Shares and determined that the Subscribed Shares are a suitable investment for Subscriber and that Subscriber is able at this time and in the foreseeable future to bear the economic risk of a total loss of Subscriber’s investment in the Subscribed Shares. Subscriber acknowledges specifically that a possibility of total loss exists.

2.1.7. Subscriber understands that the Subscribed Shares are being offered in a transaction not involving any public offering within the meaning of the Securities Act and that the Subscribed Shares have not been registered under the Securities Act or any other securities laws of the United States or any other jurisdiction and that neither New Pubco or any other person is required to register the Subscribed Shares except as set forth in Section 4 of this Subscription Agreement. Subscriber understands that the Subscribed Shares may not be resold, transferred, pledged or otherwise disposed of by Subscriber absent an effective registration statement under the Securities Act, except (i) to New Pubco or a subsidiary thereof, (ii) to non-U.S. persons pursuant to offers and sales that occur solely outside the United States within the meaning of Regulation S under the Securities Act, (iii) pursuant to Rule 144 under the Securities Act (“**Rule 144**”), provided that all of the applicable conditions thereof (including those set out in Rule 144(i) which are applicable to New Pubco) have been met or (iv) pursuant to another applicable exemption from the registration requirements of the Securities Act, and in each case, in accordance with

any applicable securities laws of the states and other jurisdictions of the United States and other applicable jurisdictions, and that the Subscribed Shares shall be subject to a legend to such effect (provided that such legends will be eligible for removal upon compliance with the relevant resale provisions of Rule 144). Subscriber acknowledges that the Subscribed Shares will not be eligible for offer, resale, transfer, pledge or disposition pursuant to Rule 144A promulgated under the Securities Act. Subscriber understands and agrees that the Subscribed Shares will be subject to the foregoing restrictions and, as a result, Subscriber may not be able to readily offer, resell, transfer, pledge or otherwise dispose the Subscribed Shares and may be required to bear the financial risk of an investment in the Subscribed Shares for an indefinite period of time. Subscriber understands that it has been advised to consult independent legal counsel prior to making any offer, resale, pledge or transfer of any of the Subscribed Shares. Subscriber has determined based on its own independent review and such professional advice as it deems appropriate that the Subscribed Shares are a suitable investment for Subscriber, notwithstanding the substantial risks inherent in investing in or holding the Subscribed Shares.

2.1.8. Subscriber understands, acknowledges and agrees that Subscriber is purchasing the Subscribed Shares directly from the Issuer. Subscriber further acknowledges that there have been no representations, warranties, covenants or agreements made to Subscriber by the Issuer, New Pubco, Semantix, or any of their respective affiliates, control persons, officers, directors, employees, agents or representatives, expressly or by implication, other than those representations, warranties, covenants and agreements expressly set forth in this Subscription Agreement.

2.1.9. If Subscriber is or is acting on behalf of an employee benefit plan that is subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”), Subscriber represents and warrants that its acquisition and holding of the Subscribed Shares will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA, Section 4975 of the Internal Revenue Code of 1986, as amended (the “**Code**”), or any applicable other federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code (collectively, “**Similar Laws**”).

2.1.10. Subscriber acknowledges and agrees that Subscriber has received, reviewed and understood the offering materials made available to it in connection with the Transactions and such information as Subscriber deems necessary in order to make an investment decision with respect to the Subscribed Shares, including such information regarding the Transactions and the business of Semantix and its subsidiaries. In making its decision to purchase the Subscribed Shares, Subscriber represents that it has relied solely upon independent investigation made by Subscriber and the representations, warranties and covenants of the Issuer and New Pubco contained in this Subscription Agreement. Without limiting the generality of the foregoing, Subscriber has not relied on any statements or other information provided by anyone, other than the representations, warranties, covenants and agreements of the Issuer and New Pubco expressly set forth in this Subscription Agreement. Subscriber acknowledges and agrees that Subscriber has received access to and has had an adequate opportunity to review such information as Subscriber deems necessary in order to make an investment decision with respect to the Subscribed Shares, including with respect to the Issuer, New Pubco, Semantix and the Transactions. Subscriber represents and agrees that Subscriber and Subscriber’s professional advisor(s), if any, have had the full opportunity to ask such questions, receive such answers and obtain such information as Subscriber and such Subscriber’s professional advisor(s), if any, have deemed necessary to make an investment decision with respect to the Subscribed Shares and Semantix. Subscriber represents and warrants it is relying exclusively on its own sources of information, investment analysis and due diligence (including professional advice you deem appropriate) with respect to the Transactions, the Subscribed Shares and the business, condition (financial and otherwise), management, operations, properties and prospects of the Issuer, New Pubco and Semantix including but not limited to all business, legal, regulatory, accounting, credit and tax matters.

2.1.11. Subscriber became aware of this offering of the Subscribed Shares solely by means of direct contact between Subscriber and the Issuer or one of their respective representatives. Subscriber did not

become aware of this offering of the Subscribed Shares, nor were the Subscribed Shares offered to Subscriber, by any other means, including by means of general solicitation. Subscriber acknowledges that the Subscribed Shares (i) were not offered by any form of general solicitation or general advertising, including methods described in section 502(c) of Regulation D under the Securities Act, and (ii) to its knowledge, are not being offered to Subscriber in a manner involving a public offering under, or in a distribution in violation of, the Securities Act, or any state securities laws.

2.1.12. Subscriber understands and agrees that no federal or state agency has passed upon or endorsed the merits of the offering of the Subscribed Shares or made any findings or determination as to the fairness of an investment in the Subscribed Shares.

2.1.13. Subscriber represents and warrants that neither the Subscriber nor, if Subscriber is not a natural person, any of its officers, directors, managers, managing members, general partners or any other person acting in a similar capacity or carrying out a similar function, is (i) a person, government, or governmental entity that is the target of economic or financial sanctions requirements, or trade embargoes imposed, administered, or enforced by the U.S. government (including the U.S. Department of the Treasury's Office of Foreign Assets Control or the U.S. Department of State), the United Nations, the European Union or any individual European Union member state, the United Kingdom, or other governmental authority (collectively, "**Sanctions**"), to the extent applicable, including (A) a person listed on any list of sanctioned persons maintained by the U.S. Treasury Department's Office of Foreign Assets Control, the U.S. Department of State, the United Nations, the European Union or any individual European Union member state, the United Kingdom, or other governmental authority, to the extent applicable; (B) a person organized, incorporated, established, located, or resident in Cuba, Iran, North Korea, Syria, the Crimea region of Ukraine, or any other country or territory embargoed or subject to comprehensive Sanctions; (C) any person directly or indirectly owned or controlled by any person or persons described in the foregoing clauses (A) and (B); (ii) a Designated National as defined in the Cuban Assets Control Regulations, 31 C.F.R. Part 515 or (iii) a non-U.S. shell bank or providing banking services indirectly to a non-U.S. shell bank (together with (i) and (ii), a "**Prohibited Investor**"). Subscriber agrees to provide law enforcement agencies, if requested thereby, such records as required by applicable law, provided that Subscriber is permitted to do so under applicable law. If Subscriber is a financial institution subject to the Bank Secrecy Act (31 U.S.C. Section 5311 et seq.), as amended by the USA PATRIOT Act of 2001, and its implementing regulations (collectively, the "**BSA/PATRIOT Act**"), Subscriber represents that it maintains policies and procedures reasonably designed to comply with applicable obligations under the BSA/PATRIOT Act. Subscriber also represents that, to the extent required, it maintains policies and procedures reasonably designed to ensure compliance with applicable Sanctions and that for the past five years, Subscriber has been in compliance with applicable Sanctions and the BSA/PATRIOT Act, as applicable. Subscriber further represents and warrants that, to the extent required, it maintains policies and procedures reasonably designed to ensure that the funds held by Subscriber and used to purchase the Subscribed Shares were legally derived and were not obtained, directly or indirectly, from a Prohibited Investor. Subscriber further represents that for the past five years, Subscriber has not (1) received written or other notice of any actual, alleged or apparent violation of applicable Sanctions or the BSA/PATRIOT Act, as applicable, (2) been a party to or the subject of any pending (or to Subscriber's knowledge, threatened) civil, criminal or administrative actions, suits, demands, investigations, proceedings, settlements or enforcement actions by or before any governmental authority relating to any actual, alleged or apparent violations of applicable Sanctions or the BSA/PATRIOT Act, as applicable, or (3) made any voluntary disclosure to any governmental authority with respect to any actual, alleged or apparent violation of applicable Sanctions of the BSA/PATRIOT Act, as applicable.

2.1.14. If Subscriber is or is acting on behalf of an employee benefit plan that is subject to Title I of ERISA, a plan, an individual retirement account or other arrangement that is subject to section 4975 of the Code or an employee benefit plan that is a governmental plan (as defined in section 3(32) of ERISA), a church plan (as defined in section 3(33) of ERISA), a non-U.S. plan (as described in section 4(b)(4) of

ERISA) or other plan that is not subject to the foregoing but may be subject to provisions under any other Similar Laws or an entity whose underlying assets are considered to include “plan assets” of any such plan, account or arrangement (each, a “**Plan**”), Subscriber represents and warrants that none of the Issuer, New Pubco or any of their affiliates (the “**Transaction Parties**”) has acted as the Plan’s fiduciary, or has been relied on for advice, with respect to its decision to acquire and hold the Subscribed Shares, and none of the Transaction Parties shall at any time be relied upon as the Plan’s fiduciary with respect to any decision to acquire, continue to hold or transfer the Subscribed Shares.

2.1.15. Subscriber is not currently (and at all times through Closing will refrain from being or becoming) a member of a “group” (within the meaning of Section 13(d)(3) or Section 14(d)(2) of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”), or any successor provision) acting for the purpose of acquiring, holding or disposing of equity securities of the Issuer or New Pubco, as applicable (within the meaning of Rule 13d-5(b)(1) under the Exchange Act).

2.1.16. Subscriber is not a foreign person (as defined in 31 C.F.R. Part 800.224) in which the national or subnational governments of a single foreign state have a substantial interest (as defined in 31 C.F.R. Part 800.244) and that will acquire a substantial interest in the Issuer or New Pubco, as applicable, as a result of the purchase and sale of Subscribed Shares hereunder such that a declaration to the Committee on Foreign Investment in the United States would be mandatory under 31 C.F.R. Part 800.401, and no foreign person will have control (as defined in 31 C.F.R. Part 800.208) over the Issuer or New Pubco, as applicable, from and after the Closing as a result of the purchase and sale of the Subscribed Shares hereunder.

2.1.17. On each date the Purchase Price would be required to be funded to the Issuer pursuant to Section 3.1, Subscriber will have sufficient immediately available funds to pay the Purchase Price pursuant to Section 3.1 and consummate the purchase and sale of the Subscribed Shares pursuant to this Subscription Agreement.

2.1.18. No broker, finder or other financial consultant has acted on behalf of Subscriber in connection with this Subscription Agreement or the transactions contemplated hereby in such a way as to create any liability on the Issuer, New Pubco or Semantix.

2.1.19. Subscriber agrees that, from the date of this Subscription Agreement until the Closing or the earlier termination of this Subscription Agreement, none of Subscriber, its controlled affiliates, or any person or entity acting on behalf of Subscriber or any of its controlled affiliates or pursuant to any understanding with Subscriber or any of its controlled affiliates will engage in any Short Sales with respect to securities of the Issuer or New Pubco. For the purposes hereof, “**Short Sales**” shall include, without limitation, all “short sales” as defined in Rule 200 promulgated under Regulation SHO under the Exchange Act, and all types of direct and indirect stock pledges (other than pledges in the ordinary course of business as part of prime brokerage arrangements), forward sale contracts, options, puts, calls, swaps and similar arrangements (including on a total return basis), including through non-U.S. broker dealers or foreign regulated brokers. Notwithstanding the foregoing, (a) nothing herein shall prohibit other entities under common management with the Subscriber that have no knowledge of this Subscription Agreement or of the Subscriber’s participation in the Subscription (including the Subscriber’s controlled affiliates and/or affiliates) from entering into any “short sales” and (b) in the case of a Subscriber that is a multi-managed investment vehicle whereby separate portfolio managers manage separate portions of such Subscriber’s assets and the portfolio managers have no knowledge of the investment decisions made by the portfolio managers managing other portions of such Subscriber’s assets, the representation set forth above shall only apply with respect to the portion of assets managed by the portfolio manager that made the investment decision to purchase the Subscribed Shares covered by this Subscription Agreement.

2.1.20. Subscriber acknowledges that it is aware that in connection with, and immediately upon completion of, the SPAC Merger 1, each outstanding Class A ordinary share and Class B ordinary share of the Issuer will be automatically exchanged for one ordinary share of New Pubco pursuant to which Subscriber will cease to be a shareholder of the Issuer and only be a shareholder of New Pubco.

Subscriber understands and acknowledges that such conversion will be effected as part of the Transactions without any further consent, vote or approvals from Subscriber, and to the extent Subscriber may have any such rights under Cayman law or otherwise, Subscriber effectively forfeits such rights hereby.

2.2. Issuer's Representations, Warranties and Agreements. To induce Subscriber to purchase the Subscribed Shares, the Issuer hereby represents and warrants to Subscriber and agrees with Subscriber, as of the date hereof and as of the Closing Date, as follows:

2.2.1. The Issuer has been duly incorporated and is validly existing and in good standing under the laws of the Cayman Islands, with all requisite power and authority to own, lease and operate its properties and conduct its business as presently conducted and to enter into, deliver and perform its obligations under this Subscription Agreement.

2.2.2. As of the Closing Date, the Subscribed Shares will be duly authorized and, when issued and delivered to Subscriber against full payment for the Subscribed Shares, will be free and clear of any liens or other restrictions whatsoever in accordance with the terms of this Subscription Agreement and registered with the Issuer's transfer agent, the Subscribed Shares will be validly issued, fully paid and non-assessable and will not have been issued in violation of or subject to any preemptive or similar rights under the Issuer's constitutive agreements (as in effect at such time of issuance) or the laws of the Cayman Islands.

2.2.3. This Subscription Agreement has been duly authorized, validly executed and delivered by the Issuer and, assuming that this Subscription Agreement constitutes the valid and binding obligation of the Subscriber, is the valid and binding obligation of the Issuer, and is enforceable against Issuer in accordance with its terms, except as may be limited or otherwise affected by (i) bankruptcy, insolvency, fraudulent conveyance, reorganization, moratorium or other laws relating to or affecting the rights of creditors generally and (ii) principles of equity, whether considered at law or equity.

2.2.4. Assuming the accuracy of the Subscriber's representations and warranties in Section 2.1 hereof and New Pubco's representation in Section 2.3 hereof, the execution, delivery and performance of this Subscription Agreement and the issuance and sale of the Subscribed Shares will not (i) conflict with or result in a breach or violation of any of the terms or provisions of, or constitute a default under, or result in the creation or imposition of any lien, charge or encumbrance upon any of the property or assets of the Issuer pursuant to the terms of any indenture, mortgage, charge, deed of trust, loan agreement, lease, license or other agreement or instrument to which the Issuer is a party or by which the Issuer is bound or to which any of the property or assets of the Issuer is subject, which would reasonably be expected to have a material adverse effect on the Issuer's ability to consummate the issuance and sale of the Subscribed Shares (an "**Issuer Material Adverse Effect**"), (ii) result in any violation of the provisions of the organizational documents of the Issuer or (iii) result in any violation of any statute or any judgment, order, rule or regulation of any court or governmental agency or body, domestic or foreign, having jurisdiction over the Issuer or any of its properties that would reasonably be expected to have an Issuer Material Adverse Effect.

2.2.5. Neither the Issuer, nor any person acting on its behalf has conducted any general solicitation or general advertising, including methods described in section 502(c) of Regulation D under the Securities Act, in connection with the offer or sale of any of the Subscribed Shares and neither the Issuer, nor any person acting on its behalf has offered any of the Subscribed Shares in a manner involving a public offering under, or in a distribution in violation of, the Securities Act or any state securities laws.

2.2.6. As of the date of this Subscription Agreement and as of immediately prior to the Transactions, the authorized share capital of the Issuer consists of 200,000,000 Class A ordinary shares, 20,000,000 Class B ordinary shares and 1,000,000 preference shares, \$0.0001 par value each. All issued and outstanding ordinary shares of the Issuer have been duly authorized and validly issued, and upon receipt of the Purchase Price for the Subscribed Shares, as fully paid, non-assessable and are not subject to

preemptive or similar rights, except as set forth in the Business Combination Agreement. Except as set forth above and pursuant to the Other Subscription Agreements, the Business Combination Agreement, any other transaction agreement executed or to be executed in connection therewith or as may occur as a result of the transactions contemplated hereby and thereby, there are no outstanding, and between the date hereof and the Closing, the Issuer will not issue, sell or cause to be outstanding any (a) shares, equity interests or voting securities of the Issuer, (b) securities of the Issuer convertible into or exchangeable for shares or other equity interests or voting securities of the Issuer, (c) options, warrants or other rights (including preemptive rights) or agreements, arrangements or commitments of any character, whether or not contingent, of the Issuer to subscribe for, purchase or acquire from any individual, entity or other person, and no obligation of the Issuer to issue, any ordinary shares of the Issuer, or any other equity interests or voting securities in the Issuer or any securities convertible into or exchangeable or exercisable for such shares or other equity interests or voting securities, (d) equity equivalents or other similar rights of or with respect to the Issuer, or (e) obligations of the Issuer to repurchase, redeem, or otherwise acquire any of the foregoing securities, shares, options, equity equivalents, interests or rights. There are no shareholder agreements, voting trusts or other agreements or understandings to which the Issuer is a party or by which it is bound relating to the voting of any securities of the Issuer, other than as contemplated by the Business Combination Agreement, or any other transaction agreement executed or to be executed in connection therewith or as may occur as a result of the transactions contemplated hereby and thereby. There are no securities or instruments issued by or to which the Issuer is a party containing anti-dilution or similar provisions that have not been waived or annulled that will be triggered by the issuance of (i) the Subscribed Shares or (ii) the shares to be issued pursuant to any Other Subscription Agreement that have not been or will not be validly waived on or prior to the closing of the Transactions.

2.2.7. Assuming the accuracy of Subscriber's representations and warranties set forth in Section 2.1 of this Subscription Agreement, no registration under the Securities Act is required for the offer and sale of the Subscribed Shares by the Issuer to Subscriber.

2.2.8. Except for such matters as would not reasonably be expected to have, individually or in the aggregate, an Issuer Material Adverse Effect, as of the date hereof there is no (i) suit, claim, action, or proceeding before any governmental authority or arbitrator pending or, to the knowledge of the Issuer, threatened, or (ii) unsatisfied judgment or any open injunction of any governmental authority or arbitrator outstanding against the Issuer.

2.2.9. The Issuer is in compliance with all applicable laws, except where such non-compliance would not reasonably be expected to have an Issuer Material Adverse Effect. As of the date hereof, the Issuer has not received any written communication from a governmental entity, exchange or self-regulatory organization that alleges that the Issuer is not in compliance with or is in default or violation of any applicable law, except where such non-compliance, default or violation would not, individually or in the aggregate, be reasonably expected to have an Issuer Material Adverse Effect.

2.2.10. The Issuer is not required to obtain any consent, waiver, authorization or order of, give any notice to, or make any filing or registration with, any court or other federal, state, local or other governmental authority, self-regulatory organization or other person in connection with the execution, delivery and performance by the Issuer of this Subscription Agreement (including, without limitation, the issuance of the Subscribed Shares), other than (i) filings with the United States Securities and Exchange Commission (the "**Commission**"), (ii) filings required by applicable state securities laws, (iii) those required by the Nasdaq Stock Market LLC ("**Nasdaq**"), (iv) filings required to consummate the Transactions as provided under the Business Combination Agreement, and (v) filings, the failure of which to obtain would not be reasonably be expected to have, individually or in the aggregate, an Issuer Material Adverse Effect.

2.2.11. No broker, finder or other financial consultant has acted on behalf of the Issuer in connection with this Subscription Agreement or the transactions contemplated hereby in such a way as to create any liability on Subscriber.

2.2.12. The Issuer made available to Subscriber (including via the Commission's EDGAR system) a true, correct and complete copy of each form, report, statement, schedule, prospectus, proxy, registration statement and other documents filed by the Issuer with the Commission prior to the date of this Subscription Agreement (the "**SEC Documents**"), which SEC Documents, as of their respective filing dates, complied in all material respects with the requirements of the Exchange Act applicable to the SEC Documents and the rules and regulations of the Commission promulgated thereunder and applicable to the SEC Documents. As of their respective dates, all SEC Documents required to be filed by the Issuer with the Commission prior to the date hereof complied in all material respects with the applicable requirements of the Securities Act and the Exchange Act and the rules and regulations of the Commission promulgated thereunder. The Issuer has timely filed each report, statement, schedule, prospectus, and registration statement that the Issuer was required to file with the Commission since its inception and through the date hereof. There are no material outstanding or unresolved comments in comment letters from the Commission staff with respect to any of the SEC Documents.

2.3.1. New Pubco has been duly incorporated and is validly existing and in good standing under the laws of the Cayman Islands, with all requisite power and authority to own, lease and operate its properties and conduct its business as presently conducted and to enter into, deliver and perform its obligations under this Subscription Agreement.

2.3.2. This Subscription Agreement has been duly authorized, validly executed and delivered by New Pubco and, assuming that this Subscription Agreement constitutes the valid and binding obligation of the Subscriber, is the valid and binding obligation of New Pubco, and is enforceable against New Pubco in accordance with its terms, except as may be limited or otherwise affected by (i) bankruptcy, insolvency, fraudulent conveyance, reorganization, moratorium or other laws relating to or affecting the rights of creditors generally and (ii) principles of equity, whether considered at law or equity.

2.3.3. Assuming the accuracy of the Subscriber's representations in Section 2.1 hereof and the Issuer's representations in Section 2.3 hereof, the execution, delivery and performance of this Subscription Agreement by New Pubco will not (i) conflict with or result in a breach or violation of any of the terms or provisions of, or constitute a default under, or result in the creation or imposition of any lien, charge or encumbrance upon any of the property or assets of New Pubco pursuant to the terms of any indenture, mortgage, charge, deed of trust, loan agreement, lease, license or other agreement or instrument to which New Pubco is a party or by which New Pubco is bound or to which any of the property or assets of New Pubco is subject, which would reasonably be expected to have a material adverse effect on New Pubco's ability to perform its obligations pursuant to this Subscription Agreement (a "**New Pubco Material Adverse Effect**"), (ii) result in any violation of the provisions of the organizational documents of New Pubco or (iii) result in any violation of any statute or any judgment, order, rule or regulation of any court or governmental agency or body, domestic or foreign, having jurisdiction over New Pubco or any of its properties that would reasonably be expected to have a New Pubco Material Adverse Effect.

2.3.4. Neither New Pubco, nor any person acting on its behalf has conducted any general solicitation or general advertising, including methods described in section 502(c) of Regulation D under the Securities Act, in connection with the offer or sale of any of the Subscribed Shares and neither New Pubco, nor any person acting on its behalf has offered any of the Subscribed Shares in a manner involving a public offering under, or in a distribution in violation of, the Securities Act or any state securities laws.

2.3.5. As of the date of this Subscription Agreement and as of immediately prior to the Transactions, the authorized share capital of New Pubco consists of 50,000 shares, \$1.00 par value each. There are no shareholder agreements, voting trusts or other agreements or understandings to which New Pubco is a party or by which it is bound relating to the voting of any securities of New Pubco, other than as contemplated by the Business Combination Agreement, or any other transaction agreement executed or to be executed in connection therewith or as may occur as a result of the transactions contemplated hereby and thereby. There are no securities or instruments issued by or to which New Pubco is a party containing anti-dilution or similar provisions that have not been waived or annulled that will be triggered by the issuance of (i) the Subscribed Shares or (ii) the shares to be issued pursuant to any Other Subscription Agreement that have not been or will not be validly waived on or prior to the closing of the Transactions.

2.3.6. Except for such matters as would not reasonably be expected to have, individually or in the aggregate, a New Pubco Material Adverse Effect, as of the date hereof there is no (i) suit, claim, action, or proceeding before any governmental authority or arbitrator pending or, to the knowledge of New Pubco, threatened, or (ii) unsatisfied judgment or any open injunction of any governmental authority or arbitrator outstanding against New Pubco.

2.3.7. New Pubco is in compliance with all applicable laws, except where such non-compliance would not reasonably be expected to have a New Pubco Material Adverse Effect. As of the date hereof, New Pubco has not received any written communication from a governmental entity, exchange or self-regulatory organization that alleges that New Pubco is not in compliance with or is in default or violation of any applicable law, except where such non-compliance, default or violation would not, individually or in the aggregate, be reasonably expected to have a New Pubco Material Adverse Effect.

2.3.8. New Pubco is not required to obtain any consent, waiver, authorization or order of, give any notice to, or make any filing or registration with, any court or other federal, state, local or other governmental authority, self-regulatory organization or other person in connection with the execution, delivery and performance by New Pubco of this Subscription Agreement (including, without limitation, the issuance of the Subscribed Shares), other than (i) filings with the Commission, (ii) filings required by applicable state securities laws, (iii) filings required in accordance with [Section 4](#), (iv) those required by the Nasdaq, (v) filings required to consummate the Transactions as provided under the Business Combination Agreement, and (vi) filings, the failure of which to obtain would not be reasonably be expected to have, individually or in the aggregate, a New Pubco Material Adverse Effect.

2.3.9. No broker, finder or other financial consultant has acted on behalf of New Pubco in connection with this Subscription Agreement or the transactions contemplated hereby in such a way as to create any liability on Subscriber.

3. Settlement Date and Delivery.

3.1. Closing. The closing of the Subscription contemplated hereby (the “**Closing**”) shall occur on the date of, and substantially concurrently with, the consummation of the Transactions (the date of the Closing, the “**Closing Date**”). Upon delivery of written notice from (or on behalf of) the Issuer to Subscriber (the “**Closing Notice**”) at least five (5) Business Days prior to the date that the Issuer reasonably expects all conditions to the closing of the Transactions to be satisfied (the “**Expected Closing Date**”), upon satisfaction (or, if applicable, waiver) of the conditions set forth in this Section 3, Subscriber shall deliver to the Issuer, the Purchase Price for the Subscribed Shares, no later than three (3) Business Days prior to the Expected Closing Date by wire transfer of United States dollars in immediately available funds to the account specified by the Issuer in the Closing Notice, such funds to be held by the Issuer in escrow until the Closing. Prior to or at the Closing, Subscriber shall deliver to the Issuer, or New Pubco, as the case may be, a duly completed and executed Internal Revenue Service Form W-9 or appropriate Form W-8. If the Transactions are not consummated within three (3) Business Days after the Expected Closing Date, the Issuer shall promptly (but no later than three (3) Business Days thereafter) return or cause the return of the Purchase Price to Subscriber by wire transfer of United States dollars in immediately available funds to an account specified by Subscriber, and any book-entries for the Subscribed Shares shall be deemed repurchased and cancelled. Notwithstanding such return, (i) a failure to close on the Expected Closing Date shall not, by itself, be deemed to be a failure of any of the conditions to Closing set forth in this Section 3 to be satisfied or waived on or prior to the Closing Date, and (ii) unless and until this Subscription Agreement is terminated in accordance with Section 5 hereof, such return of funds shall not terminate this Subscription Agreement or relieve Subscriber of its obligation to purchase the Subscribed Shares at the Closing upon delivery by the Issuer of a subsequent Closing Notice and Subscriber shall remain obligated (A) to redeliver funds to the Issuer following the Issuer’s delivery to Subscriber of a new Closing Notice and (B) to consummate the Closing upon satisfaction of the conditions set forth in this Section 3. For purposes of this Subscription Agreement, “**Business Day**” means any day that, in New York, New York, São Paulo, Brazil, and in the Cayman Islands is neither a legal holiday nor a day on which banking institutions are generally authorized or required by law or regulation to close.

3.2. Conditions to Closing of the Issuer and New Pubco.

The Issuer’s obligations to sell and issue the Subscribed Shares at the Closing are subject to the fulfillment or (to the extent permitted by applicable law) waiver by the Issuer and New Pubco, on or prior to the Closing Date, of each of the following conditions:

3.2.1. Representations and Warranties Correct. The representations and warranties made by Subscriber in Section 2.1 hereof shall be true and correct in all material respects when made (other than representations and warranties that are qualified as to materiality or Subscriber Material Adverse Effect, which representations and warranties shall be true and correct in all respects), and shall be true and correct in all material respects on and as of the Closing Date (unless they specifically speak as of another date in which case they shall be true and correct in all material respects as of such date) (other than representations and warranties that are qualified as to materiality or Subscriber Material Adverse Effect, which representations and warranties shall be true in all respects) with the same force and effect as if they had been made on and as of said date, but in each case without giving effect to consummation of the Transactions.

3.2.2. Compliance with Covenants. Subscriber shall have wired the Purchase Price in accordance with Section 3.1 of this Subscription Agreement and otherwise have performed, satisfied and complied in all material respects with the covenants, agreements and conditions required by this Subscription Agreement to be performed, satisfied or complied with by Subscriber at or prior to the Closing.

3.2.3. Closing of the Transactions. All conditions precedent to each of the Issuer's and Semantix's obligations to consummate, or cause to be consummated, the Transactions set forth in the Business Combination Agreement shall have been satisfied or waived by the party entitled to the benefit thereof under the Business Combination Agreement (other than those conditions that (x) may only be satisfied at the consummation of the Transactions (including to the extent that any such condition is dependent upon the consummation of the purchase and sale of the Subscribed Shares pursuant to this Subscription Agreement and the Other Subscription Agreements), but subject to satisfaction or waiver by such party of such conditions as of the consummation of the Transactions, or (y) will be satisfied by the Closing and the closing of the transactions contemplated by the Other Subscription Agreements).

3.2.4. Legality. There shall not be in force any order, judgment, injunction by or with any governmental authority, statute, rule or regulation enjoining or prohibiting the consummation of the Subscription.

3.3. Conditions to Closing of Subscriber

Subscriber's obligation to purchase the Subscribed Shares at the Closing is subject to the fulfillment or (to the extent permitted by applicable law) written waiver by Subscriber, on or prior to the Closing Date, of each of the following conditions:

3.3.1. Representations and Warranties Correct. The representations and warranties made by the Issuer in Section 2.2 and New Pubco in Section 2.3 hereof shall be true and correct in all material respects when made (other than representations and warranties that are qualified as to materiality or Issuer Material Adverse Effect or New Pubco Material Adverse Effect, as the case may be, which representations and warranties shall be true and correct in all respects), and shall be true and correct in all material respects on and as of the Closing Date (unless they specifically speak as of another date in which case they shall be true and correct in all material respects as of such date) (other than representations and warranties that are qualified as to materiality or Issuer Material Adverse Effect or New Pubco Material Adverse Effect, as the case may be, which representations and warranties shall be true and correct in all respects) with the same force and effect as if they had been made on and as of said date, but in each case without giving effect to consummation of the Transactions.

3.3.2. Compliance with Covenants. The Issuer and New Pubco shall have performed, satisfied and complied in all material respects with the covenants, agreements and conditions required by this Subscription Agreement to be performed, satisfied or complied with by the Issuer or New Pubco at or prior to the Closing, except where the failure of such performance or compliance would not or would not reasonably be expected to prevent, materially delay, or materially impair the ability of the Issuer or New Pubco to consummate the Closing.

3.3.3. Closing of the Transactions. All conditions precedent to the consummation of the Transactions set forth in the Business Combination Agreement shall have been satisfied or waived by the party entitled to the benefit thereof under the Business Combination Agreement (other than those conditions that (x) may only be satisfied at the consummation of the Transactions (including to the extent that any such condition is dependent upon the consummation of the purchase and sale of the Subscribed Shares pursuant to this Subscription Agreement and the Other Subscription Agreements), but subject to satisfaction or waiver by such party of such conditions as of the consummation of the Transactions, or (y) will be satisfied by the Closing and the closing of the transactions contemplated by the Other Subscription Agreements).

3.3.4. Legality. There shall not be in force any order, judgment, injunction, decree, writ, stipulation, determination or award, in each case, entered by or with any governmental authority, statute, rule or regulation enjoining or prohibiting consummation of the transactions contemplated by this Subscription Agreement or the Transactions and no such governmental authority shall have instituted or threatened in writing a proceeding seeking to impose any such restraint or prohibition (except in the case of a governmental authority located outside the United States where such restraint or prohibition would not be reasonably expected to result in an Issuer Material Adverse Effect or New Pubco Material Adverse Effect, as the case may be).

3.3.5. Listing. No suspension of the qualification of the Ordinary Shares for offering or sale or trading on the Nasdaq shall have occurred, and the Subscribed Shares shall be approved for listing on the Nasdaq, subject to official notice of issuance.

4. Registration Statement.

4.1. New Pubco will use its commercially reasonable efforts to, within thirty (30) calendar days after the consummation of the Transactions (the “**Filing Date**”), submit or file with the Commission a registration statement (the “**Registration Statement**”) registering the resale of the Subscribed Shares acquired by Subscriber pursuant to this Subscription Agreement which are eligible for registration (determined as of two (2) Business Days prior to such submission or filing) (the “**Registrable Securities**”), and New Pubco shall use its commercially reasonable efforts to have the Registration Statement declared effective as soon as practicable after the filing thereof, but no later than the earlier of (i) the 60th calendar day (or 90th calendar day if the Commission notifies New Pubco that it will “review” the Registration Statement) following the Filing Date and (ii) the 10th Business Day after the date New Pubco is notified (orally or in writing, whichever is earlier) by the Commission that the Registration Statement will not be “reviewed” or will not be subject to further review (such earlier date, the “**Effectiveness Date**”); provided, however, that if such day falls on a Saturday, Sunday or other day that the Commission is closed for business, the Effectiveness Date shall be extended to the next Business Day on which the Commission is open for business; provided, further, that New Pubco’s obligations to include the Registrable Securities in the Registration Statement are contingent upon Subscriber furnishing in writing to New Pubco such information as shall be reasonably requested by New Pubco to effect the registration of the Registrable Securities, including a completed and executed selling shareholders questionnaire in customary form to New Pubco that contains the information required by Commission rules for a Registration Statement regarding Subscriber, the securities of the New Pubco held by Subscriber and the intended method of disposition of the Registrable Securities (which shall be limited to non-underwritten public offerings) to effect the registration of the Registrable Securities, and Subscriber shall execute such documents in connection with such registration as New Pubco may reasonably request that are customary of a selling stockholder in similar situations, including providing that New Pubco shall be entitled to postpone and suspend the effectiveness or use of the Registration Statement, if applicable, during any customary blackout or similar period or as permitted hereunder; provided, that Subscriber shall not in connection with the foregoing be required to execute any lock-up or similar agreement or otherwise be subject to any contractual restriction on the ability to transfer the Registrable Securities. For purposes of clarification, any failure by New Pubco to file the Registration Statement by the Filing Date or to effect such Registration Statement by the Effectiveness Date shall not otherwise relieve New Pubco of its obligations to file or effect the Registration Statement as set forth above in this Section 4. For purposes of this Section 4, Registrable Securities shall include, as of any date of determination, the Subscribed Shares and any other equity security of New Pubco issued or issuable with respect to the Subscribed Shares by way of share split, dividend, distribution, recapitalization, merger, exchange, replacement or similar event or otherwise. In no event shall Subscriber be identified as a statutory underwriter in the Registration Statement unless requested by the Commission. Notwithstanding the foregoing, if the Commission prevents New Pubco from including any or all of the Subscribed Shares proposed to be registered for resale under the Registration Statement due to limitations on the use of Rule 415 of the Securities Act for the resale of the Subscribed Shares by the applicable shareholders or otherwise, (i) such Registration Statement shall register for resale such number of Subscribed Shares which is equal to the maximum number of Subscribed Shares as is permitted by the Commission and (ii) the number of Subscribed Shares to be registered for each selling shareholder named in the Registration Statement shall be reduced pro rata among all such selling shareholders; and as promptly as practicable after being permitted to register additional Subscribed Shares under Rule 415 under the Securities Act, New Pubco shall amend the Registration Statement or file a new Registration Statement to register such Subscribed Shares not included in the initial Registration Statement and shall use commercially reasonable efforts to have such amendment or Registration Statement to become effective as promptly as practicable.

4.2. At its expense New Pubco shall:

4.2.1. except for such times as New Pubco is permitted hereunder to suspend the use of the prospectus forming part of a Registration Statement, use its commercially reasonable efforts to keep such registration, and any qualification, exemption or compliance under state securities laws which New Pubco determines to obtain, continuously effective with respect to Subscriber, and to keep the applicable Registration Statement or any subsequent shelf registration statement free of any material misstatements or omissions, until the earliest of the following: (i) Subscriber ceases to hold any Registrable Securities, (ii) the date all Registrable Securities held by Subscriber may be sold without restriction under Rule 144, including without limitation, any volume and manner of sale restrictions which may be applicable to affiliates under Rule 144 and without the requirement for New Pubco to be in compliance with the current public information required under Rule 144(c)(1) (or Rule 144(i)(2), if applicable), and (iii) two (2) years from the date of effectiveness of the Registration Statement. The period of time during which New Pubco is required hereunder to keep a Registration Statement effective is referred to herein as the “**Registration Period**”;

4.2.2. during the Registration Period, use its best efforts to advise Subscriber as promptly as practicable:

- (a) when a Registration Statement or any post-effective amendment thereto has become effective;
- (b) after it shall receive notice or obtain knowledge thereof, of the issuance by the Commission of any stop order suspending the effectiveness of any Registration Statement or the initiation of any proceedings for such purpose;
- (c) of the receipt by New Pubco of any notification with respect to the suspension of the qualification of the Registrable Securities included therein for sale in any jurisdiction or the initiation or threatening of any proceeding for such purpose; and
- (d) subject to the provisions in this Subscription Agreement, of the occurrence of any event that requires the making of any changes in any Registration Statement or prospectus so that, as of such date, the statements therein are not misleading and do not omit to state a material fact required to be stated therein or necessary to make the statements therein (in the case of a prospectus, in the light of the circumstances under which they were made) not misleading.

Notwithstanding anything to the contrary set forth herein, New Pubco shall not, when so advising Subscriber of such events described in [Section 4.2.2](#) above, provide Subscriber with any material, nonpublic information regarding New Pubco other than to the extent that providing notice to Subscriber of the occurrence of the events listed in (a) through (d) above constitutes material, nonpublic information regarding New Pubco;

4.2.3. during the Registration Period, use its commercially reasonable efforts to obtain the withdrawal of any order suspending the effectiveness of any Registration Statement as soon as reasonably practicable;

4.2.4. during the Registration Period, upon the occurrence of any event contemplated in [Section 4.2.2\(d\)](#), except for such times as New Pubco is permitted hereunder to suspend, and has suspended, the use of a prospectus forming part of a Registration Statement, New Pubco shall use its commercially reasonable efforts to as soon as reasonably practicable prepare a post-effective amendment to such Registration Statement or a supplement to the related prospectus, or file any other required document so that, as thereafter delivered to purchasers of the Registrable Securities included therein, such prospectus will not include any untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; and

4.2.5. during the Registration Period, use its commercially reasonable efforts to cause all Subscribed Shares to be listed on each securities exchange or market, if any, on which New Pubco's ordinary shares are then listed.

4.3. Notwithstanding anything to the contrary in this Subscription Agreement, New Pubco shall be entitled to delay or postpone the effectiveness of the Registration Statement, and from time to time to require Subscriber not to sell under the Registration Statement or to suspend the effectiveness thereof (i) as New Pubco may determine to be necessary in connection with (a) the preparation and filing of a post-effective amendment to the Registration Statement following the filing of New Pubco's Annual Report on Form 20-F or (b) in order for the Registration Statement not to contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements contained therein not misleading, or (ii) if the filing, effectiveness or continued use of any Registration Statement would require New Pubco to make any public disclosure of material non-public information, which disclosure, in the good faith determination of the board of directors of New Pubco, after consultation with counsel to New Pubco (a) would not be required to be made at such time if the Registration Statement were not being filed, (b) New Pubco has a bona fide business purpose for not making such information public, or (c) would be seriously detrimental to New Pubco and the majority of New Pubco's board of directors conclude as a result that it is essential to defer such filing or (iii) if such delay or suspension arises out of, or is a result of, or is related to any statement or communication that relates to changes to historical accounting policies of New Pubco in connection with any order, directive, guideline, comment or recommendation from the Commission that is applicable to New Pubco or other accounting matters, or any related disclosure or other matters (each such circumstance, a "**Suspension Event**"); provided, however, that New Pubco may not delay or suspend the Registration Statement on more than three (3) occasions or for more than ninety (90) consecutive calendar days, or more than one hundred twenty (120) total calendar days, in each case during any twelve-month period. Upon receipt of any written notice from New Pubco of the happening of any Suspension Event during the period that the Registration Statement is effective or if as a result of a Suspension Event the Registration Statement or related prospectus contains any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made (in the case of the prospectus) not misleading, Subscriber agrees that (i) it will immediately discontinue offers and sales of the Registrable Securities under the Registration Statement (excluding, for the avoidance of doubt, sales conducted pursuant to Rule 144) until Subscriber receives copies of a supplemental or amended prospectus (which New Pubco agrees to promptly prepare) that corrects the misstatement(s) or omission(s) referred to above and receives notice that any post-effective amendment has become effective or unless otherwise notified by New Pubco that it may resume such offers and sales, and (ii) it will maintain the confidentiality of any information included in such written notice delivered by New Pubco except as required by law. If so directed by New Pubco, Subscriber will deliver to New Pubco or, in Subscriber's sole discretion destroy, all copies of the prospectus covering the Registrable Securities in Subscriber's possession; provided, however, that this obligation to deliver or destroy all copies of the prospectus covering the Subscribed Shares shall not apply (i) to the extent Subscriber is required to retain a copy of such prospectus (a) in order to comply with applicable legal, regulatory, self-regulatory or professional requirements or (b) in accordance with a bona fide pre-existing document retention policy or (ii) to copies stored electronically on archival servers as a result of automatic data back-up.

4.4. Subscriber may deliver written notice (including via email in accordance with [Section 6.2](#)) (an "**Opt-Out Notice**") to New Pubco requesting that Subscriber not receive notices from New Pubco otherwise required by [Section 4.3](#); provided, however, that Subscriber may later revoke any such Opt-Out Notice in writing. Following receipt of an Opt-Out Notice from Subscriber (unless subsequently revoked), (i) New Pubco shall not deliver any such notices to Subscriber and Subscriber shall no longer be entitled to the rights associated with any such notice and (ii) each time prior to Subscriber's intended use of an effective Registration Statement, Subscriber will notify New Pubco in writing at least two (2) business days in advance of such intended use, and if a notice of a Suspension Event was previously delivered (or would have been delivered but for the provisions of this [Section 4.4](#)) and the related suspension period remains in effect, New Pubco will so notify Subscriber, within two (2) business days of Subscriber's notification to New Pubco, by delivering to Subscriber a copy of such previous notice of Suspension Event, and thereafter will provide Subscriber with the related notice of the conclusion of such Suspension Event immediately upon its availability.

4.5. The parties agree that:

4.5.1. New Pubco shall indemnify and hold harmless, to the extent permitted by law, Subscriber (to the extent a seller under the Registration Statement), its officers, directors, agents, partners, members, managers, shareholders, and investment advisers and each person who controls such Subscriber (within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act), from and against any and all losses, claims, damages, liabilities and reasonable and documented out-of-pocket costs and expenses (including, without limitation, any reasonable and documented outside attorneys' fees of one (1) law firm) (collectively, "**Losses**"), that arise out of or are based upon any untrue or alleged untrue statement of material fact contained in any Registration Statement (or incorporated by reference therein), prospectus included in any Registration Statement or preliminary prospectus or any amendment thereof or supplement thereto or arising out of or relating to any omission or alleged omission to state a material fact required to be stated therein or necessary to make the statements therein (in the case of any prospectus or form of prospectus or supplement thereto, in light of the circumstances under which they were made) not misleading, except insofar as the same are caused by or contained in any information furnished in writing to New Pubco by or on behalf of Subscriber expressly for use therein or Subscriber has omitted a material fact from such information; provided, however, that the indemnification contained in this Section 4.5 shall not apply to amounts paid in settlement of any Losses if such settlement is effected without the consent of New Pubco (which consent shall not be unreasonably withheld, conditioned or delayed), nor shall New Pubco be liable for any Losses to the extent they arise out of or are based upon a violation which occurs (A) in reliance upon and in conformity with written information furnished by Subscriber, (B) in connection with any failure of such person to deliver or cause to be delivered a prospectus made available by New Pubco in a timely manner, (C) as a result of offers or sales effected by or on behalf of any person by means of a "free writing prospectus" (as defined in Rule 405 under the Securities Act) that was not authorized in writing by New Pubco, or (D) in connection with any offers or sales effected by or on behalf of Subscriber in violation of Section 4.3 hereof. New Pubco shall notify Subscriber promptly of the institution, threat or assertion of any proceeding arising from or in connection with the transactions contemplated by this Section 4 of which New Pubco is aware.

4.5.2. In connection with any Registration Statement in which the Subscriber is participating, the Subscriber shall furnish (or cause to be furnished) to New Pubco in writing such information as New Pubco reasonably requests for use in connection with any such Registration Statement or prospectus, and Subscriber agrees, severally and not jointly with any person that is a party to the Other Subscription Agreements, to indemnify and hold harmless, to the extent permitted by law, New Pubco, its directors, officers, agents, partners, members, managers, shareholders, and advisers and agents and each person who controls New Pubco (within the meaning of Section 15 of the Securities Act and Section 20 of the Exchange Act) against any and all Losses that arise out of or are based upon any untrue or alleged untrue statement of material fact contained in any Registration Statement, prospectus included in any Registration Statement or preliminary prospectus or any amendment thereof or supplement thereto or arising out of or relating to any omission of a material fact required to be stated therein or necessary to make the statements therein (in the case of any prospectus or form of prospectus or supplement thereto, in light of the circumstances under which they were made) not misleading, but only to the extent that such untrue statement or omission is contained in (or not contained in, in the case of an omission) any information or affidavit so furnished in writing by or on behalf of such Subscriber expressly for use therein; provided, however, that the indemnification contained in this Section 4.5 shall not apply to amounts paid in settlement of any Losses if such settlement is effected without the consent of Subscriber (which consent shall not be unreasonably withheld, conditioned or delayed). Notwithstanding anything to the contrary herein, in no event shall the liability of Subscriber be greater in amount than the dollar amount of the net proceeds received by Subscriber upon the sale of the Subscribed Shares purchased pursuant to this Subscription Agreement giving rise to such indemnification obligation.

4.5.3. Any person entitled to indemnification herein shall (1) give prompt written notice to the indemnifying party of any claim with respect to which it seeks indemnification (provided that the failure

to give prompt notice shall not impair any person's right to indemnification hereunder to the extent such failure has not prejudiced the indemnifying party) and (2) permit such indemnifying party to assume the defense of such claim with counsel reasonably satisfactory to the indemnified party. If such defense is assumed, the indemnifying party shall not be subject to any liability for any settlement made by the indemnified party without its consent (but such consent shall not be unreasonably withheld, conditioned or delayed). An indemnifying party who elects not to, assume the defense of a claim shall not be obligated to pay the fees and expenses of more than one counsel for all parties indemnified by such indemnifying party with respect to such claim, unless in the reasonable judgment of legal counsel to any indemnified party a conflict of interest exists between such indemnified party and any other of such indemnified parties with respect to such claim. No indemnifying party shall, without the consent of the indemnified party (which consent shall not be unreasonably withheld, conditioned or delayed), consent to the entry of any judgment or enter into any settlement which cannot be settled in all respects by the payment of money (and such money is so paid by the indemnifying party pursuant to the terms of such settlement) or which settlement includes a statement or admission of fault and culpability on the part of such indemnified party or which does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect to such claim or litigation.

4.5.4. The indemnification provided for under this Subscription Agreement shall remain in full force and effect regardless of any investigation made by or on behalf of the indemnified party and shall survive the transfer of the Subscribed Shares purchased pursuant to this Subscription Agreement.

4.5.5. If the indemnification provided under this [Section 4.5](#) from the indemnifying party is unavailable or insufficient to hold harmless an indemnified party in respect of any Losses referred to herein, then the indemnifying party, in lieu of indemnifying the indemnified party, shall contribute to the amount paid or payable by the indemnified party as a result of such Losses in such proportion as is appropriate to reflect the relative fault of the indemnifying party and the indemnified party, as well as any other relevant equitable considerations. The relative fault of the indemnifying party and indemnified party shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact, was made by (or not made by, in the case of an omission), or relates to information supplied by (or not supplied by, in the case of an omission), such indemnifying party or indemnified party, and the indemnifying party's and indemnified party's relative intent, knowledge, access to information and opportunity to correct or prevent such action. The amount paid or payable by a party as a result of the Losses or other liabilities referred to above shall be deemed to include, subject to the limitations set forth in Sections 4.5.1, 4.5.2 and 4.5.3 above, any legal or other fees, charges or expenses reasonably incurred by such party in connection with any investigation or proceeding. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution pursuant to this [Section 4.5](#) from any person who was not guilty of such fraudulent misrepresentation. In no event shall the liability of Subscriber be greater in amount than the dollar amount of the net proceeds received by Subscriber upon the sale of the Registrable Securities giving rise to such contribution obligation.

5. [Termination](#). This Subscription Agreement shall terminate and be void and of no further force and effect, and all rights and obligations of the parties hereunder shall terminate without any further liability on the part of any party in respect thereof, upon the earliest to occur of (i) such date and time as the Business Combination Agreement is validly terminated in accordance with its terms, (ii) upon the mutual written agreement of each of the parties hereto to terminate this Subscription Agreement and (iii) nine months from the date hereof if the Closing has not occurred; [provided](#) that nothing herein will relieve any party from liability for any willful breach hereof prior to the time of termination, and each party will be entitled to any remedies at law or in equity to recover losses, liabilities or damages arising from such breach. The Issuer shall notify Subscriber of the termination of the Business Combination Agreement reasonably promptly after the termination of such agreement.

6. Miscellaneous.

6.1. Further Assurances. At the Closing, the parties hereto shall execute and deliver such additional documents to the extent contemplated by this Subscription Agreement and take such additional actions as the parties reasonably may deem to be practical and necessary in order to consummate the Subscription as contemplated by this Subscription Agreement.

6.1.1. Subscriber acknowledges that the Issuer and New Pubco will rely on the acknowledgments, understandings, agreements, representations and warranties made by Subscriber contained in this Subscription Agreement. Prior to the Closing, Subscriber agrees to promptly notify the Issuer and New Pubco if any of the acknowledgments, understandings, agreements, representations and warranties made by Subscriber set forth herein are no longer accurate in all material respects. The Issuer and New Pubco acknowledge that Subscriber will rely on the acknowledgments, understandings, agreements, representations and warranties made by the Issuer and New Pubco contained in this Subscription Agreement. The Subscriber acknowledges and agrees that the purchase by the Subscriber of Subscribed Shares will constitute a reaffirmation of the acknowledgments, understandings, agreements, representations and warranties herein by Subscriber as of the time of such purchase.

6.1.2. Each of the Issuer, New Pubco and the Subscriber is entitled to rely upon this Subscription Agreement and is irrevocably authorized to produce this Subscription Agreement or a copy hereof to any interested party in any administrative or legal proceeding or official inquiry with respect to the matters covered hereby.

6.1.3. The Issuer or New Pubco may request from Subscriber such additional information as the Issuer or New Pubco may reasonably deem necessary to evaluate the eligibility of Subscriber to acquire the Subscribed Shares and in connection with the inclusion of the Shares in the Registration Statement, and Subscriber shall provide such information as may be reasonably requested, to the extent within Subscriber's possession and control or otherwise readily available to Subscriber, provided that the Issuer and New Pubco agree to keep confidential any such information provided by Subscriber, except as may be required by applicable law, rule, regulation or in connection with any legal proceeding or regulatory request. Subscriber acknowledges that Issuer and New Pubco may file a copy of this Subscription Agreement with the SEC as an exhibit to a current or periodic report or a registration statement of Issuer and New Pubco.

6.1.4. Each of Subscriber, the Issuer and New Pubco shall pay all of its own respective expenses in connection with this Subscription Agreement and the transactions contemplated herein (it being agreed that all expenses related to the Registration Statement are for the account of New Pubco to the extent provided in Section 4).

6.1.5. Each of Subscriber, the Issuer and New Pubco shall take, or cause to be taken, all actions and do, or cause to be done, all things necessary, proper or advisable to consummate the transactions contemplated by this Subscription Agreement on the terms and conditions described therein prior to the consummation of the Transactions.

6.1.6. Until the Closing or the earlier termination of this Agreement, neither the Issuer nor the New Pubco shall enter into Other Subscription Agreements that have the effect of establishing rights or otherwise benefitting Other Subscribers in a manner more favorable in any material respect to such Other Subscribers than the rights and benefits established in favor of the Subscriber as set forth herein, unless, in any such case, the Subscriber has been offered such rights and benefits.

6.2. Notices. Any notice or communication required or permitted hereunder shall be in writing and either delivered personally, emailed or sent by overnight mail via a reputable overnight carrier, or sent by certified or registered mail, postage prepaid, and shall be deemed to be given and received (i) when so delivered personally, (ii) when sent, with no mail undeliverable or other rejection notice, if sent by email, or (iii) three (3) Business Days after the date of mailing to the address below or to such other address or addresses as such person

6.3. Entire Agreement. This Subscription Agreement constitutes the entire agreement, and supersedes all other prior agreements, understandings, representations and warranties, both written and oral, among the parties, with respect to the subject matter hereof, including any commitment letter entered into relating to the subject matter hereof.

6.4. Modifications and Amendments. This Subscription Agreement may not be amended, modified, supplemented or waived except by an instrument in writing, signed by the party against whom enforcement of such amendment, modification, supplement or waiver is sought (and, in those cases where the New Pubco's consent is required, also signed by Semantix).

6.5. Assignment. Neither this Subscription Agreement nor any rights, interests or obligations that may accrue to the parties hereunder (including Subscriber's rights to purchase the Subscribed Shares) may be transferred or assigned without the prior written consent of the Issuer and New Pubco; provided that Subscriber's rights and obligations hereunder may be assigned to (i) any affiliate or manager, as applicable of the Subscriber or (i) one or more funds or accounts managed by the same investment manager as Subscriber, without the prior consent of the Issuer and New Pubco, provided that such assignee(s) agrees in writing to be bound by the terms hereof, and upon such assignment by a Subscriber, the assignee(s) shall become Subscriber hereunder and have the rights and obligations and be deemed to make the representations and warranties of Subscriber provided for herein to the extent of such assignment; provided further that, no assignment shall relieve the assigning party of any of its obligations hereunder, including any assignment to any fund or account managed by the same investment manager as Subscriber.

6.6. Benefit. Except as otherwise provided herein, this Subscription Agreement shall be binding upon, and inure to the benefit of the parties hereto and their heirs, executors, administrators, successors, legal

representatives, and permitted assigns, and the agreements, representations, warranties, covenants and acknowledgments contained herein shall be deemed to be made by, and be binding upon, such heirs, executors, administrators, successors, legal representatives and permitted assigns. This Subscription Agreement shall not confer rights or remedies upon any person other than the parties hereto and their respective successors and assigns.

6.7. Governing Law. This Subscription Agreement, and any claim or cause of action hereunder based upon, arising out of or related to this Subscription Agreement (whether based on law, in equity, in contract, in tort or any other theory) or the negotiation, execution, performance or enforcement of this Subscription Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the principles of conflicts of law thereof.

6.8. Arbitration. (a) Any disputes arising out or related to this Agreement, including the existence, validity, interpretation, or performance of this Agreement or the transactions contemplated by this Agreement, shall be settled as far as possible by negotiations between the parties. If the parties cannot agree on an amicable settlement within thirty (30) days from written notice of a dispute by one party to the other party, any disputes shall be submitted for decision and final resolution to arbitration, under the Rules of Arbitration of the International Chamber of Commerce then in effect (the “Rules”).

(b) The arbitration tribunal shall be composed of three (3) neutral and impartial arbitrators, appointed pursuant to the Rules. The claimant shall appoint one arbitrator, the respondent shall appoint one arbitrator, and the two party-appointed arbitrators shall choose a third arbitrator within thirty (30) days of the appointment of the respondent’s arbitrator, who shall serve as president of the tribunal thus composed. If the parties fail to appoint an arbitrator within the time periods provided in the Rules, or if the two party-appointed arbitrators fail to appoint a third arbitrator within the thirty (30)-day period provided above, then the arbitrator(s) shall be appointed by the Court of Arbitration of the International Chamber of Commerce upon the request of the arbitrators and/or either of the parties.

(c) The seat of arbitration shall be New York City, unless the parties otherwise agree in writing. The official arbitration language shall be English. Each of the parties agrees that notice as provided in Section 6.2 of this Agreement shall constitute sufficient service of process and the parties further waive any argument that such service is insufficient.

(d) The arbitration decision shall be final and binding upon both parties and the parties agree that any award granted pursuant to such decision may be entered forthwith in any court of competent jurisdiction.

(e) The costs of the arbitration, including fees of the arbitrators, shall be borne equally by the parties, but the arbitral tribunal shall be empowered to include in its award a determination regarding the allocation of the costs of the arbitration, including any legal fees, among the parties.

(f) The arbitration and all information and materials obtained or produced in the arbitration shall be confidential.

(g) Nothing in this Section shall prevent a party from seeking provisional, interim, or conservatory measures from any court of competent jurisdiction prior to the appointment of the arbitral tribunal if any such party believes in good faith that it will suffer irreparable injury. Any such request by a party to a court for provisional, interim, or conservatory measures shall not be deemed incompatible with the agreement to arbitrate or a waiver of the right to arbitrate. Without prejudice to such provisional, interim, or conservatory measures as may be available from any court, the arbitral tribunal shall have full authority to grant provisional, interim, and conservatory remedies and to direct the parties to request that any court modify or vacate any temporary or preliminary relief issued by such court, and to award damages for the failure of any party to respect the arbitral tribunal’s orders to that effect.

6.9. [Intentionally Omitted.]

6.10. Severability. If any provision of this Subscription Agreement shall be invalid, illegal or unenforceable, the validity, legality or enforceability of the remaining provisions of this Subscription Agreement shall not in any way be affected or impaired thereby and shall continue in full force and effect.

6.11. No Waiver of Rights, Powers and Remedies. No failure or delay by a party hereto in exercising any right, power or remedy under this Subscription Agreement, and no course of dealing between the parties hereto, shall operate as a waiver of any such right, power or remedy of such party. No single or partial exercise of any right, power or remedy under this Subscription Agreement by a party hereto, nor any abandonment or discontinuance of steps to enforce any such right, power or remedy, shall preclude such party from any other or further exercise thereof or the exercise of any other right, power or remedy hereunder. The election of any remedy by a party hereto shall not constitute a waiver of the right of such party to pursue other available remedies. No notice to or demand on a party not expressly required under this Subscription Agreement shall entitle the party receiving such notice or demand to any other or further notice or demand in similar or other circumstances or constitute a waiver of the rights of the party giving such notice or demand to any other or further action in any circumstances without such notice or demand.

6.12. Remedies.

6.12.1. The parties agree that irreparable damage would occur if this Subscription Agreement is not performed or the Closing is not consummated in accordance with its specific terms or is otherwise breached and that money damages or other legal remedies would not be an adequate remedy for any such damage. It is accordingly agreed that the parties hereto shall be entitled to equitable relief, including in the form of an injunction or injunctions, to prevent breaches or threatened breaches of this Subscription Agreement and to enforce specifically the terms and provisions of this Subscription Agreement in an appropriate court of competent jurisdiction as set forth in Section 6.8, this being in addition to any other remedy to which any party is entitled at law or in equity, including money damages. The right to specific enforcement shall include the right of the parties hereto to cause the other parties hereto to cause the transactions contemplated hereby to be consummated on the terms and subject to the conditions and limitations set forth in this Subscription Agreement. The parties hereto further agree (i) to waive any requirement for the security or posting of any bond in connection with any such equitable remedy, (ii) not to assert that a remedy of specific enforcement pursuant to this Section 6.12 is unenforceable, invalid, contrary to applicable law or inequitable for any reason and (iii) to waive any defenses in any action for specific performance, including the defense that a remedy at law would be adequate.

6.12.2. The parties acknowledge and agree that this Section 6.12 is an integral part of the transactions contemplated hereby and without that right, the parties hereto would not have entered into this Subscription Agreement.

6.13. Survival of Representations and Warranties and Covenants. All representations and warranties made by the parties hereto, and all covenants and other agreements of the parties hereto, in this Subscription Agreement shall survive the Closing until the expiration of any statute of limitations pursuant to applicable law or in accordance with their respective terms, if a shorter period. For the avoidance of doubt, if for any reason the Closing does not occur prior to the consummation of the Transactions, all representations, warranties, covenants and agreements of the parties hereunder shall survive the consummation of the Transactions and remain in full force and effect.

6.14. Headings and Captions. The headings and captions of the various subdivisions of this Subscription Agreement are for convenience of reference only and shall in no way modify or affect the meaning or construction of any of the terms or provisions hereof.

6.15. Counterparts. This Subscription Agreement may be executed in one or more counterparts, all of which when taken together shall be considered one and the same agreement and shall become effective when counterparts have been signed by each party and delivered to the other parties, it being understood that the parties need not sign the same counterpart. In the event that any signature is delivered by

facsimile transmission or any other form of electronic delivery, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such signature page were an original thereof.

6.16. Construction. The words “include,” “includes,” and “including” will be deemed to be followed by “without limitation.” Pronouns in masculine, feminine, and neuter genders will be construed to include any other gender, and words in the singular form will be construed to include the plural and vice versa, unless the context otherwise requires. The words “this Subscription Agreement,” “herein,” “hereof,” “hereby,” “hereunder,” and words of similar import refer to this Subscription Agreement as a whole and not to any particular subdivision unless expressly so limited. The parties hereto intend that each representation, warranty, and covenant contained herein will have independent significance. If any party hereto has breached any representation, warranty, or covenant contained herein in any respect, the fact that there exists another representation, warranty or covenant relating to the same subject matter (regardless of the relative levels of specificity) which such party hereto has not breached will not detract from or mitigate the fact that such party hereto is in breach of the first representation, warranty, or covenant. All references in this Subscription Agreement to numbers of shares, per share amounts and purchase prices shall be appropriately adjusted to reflect any stock split, stock dividend, stock combination, recapitalization or the like occurring after the date hereof.

6.17. Mutual Drafting. This Subscription Agreement is the joint product of the parties hereto and each provision hereof has been subject to the mutual consultation, negotiation and agreement of the parties and shall not be construed for or against any party hereto.

7. Cleansing Statement; Disclosure.

7.1. The Issuer shall, by 9:00 a.m., New York City time, on the first (1st) Business Day immediately following the date of this Subscription Agreement, issue one or more press releases or file with the Commission a Current Report on Form 8-K (collectively, the “**Disclosure Document**”) disclosing all material terms of the transactions contemplated hereby and by the Other Subscription Agreements and the Transactions and any other material nonpublic information that the Issuer or New Pubco or their respective officers, directors, employees or agents have provided to Subscriber prior to the filing of the Disclosure Document in connection with the investment contemplated by this Agreement. Upon the issuance of the Disclosure Document, to the actual knowledge of the Issuer and New Pubco, Subscriber shall not be in possession of any material, non-public information received from the Issuer, New Pubco or any of their respective officers, directors, employees or agents in connection with the investment contemplated by this Agreement, and Subscriber shall no longer be subject to any confidentiality or similar obligations under any current agreement, whether written or oral, with the Issuer or New Pubco, relating to the transactions contemplated by this Subscription Agreement.

7.2. The Issuer and the New Pubco shall not (and shall cause their respective officers, directors, employees and agents not to) publicly disclose the name of Subscriber or any affiliate or investment adviser of Subscriber, or include the name of Subscriber or any affiliate or investment adviser of Subscriber without the prior written consent (including by e-mail) of Subscriber (i) in any press release or marketing materials, or (ii) in any filing with the Commission or any regulatory agency or trading market, which approval shall not be unreasonably withheld or conditioned; provided that no consent pursuant to this Section 7.2 shall be required to the extent any proposed release or statement is substantially equivalent to the information that has previously been made public without breach of the obligation under this Section 7.2. The restriction in this Section 7.2 shall not apply to the extent the disclosure is required by the federal securities laws, rules or regulations and to the extent such disclosure is required by other laws, rules or regulations, at the request of the staff of the Commission or regulatory agency or under regulations of Nasdaq, in which case the Issuer or New Pubco, as applicable, shall provide Subscriber with prior written notice (including by e-mail) of such permitted disclosure, and shall reasonably consult with Subscriber regarding such disclosure.

8. Trust Account Waiver. In addition to the waiver of Semantix pursuant to Section 7.7 of the Business Combination Agreement, and notwithstanding anything to the contrary set forth herein, each of the Issuer and

Subscriber acknowledges that the Issuer has established a trust account containing the proceeds of its initial public offering and from certain private placements (collectively, with interest accrued from time to time thereon, the “**Trust Account**”). Each of the Issuer and Subscriber agrees that (i) it has no right, title, interest or claim of any kind in or to any monies held in the Trust Account, and (ii) it shall have no right of set-off or any right, title, interest or claim of any kind (“**Claim**”) to, or to any monies in, the Trust Account, in each case in connection with this Subscription Agreement, and hereby irrevocably waives any past, present or future Claim to, or to any monies in, the Trust Account that it may have in connection with this Subscription Agreement; provided, however, that nothing in this Section 8 shall be deemed to limit Subscriber’s right, title, interest or claim to the Trust Account by virtue of such Subscriber’s record or beneficial ownership of securities of the Issuer acquired by any means other than pursuant to this Subscription Agreement, including, but not limited to, any redemption right with respect to any such securities of the Issuer, except to the extent that Subscriber has otherwise agreed in writing with the Issuer not to exercise such redemption right. In the event Subscriber has any Claim against the Issuer under this Subscription Agreement, Subscriber shall pursue such Claim solely against the Issuer and its assets outside the Trust Account and not against the property or any monies in the Trust Account. Subscriber agrees and acknowledges that such waiver is material to this Subscription Agreement and has been specifically relied upon by the Issuer to induce the Issuer to enter into this Subscription Agreement and Subscriber further intends and understands such waiver to be valid, binding and enforceable under applicable law.

9. **Non-Reliance.** Subscriber acknowledges that it is not relying upon, and has not relied upon, any statement, representation or warranty made by any person, firm or corporation, other than the representations and warranties of the Issuer and New Pubco expressly set forth in this Subscription Agreement, in making its investment or decision to invest in the Subscribed Shares. Subscriber agrees that none of (i) any Other Subscriber pursuant to this Subscription Agreement or any other agreement related to the private placement of shares of the Issuer’s capital stock (including the controlling persons, officers, directors, partners, agents or employees of any such Other Subscriber), (ii) any party to the Business Combination Agreement (other than the Issuer or New Pubco), or (iii) any affiliates, or any control persons, officers, directors, employees, partners, agents or representatives of any of the Issuer, New Pubco or any other party to the Business Combination Agreement shall be liable (including without limitation, for or with respect to any losses, claims, damages, obligations, penalties, judgments, awards, liabilities, costs, expenses or disbursements incurred by the Subscriber or any other person or entity), whether in contract, tort or otherwise, or have any liability or obligation, to Subscriber or any person claiming through Subscriber, related to the private placement of the Subscribed Shares, the negotiation hereof or the subject matter hereof, or the transactions contemplated hereby, for any action heretofore or hereafter taken or omitted to be taken by any of them in connection with the purchase of the Subscribed Shares. Nothing contained herein or in any Other Subscription Agreement, and no action taken by the Subscriber or any Other Subscriber pursuant hereto or thereto, shall be deemed to constitute the Subscriber and Other Subscribers as a partnership, an association, a joint venture or any other kind of entity, or create a presumption that the Subscriber and Other Subscriber s are in any way acting in concert or as a group with respect to such obligations or the transactions contemplated hereby.

10. **Restrictive Legend.** If the Subscribed Shares are eligible to be sold without restriction under, and without the New Pubco being in compliance with the current public information requirements of, Rule 144 under the Securities Act, then at Subscriber’s request in connection with the sale of such Subscribed Shares, and subject to Subscriber’s execution of customary representation letters, New Pubco will (A) provide all documentation and instruction required for the transfer agent for the Subscribed Shares (the “**Transfer Agent**”) and (B) reasonably cooperate with the Transfer Agent (including, if required by the Transfer Agent, delivering an opinion of New Pubco’s counsel in a form reasonably acceptable to the Transfer Agent) to remove any remaining restrictive legend set forth on such Subscribed Shares that are the subject of the Subscriber’s request; provided that, notwithstanding the foregoing, New Pubco will not be required to deliver any such opinion, authorization, certificate or direction if it reasonably believes that removal of the legend could result in or facilitate transfers of securities in violation of applicable law.

11. **Massachusetts Business Trust.** If Subscriber is a Massachusetts Business Trust, a copy of the Agreement and Declaration of Trust of Subscriber or any affiliate thereof is on file with the Secretary of State of the

Re: *Sponsor Letter Agreement*

Ladies and Gentlemen:

Reference is made herein (this “Sponsor Letter Agreement”) to that certain Business Combination Agreement, dated as of the date hereof, by and among SPAC Capital Acquisition Company, an exempted company incorporated with limited liability in the Cayman Islands (“SPAC”), Alpha Capital Holdco Company, an exempted company incorporated with limited liability in the Cayman Islands (“New PubCo”), Alpha Merger Sub I Company, an exempted company incorporated with limited liability in the Cayman Islands and a direct, wholly owned subsidiary of New PubCo (“First Merger Sub”), Alpha Merger Sub II Company, an exempted company incorporated with limited liability in the Cayman Islands and a direct, wholly owned subsidiary of New PubCo (“Second Merger Sub”), Alpha Merger Sub III Company, an exempted company incorporated with limited liability in the Cayman Islands and a direct, wholly owned subsidiary of New PubCo (“Third Merger Sub” and, together with First Merger Sub and Second Merger Sub, the “Merger Subs”), and Semantix Tecnologia em Sistema de Informação S.A., a *sociedade anônima* organized under the laws of Brazil (the “Company”) (as it may be amended, restated or otherwise modified from time to time in accordance with its terms, the “Business Combination Agreement”). Capitalized terms used but not otherwise defined herein shall have the meanings ascribed to such terms in the Business Combination Agreement.

Alpha Capital Sponsor LLC, a Cayman Islands limited liability corporation (“Sponsor”) is, as of the date hereof, the record and beneficial owner of (i) 5,750,000 SPAC Class B Ordinary Shares (including the New PubCo Ordinary Shares into which such shares are converted as a result of the consummation of the transactions contemplated by the Business Combination Agreement, the “Founder Shares”) and (ii) 7,000,000 warrants to purchase one SPAC Class A Ordinary Share (including the warrants to purchase New PubCo Ordinary Shares into which such warrants are converted as a result of the consummation of the transactions contemplated by the Business Combination Agreement, the “Private Placement Warrants”). In the event of any equity dividend or distribution, or any change in the equity interests of SPAC or New PubCo by reason of any equity dividend or distribution, equity split, reverse stock-split, consolidation of shares, recapitalization, combination, conversion, exchange of equity interests or the like, the terms “Founder Shares” and “Private Placement Warrants” shall be deemed to refer to and include the Founder Shares and Private Placement Warrants, as the case may be, as well as all such equity dividends and distributions and any securities into which or for which any or all of the Founder Shares or Private Placement Warrants, respectively, may be changed or exchanged or which are received in such transaction (including the New PubCo Ordinary Shares into which such shares are converted and the warrants to

purchase New PubCo Ordinary Shares into which such warrants are converted as a result of the consummation of the transactions contemplated by the Business Combination Agreement or any Transaction Agreement).

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Sponsor, New PubCo, the Company and SPAC agree as follows:

1. Redemption and Voting.

(a) Sponsor agrees that if SPAC seeks shareholder approval of the transactions contemplated by the Business Combination Agreement or any Transaction Agreements, Sponsor shall not redeem any Founder Shares owned by it in connection with shareholder approval of the transactions contemplated by the Business Combination Agreement or any Transaction Document, including any amendments to the SPAC Governing Documents (the “Proposed Transaction”).

(b) Prior to the earlier of (x) date on which this Sponsor Letter Agreement is terminated in accordance with its terms and (y) the Closing (the “Voting Period”), at each meeting of the holders of SPAC Ordinary Shares (the “SPAC Shareholders”), and in each written consent or resolutions of any of the SPAC Shareholders in which Sponsor is entitled to vote or consent, Sponsor hereby unconditionally and irrevocably agrees to be present for such meeting and vote (in person or by proxy), or consent to any action by written consent or resolution with respect to, as applicable, the Founder Shares or other equity interests of SPAC over which Sponsor has voting power (i) in favor of, and to adopt, the Business Combination Agreement, the Transaction Agreements and the transactions contemplated thereby, (ii) in favor of the other matters set forth in the Business Combination Agreement, the Transaction Documents and the transactions contemplated thereby to the extent required for SPAC to carry out its obligations thereunder, and (iii) in opposition to: (A) any SPAC Business Combination Transaction and any and all other proposals (1) that could reasonably be expected to delay or impair the ability of SPAC to consummate the transactions contemplated by the Business Combination Agreement or any Transaction Agreement or (2) which are in competition with or materially inconsistent with the Business Combination Agreement, any Transaction Agreement and the transactions contemplated thereby or (B) any other action, proposal, transaction or agreement involving SPAC or any of its Subsidiaries that is intended, or would reasonably be expected, to prevent, impede, interfere with, delay, postpone or adversely affect in any material respect the transactions contemplated by the Business Combination Agreement or any Transaction Agreement or would reasonably be expected to result in (y) any breach of any representation, warranty, covenant, obligation or agreement of the SPAC in the Business Combination Agreement or any Transaction Agreement or (z) any of the conditions to SPAC’s obligations under the Business Combination Agreement or any Transaction Agreement not being fulfilled.

(c) Sponsor agrees not to deposit, and to cause its affiliates not to deposit, any Founder Shares in a voting trust or subject any Founder Shares to any arrangement or agreement with respect to the voting of such Founder Shares, unless specifically requested to do so by the Company and SPAC in connection with the Business Combination Agreement, the Transaction Agreements or the transactions contemplated thereby.

(d) Sponsor agrees, except as contemplated by the Business Combination Agreement or any Transaction Agreement, not to make, or in any manner participate in, directly or indirectly, a “solicitation” of “proxies” or consents (as such terms are used in the rules of the SEC) or powers of attorney or similar rights to vote, or seek to advise or influence any Person with respect to the voting of, any equity interests of SPAC in connection with any vote or other action with respect to transactions contemplated by the Business Combination Agreement or any Transaction Agreement, other than to recommend that the SPAC Shareholders vote in favor of the adoption of the Business Combination Agreement, the Transaction Agreements and the transactions contemplated thereby (and any actions required in furtherance thereof and otherwise as expressly provided in this Section 1).

(e) Sponsor agrees that during the Voting Period it shall not, without SPAC's and the Company's prior written consent, (i) make or attempt to make any Transfer that would not be permitted pursuant to Section 7(a), (b) and (c) of that certain Letter Agreement, dated February 18, 2020, by and between Sponsor and SPAC; (ii) grant any proxies or powers of attorney with respect to any or all of the Founder Shares; or (iii) take any action with the intent to prevent, impede, interfere with or adversely affect Sponsor's ability to perform its obligations under this Section 1. SPAC hereby agrees to reasonably cooperate with the Company in enforcing the Transfer restrictions set forth in this Section 1.

(f) During the Voting Period, Sponsor agrees to provide to SPAC, the Company and their respective Representatives any information regarding Sponsor or the Founder Shares that is reasonably requested by SPAC, the Company or their respective Representatives and required in order for the Company, SPAC, New PubCo, First Merger Sub or Second Merger Sub to comply with Sections 7.1, 7.2, 7.3, 7.4(b), 7.5, 7.8, 7.9 and 7.11 of the Business Combination Agreement. To the extent required by applicable Legal Requirements, Sponsor hereby authorizes the Company and SPAC to publish and disclose in any announcement or disclosure required by the SEC, NASDAQ or the Registration Statement (including all documents and schedules filed with the SEC in connection with the foregoing), Sponsor's identity and ownership of Founder Shares and the nature of Sponsor's commitments and agreements under this Sponsor Letter Agreement, the Business Combination Agreement and any other Transaction Agreements; provided that such disclosure is made in compliance with the provisions of the Business Combination Agreement.

2. Vesting Founder Shares.

(a) Subject to, and conditioned upon the occurrence of and effective immediately after the Effective Time, the Sponsor agrees that 15% of the Founder Shares (i.e., 862,500 Founder Shares) shall be deemed to be "Vesting Founder Shares" and subject to the provisions of this Section 2, and the remaining 85% of the Founder Shares (the "Retained Founder Shares") and 100% of the Private Placement Warrants shall not be subject to the provisions set forth below in this Section 2. Subject to, and conditioned upon the occurrence of and effective immediately after the Effective Time, the Vesting Founder Shares shall be unvested and subject to the restrictions and forfeiture provisions set forth in this Sponsor Letter Agreement. The Vesting Founder Shares shall vest and, except as otherwise provided in this Section 2, shall become free of the provisions set forth in this Section 2 as follows:

(i) with respect to 50% of the Vesting Founder Shares (i.e., 431,250 Founder Shares) (the "12.50 Vesting Founder Shares"), if at any time during the 5-year period following the Closing Date (the end of such period, as it may be extended pursuant to the following paragraph (b), the "Vesting Release Date"), the closing share price of the New PubCo Ordinary Shares is greater than or equal to \$12.50 over any 20 Trading Days within any consecutive 30 Trading Day period, then the 12.50 Vesting Founder Shares shall vest and become free of the provisions set forth in this Section 2; and

(ii) with respect to 50% of the Vesting Founder Shares (i.e., 431,250 Founder Shares) (the "15.00 Vesting Founder Shares"), if at any time prior to the Vesting Release Date, the closing share price of the New PubCo Ordinary Shares is greater than or equal to \$15.00 over any 20 Trading Days within any consecutive 30 Trading Day period, then the 15.00 Vesting Founder Shares shall vest and become free of the provisions set forth in this Section 2.

(b) If (i) the Vesting Release Date occurs on a day that is not a Trading Day, then the "Vesting Release Date" shall for all purposes of this Sponsor Letter Agreement be deemed to occur on the next following Trading Day, and (ii) if the New PubCo or any of its affiliates enters into a definitive agreement with respect to an Acceleration Event (as defined below) on or prior to the Vesting Release Date, then the Vesting Release Date shall be automatically extended and shall be deemed to occur on the earlier of (A) the consummation of such Acceleration Event and (B) the termination of such definitive agreement with respect to such Acceleration Event in accordance with its terms. Subject to earlier forfeiture pursuant to Section 2(d)(ii), any Vesting Founder Shares that have not vested in accordance with Section 2(a)(i) or Section 2(a)(ii) on or before the Vesting Release Date will be immediately forfeited at 11:59 p.m., New York, New York time on the Vesting Release Date.

(c) The New PubCo Ordinary Share price targets in Sections 2(a)(i) and (ii) shall be equitably adjusted for stock splits, stock dividends, cash dividends, reorganizations, combinations, recapitalizations and similar transactions affecting the New PubCo Ordinary Shares after the Effective Time.

(d) If, prior to the Vesting Release Date, (i) there is a transaction that results in the New PubCo Ordinary Shares being converted into the right to receive cash or other consideration having a value (in the case of any non-cash consideration, as provided in the definitive transactions documents for such transaction, or if not so provided, determined by the New PubCo Board in good faith) in excess of the thresholds set forth in Section 2(a)(i) or Section 2(a)(ii), as applicable (each as equitably adjusted for stock splits, stock dividends, cash dividends, reorganizations, combinations, recapitalizations and similar transactions affecting the New PubCo Ordinary Shares after the date of this Sponsor Letter Agreement) on or prior to the Vesting Release Date (an “Acceleration Event”), then the Vesting Founder Shares subject to the applicable threshold shall vest and become free of the provisions set forth in this Section 2 effective as of immediately prior to the consummation of such Acceleration Event, or otherwise treated as so issued in connection therewith, so as to ensure that the Sponsor shall receive such Vesting Founder Shares, and all proceeds thereof, in connection with such transaction, and (ii) there is a transaction that will result in the New PubCo Ordinary Shares being converted into the right to receive cash or other consideration having a value (in the case of any non-cash consideration, provided in the definitive transactions documents for such transaction, or if not so provided, as determined by the New PubCo Board in good faith) less than the thresholds set forth in Section 2(a)(i) or Section 2(a)(ii), as applicable (each as equitably adjusted for stock splits, stock dividends, special cash dividends, reorganizations, combinations, recapitalizations and similar transactions affecting the New PubCo Ordinary Shares after the date of this Sponsor Letter Agreement) on or prior to the Vesting Release Date, then the Vesting Founder Shares that remain subject to the applicable threshold shall be forfeited.

(e) New PubCo shall use reasonable best efforts to remain listed as a public company on, and for the Vesting Founder Shares to be tradable over, NASDAQ or any other nationally recognized U.S. stock exchange; *provided, however*, the foregoing shall not limit New PubCo or any of its affiliates from consummating an Acceleration Event or other transaction contemplated by the foregoing Section 2(d)(ii), or entering into a definitive agreement in respect thereto.

(f) At any time prior to the Vesting Release Date, the Sponsor agrees that it shall not Transfer any Vesting Founder Shares except as otherwise permitted pursuant to Section 3(d) below, and the Vesting Founder Shares shall include customary transfer legends on any certificates for the Vesting Founder Shares reflecting such restriction. At the time that any Vesting Founder Shares become vested pursuant to this Section 2, New PubCo shall remove any legends, stock transfer restrictions, stop transfer orders or similar restrictions with respect to the Vesting Founder Shares related to such vesting (other than, for the avoidance of doubt, those that relate to any applicable and then-existing transfer restrictions applicable during the Founder Share Lock-Up Period with respect to such Vesting Founder Shares pursuant this Sponsor Letter Agreement, the Business Combination Agreement or any other Transaction Agreements).

(g) For the avoidance of doubt, (i) except as otherwise provided in this Sponsor Letter Agreement, the Sponsor shall retain all of its rights as a shareholder of New PubCo with respect to the Vesting Founder Shares owned by it during any period of time that such shares are subject to vesting pursuant to the terms of Section 2, including the right to vote any such shares; *provided, however*, that no right to receive dividends or other distributions shall exist with respect to Vesting Founder Shares that are subject to vesting and are unvested at the time of the payment of such dividend or distribution and the Sponsor shall promptly repay to the Company any amount actually received in respect of or redirect (as instructed by the Company), any and all such dividends or other distributions received by the Sponsor from the Company (it being understood that if such dividends or other distributions are declared by PubCo at the time the Vesting Founder Shares are unvested but are paid at the time the Vesting Founder Shares are vested, then the Sponsor shall be entitled to such distribution and such dividends or other distributions will not be deemed to be the property of New PubCo or otherwise subject to this proviso), (ii) any Vesting Founder Shares that vest in accordance with the terms of Section 2 shall remain subject to any applicable Lock-Up Period set forth herein and

(iii) notwithstanding the expiration of any Lock-Up Period with respect to any Vesting Founder Shares, such Vesting Founder Shares shall remain subject to any applicable restrictions set forth in Section 2 until vested or forfeited in accordance with the terms of Section 2.

3. Transfers of Founder Shares and Private Placement Warrants.

(a) The Sponsor agrees that it shall not Transfer any Founder Shares until the earlier of (A) (i) with respect to the Retained Founder Shares, one year after the Closing or (ii) solely with respect to any Vesting Founder Shares that vest in accordance with the terms of Section 2, one hundred and eighty days following the Closing and (B) subsequent to the Closing, (x) with respect to Retained Founder Shares only, the closing share price of the New PubCo Ordinary Shares is greater than or equal to \$12.00 (equitably adjusted for stock splits, stock dividends, cash dividends, reorganizations, combinations, recapitalizations and similar transactions affecting the New PubCo Ordinary Shares after the Effective Time) over any 20 Trading Days within any consecutive 30 Trading Day period commencing at least 150 days after the Closing or (y) the consummation of an Acceleration Event or other transaction contemplated by Section 2(d)(ii) is consummated (the “Founder Share Lock-Up Period”).

(b) The Sponsor agrees that it shall not Transfer any Private Placement Warrants (or any New PubCo Ordinary Shares underlying the Private Placement Warrants), until 30 days after the completion of the Closing (the “Private Placement Warrants Lock-Up Period”, together with the Founder Shares Lock-Up Period, the “Lock-Up Periods”).

(c) If any Transfer is made or attempted contrary to the provisions of this Sponsor Letter Agreement (a “Prohibited Transfer”), such purported Prohibited Transfer shall be null and void ab initio, and the New PubCo shall refuse to recognize any such purported transferee of the Founder Shares or Private Placement Warrants, as the case may be, as one of its equity holders for any purpose.

(d) Notwithstanding the provisions set forth in Section 2 or this Section 3, Transfers of any Founder Shares (including any unvested Founder Shares pursuant to Section 2) or Private Placement Warrants following the Closing are permitted (i) to SPAC’s officers or directors, affiliates and its employees or any family member of any of SPAC’s officers or directors, any affiliate or family member of any of SPAC’s officers or directors, any affiliate of the Sponsor to any members of the Sponsor or any of their affiliates; (ii) in the case of an individual, by gift to a member of such individual’s immediate family or to a trust, the beneficiary of which is a member of such individual’s immediate family, an affiliate of such individual or to a charitable organization; (iii) in the case of an individual, by virtue of laws of descent and distribution upon death of such individual; (iv) in the case of an individual, pursuant to a qualified domestic relations order; (v) by private sales or Transfers made in connection with any forward purchase agreement or similar arrangement or in connection with the consummation of the transactions contemplated by the Business Combination Agreement, in each case at prices no greater than the price at which the securities were originally purchased; (vi) by virtue of the laws of the Cayman Islands or the Sponsor’s limited liability company agreement upon dissolution of the Sponsor; (vii) in the event of the New PubCo’s liquidation, merger, capital stock exchange or other similar transaction following the consummation of the transactions contemplated by the Business Combination Agreement which results in all of New PubCo’s shareholders having the right to exchange their New PubCo Ordinary Shares for cash, securities or other property subsequent to the Closing; or (viii) in an Acceleration Event; *provided, however*, that in the case of clauses (i) through (vi), these permitted transferees must enter into a written agreement with the SPAC agreeing to be bound by the Transfer restrictions herein and the other restrictions contained in this Sponsor Letter Agreement.

Contingent upon and effective as of the Effective Time, pursuant to Section 17.4 of the SPAC Governing Documents, the Sponsor, in its capacity as holder of one hundred percent (100%) of the Founder Shares, and subject to the last sentence of this Section 4, hereby irrevocably and unconditionally waives and agrees not to exercise, assert or perfect, any rights to adjustment or other anti-dilution protections with respect to the Initial Conversion Ratio (as defined in the SPAC Governing Documents), including those rights that would otherwise apply pursuant to Section 17.3 of the SPAC Governing Documents as a result of the issuance of New PubCo Ordinary Shares in connection with the transactions contemplated by the Business Combination Agreement or any Transaction Agreement pursuant to the PIPE Investment such that the New PubCo Ordinary Shares issued pursuant to the PIPE Investment are excluded from the determination of the number of New PubCo Ordinary Shares issuable upon conversion of the Founder Shares pursuant to Section 17.3 of the SPAC Governing Documents. For the avoidance of doubt, the foregoing waiver and agreement does not include the Sponsor's rights under Section 17.8 of the SPAC Governing Document, which provides that in no event may any Founder Share convert into New PubCo Ordinary Shares at a ratio that is less than one-for-one.

5. Certain Defined Terms. As used herein, (a) "Beneficially Own" has the meaning ascribed to it in the Exchange Act; and (b) "Transfer" shall mean the (i) direct or indirect transfer, sale or assignment of, offer to sell, contract or any agreement to sell, hypothecate, pledge, encumber grant of any option to purchase or otherwise dispose of, either voluntarily or involuntarily, or any agreement to dispose of, directly or indirectly, or establishment or increase of a put equivalent position or liquidation with respect to or decrease of a call equivalent position within the meaning of Section 16 of the Exchange Act and the rules and regulations of the SEC promulgated thereunder with respect to, any security, (ii) entry into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of any security, whether any such transaction is to be settled by delivery of such securities, in cash or otherwise, or (iii) public announcement of any intention to effect any transaction specified in clause (b)(i) or (b)(ii).

This Sponsor Letter Agreement may not be changed, amended, modified or waived (other than to correct a typographical error) as to any particular provision, except by a written instrument executed (i) prior to Closing, among the SPAC, Sponsor and the Company, or (ii) after the Closing, between Sponsor and New PubCo, it being acknowledged and agreed that the Company's execution of such an instrument will not be required after any valid termination of the Business Combination Agreement.

7. Successors and Assigns. No party hereto may, except as set forth herein, assign either this Sponsor Letter Agreement or any of its rights, interests, or obligations hereunder without the prior written consent of the other parties. Any purported assignment in violation of this Section shall be void and ineffectual and shall not operate to transfer or assign any interest or title to the purported assignee. This Sponsor Letter Agreement shall be binding on, and inure to the benefit of, the Sponsor, SPAC, New PubCo and the Company and their respective successors, heirs, personal representatives and assigns and permitted transferees.

- c) **No Conflict**. Neither the execution and delivery of this Agreement by the Equity Holder nor the performance of the Equity Holder's obligations hereunder (i) violates any provision of any Legal Requirements applicable to the Equity Holder, (ii) if the Equity Holder is not an individual, would, directly or indirectly, result in any breach of any provision of the Equity Holder's Governing Documents, (iii) conflicts with, result in a breach under or give rise to any right of termination of any document, agreement or instrument to which the Equity Holder is a party, or (iv) result in the creation or imposition of any mortgage, pledge, security interest, conditional sale or other title retention agreement, encumbrance, lien, easement, option, debt, charge, claim or restriction of any kind upon the Equity Interests.

- f) There is no Legal Proceeding pending or, to the Equity Holder’s knowledge, threatened against or involving the Equity Holder or any of his, her or its Affiliates that, if adversely decided or resolved, would reasonably be expected to adversely affect the ability of the Equity Holder to perform, or otherwise comply with, any of its covenants, agreements or obligations under this Agreement in any material respect.

ARTICLE II

REGISTRATIONS AND OFFERINGS

2.1 Shelf Registration.

2.1.1 Filing. Within thirty (30) calendar days following the Closing Date, the Company shall use commercially reasonable efforts to submit to or file with the Commission a Registration Statement for a Shelf Registration on Form F-1 (the “**Form F-1 Shelf**”) or a Registration Statement for a Shelf Registration on Form F-3 (the “**Form F-3 Shelf**”), if the Company is then eligible to use a Form F-3 Shelf, in each case, covering the resale of all the Registrable Securities (determined as of two (2) Business Days prior to such submission or filing) on a delayed or continuous basis and shall use its commercially reasonable efforts to have such Shelf declared effective as soon as practicable after the filing thereof, but no later than the earlier of (a) the ninetieth (90th) calendar day following the filing date thereof if the Commission notifies the Company that it will “review” the Registration Statement and (b) the tenth (10th) Business Day after the date the Company is notified (orally or in writing, whichever is earlier) by the Commission that the Registration Statement will not be “reviewed” or will not be subject to further review. Such Shelf shall provide for the resale of the Registrable Securities included therein pursuant to any method or combination of methods legally available to, and requested by, any Holder named therein. The Company shall maintain a Shelf in accordance with the terms hereof, and shall prepare and file with the Commission such amendments, including post-effective amendments, and supplements as may be necessary to keep a Shelf continuously effective, available for use to permit the Holders named therein to sell their Registrable Securities included therein and in compliance with the provisions of the Securities Act until such time as there are no longer any outstanding Registrable Securities. In the event the Company files a Form F-1 Shelf, the Company shall use its commercially reasonable efforts to convert the Form F-1 Shelf (and any Subsequent Shelf Registration Statement) to a Form F-3 Shelf as soon as practicable after the Company is eligible to use Form F-3. In no event shall a Holder be identified as a statutory underwriter in a Registration Statement unless requested by the Commission. The Company’s obligation under this Section 2.1.1, shall, for the avoidance of doubt, be subject to Section 3.4.

2.1.2 Subsequent Shelf Registration. If any Shelf ceases to be effective under the Securities Act for any reason at any time while Registrable Securities are still outstanding, the Company shall, subject to Section 3.4, use its commercially reasonable efforts to as promptly as is reasonably practicable cause such Shelf to again become effective under the Securities Act (including using its commercially reasonable efforts to obtain the prompt withdrawal of any order suspending the effectiveness of such Shelf), and shall use its commercially reasonable efforts to as promptly as is reasonably practicable amend such Shelf in a manner reasonably expected to result in the withdrawal of any order suspending the effectiveness of such Shelf or file an additional registration statement as a Shelf Registration (a “**Subsequent Shelf Registration Statement**”) registering the resale of all Registrable Securities (determined as of two (2) Business Days prior to such filing), and pursuant to any method or combination of methods legally available to, and requested by, any Holder named therein. If a Subsequent Shelf Registration Statement is filed, the Company shall use its commercially reasonable efforts to (i) cause such Subsequent Shelf Registration Statement to become effective under the Securities Act as promptly as is reasonably practicable after the filing thereof (it being agreed that the Subsequent Shelf Registration Statement shall be an automatic shelf registration statement (as defined in Rule 405 promulgated under the Securities Act) if the Company is a well-known seasoned issuer (as defined in Rule 405 promulgated under the Securities Act) at the most recent applicable eligibility determination date) and (ii) keep such Subsequent Shelf Registration Statement continuously effective, available for use to permit the Holders named therein to sell their Registrable Securities included therein and in compliance with the provisions of the Securities Act until such time as there are no longer any Registrable Securities. Any such Subsequent Shelf Registration Statement shall be on Form F-3 to the extent that the Company is eligible to use such form. Otherwise, such Subsequent Shelf Registration Statement shall be on another appropriate form. The Company’s obligation under this Section 2.1.2, shall, for the avoidance of doubt, be subject to Section 3.4.

2.1.3 Additional Registrable Securities. Subject to Section 3.4, in the event that any Holder holds Registrable Securities that are not registered for resale on a delayed or continuous basis, the Company, upon written request of one or more Holders holding, individually or collectively, at least five percent (5%) of the Registrable Securities, shall promptly use its commercially reasonable efforts to cause the resale of such Registrable Securities to be covered by either, at the Company’s option, any then available Shelf (including by means of a post-effective amendment) or by filing a Subsequent Shelf Registration Statement and cause the same to become effective as soon as practicable after such filing and such Shelf or Subsequent Shelf Registration Statement shall be subject to the terms hereof; provided, however, that the Company shall only be required to cause such additional Registrable Securities to be so covered once per calendar year for each of the Sponsor, a Founder and a Growth Investor.

2.1.4 Requests for Underwritten Shelf Takedowns. Subject to Section 3.4, at any time and from time to time when an effective Shelf is on file with the Commission, the Sponsor, a Founder or a Growth Investor (any of the Sponsor, a Founder or a Growth Investor being in such case, a “**Demanding Holder**”) may request to sell all or any portion of its Registrable Securities in an Underwritten Offering that is registered pursuant to the Shelf (each, an “**Underwritten Shelf Takedown**”); provided that the Company shall only be obligated to effect an Underwritten Shelf Takedown if such offering shall include Registrable Securities proposed to be sold by the Demanding Holder, either individually or together with other Demanding Holders, with a total offering price reasonably expected to exceed, net of underwriting discounts and commissions, in the aggregate, \$30 million (the “**Minimum Takedown Threshold**”). All requests for Underwritten Shelf Takedowns shall be made by giving written notice to the Company, which shall specify the approximate number of Registrable Securities proposed to be sold in the Underwritten Shelf Takedown. Subject to Section 2.4.4, the Company shall have the right to select the Underwriters for such offering (which shall consist of one or more reputable nationally recognized investment banks), subject to the majority-in-interest of the Demanding Holders’ prior approval (which shall not be unreasonably withheld, conditioned or delayed). The Sponsor, the Founders and the Growth Investors may each demand not more than two (2) Underwritten Shelf Takedowns pursuant to this Section 2.1.4 in any twelve (12)-month period, for an aggregate of not more than six (6) Underwritten Shelf Takedowns pursuant to this Section 2.1.4 in any twelve (12)-month period. Notwithstanding anything to the contrary in this Agreement, the

Company may effectuate any Underwritten Offering pursuant to any then effective Registration Statement, including a Form F-3, that is then available for such offering.

2.1.5 Reduction of Underwritten Offering. If the managing Underwriter or Underwriters in an Underwritten Shelf Takedown, in good faith, advises the Company, the Demanding Holders and the Holders requesting piggy back rights pursuant to this Agreement with respect to such Underwritten Shelf Takedown (the “**Requesting Holders**”) (if any) in writing that the dollar amount or number of Registrable Securities that the Demanding Holders and the Requesting Holders (if any) desire to sell, taken together with all other Ordinary Shares or other equity securities that the Company desires to sell and all other Ordinary Shares or other equity securities, if any, that have been requested to be sold in such Underwritten Offering pursuant to separate written contractual piggy-back registration rights held by any other stockholders of the Company, exceeds the maximum dollar amount or maximum number of equity securities that can be sold in the Underwritten Offering without adversely affecting the proposed offering price, the timing, the distribution method, or the probability of success of such offering (such maximum dollar amount or maximum number of such securities, as applicable, the “**Maximum Number of Securities**”), then the Company shall include in such Underwritten Offering, before including any Ordinary Shares or other equity securities proposed to be sold by Company or by other holders of Ordinary Shares or other equity securities, the Registrable Securities of (i) first, the Demanding Holders that can be sold without exceeding the Maximum Number of Securities (pro rata based on the respective number of Registrable Securities that each Demanding Holder has requested be included in such Underwritten Shelf Takedown and the aggregate number of Registrable Securities that all of the Demanding Holders have requested be included in such Underwritten Shelf Takedown), (ii) second, to the extent that the Maximum Number of Securities has not been reached under the foregoing clause (i), the Requesting Holders (if any) (pro rata based on the respective number of Registrable Securities that each Requesting Holder (if any) has requested be included in such Underwritten Shelf Takedown and the aggregate number of Registrable Securities that all of the Requesting Holders have requested be included in such Underwritten Shelf Takedown) that can be sold without exceeding the Maximum Number of Securities, and (iii) third, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (i) and (ii), the Company and such other stockholders (if any) (in a proportion to be determined by the Company pursuant to such separate written contractual piggy-back registration rights or at the exclusive discretion of the Company in the absence of such agreement) that can be sold without exceeding the Maximum Number of Securities.

2.1.6 Withdrawal. Prior to the filing of the applicable “red herring” prospectus or prospectus supplement used for marketing such Underwritten Shelf Takedown, a majority-in-interest of the Demanding Holders initiating an Underwritten Shelf Takedown shall have the right to withdraw from such Underwritten Shelf Takedown for any or no reason whatsoever upon written notification (a “**Withdrawal Notice**”) to the Company and the Underwriter or Underwriters (if any) of their intention to withdraw from such Underwritten Shelf Takedown; provided that the Sponsor, a Founder or a Growth Investor may elect to have the Company continue an Underwritten Shelf Takedown if the Minimum Takedown Threshold would still be satisfied by the Registrable Securities proposed to be sold in the Underwritten Shelf Takedown by the Sponsor, the Founders, the Growth Investors or any of their respective Permitted Transferees, as applicable. If withdrawn, a demand for an Underwritten Shelf Takedown shall constitute a demand for an Underwritten Shelf Takedown by the withdrawing Demanding Holder for purposes of Section 2.1.4, unless either (i) such Demanding Holder has not previously withdrawn any Underwritten Shelf Takedown or (ii) such Demanding Holder reimburses the Company for all Registration Expenses with respect to such Underwritten Shelf Takedown (or, if there is more than one Demanding Holder, a pro rata portion of such Registration Expenses based on the respective number of Registrable Securities that each Demanding Holder has requested be included in such Underwritten Shelf Takedown); provided that, if the Sponsor, a Founder or a Growth Investor elects to continue an Underwritten Shelf Takedown pursuant to the proviso in the immediately preceding sentence, such Underwritten Shelf Takedown shall instead count as an Underwritten Shelf Takedown demanded by the Sponsor, such Founder or such Growth Investor, as applicable, for purposes of Section 2.1.4. Following the receipt of any Withdrawal Notice, the Company shall promptly forward such Withdrawal Notice to any other Holders that had elected to participate in such Shelf Takedown. Notwithstanding anything to the contrary in this Agreement, the Company

shall be responsible for the Registration Expenses incurred in connection with a Shelf Takedown prior to its withdrawal under this [Section 2.1.6](#), other than if a Demanding Holder elects to pay such Registration Expenses pursuant to clause (ii) of the second sentence of this [Section 2.1.6](#).

2.2 [Piggyback Registration](#).

2.2.1 [Piggyback Rights](#). Subject to [Section 2.4.3](#), if the Company or any Holder proposes to conduct a registered offering of, or if the Company proposes to file a Registration Statement under the Securities Act with respect to the Registration of, equity securities, or securities or other obligations exercisable or exchangeable for, or convertible into equity securities, for its own account or for the account of stockholders of the Company (or by the Company and by the stockholders of the Company including, without limitation, an Underwritten Shelf Takedown pursuant to [Section 2.1](#)), other than a Registration Statement (or any registered offering with respect thereto) (i) filed in connection with any employee stock option or other benefit plan, (ii) pursuant to a Registration Statement on Form F-4 (or similar form that relates to a transaction subject to Rule 145 under the Securities Act or any successor rule thereto), (iii) for an offering of debt that is convertible into equity securities of the Company, (iv) for a dividend reinvestment plan, (v) a Block Trade or (vi) an Other Coordinated Offering, then the Company shall give written notice of such proposed offering to all of the Holders of Registrable Securities as soon as practicable but not less than ten (10) days before the anticipated filing date of such Registration Statement or, in the case of an Underwritten Offering pursuant to a Shelf Registration, the applicable “red herring” prospectus or prospectus supplement used for marketing such offering, which notice shall (A) describe the amount and type of securities to be included in such offering, the intended method(s) of distribution, and the name of the proposed managing Underwriter or Underwriters, if any, in such offering, and (B) offer to all of the Holders of Registrable Securities the opportunity to include in such registered offering such number of Registrable Securities as such Holders may request in writing within five (5) days after receipt of such written notice (such registered offering, a “**Piggyback Registration**”). Subject to [Section 2.2.2](#), the Company shall, in good faith, cause such Registrable Securities to be included in such Piggyback Registration and, if applicable, shall use its commercially reasonable efforts to cause the managing Underwriter or Underwriters of such Piggyback Registration to permit the Registrable Securities requested by the Holders pursuant to this [Section 2.2.1](#) to be included therein on the same terms and conditions as any similar securities of the Company included in such registered offering and to permit the sale or other disposition of such Registrable Securities in accordance with the intended method(s) of distribution thereof. The inclusion of any Holder’s Registrable Securities in a Piggyback Registration shall be subject to such Holder agreement to enter into an underwriting agreement in customary form with the Underwriter(s) selected for such Underwritten Offering.

2.2.2 [Reduction of Piggyback Registration](#). If the managing Underwriter or Underwriters in an Underwritten Offering that is to be a Piggyback Registration, in good faith, advises the Company and the Holders of Registrable Securities participating in the Piggyback Registration in writing that the dollar amount or number of Ordinary Shares or other equity securities that the Company desires to sell, taken together with (i) the Ordinary Shares or other equity securities, if any, as to which Registration or a registered offering has been demanded pursuant to separate written contractual arrangements with persons or entities other than the Holders of Registrable Securities hereunder, (ii) the Registrable Securities as to which registration has been requested pursuant to [Section 2.2](#) hereof, and (iii) the Ordinary Shares or other equity securities, if any, as to which Registration or a registered offering has been requested pursuant to separate written contractual piggy-back registration rights of persons or entities other than the Holders of Registrable Securities hereunder, exceeds the Maximum Number of Securities, then:

(a) if the Registration or registered offering is undertaken for the Company’s account, the Company shall include in any such Registration or registered offering (A) first, the Ordinary Shares or other equity securities that the Company desires to sell, which can be sold without exceeding the Maximum Number of Securities; (B) second, to the extent that the Maximum Number of Securities has not been reached under the foregoing clause (A), the Registrable Securities of Holders exercising their rights to register their Registrable Securities pursuant to [Section 2.2.1](#), pro rata, based on the respective number of Registrable Securities that each

Holder has requested be included in such Underwritten Offering and the aggregate number of Registrable Securities that the Holders have requested to be included in such Underwritten Offering, which can be sold without exceeding the Maximum Number of Securities; and (C) third, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (A) and (B), the Ordinary Shares or other equity securities, if any, as to which Registration or a registered offering has been requested pursuant to separate written contractual piggy-back registration rights of persons or entities other than the Holders of Registrable Securities hereunder, which can be sold without exceeding the Maximum Number of Securities;

(b) if the Registration or registered offering is pursuant to a demand by persons or entities other than the Holders of Registrable Securities pursuant to a separate written contractual arrangement, then the Company shall include in any such Registration or registered offering (A) first, the Ordinary Shares or other equity securities, if any, of such requesting persons or entities, other than the Holders of Registrable Securities, which can be sold without exceeding the Maximum Number of Securities; (B) second, to the extent that the Maximum Number of Securities has not been reached under the foregoing clause (A), the Registrable Securities of Holders exercising their rights to register their Registrable Securities pursuant to Section 2.2.1, pro rata, based on the respective number of Registrable Securities that each Holder has requested be included in such Underwritten Offering and the aggregate number of Registrable Securities that the Holders have requested to be included in such Underwritten Offering, which can be sold without exceeding the Maximum Number of Securities; (C) third, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (A) and (B), the Ordinary Shares or other equity securities that the Company desires to sell, which can be sold without exceeding the Maximum Number of Securities; and (D) fourth, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (A), (B) and (C), the Ordinary Shares or other equity securities, if any, as to which Registration or a registered offering has been requested pursuant to separate written contractual piggy-back registration rights of persons or entities other than the Holders of Registrable Securities hereunder, which can be sold without exceeding the Maximum Number of Securities; and

(c) if the Registration or registered offering and Underwritten Shelf Takedown is pursuant to a request by Holder(s) of Registrable Securities pursuant to Section 2.1 hereof, then the Company shall include in any such Registration or registered offering securities in the priority set forth in Section 2.1.5.

2.2.3 Piggyback Registration Withdrawal. Any Holder of Registrable Securities (other than a Demanding Holder, whose right to withdraw from an Underwritten Shelf Takedown, and related obligations, shall be governed by Section 2.1.6) shall have the right to withdraw from a Piggyback Registration for any or no reason whatsoever upon written notification to the Company and the Underwriter or Underwriters (if any) of his, her or its intention to withdraw from such Piggyback Registration prior to the effectiveness of the Registration Statement filed with the Commission with respect to such Piggyback Registration or, in the case of a Piggyback Registration pursuant to a Shelf Registration, the filing of the applicable “red herring” prospectus or prospectus supplement with respect to such Piggyback Registration used for marketing such transaction. The Company (whether on its own good faith determination or as the result of a request for withdrawal by persons or entities pursuant to separate written contractual obligations) may withdraw a Registration Statement filed with the Commission in connection with a Piggyback Registration (which, in no circumstance, shall include a Shelf) at any time prior to the effectiveness of such Registration Statement. Notwithstanding anything to the contrary in this Agreement (other than Section 2.1.6), the Company shall be responsible for the Registration Expenses incurred in connection with the Piggyback Registration prior to its withdrawal under this Section 2.2.3.

2.2.4 Unlimited Piggyback Registration Rights. For purposes of clarity, subject to Section 2.1.6, any Piggyback Registration effected pursuant to Section 2.2 hereof shall not be counted as a demand for an Underwritten Shelf Takedown under Section 2.1.4 hereof.

2.3 Market Stand-off. In connection with any Underwritten Offering of equity securities of the Company (other than a Block Trade or Other Coordinated Offering), if requested by the managing Underwriters, each

Holder that is (a) an executive officer, (b) a director or (c) Holder in excess of five percent (5%) of the outstanding Ordinary Shares (and for which it is customary for such a Holder to agree to a lock-up) agrees that it shall not transfer any Ordinary Shares or other equity securities of the Company (other than those included in such offering pursuant to this Agreement), without the prior written consent of the Company, during the ninety (90)-day period (or such shorter time agreed to by the managing Underwriters) beginning on the date of pricing of such offering, except as expressly permitted by such lock-up agreement or in the event the managing Underwriters otherwise agree by written consent. Each such Holder agrees to execute a customary lock-up agreement in favor of the Underwriters to such effect (in each case on substantially the same terms and conditions as all such Holders).

2.4 Block Trades; Other Coordinated Offerings.

2.4.1 Notwithstanding any other provision of this Article II, but subject to Section 3.4, at any time and from time to time when an effective Form F-3 Shelf is on file with the Commission, if a Demanding Holder wishes to engage in (a) an underwritten registered offering not involving a “roadshow” (including without limitation a same day trade, overnight trade or similar transaction) off of such Form F-3 Shelf, an offer commonly known as a “block trade” (a “**Block Trade**”), or (b) an “at the market” or similar registered offering off of such Form F-3 Shelf through a broker, sales agent or distribution agent, whether as agent or principal (an “**Other Coordinated Offering**”), in each case, (x) with a total offering price reasonably expected to exceed \$30 million in the aggregate, net of underwriting discounts and commissions or (y) with respect to all remaining Registrable Securities held by the Demanding Holder, provided that the total offering price is reasonably expected to exceed \$10 million in the aggregate, then such Demanding Holder only needs to notify the Company of the Block Trade or Other Coordinated Offering at least three (3) Business Days prior to the day such offering is to commence and the Company shall use its commercially reasonable efforts to facilitate such Block Trade or Other Coordinated Offering; provided that the Demanding Holders representing a majority of the Registrable Securities wishing to engage in the Block Trade or Other Coordinated Offering shall use commercially reasonable efforts to work with the Company and any Underwriters, brokers, sales agents or placement agents prior to making such request in order to facilitate preparation of the registration statement, prospectus and other offering documentation related to the Block Trade or Other Coordinated Offering.

2.4.2 Prior to the filing of the applicable “red herring” prospectus or prospectus supplement used in connection with a Block Trade or Other Coordinated Offering, a majority-in-interest of the Demanding Holders initiating such Block Trade or Other Coordinated Offering shall have the right to submit a Withdrawal Notice to the Company, the Underwriter or Underwriters (if any) and any brokers, sales agents or placement agents (if any) of their intention to withdraw from such Block Trade or Other Coordinated Offering. Notwithstanding anything to the contrary in this Agreement, the Company shall be responsible for the Registration Expenses incurred in connection with a Block Trade or Other Coordinated Offering prior to its withdrawal under this Section 2.4.2.

2.4.3 Notwithstanding anything to the contrary in this Agreement, Section 2.2 shall not apply to a Block Trade or Other Coordinated Offering initiated by a Demanding Holder pursuant to this Agreement.

2.4.4 The Demanding Holder in a Block Trade or Other Coordinated Offering shall have the right to select the Underwriters and any brokers, sales agents or placement agents (if any) for such Block Trade or Other Coordinated Offering (in each case, which shall consist of one or more reputable nationally recognized investment banks).

2.4.5 A Demanding Holder in the aggregate may demand no more than two (2) Block Trades or Other Coordinated Offerings pursuant to this Section 2.4 in any twelve (12)-month period. For the avoidance of doubt, any Block Trade or Other Coordinated Offering effected pursuant to this Section 2.4 shall not be counted as a demand for an Underwritten Shelf Takedown pursuant to Section 2.1.4 hereof.

ARTICLE III

COMPANY PROCEDURES

3.1 General Procedures. If at any time on or after the date hereof the Company is required to effect the Registration of Registrable Securities, the Company shall use its commercially reasonable efforts to effect such Registration to permit the sale of such Registrable Securities in accordance with the intended plan of distribution thereof, and pursuant thereto the Company shall, as soon as reasonably practicable:

3.1.1 prepare and file with the Commission as soon as practicable a Registration Statement with respect to such Registrable Securities and use its commercially reasonable efforts to cause such Registration Statement to become effective and remain effective until all Registrable Securities covered by such Registration Statement are sold in accordance with the intended plan of distribution set forth in such Registration Statement or have ceased to be Registrable Securities;

3.1.2 prepare and file with the Commission such amendments and post-effective amendments to the Registration Statement, and such supplements to the Prospectus, as may be reasonably requested by the majority-in-interest of the Holders with Registrable Securities registered on such Registration Statement or any Underwriter of Registrable Securities or as may be required by the rules, regulations or instructions applicable to the registration form used by the Company or by the Securities Act or rules and regulations thereunder to keep the Registration Statement effective until all Registrable Securities covered by such Registration Statement are sold in accordance with the intended plan of distribution set forth in such Registration Statement or supplement to the Prospectus or have ceased to be Registrable Securities;

3.1.3 prior to filing a Registration Statement or Prospectus, or any amendment or supplement thereto, furnish without charge to the Underwriters, if any, and the Holders of Registrable Securities included in such Registration, and such Holders' legal counsel, copies of such Registration Statement as proposed to be filed, each amendment and supplement to such Registration Statement (in each case including all exhibits thereto and documents incorporated by reference therein), the Prospectus included in such Registration Statement (including each preliminary Prospectus), and such other documents as the Underwriters and the Holders of Registrable Securities included in such Registration or the legal counsel for any such Holders may reasonably request in order to facilitate the disposition of the Registrable Securities owned by such Holders; provided that the Company shall have no obligation to furnish any documents publicly filed or furnished with the Commission pursuant to the Electronic Data Gathering, Analysis and Retrieval System ("**EDGAR**");

3.1.4 prior to any public offering of Registrable Securities, use its commercially reasonable efforts to (i) register or qualify the Registrable Securities covered by the Registration Statement under such securities or "blue sky" laws of such jurisdictions in the United States as the Holders of Registrable Securities included in such Registration Statement (in light of their intended plan of distribution) may request (or provide evidence satisfactory to such Holders that the Registrable Securities are exempt from such registration or qualification) and (ii) take such action necessary to cause such Registrable Securities covered by the Registration Statement to be registered with or approved by such other governmental authorities as may be necessary by virtue of the business and operations of the Company and do any and all other acts and things that may be necessary or advisable to enable the Holders of Registrable Securities included in such Registration Statement to consummate the disposition of such Registrable Securities in such jurisdictions; provided, however, that the Company shall not be required to qualify generally to do business in any jurisdiction where it would not otherwise be required to qualify or take any action to which it would be subject to general service of process or taxation in any such jurisdiction where it is not then otherwise so subject;

3.1.5 cause all such Registrable Securities to be listed on each national securities exchange on which similar securities issued by the Company are then listed;

3.1.6 provide a transfer agent or warrant agent, as applicable, and registrar for all such Registrable Securities no later than the effective date of such Registration Statement;

3.1.7 advise each seller of such Registrable Securities, promptly after it shall receive notice or obtain knowledge thereof, of the issuance of any stop order by the Commission suspending the effectiveness of such Registration Statement or the initiation or threatening of any proceeding for such purpose and promptly use its reasonable best efforts to prevent the issuance of any stop order or to obtain its withdrawal if such stop order should be issued;

3.1.8 at least three (3) days prior to the filing of any Registration Statement or Prospectus or any amendment or supplement to such Registration Statement or Prospectus (or such shorter period of time as may be (a) necessary in order to comply with the Securities Act, the Exchange Act, and the rules and regulations promulgated under the Securities Act or Exchange Act, as applicable or (b) advisable in order to reduce the number of days that sales are suspended pursuant to [Section 3.4](#)), furnish a copy thereof to each seller of such Registrable Securities or its counsel (excluding any exhibits thereto and any filing made under the Exchange Act that is to be incorporated by reference therein);

3.1.9 notify the Holders of Registrable Securities at any time when a Prospectus relating to such Registration Statement is required to be delivered under the Securities Act, of the happening of any event as a result of which the Prospectus included in such Registration Statement, as then in effect, includes a Misstatement, and then to correct such Misstatement as set forth in [Section 3.4](#);

3.1.10 in the event of an Underwritten Offering, a Block Trade, an Other Coordinated Offering, or sale by a broker, placement agent or sales agent pursuant to such Registration, in each of the following cases to the extent customary for a transaction of its type, permit a representative of the Holders, the Underwriters or other financial institutions facilitating such Underwritten Offering, Block Trade, Other Coordinated Offering or other sale pursuant to such Registration, if any, and any attorney, consultant or accountant retained by such Holders or Underwriter to participate, at each such person's or entity's own expense, in the preparation of the Registration Statement, and cause the Company's officers, directors and employees to supply all information reasonably requested by any such representative, Underwriter, financial institution, attorney, consultant or accountant in connection with the Registration; provided, however, that such representatives, Underwriters or financial institutions agree to confidentiality arrangements in form and substance reasonably satisfactory to the Company, prior to the release or disclosure of any such information;

3.1.11 obtain a "cold comfort" letter from the Company's independent registered public accountants in the event of an Underwritten Offering, a Block Trade, an Other Coordinated Offering or sale by a broker, placement agent or sales agent pursuant to such Registration (subject to such Underwriters, broker, placement agent or sales agent providing such certification or representation reasonably requested by the Company's independent registered public accountants and the Company's counsel) in customary form and covering such matters of the type customarily covered by "cold comfort" letters for a transaction of its type as the managing Underwriter may reasonably request, and reasonably satisfactory to a majority-in-interest of the participating Holders;

3.1.12 in the event of an Underwritten Offering, a Block Trade, an Other Coordinated Offering or sale by a broker, placement agent or sales agent pursuant to such Registration, on the date the Registrable Securities are delivered for sale pursuant to such Registration, to the extent customary for a transaction of its type, obtain an opinion and negative assurance letter, dated such date, of counsel representing the Company for the purposes of such Registration, addressed to the participating Holders, the broker, placement agents or sales agent, if any, and the Underwriters, if any, covering such legal matters with respect to the Registration in respect of which such opinion is being given as the participating Holders, broker, placement agent, sales agent or Underwriter may reasonably request and as are customarily included in such opinions and negative assurance letters;

3.1.13 in the event of any Underwritten Offering, a Block Trade, an Other Coordinated Offering or sale by a broker, placement agent or sales agent pursuant to such Registration, enter into and perform its obligations under

Table of Contents

an underwriting or other purchase or sales agreement, in usual and customary form, with the managing Underwriter or the broker, placement agent or sales agent of such offering or sale;

3.1.14 make available to its security holders, as soon as reasonably practicable, an earnings statement covering the period of at least twelve (12) months beginning with the first day of the Company's first full calendar quarter after the effective date of the Registration Statement which satisfies the provisions of Section 11(a) of the Securities Act and Rule 158 thereunder (or any successor rule promulgated by the Commission then in effect);

3.1.15 with respect to an Underwritten Offering pursuant to Section 2.1.4, use its commercially reasonable efforts to make available senior executives of the Company to participate in customary "road show" presentations that may be reasonably requested by the Underwriter in such Underwritten Offering; and

3.1.16 otherwise, in good faith, cooperate reasonably with, and take such customary actions as may reasonably be requested by the participating Holders, consistent with the terms of this Agreement, in connection with such Registration.

Notwithstanding the foregoing, the Company shall not be required to provide any documents or information to an Underwriter, broker, sales agent or placement agent if such Underwriter, broker, sales agent or placement agent has not then been named with respect to the applicable Underwritten Offering or other offering involving a Registration as an Underwriter, broker, sales agent or placement agent, as applicable.

3.2 Registration Expenses. The Registration Expenses of all Registrations shall be borne by the Company. It is acknowledged by the Holders that the Holders shall bear all incremental selling expenses relating to the sale of Registrable Securities, such as Underwriters' commissions and discounts, brokerage fees and, other than as set forth in the definition of "Registration Expenses," all fees and expenses of any legal counsel representing the Holders jointly as a single class.

3.3 Requirements for Participation in Registration Statement in Offerings. Notwithstanding anything in this Agreement to the contrary, if any Holder does not provide the Company with its requested Holder Information in writing, the Company may exclude such Holder's Registrable Securities from the applicable Registration Statement or Prospectus if the Company reasonably determines, based on the advice of counsel, that it is necessary or advisable to include such information in the applicable Registration Statement or Prospectus and such Holder continues thereafter to withhold such information. In addition, no person or entity may participate in any Underwritten Offering or other offering for equity securities of the Company pursuant to a Registration initiated by the Company hereunder unless such person or entity (i) agrees to sell such person's or entity's securities on the basis provided in any underwriting, sales, distribution or placement arrangements approved by the Company and (ii) completes and executes all customary questionnaires, powers of attorney, indemnities, lock-up agreements, underwriting or other agreements and other customary documents as may be reasonably required under the terms of such underwriting, sales, distribution or placement arrangements. For the avoidance of doubt, the exclusion of a Holder's Registrable Securities as a result of this Section 3.3 shall not affect the Registration of any other Holder's Registrable Securities to be included in such Registration.

3.4 Suspension of Sales; Adverse Disclosure; Restrictions on Registration Rights.

3.4.1 Upon receipt of written notice from the Company that a Registration Statement or Prospectus contains a Misstatement, each of the Holders shall forthwith discontinue disposition of Registrable Securities until it has received copies of a supplemented or amended Prospectus correcting the Misstatement (it being understood that the Company hereby covenants to prepare and file such supplement or amendment as soon as reasonably practicable after the time of such notice), or until it is advised in writing by the Company that the use of the Prospectus may be resumed.

3.4.2 Subject to [Section 3.4.4](#), if (i) the filing, initial effectiveness or continued use of a Registration Statement in respect of any Registration at any time would (a) require the Company to make an Adverse Disclosure, (b) require the inclusion in such Registration Statement of financial statements that are unavailable to the Company for reasons beyond the Company's control, or (c) in the good faith judgment of the majority of the Board such Registration, be seriously detrimental to the Company and the majority of the Board concludes as a result that it is essential to defer such filing, initial effectiveness or continued use at such time, or (ii) the majority of the Board determines to delay the filing or initial effectiveness of, or suspend use of, a Registration Statement and such delay or suspension arises out of, or is a result of, or is related to or is in connection with any statement or communication that relates to changes to historical accounting policies of Company or the SPAC in connection with any order, directive, guideline, comment or recommendation from the Commission with respect to securities issued in, or other matters related to, the SPAC's initial public offering, then the Company may, upon giving prompt written notice of such action to the Holders (which notice shall not specify the nature of the event giving rise to such delay or suspension), delay the filing or initial effectiveness of, or suspend use of, such Registration Statement for the shortest period of time determined in good faith by the Company to be necessary for such purpose. In the event the Company exercises its rights under this [Section 3.4.2](#), the Holders agree to suspend, immediately upon their receipt of the notice referred to above, their use of the Prospectus relating to any Registration in connection with any sale or offer to sell Registrable Securities until such Holder receives written notice from the Company that such sales or offers of Registrable Securities may be resumed, and in each case maintain the confidentiality of such notice and its contents.

3.4.3 Subject to [Section 3.4.4](#), (a) during the period starting with the date sixty (60) days prior to the Company's good faith estimate of the date of the filing of, and ending on a date one hundred and twenty (120) days after the effective date of, a Company-initiated Registration and provided that the Company continues to actively employ, in good faith, all commercially reasonable efforts to maintain the effectiveness of the applicable Registration Statement, or (b) if, pursuant to [Section 2.1.4](#), Holders have requested an Underwritten Shelf Takedown and the Company and Holders are unable to obtain the commitment of underwriters to firmly underwrite such offering, the Company may, upon giving prompt written notice of such action to the Holders, delay any other registered offering pursuant to [Section 2.1.4](#) or [2.4](#).

3.4.4 The right to delay or suspend any filing, initial effectiveness or continued use of a Registration Statement pursuant to [Section 3.4.2](#) or a registered offering pursuant to [Section 3.4.3](#) shall not be exercised by the Company, on more than three (3) occasions or for more than ninety (90) consecutive calendar days or more than one hundred and twenty (120) total calendar days in each case, during any twelve (12)-month period.

3.4.5 Notwithstanding anything herein to the contrary, if the Commission prevents the Company from including any or all of the Registrable Securities proposed to be registered for resale under a Registration Statement due to limitations on the use of Rule 415 of the Securities Act for the resale of the Registrable Securities by the applicable Holders or otherwise, (a) such Registration Statement shall register for resale such number of Registrable Securities which is equal to the maximum number of Registrable Securities as is permitted by the Commission and (b) the number of Registrable Securities to be registered for each selling Holder named in the Registration Statement shall be reduced pro rata among all such selling Holders; and as promptly as practicable after being permitted to register additional Registrable Securities under Rule 415 under the Securities Act, the Company shall amend the Registration Statement or file a new Registration Statement to register such Registrable Securities not included in the initial Registration Statement and shall use commercially reasonable efforts to have such amendment or Registration Statement to become effective as promptly as practicable.

3.5 [Reporting Obligations](#) 3.6 . As long as any Holder shall own Registrable Securities, the Company, at all times while it shall be a reporting company under the Exchange Act, covenants to file timely (or obtain extensions in respect thereof and file within the applicable grace period) all reports required to be filed by the Company after the date hereof pursuant to Sections 13(a) or 15(d) of the Exchange Act and to promptly furnish the Holders with true and complete copies of all such filings; provided that any documents publicly filed or furnished with the Commission pursuant to EDGAR shall be deemed to have been furnished or delivered to the

Holders pursuant to this [Section 3.5](#). The Company further covenants that it shall take such further action as any Holder may reasonably request, all to the extent required from time to time to enable such Holder to sell Ordinary Shares held by such Holder without registration under the Securities Act within the limitation of the exemptions provided by Rule 144. Upon the request of any Holder, the Company shall deliver to such Holder a written certification of a duly authorized officer as to whether it has complied with such requirements.

ARTICLE IV

INDEMNIFICATION AND CONTRIBUTION

4.1 Indemnification.

4.1.1 The Company agrees to indemnify, to the extent permitted by law, each Holder of Registrable Securities, its officers, directors and agents and each person or entity who controls such Holder (within the meaning of the Securities Act) against all losses, claims, damages, liabilities and out-of-pocket expenses (including, without limitation, reasonable and documented attorneys' fees) resulting from any untrue or alleged untrue statement of material fact contained in or incorporated by reference in any Registration Statement, Prospectus or preliminary Prospectus or any amendment thereof or supplement thereto or any omission or alleged omission of a material fact required to be stated therein or necessary to make the statements therein not misleading, except insofar as the same are caused by or contained in any information or affidavit furnished in writing to the Company by such Holder expressly for use therein. The Company shall indemnify the Underwriters, their officers and directors and each person who controls such Underwriters (within the meaning of the Securities Act) to the same extent as provided in the foregoing with respect to the indemnification of the Holder.

4.1.2 In connection with any Registration Statement in which a Holder of Registrable Securities is participating, such Holder shall furnish (or caused to be furnished) to the Company in writing such information and affidavits as the Company reasonably requests for use in connection with any such Registration Statement or Prospectus (the "**Holder Information**") and, to the extent permitted by law, shall indemnify the Company, its directors and officers and agents and each person or entity who controls the Company (within the meaning of the Securities Act) against any and all losses, claims, damages, liabilities and out-of-pocket expenses (including without limitation reasonable and documented outside attorneys' fees) resulting from any untrue or alleged untrue statement of material fact contained in or incorporated by reference in any Registration Statement, Prospectus or preliminary Prospectus or any amendment thereof or supplement thereto or any omission or alleged omission of a material fact required to be stated therein or necessary to make the statements therein not misleading, but only to the extent that such untrue statement is contained in (or not contained in, in the case of an omission) any information or affidavit so furnished in writing by or on behalf of such Holder expressly for use therein; provided, however, that the obligation to indemnify shall be several, not joint and several, among such Holders of Registrable Securities, and the total liability of each such Holder of Registrable Securities shall be in proportion to and limited to the net proceeds received by such Holder from the sale of Registrable Securities pursuant to such Registration Statement. The Holders of Registrable Securities shall indemnify the Underwriters, their officers, directors and each person or entity who controls such Underwriters (within the meaning of the Securities Act) to the same extent as provided in the foregoing with respect to indemnification of the Company.

4.1.3 Any person or entity entitled to indemnification herein shall (i) give prompt written notice to the indemnifying party of any claim with respect to which it seeks indemnification (provided that the failure to give prompt notice shall not impair any person's or entity's right to indemnification hereunder to the extent such failure has not materially prejudiced the indemnifying party) and (ii) unless in such indemnified party's reasonable judgment a conflict of interest between such indemnified and indemnifying parties may exist with respect to such claim, permit such indemnifying party to assume the defense of such claim with counsel reasonably satisfactory to the indemnified party. If such defense is assumed, the indemnifying party shall not be

Table of Contents

subject to any liability for any settlement made by the indemnified party without its consent (but such consent shall not be unreasonably withheld). An indemnifying party who is not entitled to, or elects not to, assume the defense of a claim shall not be obligated to pay the fees and expenses of more than one counsel (plus local counsel) for all parties indemnified by such indemnifying party with respect to such claim, unless in the reasonable judgment of any indemnified party a conflict of interest may exist between such indemnified party and any other of such indemnified parties with respect to such claim. No indemnifying party shall, without the consent of the indemnified party, consent to the entry of any judgment or enter into any settlement which cannot be settled in all respects by the payment of money (and such money is so paid by the indemnifying party pursuant to the terms of such settlement) or which settlement includes a statement or admission of fault and culpability on the part of such indemnified party or which settlement does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect to such claim or litigation.

4.1.4 The indemnification provided for under this Agreement shall remain in full force and effect regardless of any investigation made by or on behalf of the indemnified party or any officer, director or controlling person or entity of such indemnified party and shall survive the transfer of securities. The Company and each Holder of Registrable Securities participating in an offering also agrees to make such provisions as are reasonably requested by any indemnified party for contribution to such party in the event the Company's or such Holder's indemnification is unavailable for any reason.

4.1.5 If the indemnification provided under Section 4.1 hereof from the indemnifying party is unavailable or insufficient to hold harmless an indemnified party in respect of any losses, claims, damages, liabilities and out-of-pocket expenses referred to herein, then the indemnifying party, in lieu of indemnifying the indemnified party, shall contribute to the amount paid or payable by the indemnified party as a result of such losses, claims, damages, liabilities and out-of-pocket expenses in such proportion as is appropriate to reflect the relative fault of the indemnifying party and the indemnified party, as well as any other relevant equitable considerations. The relative fault of the indemnifying party and indemnified party shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact, was made by (or not made by, in the case of an omission), or relates to information supplied by (or not supplied by, in the case of an omission), such indemnifying party or indemnified party, and the indemnifying party's and indemnified party's relative intent, knowledge, access to information and opportunity to correct or prevent such action; provided, however, that the liability of any Holder under this Section 4.1.5 shall be limited to the amount of the net proceeds received by such Holder in such offering giving rise to such liability. The amount paid or payable by a party as a result of the losses or other liabilities referred to above shall be deemed to include, subject to the limitations set forth in Sections 4.1.1, 4.1.2 and 4.1.3 above, any legal or other fees, charges or out-of-pocket expenses reasonably incurred by such party in connection with any investigation or proceeding. The parties hereto agree that it would not be just and equitable if contribution pursuant to this Section 4.1.5 were determined by pro rata allocation or by any other method of allocation, which does not take account of the equitable considerations referred to in this Section 4.1.5. No person or entity guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution pursuant to this Section 4.1.5 from any person or entity who was not guilty of such fraudulent misrepresentation.

Any transfer or assignment made other than as provided in this Section 5.2 shall be null and void.

5.4 Governing Law; Venue. NOTWITHSTANDING THE PLACE WHERE THIS AGREEMENT MAY BE EXECUTED BY ANY OF THE PARTIES HERETO, THE PARTIES EXPRESSLY AGREE THAT (A) THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED UNDER THE LAWS OF THE STATE OF DELAWARE AND (B) THE VENUE FOR ANY ACTION TAKEN WITH RESPECT TO THIS AGREEMENT SHALL BE THE COURT OF CHANCERY OF THE STATE OF DELAWARE (OR, TO THE EXTENT SUCH COURT DOES NOT HAVE SUBJECT MATTER JURISDICTION, THE SUPERIOR COURT OF THE STATE OF DELAWARE), OR, IF IT HAS OR CAN ACQUIRE JURISDICTION, IN THE UNITED STATES DISTRICT COURT FOR THE DISTRICT OF DELAWARE.

5.5 TRIAL BY JURY. EACH PARTY HERETO ACKNOWLEDGES AND AGREES THAT ANY CONTROVERSY WHICH MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND, THEREFORE, EACH SUCH PARTY HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT SUCH PARTY MAY HAVE TO A TRIAL BY JURY IN RESPECT TO ANY ACTION DIRECTLY OR INDIRECTLY ARISING OUT OF, UNDER OR IN CONNECTION WITH OR RELATING TO THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT.

No course of dealing between any Holder or the Company and any other party hereto or any failure or delay on the part of a Holder or the Company in exercising any rights or remedies under this Agreement shall operate as a waiver of any rights or remedies of any Holder or the Company. Such Joinder shall specify the rights and obligations of the applicable Additional Holder under this Agreement. 5.11 Severability. It is the desire and intent of the parties that the provisions of this Agreement be enforced to the fullest extent permissible under the laws and public policies applied in each jurisdiction in which enforcement is sought.
